INDEX

federal register

index

April 1975

Volume 40—Numbers 63–84

Pages 14565–18975

This INDEX is a consolidation of contents entries appearing in this month's issue of the FEDERAL REGISTER. It is published monthly, quarterly, and annually.

A GENERAL INDEX to the entire Code of Federal Regulations is available as of July 1, 1974.

Numerical Finding Aids. CUMULATIVE LIST OF CFR SECTIONS AFFECTED is published monthly and is cumulated each month, keyed to the revision dates of the various CFR volumes. A List of CFR Parts Affected by entries in this INDEX appears at the end of this INDEX, together with a table of FEDERAL REGISTER pages and dates.

All FEDERAL REGISTER publications are available for purchase from the Superintendent of Documents, U.S. Government Printing Office, Wash. D.C. 20402.

Users and subscribers are invited to send their comments and suggestions to the Director, Office of the Federal Register, National Archives and Records Service, Wash. D.C. 20408.

Macau ---------- 18487

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

Notices

Procurement list, 1975; additions and deletions ---------- 15931, 16357, 17311, 18031, 18488

COMMODITY CREDIT CORPORATION

Rules

Cotton; bagging and bale tie specifications ---------- 16647
Export credit sales programs:
Beef breeding cattle ---------- 16327
Breeding swine ---------- 16332
Dairy breeding cattle ---------- 16329
Procedural requirements and organizational functions and assignments ---------- 16322
Milk; price support program ---------- 16649
Wool; 1974 marketing year; payment and deduction rates ---------- 16213

Proposed Rules

Loan and purchase program; rice 1975 crop, maturity date ---------- 15390

Notices

Loan and purchase programs; grains and similarly handled commodities; warehouse storage loans, 1974 ---------- 18572
Monthly sales list, FY ending June 30, 1975 ---------- 16863

COMMODITY EXCHANGE AUTHORITY

For successor agency, see Commodity Futures Trading Commission.

Rules

Commodity positions and daily trading; limits ---------- 15086

Proposed Rules

Live slaughter cattle, live hogs and frozen pork bellies; hearing cancelled ---------- 15907

COMMODITY FUTURES TRADING COMMISSION

For prior documents, see Commodity Exchange Authority.

Rules

Chapter redesignation ---------- 17406
Commodity Exchange Act, provisional designations under; Boards of Trade as contract markets, etc ---------- 17406, 18776

Proposed Rules

Anti-fraud, contract transactions involving gold and silver, domestic sales of foreign futures, etc ---------- 18187

Notices

Commodity trading advisor or pool operator, and associated persons; registration and approval, etc.; effective date deferred ---------- 17409

COMPTROLLER OF THE CURRENCY

Rules Page

Business interest statements of directors and principal officers of National banks; reporting requirements clarification ---------- 17135
National banks and collective investment funds; fiduciary powers of; short-term investment in variable amount note ---------- 18770

Proposed Rules

Travel service, National banks providing ---------- 14767

Notices

Report of condition of insured banks, joint call ---------- 17875

CONSUMER PRODUCT SAFETY COMMISSION

Rules

Flammable fabrics, children's sleepwear; labeling, advertising, recordkeeping, retail display and guaranties:
Size 0–6X ---------- 16654
Size 7–14 ---------- 14584
Toys, games and other children's articles; test methods for simulating use and abuse; corrections ---------- 16191, 17746

Proposed Rules

Toys and other children articles with sharp edges; testing device ---------- 17157

Notices

Architectural glazing; denial of petition to adopt voluntary standard ---------- 18834
Bookmatches, standards publication; extension of time ---------- 17196
Chemical formulations for specified consumer products; order for submission ---------- 16713
Flammable Fabrics Act enforcement proceeding against Charles Castro et al; mattresses ---------- 17632
Meetings:
Aerosol spray products ---------- 17311
Product Safety Advisory Council ---------- 17632
Upholstered furniture flammability ---------- 15438
Swimming pool slides; safety standard; correction ---------- 17778

COST ACCOUNTING STANDARDS BOARD

Rules

Compensated personal absence, accounting for costs; effective date ---------- 15865
Freedom of information; fee schedules ---------- 18541
Tangible capital assets, depreciation; effective date ---------- 14737, 15865

Proposed Rules

Disclosure statement; filing by contractors, etc ---------- 14942

COUNCIL ON ENVIRONMENTAL QUALITY

See Environmental Quality Council.

CUSTOMS SERVICE

Rules Page

Antidumping; electronic tuners from Japan ---------- 14591
Customs bonds; transcript ---------- 14749

EMPLOYMENT STANDARDS ADMINISTRATION

Notices
Index to general wage determination decisions and modifications 15328
Minimum wages for Federal and federally assisted construction; general wage determination decisions, modifications, and supersedeas decisions 15260, 16468, 17450, 18270

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

Rules
Procurement; patents and copyrights 16848, 17573
Property management regulations, authority, etc 15091

Proposed Rules
Proposals; submission, evaluation and selection 16677

Notices
Environmental statements:
Gas Centrifuge program 17871
Liquid metal fast breeder reactor program; hearing 18218
Radioactive waste, management of commercial high level and transuranium contaminated; closing of public hearing record 17071
Waste Management Operations, Hanford Reservation; closing of public hearing record 17317
Meeting; High Energy Physics Advisory Panel 18587
Solar heating and cooling program; interim report to Congress 16714
Uranium hexafluoride; charges, enriching services, specifications, and packaging; revisions 17070

ENGINEERS CORPS

Rules
Authority delegation; Chief of Engineers, operations under Federal Power Act 17023
Navigation regulations; public involvement; general policies 14761

Proposed Rules
Project deauthorization review program; policies and procedures 14872
Relocation assistance, uniform, and real property acquisition 16850

Notices
Application for fuel-carrying pipeline right-of-way; Illinois 18473
Meeting; Environmental Advisory Board of Chief of Engineers 15915

ENVIRONMENTAL PROTECTION AGENCY

Rules
Air pollution control, new motor vehicles and engines:
Emission regulations for gasoline-fueled heavy duty engines; correction 16667
Trucks, light-duty diesel; high altitude sale; certification procedures for 1977 model year 18778
Air programs:
Clean Air Act, administration of Federal contracts, grants and loan 17124, 18429, 18437
Standards of performance for new stationary sources and National emission standards; authority delegation to Washington State 18169
Air quality implementation plans:
Air quality maintenance areas 18725
Georgia 18430
Iowa 15879
Kansas 15879
Missouri 16842
National Capital Region 16845
Pennsylvania 14595
Puerto Rico 18550
Vapor recovery on ships and barges 18437
Air quality standards; ambient air monitoring reference and equivalent methods; corrections 18168
Energy related authority; power plant shut downs 18438
Environmental statements; preparation of 16814
Pesticide chemicals in or on raw agricultural commodities tolerances and exemptions:
Benomyl; correction 15880
Butralin 18172
Carbaryl 17841
Carbophenothion 14596
Chlorothalonil 14596
Cycloheximide 15387
Dimethyl phosphate of 3-hydroxy-*N*-methyl - *CIS* – crotonamide 18171
Ethephon 18171
Ethyl 3-methyl-4-(methylthio) phenyl (1-methylethyl) phosphoramidate 17557
Formaldehyde; correction 17841
Methazole; correction 18172
Propargite 17146
Simazine 14597
Pesticides, shipment of, for experimental use; issuance of permits, revocation and addition 18780
Water pollution; effluent guidelines for certain point source categories; manufacturing and processing, etc.:
Asbestos 18172
Electroplating 18130
Rubber 18172
Seafood, canned and preserved; corrections 16204
Water pollution; Federal Water Pollution Control Act, administration of; Federal contracts, grants and loans 17124, 18429, 18437
Water quality standards; Idaho 18170

Proposed Rules
Air pollution control; new motor vehicles and engines; defect reporting 18176
Air quality; enforcement of implementation plan requirements after statutory deadlines; authority of State and Federal governments 14876
Air quality implementation plans:
Delaware; correction 18795
Idaho 16218
Maryland 18796
Massachusetts 16680
New York 15094

Page
Oregon 17158
Pennsylvania 15095

Texas ---- 16232

FEDERAL ELECTION COMMISSION

Notices

Transfer of authority ---- 17198

FEDERAL ENERGY ADMINISTRATION

Rules

Information collection; authorized energy information; procedures ---- 18408
Mandatory petroleum allocation regulations:
Old oil allocation program, inclusion of Canadian plant condensate in crude oil rules ---- 14738
Propane and butane for refinery fuel; limitation on use of ---- 15843
Mandatory petroleum price regulations:
Gasoline, markup on retail sales to reflect increased nonproduct costs ---- 15401, 18467
Oil import regulations:
Allocations, period beginning May 1, 1975 ---- 18766
Amendments to conform to Presidential Proc. No. 4355 ---- 16047
Election procedure for refiners in United States Territories and Foreign Trade Zones ---- 18769
Power generator fuel regulation; prohibitions on use of low sulfur petroleum products eliminated ---- 16295
Ruling:
Gasoline retailing; rental charges for real property used, prospective increases ---- 17980

Proposed Rules

Administrative procedures and sanctions; profit margin repurification ---- 17859
Mandatory petroleum allocation regulations:
Adjustments to base period volume based on changed circumstances; exception relief to certain wholesale purchasers in Montana, Wyoming, etc ---- 14605
Air passenger transportation services; access to refined petroleum products ---- 17600
Crude oil; cost adjustments, hearing ---- 16089
Crude oil supplier/purchaser relationship ---- 18182
Mandatory petroleum price regulations; condensate from gas wells; exemptions, definitions, etc ---- 18004
Oil imports; allocations for period beginning May 1, 1975 ---- 14948

Notices

Canadian imports of petroleum, allocation; hearing and inquiry ---- 17783
Environmental statements:
Coal conversion program, final ---- 18034
Energy Independence Act of 1975 and related tax proposals ---- 16875
Fuel burning installations, major; requirement to complete FEA questionnaire ---- 17328
International energy program; voluntary agreement by Administrator of General Service and Attorney General ---- 16042, 16718
Market shares information; questionnaires; distillate and residual fuel oil sales to consumers ---- 16111
Meetings:
Consumer Affairs Special Impact Advisory Committee ---- 14641, 18488
Environmental Advisory Committee ---- 18488
Food Industry Advisory Committee ---- 18034
Natural Gas Transmission and Distribution Advisory Committee ---- 16718
State Regulatory Advisory Committee ---- 18488
Wholesale Petroleum Advisory Committee ---- 16718, 17328
National utility residual fuel oil allocation; supplier percentage; May, 1975 ---- 17962
Old oil allocation program; entitlement notices:
January 1975; correction ---- 18220
February 1975 ---- 17325, 18836

FEDERAL HIGHWAY ADMINISTRATION

Rules

Bridge toll procedures ---- 14919
Engineering and traffic operations:
Construction and maintenance ---- 14906
Off-system roads program; administrative guidelines ---- 14907
Physical construction authorization ---- 17251
Preconstruction procedures; advance construction of Federal-aid projects; correction ---- 17554
Planning; program management; highway planning research and development contracts ---- 17554
Public transportation:
Rural highway public transportation demonstration program; guidelines ---- 16301
Railroad-highway projects; construction and reimbursement ---- 16057

Notices

Bridge tolls; Walt Whitman and Benjamin Franklin bridges ---- 14969
Committee renewal; Uniform Traffic Control Devices National Advisory Committee ---- 16233

FEDERAL HOME LOAN BANK BOARD

Rules

Federal Home Loan Bank System:
Certificate accounts, early withdrawal penalty ---- 18771
Gold, operations and limitations of member banks ---- 17244
Federal Savings and Loan Insurance Corporation:
Certificate accounts, early withdrawal penalty ---- 18772
Gold, private institution restrictions ---- 17247
Loans to one borrower, documentation of ---- 18411
Office of Examinations and Supervision; authority relating to nationwide loans, participation loans and earmarking of networth accounts ---- 14738
Federal Savings and Loan System:
Bill payment services ---- 17004
Certificate accounts, early withdrawal penalty ---- 18772
Collateralized borrowings; operations, etc ---- 17982
Consumer loans by service corporations ---- 17005
Farm loan amendments, definitions ---- 15865
Gold, restrictions on activities ---- 17246
Service corporation debt and investment limitations ---- 15382
Foreign activities of National banks; interpretation of foreign bank ---- 18412
Savings and loan holding companies:
Consumer loans by multiple holding companies ---- 17005
Gold, private institution restrictions ---- 17247

INDEX

FEDERAL HOME LOAN BANK BOARD—Continued

Proposed Rules Page

Federal Home Loan Bank System; rate control violations; withdrawal ---- 17860
Federal Savings and Loan Insurance Corporation; borrowing limitations; guarantees ---- 18005
Federal Savings and Loan System: Borrowings; guarantees ---- 18005
Cooperative housing projects; loans ---- 15096

Changes April 1, 1975
through April 30, 1975

TITLES 28–41
Changes July 1, 1974
through April 30, 1975

TITLES 42–50
Changes October 1, 1974
through April 30, 1975

PARALLEL TABLE OF U.S.C.–C.F.R.

CODE

CUMULATIVE LIST OF CFR SECTIONS AFFECTED

WHAT IT IS

The Cumulative List of CFR Sections Affected is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. It should be shelved with current Code volumes. Entries indicate the nature of the changes. Certain terms used are defined in the glossary below. Proposed rules are listed at the end of appropriate titles, except for Title 41, where proposed rules follow each chapter.

HOW TO USE THIS FINDING AID

The Code of Federal Regulations may be brought up to immediate date by the following steps:

1. Consult this Cumulative List of CFR Sections Affected for any changes, deletions, or additions published after the revision date of the volume you are using.
2. Check the "Cumulative List of Parts Affected" appearing at the front of the latest issue of the Federal Register for changes published after the last date covered by this issue of the Cumulative List of CFR Sections Affected.
3. If you do not have the *latest edition* of the Code of Federal Regulations, use the previous edition, and bring it up to date as follows:

Volumes Having Revision Date:	Refer to List of Sections Affected:
January 1, 1975 (Titles 1—16)	December 1974
April 1, 1975 (Titles 17–27)	March 1975
July 1, 1974 (Titles 28—41)	June 1974
October 1, 1974 (Titles 42—50)	September 1974

After checking Cumulative List of CFR Sections Affected as indicated, follow steps 1 and 2 above.

For an explanation of the structure and numbering of the Code, see 1 CFR Part 21.

GLOSSARY

Amended—A typographical unit of the CFR was partially set forth.
Recodified—Major portions of CFR were restructured or rearranged, or both.
Redesignated—A typographical unit or larger was renumbered and transferred from one place to another place in the CFR with no change in text.
Removed—A typographical unit was removed from the CFR.
Revised—A typographical unit of the CFR was set forth in full.
Superseded—An existing CFR unit was replaced by regulations appearing under another CFR unit.
Suspended—The entire CFR unit was not in effect for the period of time indicated.
Suspended in part—A portion of the CFR unit was not in effect for the period of time indicated.
Technical amendment—General amendment that may have no substantive effect on regulations.

PARALLEL TABLE OF STATUTORY AUTHORITIES AND RULES

A table is included after Title 50. It contains references to the U.S. Code sections cited as authority for regulations added during the calendar year.

TABLE OF FEDERAL REGISTER ISSUE PAGES AND DATES

A finding aid is included at the end of this issue which identifies the inclusive page numbers in each Federal Register cited in this Cumulative List of CFR Sections Affected.

INDEXES

An index to the daily Federal Register is published monthly, quarterly, and annually for the calendar year.

A General Index to the entire Code of Federal Regulations is available as of July 1, 1974.

INQUIRIES AND SUGGESTIONS

Inquiries concerning this and other publications of the office and suggestions for improvements will be welcomed by the Director, Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

TITLE 10—ENERGY

Chapter I—Nuclear Regulatory Commission

NRC and Energy Research and Development Administration (Chapter III, below) are the successor agencies to Atomic Energy Commission.

Page

Chapter heading revised; Parts 0–170 retained as amended 8774
0 Nomenclature changes 8774
0.735–3 (c) through (h) revised 8775
0.735–4 (a) through (d) revised; (i) removed 8775
0.735–5 (a) revised 8775
0.735–21 (b) (1) through (5) amended 8775
0.735–22 (b) revised 8775
0.735–23 (d) and (e)(1) revised 8775
0.735–26 (c) and (d) amended 8775
0.735–27 Amended 8775
0.735–28 (a) footnote, (e)(9) and (f) amended; (b)(2), (e)(10) and (h) revised 8775
0.735–29 Heading and (a) introductory text revised; (a)(1) removed; (a)(2) redesignated (a)(1) and new (a)(2) added 8776
0.735–40 (b) revised; (d) amended 8776
0.735–49 (a) amended 8776
0 Annex B amended 8776
1 Removed 8776
1.127 Added 1230
2 Authority citation revised 8776
Nomenclature changes 8776, 8777
2.1 Revised 8776
2.4 Introductory text, (d), (i) and (j) revised; (e) amended; (f) and (1) removed; (o) and (r) added 8777
2.104 (c) revised 2973
2.110 Added 2976
2.111 Added 8777
2.300—2.310 (Subpart C) Removed 8777
2.400—2.407 (Subpart D) added 2976
2.600—2.607 (Subpart F) Removed 8777
2.720 (h)(2)(i), (ii) and (iii) revised 2973
2.744 (d) and (g) revised; (e) removed 2973
2.752 (a) footnote amended 8777
2.760a Revised 2974
2.780 Amended 2974
(e) amended 8776
2.785 (b) redesignated as (b)(1); (b)(2) added 2974
(a), (c) and (d) revised 8777
2.790 Nomenclature changes 7894
(a) (1) and (8) revised; (d) amended 7894
2 Appendix A amended 2974, 8777
3 Removed 8777

PARALLEL TABLE OF STATUTORY AUTHORITIES AND RULES

(Additions to CFR Finding Aids Volume, Table 1: January—April 1975)

This table lists the sections of the U.S. Code which were added to the CFR Finding Aids Volume, Table I as a result of new citations of authority carried in the *Federal Register* from January through April 1975. Recent legislation not yet assigned within the U.S. Code is carried by public law number at the end of the list.

In order to determine the *Federal Register* page numbers of the parallel CFR citations, users should consult the Cumulative List of CFR Sections Affected, above.

List of Public Laws

NOTE: No acts approved by the President were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5282. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register
Phone 523–5240
Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

FEDERAL REGISTER PAGES AND DATES—APRIL

14565–14735 ..... Apr. 1

Table of Effective Dates and Time Periods—April 1975

This table is for use in computing dates certain in connection with documents which are published in the FEDERAL REGISTER subject to advance notice requirements or which impose time limits on public response.

Federal Agencies using this table in calculating time requirements for submissions must allow sufficient extra time for FEDERAL REGISTER scheduling procedures.

In computing dates certain, the day after publication counts as one. All succeeding days are counted except that when a date certain falls on a weekend or holiday, it is moved forward to the next Federal business day. (See 1 CFR 18.17)

A new table will be published monthly in the first issue of each month.

Dates of FR publication	15 days after publication	30 days after publication	45 days after publication	60 days after publication	90 days after publication
April 1	April 16	May 1	May 16	June 2	June 30

Title 3—The President

PROCLAMATION 4359

Amending Proclamation No. 4346 Relating to the Enlargement of the Buck Island Reef National Monument

By the President of the United States of America

A Proclamation

The boundaries of the Buck Island Reef National Monument were enlarged by Proclamation No. 4346 [1] of February 1, 1975. The description of those lands contained a typographical error.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, by virtue of the authority vested in me by Section 1(b)(vii) of Public Law 93–435 (88 Stat. 1210), and by virtue of the authority vested in me by Section 2 of the Act of June 8, 1906, 34 Stat. 225 (16 U.S.C. 431), and in order to correct a typographical error, do hereby amend the description of the lands described in Proclamation No. 4346 to read as follows:

Beginning at latitude 17°47'30" N, longitude 64°36'32" W; thence approximately 1000 feet to latitude 17°47'27" N, longitude 64°36'22" W; thence approximately 900 feet to latitude 17°47'18" N, longitude 64°36'22" W; thence approximately 1000 feet to latitude 17°47'15" N, longitude 64°36'32" W; thence approximately 1500 feet to latitude 17°47'30" N, longitude 64°36'32" W, the place of beginning, embracing an area of approximately 30 acres.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-eighth day of March, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred ninety-ninth.

Gerald R. Ford

PROCLAMATION 4360

Terminating Registration Procedures Under the Military Selective Service Act, as Amended

By the President of the United States of America

A Proclamation

Under authority vested in the President by the Military Selective Service Act (62 Stat. 604), as amended, procedures have been established for the registration of male citizens of the United States and of other male persons who are subject to registration under section 3 of said act, as amended (85 Stat. 348).

In order to evaluate an annual registration system, existing procedures are being terminated and will be replaced by new procedures which will provide for periodic registration.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, by virtue of the authority vested in me by the Constitution and the statutes of the United States, including the Military Selective Service Act, as amended, do hereby revoke Proclamations No. 2799 of July 20, 1948, No. 2937 of August 16, 1951, No. 2938 of August 16, 1951, No. 2942 of August 30, 1951, No. 2972 of April 17, 1952, No. 3314 of September 14, 1959, and No. 4101 of January 13, 1972; thereby terminating the present procedures for registration under the Military Selective Service Act, as amended.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-ninth day of March in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred ninety-ninth.

Gerald R. Ford

EXECUTIVE ORDER 11847

Exemption of Walter C. Sauer From Mandatory Retirement

Walter C. Sauer, First Vice President and Vice Chairman, Export-Import Bank of the United States, will become subject to mandatory retirement for age as of March 31, 1975, under the provisions of Section 8335 of Title 5 of the United States Code unless exempted by Executive order.

In my judgment, the public interest requires that Walter C. Sauer be exempted from such mandatory retirement.

NOW, THEREFORE, by virtue of the authority vested in me by subsection (c) of Section 8335 of Title 5 of the United States Code, I hereby exempt Walter C. Sauer from mandatory retirement until March 31, 1976.

Gerald R. Ford

THE WHITE HOUSE,

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 1—General Provisions

CHAPTER I—ADMINISTRATIVE COMMITTEE OF THE FEDERAL REGISTER

CFR CHECKLIST

1975 Issuances

This checklist, prepared by the Office of the Federal Register, is published in the first issue of each month. It is arranged in the order of CFR titles, and shows the revision date and price of the volumes of the Code of Federal Regulations issued to date for 1975. New units issued during the month are announced on the back cover of the daily FEDERAL REGISTER as they become available.

The rate for subscription service to all revised volumes issued for 1975 is $350 domestic, $75 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 890—FEDERAL EMPLOYEES HEALTH BENEFITS PROGRAM

Comprehensive Health Benefits Plan Networks

On December 23, 1974, there was published in the FEDERAL REGISTER (39 FR 44236) a notice of proposed rulemaking with a proposed amendment to Subpart B of Part 890 of Chapter I of Title 5 of the Code of Federal Regulations. The proposed amendment, § 890.204 to Subpart B, would allow the Civil Service Commission to provide for the approval of comprehensive health benefits plan networks. All comments submitted with respect to the proposed amendment were given due consideration.

As a result of comments received, the following changes are made:

1. Wording was deleted from paragraph (a) to increase the ability of a number of plans to form an initial network. Comments received indicated the inflexible nature of the proposal, making formation of a network difficult, and possibly precluding a plan already under contract with the FEHBP from joining a network.

2. Wording was deleted and changes made to paragraph (b) to clarify the intent of the paragraph and reduce redundancies relative to other sections of

V 40 63
APR 1 75

the Regulations. The language was broadened to allow more flexibility in the construction and offering of a network.

These changes were based, in part, on the many suggestions received. The suggestions included the following:

Experience in the operation of a service or indemnity plan is not relevant to a network of comprehensive plans, and restricts new and emerging plans from combining to form a network. The proposed financial requirements also restrict the number of possible network carriers. Further, it was noted that other mechanisms, such as the purchase of reinsurance, can be adequate to insure the fiscal integrity of the network. The reference to monitoring in this paragraph was entirely deleted based on suggestions that the network carrier function should be limited to administration; duplication of effort may result since other statutes require quality assurance; and the paragraph might abrogate the responsibilities of the Commission by the transfer of monitoring authority to the network in certain areas.

3. The paragraph defining carrier certification, (d), has been revised after consideration of the comments received. The paragraph has been changed to broaden eligibility requirements of carriers over the proposed regulation. The revisions were made in response to suggestions that the paragraphs were too restrictive and internally inconsistent due to the differences between the HMO Act and the specific requirements of the paragraph and existing FEHBP regulations. The requirement of 5,000 enrollees was eliminated because it set an excessively high requirement and was in variance with other sections of the FEHBP regulations. Similarly, since the requirement that at least 10 employer group contracts increased the standards over the existing FEHBP guidelines the limiting number has been deleted.

4. Paragraphs (e) and (f) have been eliminated in their entirety. Existing sections of the guidelines for the offering of comprehensive medical plans include the cogent requirements of these paragraphs. Inclusion of paragraphs (e) and (f) duplicate without reasonable benefit the established guidelines.

5. Paragraph (g) has been revised to clarify network and plan enrollment charges and rates and renumbered as paragraph (e).

6. Paragraphs (h) and (i) of the proposed rulemaking have been eliminated. Many comments were received relating to these paragraphs. Among the comments were those that detailed the apparent built-in lack of incentive, and the placement of risk on the carrier without allowing charges for it. Additionally, the rate formula can cause misestimates resulting in either under or over-statement of charges. By eliminating these paragraphs, a network and the Commission can enter into a variety of financial arrangements appropriate to a particular proposed network. Additionally, a mixed network of community and experience rated plans might be feasible.

7. Paragraph (h) of the revised regulations is an addition. This paragraph provides for the requirement that a plan withdrawing from the network cannot enter into an individual contract with the Commission for three years following termination of its network agreement. This paragraph is needed to provide an incentive for plans to remain with the network and avoid an adverse rate determination for the network as a whole.

8. Minor editorial changes have been made to the text of the regulations.

Accordingly, with these changes and additions, the proposed amendments are adopted as set forth below.

§ 890.204 Comprehensive Plan Networks.

(a) *Discretionary approval.* The Commission may, in its discretion, approve the offering by a qualified carrier of a network consisting of more than one comprehensive medical plan. Letter application for approval may be made by the carrier to the Commission. Participation of an approved network becomes effective on the January 1st which is (1) at least nine months after the Commission received the application and (2) at least six months after the Commission has received all evidence to demonstrate that the carrier and plans in the network have met all requirements for approval.

(b) *Qualified carriers.* For the purposes of this section, a qualified carrier is an organization or combination of organizations which can provide assurances satisfactory to the Commission that it possesses adequate financing mechanisms, experience and administrative ability to offer a network of comprehensive medical plans. The carrier shall demonstrate (with respect to health benefits) that the network will be more advantageous than alternative contracting methods in meeting the needs of the Federal government, Federal employees and annuitants.

(c) *Compliance with law and regulations.* Each carrier offering a network of plans must agree, in its own behalf and in behalf of each plan in the network, to comply with those provisions of chapter 89 of title 5, United States Code, and of this Part which, in the judgment of the Commission, apply to their operations and are not inconsistent with provisions of this section.

(d) *Carrier certification.* No offering of a network of plans shall be approved and no new plan shall be added to an existing network unless the carrier provides documentation as prescribed by the Commission certifying that:

(1) Each plan is legally operational and provides prepaid health care services under group contracts,

(2) A formal procedure is in effect for each of the health plans offered for adjusting subscriber complaints,

(3) Audited financial data on the operations of the health plan or plans are available for the most recent period, and

(4) Such additional documentation that the Commission may request to assure compliance with Program requirements.

The Commission retains the authority to determine the suitability of individual plans to participate in a network.

(e) *Uniform benefits and enrollment charges for networks.* A network shall offer the same benefits for all plans at the same enrollment charge for self-only coverage and the same enrollment charge for self-and-family coverage. Each plan shall be reimbursed by the network according to rates agreed to by the Commission, the network carrier and the plan.

(f) *Move from the area served by network plan.* An employee or annuitant enrolled in a network plan who moves out of the area served by the plan into an area served by another plan in the same network continues the enrollment and is entitled to benefits from the other plan. If the move is to an area not served by another plan in the same network, the enrollee may change plans in accordance with § 890.301(h).

(g) *Plans added to network.* Each plan to be added to a network must be approved in advance by the Commission. Letter application for approval shall be made by the carrier to the Commission. Addition of an approved plan becomes effective on the January 1st which is (1) at least nine months after the Commission receives the application and (2) at least six months after the Commission receives all certifications required for approval.

(h) *Termination of plan agreement with a network.* A comprehensive medical plan contracting with the FEHBP through a network shall not be allowed to enter into an individual contract with the FEHBP for three years following termination of the plan's agreement with a network.

(i) *Summary withdrawal of approval.* Notwithstanding § 890.205 of these regulations, the Commissioners may, in their discretion, summarily withdraw approval of a plan (or plans) in a network if they find that the plan is not in compliance with the applicable provisions of chapter 89 of title 5, United States Code, or of this Part, or that the certifications mentioned in subsection (d) are unwarranted, or that the continued offering of the plan is inimical to Federal employees or annuitants or to the Federal Employees Health Benefits Program.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

PART 1001—EMPLOYEE RESPONSIBILITIES AND CONDUCT

Organizational Amendments

Section 1001.735-401 is amended, as set out below, to reflect organization changes.

§ 1001.735-401 Employees required to submit statements.

The following employees shall submit statements of employment and financial interests in accordance with § 1001.735-402 through 1001.735-411:

(a) Office of the Executive Director. (1) Executive Director.
(2) Deputy Executive Director.
(3) Assistant Executive Director.
(4) Assistant Executive Director for Regional Operations.
(5) Assistant Executive Director—Freedom of Information.
(b) Office of Labor Management Relations. (1) Director.
(c) Office of the General Counsel. (1) General Counsel.
(2) Deputy General Counsel.
(d) Appeals Review Board. (1) Chairman.
(e) Federal Employees Appeals Authority. (1) Director.
(2) All Chief Appeals Officers.
(f) Office of Administrative Law Judges. (1) Director.
(2) All Employees in Administrative Law Judge positions.
(g) Bureau of Management Services. (1) Director.
(2) Deputy Director.
(3) Director of Personnel and Labor Relations.
(4) Assistant Director, Personnel and Labor Relations.
(5) Chief, Office Services Division.
(6) Chief, Procurement and Operating Facilities Branch.
(7) Chief, Procurement and Property Section.
(8) Chief, Budget and Finance Division.
(9) Assistant Chief, Budget and Finance Division.
(h) Bureau of Executive Manpower. (1) Director.
(i) Bureau of Retirement, Insurance, and Occupational Health. (1) Director.
(2) Associate Director for Operations.
(3) Associate Director for Policy.
(4) Assistant to the Director.
(5) Chief, Legislative and Policy Division.
(6) Chief Actuary.
(7) Assistant to the Chief (Contracts and Instructions Specialists) GS-15, Legislative and Policy Division.
(8) Chief, Systems Development Division.
(9) Chief, Program Review and Audits Office.
(10) Associate Chief, Program Review and Audits Office.
(11) Auditors (Financial Activities), GS-13 and GS-14, Program Review and Audits Office.
(12) Assistant Director for Health.
(13) Chief, Occupational Health Division.
(j) Bureau of Training. (1) Director.
(2) Deputy Director.
(3) Assistant Director for Training Operations.
(k) Bureau of Personnel Management Evaluation. (1) Director.
(2) Deputy Director.
(1) Bureau of Manpower Information Systems. (1) Director.
(m) Bureau of Intergovernmental Personnel Programs. (1) Director.
(2) Associate Director for Personnel Management Assistance.
(3) Associate Director for Grants Administration.
(4) Intergovernmental Personnel Programs Specialists, GS-13 and above.
(5) Grants Specialists, Office of Grants Administration, GS-13 and above.
(n) Federal Executive Institute. (1) Director.
(o) Executive Seminar Centers. (1) Director of each Center.
(p) Regional Offices. (1) Regional Directors.
(2) Deputy Regional Directors.
(3) Chiefs, IPPD.
(4) Assistant Chiefs, IPPD.
(5) Chiefs, Grants Branch, IPPD.
(6) Chiefs, Merit Systems and Technical Assistance Branch, IPPD.
(7) Regional IPP Specialists, (GS-13 and above).
(8) Occupational Health Representatives.

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 94—RINDERPEST, FOOT-AND-MOUTH DISEASE, FOWL PEST (FOWL PLAGUE), NEWCASTLE DISEASE (AVIAN PNEUMOENCEPHALITIS), AFRICAN SWINE FEVER, AND HOG CHOLERA; PROHIBITED AND RESTRICTED IMPORTATIONS

Northern Ireland Considered To Be Free of Viscerotropic Velogenic (Exotic) Newcastle Disease

The Department of Agriculture is amending the regulations in Part 94 by adding Northern Ireland to the list of countries considered to be free of viscerotropic velogenic (Exotic) Newcastle disease.

Statement of considerations. The purpose of this amendment is to add Northern Ireland to the list of countries considered to be free of viscerotropic velogenic (Exotic) Newcastle disease in § 94.6(a)(2). This action will permit the importation into the United States from Northern Ireland of fresh, frozen, or chilled poultry meats and poultry meat products and eggs which heretofore could not qualify for importation. It will also provide for the importation of other poultry products from Northen Ireland into the United States without complying with restrictions applicable to such products specified in § 94.6 (d), (e), (f), (g), and (h). Accordingly, Part 94, Title 9, Code of Federal Regulations, is hereby amended as follows:

§ 94.6 [Amended]

Section 94.6(a)(2) is amended by adding thereto the name of "Northern Ireland" after the reference to "New Zealand."

(Sec. 2, 32 Stat. 792 as amended; (21 U.S.C. 111); 37 FR 28464, 28477; 38 FR 19141.)

Effective date. The foregoing amendment shall become effective March 27, 1975.

The amendment relieves certain restrictions presently imposed but no longer deemed necessary to prevent the introduction and dissemination of the contagion of viscerotropic velogenic (Exotic) Newcastle disease, and must be made effective immediately to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 27th day of March 1975.

J. M. HEJL,
Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

Title 12—Banks and Banking

CHAPTER VI—FARM CREDIT ADMINISTRATION

PART 602—RELEASING INFORMATION

Subpart B—Availability of Records of the Farm Credit Administration

FREEDOM OF INFORMATION ACT REGULATIONS

The Farm Credit Administration publishes herewith an amendment to its Freedom of Information regulations so as to restore a provision that previously was included in such regulations but was inadvertently omitted from its publication in the FEDERAL REGISTER on February 19, 1975 (40 FR 7339). This amendment includes as exempt records, examination, operating, or condition reports of Farm Credit institutions which are prepared by or for the Farm Credit Administration. Because this amendment is to restore a provision previously approved by the Federal Farm Credit Board and published, it is found that notice of proposed rulemaking provided for in 5 U.S.C. 553 is unnecessary and any delay in the issuance of this amendment is not in the public interest.

V 40 163
APR 1 75

Chapter VI of Title 12 of the Code of Federal Regulations is amended by adding a paragraph (a)(8) at the end of § 602.250 as follows:

§ 602.250 Official records of the Farm Credit Administration.

(a) * * *

(8) Records of or related to examination, operating, or condition reports (other than published condition reports) of or related to Farm Credit institutions under the supervision of the Farm Credit Administration which are prepared by, on behalf of, or for its use.

(Secs. 5.9, 5.10, 5.12, 5.18, 85 Stat. 619, 620, 621; Pub. L. 93-502 amending 5 U.S.C. 552, 88 Stat. 1561)

W. M. HARDING,
Governor,
Farm Credit Administration.

[FR Doc.75-8364 Filed 3-31-75;8:45 am]

Title 14—Aeronautics and Space

CHAPTER III—NATIONAL TRANSPORTATION SAFETY BOARD

MISCELLANEOUS RULES AND REGULATIONS

Revisions and Interim Retention

Congress enacted the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2156, (49 U.S.C. 1901 et seq.)) effective April 1, 1975. Part 400 of the Code of Federal Regulations (14 CFR 400) is revised pursuant thereto. The major revisions from provisions in Part 400 formerly promulgated include: Changes in organization to reflect the fact that the National Transportation Safety Board is an independent agency of the United States; changes in the Board's functions to effectuate the Independent Safety Board Act of 1974; additional delegations of authority to staff members, specifically, authority for the General Manager to approve publication in the FEDERAL REGISTER of certain notices, and for officers and employees of the Bureau of Surface Transportation Safety to exercise the responsibilities of hearing officers; and the deletion of all of Subpart C governing delegation to officers and officials of the Department of Transportation, in view of the repeal of the authority therefor appearing in section 5(m) of the Department of Transportation Act (49 U.S.C. 1654(m)).

Effective February 19, 1975, the Freedom of Information Act, 5 U.S.C. 552, was amended by Pub. L. 93-502, enacted November 21, 1974. Essentially, the amendments require that an initial decision be made within 10 working days after any request for access to records. Each Government agency must set up appeal procedures, reasonable extensions of time, minor modifications in exemptions, and designation of officers and employees to accomplish the purposes of the Act.

The National Transportation Safety Board, acting pursuant to the provisions of the amendments to the Freedom of Information Act, has revised its Part 401 to reflect the time requirements of the amendments, to make minor modifications in the exemptions, to provide for the authority to carry out the purposes of the amendments, and to add detailed information as to the documents available to the public.

Part 425 is revised to reflect the deletion in the newly enacted Independent Safety Board Act of 1974 of the Board's authority to delegate merchant marine appeals from certain orders of the Commandant, U.S. Coast Guard. Consequently, Part 425, as revised, now provides that the Board will review suspensions and denials of marine documents, licenses, and certificates, as well as revocations ordered by the Commandant.

Parts 405, 421-430, 431, 435, and 440 of the Code of Federal Regulations, formerly promulgated by the Board, require amendments and/or revisions to comply with the Independent Safety Board Act of 1974. Retention of these parts as they presently exist is a temporary measure to provide for an immediate and orderly transfer of the Board to an independent agency. These parts will be amended and/or revised by the Board as soon as possible and will be submitted to the FEDERAL REGISTER for publication and recodification.

Since revision of Parts 400, 401, and 425 and retention of Parts 405, 421, 430, 431, 435, and 440 are accomplished for the purpose of compliance with the new Federal enactments, and essentially involve Board procedures and delegations, notice of proposed rulemaking and public procedure thereon are unnecessary and good cause exists for making the revisions and retentions effective on April 1, 1975.

Accordingly, the National Transportation Safety Board hereby revises Parts 400, 401, and 425, and retains Parts 405, 421, 430, 431, 435, and 440 as presently promulgated.

1. Part 400 is revised to read as follows:

PART 400—STATEMENT OF ORGANIZATION AND FUNCTIONS OF THE BOARD AND DELEGATIONS OF AUTHORITY

Subpart A—Organization and Functions

Sec.
400.1 Purpose.
400.2 Organization.
400.3 Functions.
400.4 Operation.
400.5 Public hearings.
400.6 Formal and informal submissions.
400.7 Offices.
400.8 Availability of information and materials.

Subpart B—Delegation of Authority to Staff Members

400.21 Purpose.
400.22 Delegation to the General Manager.
400.23 Delegation to the administrative law judges, Office of Administrative Law Judges.
400.24 Delegation to the General Counsel.
400.25 Delegation to the Director, Bureau of Aviation Safety.
400.26 Delegation to the Hearing Officers, Bureau of Aviation Safety.
400.27 Delegation to the Director, Bureau of Surface Transportation Safety.
400.28 Delegations to officers and employees of the Bureau of Surface Transportation Safety designated as hearing officers.

AUTHORITY: Independent Safety Board Act of 1974 (88 Stat. 2156 et seq.; (49 U.S.C. 1901 et seq.)).

Subpart A—Organization and Functions

§ 400.1 Purpose.

This part, together with Part 401 of this chapter, describes generally the organization, functions, and operation of the National Transportation Safety Board and the places at which, the employees from whom, and the methods whereby, the public may obtain information, make submittals or requests, or obtain decisions. More detailed information is available in Part 401 of this chapter and from other sources listed herein with respect to obtaining records and information.

§ 400.2 Organization.

The National Transportation Safety Board shall consist of five Board Members appointed by the President with the advice and consent of the Senate, one of whom is designated by the President as Chairman and one as Vice Chairman. The Members shall exercise the functions, powers, and duties of Title VII of the Federal Aviation Act of 1958, (49 U.S.C. 1441) transferred to the Board under section 6 of the Department of Transportation Act (49 U.S.C. 1651 et seq.) and the Independent Safety Board Act of 1974 (88 Stat. 2156 et seq., (49 U.S.C. 1901 et seq.)). The Board is an independent agency of the United States. A detailed description of the Board and its components is published in the Board's internal orders, which are available for inspection and copying in the public reference room at the Board's offices. The various delegations of authority from the Board to the staff units are set forth in Subpart B of this part. The Board's staff is comprised of the following principal units:

(a) The Office of the General Manager, which assists the Chairman in the discharge of his functions as executive and administrative head of the Board, coordinates and directs the activities of the staff, is responsible for day-to-day operation of the Board, and recommends and develops plans to achieve the Board's program objectives. Within the Office of the General Manager are the activities which deal with general management, personnel, fiscal and budgetary matters; administrative support services; receipt, maintenance, and service of docket material; recording, indexing, and processing of formal Board actions; and authenticating Board records for any official purposes.

(b) The Office of Public Affairs, which is responsible for supplying the public, the news media, and the transportation industry with current, accurate information concerning the work, programs, and objectives of the Board.

(c) The Office of the General Counsel, which is responsible for providing legal advice to the Board on legal aspects of advice and assistance to the Board and its staff offices and bureaus, including policy matters, preparation of Board rules, orders, opinions and orders, and advice to all offices and bureaus on matters of legal significance; and is responsible for representing the Board in court actions to which the Board is a party or in which the Board is interested.

(d) The Office of the Administrative Law Judges, which is responsible for the conduct of all formal proceedings arising under Title VI of the Federal Aviation Act of 1958, including proceedings involving suspension or revocation of airman certificates and appeals from actions of the Administrator, Federal Aviation Administration, in refusing to issue airman certificates.

(e) The Bureau of Aviation Safety, which is responsible for the aviation safety activities of the Board, including the investigation and analysis of civil aircraft accidents that occur within the United States and U.S. civil aircraft occurrences in international waters. It recommends to the Board the determination of cause or probable cause of such accidents and of any accidents investigated for the Board by the Department of Transportation. It also investigates or participates in the investigation of accidents involving U.S.-registered aircraft and U.S.-manufactured aircraft, where appropriate, which occur in foreign countries. It conducts special studies and investigates matters pertaining to safety in air navigation and the prevention of accidents, and it records statistics and prepares reports on aircraft accidents. It develops regulations and procedures governing notification, investigation, and the reporting of aircraft accidents. It formulates recommendations which will tend to prevent aircraft accidents, and it makes recommendations to the Board regarding international aviation safety activities and interdepartmental aviation safety activities. It operates the National Aircraft Accident Investigation School.

(f) The Bureau of Surface Transportation Safety, which is responsible for marine, railroad, highway, pipeline, and hazardous materials activities of the Board. Its personnel investigates all railroad accidents in which there is a fatality or substantial property damage or which involve a passenger train, pipeline accidents in which there is a fatality or substantial property damage, highway accidents selected for investigation in cooperation with the States, and certain selected marine casualties. It recommends to the Board the determination of cause or probable cause for such accidents, makes recommendations to prevent future transportation accidents, and conducts special studies and special investigations. It is responsible for the assessment of accident investigation techniques, for the evaluation of the effectiveness of transportation safety consciousness of other Government agencies, for the evaluation of safeguards and procedures concerning the transportation of hazardous materials, and for the establishment of procedures for surface transportation accident notification.

§ 400.3 Functions.

(a) The primary function of the Board is to promote safety in transportation. The Board is responsible for the investigation, determination of facts, conditions, and circumstances and the cause or probable cause of: All accidents involving civil aircraft; highway accidents, including any railroad grade-crossing accident, the investigation of which is selected in cooperation with the States; railroad accidents in which there is a fatality, substantial property damage, or which involve a passenger train; pipeline accidents in which there is a fatality or substantial property damage; and certain major marine casualties. The Board makes transportation safety recommendations to Federal, State, and local agencies, and interested persons, which recommendations are calculated to reduce the likelihood of recurrence of transportation accidents. It initiates and conducts special studies and special investigations on matters pertaining to safety in transportation, assesses techniques and methods of accident investigation, evaluates the effectiveness of transportation safety consciousness and efficacy in preventing accidents of other Government agencies, and evaluates the adequacy of safeguards and procedures concerning the transportation of hazardous materials.

(b) Upon the request of aggrieved parties, the Board reviews in quasi-judicial proceedings, conducted pursuant to the provisions concerning administrative procedure, 5 U.S.C. 551 et seq., denials by the Administrator of the Federal Aviation Administration of applications for airman certificates and orders of the Administrator modifying, amending, suspending, or revoking any airman certificates. The Board also reviews, upon request, decisions of the Commandant, U.S. Coast Guard, on appeals from orders of administrative law judges suspending, revoking, or denying licenses, certificates, or documents.

(c) The Board, as provided in Part 401 of this chapter, issues reports, orders, decisions, rules, and regulations pursuant to its duties to determine the cause or probable cause of transportation accidents, and to report the facts, conditions, and circumstances relating to such accidents, and to review on appeal the suspension, amendment, modification, revocation, or denial of any certificate or license issued by the Secretary or an Administrator. The Board also makes public safety recommendations, special studies, and reports of special investigations.

§ 400.4 Operation.

In exercising its functions, duties, and responsibilities, the Board utilizes:

(a) The Board's staff, consisting of specialized bureaus dealing with particular areas of transportation safety and offices performing administrative and technical work for the Board, which advises the Board and performs duties for the Board inherent in its position in the organizational structure or which the Board has delegated to it. The staff is described more fully in § 400.2.

(b) Rules published in the FEDERAL REGISTER and codified in this Title 14 of the Code of Federal Regulations. These rules may be inspected in the Board's public reference room, or purchased from the Superintendent of Documents, Government Printing Office. The published rules include:

(1) Regulations which govern the formal methods whereby persons dealing with the Board can present information to the Board to enable the Board to make the decisions for which it is responsible under sections 602 and 609 of the Federal Aviation Act of 1958 (49 U.S.C. 1422 and 1429).

(2) Regulations which govern the reporting and investigation of aircraft accidents, including public hearings held in the course of such investigations.

(3) Regulations, including Subpart B of this part, which delegate matters to the Board's staff, and Part 401 of this chapter describing how the public may deal with the Board in obtaining information.

§ 400.5 Public hearings.

The Board holds public hearings in connection with transportation accident investigations and holds public hearings and hears oral arguments in proceedings concerned with certificate or licenses issued by the Secretary or an Administrator. They are held at the time and place announced in the notices thereof which are served on the parties to the proceedings or published in the FEDERAL REGISTER.

§ 400.6 Formal and informal submissions.

(a) All formal submissions required or permitted to be made in air safety proceedings should be addressed to the Office of the General Manager, National Transportation Safety Board, 800 Independence Avenue, SW., Washington, D.C. 20594, unless specifically provided otherwise in the provision requiring or permitting such submission. Requirements as to the form and content of such submissions are set forth in the Board's procedural regulations.

(b) Other instructions concerning the use of forms, and the scope or content of material required or permitted to be filed or maintained, are set forth in the Board's procedural regulations and its organizational regulations in this Title 14 of the Code of Federal Regulations. If the form of any document required or permitted to be filed is not prescribed, such document shall be in letter form. Any other request to the Board of any kind shall be directed to the General Manager.

§ 400.7 Offices.

The principal offices of the National Transportation Safety Board are located at 800 Independence Avenue, SW., Washington, D.C. 20594. The Board maintains

V 40 163
APR 1 75

field offices in selected cities throughout the United States.

§ 400.3 Availability of information and materials.

The Board publishes in Part 401 of this chapter of its organizational regulations information concerning the availability for inspection and copying of Board orders, opinions, and records. That regulation states in detail information available at the Board, when records may be inspected, and discusses the use of the Board's public reference room.

Subpart B—Delegation of Authority to Staff Members

§ 400.21 Purpose.

The purpose of this Subpart B is to publish all delegations of authority to staff members which do not appear in other Board regulations.

§ 400.22 Delegation to the General Manager.

The Board hereby delegates to the General Manager the authority to:

(a) Determine appeals by the public from staff action withholding a Board record from inspection or copying, pursuant to Part 401 of this chapter.

(b) Settle claims for money damages of $2,500 or less against the United States arising under section 2672 of 28 United States Code (the Federal Torts Claims Act) because of acts or omissions of Board employees.

(c) Approve for publication in the FEDERAL REGISTER notices concerning issuance of accident reports and safety recommendations and responses to safety recommendations, as required by sections 304(a)(2) and 307 of the Independent Safety Board Act of 1974. (49 U.S.C. 1903(a)(2) and 1906.)

§ 400.23 Delegation to the administrative law judges, Office of Administrative Law Judges.

The Board has delegated to the administrative law judges the authority generally detailed in procedural regulation, Part 421, of this chapter.

§ 400.24 Delegation to the General Counsel.

The Board hereby delegates to the General Counsel the authority to:

(a) In accordance with the provisions of Part 435 of this chapter, approve, disapprove, or request further information concerning requests for testimony of Board employees with respect to their participation in the investigation of aircraft accidents, and, upon receipt of notice that an employee has been subpoenaed, to make arrangements with the court either to have the employee excused from testifying or to give the employee permission to testify.

(b) In safety enforcement proceedings, approve or disapprove for good cause shown requests for changes in procedural requirements subsequent to the initial decision, grant or deny requests to file additional briefs pursuant to § 421.35 of this chapter of the procedural regulations, and raise on appeal any issue the resolution of which he deems important to the proper disposition of proceedings under § 421.35 of this chapter of the procedural regulations.

(c) Approve or disapprove for good cause shown requests to extend the time for filing comments on proposed new or amended regulations.

(d) Issue regulations for the purpose of making editorial changes or corrections in the Board's rules and regulations.

(e) Issue orders staying, pending judicial review, orders of the Board suspending or revoking airman certificates, or consent to the entry of judicial stays with respect to such orders.

(f) Compromise civil penalties in the case of violations arising under Title VII of the Federal Aviation Act of 1958, or any rule, regulation, or order issued thereunder.

(g) Issue orders dismissing appeals from initial decisions of Board administrative law judges pursuant to the request of the appellant.

(h) Correct Board orders by eliminating typographical, grammatical, and similar errors, and make editorial changes therein not involving matters of substance.

§ 400.25 Delegation to the Director, Bureau of Aviation Safety.

The Board hereby delegates to the Director, Bureau of Aviation Safety, the authority to:

(a) Order an investigation, by depositions, or otherwise, into the facts, conditions, circumstances, and probable cause of all occurrences involving civil aircraft.

(b) Disclose factual information pertinent to an aircraft accident or incident as provided for in Part 401 of this chapter of the procedural regulations.

§ 400.26 Delegation to the Hearing Officers, Bureau of Aviation Safety.

The Board hereby delegates to any officer or employee of the Bureau of Aviation Safety, designated by the Chairman of the Safety Board as a hearing officer the authority to sign and issue subpoenas, to administer oaths and affirmations, and to take depositions or cause them to be taken in connection with the investigation of accidents involving a civil aircraft.

§ 400.27 Delegation to the Director, Bureau of Surface Transportation Safety.

The Board hereby delegates to the Director, Bureau of Surface Transportation Safety, the authority to:

(a) Order an investigation, by depositions, or otherwise, into the facts, conditions, circumstances, and probable cause of all accidents involving surface transportation for which the Board has authority to conduct such investigations.

(b) Disclose factual information pertinent to a surface accident or incident as provided for in Part 401 of this chapter of the procedural regulations.

§ 400.28 Delegations to officers and employees of the Bureau of Surface Transportation Safety designated as hearing officers.

The Board hereby delegates to any officer or employee of the Bureau of Surface Transportation Safety who is designated by the Chairman of the Safety Board as a hearing officer, the authority to sign and issue subpoenas, and administer oaths and affirmations, to take depositions or cause them to be taken in connection with the investigation of accidents involving surface transportation.

2. Part 401 is revised to read as follows:

PART 401—PUBLIC AVAILABILITY OF INFORMATION

Subpart A—Applicability and Policy

Sec.
401.1 Applicability.
401.2 Policy.
401.3 Definitions.

Subpart B—Administration

401.10 General.
401.11 Segregability of records.
401.12 Protection of records.
401.13 Production of records on demand of courts or other authorities.

Subpart C—Time Limits

401.20 Initial determination.
401.21 Final determination.
401.22 Extension.

Subpart D—Accident Investigation Records

401.30 Aviation field accident investigations.
401.31 Major aircraft accident investigations.
401.32 Aviation accident public hearings.
401.33 Surface transportation accident investigations.
401.34 Surface accident public hearings.
401.35 General aviation and major accident (narrative) reports.
401.36 Surface transportation accident reports (narrative).

Subpart E—Publication in the "Federal Register", Adjudicatory Decisions, Staff Manual and Instructions, Reports to Congress, and Other Board Documents Which Are Available to the Public (See Appendix-Fee Schedule)

401.40 The Board's rules.
401.41 Transportation safety recommendations.
401.42 Indexes to aviation and maritime enforcement cases.
401.43 Administrative staff manuals and instructions, and indexes that affect the public.
401.44 Reports to Congress.
401.45 Other records.
401.46 Special document services.

Subpart F—Exemption From Public Disclosure

401.50 General.
401.51 National defense and foreign policy secrets.
401.52 Internal personnel rules and practices of the Board.
401.53 Records exempt by statute from public disclosure.
401.54 Interagency and intra-agency exchanges.
401.55 Unwarranted invasion of personal privacy.
401.56 Records compiled for law enforcement purposes.
401.57 Records for regulation of financial institutions.
401.58 Geological records.
Appendix—Fee Schedule

AUTHORITY: Freedom of Information Act, Pub. L. 93-502, November 21, 1974, amending 5 U.S.C. 552, the Independent Safety Board Act of 1974 (49 U.S.C. 1901 et seq.), 31 U.S.C. 483a, and 18 U.S.C. 641 and 2071(a).

Subpart A—Applicability and Policy

§ 401.1 Applicability.

(a) This part implements the provisions of the Freedom of Information Act (5 U.S.C. 552) as amended by Pub. L. 93-502, November 21, 1974, and the publication and public access requirements embodied in Title III, of the Independent Safety Board Act of 1974 (88 Stat. 2156 et seq., (49 U.S.C. 1901 et seq.)). In addition, it provides for document services and the charges therefor, pursuant to 31 U.S.C. 483a.

(b) This part applies only to records existing when the request for the information is made. The National Transportation Safety Board (Board) is not required to compile or procure records for the sole purpose of making them available hereunder.

(c) Subpart F of this part describes records which are exempt from public disclosure.

§ 401.2 Policy.

In implementing 5 U.S.C. 552, it is the policy of the Board to make information available to the public, to the greatest extent possible. Accordingly, all records of the Board, except those that the Board specifically determines must not be disclosed in the national interest, or for the protection of private rights, or for the efficient conduct of public business to the extent permitted by the Freedom of Information Act, are declared to be available for public inspection and copying as provided in this part. Records are to be made available to the public promptly and to the fullest extent consistent with this policy. No record may be withheld from the public solely because its release might indicate administrative error or embarrass an officer or employee of the Board.

§ 401.3 Definitions.

"Record" includes any writing, drawing, map, recording, tape, film, photo, or other documentary material by which information is preserved, and this definition also applies to section 306(a) of the Independent Safety Board Act of 1974, which requires public access to any nonexempt information. In this part, "document" and "record" shall have the same meaning.

"Chairman" means the Chairman of the Board.

"General Manager" means the General Manager of the Board.

Subpart B—Administration

§ 401.10 General.

(a) The Board delegates to the General Manager custody and control of all Board records required to be preserved under directives of the General Services Administration, issued pursuant to 44 U.S.C. 3102.

(b) The General Manager shall be solely responsible for the initial determination of whether to release records within the 10 working days' limit, or the extension specified in the Freedom of Information Act.

(c) The duties of the Accident Inquiry Unit, Office of the General Manager, shall include:

(1) Maintenance for public access and commercial reproduction of all accident files containing aviation and surface investigators' reports, factual accident reports or group chairman reports, documentation and accident correspondence files, and transcripts of public hearings, if any, and exhibits.

(2) Maintenance of a public reading room (with self-service duplicator) and, on request, permission to members of the public to inspect public documents during normal working hours.

(d) The General Manager's office shall maintain copies of public documents, specified in the Appendix, for inspection and copying in the public reading room. Instructions for access and copying and fees for copying are provided in the Appendix to this part.

(e) Requests for documents in the General Manager's office must be addressed to that office. They must reasonably identify the record requested, be accompanied by the fee or agreement (if any) of the fee schedule (Appendix), and contain the address and telephone number of the person making the request. The envelope in which the request is sent must be prominently marked with the letters "FOIA." The General Manager's office, if there is a failure to comply fully, will attempt to contact the requester immediately to rectify the omission. However, the 10 working days' limit for processing shall not commence until the General Manager's office receives a totally correct request.

(f) The field offices of the Board will not maintain, for public access, records maintained by the General Manager. If requests are made to field offices, advice will be promptly given as to how to make such requests.

(g) The General Manager shall maintain a contract with a commercial reproduction firm to accommodate requests for reproduction of accident records. The reproduction charges may be subject to change with each contract renewal.

(h) Requests for documents generated by other agencies or entities will not be processed unless they are contained in the Board's accident files.

(i) Requests for records not yet issued will be held in abeyance until issuance and then processed. The person making the request will be so notified.

(j) Requests for records which are not in the General Manager's office should be addressed with reasonable record identification as follows:

(1) Aviation—Director, Bureau of Aviation Safety.

(2) Surface—Director, Bureau of Surface Transportation Safety.

(3) Initial decisions, safety enforcement—Chief Administrative Law Judge.

(4) Final decisions, safety enforcement, and other legal documents—Office of General Counsel.

(5) Board Members—individually by name and title.

(k) No charge will be made by the Board for notices, decisions, orders, etc., required by law to be served on a party to any proceeding or matter before the Board.

(l) Upon approval of the General Manager, subscriptions to Board publications may be entered without charge for States, organizations, or other entities specified in the fee schedule set forth in the Appendix.

§ 401.11 Segregability of records.

The General Manager's initial decision shall include a determination of segregability. If it is reasonable to do so, the exempt portions will be deleted and the nonexempt portions will be sent to the requester.

§ 401.12 Protection of records.

(a) No person may, without permission, remove from the place where it is made available any record made available to him for inspection or copying. Stealing, altering, mutilating, obliterating, or destroying, in whole or in part, such a record shall be deemed a crime.

(b) Section 641 of Title 18 of the United States Code provides, in pertinent part, as follows:

"Whoever • • • steals, purloins, or knowingly converts to his use or the use of another, or without authority, sells, conveys or disposes of any record • • • or thing of value of the United States or of any department or agency thereof • • • shall be fined not more than $10,000 or imprisoned not more than ten years or both; but if the value of such property does not exceed the sum of $100, he shall be fined not more than $1,000 or imprisoned not more than one year, or both. • • •"

(c) Section 2071(a) of Title 18 of the United States Code provides, in pertinent part, as follows:

"(a) Whoever willfully and unlawfully conceals, removes, mutilates, obliterates, or destroys, or attempts to do so, or, with intent to do so takes and carries away any record, proceeding, map, book, paper, document, or other thing, filed or deposited • • • in any public office, or with any • • • public officer of the United States, shall be fined not more than $2,000 or imprisoned not more than 3 years, or both."

§ 401.13 Production of records on demand of courts or other authorities.

(a) No Board employee or Member, other than the General Manager or the General Counsel, may respond to a demand of a court or other authority for the production of any Board records.

(b) Whenever an employee or Board Member is served with a court order or other record order, or subpoena duces tecum, he shall immediately advise the General Counsel's office, and the General Counsel shall determine the course of action to be taken.

(c) Subpoenas and requests for oral testimony will be processed pursuant to the Board's Part 435.

V 40163
APR 175

Subpart C—Time Limits

§ 401.20 Initial determination.

An initial determination as to whether to release a record shall be made by the General Manager within 10 working days (excluding Saturdays, Sundays, and legal public holidays) after the request is received, except that this time limit may be extended up to 10 additional working days in accordance with § 401.22, below. The person making the request will be notified immediately in writing of such determination. If such determination is to release the requested record, such record shall be made available promptly. If such determination is not to release the record, the person making the request shall, when he is notified of such determination, be advised of (a) the reason for the determination, (b) the right to appeal the determination, and (c) the name and titles or positions of each person responsible for the denial of the request.

§ 401.21 Final determination.

A determination with respect to any appeal made pursuant to § 401.20, above, will be made by the Chairman within 10 working days (excluding Saturdays, Sundays, and legal public holidays) after receipt of such appeal, except that this time limit may be extended for as many as 10 additional working days, in accordance with § 401.22, below.

§ 401.22 Extension.

In unusual circumstances as specified in this section, the time limits prescribed in either, but not both, § 401.20 or §401.21, above, may be extended by written notice to the person making a request and setting forth the reasons for such extension and the date on which a determination is expected to be dispatched. Such notice shall not specify a date that would result in an extension for more than 10 working days. As used in this subparagraph, "unusual circumstances," to the extent reasonably necessary to the proper processing of the particular request, means—

(a) The need to search for and collect the requested records from field facilities or other establishments that are separate from the General Manager's office;

(b) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(c) The need to consult with another agency which has a substantial interest in the disposition of the request or with two or more components of the agency having substantial subject-matter interest therein.

Subpart D—Accident Investigation Records

§ 401.30 Field aircraft accident investigations.

Upon completion of the field investigation (normally 60 days after the accident), the Board's investigator-in-charge shall complete a factual report (with documentation) and send it to the General Manager, who shall then make the record available to the public for inspection or commercial copy order (see Appendix).

§ 401.31 Major aircraft accident investigations.

Upon completion of the investigation by a team of Board investigators (normally 60 days after the accident), the report of each investigator (group chairman), with documentation, shall be sent to the General Manager, who shall make these records available to the public for inspection and commercial copy order (see Appendix).

§ 401.32 Aviation accident public hearings.

Within approximately 2 weeks after a public hearing on an aviation accident, the General Manager shall make available to the public, for inspection or commercial copy order, the hearing transcript and the exhibits introduced at the hearing (see Appendix).

§ 401.33 Surface transportation accident investigations.

Upon completion of the Board's investigation of these accidents (normally 60 days after the accident), the investigators shall send to the General Manager a file of the documentation obtained. This file shall then be made available, by the General Manager, for public access or commercial copy order (see Appendix).

§ 401.34 Surface accident public hearings.

Within approximately 2 weeks after a surface accident public hearing, the General Manager shall make available for public inspection and commercial copy order the hearing transcript and exhibits introduced at the hearing.

§ 401.35 General aviation and major accident (narrative) reports.

(a) For general aviation and minor accidents, the Board reports of the facts, conditions, and circumstances and determination of probable cause shall be issued approximately 6 months after each accident in computer format entitled "Briefs of Accidents."

(b) For major accidents, the Board's determination of probable cause and its report of the facts, conditions, and circumstances, shall be set forth in a narrative report.

(c) After notice of issuance in the FEDERAL REGISTER, reports are available for inspection in the General Manager's office, or by copy or subscription (see Appendix).

§ 401.36 Surface transportation accident reports (narrative).

For those accidents which are investigated (including certain marine accidents investigated by the United States Coast Guard), the Board reports of the facts, conditions, and circumstances and its determination of the cause or probable cause shall be issued approximately 6 months after the accident. After notice of issuance in the Federal Register, these reports are available for public inspection in the General Manager's office, or by copy or subscription (see Appendix).

Subpart E—Publication in the "Federal Register", Adjudicatory Decisions, Staff Manual and Instructions, Reports to Congress, and Other Board Documents Which Are Available to the Public (See Appendix)

§ 401.40 The Board's rules.

The Board's procedural rules are published in the Code of Federal Regulations as Parts 400 through 440.

§ 401.41 Transportation safety recommendations.

All transportation safety recommendations issued by the Board (and responses thereto, if any) shall be noticed in the FEDERAL REGISTER and thereafter made available for public inspection in the General Manager's office or by ordering a copy (see Appendix).

§ 401.42 Indexes to aviation and maritime enforcement cases.

(a) The quarterly index to the initial decisions of the Board's administrative law judges shall be available in the General Manager's office for public access. (See Appendix for subscription.)

(b) The quarterly index to Board decisions and orders in safety enforcement cases is available in the General Manager's office for public access. (See Appendix for subscription and bound volumes.)

§ 401.43 Administrative staff manuals and instructions, and indexes that affect the public.

The index to staff manuals which are not exempt from public disclosure, as set forth in Subpart F, is available in the General Manager's office (see Appendix).

§ 401.44 Reports to Congress.

The Board's annual report to Congress, which is required under section 305 of the Independent Safety Board Act of 1974, shall be submitted on July 1 of each year. It may be purchased from the Government Printing Office or inspected in the General Manager's office. All other reports or comments to Congress are available in the General Manager's office for inspection or by ordering a copy after issuance.

§ 401.45 Other records.

The working files of the Board contain a limited number of records which may not be exempt, in whole or in part, by the exemptions from public disclosure as set forth in Subpart F. Such records shall be made available upon request. Requests for such documents should be made directly to the head of the unit concerned, as set forth in § 401.10(j), and should contain a reasonable description of the specific record desired.

§ 401.46 Special document services.

(a) Although not required by the Freedom of Information Act, the Board provides document services at charges required by 31 U.S.C. 483a, as described in the Appendix.

Subpart F—Exemption From Public Disclosure

§ 401.50 General.

This subpart implements section 552 (b) of Title 5, United States Code. Section 552(b) exempts certain records from public inspection. The Board will, however, release a record authorized to be withheld under 552(b) unless it determines that the release of that record would be inconsistent with the purpose of the exemption concerned. Examples given in §§ 401.51 through 401.58 of records included within a particular statutory exemption are not necessarily illustrative of all types of records covered by the exemption.

§ 401.51 National defense and foreign policy secrets.

National defense and foreign policy secrets established by Executive Order, and properly classified, are exempt from public disclosure. Requests to the Board for such records will be transferred to the source agency as appropriate. (Executive Orders 11652, March 8, 1972; 10865, February 20, 1960; and 10404, February 1, 1950.)

§ 401.52 Internal personnel rules and practices of the Board.

(a) Records relating solely to internal personnel rules and practices that are within the statutory exemptions include memoranda pertaining to personnel matters such as staffing, policies, and procedures for the hiring, training, promotion, demotion and discharge of employees, and management plans, records, or proposals relating to labor-management relations.

(b) The purpose of this section is to protect any records relating to internal personnel rules and practices dealing with the relations between Board management and employees.

§ 401.53 Records exempt by statute from public disclosure.

(a) Information obtained under section 306(b) of the Independent Safety Board Act of 1974 "which concerns or relates to a trade secret referred to in 18 U.S.C. 1905." This includes commercial or financial information which is privileged or confidential.

(b) Whenever the Board determines that a proceeding must be closed for national security reasons, the minutes and all other documents pertaining to national security are exempt from public disclosure. (49 U.S.C. 1481.)

(c) Board determination of nondisclosure pursuant to 49 U.S.C. 1504 (section 1104 of the Federal Aviation Act of 1958, as amended). When any person objects to public disclosure of information in a Board document and the Board determines that disclosure would adversely affect the interest of such person, and is not required in the public interest, that information shall be withheld from public disclosure. For example, the Board has determined that it is not in the public interest to disclose (1) any information or documents in the Board's possession dealing with or related to the Board's position or construction of the provisions of the Annexes to the Chicago Convention (61 Stat. 1180), (2) any information obtained by the Board or the Board personnel as a result of participation by the Board and its personnel in accident investigations in foreign countries, unless the country of occurrence notifies the Board in writing that it has no objection to a disclosure of such information, and (3) any cockpit voice recorder tape or transcription thereof, in the custody of the Board, except for a transcription of those communications determined by the Board to be pertinent and relevant to the accident and which will be placed in the Board's public docket of such accident.

§ 401.54 Interagency and intra-agency exchanges.

(a) Any record prepared by a Board employee for internal Government use is within the statutory exemption to the extent that it contains—

(1) Opinions made in the course of developing official action by the Board but not actually made a part of that official section, or

(2) Information concerning any pending Board proceeding, or similar matter, including any claim or other dispute to be resolved before a court of law, administrative board, hearing officer, or contracting officer.

(b) The purpose of this section is to protect the full and frank exchange of ideas, views, and opinions necessary for the effective functioning of the Government. These resources must be fully and readily available to those officials upon whom the responsibility rests to take official Board action. Its purpose is also to protect against the premature disclosure of material that is in the developmental stage if premature disclosure would be detrimental to the authorized and appropriate purposes for which the material is being used, or if, because of its tentative nature, the material is likely to be revised or modified before it is officially presented to the public.

(c) Examples of materials covered by this section include staff papers containing advice, opinions, or suggestions preliminary to a decision or action; advance information on such things as proposed plans to procure, lease, or otherwise hire and dispose of materials, real estate, or facilities; documents exchanged preparatory to anticipated legal proceedings; material intended for public release at a specified future time, if premature disclosure would be detrimental to orderly processes of the Board; records of inspections, investigations, and surveys pertaining to internal management of the Board; and matters that would not be routinely disclosed in litigation but which are likely to be the subject of litigation.

§ 401.55 Unwarranted invasion of personal privacy.

Any personal, medical, or similar file is within the statutory exemption if its disclosure would harm the individual concerned or be a clearly unwarranted invasion of his personal privacy. This also applies to financial statements furnished by Board members and employees and to commercial or financial information customarily subjected to an attorney-client or similar evidentiary privilege.

§ 401.56 Records compiled for law enforcement purposes.

This exemption from public disclosure applies to records compiled for law enforcement, but only to the extent that disclosure would interfere with enforcement, be an unwarranted invasion of privacy, disclose the identity of a confidential source, disclose investigative procedures and practices, or endanger the life or security of law enforcement personnel.

§ 401.57 Records for regulation of financial institutions.

Records compiled for agencies regulating or supervising financial institutions are exempt from public disclosure.

§ 401.58 Geological records.

Records concerning geological wells are exempt from public disclosure.

Appendix—Fee Schedule

1. Special services fees (pursuant to 31 U.S.C. 483a). Upon request, services relating to public documents are available at the following fees:

(a) Subscriptions (calendar year):

(1) Initial decisions of the administrative law judges—$40.00.

(2) Board safety enforcement opinions and orders—$20.00.

(3) Board aircraft accident (probable cause) reports, brief format—$40.00 (U.S.) and $50.00 (foreign).

(4) Aircraft accident reports, narrative—$27.50 (U.S.) and $34.50 (foreign).

(5) Surface accident reports, narrative—$27.50 (U.S.) and $34.50 (foreign).

NOTE.—Subscription orders for (a) (3), (4) and (5) above, should be forwarded to the National Technical Information Service, P.O. Box 1551, Springfield, Virginia 22151.

(b) Document certification under the Board's seal—$4.00.

(c) Computer tapes and services for aviation accidents. Duplication of computer tapes (or a fraction thereof)—$40.00.

NOTE.—Computer tape requests should be addressed to the Chief, Information Systems Branch, Bureau of Aviation Safety, National Transportation Safety Board, Washington, D.C. 20594.

(d) The basic fees set forth provide for ordinary first-class postage prepaid. If registered, certified, air, or special delivery mail is used, postal fees therefor will be added to the basic fee. Also, if special handling or packaging is required, such costs will be added to the basic fee.

(e) Subscription fees for (a) above are waived for qualifying foreign countries, international organizations, nonprofit public safety entities, State and Federal transportation agencies, and colleges and universities, after approval by the Board's General Manager.

V 40163
APR 175

2. Commercial Reproduction fees and search fees. Pursuant to 5 U.S.C. 552, as amended, reproductions of the documents listed below is accomplished by commercial contract, and the reproductions are mailed from the contractor together with a billing for the costs. Requests must be forwarded to the Accident Inquiry Unit, National Transportation Safety Board, Washington, D.C. 20594, together with an agreement to pay the reproduction cost. For search fee, see note appearing under 2(e)(3) of this Appendix. Fees are subject to change depending upon the Board's annual contract award.

Current fees are:

(a) Photocopy:

Size (in inches):	Per page
8½ by 11	$0.12
8½ by 14	.24
10 by 14	.30
14 by 18	.60
18 by 24	.90

(b) Photographic prints:

Size (in inches):	Unit price
8 by 10 black/white	$1.05
5 by 7 color	3.25
8 by 10 color	6.50
2 by 2 color slide	1.50
2 by 2 black/white slide	1.25
4 by 10 X-ray	6.50

(c) Minimum charge for reproduction—$4.00.

(d) Special expedite service—80 percent surcharge for 24-hour service and 50 percent surcharge for 48-hour service.

(e) Document search fee—The Board has determined that it is in the public interest to limit search fees to documents which require commercial reproduction. Further, the fee has been reduced to the labor cost for a minimum time-search. Therefore, a $4.00 search fee is required only for:

(1) Factual accident investigation reports, statements, photographs, and other material contained in the Board's accident investigation files.

(2) Accident investigation information not in the Board's public files.

NOTE: The $4.00 search fee will be included in the commercial reproduction firm's invoice.

(f) Documents requiring commercial reproduction for copies:

(1) Transcripts of public hearings.

(2) Factual accident investigation reports and information (see (e) (1) and (2) above).

3. Reproduction fees for the public reading room. All documents in the Board's public files may be examined, without charge, in the Board's public reading room, located in the Accident Inquiry Unit. There is a self-service duplicator in the reading room, which is available to the public for reproduction at a nominal cost.

4. Documents available without commercial reproduction cost until limited supplies are exhausted:

(1) Press releases.

(2) Aviation accident reports, narrative, and brief format probable cause reports (on request for specific accidents).

(3) Surface accident reports.

(4) Special studies.

(5) Safety Board regulations (14 CFR 400 through 440).

(6) Indexes to initial decisions, Board orders, opinions and orders, and staff manuals and instructions.

(7) Statistical data published by the Board.

(8) Safety recommendations.

5. Documents for sale by the Government Printing Office:

(1) Board's annual report.

(2) Volume I, National Transportation Safety Board Decisions (1967–1972).

3. Part 425 is revised to read as follows:

PART 425—RULES OF PROCEDURE FOR MERCHANT MARINE APPEALS FROM DECISIONS OF THE COMMANDANT, U.S. COAST GUARD

Sec.

425.1 Applicability.
425.5 Notice of appeal.
425.10 Referral of record.
425.15 Issues on appeal.
425.20 Briefs or memoranda in support of appeal.
425.25 Oral argument.
425.30 Action by the Board.
425.35 Action after remand.

AUTHORITY: Section 304(a)(9)(B) of the Independent Safety Board Act of 1974 (88 Stat. 2169, 49 U.S.C. 1903(a)).

§ 425.1 Applicability.

The provisions of this part govern all proceedings before the National Transportation Safety Board on appeals taken from decisions, on or after April 1, 1975, of the Commandant, U.S. Coast Guard, sustaining orders of an administrative law judge, revoking, suspending, or denying a license, certificate, document, or register in proceedings under:

(a) R.S. 4450, as amended (46 U.S.C. 239);

(b) Act of July 15, 1954 (46 U.S.C. 239 a-b); or

(c) Section 4, Great Lakes Pilotage Act (46 U.S.C. 216(b)).

§ 425.5 Notice of appeal.

(a) A party may appeal from the Commandant's decision sustaining an order of revocation, suspension, or denial of a license, certificate, document, or register in proceedings described in § 425.1, by filing a notice of appeal with the Board within 10 days after service of the Commandant's decision upon the party or his designated attorney. Upon good cause shown, the time for filing may be extended.

(b) Notice of appeal shall be addressed to the Docket Clerk, National Transportation Safety Board, Washington, D.C. 20594. At the same time, a copy shall be served on the Commandant (GL), U.S. Coast Guard, Washington, D.C. 20590.

(c) The notice of appeal shall state the name of the party, the number of the Commandant's decision, and, in brief, the grounds for the appeal.

§ 425.10 Referral of record.

Upon receipt of copy of a notice of appeal under this part, the Commandant shall immediately transmit to the Board the complete record of hearing upon which his decision was based. This includes the charges, the transcript of testimony and hearing proceedings (including exhibits), briefs filed by the party, the decision of the administrative law judge, and the Commandant's decision on appeal. It does not include intra-agency staff memoranda provided as advice to the Commandant to aid in his decision.

§ 425.15 Issues on appeal.

The only issues that may be considered on appeal are:

(a) A finding of a material fact is erroneous;

(b) A necessary legal conclusion is without governing precedent or is a departure from or contrary to law or precedent;

(c) A substantial and important question of law, policy, or discretion is involved; or

(d) A prejudicial procedural error has occurred.

§ 425.20 Briefs or memoranda in support of appeal.

(a) Within 20 days after the filing of a notice of appeal, the appellant must file, in the same manner as prescribed for the notice in § 425.5, a brief or memorandum in support of the appeal.

(b) This document shall set forth:

(1) The name and address of the appellant;

(2) The number and a description of the license, certificate, document, or register involved;

(3) A summary of the charges affirmed by the Commandant as proved;

(4) Fact findings by the Commandant disputed by the appellant;

(5) Specific statements of errors of law asserted;

(6) Specific statements of any abuse of discretion asserted; and

(7) The relief requested.

(c) Objection based upon evidence of record need not be considered unless the appeal contains specific record citation to the pertinent evidence.

(d) When a brief or memorandum has been filed by appellant under this section, the Coast Guard may, within 15 days of service of the brief or memorandum on the Commandant, submit to the Board a reply brief or memorandum.

§ 425.25 Oral argument.

(a) If any party desires to argue a case orally before the Board, he should request leave to make such argument in his brief or memorandum filed pursuant to § 425.20.

(b) Oral argument before the Board will normally not be granted unless the Board finds good cause for such argument. If granted, the parties will be advised of the date.

§ 425.30 Action by the Board.

(a) If timely action to perfect an appeal under § 425.20 is not taken by an appellant, the Board will, on its own motion or on motion of the Coast Guard, dismiss the appeal.

(b) In a case reviewed by the Board, if no reversible error is found in the Commandant's decision on appeal, that decision will be affirmed.

(c) In a case reviewed by the Board, if reversible error is found in the Commandant's decision on appeal, the Board may:

(1) If it finds the error incurable, set aside the entire decision and dismiss the charges; or

(2) If it finds the error curable, set aside the order, or conclusions, or findings of the Commandant and remand the case to him for further consideration.

(d) When a matter has been remanded to the Commandant under paragraph (c) of this section, he himself may act in accordance with the terms of the order of remand, or he may, as appropriate, further remand the matter to the administrative law judge of the Coast Guard who heard the case, or to another administrative law judge of the Coast Guard, with appropriate directions.

§ 425.35 Action after remand.

When a case has been remanded under § 425.30, a party still has all rights of review under 46 CFR Part 5 and this Part, as applicable.

4. Parts 405, 421, 430, 431, 435, and 440 are retained as presently promulgated.

Effectvie date. These revisions and retentions will be effective April 1, 1975.

Signed at Washington, D.C. this 25th day of March, 1975.

[SEAL] JOHN H. REED,
Chairman.

[FR Doc.75-8139 Filed 3-31-75;8:45 am]

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. C-2381]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

American Cyanamid Co.

(Sec. 6, 38 Stat. 721 (15 U.S.C. 46). Interprets or applies sec. 7, 38 Stat. 731, as amended (15 U.S.C. 18))

In the Matter of American Cyanamid Company, a Corporation

Order modifying divestiture order issued against respondent April 16, 1973, 38 FR 12331, 82 F.T.C. 1220, by striking from Part I, the requirement that respondent divest itself of the plant located in Moosic, Pa.

Order reopening proceedings and modifying divestiture order is as follows: [1]

This matter is before the Commission on a petition filed by respondent American Cyanamid Company on December 20, 1974, requesting that the proceeding in the above-captioned matter be reopened for the purpose of modifying the order of divestiture issued therein on April 16, 1973, so as to relieve respondent of any further obligation to divest its plant located in Moosic, Pennsylvania.

In support of this request respondent alleges that the principal purpose of the divestiture provisions of the aforesaid Commission order has already been accomplished by respondent's sale of two lines of men's toiletries on April 1, 1974; that the plant in question was never used to produce these two product lines; and that the plant is presently an unoccupied, non-productive facility. The Director of the Bureau of Competition has filed an answer to the petition advising that he does not oppose the granting of the relief requested.

Having considered the petition and the answer thereto, the Commission is of the opinion that in the circumstances shown to exist the public interest will be served by reopening this proceeding for the purpose of modifying the order to the limited extent requested.

Accordingly, *It is ordered*, That this proceeding be, and it hereby is, reopened, and that the Commission's order of April 16, 1973, be, an it hereby is, modified by striking from Part I thereof the requirement that respondent divest itself of the plant located in Moosic, Pennsylvania.

The order reopening the proceeding and modifying the divestiture order was issued by the Commission January 21, 1975.

CHARLES A. TOBIN,
Secretary.

[1] Copy of the order filed with the original document.

[Docket No. 8834]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Holiday Magic, Inc., et al.

(Sec. 6, 38 Stat. 721; (15 U.S.C. 46). Interpret or apply sec. 5, 38 Stat. 719, as amended; Sec. 2, 49 Stat. 1526; (15 U.S.C. 45, 13))

In the Matter of Holiday Magic, Inc., a Corporation, and Sam Olivo, as Executor for the Decedent Respondent William Penn Patrick, and Fred Pape and Janet Gillespie, Individually

Order modifying Final Order issued against respondents on October 15, 1974, 40 FR 10665, 84 F.T.C. ____, by deleting Paragraph V of the order which required corporate respondent and respondent Olivo to make restitution as provided therein.

Order reopening proceedings and modifying final order, is as follows: [1]

The Commission's final order in this matter, dated October 15, 1974, provided, in Paragraph V, that respondent Olivo should make restitution as provided therein, and that corporate respondent, Holiday Magic, should also make restitution. The requirement as to Holiday Magic, however, was to be effective only in the event that the company should cease to be in compliance with a district court order also requiring that it make restitution. By order dated January 8, 1975, the Commission denied a motion of respondent Olivo to reconsider its order as to him.

In its opinion, the Commission recognized that its action in ordering restitution, in particular its assertion that it possessed the authority to do so, was contrary to the holding of the Ninth Circuit Court of Appeals in the case of *Heater* v. *Federal Trade Commission*, No. 73-1750, September 11, 1974. In footnote 11, page 23 of its final decision, the Commission noted its disagreement with the holding in *Heater* and stated that it would seek to obtain review of the decision by the Supreme Court.

Subsequent to rendition of the Commission's final order in this matter, and rendition of its order denying the motion to reconsider, the Commission has determined that it will not seek review of the *Heater* decision by the Supreme Court. While this determination should not be construed to signify a change in the view of the Commission regarding the correctness of the *Heater* decision, it does eliminate any possibility that *Heater* will not continue to be governing law in the Ninth Circuit. Corporate respondent's principal place of business is in the Ninth Circuit; individual respondent and the estate of the deceased respondent are situated in the Ninth Circuit, and respondents have appealed this matter in that circuit. Under these circumstances the Commission does not feel that it is privileged to disregard judicial precedent of such recent and clearly dispositive vintage. Under the holding in *Heater*, at the time the Commission issued its final order in this matter it was not empowered by the FTC Act to require respondent to make restitution for prior fraudulent activities. That holding not having been overruled, it would now be improper for the Commission, only a short time thereafter, to put respondent to the expense of, relitigating the same issue in the same forum. This is particularly so inasmuch as the assets of the wrongdoer's estate with which the cost of such litigation would be financed are limited, and may be subject to other claims, including claims of private plaintiffs seeking repayment for the same wrongs which led the Commission to issue the original order of restitution in this case.

Pursuant to § 3.72(a) of its rules of practice, the Commission may, "prior to the filing of the transcript of the record of a proceeding in a United States court of appeals pursuant to a petition for review" reopen the proceeding on its own motion and modify its order in said proceeding. Therefore,

It is ordered, That this matter be reopened and that the final order be modified by striking Paragraph V in its entirety, and renumbering all subsequent paragraphs.

The order reopening the proceeding and modifying the final order was issued by the Commission January 21, 1975, with Commissioner Nye not participating.

CHARLES A. TOBIN,
Secretary.

[Docket No. C-2632]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Insurance Finance Plan Co., et al.

Subpart—Advertising falsely or misleadingly: § 13.73 Formal regulatory and statutory requirements: § 13.73–92 Truth in Lending Act; § 13.155 Prices: § 13.155–95 Terms and conditions: § 13.155–95(a) Truth in Lending Act. Subpart—Misrepresenting oneself and goods—Prices: § 13.1823 Terms and conditions: § 13.1823–30 Truth in Lending Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 Formal regulatory and statutory requirements: § 13.1852–75 Truth in Lending Act; § 13.1905 Terms and conditions: § 13.1905–60 Truth in Lending Act.

(Sec. 6, 38 Stat. 721; (15 U.S.C. 46). Interpret or apply sec. 5, 38 Stat. 719, as amended, 82 Stat. 146, 147, (15 U.S.C. 45, 1601–1605))

In the Matter of Insurance Finance Plan Co., a Corporation, and Maurice R. Loiselle, Individually and as an Officer of Said Corporation

Consent order requiring a Central Falls, R.I., moneylender in connection with the financing of insurance premiums, among other things to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

ORDER

It is ordered, That respondents Insurance Finance Plan Co., a corporation, its successors or assigns, and its officers, and Maurice R. Loiselle, individually and as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with any extension of consumer credit or advertisement to aid, promote or assist, directly or indirectly, and extension of consumer credit, as "consumer credit" and "advertisement" are defined in Regulation Z (12 CFR 226) of the Truth in Lending Act (Pub. L. 90–321, 15 U.S.C. 1601 *et seq.*) do forthwith cease and desist from:

1. Failing to use the term "cash price", as defined in § 226.2(i) of Regulation Z, to describe the purchase price of the item, as required by § 226.8(c)(1) of Regulation Z.

2. Failing to use the term "cash downpayment" to describe the downpayment in money made in connection with the credit sale, as required by § 226.8(c)(2) of Regulation Z.

3. Failing to use the term "unpaid balance of cash price" to describe the difference between the cash price and the total downpayment as required by § 226.8(c)(3) of Regulation Z.

4. Failing to disclose the sum of the cash price, all charges which are included in the amount financed but which are not part of the finance charge, and the finance charge, and to describe that sum as the "deferred payment price", as required by § 226.8(c)(8)(ii) of Regulation Z.

5. Failing to furnish the consumer with a duplicate of the instrument containing the required disclosures or a statement by which the required disclosures are made, as required by § 226.8(a) of Regulation Z.

6. Failing in any consumer credit transaction or advertising to make all disclosures determined in accordance with §§ 226.4 and 226.5 of Regulation Z at the time and in the manner, form and amount required by §§ 226.6, 226.8 and 226.10 of Regulation Z.

7. Stating in any advertisement the period of repayment which can be arranged in connection with a consumer credit transaction, without also stating all of the following items in terminology prescribed under § 226.8 of Regulation Z, as required by § 226.10(d)(2) of Regulation Z.

(i) The cash price;

(ii) The amount of the downpayment required or that no downpayment is required as applicable;

(iii) The number, amount, and due dates or periods of payments scheduled to repay the indebtedness if the credit is extended;

(iv) The amount of the finance charge expressed as an annual percentage rate; and

(v) The deferred payment price.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents now or hereafter engaged in the consummation of any extension of consumer credit or in any aspect of preparation, creation or placing of advertising; and that respondents secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That respondent notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission, January 6, 1975.

CHARLES A. TOBIN,
Secretary.

In the Matter of Martin Industries, Inc., a Corporation, and Cattle Buyers, Inc., a Corporation, and Educational Finance Corp., a Corporation, and Daniel M. Martin, Jr., and George C. Kopp, III, Individually and as Officers of Said Corporations

Consent order requiring three Kansas City, Mo., affiliated sellers of a correspondence course in livestock buying, among other things to cease using deceptive sales tactics and from violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

[1] Copies of the Complaint, Decision and Order, filed with the original document.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

ORDER

Count I

It is ordered, That respondents Martin Industries, Inc., Cattle Buyers, Inc., and Educational Finance Corp., corporations, their successors and assigns, and their officers, and Daniel M. Martin, Jr., and George C. Kopp, III, individually and as officers of each of said corporations and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale, sale, or distribution of courses of study, training, or instruction in the field of livestock buying or any other course of instruction, or product, or service, in any field in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing orally, in writing, or in any other manner, directly or by implication, that:

(a) Persons who enroll in any course(s) of instruction offered by respondents will be employed as buyers in the livestock industry or any other industry.

(b) Respondents offer employment in the livestock industry or any other industry.

(c) Respondents assist or are able to assist any person in securing employment as a buyer in the livestock industry or in any other position.

(d) There is a demand for persons completing the course offered by respondents in the area of cattle buying, selling, or trading.

2. Failing to disclose clearly and conspicuously, in all advertising and promotional material, that respondents are seeking prospective purchasers for their course(s) of instruction and do not offer employment or assistance in obtaining employment.

3. Failing to send by certified mail, return receipt requested, to each person who contracts for the sale of any course of instruction, a notice, in a form approved by the Commission, which shall disclose the following information and none other:

(a) The title "IMPORTANT INFORMATION" printed in bold face type across the top of the form.

(b) A paragraph reciting the following affirmative disclosures:

(1) A statement disclosing that most persons enrolling in respondents' course(s) of livestock buying will not be employed in the livestock buying industry during or after completion of said course(s) of instruction.

(2) A statement disclosing that respondents do not offer or assist their students in obtaining employment.

(3) A statement disclosing the total number of students who have enrolled in each course of instruction offered by respondents for each of the three (3) preceding calendar years.

(4) A statement disclosing the total number of students who have graduated from each course of instruction offered by respondents for each of the three (3) preceding calendar years.

(5) A statement disclosing the total number of students which respondents can affirmatively show have become employed as a result of completing any of respondents course(s) of instruction for each of the three (3) preceding calendar years.

(6) An explanation of the cancellation procedure provided in this order, namely, that any contract or other agreement may be cancelled within three (3) days after receipt by the customers, via the United States Mails, of this notice.

(7) Said notice shall contain a detachable form which the person may use as a notice of cancellation, which indicates the proper address for accomplishing any such cancellation.

(8) The said notice shall be sent by respondents no sooner than the next day after the person shall have executed a contract for the sale of any course(s) of instruction.

4. Contracting for any sale of any course(s) of instruction in the form of a sales contract or other agreement which shall become binding prior to the end of the third business day after the day of receipt by the customer of the form of notice provided in Paragraph 3 of this order.

5. Failing to keep adequate records which may be inspected by the Commission staff members upon reasonable notice:

(a) Which disclose the facts upon which any placement statistics or claims or other representations of the type described in Paragraph 3(b) (3), (4) and (5) of this order are based, and

(b) From which the validity of any placement statistics described in Paragraph 3(b) (3), (4) and (5) of this order can be determined, for so long as such statistics, claims, or other representations are disseminated, made, or authorized by respondents, or are required to be disclosed hereunder and for a period of three (3) years after respondents' termination of dissemination, use, authorization, or disclosure of such statistics, claims, or representations (whichever period is the longer).

It is further ordered, That respondents, in connection with the sale, or offering for sale of any course(s) of instruction or training:

A. Inform orally all prospective purchasers to whom solicitations are made, and provide, in writing, in all applications and contracts, in at least ten-point bold type, that the application or contract may be cancelled for any reason by notification to respondents, in writing, within three (3) days from the date of receipt of the form of notice provided in Paragraph 3 of this order. B. Refund immediately all monies to all purchasers who have requested cancellation of the application or contract within three (3) days from the date of receipt of the form of notice provided in Paragraph 3 of this order.

Count II

It is further ordered, That respondents Martin Industries, Inc., Cattle Buyers, Inc., and Educational Finance Corp., corporations, their successors and assigns, and their officers, and Daniel M. Martin, Jr., and George C. Kopp, III, individually and as officers of each of said corporations and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, division, or other device, in connection with any extension of consumer credit as "consumer credit" is defined in Regulation Z (12 CFR 226) of the Truth in Lending Act (Pub. L. 90–321, (15 U.S.C. 1601, *et seq.*), do forthwith cease and desist from:

1. Failing to disclose the term "Finance Charge" more conspicuously than other terminology as required by § 226.6(2) of Regulation Z.

2. Failing to use the term "Total of Payments" to describe the sum of the payments scheduled to repay the indebtedness as required by § 226.8(b)(3) of Regulation Z.

3. Failing to use the term "Cash Price" to designate the cash price of the property or service which is the subject of the transaction as required by § 226.8(c)(1) of Regulation Z.

4. Failing to use the term "Cash Downpayment" to designate any downpayment in money, as required by § 226.8(c)(2) of Regulation Z.

5. Failing to use the term "amount financed" to designate the amount financed as required by § 226.8(c)(7) of Regulation Z.

6. Failing to use the term "Deferred Payment Price" to describe the sum of the "cash price," all other charges which are included in the amount financed but which are not part of the finance charge, and the finance charge as required by § 226.8(c)(8)(ii) of Regulation Z.

It is further ordered, That: 1. Respondents herein deliver a copy of the decision and order in this matter to each of their present and future employees, salesmen, agents, solicitors, independent contractors, or to any other person who promotes, offers for sale, sells, or distributes any course of instruction included in this order.

2. Respondents herein provide each person so described in Paragraph 1 above with a form, returnable to the respondents, clearly stating their intention to be bound by and to conform their business practices to the requirements of this order; retain said statement during the period said persons are so engaged; and make said statement available to the Commission's staff for inspection and copying purposes upon request.

3. Respondents herein inform each person so described in Paragraph 1 above that the respondents will not use or engage, or will terminate the use or employment of any such party, unless such

[1] Copies of the Complaint, Decision and Order, filed with the original document.

V 40 163
APR 1 75

party agrees to and does file notice with the respondents that he will be bound by provisions contained in this order.

4. If such party as described in Paragraph 1 above will not agree to so file the notice set forth in Paragraph 2 above with the respondents and be bound by the provisions of the order, the respondents will not use or employ or continue the use or employment of such party to promote, offer for sale, sell, or distribute any course of instruction included in this order.

5. Respondents herein inform the persons described in paragraph 1 above that the respondents are obligated by this order to discontinue dealing with, or to terminate the use or employment of persons who continue on their own the deceptive acts or practices prohibited by this order.

6. Respondents herein institute a program of continuing surveillance adequate to reveal whether the business practices of each said person described in paragraph 1 above conform to the requirements of this order.

7. Respondents herein discontinue dealing with or terminate the use or engagement of any person described in paragraph 1 above, as revealed by the aforesaid program of surveillance, who continues on his own any act or practice prohibited by this order.

It is further ordered, That respondents shall forthwith distribute a copy of this order to each corporation and division of such corporation through which they transact business in conjunction with the promotion, advertisement, solicitation, and/or sale of any course(s) of instruction.

It is further ordered, That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged as well as a description of their duties and responsibilities.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in any corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondent herein shall within sixty (60) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order.

The Decision and Order was issued by the Commission, January 16, 1975.

CHARLES A. TOBIN,
Secretary.

Subpart—Dealing on exclusive and tying basis: § 13.670 Dealing on exclusive and typing basis: § 13.670-20 Federal Trade Commission Act.

(Sec. 6, 38 Stat. 721 (15 U.S.C. 46). Interprets or applies sec. 5, 38 Stat. 719, as amended (15 U.S.C. 45))

In the Matter of The Phillips Petroleum Company

Consent order requiring a Bartlesville, Okla., distributor of petroleum, tires, batteries and automobile accessories, among other things to cease engaging in anticompetitive practices with respect to its lessee dealers. Further, with few exceptions allowed, respondent must offer its dealers leases with a term of not less than five years.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:[1]

ORDER

I. For purposes of this Order, the following definitions shall apply:

1. The term "lessee dealer" refers to a tenant operating a Phillips Petroleum Company trademarked automotive service station leased to such tenant by Phillips Petroleum Company and such tenant being primarily engaged in the business of reselling automotive gasolines, lubricants, tires, batteries and automotive accessories from the leased premises to the motoring public. The term "lessee dealer" does not include nor refer to jobbers or wholesale distributors of gasolines, lubricants, tires, batteries or automotive accessories; persons who lease a service station from jobbers or wholesale distributors or other third parties; persons who own or lease from third parties the facilities they are operating and receive a flat rental or a monthly accumulated gallonage rental from Phillips Petroleum Company; aviation fixed base operators; and marina outlets.

2. The term "refined petroleum products" refers to automotive gasolines and automotive lubricants customarily sold by lessee dealers, which are produced in the refining process of crude oil and natural gas liquids.

3. The term "TBA" refers to automotive tires and tubes, automotive batteries and automotive accessories, including, but not limited to, spark plugs, oil filters, fan belts, auto lamps, fuses, windshield wipers and blades, antifreeze preparations, waxes, polishes, and other items used on or in the minor servicing or minor repairing of highway automotive vehicles.

4. The term "effective date of this Order" refers to the date of issuance of the Commission's Decision and Order with respect to this matter.

II. *It is ordered*, That Respondent, Phillips Petroleum Company, a corporation, its successors and assigns and Respondent's officers, agents, representatives and employees directly or through any corporation, subsidiary, division or other device, in connection with the sale or distribution of refined petroleum products and TBA products in commerce, as "commerce" is defined in the Federal Trade Commission Act, shall not:

1. Enter into, renew or initiate an offer to enter into or renew a lease with a lessee dealer for a term of less than five (5) years as a condition to becoming or remaining a lessee dealer;

Provided, however, (i) That in any lease with a lessee dealer Respondent shall give such dealer the option to cancel such lease upon sixty (60) days written notice to Respondent;

(ii) that where Respondent holds any premises as lessee and not as owner for a period of less than five (5) years, Respondent may condition the five-year lease offered its lessee dealer upon Respondent's renewal of the term of the underlying lease on the premises for a period coextensive with the five-year period of the lease offered the lessee dealer. Such condition shall be conspicuously noted on such lease. In the event Respondent does not renew the underlying lease, the term of its lease to its lessee dealer may be the same as the term of such underlying lease;

(iii) that with respect to a lessee dealer who has not operated a service station as a dealer in the sale of gasoline for a period of six (6) months prior to the execution of said lease, Respondent shall have the right to terminate the five-year lease offered to such dealer at any time without cause and without arbitration within six (6) months after the date such dealer enters into such lease upon advance written notice of not less than thirty (30) days.

2. Coerce, intimidate or prohibit lessee dealers from purchasing TBA products and refined petroleum products; except gasoline, from non-Respondent sources, or require, by contract, agreement, understanding, course of dealing, or by any means whatsoever, that lessee dealers:

(i) deal exclusively in such products manufactured, sold, distributed, or sponsored by Respondent;

(ii) refrain from handling such products obtained from non-Respondent sources.

3. Prohibit lessee dealers from purchasing gasoline from non-Respondent sources; *provided, however*, Respondent may require lessee dealers to maintain on the premises a representative amount of Respondent's trademarked and/or trade named gasolines, for resale to the public; and *provided further*, That Respondent may take such measures as are both lawful and necessary to protect Respondent's trademark rights and to avoid violations of federal and state statutes, and regulations adopted pursuant thereto, governing the distribution, handling or sale of gasoline.

4. Refuse to accept from all authorized lessee dealers authorized charges on Phillips credit cards by its valid card holders for purchases made at the leased premises of refined petroleum products and TBA regardless of whether or not such products were manufactured, distributed or sponsored by Respondent.

5. By contract or course of dealing:

(i) Require any of its lessee dealers to accept product financing from Respondent; or in any way prevent its lessee dealers from obtaining product financing from sources other than Respondent:

(ii) condition or deny financing of the purchase of any product line by lessee dealers on the basis that a lessee dealer who requests financing is (a) selling another product line which is not manufactured, distributed or sponsored by Respondent, or (b) is not purchasing or stocking enough of a product line which is manufactured, distributed or sponsored by Respondent.

III. *It is further ordered*, That from and after the date of this Order:

(a) All existing leasehold agreements not in conformity with Part II, Paragraph 1, of this Order, shall, within ninety (90) days from the effective date of this Order, be renewed so as to conform with the provisions of this Order.

(b) All leasehold agreements entered into between Respondent and any lessee in conformity with Part II, Paragraph 1, of this Order shall be automatically renewed for a term of equal duration unless either party, prior to the expiration of the agreement, gives ninety (90) days advance written notice to the other party of his intention to terminate the agreement; *Provided, however*, Respondent may give a ninety (90) day advance written notice of its intention to offer a new lease agreement of different terms and conditions not inconsistent with this Order and in such event the existing lease shall remain in effect until a new lease agreement is reached or until either party concludes that an impasse exists and in the latter event either party shall give the other party sixty (60) days advance written notice of termination of the existing lease.

IV. *It is further ordered*, That immediately after the effective date of this Order, a cancellation by Respondent prior to the expiration of the term of any lease between Respondent and a lessee dealer must be pursuant to sixty (60) days advance written notice of intent to cancel said lease; *Provided, however*, Respondent may cancel a lessee dealer without advance written notice in the event of the following:

(a) Death or legal incompetency of the lessee dealer;

(b) The institution of insolvency, bankruptcy or receivership proceedings by the lessee dealer or the taking advantage by lessee dealer of any law for the benefit of debtors;

(c) Vacancy or abandonment of the leased premises for a continuous period of five (5) days;

(d) If the premises or a sufficient portion thereof to prevent the use thereof as a service station are condemned to be taken for any public purposes or if Phillips elects to execute a voluntary conveyance or assignment in lieu of such taking by condemnation;

(e) Destruction of the leased premises;

(f) Dealer is convicted of a felony.

Upon receipt of the requisite notice of intent to cancel, either party may elect to invoke arbitration pursuant to the Commercial Arbitration Rules and the Procedures of the American Arbitration Association (AAA), for the purpose of determining whether good cause exists or existed for the cancellation. If Respondent cancels a lessee dealer without advance written notice for the reasons set forth in Part IV, subparagraphs (a) through (f) above, such lessee dealer may not invoke arbitration. The party invoking arbitration shall give the other party written notice of its intent to invoke arbitration within fifteen (15) days from the receipt of the notice of intent to cancel, setting forth the basis for such invocation and filing two (2) copies of said notice with the Regional Office of AAA closest to said lessee dealer's residence. If such written notice of intention to arbitrate is not made within such fifteen (15) day period, arbitration shall be deemed to have been waived. If arbitration is invoked by either party, such arbitration shall be exclusive and in lieu of any other common law rights. The locale for arbitration shall be fixed by the AAA and shall be selected from the standby facilities maintained by the AAA for arbitration. It is understood and anticipated that such locale shall be the closest available to the lessee dealer's residence.

The Arbitrator shall be selected by the parties from the panel of arbitrators of the AAA; said Arbitrator shall be empowered to determine the merits of the good cause issue; assess the costs of arbitration; and the decision of said Arbitrator shall be final and binding upon the parties and judgment thereon may be entered in any court of competent jurisdiction. Arbitration shall be no cause for delay, and in the event of a default by either party in appearing before the Arbitrator, pursuant to advance written notice, the Arbitrator is authorized to render a decision upon the testimony of the party appearing.

The lessee dealer may elect to remain in possession of the leased premises pending the decision of the Arbitrator, and for an additional thirty (30) days in the event the decision of the Arbitrator is against the lessee dealer; *Provided, however*, That upon motion by Respondent showing that the lessee dealer has discontinued operations during normal business hours, the Arbitrator shall be empowered to order that Respondent may take immediate peaceable possession of the premises.

The Arbitrator shall have no power or jurisdiction to add to, subtract from, alter, or modify any of the terms of the lease. Except with respect to costs, as provided below, the Arbitrator shall only have power and jurisdiction to determine if good cause for cancellation exists or existed under the provisions of the lease. Further, except for costs, as provided below, the sole remedy that the Arbitrator has jurisdiction and authority to award is allowing the dealer to continue as a dealer under the terms of the lease, and the Arbitrator does not have jurisdiction or authority to award monetary damages or any other affirmative relief.

If the Arbitrator fails to find that good cause exists or existed for cancellation, Respondent shall allow the lessee dealer to continue as a lessee dealer under the terms of the existing lease arrangement or enter into a new leasehold agreement conforming with the provisions of this Order.

At any time during the arbitration proceedings, the Arbitrator, upon motion by either party shall be empowered to order the other party to post bond with a reputable bonding or surety company or otherwise provide security to the Arbitrator in an amount sufficient to cover any costs of arbitration to be borne by the parties as hereinafter provided and to cover any losses in rent, reimbursement for supplies or other damages which may be sustained by either party, or other damage to the leasehold during the period following the invoking of arbitration.

At the conclusion of the arbitration proceeding, the Arbitrator shall be empowered to assess all costs of arbitration as he deems to be just and equitable under the circumstances of the particular case except that in all instances Respondent shall pay its attorneys' fees. If the Arbitrator fails to find that good cause exists or existed for cancellation, Respondent shall bear all costs of the arbitration.

The lessee dealer's right to elect arbitration, including lessee dealer's time limitations, lessee dealer's remedies, AAA's headquarters address and the Regional Office of AAA closest to the lessee dealer's residence as then known, shall be conspicuously noted in all leases subject to the provisions of this Order.

[1] Copies of the Complaint, Decision and Order, filed with the original document.

V 40163
APR 1 75

provided, however, That with respect to those leased premises subject to the Court's jurisdiction in the case of *United States* v. *Phillips Petroleum Company and Tidewater Oil Company*, No. 66–1154 (C.D. Cal., 1966) and permitted to be retained by Respondent after the entry of a Final Judgment in that case, the requirements of this last paragraph of Part IV as to conspicuous notice in leases shall not be effective until ninety (90) days after the entry of such Final Judgment; *Provided, further*, That with respect to those leased premises subject to the Court's jurisdiction in the aforesaid case which are to be sold or divested by Respondent pursuant to such Final Judgment, the requirements of this last paragraph of Part IV as to conspicuous notice in leases shall not apply; and *Provided, finally*, That the requirements of this last paragraph of Part IV as to conspicuous notice in leases shall in all other instances be made effective ninety (90) days after the effective date of this Order.

V. *It is further ordered*, That from and after the effective date of this Order, Respondent shall not, directly or indirectly, require, encourage or suggest that its branded jobbers or wholesale distributors enter into contractual arrangements with their dealers which, if entered into by Respondent and its lessee dealers, would contravene the provisions of Part II, Paragraphs 2, 3, 4 and 5 of this Order.

VI. *It is further ordered*, That Respondent shall, within ninety (90) days after the effective date of this Order, serve upon all of its lessee dealers a letter by certified mail, signed by a responsible official binding the Respondent, and on official Phillips Petroleum Company stationery, which shall include the following statement in its first paragraph:

> The Federal Trade Commission has entered an Order which, among other things, prohibits Phillips Petroleum Company from coercing, restraining or restricting the rights of lessee dealers to function as independent businessmen, as more fully set forth in the relevant provisions of the Order which are enclosed.

The relevant provisions of this Order which shall be enclosed in such letters to such lessee dealers are Parts I–IV thereof. This letter shall be submitted to the Commission for approval before it is mailed to lessee dealers.

VII. *It is further ordered*, That Respondent shall within ninety (90) days after the effective date of this Order serve upon all of its branded jobbers and wholesale distributors a letter by certified mail, signed by a responsible official and on official Phillips Petroleum Company stationery, which shall include the following statement in its first paragraph:

> The Federal Trade Commission has entered an Order which, among other things, prohibits Phillips Petroleum Company from requiring, encouraging, or suggesting that its branded jobbers or wholesale distributors enter into contractual arrangements with their dealers which, if entered into by Phillips and its lessee dealers would violate Part II, Paragraphs 2, 3, 4 and 5 of the Order.

The relevant provisions of the Order are enclosed.

The relevant provisions of this Order which shall be enclosed in such letters to lessee dealers are Parts I, II, III and V thereof. This letter shall be submitted to the Commission for approval before it is mailed to jobbers and wholesale distributers.

VIII. *It is further ordered*, That should Respondent during the ninety (90) day period immediately following the effective date of this Order send any lessee dealer advance written notice of intent to cancel a lease between Respondent and such lessee dealer prior to the expiration of the term of the lease, Respondent must simultaneously notify such lessee dealer of the provisions of Part IV of this Order.

IX. *It is further ordered*, That Respondent shall forthwith distribute a copy of this Order to each of its Marketing Division operating units.

X. *It is further ordered*, That Respondent shall notify the Commission at least thirty (30) days prior to any proposed change in Respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the Order.

XI. *It is further ordered*, That Respondent shall, within ninety (90) days after service upon it of this Order, and every ninety (90) days thereafter for a period of one (1) year and thereafter annually at the end of the calendar year for a period of nine (9) years file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this Order. This Order shall remain in effect for twenty (20) years from its effective date.

XII. *It is further ordered*, That no provision contained in this Order shall prohibit Respondent from completely divesting itself of any interests in any leased station which is required by a Final Judgment in *United States* v. *Phillips Petroleum Company and Tidewater Oil Company*, No. 66–1154 (C.D. Cal., 1966), and that immediately after the effective date of this Order only Paragraphs 2, 3, 4 and 5 of Part II of this Order and Part IV of this Order shall apply to the Respondent's lessee dealers whose leased premises are subject to the Court's jurisdiction in the aforementioned case; *Provided, however*, That in the event Respondent is permitted, following entry of a Final Judgment in the aforesaid case, to retain any of the premises presently leased to lessee dealers, thereupon after ninety (90) days all the other provisions of this Order shall apply in all respects to such retained, leased premises; *Provided, further*, That no provision of this Order shall be binding upon or apply to any of the leased premises of Respondent sold or divested pursuant to a Final Judgment in the aforesaid case.

The Decision and Order was issued by the Commission December 27, 1974.

CHARLES A. TOBIN,
Secretary.

[FR Doc.75–8321 Filed 3–31–75;8:45 am]

SUBCHAPTER C—REGULATIONS UNDER SPECIFIC ACTS OF CONGRESS

PART 302—RULES AND REGULATIONS UNDER FLAMMABLE FABRICS ACT

Children's Sleepwear, Sizes 7 Through 14; Labeling, Recordkeeping and Other Requirements

The purpose of this document is to issue a final regulation (16 CFR 302.21) under the Standard for the Flammability of Children's Sleepwear, Sizes 7 through 14 (FF 5–74), to establish requirements for labeling of items subject to the Standard; requirements for display of items subject to the Standard which are offered for sale to consumers in retail establishments; requirements for maintenance of records relating to the manufacture and sale of items subject to the Standard; and requirements for testing for guaranty purposes under the Standard.

The Standard is applicable to children's sleepwear garments in sizes 7 through 14, and to any fabric or related material intended or promoted for use in children's sleepwear in these sizes. The Standard and the regulation published below have been issued under provisions of the Flammable Fabrics Act (15 U.S.C. 1191–1204), which provides for civil and criminal penalties for the violation of any standard or regulation issued under that act.

The principal provisions of the regulation issued below are:

1. A requirement that each garment and each piece of fabric subject to the Standard be labeled to identify the production unit in which the item was manufactured. The production unit identification must appear on a permanent label attached to the garment or must be stamped permanently on the garment. The production unit identification of any fabric subject to the Standard must appear on every label relating to that fabric which is required by the Textile Fiber Products Identification Act or by the Wool Products Labeling Act of 1939, or on any invoice used in lieu of labeling under those acts.

2. A requirement for permanent labeling of items subject to the Standard to indicate precautionary care and treatment instructions to protect those items from any agent or treatment which is known to cause those items to be less flame resistant.

3. A requirement for non-permanent labeling of items manufactured on or after May 1, 1975 through May 1, 1978, which are subject to and comply with the Standard to inform consumers that such items comply with the Standard.

4. Requirements that retail dealers who offer noncomplying items of children's sleepwear, in sizes 7 through 14, for sale to consumers display those noncomplying items so that they are not intermingled with complying items; separate displays of noncomplying items from displays of complying items by a distance of at least 36 inches; and identify displays of noncomplying items and complying items by signs with letters at least one inch high.

5. Requirements for the maintenance of records by manufacturers, importers and other persons who initially introduce items subject to the Standard into interstate commerce to establish a line of continuity through the process of manufacture of each production unit of items to the sale and delivery of finished items, and from the specific finished items back to the manufacturing records. The records required for every production unit must relate that unit to a production unit identification number, letter, or date which is required to appear on each item subject to the Standard.

Background. The Standard for the Flammability of Children's Sleepwear; sizes 7 through 14 (FF 5–74) was issued by the Commission on May 1, 1974 (39 FR 15210) with an effective date of May 1, 1975. In the FEDERAL REGISTER of January 20, 1975 (40 FR 3276), the Commission proposed an amendment to the Standard to require affirmative labeling of items of children's sleepwear in sizes 7 through 14 which are manufactured on or after May 1, 1975 through May 1, 1978, to indicate that such items comply with the Standard. The amendment to the Standard was published in the FEDERAL REGISTER on March 21, 1975 (40 FR 12811) and a correction notice was published for technical reasons on March 27, 1975 (40 FR 13547). It will become effective on May 1, 1975, the effective date of the Standard.

In the FEDERAL REGISTER of January 20, 1975 (40 FR 3279), the Commission also proposed this regulation, 16 CFR 302.21, to establish labeling, recordkeeping, and other requirements for persons who manufacture or sell items subject to the Standard. Interested parties were afforded a period of thirty days to comment on the proposed regulation.

CODIFICATION NOTE: The regulations being amended herein (Part 302), although appearing in the CFR under Title 16, Chapter I—Federal Trade Commission, are now the responsibility of the Consumer Product Safety Commission by provisions of section 30(b) of the Consumer Product Safety Act (86 Stat. 1231; 15 U.S.C. 2979(b)). Until the Commission revises and transfers the regulations issued under the Flammable Fabrics Act to Title 16, Chapter II—Consumer Product Safety Commission, it shall amend them in Chapter I.

Response to proposal and CPSC decisions thereon. In response to the proposed regulation, comments were received from manufacturers of items subject to the Standard, an association of manufacturers, retailers, associations of retailers and interested individuals. The principal issues raised by these comments and the Commission's decisions thereon are as follows:

A. *Labeling provisions.* 1. The proposed regulation includes § 302.21(b)(1) which requires that where any agent or treatment "is known to cause" deterioration of flame resistance of an item subject to the Standard, "or otherwise causes" deterioration of flame resistance, that item must be labeled with precautionary care and treatment instructions to protect the item from such an agent or treatment. One garment manufacturer objects that the language of this paragraph is vague and places a responsibility on the manufacturer to warn against situations which may be unknown to the manufacturer as well as to the consumer. This commenter requests the addition of language to limit the scope of the requirement for cautionary instructions to agents or treatments known to cause deterioration of flame resistance or which otherwise cause deterioration of flame resistance "due to normal refurbishing."

The Commission declines to make the change requested because the Commission concludes that the duty of manufacturers to give instructions for the proper care of items subject to the Standard should not be limited to giving information which is common knowledge in the garment and textile industries, but rather should include some obligation to detect and inform consumers about treatments or agents which may cause deterioration of flame resistance. Moreover, .6 of the Standard for the Flammability of Children's Sleepwear, Sizes 7 through 14 (FF 5–74), requires labeling "with precautionary instructions to protect the items from agents or treatments which are known to cause significant deterioration of their flame resistance."

2. Provisons of proposed § 302.21(b)(2) require that any item subject to the Standard which has been initially tested under the Standard after one washing must be permanently labeled with instructions to wash the item before wearing it. One association of garment manufacturers contends that the requirement for such an instruction on a permanent label is unnecessary because it could be included on a hang tag, on the package, or on an insert and adequately inform the consumer.

The Commission finds that since the requirement for a permanent label is prescribed by .6 of the Standard, § 302.21(b)(2) of the regulation issued below must likewise prescribe a permanent label.

3. Provisions of proposed § 302.21(b)(5) require that samples, swatches, or specimens used to promote the sale of items subject to the Standard must be labeled with all of the information specified in the proposed regulation, except that such information may appear on promotional materials which are attached to fabric samples, specimens, or swatches used to promote the sale of fabrics to garment manufacturers. A comment from a firm which sells fabrics to consumers by mail order requests the addition of language to proposed § 302.21(b)(5) to extend the application of the provision which allows placement of required labeling information on accompanying promotional materials to cover catalogues used to promote the sale of fabrics subject to the Standard to consumers. This commenter states that compliance with provisions of proposed § 302.21(b)(5) would be difficult and costly for that firm.

The Commission declines to make the requested change. The provision in proposed § 302.21(b)(5), which allows placement of required labeling information on accompanying promotional materials in the case of samples, swatches, or specimens used to promote the sale of fabrics to garment manufacturers, is intended to relieve persons who sell fabrics to garment manufacturers from the requirement of labeling every swatch or specimen because of the large number of individual specimens such persons might use. The Commission also allows this exception to the labeling requirement because of the specialized knowledge of those to whom the samples, swatches, or specimens are distributed. The Commission concludes that mail order catalogues used to promote the sale of fabrics to consumers are neither likely to involve such large numbers of specimens nor to be sent to as knowledgeable potential purchasers as materials used to promote the sale of garments to fabric manufacturers.

4. Proposed § 302.21(b)(7)(1) requires that every garment subject to the Standard bear an appropriate garment production unit identification, on a label or stamped onto the fabric of the garment, in letters at least one-sixth inch high.[1] Comments from a garment manufacturer and an association of manufacturers states that the requirement that the garment production unit identification must appear in letters at least one-sixth inch high is unnecessarily restrictive and should be replaced with a requirement that the garment production unit identification be "legible".

While the Commission can understand the desire of garment manufacturers for relaxation of restrictions on the design of the label or marking used to indicate the garment production unit identification, the Commission concludes that the term "legible" is not sufficiently specific for the purpose of this labeling requirement, and that minimum dimensions for the lettering must be specified to insure objective and enforceable criteria to achieve the desired degree of prominence for the garment production unit identification. Accordingly, the change requested in these comments

[1] Throughout the preamble of this document, dimensions are given in the English system of measurement, that is in inches. In the text of the final regulation published below, dimensions are stated in metric terminology, that is in centimeters and millimeters, followed by the English system equivalents enclosed in parentheses. For purposes of enforcement of the Standard the Commission will rely on dimensions expressed in metric terminology.

V 40163 APR 175

has not been made in the regulation issued below.

These commenters also state that the language of proposed § 302.21(b)(7)(i) may be interpreted to require that if the garment production unit identification is placed on a label, that label must be at least one inch from any other information on the garment, and object that such a requirement would be extremely burdensome. When the Commission proposed § 302.21(b)(7)(i), it intended to allow manufacturers the option of putting the garment production unit identification on a separate label, or stamping the garment production unit identification onto the fabric of the garment at least one inch away from any other information on the garment. The Commission did not intend to require that if the garment production unit identification appears on a separate label that such a label must be one inch away from any other information on the garment. After consideration of these comments, the Commission concludes that the language of § 302.21(b)(7) should be changed to state that intent more clearly. However, to insure that the garment production unit identification will be readily visible when it appears on a separate label, the Commission has added language to § 302.21(b)(7)(i), issued below, to require that when a label is used to indicate the garment production unit identification, that label must not touch any other label on the garment, except that a label containing the garment production unit identification may be sewn on top of any label which is not required by the regulation issued by the Commission for children's sleepwear in sizes 7 through 14 (16 CFR 302.21) if the label containing the garment production unit completely covers the label beneath it.

5. Two garment manufacturers, one association of manufacturers, and one association of retailers object to the requirement of proposed § 302.21(b)(7)(i) that the garment production unit identification must be "readily visible". These comments state that the only purpose of the requirement for labeling or stamping the garment with a production unit identification is to facilitate recall of a particular production unit if that unit does not comply with the Standard. These commenters suggest that as long as the production unit identification is "accessible," the manufacturer of a noncomplying production unit can inform all parties in the chain of distribution and the Commission of the location of the garment production unit identification in the event of necessity to recall a production unit.

The Commission's purpose in proposing that the garment production unit identification must be readily visible to the prospective purchaser was to facilitate identification of items from a given production unit by persons in the chain of distribution and by Commission personnel, not only in the event of a recall of a production unit, but also to obtain samples from any given production unit for testing in a compliance market sampling program. To conduct such a sampling program expeditiously, Commission investigators must be able to identify the garment production unit of a given item quickly, without opening the package or looking for a label which may be located inside the garment. For that reason, the language of § 302.19(b)(7)(i) has not been substantially changed.

6. Proposed § 302.21(b)(8) requires that all items subject to the Standard which are manufactured on or after May 1, 1975 through May 1, 1978, be labeled with the words "Flame Resistant, U.S. Standard FF 5–74." The label statement need not be affixed to the garment permanently, but must appear prominently, conspicuously, and legibly at the point of sale in letters at least one-sixth inch high.

A garment manufacturer and an association of manufacturers object to the requirement that the letters must be at least one-sixth inch high and request deletion of this requirement. The Commission concludes that minimum dimensions for the height of the lettering are necessary to provide objective and enforceable criteria to achieve the desired degree of prominence for this labeling statement. Accordingly, the change requested in these comments has not been made.

Comments from one garment manufacturer, one retailer, and one association of retailers request modification of the text of the labeling statement required by proposed § 302.21(b)(8). The retailer states that the term "flame retardant" would be more appropriate to describe items which comply with the Standard. On March 21, 1974 (40 FR 12811) the Commission issued an amendment to the Standard to require labeling of all items of sleepwear in sizes 7 through 14 which are manufactured on or after May 1, 1975 through May 1, 1978, with the statement "Flame Resistant. U.S. Standard FF 5–74." (A correction notice of the amendment was published for technical reasons on March 27, 1975 (40 FR 13647). In the original document announcing this amendment, the Commission noted that for more efficient administration of the requirement for affirmative labeling of complying garments, a particular text for the label should be specified rather than giving persons who manufacture or handle items subject to the Standard the option of using one of several permissible statements.

The Committee on Textiles of the American Society for Testing and Materials (ASTM) has been considering a set of uniform flammability definitions which specify use of the term "flame resistant" to describe material which does not readily ignite or propagate a flame. Under these uniform definitions, the term "flame retardant" would describe a substance that is applied to fabric to make it "flame resistant." The Commission has learned that the proposed definitions have received a majority affirmative vote of that Committee, and are expected to be adopted. The Commission believes that its use of this generally accepted terminology regarding the flammability of textiles will help to eliminate confusion among consumers.

Although the Commission has not conducted surveys regarding consumer understanding of the meanings of the terms "flame resistant" and "flame retardant," the Commission believes that the public can be informed of the purpose of flammability standards for children's sleepwear. The use of consistent flammability labeling should further this effort. In the regulation issued below, the labeling statement required in § 302.21(b)(8) is consistent with the labeling statement required by the Standard as amended. Accordingly, the change requested in this comment has not been made.

A comment from one garment manufacturer states that some firms manufacture children's sleepwear in sizes 4 through 14. Items in sizes 0 through 6X are subject to flammability standard DOC FF 3–71; items in sizes 7 through 14 are subject to flammability standard FF 5–74. Provisions of .1(c) of FF 5–74 state that items of children's sleepwear in sizes 7 through 14 which comply with standard DOC FF 3–71 are in compliance with standard FF 5–74. This comment requests amendment of proposed § 302.21(b)(8) to allow labeling of garments in sizes 7 through 14 which comply with DOC FF 3–71 with the statement "Flame Resistant. U.S. Standard DOC FF 3–71." A comment from an association of retailers states that several states now require children's sleepwear in sizes 0 through 14 to be labeled with a statement to the effect that they are "fire retardant." This comment requests amendment of proposed § 302.21(b)(8) to use any combination of the words "fire" or "flame" with the words "retradant" or "resistant" to avoid conflicts in the provisions of state and Federal labeling requirements.

As stated above, the Commission desires to specify one labeling statement in the amended Standard for items of children's sleepwear in sizes 7 through 14 which are manufactured on or after May 1, 1975 through May 1, 1978, and to make the labeling statement for those items required by the regulation issued below consistent with the labeling statement required in the amendment to the Standard. With regard to those manufacturers who produce items in a range of sizes that is subject to both standards, the Commission can appreciate their desire to use one labeling statement for all sizes of children's sleepwear, but concludes that the convenience to these manufacturers which would result from such a change does not outweigh the difficulty which the Commission might encounter in the administration of a regulation that allowed one or more alternatives to the labeling statement specified in the Standard. With reference to the comment that labeling requirements of various states may conflict with the amended Standard and the regulation issued below, the Commission observes that section 16 of the Flammable Fabrics Act (15 U.S.C. 1203) contains language to the effect that the act supersedes any law of any state or political subdivision that is inconsistent with its provisions.

Accordingly, the Commission declines to make the changes requested by these commenters. However, if any person who manufactures or handles items subject to the Standard believes that the requirements of § 302.21(b)(8) will impose an extraordinary hardship, that person may make written application to the Director of the Commission's Bureau of Compliance for temporary use of an alternative labeling statement. Any such application should state all of the circumstances which give rise to the hardship, and should indicate the amount of time needed by the applicant to achieve compliance with the labeling requirements of the amended Standard and § 302.21(b)(8).

7. An association of retailers requests modification of proposed § 302.21(b)(8) to require that the affirmative labeling statement must be affixed to the garment by the manufacturer. This comment states that such a provision would not be unduly burdensome to a manufacturer, but in the absence of such a requirement, a retailer might be obligated to make a large expenditure to place labels on goods if they had not been affixed by the manufacturer.

After careful consideration of this comment, the Commission declines to make the change requested. The purpose of proposed § 302.21(b)(8) is to require that goods be labeled at the point of sale to indicate to consumers that they comply with the Standard. The Commission believes it is the responsibility of the person who sells items of sleepwear to consumers to assure that the required labeling is present. If such labels are not affixed by the manufacturer, they must be placed on the items by the retailer to accomplish the purpose of § 302.21(b)(8). However, no provision of the regulation issued below nor of the Standard would prohibit a retailer from making a contractual provision with his suppliers that all non-permanent labels required by this regulation must be affixed to all items before shipment to the retailer.

8. A number of commenters have pointed out that the affirmative labeling required by the amendment to the Standard and by § 302.21(b)(8) of these regulations may differ from labeling required by states or local governments. A similar comment was addressed by the Commission in the preamble to the proposed amendment to the Standard (40 FR 3276, January 20, 1975). At that time the comment was premature, but the Commission stated that it believed then "that if an affirmative labeling requirement is issued, the requirement would supersede any affirmative labeling requirement for children's sleepwear in sizes 7 through 14 issued by a State or political subdivision thereof."

After amending the Standard by adding section .6(b) to require specified affirmative labeling for a period of three years, the Commission has further considered the question of preemption of State and local affirmative labeling requirements. The Commission believes that the requirements of section .6(b) of the amended Standard and § 302.21(b)(8) of the rules and regulations would supersede any State and local requirements as to affirmative or negative labeling regarding compliance or noncompliance with a standard for the flammability of children's sleepwear in sizes 7 through 14. However, the Commission observes that the ultimate determination of this question is an issue for the courts to decide.

B. *Display of items subject to the Standard.* 1. Proposed § 302.21(c) requires that a person offering noncomplying items of sleepwear in sizes 7 through 14 for sale to consumers in retail establishments or other establishments open to the general public must segregate all items which comply with the Standard, and for which there is documentary evidence of compliance, so that they are not located within 36 inches of any noncomplying item of sleepwear in sizes 7 through 14. That section of the proposed regulation also requires that displays of complying and noncomplying items be identified with signs. One garment manufacturer objects to the absence of any time limitation on the provisions of proposed § 302.21(c) and suggests that it should be limited to a period of three years. The Commission observes that provisions of § 302.21(c) are applicable only to persons who sell noncomplying items in sizes 7 through 14 on or after May 1, 1975. A retailer may avoid the necessity for segregating complying and noncomplying merchandise and posting signs at any time by discontinuing the sale of noncomplying items. Experience with enforcement of the flammability standard for sleepwear in sizes 0 through 6X indicates that few if any items of noncomplying sleepwear will be available three years after the effective date of the Standard. Accordingly, the Commission declines to make the change requested in this comment.

2. An association of retailers objects to requirements in proposed § 302.21(c) that complying items must be separated from noncomplying items and must not be displayed within 36 inches of noncomplying items. This commenter and a garment manufacturer also object to requirements that specify that the signs used to identify complying and noncomplying displays must be in black letters one inch high against a white background using prescribed statements. These comments state that these requirements are too rigid and should be changed to give greater discretion to retailers about the manner by which displays of goods will be separated and for the color of the lettering and background and the text of the signs used to identify complying and noncomplying items.

After careful consideration of this comment, the Commission declines to make the change requested. The Commission concludes that objective criteria are necessary to prescribe a minimum distance for physical separation of complying and noncomplying items, as well as for the size and coloring of the lettering and background and the text of the signs used to identify displays of complying and noncomplying items.

3. Language in proposed § 302.21(c) requires segregation and identification of items "which comply with the Standard and for which the seller has documentary evidence of such compliance." A comment from one garment manufacturer recommends elimination of the words "and for which the seller has documentary evidence of such compliance," because retailers do not ordinarily maintain files of test results. Another commenter requests addition of language to indicate that a labeling statement will constitute "documentary evidence" of compliance. When the Commission proposed § 302.21(c), it did not intend to restrict the meaning of the term "documentary evidence of compliance" exclusively to test results. Any guaranty or written statement received in good faith from the manufacturer that the item was manufactured in accordance with the Standard could amount to documentary evidence, as could a nonpermanent label complying with the requirements of § 302.21(b)(8) affixed to the item by the manufacturer. For this reason, the changes requested in these comments have not been made.

C. *Recordkeeping requirements.* 1. Provisions proposed § 302.21(d)(1) require every manufacturer, importer or other person who initially introduces items subject to the Standard into interstate commerce to maintain records which will "establish a line of continuity through the process of manufacture of each production unit of articles of children's sleepwear, or fabrics or related materials intended or promoted for use in children's sleepwear, to the sale and delivery of the finished items, and from the specific finished item to the manufacturing records." A comment from a garment manufacturer urges deletion of the words "or related materials" from the language in proposed § 302.21(d)(1). This comment states that the effect of this language is to require a manufacturer to maintain a line of continuity of various materials such as thread, lace, and embroidery used in the production of children's sleepwear through the manufacturing process. This comment misunderstands the term "or related materials" as it is used in § 302.21(d)(1). As used in § 302.21(d)(1), the words "or related materials" do not have the meaning attributed to them by this commenter, but rather are part of the definition of "item of children's sleepwear," which is repeated verbatim from the definition in § 302.21(a)(3). An "item" of children's sleepwear for purposes of the Standard and the regulations issued below is "any product of children's sleepwear or any fabric or related material intended or promoted for use in children's sleepwear." Accordingly, the Commission declines to make the change requested in this comment.

V 40 163
APR 1 75

2. Provisions of proposed § 302.21(d)(1)(ix) require that every manufacturer, importer or other person initially introducing items subject to the Standard into interstate commerce maintain records of the date of each sale of items subject to the Standard, the quantity and production units of the items sold, and the name and address of each purchaser. One retailer objects to the requirement that sales records must show the production unit identification of the items involved in each sale because frequently an individual order from a manufacturer to his customer will consist of garments from several different production units, and that recording the production units involved in each sale would be cumbersome and expensive. This comment suggests modification of proposed § 302.21(d)(1)(ix) to require recording of the style of the garments involved rather than the production unit identifications, and states that in the event a recall became necessary, a manufacturer could notify all purchasers of garments of the particular style involved and request that they search their inventories for a particular production unit.

The principal purpose of the requirements of proposed § 302.21(d) is to facilitate the identification and recall of items from any given production unit which does not comply with the Standard. The requirement for the identification of all purchasers of the items from each production unit is essential to accomplish this result. Previous experience with enforcement of the Flammable Fabrics Act demonstrates that some manufacturers have experienced considerable difficulty in attempting to identify all of the purchasers of items of a given style and to recall those items from channels of distribution after items from that style were found not to comply with an applicable flammability standard because of the vast quantity of items included in some garment styles. For these reasons, the requirement for records to show the production units involved in each sale of items subject to the Standard has been retained in § 302.21(d)(1)(ix) issued below, and the change requested in this comment has not been made.

3. Provisions of proposed § 302.21(d)(3)(ii) require retention of a sufficient number of prototype specimens to repeat the prototype testing required by section .4 of the Standard. A comment from a garment manufacturer requests the addition of language to this section to state that its provisions are applicable only to garments manufactured after the effective date of the Standard, and not to garments manufactured in voluntary compliance with the Standard before May 1, 1975. The Commission agrees with the commenter that this section is not applicable to any item of children's sleepwear in sizes 7 through 14 which is manufactured before the effective date of the Standard; however, the Commission declines to change the language of this section because it believes the section as proposed is clear.

4. Language in proposed § 302.21(d)(3)(ii) also requires that the prototype specimens retained must be "identical" to those specimens that were actually tested pursuant to the Standard. A comment from an association of garment manufacturers requests the addition of language to this paragraph to state that the prototype samples retained shall be identical "within normal raw material and manufacturing variations" to the specimens actually tested. When the Commission proposed § 302.21(d)(3)(ii), it intended to require manufacturers to assemble and retain a sufficient number of additional specimens prior to prototype testing to allow repetition of the prototype testing required by .4(c)(2) of the Standard. By the use of the term "identical," the Commission intends that the specimens to be retained must be constructed from the same materials and in the same manner as the specimens actually tested. The Commission concludes that the addition of the language requested in this comment would not clarify the intent of the Commission and could complicate any enforcement action which might arise from § 302.21(d)(3)(ii). For this reason, the Commission declines to make the change requested.

5. Provisions of proposed § 302.21(d)(4)(i) require maintenance of records of the fabric production unit identification of all fabrics subject to testing used in each garment production unit. A garment manufacturer and an association of garment manufacturers request modification of this requirement to allow identification of the fabric used in each garment production unit by reference to some means of identification other than a fabric production unit identification. One of these comments states that after the effective date of the Standard, garment manufacturers may produce sleepwear in sizes 7 through 14 from fabric that was manufactured before the effective date of the Standard and that, therefore, does not have a fabric production unit identification. The other comment states that the fabric manufacturer should be required to be able to relate case numbers to fabric production unit identifications.

The Commission declines to make the changes requested. In the case of garments manufactured after the effective date of the Standard from fabric manufactured before the effective date of the Standard and not tested in accordance with the Standard, the Commission believes that the manufacturers should assure themselves or should require that the fabric manufacturers are able to assure them that the fabric being used meets the Standard. If the garment manufacturer tests the fabric in accordance with the Standard, then the garment manufacturer should divide the fabric into production units in conducting tests in accordance with the Standard. If the fabric has not been tested in accordance with the Standard, the garment manufacturer would be well advised to maintain records to identify the fabric which was used in the garment product units in order to be able to trace the source of the fabric.

In the case of fabric which is subject to the Standard, the fabric manufacturer is required by regulations issued below to furnish the fabric production unit identification to the garment manufacturer, and the garment manufacturer is required to record the fabric production unit identifications used in the manufacture of each production unit of garments subject to the Standard.

6. Provisions of proposed § 302.21(d)(4)(iv) require maintenance of records to show that sample garments tested for compliance with the Standard were selected from the production unit "at random." A comment from one garment manufacturer states that this requirement imposes a difficult burden. While the requirements of the regulation issued below do impose an obligation on manufacturers of children's sleepwear in sizes 7 through 14 to keep records beyond those which they would otherwise maintain, the Commission finds that these requirements are not excessively burdensome. Records to establish that samples selected for testing were selected at random requires records which would show that the selection procedure used to obtain garments for testing assures that any article drawn from the production unit for testing has the same chance of being drawn as any other article in that production unit. One method to establish that items were selected for testing at random is to use a random number table. Random number tables can be found in standard reference volumes on the subject of statistics. An alternative to the use of a random number table would be to number individual cards (such as playing cards) with the numbers one through 500. These cards would then be shuffled and one card would be dealt. The number on the card which is dealt is a random number between one and 500.

7. Proposed § 302.21(e) established recordkeeping requirements for wholesalers, retailers and other persons who handle items subject to the Standard but do not initially introduce those items into interstate commerce. That paragraph required maintenance of records for a period of three years to: (1) Identify the items marketed or handled; (2) identify the source of those items; (3) establish the date those items were received; (4) identify the purchaser of those items, except ultimate retail purchasers; and (5) establish the date of sale, except date of sale to ultimate retail purchasers. One retailer urges modification of proposed § 302.21(e) to exempt retailers from its provisions. This commenter states that as long as manufacturers and wholesalers are required to maintain the records required by § 302.21 (d) and (e), the retailers who have received items from any given production unit can be identified.

The Commission has not yet completed its consideration of whether retailers and others not initially introducing into commerce items subject to the Standard should be subject to the recordkeeping requirements proposed as § 302.21(e). Therefore, the Commission has not issued that section in final form and has directed its staff to provide further information on this matter. If the Commission decides to issue the requirement at a later time, adequate time will be allowed for those subject to the requirement to comply. However, it is not anticipated that the regulation will be proposed again before it is issued in final form.

8. An association of retailers comments that while proposed § 302.21(e) specifically stated that persons who handle items subject to the Standard but do not initially introduced them into interstate commerce would be exempt from any requirement to maintain records of sales to retail purchasers, no such exemption appears in proposed § 302.21(d)(1)(ix), which is applicable to importers. This commenter requests the inclusion of specific language in § 302.21(d)(1)(ix) to exempt retailers who import solely for their own use from any requirement to record names of ultimate consumers and dates of sales to ultimate consumers. The Commission has added language to § 302.21(d)(1)(ix) to exempt importers and other persons who initially introduce items into interstate commerce from any requirement to record names of ultimate consumers and dates of sales to ultimate consumers. The Commission believes this change is appropriate because it does not appear to be necessary to maintain the names and dates of sales to ultimate consumers.

Conclusion and promulgation. Having considered the comments received and other pertinent information and material, the Consumer Product Safety Commission concludes that the proposed regulation, with the changes discussed above, should be adopted as set forth below.

Accordingly, pursuant to provisions of the Flammable Fabrics Act (sec. 5, 67 Stat. 112–13, as amended 81 Stat. 571; 15 U.S.C. 1194), and under authority vested in the Commission by the Consumer Product Safety Act (Pub. L. 92–573, sec. 30(b), 86 Stat. 1231; (15 U.S.C. 2079(b)), the following new section is added to 16 CFR Part 302:

§ 302.21 Children's sleepwear, sizes 7 through 14—labeling recordkeeping, retail display, and guaranties under FF 5–74.

(a) *Definitions.* For the purpose of this section, the following definitions apply:

(1) "Standard" means the "Standard for the Flammability of Children's Sleepwear; Sizes 7 through 14 (FF 5–74) as amended" promulgated by the Consumer Product Safety Commission in the FEDERAL REGISTER of May 1, 1974 (39 FR 15214), and amended in the FEDERAL REGISTER of March 21, 1975 (40 FR 12811) (correction notice published for technical reasons on March 27, 1975, 40 FR 13547).

(2) "Children's sleepwear" means "children's sleepwear" as defined in .2(a) of the Standard, that is, "any product of wearing apparel size 7 through 14, such as nightgowns, pajamas, or similar or related items, such as robes, intended to be worn primarily for sleeping or activities related to sleeping. Diapers and underwear are excluded from this definition."

(3) "Item" means "item" as defined in .3(c) of the Standard, that is, "any product of children's sleepwear or any fabric or related material intended or promoted for use in children's sleepwear."

(4) "Market or handle" means any one or more of the transactions set forth in Section 3 of the Flammable Fabrics Act (15 U.S.C. 1192).

(5) The definition of terms set forth in .2 of the Standard shall also apply to this section.

(b) *Labeling.* (1) Where any agent or treatment is known to cause deterioration of flame resistance or otherwise causes an item to be less flame resistant, such item shall be prominently, permanently, conspicuously, and legibly labeled with precautionary care and treatment instructions to protect the item from such agent or treatment.

(2) If the item has been initially tested under .5(c)(4) of the Standard after one washing and drying, it shall be prominently, permanently, conspicuously and legibly labeled with instructions to wash before wearing.

(3) Where any fabric or related material intended or promoted for use in children's sleepwear subject to the Standard is sold or intended for sale to the ultimate consumer for the purpose of conversion into children's sleepwear, each bolt, roll, or other unit shall be labeled with the information required by this section. Each item of fabric or related material sold to an ultimate consumer must be accompanied by a label, as prescribed by this section, which can by normal household methods be permanently affixed by the ultimate consumer to any item of children's sleepwear made from such fabric or related material.

(4) Where items required to be labeled or stamped in accordance with paragraphs (b)(1), (b)(2), (b)(3), and (b)(7), of § 302.21 are marketed at retail in packages, and the required label or stamps is not readily visible to prospective purchasers, the packages must also be prominently, conspicuously, and legibly labeled with the required information.

(5) Samples, swatches, or specimens used to promote or effect the sale of items subject to the Standard shall be labeled in accordance with this section with the information required by this section: Except that such information may appear on accompanying promotional materials attached to fabric samples, swatches or specimens used to promote the sale of fabrics to garment manufacturers. This requirement shall not apply, however, to samples, swatches, or specimens prominently, permanently, conspicuously, truthfully and legibly labeled: "Flammable. Sample only. Not for use or resale. Does not meet Standard for the Flammability of Children's Sleepwear; Sizes 7 through 14 (FF 5–74)."

(6) The information required on labels by this section shall be set forth separately from any other information appearing on the same label. Other information, representations, or disclosures not required by this section but placed on the same label with information required by this section, or placed on other labels elsewhere on the item, shall not interfere with the information required by this section. No person, other than the ultimate consumer, shall remove, mutilate, or cause or participate in the removal or mutilation of any label required by this section to be affixed to any item.

(7) Every manufacturer, importer, or other persons (such as converter) initially introducing items subject to the Standard into commerce shall assign to each item a unit identification (number, letter or date, or combination thereof) sufficient to identify and relate to the fabric production unit or garment production unit of which the item is a part. Such unit identification shall be designated in such a way as to indicate that it is a production unit identification under the Standard. The letters "GPU" and "FPU" may be used to designate a garment production unit identification and fabric production unit identification, respectively, at the option of the labeler.

(i) Each garment subject to the Standard shall bear a label with minimum dimensions of 1.3 centimeters (0.5 inch) by 1.9 centimeters (0.75 inch) containing the appropriate garment production unit identification for that garment in letters at least 0.4 centimeter (one-sixth of an inch) in height and in a color which contrasts with the background of the label, or shall have such information clearly, conspicuously, and legibly stamped on the garmet itself in letters at leasts 0.4 centimeter (one-sixth of an inch) in height, in a color which contrasts with the background, and at least 2.54 centimeters (1 inch) in every direction from any other information. When a label is used to indicate the garment production unit identification that label may not be in contact with any other label used on the garment, except that a label containing the garment production unit identification may be sewn on top of any label which is not required by § 302.21 if the label containing the garment production unit identification completely covers the label beneath it. The stamp or label containing the garment production unit identification must be of such construction, and affixed to the garment in such a manner, as to remain on or attached to the garment and legible and visible throughout its intended period of use.

(ii) The fabric production unit identification shall appear in letters at least 0.4 centimeter (one-sixth of an inch) in height against a contrasting background on each label that relates to such fabric and is required by the Textile Fiber Products Identification Act (15 U.S.C. 70–70k) and the regulations thereunder (16 CFR 303.1 through 303.45) or by the Wool Product Labeling Act of 1939 (15 U.S.C. 68–68j) and the regulations

V 40 163 APR 1 75

thereunder (16 CFR 300.1 through 300.35). When the information required by the Textile Fiber Products Identification Act or by the Wool Products Labeling Act of 1939 appears on an invoice used in lieu of labeling, the fabric production unit identification required by this section may be placed clearly, conspicuously, and legibly on the same invoice in lieu of labeling.

(8) All items complying with the Standard and manufactured on or after May 1, 1975, through May 1, 1978, shall bear a label which states "Flame-resistant. U.S. Standard FF 5–74." The label must be prominent, conspicuous, and legible and readily visible at the point of sale to ultimate consumers. The label statement may be attached to the item itself, on a hang tag attached to the item, or on a package enclosing the item. The label need not be affixed permanently. The letters of the label must be at least 0.4 centimeter (one-sixth of an inch) in height and in a color which contrasts with the background of the label.

(c) *Segregation of complying and non-complying items by retailer.* Every person who sells non-complying items (as defined in .2(c) of the Standard and § 302.21(a)(3) of this regulation) at retail stores or other establishments open to the general public where goods are offered for sale shall:

(1) Display the items which comply with the Standard, and for which the seller has documentary evidence of such compliance, so that no other merchandise is intermingled with those items; and identify such complying items with at least one sign, with black letters at least 2.5 centimeters (one inch) in height against a solid white background, bearing the statement "Flame resistant. Complies with the Standard for the Flammability of Children's Sleepwear (FF 5–74)."

(2) Display all other items of children's sleepwear, sizes 7 through 14, at a separate location within the store and identify these items with at least one sign, with black letters at least 2.5 centimeters (1 inch) in height against a solid white background, bearing the statement "Flammable. Does Not Meet Standard for the Flammability of Children's Sleepwear (FF 5–74)."

(3) Segregate those items of children's sleepwear, sizes 7 through 14, which comply with the Standard, and for which the seller has documentary evidence of such compliance, so that they shall not be located within 91 centimeters (36 inches) of any other items of children's sleepwear, sizes 7 through 14, when displayed for sale to consumers.

(d) *Records—manufacturers, importers, or other persons initially introducing items into commerce*—(1), *General.* Every manufacturer, importer, or other person (such as a converter) initially introducing into commerce items subject to the Standard, irrespective of whether guaranties are issued under paragraph (e) of this section, shall maintain written and physical records as hereinafter specified. The records required must establish a line of continuity through the process of manufacture of each production unit of articles of children's sleepwear, or fabrics or related materials intended or promoted for use in children's sleepwear, to the sale and delivery of the finished items and from the specific finished item to the manufacturing records. Such records shall show with respect to such items:

(i) Details, description and identification of any and all sampling plans engaged in pursuant to the requirements of the Standard. Such records must be sufficient to demonstrate compliance with such sampling plan(s) and must relate the sampling plan(s) to the actual items produced, marketed, or handled. This requirement is not limited by other provisions of this paragraph (d).

(ii) Garment production units or fabric production units of all garments or fabrics marketed or handled. The records must relate to an appropriate production unit identification on or affixed to the item itself in accordance with paragraph (b)(7) of this section, and the production unit identification must relate to the garment production unit or fabric production unit.

(iii) Test results and details of all tests performed, both prototype and production, including char lengths of each specimen tested, average char lengths of the samples required to be tested, details of the sampling procedure employed, name and signature of person conducting tests, date of tests, and all other records necessary to demonstrate compliance with the test procedures and sampling plan specified by the Standard or authorized alternate sampling plan.

(iv) Disposition of all failing or rejected items. Such records must demonstrate that the items were retested or reworked and retested in accordance with the Standard prior to sale or distribution and that such retested or reworked and retested items comply with the Standard, or otherwise show the disposition of such items.

(v) Fiber content and manufacturing specifications relating the same to prototype and production testing and to the production units to which applicable.

(vi) Data and test results relied on as a basis for inclusion of different colors or different print patterns of the same fabric as a single fabric or garment production unit under .4(a)(2) of the Standard.

(vii) Data and test results relied on as a basis for reduced laundering of fabric or garments during test procedures under .5(c)(4) of the Standard and any quantities issued or received relating to laundering as well as details of the laundering procedure utilized.

(viii) Identification, composition, and details of application of any flame retardant treatments employed. All prototype and production records shall relate to such information.

(ix) Date and quantity of each sale or delivery of items subject to the Standard (except the date of sale to an ultimate consumer) and the name and address of the purchaser or recipient (except an ultimate consumer) relating such sale to the production unit or other unit identification.

(2) *Fabrics.* In addition to the information specified in paragraph (d)(1) of this section, the written and physical records maintained with respect to each fabric production unit shall include (i) finished fabric samples sufficient to repeat the fabric sampling procedure required by .4 of the Standard for each production unit marketed or handled; and (ii) records to relate the samples to the actual fabric production unit. Upon written request of any duly authorized employee or agent of the Commission, samples sufficient for the sampling and testing of any production unit in accordance with the Standard shall be furnished from these records within the time specified in the written request.

(3) *Garments—prototype testing.* In addition to the records specified in paragraph (d)(1) of this section, the following written and physical records shall be maintained with respect to the garment prototype testing required by the Standard:

(i) Specification, fiber content, and details of construction on all seams, fabrics, threads, stitches, and trims used in each garment style or type upon which prototype testing was performed, relating the same to such garment style or type and to all production units to which such prototype testing is applicable.

(ii) Samples sufficient to repeat the prototype tests required by .4 of the Standard for all fabrics, seams, threads, stitches, and trims used in such prototype testing, relating such samples to the records required by this paragraph (d), including the information required by paragraph (d)(3)(i) of § 302.21. Upon written request of any duly authorized employee or agent of the Commission, samples sufficient for the testing of any prototype specimens identical to those specimens that were actually tested pursuant to the Standard shall be furnished from these records within the time specified in that written request.

(iii) A complete untested garment from each style or type of garment marketed or handled.

(iv) Remains of all physical specimens tested in accordance with the prototype testing required by .4 of the Standard, relating such samples to the records required by this paragraph (d), including information required by paragraph (d)(3)(i) of § 302.21.

(4) *Garments—production testing.* In addition to the records required by paragraph (d)(1) of this section, written and physical records shall be maintained and shall show with respect to each garment production unit:

(i) Source and fabric production unit identification of all fabrics subject to testing used in each garment production unit.

(ii) Identification and appropriate reference to all prototype records and prototype tests applicable to each production unit.

(iii) Any guaranty relied upon to demonstrate that the fabric utilized in such garments meets the laundering requirements of the Standard.

(iv) Data sufficient to show that tested samples were selected from the production unit at random from regular production.

(v) Written data that will enable the Commission to obtain and test garments under any applicable compliance market sampling plan.

(5) *Record retention requirements.* The records required by this paragraph (d) shall be maintained for 3 years, except that records relating to prototype testing shall be maintained for as long as they are relied upon as demonstrating compliance with the prototype testing requirements of the Standard and shall be retained for 3 years thereafter.

(e) *Tests for guaranty purposes.* Reasonable and representative tests for the purpose of issuing a guaranty under section 8 of the Flammable Fabrics Act (15 U.S.C. 1197) for items subject to the Standard shall be those tests performed pursuant to any sampling plan or authorized alternative sampling plan engaged in pursuant to the requirements of the Standard.

(f) *Compliance with this section.* No person subject to the Flammable Fabrics Act shall manufacture, import, distribute, or otherwise market or handle any item subject to the Standard, including samples, swatches, or specimens used to promote or effect the sale thereof, which is not in compliance with § 302.21.

Effective date. The regulation promulgated herein shall become effective May 1, 1975.

(Sec. 5, 67 Stat. 11–13, as amended 81 Stat. 571; (15 U.S.C. 1194))

Dated: March 27, 1975.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 75–80]

PART 153—ANTIDUMPING

Tuners (of the Type Used in Consumer Electronic Products) From Japan, Modification of Finding

On December 12, 1974, there was published in the FEDERAL REGISTER (39 FR 43318) a "Notice of Tentative Determination to Modify or Revoke Dumping Finding" with respect to tuners (of the type used in consumer electronic products) from Japan, produced and sold by Matsushita Electric Industrial Co., Ltd. and Matsushita Electric Trading Co., Ltd.

On January 22, 1975, a similar notice was published in the FEDERAL REGISTER (40 FR 3481) with respect to merchandise of that class or kind sold for export to the United States by Victor Company of Japan, Ltd. A finding of dumping applicable to the merchandise was published as T.D. 70–257 in the FEDERAL REGISTER of December 12, 1970 (35 FR 18914).

Reasons for the tentative determinations were published in the above-mentioned notices, and interested persons were afforded an opportunity to make written submissions or request the opportunity to present oral views in connection therewith.

No written submissions or requests to present oral views having been received, I hereby determine that for the reasons stated in the above mentioned notices, tuners (of the type used in consumer electronic products) from Japan are no longer being, nor are likely to be, sold in the United States at less than fair value by Matsushita Electric Industrial Co., Ltd., Matsushita Electric Trading Co., Ltd., and Victor Company of Japan, Ltd., and the above mentioned finding of dumping is hereby modified to exclude tuners (of the type used in consumer electronic products) from Japan produced and sold by Matsushita Electric Industrial Co., Ltd., Matsushita Electric Trading Co., Ltd. and those sold by Victor Company of Japan, Ltd.

Accordingly, § 153.43 of the Customs regulations (19 C.F.R. 153.43) is hereby amended to show the exclusion from the finding of dumping of tuners (of the type used in consumer electronic products) from Japan produced and sold by Matsushita Electric Industrial Co., Ltd., Matsushita Electric Trading Co., Ltd., and those sold by Victor Company of Japan, Ltd.

FINDINGS OF DUMPING

Merchandise	Country	T.D.	Modified by
Tuners (of the type used in consumer electronic products), except: (I) those produced and sold by Matsushita Electric Industrial Co., Ltd., Matsushita Trading Co., Ltd., and (II) those sold by Victor Company of Japan, Ltd.	Japan.....	70-257	75-80

This determination is published pursuant to § 153.41(d), Customs regulations (19 C.F.R. 153.41(d)).

(Secs. 201, 407, 42 Stat. 11, as amended, 18; (19 U.S.C. 160, 173).)

Dated: March 26, 1975.

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

[FR Doc.75–9300 Filed 3–31–75;8:45 am]

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Reg. No. 5]

PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Utilization Review; Conditions of Participation

On November 29, 1974 (39 FR 41604) regulations were published establishing new requirements for utilization review for hospitals and skilled nursing facilities of the Social Security Act. These regulations were effective February 1, 1975.

Considerable concern has been expressed by hospitals with small medical staffs, especially those in rural areas, regarding their capacity to organize in-house review committees to operate the review system required by the regulations. The Department recognizes the particular difficulties posed by the manpower and resource limitations of such facilities. The extension of the effective date provided herein should allow sufficient time for utilization of alternate methods other than in-house committees, such as community-based groups sponsored by local medical societies or other organizations to be approved by the Secretary.

The extension of the effective date provided herein will also allow sufficient time for administrative changes, which some hospitals and skilled nursing home facilities reported were going to be such serious problems for them that in some cases care of patients would be affected.

The effective date of these regulations is being changed from February 1, 1975 to July 1, 1975; this amendment is effective January 31, 1975 in order to assure that the regulations relating to utilization review which were in effect on January 31, 1975 will remain in effect until July 1, 1975. Technical amendments are also being made in 20 CFR 405.1035(e)(6)(ii) and 20 CFR 405.1137(d)(2) to conform them to the amendment of the effective date.

The Department wishes to emphasize that it expects all facilities participating in Medicare to be in full compliance with these regulations on July 1, 1975. Facilities should not abate their efforts to develop criteria and programs to comply with these regulations as a result of the change in effective date. For the reasons stated above, good cause exists to dispense with notice of proposed rulemaking.

1. The effective date of the utilization review regulations published on November 29, 1974 (39 FR 41604) is amended to read as follows:

These regulations shall be effective July 1, 1975.

V 40163 APR 175

2. The date "February 1, 1975" in 20 CFR 405.1035(e) (6) (ii) and in 20 CFR 405.1137(d) (2) is hereby amended (wherever it appears) to read: July 1, 1975.

The effective date of these amendments shall be January 31, 1975.

(Catalog of Federal Domestic Assistance Program No. 13.800, Health Insurance for the Aged and Disabled—Hospital Insurance.)

Dated: March 25, 1975.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: March 27, 1975.

CASPAR W. WEINBERGER,
Secretary.

[FR Doc.75-8462 Filed 3-28-75;11:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

[OPP-262003; FRL 354-3]

PART 123—TOLERANCES FOR PESTICIDES IN FOOD ADMINISTERED BY THE ENVIRONMENTAL PROTECTION AGENCY

Subpart A—Food Additives Permitted in Food for Human Consumption

SIMAZINE

On February 27, 1975, notice was given (40 FR 8330) that CIBA-GEIGY Corp., PO Box 11422, Greensboro NC 27409, had filed a petition (PAP 5H5074) for a pesticide food additive tolerance with the Environmental Protection Agency (EPA). This petition proposed establishment of food additive tolerances for combined residues of the herbicide simazine (2-chloro-4,6-bis(ethylamino) - s-triazine) and its metabolites (2-amino-4-chloro-6-ethylamino-s-triazine and 2,4-diamino-6-chloro-s-triazine) in potable water at 0.01 part per million resulting from the application of the herbicide to aquatic weeds. (A related document on simazine and the establishment of a pesticide tolerance also appears in today's FEDERAL REGISTER.)

The data submitted in the petition and other relevant material have been evaluated. It is concluded that the tolerance should be established.

Any person adversely affected by this regulation may on or before May 1, 1975, file written objections with the Hearing Clerk, Environmental Protection Agency, 401 M Street, SW, East Tower, Room 1019, Washington, DC 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on April 1, 1975, Part 123, Subpart A, § 123.400, is amended as follows.

Dated: March 26, 1975.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

(Section 409(c)(1) & (4) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348 (c)(1) & (4)) transferred to Administrator EPA in Reorganization Plan No. 3 of 1970 (35 FR 15623).)

Section 123.400 is amended by adding the new paragraph "0.01 part per million . . ." after the paragraph "0.5 part per million . . ." to read as follows.

* * * * *

§ 123.400 Simazine.

* * * * *

0.01 part per million for combined residues of simazine and its metabolites (2 - amino-4-chloro-6-ethylamino-s-triazine and 2,4-diamino-6-chloro-s-triazine) in potable water when present therein as a result of application of the herbicide to growing aquatic weeds.

Title 25—Indians

CHAPTER I—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

SUBCHAPTER F—ENROLLMENT

PART 43k—REVISION OF THE FINAL ROLL OF THE MENOMINEE TRIBE OF WISCONSIN

MARCH 25, 1975.

This notice is published in exercise of rulemaking authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2 (32 FR 13938).

The authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. 301 and sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9).

Beginning on page 37063 of the FEDERAL REGISTER of October 17, 1974 (39 FR 37063), there was published a notice of proposed rulemaking to add a new Part 43k to Title 25 of the Code of Federal Regulations to establish procedures for revising the final roll of the Menominee Tribe of Wisconsin. The regulations were proposed pursuant to the Act of December 22, 1973 (Pub. L. 93-197; 87 Stat. 773).

Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed regulations.

During this period, comments, suggestions, and objections were submitted by interested persons. Careful consideration was given to all the views and arguments received and certain revisions were made as a result of them. Among the revisions are the following:

1. The phrase "after midnight June 17, 1954," has been deleted from § 43k.5(a).

2. The date "December 22, 1973," has been deleted from §§ 43k.4, 43k.5 and 43k.6 and replaced with the phrase "the effective date of these regulations."

3. The references to "final" roll in §§ 43k.5, 43k.5(a), 43k.8(a), 43k.11 and 43k.15 have been deleted and replaced with the phrase "basic membership" roll.

Accordingly, with the changes and additions discussed above, the proposed regulations are hereby adopted and are set forth below.

The new Part 43k shall become effective on or before May 1, 1975.

MORRIS THOMPSON,
Commissioner of Indian Affairs.

Sec.

43k.1 Definitions.
43k.2 Purpose.
43k.3 Announcement of revision of roll.
43k.4 Basic membership roll.
43k.5 Additions to the roll.
43k.6 Removal of deceased persons from roll.
43k.7 Application forms.
43k.8 Filing of applications and deadline for filing.
43k.9 Burden of proof.
43k.10 Enrollment staff.
43k.11 Tenure of enrollment staff.
43k.12 Appeals.
43k.13 Decision of the Secretary on appeals.
43k.14 Current membership roll.
43k.15 Preparation of roll.
43k.16 Certification and approval of roll.
43k.17 Special instructions.

AUTHORITY: Sec. 7, 87 Stat. 773.

§ 43k.1 Definitions.

As used in this part:

(a) "Act" means the Act of Congress approved December 22, 1973, 87 Stat. 770, Pub. L. 93-197.

(b) "Secretary" means Secretary of the Interior.

(c) "Commissioner" means Commissioner of Indian Affairs or his authorized representative.

(d) "Director" means Area Director, Minneapolis Area Office, Bureau of Indian Affairs or his authorized representative.

(e) "Tribe" means the Menominee Tribe of Wisconsin.

(f) "Committee" means the Menominee Restoration Committee.

(g) "Staff" means enrollment staff employed by the Committee to prepare current membership roll.

(h) "Living" means born on or prior to and living on the specified date.

§ 43k.2 Purpose.

The regulations in this part govern the preparation of a current membership roll, as authorized by the Act of December 22, 1973 (87 Stat. 770).

§ 43k.3 Announcement of revision of roll.

When funds have been made available to the Committee to employ sufficient Staff to perform the work necessary to revise and update the membership roll of the tribe and such Staff has been employed and when the application forms and other necessary documents have been devised and printed, the Committee shall announce that a revision of the membership roll of the tribe shall commence on a specified date. The date specified shall be not less than fifteen (15) days nor more than thirty (30) days from the date the announcement is issued. A press release shall be prepared announcing the date the revision and updating of the roll shall begin, other pertinent information such as the membership requirements and where application forms may be obtained. The press release shall be distributed to all newspapers and radio stations within the region of the reservation with a request that it be given wide publicity and shall be sent to all Indian Centers. Copies of the press release shall also be posted in the Great Lakes Agency and Minneapolis Area Office and at various other public places throughout the reservation area as well as in post offices of the towns adjacent to the Reservation.

§ 43k.4 Basic membership roll.

All persons living on the effective date of these regulations whose names appear on the roll of the Menominee Tribe of Wisconsin prepared and approved pursuant to the Act of June 17, 1954 (68 Stat. 250), shall be members of the tribe.

§ 43k.5 Additions to the roll.

There shall be added to the basic membership roll of the tribe the names of all persons living on the effective date of these regulations who meet the following qualifications:

(a) They are descendants of a person or persons whose names appear on the basic membership roll; and

(b) They possess at least ¼ degree Menominee Indian blood; and

(c) They have filed an application for enrollment with the tribe in accordance with the procedures set forth in this part.

§ 43k.6 Removal of deceased persons from roll.

The name of any person who was not living on the effective date of these regulations shall be stricken from the basic membership roll by the Staff upon receipt of a death certificate or other evidence of death acceptable to the Secretary.

§ 43k.7 Application forms.

(a) Application forms will be furnished by the Area Director, Committee or Staff or any other designated persons upon written or oral request. Each person furnishing application forms shall keep a record of the names of the individuals to whom applications are given, the control numbers of the forms, and the date furnished. Instructions for completing and filing applications shall be furnished with each form. The form shall indicate prominently the deadline for filing the application.

(b) Among other information, each application form shall contain:

(1) Certification as to whether the application is for a natural child or an adopted child of the parent through whom eligibility is claimed.

(2) If the application is filed by a sponsor, the name, address, and relationship of the sponsor to the applicant.

(3) A control number for the purpose of keeping a record of applications furnished interested individuals.

§ 43k.8 Filing of applications and deadline for filing.

(a) Any person other than those persons whose names appear on the Menominee basic membership roll who desires to be enrolled and who believes he meets the requirements for enrollment must file, or have filed in his behalf, a completed application form with the Staff, within ninety (90) days from the date specified in the announcement.

(b) Applications for minors, mental incompetents or other persons in need of assistance, members of the armed services or other services of the U.S. Government must be filed within ninety (90) days from the date specified in the announcement by the parent, next of kin, recognized guardian, next friend or other person responsible for their care.

§ 43k.9 Burden of proof.

The burden of proof of eligibility is on the applicant. If the applicant's parents or other ancestors through whom the applicant claims enrollment rights are unknown to the Staff and cannot be identified in the records, the Staff may request the applicant to furnish such additional information and evidence as it may deem necessary to determine the applicant's eligibility for enrollment. Failure of the applicant to furnish sufficient information to establish eligibility may be deemed sufficient cause for rejection.

§ 43k.10 Enrollment staff.

The Committee shall employ either from within or without the membership of the Committee, but not from without the membership of the tribe, an enrollment staff of at least five (5) persons to serve as the enrollment staff. The Staff shall review all applications for enrollment filed in accordance with the regulations in this part and shall determine the qualifications of the applicant for enrollment with the tribe. The Staff may perform such other functions relating to enrollment and membership in the tribe as the Committee may from time to time direct.

§ 43k.11 Tenure of enrollment staff.

The members of the Staff shall serve until such time as the basic membership roll has been brought current but no later than the time that responsibility for the tribal roll is assumed by the tribal governing body.

§ 43k.12 Appeals.

Until such time as the tribe assumes responsibility for preparing the roll, appeals from rejected applications must be in writing and filed pursuant to Part 42 of this Chapter except that all appeals shall be determined by the Secretary within ninety (90) days after an appeal is initiated.

§ 43k.13 Decision of the Secretary on appeals.

The decision of the Secretary on an appeal shall be final and conclusive and written notice of the decision shall be given the applicant or sponsor. When so directed by the Secretary, the Commissioner shall cause to be entered on the roll the name of any person whose appeal has been sustained.

§ 43k.14 Current membership roll.

The membership roll of the tribe shall be kept current until such time as the tribe assumes responsibility for the roll by striking therefrom the names of persons who have relinquished in writing their membership in the tribe and of deceased persons upon receipt of a death certificate or other evidence of death acceptable to the Staff, and by adding thereto the names of children who meet the qualifications for membership in the tribe set forth in this part.

§ 43k.15 Preparation of roll.

The Staff shall prepare a minimum of five copies of the roll of those persons determined to be eligible for enrollment. The roll shall contain for each person a roll number, name, address, sex, date of birth, degree of Menominee blood, total degree of Indian blood, and, in the remarks column, the basic membership roll number, name and relationship of the ancestor or ancestors through whom eligibility was established.

§ 43k.16 Certification and approval of roll.

The roll shall be certified by the Staff and Committee and a statement shall be attached to the roll by the Staff and Committee certifying that to the best of their knowledge and belief, the roll contains only the names of those persons who were determined to meet the requirements for enrollment. The Secretary shall approve the roll.

§ 43k.17 Special instructions.

To facilitate the work of the Staff, the Commissioner may issue special instructions not inconsistent with the regulations in this Part 43k.

Title 29—Labor

CHAPTER XX—OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION

PART 2300—REGULATIONS IMPLEMENTING THE FREEDOM OF INFORMATION ACT

Correction

In FR Doc. 75-3535, appearing at page 5779 of the issue of Friday, February 7, 1975, the following corrections should be made on page 5781:

1. The second line of § 2300.8(a)(3) should be changed to read "denials and the result of each appeal.".

2. The third line of § 2300.8(a)(8) should be changed to read "and spirit of section 552 of Title 5, United".

3. The seventh line of § 2300.8(b), should be changed to read "for such calendar year and shall forth-".

V 40 163 APR 1 75

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 75 088]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Cedar Bayou, Texas

This amendment changes the regulations for the Missouri Pacific railroad drawbridge across Cedar Bayou, mile 7.0 to require that the lift span be maintained at 81.4 feet at all times unless the draw is to close for the passage of a train or for maintenance. This change is being made because the Missouri Pacific Railroad Company has agreed to maintain this vertical lift span at its full height of 81.4 feet.

As this change favorably affects navigation, notice of proposed rule making and public procedure are not considered necessary and this change may be made effective in less than 30 days.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by revising paragraphs (b) and (d) of § 117.550 to read as follows:

§ 117.550 Cedar Bayou, Texas, Missouri Pacific [unmanned] drawbridge.

* * * * *

(b) The lift span shall be maintained at a vertical clearance of 81.4 feet above mean high water. Fixed green navigation lights shall be displayed in the center of the lift span.

* * * * *

(d) After a train has cleared the bridge, the draw shall be raised to 81.4 feet above mean high water, the flashing red lights shall be stopped, and the navigation lights shall be changed from red to green.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937 (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4)).

Effective date. This revision shall become effective on May 1, 1975.

Dated: March 24, 1975.

W. E. CALDWELL,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.

[FR Doc.75-8373 Filed 3-31-75;8:45 am]

[CGD 73-142]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

San Joaquin River and its Tributaries, Georgiana Slough, and Sacramento River and its Tributaries, California

This amendment changes the regulations for the drawbridges across the San Joaquin River and its tributaries, Georgiana Slough, and Sacramento River and its tributaries by reducing the times during which the draws are required to open on signal. This amendment was circulated as a public notice dated June 3, 1974 by the Commander, Twelfth Coast Guard District and was published in the FEDERAL REGISTER as a notice of proposed rule making (CGD 73-142P) on May 24, 1974 (39 FR 18286). Ten replys were received. Five approved of this change or had no objection thereto, Five objected to this change. Of these, two objected in general terms and offered no alternative plans. One recommended using the same opening signal for each bridge. Only one bridge, the Southern Pacific railroad bridge near Isleton requires a different opening signal. This is due to the close proximity of another highway bridge. The Coast Guard feels that different signals are necessary to avoid possible confusion. One reply recommended extending the times during which the draws open on signal to 24 hours for a period of 9 months. This recommendation was considered; however it was rejected due to the relatively few openings during the periods affected. One objected because of rough water caused at times by high winds at several bridges. While this objection was considered, it is felt that it should be rejected at this time due to the relatively few openings during the restricted periods, and the provision for openings on advance notice which eliminates the need for waiting for bridge openings. The Coast Guard will continue to monitor these regulations. Further changes will be promulgated when the need is clearly indicated.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by revising § 117.714, § 117.715, and § 117.716 to read as follows:

§ 117.714 San Joaquin River and its tributaries, California.

(a) *San Joaquin River.* (1) Drawbridges from Stockton to Old River junction. The draws shall open on signal if at least twelve hours notice is given to the owners' agents at Stockton as follows:

(i) Port District railway bridge at Stockton—Port Director.

(ii) U.S. Navy Highway bridge at Stockton—U.S. Naval Communications Station.

(iii) Atchison, Topeka and Santa Fe Railway Company bridge at Stockton—Atchison, Topeka and Santa Fe Railway Company Yardmaster.

(iv) State of California Highway bridge (Garwood Bridge) near Stockton—State Highways District Office.

(v) San Joaquin County highway bridge (Brandt Bridge) near French Camp—San Joaquin County Department of Public Works.

(2) Drawbridges above the Old River junction need not open for the passage of vessels.

(b) *Burns Cutoff, Drawbridges.* The draw shall open on signal if at least 48 hours notice is given to the U.S. Naval Communications Station, Stockton.

(c) *Middle River.* (1) Mouth to Woodward Canal, drawbridges.

(i) San Joaquin County highway bridge between Bacon Island and Lower Jones tract. From May 15 through September 15, the draw shall open on signal from 9 a.m. to 5 p.m.; from September 16 through May 14, the draw shall open on signal from 9 a.m. to 5 p.m. from Thursday through Monday. At all other times the draw shall open on signal if at least 12 hours notice is given to the San Joaquin County Department of Public Works, Stockton.

(ii) The Atchison, Topeka and Santa Fe Railway Company bridge near Middle River Station. The draw shall open on signal if at least 12 hours notice is given the Atchison, Topeka and Santa Fe Railway Company Yardmaster, Stockton.

(2) Drawbridges above Woodward Canal need not open for the passage of vessels.

(d) *Old River.* State of California highway bridge between Victoria Island and Byron Tract.

(1) From May 1 through October 31, the draw shall open on signal from 6 a.m. to 10 p.m.

(2) From November 1 through April 30, the draw shall open on signal from 9 a.m. to 5 p.m.

(3) At all other times, the draw shall open on signal if at least 4 hours notice is given to the Rio Vista Bridge, except that the draw shall open on signal if at least 1 hours notice is given for emergency vessels owned, operated or controlled by the United States or the State of California, for commercial vessels engaged in rescue or emergency salvage operations, or for vessels in distress.

(e) *Grant Line Canal.* San Joaquin County highway bridge. The draw shall open on signal if at least 12 hours notice is given to the San Joaquin County Department of Public Works, Stockton.

(f) *Mokelumne River.* (1) State of California highway bridge at East Isleton.

(i) From May 1 through October 31, the draw shall open on signal from 6 a.m. to 10 p.m.

(ii) From November 1 through April 30, the draw shall open on signal from 9 a.m. to 5 p.m.

(iii) At all other times, the draw shall open on signal if at least 4 hours notice is given to the Rio Vista Bridge, except that the draw shall open on signal if at least 1 hours notice is given for emergency vessels owned, operated, or controlled by the United States or the State of California, for commercial vessels engaged in rescue or emergency salvage operations, or for vessels in distress.

(2) Sacramento and San Joaquin Counties highway bridge (Millers Ferry Bridge) over the North Fork of the Mokelumne River near Walnut Grove.

(i) From May 15 through September 15 from 9 a.m. to 5 p.m. the draw shall open on signal.

(ii) At all other times the draw shall open on signal if at least 12 hours notice is given to the San Joaquin County Department of Public Works, Stockton.

(3) San Joaquin County highway bridge over the South Fork of the Mokelumne River at New Hope Landing. Upon notice from the District Commander that an emergency exists which requires the removal of the span, the bridge owner shall take out the removable span expeditiously.

(4) Drawbridges above New Hope Landing. The draws of these bridges need not open for the passage of vessels. The owners of or agencies controlling these bridges shall restore the draws to full operation within 6 months of notification to take such action by the Commandant, U.S. Coast Guard.

(g) *Little Potato Slough.* State of California highway bridge at Terminous.

(1) The draw shall open on signal from July 1 through September 30 from 8 a.m. to 5 p.m.

(2) At all other times the draw shall open on signal if at least 4 hours notice is given to the Rio Vista Bridge.

(h) *Snodgrass Slough, drawbridges.* The draws shall open on signal if at least 24 hours notice is given to the owners' agent as follows:

(1) Southern Pacific Transportation Company bridge—Southern Pacific Transportation Company Yardmaster, Roseville.

(2) Sacramento County highway bridge—Sacramento County Highway Department office, Sacramento.

(i) *King Island Cut.* San Joaquin County highway bridge between King Island and Biship Tract. The draw shall open on signal if at least 12 hours notice is given to the San Joaquin County Department of Public Works, Stockton.

(j) *Honker Cut.* San Joaquin County bridge, between Empire Tract and King Island. The draw shall open on signal if at least 12 hours notice is given to the San Joaquin County Department of Public Works, Stockton.

§ 117.715 Georgiana Slough, California, drawbridges.

(a) *Open Signal.* One long blast followed by one short blast.

(b) *Sacramento County highway bridges near Isleton and Walnut Grove.* (1) From May 1 through October 31, the draws shall open on signal from 6 a.m. to 10 p.m.

(2) From November 1 through April 30 the draws shall open on signal from 9 a.m. to 5 p.m.

(3) At all other times, the draws of these bridges shall open on signal if at least 4 hours notice is given to the Rio Vista Bridge, except that the draws shall open on signal if at least 1 hours notice is given for emergency vessels owned, operated or controlled by the United States or the State of California, for commercial vessels engaged in rescue or emergency salvage operations, or for vessels in distress.

(c) *Southern Pacific railroad bridge near Isleton.* The draw shall be maintained in the fully open position; except that the draw may close for the passage of trains. When the draw is closed and visibility from the drawtender's station is less than 1 mile up or down the channel, the drawtender shall sound 2 long blasts every minute. When the draw is reopened, the drawtender shall sound one long blast followed by one short blast.

§ 117.716 Sacramento River and its tributaries, California.

(a) *Sacramento River.* (1) Isleton to American River junction, drawbridges.

(i) From May 1 through October 31, the draws shall open on signal from 6 a.m. to 10 p.m.

(ii) From November 1 through April 30, the draws shall open on signal from 9 a.m. to 5 p.m.

(iii) At all other times, the draws shall open on signal if at least 4 hours notice is given to the Rio Vista Bridge, except that the draws shall open on signal if at least 1 hours notice is given for emergency vessels owned, operated or controlled by the United States or the State of California, for commercial vessels engaged in rescue or emergency salvage operations, or for vessels in distress.

(iv) The opening signal for the Southern Pacific railway and highway bridge at Sacramento is one long blast followed by one short blast.

(2) American River junction to Chico Landing, drawbridges. The draw shall open on signal if at least 12 hours notice is given to the owners' agents as follows:

(i) Southern Pacific railroad bridge at Knights Landing—Southern Pacific Yardmaster, Roseville.

(ii) State of California highway bridge at Knights Landing—State Division of Highways Office, Woodland.

(iii) State of California highway bridge at Meridian—State Division of Highways Office, Marysville.

(iv) Colusa County highway bridge at Colusa—Colusa County Sheriff's Office, Colusa.

(v) State of California highway bridge at Butte City—State Division of Highways Office, Gridley.

(3) Drawbridges above Chico Landing. The draws of these bridges need not open for the passage of vessels. The owners of or agencies controlling these bridges shall restore the draws to full operation within 6 months of notification to take such action from the Commandant, U.S. Coast Guard.

(b) *Steamboat Slough, State of California highway bridge at the head of Grand Island.* (1) Opening signal. Two long blasts followed by one short blast.

(2) From May 1 through October 31, the draw shall open on signal from 6 a.m. to 10 p.m.

(3) At all other times the draw shall open on signal if at least 4 hours notice is given to the Rio Vista Bridge, except that the draw shall open on signal if at least 1 hours notice is given for emergency vessels owned, operated or controlled by the United States or the State of California, for commercial vessels engaged in rescue of emergency salvage operations, or for vessels in distress.

(c) *Miner Slough.* State of California highway between the northerly end of Ryer Island and Holland Tract. The draw shall open on signal if at least 12 hours notice is given to the Rio Vista Bridge.

(d) *Sutter Slough.* Sacramento County highway bridge near Courtland. The draw need not open for the passage of vessels. The owner of or agency controling the bridge shall restore the draw to full operation within 6 months of notification to take such action from the Commander, Twelfth Coast Guard District.

(e) *American River.* State of California highway bridge at Sacramento. The draw need not open for the passage of vessels.

(f) *Lindsey Slough.* The center span of the Hastings Farms highway bridge between Egbert and Lower Hastings Tracts shall be removed if at least 72 hours notice is given to the Hastings Farms Office, San Francisco.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4)).

Effective date. This revision shall become effective on May 5, 1975.

Dated: March 26, 1975.

W. E. CALDWELL,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 335-3]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Pennsylvania; Approval of Plan Revision

On April 15, 1974, the Commonwealth of Pennsylvania submitted to the Environmental Protection Agency a proposed amendment to the City of Philadelphia portion of the approved Pennsylvania Implementation Plan for the attainment and maintenance of the national ambient air quality standards for sulfur dioxide.

The major provision of the proposal would postpone, until March 31, 1975, a decrease in sulfur-in-fuel oil limits from 0.5 percent to 0.3 percent. This decrease had been scheduled for October 1, 1973. There is also a provision for allowing non-commercial fuel users to average stack emissions throughout a facility if it can be shown that air quality will not be adversely affected. The definition of "facility", as it applies to this latter provision and the other regulations contained in the Philadelphia Air Management Code, is also included in this amendment.

The Administrator realizes that the emission concentration averaging provision contained in the amended Philadelphia code could cause an enforcement burden because no individual stack could be determined to be out of compliance until the emissions from the entire facility were determined. EPA is, however, approving this amendment because Pennsylvania regulation 123.22, which is already part of the approved Implementation Plan, does limit sulfur dioxide emissions on a combustion unit basis. This regulation applies to any air pollution source that the Philadelphia regulation does and would mitigate any problems caused by the averaging provision.

V 40163
APR 175

The rationale behind deferral of the implementation date, as stated by the Department of Environmental Resources and Philadelphia Air Management Services, is to allow a detailed air quality analysis to be completed by the Philadelphia Agency in order to determine the need for going to the lower (0.2 percent) percent sulfur-in-fuel level. The need for such a study is evidenced by data submitted by the Department of Environmental Resources with the proposed revision, for the year just prior to submission, showing annual average readings for sulfur dioxide well below the national standards, a complete lack of 3-hour violations and only one 24-hour violation. This data, as well as the original submission, is available for public inspection during normal business hours at the Offices of EPA, Region III, Curtis Building, Second Floor, Sixth and Walnut Streets, Philadelphia, Pennsylvania, 19106; at the Freedom of Information Center, EPA, 401 M Street, SW., Washington, D.C., 20460; and at the Office of Philadelphia Air Management Services, 4320 Wissachickon Avenue, Philadelphia, Pennsylvania 19129.

The proposed amendment to the Pennsylvania Implementation Plan was publicly advertised and a hearing was held on September 5, 1973, in accordance with 40 CFR Part 51, Requirements for Preparation, Adoption and Submittal of State Implementation Plans.

On November 15, 1974 (39 FR 40310), the receipt of this revision was announced and the public was requested to comment on its approvability. The Administrator received comments from the Virginia Electric and Power Company (Vepco). The nature of these comments consisted of support for the provisions allowing non-commercial fuel users to average stack emissions throughout a facility in situations where air quality will not be adversely affected.

The Administrator's own evaluation of this plan revision is that it should be approved since it will not interfere with the attainment of the national primary and secondary ambient air quality standards by the required July 31, 1975, attainment date.

Therefore, in light of the lack of substantive comments received and the Administrator's own evaluation, it is the Administrator's judgment that the proposed change meets the substantive and procedural requirements of section 110 of the Clean Air Act and 40 CFR Part 51, Requirements for Preparation, Adoption and Submittal of State Implementation Plans. The change is, therefore, approved as a revision to the Pennsylvania Implementation Plan.

The Administrator finds good cause for making this promulgation immediately effective since it has been in effect in Philadelphia for over a year and since the major provision, the change in sulfur-in-fuel oil limits, will take effect on March 31, 1975.

(42 U.S.C. 1857c-5)

Dated: March 25, 1975.

JOHN QUARLES,
Acting Administrator.

Subpart NN—Pennsylvania

SUBCHAPTER E—PESTICIDE PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Carbophenothion

On January 13, 1975, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (40 FR 2448) a notice of proposed rulemaking to establish a tolerance for combined residues of the insecticide carbophenothion (*S*-[[p-chlorophenyl)-thio]methyl] *O,O*-diethyl phosphorodithioate) and its cholinesterase-inhibiting metabolites in or on the raw agricultural commodity blueberries at 4 parts per million. This notice of proposed rulemaking to amend §§ 180.3 and 180.156 was published in response to a petition (PP 4E1434) submitted by Dr. C. C. Compton, Coordinator, Interregional Research Project No. 4, State Agriculture Experiment Station, Rutgers University, New Brunswick NJ 08903, on behalf of the IR-4 Technical Committee and the Agricultural Experiment Station of Maine.

No comments or requests for referral to an advisory committee were received by the Agency on the proposal. Therefore, it is concluded that the amendments to the regulations be adopted without change.

Any person adversely affected by this regulation may, on or before May 1, 1975, file written objections with the Hearing Clerk, Environmental Protection Agency, 401 M Street, SW, East Tower, Room 1019, Washington, DC 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective April 1, 1975, Part 180, Subpart A, § 180.3, and Subpart C, § 180.156, is amended as follows.

(Sec. 408(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(e)).)

Dated: March 26, 1975.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

Part 180 is amended as follows:

1. In § 180.3(c)(5), by revising the item "Carbophenothion * * *" to read as follows:

§ 180.3 Tolerances for related pesticide chemicals.

* * * * *

(c) * * *

(5) * * *

Carbophenothion (*S*-[[(p-chlorophenyl) thiolmethyl] *O, O*-diethyl phosphorodithioate) and its cholinesterase-inhibiting metabolites.

2. In § 180.156 by revising the introductory paragraph and by adding the new paragraph "4 parts per million * * *" after the paragraph "5 parts per million * * *", as follows:

§ 180.156 Carbophenothion; tolerances for residues.

Tolerances for combined residues of the insecticide carbophenothion (*S*-[(p-chlorophenyl) thiolmethyl] *O, O*-diethyl phosphorodithioate) and its cholinesterase-inhibiting metabolites in or on raw agricultural commodities are established as follows:

* * * * *

4 parts per million in or on blueberries.

* * * * *

[FR Doc.75-8302 Filed 3-31-75; 8:45 am]

[FRL 353-7; OPP-262613]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Chlorothalonil

On January 7, 1975, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (40 FR 1276) a notice of proposed rulemaking to establish a tolerance for combined residues of the fungicide chlorothalonil (tetrachloroisophthalonitrile) and its metabolite 4-hydroxy-2,5,6-trichloroisophthalonitrile in or on the raw agricultural commodities green onions at 5.0 parts per million and dry bulb onions at 0.5 part per million. This notice of proposed rulemaking to amend § 180.275 was published in response to a petition (PP 4E1502) submitted by Dr. C. C. Compton, Interregional Research Project No. 4, State Agricultural Experiment Station, Rutgers University, New Brunswick, NJ 08903, on behalf of the Agriculture Experiment Stations of New York and Michigan.

No comments or requests for referral to an advisory committee were received by the Agency with respect to this proposal. Therefore, it is concluded that the proposed amendment to the regulation should be adopted without change.

Any person adversely affected by this regulation may, on or before May 1, 1975, file written objections with the Hearing Clerk, Environmental Protection Agency, 401 M Street, SW., East Tower, Room 1019, Washington DC 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective April 1, 1975, Part 180, Subpart C, Section 180.275 is amended as follows.

(Sec. 408(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(e)).)

Dated: March 26, 1975.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

Section 180.275 is amended by 1) revising the heading, the introductory paragraph, and the paragraph "5 parts per million * * *" and 2) inserting the new paragraph "0.5 part per million * * *" after the paragraph "1 part per million * * *" as follows.

* * * * *

§ 180.275 Chlorothalonil; tolerances for residues.

Tolerances are established for combined residues of the fungicide chlorothalonil (tetrachloroisophathlonitrile) and its metabolite 4-hydroxy-2,5,6-trichloroisophthalonitrile in or on raw agricultural commodities as follows:

5 parts per million in or on broccoli, brussels sprouts, cabbage, cauliflower, cucumbers, melons, onions (green), pumpkins, snap beans, squash (summer and winter), and tomatoes.

* * * * *

0.5 part per million in or on onions (dry bulb).

[FR Doc.75-8303 Filed 3-31-75;8:45 am]

[OPP-262314, FRL 354-2]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Simazine

On August 23, 1970, notice was given (35 FR 13535) that CIBA-GEIGY Corp., PO Box 11422, Greensboro NC 27409, had filed a petition (PP 0F0096) for a pesticide tolerance with the Environmental Protection Agency (EPA). This petition proposed establishment of a tolerance for residues of the herbicide simazine (2-chloro - 4,6 - bis(ethylamino) - s - triazine) in or on the raw agricultural commodity fish at 3 parts per million. CIBA-GEIGY Corp., subsequently amended the petition to propose the establishment of a tolerance for combined residues of the herbicide simazine and its metabolites (2-amino-4-chloro-6-ethylamino-s-triazine and 2,4-diamino-6-chloro-s-triazine) in or on the raw agricultural commodity fish at 12 parts per million. (A related document on simazine and the establishment of a food additive tolerance also appears in today's FEDERAL REGISTER.)

The data submitted in the petition and other relevant material have been evaluated. The herbicide is considered useful for the purpose for which the tolerance is sought. The established tolerances for residues in eggs; milk; and the meat, fat, and meat byproducts of cattle, goats, hogs, horses, poultry, and sheep are adequate to cover residues resulting from the proposed use, and § 180.6(a)(2) applies. The tolerance established by this regulation will protect the public health.

Any person adversely affected by this regulation may on or before May 1, 1975, file written objections with the Hearing Clerk, Environmental Protection Agency, 401 M Street, SW., East Tower, Room 1019, Washington DC 20460. Such objections should be submitted in quintuplicate and specify the provisions for the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on April 1, 1975, Part 180, Subpart C, is amended by adding § 180.213a.

Dated: March 26, 1975.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

(Section 408(d)(2) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(d)(2)).)

* * * * *

§ 180.213 Simazine; tolerance for residues.

A tolerance for combined residues of the herbicide simazine (2-chloro-4,6-bis (ethylamino)-s-triazine) and its metabolites (2-amino-4-chloro-6-ethylamino-s-triazine and 2,4-diamino-6-chloro-s-triazine) is established in or on the raw agricultural commodity fish at 12 parts per million.

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 249—SERVICES AND PAYMENT IN MEDICAL ASSISTANCE PROGRAMS

PART 250—ADMINISTRATION OF MEDICAL ASSISTANCE PROGRAMS

Utilization Control; Amendment of Effective Date of Regulations

On November 29, 1974 (39 FR 41610) regulations were published to implement sections 207 (in part), 237(a) and 237 (b) (in part) of Pub. L. 92-603, amending Title XIX of the Social Security Act to provide for a reduction in Federal financial participation unless the State has an effective program of control over the utilization of institutional services. These regulations were effective February 1, 1975.

Considerable concern has been expressed by hospitals with small medical staffs, especially those in rural areas, regarding their capacity to organize in-house utilization review committees to operate the review system required by the regulations. The Department recognizes the particular difficulties posed by the manpower and resource limitations of such facilities. Since the utilization review component of an effective State program of control employs the groups, methods, and procedures established under section 1861(k) of the Social Security Act, an extension of time identical to that being granted for Medicare is granted for Medicaid. The extension of the effective date provided herein should allow sufficient time for utilization of alternate methods other than in-house committees such as community-based groups sponsored by local medical societies or other organizations to be approved by the Secretary.

The extension of the effective date provided herein will also allow sufficient time for administrative changes, which some hospitals and skilled nursing home facilities reported were going to be such serious problems for them that in some cases care of patients would be affected.

The effective date of these utilization control regulations is being changed from February 1, 1975 to July 1, 1975; this amendment is effective January 31, 1975 in order to assure that the regulations relating to utilization review and utilization control of care and services which were in effect on January 31, 1975 will remain in effect until July 1, 1975. A technical amendment is also being made in 45 CFR 250.19(a) to conform it to the amendment of the effective date.

The Department wishes to emphasize that it expects all facilities participating in Medicaid to be in full compliance with these regulations on July 1, 1975. Facilities should not abate their efforts to develop criteria and programs to comply with these regulations as a result of the change in effective date.

For the reasons stated above, good cause exists to dispense with notice of proposed rulemaking.

1. The effective date of the utilization control regulations published on November 29, 1974 (39 FR 41610) is amended to read as follows:

These regulations shall be effective July 1, 1975.

2. The date "February 1, 1975" appearing in 45 CFR 250.19(a) is hereby amended (wherever it appears) to read: July 1, 1975.

The effective date of these amendments shall be January 31, 1975.

(Catalog of Federal Domestic Assistance Programs No. 13.714, Medical Assistance Program.)

Dated: March 25, 1975.

JOHN A. SVAHN,
Acting Administrator, Social and Rehabilitation Service.

Approved: March 27, 1975.

CASPAR W. WEINBERGER,
Secretary.

V 40163
APR 175

PART 250—ADMINISTRATION OF MEDICAL ASSISTANCE PROGRAMS

Reasonable Differential Between Costs of Skilled Nursing and Intermediate Care Facility Services

Notice of proposed rule making was published January 31, 1974, at 39 FR 3961, implementing section 1903(h) of the Social Security Act (42 U.S.C. 1396b (h)) as added by section 207(a)(1) of Pub. L. 92-603. Requirements were specified which limit Federal matching for State payments under title XIX, Social Security Act, for intermediate care facility (ICF) services which do not reflect a reasonable differential between such payments and those for skilled nursing facility (SNF) services.

Thirteen State agencies and one organization representing the nursing home industry responded. The major comment raised was that additional Federal requirements for intermediate care facility services to be provided in institutions for the mentally retarded would raise the costs of care in such facilities above the average costs of skilled nursing facility services. The Department recognized this point and exempted such institutions from the comparison. The remaining major comments and the Department's response are summarized below:

1. *Comment:* The differential should be applied only to operating costs and not capital costs since capital costs are the same for both levels of care.

Response: It is recognized that survey findings support this contention. As revised, the regulations do not preclude a State from justifying a cost differential of less than 10 percent on the basis of the difference in operating costs between SNFs and ICFs. For example, if the overall differential was less than 10 percent but by eliminating the capital costs there resulted a differential of 10 percent or more in the variable costs, such a differential could be approvable if documented and justified by the State. (§ 250.30(b)(3)(iii)(b)(5)).

2. *Comment:* There are no guidelines for establishing a reasonable cost differential.

Response: A Statewide 10 percent minimum has been established as an acceptable differential. In a review of 28 States' reimbursement rates for SNF and ICF services as of March 1974, the differential ranged from 11 percent to 58 percent. Therefore, a figure of 10 percent is a reasonable differential requirement. The minimum acceptable differential in subsequent fiscal years may be changed as determined from data submitted by the States. States will be given advance notification of any such changes.

3. *Comment:* There is no provision for determining a differential for facilities providing both skilled nursing and intermediate care facility services where there is no distinct part for ICF care.

Response: No change necessary. The differential is based on statewide average expenditures and patient days. (§ 250.30(b)(3)(iii)(b)(1)).

4. *Comment:* The fiscal impact of retroactive penalties for periods back to July 1, 1973, could adversely affect a State's finances.

Response: This has been considered by the Department and there will be no retroactive penalties. The regulation is effective for the calendar quarter beginning 90 days after publication.

5. *Comment:* As proposed, the regulations require that all sources of payment be taken into account in determining the cost differential, yet the method for calculating the differential states that only the rates paid are to be taken into account.

Response: The Department recognizes the point made, but for ease of calculation requires that the comparison be made on the basis of rates paid under the plan. In addition, it is assumed that amounts contributed toward care by individuals from non-exempt personal income will be equivalent for both ICF and SNF care, and therefore, will have no effect on the differential. The wording "all sources" has been deleted to clarify this point (§ 250.30(b)(3)(iii)(b)(1)).

6. *Comment:* In States which reimburse on the basis of cost, the differential could change on a monthly basis throughout the year.

Response: The regulations have been revised to provide for submission of cost-related data by a State to demonstrate that a lesser differential is reasonable (§ 250.30(b)(3)(iii)(b)(5)).

7. *Comment:* The May 1 date for submittal of data is too early for States which make retroactive adjustments on a fiscal year basis.

Response: The regulations have been changed so that the requirement for annual approval of proposed differentials is deleted. States are still required to submit data, however (§ 250.30(b)(3)(iii)(b)(4)).

In addition, the method for computing the differential has been simplified and is the same regardless of the basis for reimbursement, whether a flat rate, a negotiated rate, or a cost-related rate.

Requirements for submission of quarterly cost data have been added. As States initiate methods of payment to meet the provisions of section 249 of Pub. L. 92-603, which requires that long-term care facility services be reimbursed on a reasonable cost-related basis, it is expected that such cost reimbursement will affect present cost differentials. Thus, the data required for submission will enable the Secretary to evaluate the reasonableness of the range of cost differentials established among the States.

Finally, § 250.30(b)(3)(iii)(a) has been revised to set the upper limit for all ICFs at reasonable charges not to exceed costs determined in accordance with the principles of reimbursement for provider costs under Part A of title XVIII of the Act. The previous limit for ICFs (effective March 18, 1974) has been set at the average per diem rate paid for SNF services in the State. With the addition of the cost differential section, this is no longer an appropriate method for determining the upper limit for ICFs. The change also takes into account the comment stated above that ICF-IMR costs may in some cases exceed average SNF costs. The new upper limit is being made retroactive to March 18, 1974, in order to recognize that such higher costs have been incurred in some States. In no case will a State be disadvantaged by the retroactive application of the new ceiling.

Other technical changes have been made to clarify the intent of requirements. Accordingly, the regulations as proposed with changes noted above have been adopted.

Section 250.30(b)(3)(iii) of Part 250, Chapter II, Title 45, Code of Federal Regulations, is revised to read as follows:

§ 250.30 Reasonable charges.

* * * * * * *

(b) Upper limits. * * *

(3) (iii) *Intermediate care facility services.* (*a*) Customary charges which are reasonable. Schedules of payments established by the State agency shall not exceed an upper limit determined in accordance with the principles of reimbursement for provider costs under Part A of title XVII of the Act. (A financial audit of the facilities to apply the title XVIII-A reimbursement principles is not required but the State shall establish schedules of payments which are consistent with the intent that upper limits do not exceed amount which would be paid using title XVIII-A principles and methods of cost reimbursement for similar service.)

(*b*) (*1*) Federal financial participation is not available for expenditures under the State plan for payments to intermediate care facilities, except for institutions for the mentally retarded and persons with related conditions which are exempted from this requirement, for any calendar quarter which are in excess of that amount which reflects a reasonable differential on a Statewide basis between average per diem amounts paid under the State plan for intermediate care facility services and the Statewide average per diem amounts paid under the State plan for skilled nursing facility services. Such reasonable differential shall reflect a lower rate of reimbursement for intermediate care.

(*2*) The differential shall be computed by determining the dollar amount of difference between the average amount paid per inpatient day under the State plan for skilled nursing facility services and the average amount paid per inpatient day under the State plan for intermediate care facility services, regardless of the basis for reimbursement, whether a flat rate, a negotiated rate, or a cost-related rate.

(*3*) In no case shall the statewide differential computed in accordance with paragraph (b)(3)(iii)(*b*)(*2*) be less than 10 percent of the statewide skilled nursing facility rate except as provided in paragraph (b)(3)(iii)(*b*)(*5*).

(*4*) States must report each quarter on the Quarterly Statement of Expenditures (Form SRS-OA-41) separately for skilled nursing facility services and intermediate care facility services, the total amount paid during the quarter for services, the number of inpatient days of services paid for during the quarter, and the average amount paid per inpatient day for services during the quarter. The single State agency shall have on file adequate records to substantiate the quarterly statement of expenditures.

(*5*) The Administrator may approve a State's request for a cost differential of less than 10 percent if he determines that such differential is reasonable. A State requesting approval of a cost differential of less than 10 percent must submit cost-related data to demonstrate that such lesser differential is reasonable. The Administrator in approving a cost differential of less than 10 percent will indicate the period for which such differential is approved.

(Sec. 1102, 49 Stat. 647, (42 U.S.C. 1302).)

Effective date. (Section 250.30(b)(3)(iii)(*a*) will be effective retroactive to March 18, 1974, and § 250.30(b)(3)(iii)(*b*) shall be effective with the calendar quarter beginning July 1, 1975.

(Catalog of Federal Domestic Assistance Program No. 13.714, Medical Assistance Program)

Dated: January 2, 1975.

Title 46—Shipping

CHAPTER II—MARITIME ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER J—MISCELLANEOUS

PART 380—PROCEDURES

Subpart D—Public Access to Information and Records

RESCISSION OF SUBPART

Subpart D of Part 380 of Title 46, Code of Federal Regulations, was issued by the Maritime Administration, an agency within the Department of Commerce, on September 8, 1967 (32 FR 12345), to satisfy the requirements of the Freedom of Information Act (5 U.S.C. 552) (the Act). Pub. L. 93-502 (88 Stat. 1561) made significant amendments to the Act. On March 12, 1975, the Department of Commerce published in the FEDERAL REGISTER a revision of its Public Information regulations contained in 15 CFR Part 4 to implement these amendments to the Act. The Department's regulations, as revised, are comprehensive and are applicable to requests submitted to the Maritime Administration under the Act. Accordingly, Subpart D of Part 380 of Title 46, Code of Federal Regulations, is hereby rescinded.

Effective date. This rescission is effective February 19, 1975.

Dated: March 27, 1975.

By Order of the Assistant Secretary for Maritime Affairs.

JAMES S. DAWSON, Jr.,
Secretary,
Maritime Administration.

CHAPTER IV—FEDERAL MARITIME COMMISSION

SUBCHAPTER B—REGULATIONS AFFECTING MARITIME CARRIERS AND RELATED ACTIVITIES

[General Order 7, Amdt. 2]

PART 528—SELF-POLICING SYSTEMS

Approval of Reporting Requirement

Pursuant to section 3512 of 44 U.S.C. this Commission has recently received approval from the U.S. General Accounting Office of an extension without change of the reporting requirements contained in Part 528—Self-Policing Systems [General Order 7].

Section 10.12, *Notification of General Accounting Office Action*, of Title 4 CFR requires that notice of such clearance appear in the agency's regulations.

§ 528.1 [Amended]

Section 528.1 is amended by adding the following new sentence at the end thereof.

"The reporting requirement contained in this part has been approved by the U.S. General Accounting Office under B-180233 [RO 145] and expires on 12-31-77."

Notice, public procedure and delayed effective date are not necessary for the promulgation of this amendment because of its non-substantive nature. Accordingly, this amendment shall be effective April 1, 1975.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.75-8279 Filed 3-31-75;8:45 am]

[General Order 15, Amdt. 3]

PART 533—FILING OF TARIFFS BY TERMINAL OPERATORS

Approval of Reporting Requirement

Pursuant to section 3512 of 44 U.S.C. this Commission has recently received approval from the U.S. General Accounting Office of an extension without change of the reporting requirements contained in Part 533—Filing of Tariffs by Terminal Operators [General Order 15].

Section 10.12, *Notification of General Accounting Office Action*, of Title 4 CFR requires that notice of such clearance appear in the agency's regulations. Accordingly,

§ 533.1 [Amended]

Section 533.1 is amended by adding the following new sentence at the end thereof.

The reporting requirement contained in this part has been approved by the U.S. General Accounting Office under B-180233 [RO 115] and expires on 9-30-77.

The above sentence replaces the note which appears at the end of PART 533.

Notice, public procedure and delayed effective date are not necessary for the promulgation of this amendment because of its non-substantive nature. Accordingly, this amendment shall be effective April 1, 1975.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.75-8280 Filed 3-31-75;8:45 am]

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI 540]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

The purpose of this notice is to list those communities wherein the sale of flood insurance is authorized under the National Flood Insurance Program (42 U.S.C. 4001-4128).

Insurance policies can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state (addresses are published at 39 FR 26166-03). A list of servicing companies is also available from the Federal Insurance Administration, HUD, 451 Seventh Street, SW., Washington, D.C. 20410.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in an identified flood plain area having special hazards that is located within any community currently participating in the National Flood Insurance Program.

Until July 1, 1975, the statutory requirement for the purchase of flood insurance does not apply until and unless the community enters the program and the special flood hazards have been identified. However, on July 1, 1975, or one year after the identification of the community as flood prone, whichever is later, the requirement will apply to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program and flood insurance has been purchased.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. Therefore notice and public procedure under 5 U.S.C. 553(b) are impracticable, unnecessary, and contrary to the public interest.

V 40 63
APR 1 75

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The date that appears in the fourth column of the table is provided in order to designate the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. These dates serve notice only for the purposes of granting relief, and not for the application of sanctions, within the meaning of 5 U.S.C. 551. The entry reads as follows:

§ 1914.4 List of eligible communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository
•	•	•	•	•	•	•
Connecticut	Litchfield	Barkhamsted, town of	Mar. 28, 1975, Emergency	Aug. 30, 1974		
Florida	Okaloosa	Niceville, city of	do			
Georgia	Sumter	Americus, city of	do

Insurance policies can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state (addresses are published at 39 FR 26186–93). A list of servicing companies is also available from the Federal Insurance Administration, HUD, 451 Seventh Street, SW., Washington, D.C. 20410.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or federally related financial assistance for acquisition or construction purposes in an identified flood plain area having special hazards that is located within any community currently participating in the National Flood Insurance Program.

Until July 1, 1975, the statutory requirement for the purchase of flood insurance does not apply until and unless the community enters the program and the special flood hazards have been identified. However, on July 1, 1975, or one year after the identification of the community as flood prone, whichever is later, the requirement will apply to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program and flood insurance has been purchased.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. Therefore notice and public procedure under 5 U.S.C. 553(b) are impracticable, unnecessary, and contrary to the public interest.

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The date that appears in the fourth column of the table is provided in order to designate the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. These dates serve notice only for the purposes of granting relief, and not for the application of sanctions, within the meaning of 5 U.S.C. 551. The entry reads as follows:

§ 1914.4 List of eligible communities.

[Docket No. FI 542]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

The purpose of this notice is to list those communities wherein the sale of flood insurance is authorized under the National Flood Insurance Program (42 U.S.C. 4001–4128).

Insurance policies can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state (addresses are published at 39 FR 26186–93). A list of servicing companies is also available from the Federal Insurance Administration, HUD, 451 Seventh Street, SW., Washington, D.C. 20410.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in an identified flood plain area having special hazards that is located within any community currently participating in the National Flood Insurance Program.

Until July 1, 1975, the statutory requirement for the purchase of flood insurance does not apply until and unless the community enters the program and the special flood hazards have been identified. However, on July 1, 1975, or one year after the identification of the community as flood prone, whichever is later, the requirement will apply to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program and flood insurance has been purchased.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. Therefore notice and public procedure under 5 U.S.C. 553(b) are impracticable, unnecessary, and contrary to the public interest.

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The date that appears in the fourth column of the table is provided in order to designate the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. These dates serve notice only for the purposes of granting relief, and not for the application of sanctions, within the meaning of 5 U.S.C. 551. The entry reads as follows:

Title 7—Agriculture

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 3]

PART 731—CLOSING DATES FOR TRANSFER, AND FOR RELEASE AND REAPPORTIONMENT

Cotton, Peanuts, Rice, and Tobacco

This amendment is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq.). The purpose of this amendment is to change the closing dates for transfer and for release and reapportionment of cotton, peanuts, rice and tobacco (except burley and flue-cured).

Since farmers need to know the dates for effecting transfers, release and reapportionment of 1975 marketing quotas and farm acreage allotments as soon as possible, it is hereby determined that compliance with the notice, procedure, and effective date provisions of 5 U.S.C. 553 is impracticable and contrary to the public interest, and this document shall become effective upon the date of its filing with the Director, Office of the Federal Register.

The regulations for establishing closing dates for transfer and for release and reapportionment under Part 731 (37 FR 28124, 39 FR 7416 and 39 FR 15759) are amended by changing the closing dates in § 731.2 for Alabama, Arkansas, California, Iowa, Kentucky, Louisiana, Ohio, Texas, and Wisconsin as follows:

§ 731.2 Closing dates.

State	Closing date for transfer by lease, sale or owner (except burley and flue-cured tobacco); release and reapportionment requests	Final date for reapportionment
(1)	(2)	(3)
Alabama:		
(Peanuts)	Feb. 28	[1] 1 month following applicable closing dates for transfer, release and requesting reapportionment.
(Cotton)	Mar. 31	Do.
Arkansas	Apr. 1	Do.

DEPARTMENT OF COMMERCE

Bureau of Economic Analysis

[15 CFR Part 803]

FOREIGN INVESTMENT AND INTERNATIONAL RECEIPTS AND PAYMENTS OF ROYALTIES AND FEES

Proposed Reporting Requirements

Notice is hereby given that the Bureau of Economic Analysis proposes to amend its rules to include within the reporting requirements of 15 CFR Part 803, certain foreign business enterprises owned by U.S. persons and U.S. business enterprises owned by foreign persons where the parent's investment is less than $2,000,000 on January 1 of any calendar year, but subsequently exceeds that amount. The Bureau of Economic Analysis also proposes to change the level of ownership at which a U.S. company is considered foreign-owned, and, therefore, required to report from the present 25 percent to 10 percent. This is consistent with a recent Office of Management and Budget Balance of Payments Statistics Review Committee decision. These data are collected under the authority of the Bretton Woods Agreements Act (Title 22, United States Code, Section 286). It is proposed that these changes be made retroactive to January 1, 1975, in order to provide consistent data throughout the calendar year.

The proposed rules do not fall within the criteria set forth in the draft Department Administrative Order relating to the Inflationary Impact Statement required by Office of Management and Budget Circular No. A–107.

Interested persons are invited to participate in this proposed rulemaking by submitting such written data, views or statements as they may desire to: Chief, International Investment Division, Bureau of Economic Analysis, BE–50, U.S. Department of Commerce, Washington, D.C. 20230. Comments received on or before May 1, 1975, will be considered before final action is taken on this proposal. All comments received in response to this proposal will be available for public inspection during normal business hours at the office of the Chief, International Investment Division, Room 608, Tower Building, 1401 K St., NW., Washington, D.C.

It is, therefore, proposed to amend 15 CFR Part 803, as follows:

§ 803.1 Who must report.

* * * * *

(b) *Foreign business investment in the United States*—(1) *Basic requirement.* A report is required to be filed with respect to every business enterprise subject to the jurisdiction of the United States in which foreign persons, either as individuals or as affiliates hold a 10 percent or more ownership interest, or which is owned in a manner indicated in subparagraph (2) of this paragraph directly or indirectly by a foreign person or persons. Such business enterprises shall include, but not be limited to, corporations, partnerships, investments in real property, leaseholds, estates, trusts, and sole proprietorships or other forms of outright individual ownership.

(2) *Foreign beneficial interest.* If the foreign-owned interest in a United States business enterprise, including commercial real property, is held, exercised or administered by a United States estate, trust (including irrevocable trusts), nominee, agent, representative, custodian, or other intermediary of the foreign beneficial owners, such intermediary shall be responsible for reporting for the business enterprise the required information on Form BE–605, BE–606, BE–606B or BE–606I, or shall instruct the United States business enterprise in question to submit the required information. This does not relieve the United States business enterprise of responsibility for reporting if such business enterprise has knowledge of the direct or indirect foreign-owned interest, but only one report should be filed for each such enterprise. For the purposes of this report, accounts or transactions of a United States business enterprise with a United States estate, trust, nominee or other intermediary of foreign beneficial owners shall be considered as accounts or transactions with beneficial owners.

(3) *Insurance companies.* Reports for U.S. branches or subsidiaries of foreign insurance companies are required on Form BE–606I.

(4) *Consolidated reports.* If a reporter held a 10 percent or more ownership interest in other United States enterprises engaged in the same type of business and is required to report, the information requested in the reporting forms may be consolidated for such reporter and enterprises, provided all accounts are fully consolidated. A list of the enterprises included in the consolidations must be provided.

* * * * *

§ 803.2 Forms to be used and frequency of reports.

(a) *Each reporter is required to submit reports on the following forms as applicable.* * * *

(2) Foreign direct investments in the United States.

Form BE–605. One Form BE–606 is to be filed quarterly for each United States corporation 10 percent or more of whose voting stock is owned directly or indirectly by a foreign person(s) or organization(s) and its United States or foreign affiliates.

* * * * *

Form BE–606I. One Form BE–606I is to be filed annually for each United States branch of a foreign insurance firm, or for United States insurance companies 10 percent or more of whose voting stock is held by foreign owners.

* * * * *

§ 803.4 Exemptions.

(a) *United States direct investments abroad*—(1) *Exemption based on value of property.* A reporter whose investment in foreign countries, at any time during the reporting period, exceeds an aggregate value of $2,000,000 based on the value of holdings of securities, equity in surplus accounts, and intercompany indebtedness or net branch investment in foreign countries, unless otherwise exempt from reporting, is required to report. Value is to be determined by the book value as carried on the books of the foreign organization converted into United States dollars. Reports for individual foreign subsidiaries, affiliates, or branches (other than banks) which are inactive, or have a book value which at no time during the reporting period exceeds $25,000, can be omitted with a note to that effect. For foreign branches of banks, reports are required if either (i) the book value exceeds $25,000 or (ii) the total assets exceed $2,000,000.

* * * * *

V 40 63
APR 1 75

(b) *Foreign direct investments in the United States*—(1) *Exemption based on value.* If the value of a foreign-owned U.S. business organization exceeds $2,000,000 at any time during the reporting period, the business organization is required to report. Otherwise, the business organization (other than a U.S. branch or agency of a foreign bank) is not required to report. The value is to be determined by the book value of the foreign owner's holdings in the securities, surplus accounts, and liability accounts of the reporter. For banks, reports are required if total assets exceed $3,000,000.

* * * * *

§ 803.5 General definitions.

For the purpose of these reports, the following definitions are prescribed:

* * * * *

(g) *Parent.* Parent shall mean any person or affiliated group of persons directly owning 10 percent or more of the voting securities of a corporation or of other ownership equities in other types of organizations. In some cases, there may be more than one parent.

* * * * *

GEORGE JASZI,
Director,
Bureau of Economic Analysis.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 117]

[CGD 75 060]

ILLINOIS RIVER, ILLINOIS

Proposed Drawbridge Operation Regulations

The Burlington Northern Railroad bridge at Beardstown, Illinois was declared an unreasonable obstruction to navigation by the Commandant, U.S. Coast Guard on 22 November 1968, and an Order to Alter the bridge was issued on 4 December 1968. The old drawbridge was required to be opened on signal.

The altered bridge is now operated from a remote location with a radar detection system. The lift span is kept in the raised position, open to navigation. A draw tender will not be located on the bridge. This arrangement will allow river traffic to flow freely until rail passage is required, at which time warning signals will be displayed and the span automatically lowered for rail traffic. It will not be necessary to monitor river traffic for opening the span for vessels, but rather to check only when a closing for rail traffic is required. When lowering of the span is required, the operator at the Burlington Northern Railroad yard at Beardstown, Illinois, will monitor the radar detection system to determine if vessels are near the bridge.

In view of the above, the Coast Guard is considering amending the regulations for this bridge to reflect the current operations.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Second Coast Guard District, Federal Building, 1520 Market Street, St. Louis, Missouri 63103. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Second Coast Guard District.

The Commander, Second Coast Guard District, will forward any comments received before May 6, 1975, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by adding a new § 117.604 immediately prior to § 117.605 to read as follows:

§ 117.604 Illinois River—automated Burlington Northern Railroad Bridge at Beardstown, Illinois.

(a) The draw of the Burlington Northern Railroad Bridge, Mile 83.8, at Beardstown, Illinois, will normally be maintained in the open position providing a minimum vertical clearance of 68.4 feet above normal pool.

(1) When a train approaches the bridge, red flashing lights attached to the bridge begin to flash and an audible signal on the bridge is sounded. If vessels are in the area or there is obstruction beneath the span, flashing amber lights are turned on and the draw raised to its fully open position. However, if there are no vessels or obstructions observed in the area, flashing red lights will remain on and the draw will be lowered and locked.

(2) After the train has cleared the bridge, the draw will be raised to its full height; the red flashing lights will be stopped and drawspan lights changed from red to green indicating the navigation channel is open for the passage of vessels.

(b) When the lift span is in the closed position and cannot be opened immediately, flashing red lights are turned on after acknowledging flashing amber signals are turned off.

(c) Radiotelephone communication may also be used to advise vessels regarding opening the bridge. These communications are available either on channel 14 or channel 16.

(d) The owner of or agency controlling the bridge shall keep the provisions of this regulation conspicuously posted on both the upstream and downstream sides of the bridge.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4)).

Dated: March 24, 1975.

W. E. CALDWELL,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.

[FR Doc.75-8370 Filed 3-31-75;8:45 am]

[33 CFR Part 117]

[CGD 75 061]

KENT NARROWS, MARYLAND

Proposed Drawbridge Operation Regulations

At the request of the Maryland State Highway Department, the Coast Guard is considering revising the regulations for the drawbridge across Kent Island Narrows to extend the periods during which the draw may remain closed to navigation. The draw is presently required to open on signal from one hour before sunrise to one hour after sunset. This change is being considered because of extremely heavy vehicular traffic on Friday afternoons, Saturdays, Sundays and holidays from Memorial Day through Labor Day. This traffic is traveling to and from the Atlantic Ocean Beaches in Delaware, Maryland and Virginia. It is proposed that the draw open on signal from 6 a.m. to 6 p.m. from October 1 through April 30 and from 6 a.m. to 9 p.m. from May 1 through September 30, Monday through Thursday, except holidays; on Fridays, Saturdays, Sundays and holidays the draw shall open on signal from 6 a.m. to 10 a.m. and from 6 p.m. to 9 p.m., however, the draw shall open at 12 noon, 2 p.m., 4 p.m. and 6 p.m. if any vessels are waiting to pass. This proposal is the result of a two year study by the State of Maryland and the Coast Guard and it is felt will most nearly meet the reasonable needs of both modes of transportation without unduly penalizing either.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Fifth Coast Guard District, Federal Building, 431 Crawford Street, Portsmouth, Virginia 23705. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Fifth Coast Guard District.

The Commander, Fifth Coast Guard District, will forward any comments received before May 6, 1975, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by revising § 117.290 to read as follows:

§ 117.290 Highway drawbridge, Kent Island Narrows, Md.

(a) From October 1 through April 30 from 6 a.m. to 6 p.m. the draw shall open on signal. The draw need not open from 6 p.m. to 6 a.m.

(b) From May 1 through September 30:

(1) From 6 a.m. to 9 p.m., Monday through Thursday, except Memorial Day, Independence Day and Labor Day, the draw shall open on signal;

(2) On Fridays, Saturdays, Sundays, Memorial Day, Independence Day and Labor Day, the draw shall open on signal from 6 a.m. to 10 a.m. and from 8 p.m. to 9 p.m.; however, the draw shall open at 12 noon, 2 p.m., 4 p.m., and 6 p.m., if any vessels are waiting to pass.

(3) The draw need not open from 9 p.m. to 6 a.m.

(c) Public vessels of the United States or State or local vessels, on public safety missions shall be passed at any time. The opening signal from these vessels is four blasts of a whistle or horn. The opening signal from all other vessels is one long blast followed by one short blast.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4)).

Dated: March 26, 1975.

W. E. CALDWELL,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.

FEDERAL ENERGY ADMINISTRATION

[10 CFR Parts 205, 211]

CHANGED CIRCUMSTANCES ADJUSTMENTS AS GRANTED TO CERTAIN FEA REGION VIII WHOLESALE PURCHASERS

Issuance of Decision and Order

On February 5, 1975, the Federal Energy Administration issued a notice of proposal to issue a decision and order (40 FR 6371, February 11, 1975) granting exception relief to certain wholesale purchasers which are located in the States of Montana, Wyoming, North Dakota, South Dakota, Colorado and Utah, and which applied for adjustments to base period use based upon changed circumstances prior to October 15, 1974, and which received such an adjustment for periods of less than a calendar year. The proposed exception relief was in response to an application for exception filed January 27, 1975, by the Continental Oil Company on behalf of 265 of its wholesale purchasers as well as any other wholesale purchaser similarly situated. Comments were invited through February 21, 1975, from interested parties upon the proposed decision and order.

Notice is hereby given that the decision and order set forth below was issued March 10, 1975, by FEA's Office of Exceptions and Appeals. The basis for the exception relief is set forth in the decision and order.

Issued in Washington, D.C., March 26, 1975.

ROBERT E. MONTGOMERY, Jr.,
General Counsel.

DECISION AND ORDER OF THE FEDERAL ENERGY ADMINISTRATION

EXCEPTION

Name of Petitioner: Continental Oil Company.

Date of filing: January 27, 1975.

Case Number: FEE-08-060.

The Office of Exceptions and Appeals has received an application for exception filed by the Continental Oil Company (Continental) on behalf of its 265 wholesale purchasers, and all other similarly situated wholesale purchaser-consumers located in the States of Montana, Wyoming, North Dakota, South Dakota, Colorado and Utah, which submitted to FEA Region VIII applications for adjustments to base period use pursuant to former § 211.13(c) of the Mandatory Petroleum Allocation Regulations and which received adjustments which were made applicable to only part of the wholesale purchaser's calendar year. Continental contends that the practice followed by Region VIII of granting adjustments for less than a calendar year is an erroneous application of § 211.13(c), and differed substantially from the practice adhered to by other FEA Regional Offices, and that based on this difference in practice, a gross inequity exists with respect to the entire class of wholesale purchasers in FEA Region VIII and that appropriate exception relief should be granted from the operation of § 211.13(c) as applied by Region VIII.

Generally, the Mandatory Petroleum Allocation Regulations provide that a wholesale purchaser of an allocated product may purchase volumes of the product from its supplier(s) based upon the volumes of the product purchased from the supplier(s) during a prior base period. The base periods specified for most refined petroleum products are certain time periods of 1972. For example, the base period for motor gasoline, diesel fuel and home heating oil is the month of 1972 which corresponds to the current month. FEA's regulations recognized, however, that in some cases changes affecting a firm's use of an allocated product had occurred since a particular base period making it inappropriate to use the volume of fuel purchased during the base period to determine the firm's current allocation. A regulatory procedure was therefore established under which a wholesale purchaser could apply for an "adjustment" to its base period volume. In this connection § 211.13(c), which was applicable during most of 1974, stated in part that:

(1) *Wholesale purchasers.* Wholesale purchasers may apply to the FEA pursuant to Subpart B of Part 205 of this chapter for adjustments to their base period use for changed circumstances since January 1, 1973, which have not been reflected in an adjustment under paragraph (b) of this section.

On October 15, 1974, § 211.13(c) was deleted and § 211.13(e) was added to provide that future applications based upon "changed circumstances" would be received only as applications for exceptions and would be approved in accordance with the exceptions standards of a serious hardship or gross inequity.

During the period of time in which adjustments to base period volumes were made under the authority of § 211.13(c), the typical practice of FEA Regional Offices, other than the Region VIII Office, was to adjust the base period volume of each wholesale purchaser for all base periods within an entire calendar year. Thus, if an application submitted by a wholesale purchaser-reseller of motor gasoline for adjustment of its base period volume were approved, each of the twelve monthly base period volumes would be adjusted based upon the finding made by the FEA Regional Office.

The practice of officials in FEA Region VIII was considerably different. The same type of application described above would, if approved in FEA Region VIII, result in adjustments for only the base periods remaining in the calendar year. Thus, if an application for an adjustment to base period volumes was approved in the Region VIII Office in June, the adjustments would be made only for the calendar months of June through December. The purchaser's base period volume for the months of January through May would not have been adjusted.

As a result of this situation, wholesale purchasers in FEA Region VIII have been placed in a position which is substantially different from that of wholesale purchasers in all other regions of the country. In the event that their supplies of allocated products are inadequate for periods corresponding to base periods of the calendar year which were not adjusted by the Regional Office, purchasers in Region VIII would be required to seek supplies of surplus product, which may be difficult to locate, in order to replace the volumes which would otherwise have been the adjusted amounts. Wholesale purchasers in other regions would not encounter this situation since each of their base period volumes within a calendar year was adjusted. Thus, their increased base period volumes would have the effect of drawing a larger portion of allocable supplies into their region than would be the case if Region VIII had made § 211.13(c) adjustments for an entire year. The burden which wholesale purchasers in Region VIII are likely to encounter in locating sufficient supplies of surplus product could be very substantial. On the other hand, base period suppliers of the Region VIII purchasers involved are significantly benefited, because they are not required to use the purchaser's higher adjusted base period volumes in calculating their supply obligations for those periods corresponding to a based period which Region VIII failed to adjust.

In a number of previous decisions the FEA has recognized that when the burden involved in meeting the nation's energy problems fall in a substantial and disproportionate manner on a particular firm, the resultant inequitable distribution of burdens can in appropriate circumstances constitute a gross inequity which warrants exception relief. See, Butler Aviation International, Inc., Fed. Energy Guidelines, Par. 20,685 (October 25, 1974) and Gulf Energy and Development Corp., Fed. Energy Guidelines, Par. 20,689 (October 25, 1974).

The same principle would also apply to a well-defined class. Based on the facts set forth above, the Federal Energy Administration has concluded that wholesale purchasers which are located in Region VIII and which received an adjustment to base period use based upon changed circumstances for only a portion of a calendar year are subject to substantial and disproportionate burdens which constitute a gross inequity and justify exception relief.

The exception relief granted should be designed to correct the gross inequity by placing suppliers and wholesale purchasers in Region VIII in the same basic posture as suppliers and wholesale purchasers in all other regions in the United States. The

V 40 63
APR 1 75

further determination has been made that this result can be best achieved by adjusting the base period use for each unadjusted base period volume by a fraction calculated by dividing the wholesale purchaser's base period use, as adjusted, for all base periods for which adjustments were granted pursuant to § 211.13(c) by the wholesale purchaser's base period volume, prior to any adjustment, for all those periods for which such adjustments were granted.

It is therefore ordered, That: (1) Subject to the provisions of paragraphs (2) and (3) below, the class to which the exception relief set forth below applies are those wholesale purchasers which:

(a) are located in the States of Colorado, Montana, North Dakota, South Dakota, Utah and Wyoming;

(b) filed an application with the FEA Regional Office VIII on or before October 15, 1974, requesting an adjustment to its base period volume pursuant to the provisions of 10 CFR 211.13(c); and

(c) received an order issued by FEA Regional Office VIII dated on or before October 15, 1974, which approved an adjustment to the wholesale purchaser's base period volume pursuant to the provisions of 10 CFR 211.13 (c) for a period of less than 12 consecutive months.

(2) The exception relief set forth below shall not apply in any situation in which a request for adjustment submitted by a wholesale purchaser was expressly denied and no adjustment was made.

(3) The exception relief set forth below shall not apply in any situation in which a request for adjustment submitted by a wholesale purchaser was specifically granted only on an interim basis.

(4) Effective March 1, 1975 the adjusted base period volume of each member of the class set forth above is hereby adjusted by the application of the fraction set forth below to the base period volume of each allocated product supplied to each member of the class. The following fraction shall be applied to each base period within the calendar year which has not otherwise been adjusted by the FEA Region Office VIII:

The wholesale purchaser's base period use, as adjusted, for all base periods for which adjustments were granted pursuant to § 211.13(c), divided by the wholesale purchaser's base period volume, prior to any adjustment, for all base periods for which adjustments were granted pursuant to § 211.13(c).

(5) In accordance with the provisions of 10 CFR Part 205, an aggrieved party may file an appeal from this Decision and Order with the Federal Energy Administration. The provisions of 10 CFR Part 205, Subpart H, set forth the procedures and criteria which govern the filing and determination of any such appeal.

Dated: March 10, 1975.

MELVIN GOLDSTEIN,
Director, Office of Exceptions and Appeals.

[Docket No. RM75-18]

ACCOUNTS AND REPORTS

Construction Work in Progress; Further Extension of Time

MARCH 25, 1975.

Amendments to uniform systems of accounts for public utilities and licensees and for Natural Gas Companies (Classes A, B, C and D) and to regulations Under the Federal Power Act and the Natural Gas Act, to provide for inclusion of construction work in progress in rate base.

On March 19, 1975, the American Public Power Association and the Power Section, Georgia Municipal Association filed motions to extend the time for filing comments to this rulemaking noticed November 14, 1974,[1] in the above-designated matter. A previous extension of time was granted by notice issued December 13, 1974. On March 21, 1975, Consolidated Gas Supply Corporation filed a response in opposition to the above motions.

Upon consideration, notice is hereby given that the time for filing comments in the above matter is extended to and including April 15, 1975.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-6360 Filed 3-31-75;8:45 am]

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 107]

SMALL BUSINESS INVESTMENT COMPANIES

Prohibited Use of Funds

Notice is hereby given that pursuant to authority contained in section 308 of the Small Business Investment Act of 1958, 15 U.S.C. 661 et seq., as amended, it is proposed to amend, as set forth below, § 107.1001(a), Part 107 of Chapter I, Title 13 of the Code of Federal Regulations.

Prior to final adoption of such amendment, consideration will be given to any comments. Such comments should be submitted in writing, in triplicate, to the Investment Division, Small Business Administration, Washington, D.C. 20416, on or before May 1, 1975.

Information. The proposed revision of § 107.1001(a) would liberalize the prohibition against financing for relending or reinvestment. As proposed to be amended, this regulation would permit Venture Capital financing of Disadvantaged Concerns engaged in lending and relending except for banks and savings and loan associations that are not federally insured, and agricultural credit companies. The present restriction that such Disadvantaged Concerns must be organized for less than 5 years, has been deleted.

The most critical problem facing Disadvantaged Concerns engaged in relending and reinvesting is the lack of adequate capital. As a result, their involvement in the economic development effort in their community is seriously restricted.

It is hoped that the liberalization of the prohibition against financing for relending and reinvestment will increase the lending activity of Disadvantaged financial institutions to socially and economically disadvantaged businesses directly as well as in participation with the Small Business Administration under the guaranteed loan program.

The regulation, as proposed to be amended, continues the prohibition for banks and savings and loan associations that are not federally insured, and agricultural credit companies.

In addition, without SBA's prior approval, the total financings permitted under the liberalised regulation may not exceed a licensee's private capital as of the close of any full fiscal year.

As amended, § 107.1001(a) will read as follows:

§ 107.1001 Prohibited uses of funds.

No funds may be provided to a Small Concern:

(a) *Relending, reinvesting, etc.* For relending or reinvesting, if its primary business activity involves, directly or indirectly, providing funds to others, the purchase of debt obligations, factoring, or long-term leasing of equipment with no provision for maintenance or repair: *Provided, however*, That Venture Capital Financing (as defined in § 107.202(b)) of any Disadvantaged Concern engaged primarily in relending or reinvesting activities shall be permitted, except for banks and savings and loan associations not insured by agencies of the Federal Government, and agricultural credit companies. Without SBA's prior written approval, all Financings pursuant to this proviso shall not exceed the Licensee's Private Capital as of the close of any full fiscal year.

DEPARTMENT OF STATE

[Public Notice CM-5130]

STUDY GROUP 5 OF THE NATIONAL COMMITTEE FOR THE INTERNATIONAL TELEGRAPH AND TELEPHONE CONSULTATIVE COMMITTEE (CCITT)

Meeting

The Department of State announces that Study Group 5 of the U.S. CCITT National Committee will meet on April 29, 1975, at 10:30 a.m. in Room 6802, U.S. Department of Commerce, 14th Street NW., Washington, D.C. This Study Group deals with matters in telecommunications relating to the development of the international digital data transmission services.

The agenda of the February 6 meeting will include consideration of the following:

1. Planned attendance for the meetings of CCITT Special Study Group A May 20–27, 1975, and Study Group VII of May 28–June 6, 1975.
2. Final review of contributions to the above meetings.
3. Reports of meetings of Rapporteur Groups on 9600 bps modems and on Packet Switching.
4. Other business.

Members of the general public who desire to attend the meeting on April 28 will be admitted up to the limit of the capacity of the meeting room.

RICHARD T. BLACK,
Chairman,
U.S. National Committee.

Air Force

AIR FORCE ACADEMY BOARD OF VISITORS

Meeting

MARCH 26, 1975.

The Air Force Board of Visitors will hold a meeting at the Air Force Academy, Colorado Springs, Colorado, on April 16–20, 1975. This meeting will fulfill the requirements of 10 U.S.C. 9355(d) for the Board to meet at the Academy annually to inquire into matters of morale, discipline, curriculum, instruction, physical equipment, fiscal affairs, academic matters and other matters relating to the Academy which the Board decides to consider.

The portions of this meeting which are open to the public are as follows:

April 17, 1975, 9:30 a.m.–10:40 a.m.
April 18, 1975, 9 a.m.–11:20 a.m.

These open sessions will be in the Academy Superintendent's Conference Room, Harmon Halle. Military/Academic balance, selection of the Class of 1979, results of the GAO costing study, cadet wing leadership, and basic training are among the topics on the tentative agenda during the open session.

The remainder of the meeting will consist of matters listed in 5 U.S.C. 552(b)(2), (5), and (6); and, therefore, is closed to the public. The closed portions of the meeting will pertain to internal Academy policies procedures, and personnel matters.

For further information, contact Air Force Academy Activities Group, Headquarters United States Air Force, Washington, D.C. 20330, 202–697–7116.

MILITARY AIRLIFT COMMITTEE OF THE NATIONAL DEFENSE TRANSPORTATION ASSOCIATION

Meeting

MARCH 26, 1975.

The NDTA Military Airlift Committee, serving as an industry advisory committee, will hold a meeting at Travis Air Force Base, California. The dates, times, and tentative agenda are as follows:

MAY 6, 1975 (P.M.)

1—Meeting convenes.
1:15—Special guest speaker.
2—Special handling arrangements—wide-bodied aircraft in MAC operations.
2:30—Generation and visibility of cargo through the MAC CONUS aerial port.
3—Break.
3:15—Container, terminal handling and loading systems.
4—Adjournment.

MAY 9, 1975 (A.M.)

8:30—Meeting reconvenes.
8:35—Project INTACT air cargo loading demonstration.
9:05—Cargo handling developments.
9:35—Ground support systems.
10:05—Break.
10:15—Travis air cargo terminal briefing.
10:30—Tour of air cargo terminal.
12—Adjournment.

The meeting is open to the public; however, the public may not participate in the proceedings or question the briefers and committee members. If an individual wishes to make a formal oral statement germane to the meeting, he may submit a formal application, including the substance of the statement, in advance of the meeting, to the Commander, Military Airlift Command, attention Executive Agent, Military Airlift Committee, Scott Air Force Base, Illinois 62225. Formal written statements may be submitted to the Commander at any time before or after the meeting.

For additional information concerning this meeting, contact Colonel E. Scott Minnich at 618–256–3025.

Law Enforcement Assistance Administration

NATIONAL ADVISORY COMMITTEE ON CRIMINAL JUSTICE STANDARDS AND GOALS

Establishment

In order to assist state and local governments in their efforts to reduce crime and improve the criminal justice system by means of developing standards and goals which will provide those governmental entities with guidance and direction in those efforts, the Law Enforcement Assistance Administration hereby determines that it is in the public's interest and appropriate and consistent with the purposes of the Crime Control Act of 1973, Pub. L. 93-83 to establish the National Advisory Committee on Criminal Justice Standards and Goals. Accordingly, the Administration hereby establishes the National Advisory Committee on Criminal Justice Standards and Goals in accordance with the provisions of the Federal Advisory Committee Act, Pub. L. 92-463.

1. *Designation.* The Committee shall be known as the National Advisory Committee on Criminal Justice Standards and Goals.

2. *Purpose.* The responsibilities of the Committee will be advisory in nature. Specifically, the Committee will be developing standards and goals in five functional areas—Juvenile Delinquency, Research and Development, Organized Crime, Civil Disorders and Terrorism, and Private Security. These standards and goals which are advisory and primarily directed to the state and local government officials will be published in five separate volumes through LEAA and the Government Printing Office.

3. *Establishment Date and Termination Date.* The Committee will be established 15 days after publication of this notice in the Federal Register at which time the Committee's Charter will be filed with the Senate Committee on Judiciary, House Committee on Judiciary, and the Library of Congress as required by Pub. L. 93-463. The Committee will terminate no later than two years from that date.

4. *Meetings.* The Committee and subordinate task forces will meet quarterly or as required to carry out its purpose and fulfill its duties.

5. *Membership.* Membership of the Committee will consist of prominent state and local officials, representatives of the private sector and academic community and representatives of the general public not necessarily identified with any of the foregoing described functional areas of interest to the Committee. The membership reflects as much balance in geographic, minority group, female, youth, professional, consumer, state and local government and other representation as the LEAA program officials aware of the functional areas being advised by this Committee believe can be reasonably achieved at this time in the circumstances under which its operations are required without impairing the effectiveness of the Committee or significantly reducing the quality of its expertise.

6. *Designated Federal Employee.* Mr. William T. Archey, Acting Director, Policy Analysis Division, Office of Planning and Management, is designated as the LEAA employee to fulfill the duties as required by Pub. L. 92-463 and OMB Circular No. A-63.

7. The Committee will operate pursuant to the provisions of the Federal Advisory Committee Act, Pub. L. 92-463, OMB Circular No. A-63 and any additional orders and directives issued in implementation of the Act.

RICHARD W. VELDE,
Administrator.

National Park Service

CHESAPEAKE AND OHIO CANAL NATIONAL HISTORICAL PARK

General Plan; Hearings

Notice is hereby given that the National Park Service will hold a series of public hearings at the times and places listed below to receive comments from interested persons, organizations, and agencies on an environmental assessment for the proposed general plan for the development and management of the Chesapeake and Ohio Canal National Historical Park. This historical park is located in Allegany, Washington, Frederick and Montgomery Counties, Maryland, and in the District of Columbia. Hearings will be held in each of these jurisdictions as follows:

Wednesday, May 7, 1975, 8 p.m., Town Hall, Cumberland, Maryland.
Wednesday, May 14, 1975, 8 p.m., Visitor Center, Antietam National Battlefield Park, Sharpsburg, Maryland.
Wednesday, May 21, 1975, 8 p.m., Town Hall, Brunswick, Maryland.
Wednesday, May 28, 1975, 8 p.m., Town Hall, Glen Echo, Maryland.
Wednesday, June 4, 1975, 8 p.m., Palisades Field House, Dana and Sherrier Place, NW., Washington, D.C.

A copy of the environmental assessment may be obtained from the Superintendent, Chesapeake and Ohio Canal National Historical Park, P.O. Box 158, Sharpsburg, Maryland 21782, or from Room 208 of the National Capital Parks Headquarters building at 1100 Ohio Drive, SW., Washington, D.C. 20242.

Interested individuals, representatives of organizations, and public officials are invited to express their views in person at the aforementioned meetings. Registration for those who wish to present prepared testimony will occur at the hearing. It is requested that a copy of the testimony be made available for the transcriber of the hearings.

Time limitations may make it necessary to limit the length of oral presentations to five minutes and to restrict to one person, the presentation made in behalf of an organization. An oral statement may, however, be supplemented by a more complete written statement which may be submitted to the Hearing Officer at the time of presentation of the oral statement. Written statements presented in person at the hearing will be considered for inclusion in the transcribed hearing record.

After presentation of oral statements by those who have registered, the Hearing Officer will give others present an opportunity to be heard.

Those not wishing to appear in person may submit written statements on the assessment for inclusion in the official record. Following the final public hearing, the hearing record will be held open until July 7 for receipt of written statements to be included in the record. All comments should be addressed to Mr. John G. Parsons, Chief, Planning Coordination, National Capital Parks, 1100 Ohio Drive, SW., Washington, D.C. 20242

Dated: March 19, 1975.

MANUS J. FISH, Jr.,
Director, National Capital Parks.

DANNY STAPLES

Intention To Issue Concession Permit

Pursuant to the provisions of section 5 of the Act of October 9, 1965 (79 Stat. 969; (16 U.S.C. 20)), public notice is hereby given that on May 1, 1975, the Department of the Interior, through the Superintendent, Ozark National Scenic Riverways, proposes to issue a concession permit to Danny Staples, authorizing him to provide concession facilities and service for the public at Ozark National Scenic Riverways for a period of five (5) years from April 16, 1975 through April 15, 1980.

An assessment of the environmental impact of this proposed action has been made and it has been determined that it will not significantly affect the quality of the human environment, and that it is not a major Federal action under the National Environmental Policy Act and the guidelines of the Council on Environmental Quality. The environmental assessment may be reviewed in the Midwest Regional Office, National Park Service, 1709 Jackson Street, Omaha, Nebraska and the Headquarters of the Ozark National Scenic Riverways, Van Buren, Missouri.

The foregoing concessioner has performed his obligations under the expired permit to the satisfaction of the National Park Service, and therefore, pursuant to the Act cited above, is entitled to be given preference in the renewal of the permit and in negotiation of a new contract. However, under the Act cited above, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before May 1, 1975.

Interested parties should contact the Superintendent, Ozark National Scenic Riverways, for information as to the requirements of the proposed permit.

RANDALL R. POPE,
Superintendent.

FEBRUARY 24, 1975.

INDIANA DUNES NATIONAL LAKESHORE ADVISORY COMMISSION

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Indiana Dunes National Lakeshore Advisory Commission will be held at 9 a.m., c.s.t., on Wednesday, April 16, 1975, at the Portage City Council Chambers, Portage City Hall, 2nd Floor, 6070 Central Avenue, Portage, Indiana 46368.

The purpose of the Advisory Commission is to consult with the Secretary of the Interior on general policies and specific matters relating to the administration and development of the Indiana Dunes National Lakeshore.

The members of the Advisory Commission are as follows:

Mr. William L. Lieber, Indianapolis, Indiana (Chairman)
Mr. Harry W. Frey, Michigan City, Indiana
Mrs. Ione T. Harrington, Chesterton, Indiana
Mr. John A. Hillenbrand, II, Batesville, Indiana
Mr. James Martin, Beverly Shores, Indiana
Mr. Harold G. Rudd, Portage, Indiana
Mr. John R. Schnurlein, Valparaiso, Indiana.
Mr. William L. Staehle, Gary, Indiana (Consultant)

The purpose of the meeting is to discuss and formulate a position on pending legislation relating to the enlargement of the Indiana Dunes National Lakeshore.

The meeting will be open to the public. However, space is limited, and it is expected that approximately 90 people will be able to attend the meeting. Any person may file a written statement concerning the matters to be discussed.

Persons wishing further information concerning the meeting, or who wish to submit written statements, may contact James R. Whitehouse, Superintendent, Indiana Dunes National Lakeshore, Route 2, Box 139A, Chesterton, Indiana 46304 (Telephone: 219-926-7561).

Minutes of the meeting will be available for public inspection approximately 3 weeks after the meeting at the Superintendent's Office, located at the intersection of State Park Road and U.S. Highway 12 in Chesterton.

Dated: March 26, 1975.

ROBERT M. LANDAU,
Deputy Associate Director, Legislation.

NATIONAL REGISTER OF HISTORIC PLACES

Additions, Deletions, and Corrections

By notice in the FEDERAL REGISTER of February 4, 1975, Part II, there was published a list of the properties included in the National Register of Historic Places. Further notice is hereby given that certain amendments or revisions in the nature of additions, deletions, or corrections to the previously published list are adopted as set out below.

It is the responsibility of all Federal agencies to take cognizance of the properties included in the National Register as herein amended and revised in accordance with section 106 of the National Historic Preservation Act of 1966, 80 Stat. 915, 16 C.S.C. 470 et seq. (1970 ed.), and the procedures of the Advisory Council on Historic Preservation, 36 C.F.R. Part 800.

The following properties have been added to the National Register since December 31, 1974. National Historic Landmarks are designated by NHL; properties recorded by Historic American Buildings Survey are designated by HABS; properties recorded by Historic American Engineering Record are designated by HAER.

ALABAMA

Clarke County

Grove Hill vicinity, *Fort Sinquefield*, SE of Grove Hill off AL 12 (12-31-74).

The following properties have been determined to be eligible for inclusion in the National Register. All determinations of eligibility are made at the request of the concerned Federal Agency under the authorities in section 2(b) and 1(3) of Executive Order 11593 as implemented by the Advisory Council on Historic Preservation, 36 C.F.R. Part 800. This listing is not complete. Pursuant to the authorities discussed herein, an Agency Official shall refer any questionable actions to the Director, Office of Archeology and Historic Preservation, National Park Service, Department of the Interior, for an opinion respecting a property's eligibility for inclusion in the National Register.

Historical properties which are determined to be eligible for inclusion in the National Register of Historic Places are entitled to protection pursuant to the procedures of the Advisory Council on Historic Preservation, 36 C.F.R. Part 800. Agencies are advised that in accord with the procedures of the Advisory Council on Historic Preservation, before an agency of the Federal Government may undertake any project which may have

V 40 163 APR 175

an effect on such a property, the Advisory Council on Historic Preservation shall be given an opportunity to comment on the proposal.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[Marketing Order No. 905]

SHIPPERS ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of sec. 10(a)(2) of the Federal Advisory Committee Act (86 Stat. 770), notice is hereby given of a meeting of the Shippers Advisory Committee established under Marketing Order No. 905 (7 CFR Part 905). This order regulates the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida and is effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The committee will meet in the A. B. Michael Auditorium of the Florida Citrus Mutual Building, 302 South Massachusetts Avenue, Lakeland, Florida, at 10:30 a.m., on April 15 ,1975.

The meeting will be open to the public and a brief period will be set aside for public comments and questions. The agenda of the committee includes analysis of current information concerning market supply and demand factors, and consideration of recommendations for regulation of shipments of the named fruits.

The names of committee members, agenda, and other information pertaining to the meeting may be obtained from Frank D. Trovillion, Manager, Growers Administrative Committee, PO. Box R, Lakeland, Florida 33802; telephone 813–682–3103.

Dated: March 27, 1975.

JOHN C. BLUM,
Associate Administrator.

Farmers Home Administration

[Designation Number A173]

GEORGIA

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in Georgia:

Telfair Wheeler

The Secretary has found that this need exists as a result of a natural disaster consisting of drought June 1 to July 20, 1974.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93–237, and the provisions of 7 CFR 1832.3(b) including the recommendation of former Governor Jimmy Carter that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 19, 1975, for physical losses and December 19, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 26th day of March, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.75-8390 Filed 3-31-75;8:45 am]

[Designation Number A174]

KANSAS

Designation of Emergency Area

The Secretary of Agriculture has found that a general need for agricultural credit exists in Atchison County, Kansas, as a result of a natural disaster consisting of drought from July 15 through August 15, 1974.

Therefore, the Secretary has designated this area as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93–237, and the provisions of 7 CFR 1832.3 (b) including the recommendation of former Governor Robert B. Docking that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 19, 1975, for physical losses and December 19, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 26th day of March, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.75-8391 Filed 3-31-75;8:45 am]

[Designation Number A176]

NEBRASKA

Designation of Emergency Area

The Secretary of Agriculture has found that a general need for agricultural credit exists in Brown County, Nebraska, as a result of a natural disaster consisting of drought June 1 to September 9, 1974.

Therefore, the Secretary has designated this area as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93–237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor J. James Exon that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 19, 1975, for physical losses and December 19, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 26th day of March, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.75-8392 Filed 3-31-75;8:45 am]

[Designation Number A175]

NORTH CAROLINA

Designation of Emergency Area

The Secretary of Agriculture has found that a general need for agricultural credit exists in Surry County, North Carolina, as a result of a natural disaster consisting of an early frost and freeze October 2 and 3, 1974.

Therefore, the Secretary has designated this area as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93–237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor James E. Holshouser, Jr., that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 19, 1975, for physical losses and December 19, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans

V 40 163 APR 175

in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 26th day of March, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.75-8309 Filed 3-31-75;8:45 am]

[Designation Number A177]

SOUTH DAKOTA

Designation of Emergency Area

The Secretary of Agriculture has found that a general need for agricultural credit exists in Sanborn County, South Dakota, as a result of a natural disaster consisting of drought June 1 through October 29, 1974, frost September 4, 1974, and a blizzard January 10 and 11, 1975.

Therefore, the Secretary has designated this area as eligible for emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Richard F. Kneip that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 19, 1975, for physical losses and December 19, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 26th day of March, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.75-8304 Filed 3-31-75;8:45 am]

[Designation Number A178]

TEXAS

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in Texas as a result of a natural disaster consisting of:

Bowie: Excessive rainfall August 1, 1974, to January 15, 1975.
Ellis: Drought June 1 to August 1, 1974.
Lamar: Drought June 15 to August 20, 1974. Excessive rainfall August 20 to December 31, 1974.
Motley: Drought October 1, 1973, to April 30, 1974. Excessive rainfall May 1 to July 1, 1974 (with intermittent hailstorms). Excessive rainfall August 1 to December 1, 1974 (with cool temperatures).

Therefore, the Secretary has designated these areas as eligible for emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Dolph Briscoe that such designation be made.

Applications for emergency loans must be received by this Department no later than May 19, 1975, for physical losses and December 19, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 26th day of March 1975.

Forest Service

FALL CANKERWORM ENVIRONMENTAL IMPACT STATEMENT

Availability of Final Environmental Statement

Pursuant of section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, and Virginia Division of Forestry, have prepared a final environmental statement for Fall Cankerworm control in Virginia. (USDA-FS-FES-ADM-FY-75-1-SA)

This environmental statement is an analysis of impacts associated with the proposed suppression of fall cankerworm infestations on 514 acres of wooded residential area in Prince William County, Virginia. Subjects discussed are the impacts of aerial applications of the bacterial insecticide, Bacillus thuringiensis, and description of techniques and benefits of suppression.

The draft environmental statement was filed with CEQ on December 19, 1974. This final environmental statement was transmitted to CEQ on April 4, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3230, 12th St. & Independence Ave., SW., Washington, D.C. 20250.
USDA, Forest Service, Division of Forest Pest Control, 1621 N. Kent St., Room 1205-B, Arlington, Va., 22209.

A limited number of single copies are available upon request to:

USDA, Forest Service, Division of Forest Pest Management, 1720 Peachtree St., NW., Rm. 711, Atlanta, Ga. 30309.
Virginia Division of Forestry, P.O. Box 3758, McCormick Road, Charlottesville, Virginia 22903.

Copies of the environmental statement have been sent to various Federal, State and Local agencies as outlined in the Council on Environmental Quality Guidelines.

AMOS E. LANDGAST,
Area Director.

[FR Doc.75-8305 Filed 3-31-75;8:45 am]

Rural Electrification Administration

GLACIER STATE TELEPHONE CO.

Proposed Loan Guarantee

Under the authority of Pub. L. 93-32 (87 Stat. 65) and in conformance with applicable agency policies and procedures as set forth in REA Bulletin 320-22, "Guarantee of Loans for Telephone Facilities," dated February 4, 1975, published in proposed form in the FEDERAL REGISTER, September 16, 1974 (Vol. 39 No. 180, pages 33228-33229) notice is hereby given that the Administrator of REA will consider providing a guarantee supported by the full faith and credit of the United States of America for a loan in the approximate amount of $8,090,000 to Glacier State Telephone Company, Anchorage, Alaska. The loan funds will be used to finance the construction of facilities to extend telephone service to new subscribers, and improve telephone service for existing subscribers.

Legally organized lending agencies capable of making, holding and servicing the loan proposed to be guaranteed may obtain information and details of the proposed project from Mr. C. N. Morris, President, Glacier State Telephone Company, P.O. Box 5246, Bakersfield, California 93308.

To assure consideration, proposals must be submitted on or before May 1, 1975, to Mr. C. N. Morris. The right is reserved to give such consideration and make such evaluation or other disposition of all proposals received, as Glacier State Telephone Company and REA deem appropriate. Prospective lenders are advised that it is anticipated that financing for this project will be available from the Federal Financing Bank under a standing loan commitment agreement with the Rural Electrification Administration.

Copies of REA Bulletin 320-22 are available from the Director, Information Services Division, Rural Electrification Administration, U.S. Department of Agricultural, Washington, D.C. 20250.

Dated at Washington, D.C., this 26th day of March, 1975.

DAVID H. ASKEGAARD,
Acting Administrator, Rural Electrification Administration.

Soil Conservation Service

ELM CREEK (CEN-TEX) WATERSHED PROJECT, TEXAS

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 2, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Elm Creek (Cen-Tex) Watershed Project, Milam, Bell, Falls, and McLennan Counties, Texas, USDA-SCS-EIS-WS-(ADM)-75-1-(D)-TX.

The environmental impact statement concerns a plan for watershed protection and flood prevention. The planned works of improvement include conservation land treatment, supplemented by 45 single purpose floodwater retarding structures.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, P.O. Box 648, Temple, Texas 76501.

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Edward E. Thomas, State Conservationist, Soil Conservation Service, P.O. Box 648, Temple, Texas 76501.

Comments must be received on or before May 19, 1975, in order to be considered in the preparation of the final environmental impact statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

Dated: March 21, 1975.

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

[FR Doc.75-8314 Filed 3-31-75;8:45 am]

LOWER BLACK BEAR CREEK WATERSHED, PAYNE, NOBLE, AND PAWNEE COUNTIES, OKLAHOMA

Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; § 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and § 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the remaining work in the Lower Black Bear Creek Watershed project in Payne, Noble, and Pawnee Counties, Oklahoma.

The environmental assessment of this federal action indicates that this portion of the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the action. As a result of these findings, Mr. Hampton Burns, State Conservationist, Soil Conservation Service, USDA Building, Farm Road and Brumley Street, Stillwater, Oklahoma, has determined that the preparation and review of an environmental impact statement is not needed for this action.

The project concerns a plan for watershed protection, flood prevention, and municipal water supply. The planned remaining works of improvement as described in the negative declaration include conservation land treatment, 1 multiple purpose structure, and 19 single purpose floodwater retarding structures.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service
USDA Building
Farm Road and Brumley Street
Stillwater, Oklahoma 74074

Requests for the negative declaration should be sent to the above address.

No administrative action on implementation of the proposal will be taken until April 16, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

Dated: March 21, 1975.

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

[FR Doc.75-8307 Filed 3-31-75;8:45 am]

MARSH-KELLOGG CREEK, CALIFORNIA

Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, and § 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and § 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for Marsh Creek Unit—Lines E and E-1 of the Marsh-Kellogg Creek Watershed Project in eastern Contra Costa County, California.

This project is being constructed under authority of the Watershed Protection and Flood Prevention Act (Pub. L. 566, 83rd Congress, 68 Stat., 666) as amended.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. G. H. Stone, State Conservationist, Soil Conservation Service, USDA, P.O. Box 1019, Davis, California 95616, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for flood prevention. The remaining planned works of improvement in the Marsh Creek Unit include construction of 2.3 miles of channel work on Lines E and E-1 in eastern Contra Costa County, California.

The environmental assessment file is available for inspection during regular working hours at the following locations:

Soil Conservation Service
5552 Clayton Road
Concord, California 94512
Soil Conservation Service
2828 Chiles Road
Davis, California 95616

Single copy requests for the negative declaration should be sent to one of the above addresses.

No administrative action on implementation of the proposal will be taken April 16, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

Dated: March 21, 1975.

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

POLLARD CREEK WATERSHED PROJECT, TEXAS

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Pollard Creek Watershed Project, Palo Pinto County, Texas, USDA-SCS-EIS-WS-(ADM)-75-2-(D)-TX.

The environmental impact statement concerns a plan for watershed protection and flood prevention. The planned works of improvement include conservation land treatment, supplemented by 2 single purpose floodwater retarding structures.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, P.O. Box 648, Temple, Texas 76501.

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Edward E. Thomas, State Conservationist, Soil Conservation Service, P.O. Box 648, Temple, Texas, 76501.

Comments must be received on or before May 23, 1975, in order to be considered in the preparation of the final environmental impact statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

Dated: March 24, 1975.

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

TALLAHAGA CREEK WATERSHED, MISSISSIPPI

Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, and § 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and § 650.8 (b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974, the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared at this time for floodwater retarding structures Nos. 1, 2, 3, 4, 12 and 13 of the Tallahaga Creek Watershed, Winston, Choctaw and Neshoba Counties, Mississippi.

The environmental assessment of this federal action indicates that the planned action will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the planned action. As a result of these findings, Mr. W. L. Heard, State Conservationist, Soil Conservation Service, USDA, Room 590, Milner Building, P.O. Box 610, Jackson, Mississippi 39205, has determined that the preparation and review of an environmental impact statement is not needed at this time for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement covered by this negative declaration include conservation land treatment supplemented by six floodwater retarding structures.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA
Room 590, Milner Building
Jackson, Mississippi 39205

Requests for copies of the negative declaration should be sent to the above address.

No administrative action on implementation of the proposal will be taken until April 16, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

Dated: March 24, 1975.

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

[FR Doc.75-8310 Filed 3-31-75;8:45 am]

UPPER CHOPTANK RIVER WATERSHED, MARYDEL PUBLIC DRAINAGE ASSOCIATION, MARYLAND

Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, § 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and § 650.8 (b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the works of improvement to be installed by the Marydel Public Drainage Association as a part of the Upper Choptank River Watershed Project, Caroline County, Maryland.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Graham T. Munkittrick, State Conservationist, Soil Conservation Service, USDA, 4321 Hartwick Road, College Park, Maryland, 20740, has determined that the preparation and review of an environmental impact statement is not needed for this portion of the project.

The project concerns a plan for watershed protection, flood prevention and agricultural water management. The planned works of improvement covered by this negative declaration include conservation land treatment supplemented by channel work on 0.9 mile of previously constructed agricultural ditches.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service
USDA, Room 522
3321 Hartwick Road
College Park, Maryland 20740

Single copy requests for the negative declaration should be directed to the above address.

No administrative action on implementation of the proposal will be taken until April 16, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: March 20, 1975.

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

Domestic and International Business Administration

INDUSTRY SECTOR ADVISORY COMMITTEES FOR MULTILATERAL TRADE NEGOTIATIONS

Partially Closed Meetings

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that a meeting of each of the 26 Industry Sector Advisory Committees ("ISACs") for Multilateral Trade Negotiations will be held at the U.S. Department of Commerce, 14th and E Streets, NW., Washington, D.C. 20230. Each of the meetings is scheduled to last for two and possibly three consecutive days, and will begin at 10 a.m. on the following days:

	Room No.[1]	Numerical Designation and Name of ISAC
May 1	A-B	1 Food and Kindred Products.
	3814B	6 Drugs, Soap, Cleaners, and Toilet Preparations.
	4832	9 Leather and Products.
	4830	16 Office and Computing Equipment.
May 5	1851	3 Lumber and Products.
	2062	8 Rubber and Plastics Materials.
	4833	10 Stone, Clay and Glass Products.
	A-B	20 Scientific and Controlling Instruments.
	D	26 Miscellaneous Manufactures, Toys, Musical Instruments, Furniture, Etc.
May 8	1851	4 Paper and Products.
	4832	5 Industrial Chemicals and Fertilizers.
	3814B	14 Other Fabricated Metal Products.
	4830	17 Machine Tools, Other Metalworking Equipment, and Other Nonelectrical Machinery.
	1096	22 Communication Equipment and Noneonsumer Electronic Equipment.
May 12	A-B	2 Textiles and Apparel.
	D	7 Paints, Gums, Wood Chemicals, and Miscellaneous Chemical Products.
	4833	11 Ferrous Metals and Products.
	2062	21 Photographic Equipment and Supplies.
May 15	A-B	12 Nonferrous Metals and Products.
	3814B	15 Construction, Mining, Agricultural, and Oil Field Machinery and Equipment.
	4832	19 Consumer Electronic Products and Household Appliances.
	5320	23 Railroad Equipment and Miscellaneous Transportation Equipment.
May 19	3814B	13 Hand Tools, Cutlery, and Tableware.
	A-B	18 Electrical Machinery, Power Boilers, Nuclear Reactors, and Engines and Turbines.
	D	24 Aerospace Equipment.
	4833	25 Automotive Equipment.

[1] Letter designations indicate Conference Rooms adjacent to Department of Commerce Auditorium.

Each of the committees was established on April 2, 1974 to provide the Secretary of Commerce and the Special Representative for Trade Negotiations with detailed views and information regarding trade barriers affecting individual products in their respective sectors of U.S. industry for use during multilateral trade negotiations to be undertaken by the United States.

Agenda items for each of the meetings are as follows: (1) Election of a Chairman and Vice-Chairman (if not yet elected) and the establishment of a steering group (as necessary); (2) Review of the preliminary draft Industry Sector Advisory Report (ISAR); and (3) Discussion of the draft ISAR and the adoption of changes, additions, and deletions thereto leading to the approval of a final ISAR.

Agenda item (1) will be open to the public and a limited number of seats will be made available therefor. Written statements may be submitted at any time before or after the meeting.

With respect to agenda items (2) and (3), the Assistant Secretary of Commerce for Administration, with the concurrence of the General Counsel, formally determined, on March 27, 1975, pursuant to section 10(d) of the Federal Advisory Committee Act, that these agenda items should be exempt from the provisions of sections 10(a)(1) and 10(a)(3) of the Act (relating to open meetings and public participation therein), because these agenda items will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that such matters be kept secret in the interest of the national security. The ISAR to be discussed under agenda items (2) and (3) will be properly classified pursuant to said Executive Order.

Accordingly, pursuant to the aforementioned determination, that portion of each meeting dealing with agenda items (2) and (3) will be closed to the public. All committee members have appropriate security clearances. Minutes of the open portion of the meetings will be available upon written request addressed to the Central Reference and Records Inspection Facility, Room 7043, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Ms. Clare Soponis, Office of Industry Consultations Policy Staff, U.S. Department of Commerce, Room 3028, Washington, D.C. 20230, telephone: (202) 967-3268.

In accordance with paragraph (4) of the order of the United States District Court for the District of Columbia in *Aviation Consumer Action Project, et al. v. C. Langhorne Washburn, et al.*, September 10, 1974, as amended September 23, 1974 (Civil Action No. 1838-73), the Complete Notice of Determination to close portions of the meetings of the Industry Sector Advisory Committees for Multilateral Trade Negotiations is hereby published.

Dated: March 24, 1975.

MITCHELL NEWDELMAN,
Director of Industry Liaison, Office of the Special Representative for Trade Negotiations.

LAWRENCE A. FOX,
Deputy Assistant Secretary for International Economic Policy and Research.

NOTICE OF DETERMINATION FOR PARTIAL CLOSURE OF MEETINGS OF THE INDUSTRY SECTOR ADVISORY COMMITTEES FOR TRADE NEGOTIATIONS

Each of the 26 Industry Sector Advisory Committees (ISACs) for Trade Negotiations will meet as indicated in the attached schedule during the period from May 1 to May 21, 1975, each meeting to last for two and possibly three consecutive days. By memorandum of March 10, 1975, it has been requested that portions of these meetings be closed to the public in order to protect the security classified documents which will be reviewed and discussed at each of the meetings.

These 26 committees, consisting of an average of 18 members, were established on April 2, 1974 in accordance with the provisions of the Federal Advisory Committee Act 5 U.S.C. App. I (Supp. III, 1973), by the Secretary of Commerce and the Special Representative for Trade Negotiations. All members of the committees have appropriate security clearances.

The Committee's activities are conducted in accordance with the provisions of the Federal Advisory Committee Act, and Office of Management and Budget Circular A-63 (Revised), Advisory Committee Management, effective May 1, 1974. Section 10 of the Federal Advisory Committee Act provides, among other things, that the meetings of advisory committees are to be open to the public and to public participation unless the head of the agency (or his delegate) to which the committee reports determines in writing that all or some portion of the agenda of the meeting of the committee is concerned with matters listed in 5 U.S.C. 552(b).

Section 552(b)(1) of Title 5, United States Code, provides that information may be withheld from the public if it concerns matters specifically required by Executive Order to be kept secret in the interest of national defense or foreign policy of the United States and are in fact properly classified pursuant to such Executive Order.

The agenda items for each ISAC meeting are: (1) Election of a Chairman and Vice-Chairmen (if not yet elected) and the establishment of a steering group (as necessary); (2) Review of the preliminary draft Industry Sector Advisory Report (ISAR); and (3) Discussion of the ISAR, and the adoption of any changes, additions, or deletions thereto leading to the approval of a final ISAR.

The ISAR contains the sector information and advice of the ISAC members to the U.S. Government to assist the U.S. negotiators in formulating their negotiating positions in the current multilateral trade negotiations. The draft ISAR to be reviewed, revised, and approved under agenda items (2) and (3) will be properly classified "Confidential" pursuant to Executive Order 11652 and specifically required by said Executive Order to be kept secret in the interests of the national security (i.e., the conduct of the foreign relations) of the United States.

Accordingly, I hereby determine, pursuant to section 10(d) of Pub. L. 92-463, that those portions of each meeting of each of the aforesaid 26 ISACs to be held between May 1 and May 21, 1975 dealing with agenda items (2) and (3) shall be exempt from the open meeting and public participation provisions of the Federal Advisory Committee Act because they will deal with matters exempt from public disclosure under section 552(b)(1) of Title 5, U.S.C. Agenda item (1) of each meeting will be open to the public.

Dated: March 27, 1975.

GUY W. CHAMBERLIN, JR.,
Acting Assistant Secretary for Administration.

Dated: March 26, 1975.

ALFRED MEISNER,
General Counsel.

V 40 163 APR 175

DEPARTMENT OF COMMERCE

Maritime Administration

[Docket No. S-443]

PACIFIC FAR EAST LINE, INC.

Application

Notice is hereby given that Pacific Far East Line, Inc., has applied for amendment of its service description to increase the number of subsidized calls per year from six to 18 on which Trade Route 27 LASH vessels may load Trade Route 29 cargoes in the Pacific Northwest for transfer at California to Trade Route 29 vessels.

Any person, firm or corporation having any interest in such application and desiring a hearing on issues pertinent to section 605(c) of the Merchant Marine Act, 1936, as amended (46 U.S.C. 1175), should, by the close of business on April 11, 1975 notify the Secretary, Maritime Subsidy Board, in writing in triplicate, and file petition for leave to intervene in accordance with the Rules of Practice and Procedure of the Maritime Subsidy Board.

In the event a section 605(c) hearing is ordered to be held, the purpose thereof will be to receive evidence relevant to (1) whether the application is one with respect to a vessel to be operated in an essential service, served by citizens of the United States which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of United States registry in such essential service is inadequate, and (2) whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated thereon.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Maritime Subsidy Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Maritime Subsidy Board will take such action as may be deemed appropriate.

(Catalog of Federal Domestic Assistance Program No. 11.504 Operating-Differential Subsidies (ODS)).

By Order of the Maritime Administration.

Date: March 27, 1975.

JAMES S. DAWSON, Jr.,
Secretary.

National Oceanic and Atmospheric Administration

MARINE ANIMAL PRODUCTIONS INC.

Issuance of a Permit for Marine Mammals

On February 4, 1975, notice was published in the FEDERAL REGISTER (40 FR 6521) that an application had been filed with the National Marine Fisheries Service, by Marine Animal Productions Inc./Marine Life Inc., 150 Debuys Road, Biloxi, Mississippi 39531 to take eight Atlantic bottlenosed dolphins (*Tursiops truncatus*) and ten (10) California sea lions for the purpose of public display.

Notice is hereby given that on March 25, 1975, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a Permit to Marine Animal Productions Inc./Marine Life Inc., subject to certain conditions set forth therein. The Permit is available for review by interested persons in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235 and Offices of the Regional Directors, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33702 and the Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: March 25, 1975.

ROBERT F. HUTTON,
Acting Director,
National Marine Fisheries Service.

[FR Doc.75-8378 Filed 3-31-75;8:45 am]

NEW YORK ZOOLOGICAL SOCIETY

Receipt of Applications for Public Display Permits

Notice is hereby given that the following applicant has applied in due form for permits to take marine mammals for public display as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

(1) The New York Zoological Society, the Zoological Park, Bronx, New York 10460, to take two female beluga whales (*Delphinapterus leucas*) for the purpose of public display at the New York Aquarium, Boardwalk at West 8th Street, Brooklyn, New York 11224.

The beluga whales will be taken from July 15, 1976 to August 15, 1975, from Hudson Bay in the vicinity of Churchhill, Manitoba, Canada, by means of a breakway net or if in shallow water, directly by six to eight men using a transport stretcher. The animals will be captured by a professional collector and supervised by the Curator of the New York Aquarium.

The beluga whales will be maintained and displayed in the whale pool which averages 32 feet in width, 7 feet in depth and is 62 feet long having a capacity of 95,206 gallons of water. A total of four beluga whales will be maintained in this pool.

(2) The New York Zoological Society, the Zoological Park, Bronx, New York 10460, to take four (4) Atlantic bottlenosed dolphins (*Tursiops truncatus*) for the purposes of public display at the New York Aquarium, Boardwalk at West 8th Street, Brooklyn, New York 11224.

The bottlenosed dolphins will be collected by a professional collector in the water between Mobile Bay and the mouth of the Mississippi River by means of a seine net.

The animals will be maintained and displayed in two pools which have the following dimensions:

1. Main pool, 70 feet long by 40 feet wide by 8½ feet deep, with a capacity of 125,000 gallons of water;
2. Holding pool, 30 feet in diameter by 6 feet 8 inches deep, with a capacity of 16,635 gallons of water.

The pools will house four (4) *Tursiops truncatus*, and one (1) *Lagenorhynchus obliquidens*.

On the issuance of permit to obtain four bottlenosed dolphins adequate winter facilities for the maintenance of the animals will be constructed. A geodesic dome will be constructed above and around the holding pool of the dolphin arena. This dome will contain proper ventilation systems and will be designed to allow for natural lighting.

The New York Zoological Society is a nonprofit organization. Over 850,000 visitors a year are recorded. School and organized groups regularly visit the facility. Many of the staff have adjunct professorships with universities and schools in the nearby areas.

The staff at the New York Aquarium has had considerable experience in aquarium maintenance techniques, husbandry, and animal handling and has contributed significantly to further development of such techniques.

The arrangements and facilities for transporting and maintaining the marine mammals requested in the above applications have been inspected by licensed veterinarians, who have certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammals involved.

Documents submitted in connection with the above applications are available for review at the following locations:

Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, the Office of the Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930 and the Office of the Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33702.

Concurrent with publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is forwarding copies of these applications to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written views or data, or requests for a public hearing on this application should be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235 on or before May 1, 1975. The holding of such hearing is at the discretion of the Director.

All statements and opinions contained in support of these applications are summaries based upon information supplied by the applicant and, therefore, do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: March 27, 1975.

W. KIRKNESS,
Associate Director for Resource Management, National Marine Fisheries Service.

[FR Doc.75-8380 Filed 3-31-75;8:45 am]

SEA WORLD, INC.

Withdrawal of Permit Application for Marine Mammals

On November 20, 1973, notice was published in the FEDERAL REGISTER (38 FR 34983), that an application had been filed with the National Marine Fisheries Service by Sea World, Incorporated, 1720 South Shores Road, San Diego, California 92109, for a public display permit to take five (5) northern elephant seals (*Mirounga angustirostris*).

Notice is hereby given that Sea World, Inc., has requested to withdraw the application, and that the request to withdraw was acknowledged and accepted without prejudice by the National Marine Fisheries Service on March 20, 1975.

Dated: March 20, 1975.

JACK W. GEHRINGER,
Acting Director,
National Marine Fisheries Service.

[FR Doc.75-8386 Filed 3-31-75;8:45 am]

STEINHART AQUARIUM

Receipt of Application for a Public Display Permit

Notice is hereby given that the following applicant has applied in due form for a permit to take marine mammals for public display as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

Steinhart Aquarium, California Academy of Sciences, Golden Gate Park, San Francisco, California 94118 to take three (3) Pacific white-sided dolphins (*Lagenorhynchus obliquidens*).

The dolphins will be taken from coastal areas of central California by Mr. Thomas P. Dohl and Mr. John Hall, both of the University of California at Santa Cruz, by means of the standard hoop net technique. The collectors have nine and seven years experience, respectively, in the capture, transportation and husbandry of cetaceans. The dolphins will be transported from the collection area to Santa Cruz, California by boat, and from that location to the Applicant's facility by truck.

The dolphins will be maintained and displayed in a pool, 42 feet long, 20½ feet wide, from 8 to 11 feet deep, containing 88,000 gallons of filtered sea water. In addition to the three requested dolphins, two harbor seals will occupy this pool. Within this facility, the dolphins will be exhibited in a non-performing display. A staff of twenty-five employees will attend to the care and maintenance requirements of the dolphins.

The arrangements and facilities for transporting and maintaining the marine mammals requested in the above described application have been inspected by a licensed veterinarian, who has certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammals involved.

Documents submitted in connection with this application are available in the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, and the Office of the Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is sending copies of the application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written views or data, or requests for a public hearing on this application should be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235 on or before May 1, 1975. The holding of such hearing is at the discretion of the Director.

All statements and opinions contained in this notice in support of this application are summaries based upon information supplied by the Applicant and, therefore, do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: March 25, 1975.

ROBERT F. HUTTON,
Associate Director for Resource Management, National Marine Fisheries Service.

[FR Doc.75-8382 Filed 3-31-75;8:45 am]

UNIVERSITY OF GUELPH

Withdrawal of Permit Application for Marine Mammals

On January 3, 1974, notice was published in the FEDERAL REGISTER (39 FR 840), that an application had been filed with the National Marine Fisheries Service by Keith Ronald, Dean, College of Biological Science, University of Guelph, Guelph, Ontario, Canada, for a scientific research permit to take one (1) Hawaiian monk seal (*Monachus schaunislandi*).

Notice is hereby given that Dr. Ronald has requested to withdraw the application, and that the request to withdraw was acknowledged and accepted without prejudice by the National marine fisheries Service on March 18, 1975.

Dated: March 18, 1975.

JACK W. GEHRINGER,
Acting Director, National Marine Fisheries Service.

[FR Doc.75-8384 Filed 3-31-75;8:45 am]

UNIVERSITY OF MINNESOTA

Issuance of Permit for Marine Mammals

On February 12, 1975, notice was published in the FEDERAL REGISTER (40 FR 6522), that an application had been filed with the National Marine Fisheries Service by Donald B. Siniff, Associate Professor, Department of Ecology and Behavioral Biology, 223 Snyder Hall, University of Minnesota, St. Paul, Minnesota 55101, for a scientific research permit to collect biological data and materials from an unspecified number of dead seals killed by polar bears and to collect biological data and materials from three hundred fifty (350) ringed seals (*Pusa hispida*) and two hundred fifty (250) bearded seals (*Erignathus barbatus*) taken by natives and Canadian Wildlife Service personnel along the northern coast of Canada each year.

Notice is hereby given that, on March 26, 1975, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407) the National Marine Fisheries Service issued a permit for the above mentioned activities to Donald B. Siniff, subject to certain conditions set forth therein.

The Permit is available for review by interested persons in the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, and in the Office of the Regional Director, National Marine Fisheries Service, Northeast Region Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930.

Dated: March 26, 1975.

ROBERT F. HUTTON,
Acting Director, National Marine Fisheries Service.

[FR Doc.75-8381 Filed 3-31-75;8:45 am]

UNIVERSITY OF WASHINGTON

Receipt of Application for a Scientific Research Permit

Notice is hereby given that the following applicant has applied in due form for a permit to take marine mammals for scientific research as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

Ole A. Mathisen, Professor, College of Fisheries, University of Washington 98195, to take by shooting six (6) Pacific harbor seals (*Phoca vitulina richardii*) from Iliamna Lake, Bristol Bay, Alaska, for the purpose of scientific research.

The Applicant proposes to study the geographically isolated population of harbor seals found in Iliamna Lake to gather population and distribution information by means of both aerial and ground surveys. An ultimate objective of the research is to understand the ecological relationships of the seals, sockeye salmon and other resident fishes and factors controlling the population size of the seals in the absence of any harvesting of the seals. Analysis of the six collected specimens will provide a preliminary estimate of age, growth and reproductive potential. Collections of internal parasites will be made available to interested parasitologists. The parasites are of special interest to this research, as one form is commonly found in the fishes of Iliamna Lake with its seal

V 40 163 APR 1 75

population, and is rarely found in the fishes of a nearby lake system which has no seals.

The applicant is the chairman of the Seal Group of a committee operating under the auspices of the Food and Agriculture Organization of the United Nations. A principal task of this group is to prepare a status report on the stocks of seals on a worldwide basis, including seals living in enclosed water basins such as Iliamna Lake. The specimens collected will be deposited at the University of Alaska.

Documents submitted in connection with this application are available in the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, and the Offices of the Regional Directors, National Marine Fisheries Service, Alaska Region, P.O. Box 1668, Juneau, Alaska 99801 and Northwest Region, 1700 Westlake Avenue North, Seattle, Washington 98109.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is sending copies of the application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written views or data, or requests for a public hearing on this application should be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235 on or before May 1, 1975. The holding of such hearing is at the discretion of the Director.

All statements and opinions contained in this notice in support of this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: March 25, 1975.

ROBERT P. HUTTON,
Associate Director
for Resource Management.

PROJECT GRANTS FOR SUDDEN INFANT DEATH SYNDROME

Information and Counseling Regarding Applications

On March 5, 1975, there was published at 40 FR 10318 et seq., a notice of proposed rulemaking, which proposed the adoption of regulations to implement section 1121(b) of the Public Health Service Act (42 U.S.C. 300c-11) for projects which include both the collection, analysis, and furnishing of information relating to the causes of the sudden infant death syndrome, and the provision of information and counseling to families affected by the syndrome. In order to expedite the review procedures for the award of Federal financial assistance, notice is hereby given that applications for grants may be submitted prior to the publication of final regulations in accordance with application requirements set forth in the proposed regulations (40 FR 10318). Application forms and further information may be obtained from the Associate Bureau Director, Program Office for Maternal and Child Health, Bureau of Community Health Services, Health Services Administration, Room 12-05, 5600 Fishers Lane, Rockville, Maryland 20852.

It should be noted that these application forms and requirements are based on proposed regulations, and that final action with respect to any applications submitted will not be taken by DHEW until after final regulations are published. Furthermore, should the final regulations differ substantially from the proposed regulations, applications filed on the basis of the proposed regulations will be required to be revised or amended as may be necessary to conform to the final regulations. Subject to these considerations, applications for grants will be accepted and reviewed on a continuing basis until further notice.

Dated: March 19, 1975.

ROBERT VAN HOEK,
Acting Administrator,
Health Services Administration.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Equal Opportunity

[Docket No. N-75-269]

FAIR HOUSING ENFORCEMENT EFFORTS OF THE MISSOURI COMMISSION ON HUMAN RIGHTS

Public Meeting

Pursuant to § 106.3 of the Department of Housing and Urban Development's regulation establishing the procedure for scheduling fair housing public meetings (24 CFR 106.3; 37 FR 24420 (11-17-72), and Part 115 of the Department's regulations concerning recognition of substantially equivalent laws (24 CFR Part 115; 37 FR 16542 (8-16-72)) Notice is hereby given of a public fact-finding meeting to be conducted by the Assistant Secretary for Equal Opportunity. The subject of the meeting will be the Fair Housing Enforcement Efforts of the Missouri Commission on Human Rights, in relationship to Title VIII of the 1968 Civil Rights Act.

The meeting will be held in Kansas City, Missouri, Thursday, April 24, 1975, beginning at 9 a.m. in the Hotel Radisson-Muehlebach, Lido Room, 12th and Baltimore Streets, Kansas City, Missouri.

The purpose of the meeting is to obtain information respecting the procedures utilized by the Missouri Commission on Human Rights, in their processing of housing discrimination complaints and to ascertain whether or not the Office of the Assistant Secretary for Equal Opportunity can, in accordance with the Department's Substantial Equivalency Regulation, provide technical assistance to Missouri in its endeavors to eliminate or prevent discriminatory housing practices.

Attendance is open to the interested public, but limited to the space available. To the extent that time permits the Presiding Officer will allow public presentation of oral statements at the meeting. Any member of the public may file a written statement with the Office of Equal Opportunity, U.S. Department of Housing and Urban Development, before, during, or after the meeting.

For further information concerning this meeting contact Dr. Gloria E. A. Toote, Assistant Secretary for Equal Opportunity, Department of Housing and Urban Development, 451 7th Street SW., Washington, D.C. 20410.

GLORIA E. A. TOOTE,
Assistant Secretary
for Equal Opportunity.

[Docket No. N-75-270]

FAIR HOUSING ENFORCEMENT EFFORTS OF THE STATE OF MARYLAND COMMISSION ON HUMAN RELATIONS

Public Meeting

Pursuant to § 106.3 of the Department of Housing and Urban Development's regulation establishing the procedure for scheduling fair housing public meetings (24 CFR 106.3; 37 FR 24420 (11-17-72), and Part 115 of the Department's regulations concerning recognition of substantially equivalent laws (24 CFR Part 115; 37 FR 16542 (8-16-72)). Notice is hereby given of a public fact-finding meeting to be conducted by the Assistant Secretary for Equal Opportunity. The subject of the meeting will be the Fair Housing Enforcement Efforts of the State of Maryland Commission on Human Relations, in relationship to Title VIII of the 1968 Civil Rights Act.

The meeting will be held in Baltimore, Maryland, Monday, May 5, 1975, beginning at 9 a.m. in the George H. Fallon Federal Building, Room G-30, 31 Hopkins Plaza, Baltimore, Maryland.

The purpose of the meeting is to obtain information respecting the procedures utilized by the Maryland Commission on Human Relations, in their processing of housing discrimination complaints and to ascertain whether or not the Office of the Assistant Secretary for Equal Opportunity can, in accordance with the Department's Substantial Equivalency Regulation, provide technical assistance to Maryland in its endeavors to eliminate or prevent discriminatory housing practices.

Attendance is open to the interested public, but limited to the space available. To the extent that time permits the Presiding Officer will allow public presentation of oral statements at the meeting. Any member of the public may file a written statement with the Office of Equal Opportunity, U.S. Department of Housing and Urban Development, before, during, or after the meeting.

For further information concerning this meeting contact Dr. Gloria E. A. Toote, Assistant Secretary for Equal Opportunity, Department of Housing and Urban Development, 451 7th Street SW., Washington, D.C. 20410.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 75-077]

RESEARCH ADVISORY COMMITTEE

Meeting

This is to give notice in accordance with section 10(a) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1) of October 6, 1972, that the Research Advisory Committee will conduct an open meeting on April 23-24, 1975, in the conference room of the Thirteenth Coast Guard District Headquarters, 915 Second Avenue, Seattle, Washington 98104. This meeting is scheduled to begin at 2:30 p.m. on 23 April 1975 and at 8:30 a.m. on the 24th.

The agenda of the Eleventh Meeting of the Research Advisory Committee is as follows:

(1) Old business, including an update of actions taken relative to recommendations of tenth meeting.
(2) Status of Research and Development in the Coast Guard as of April 1975.
(3) Adequacy of Technology of Safe Boating Over the Offshore Bars of the Pacific Northwest.
(4) Adequacy of research and development planning for likely future Coast Guard requirements for underwater inspection, search and rescue, and coastal monitoring.
(5) Delineation of attractive technical areas for multi-mission research designed to improve productivity and effectiveness of the Coast Guard in the 1980-1985 time frame.
(6) Report on Regional Coordination via the Sea Use Council—RADM Stanley, USN (Ret.), Executive Director, Sea Use Council, Seattle, WA.

The Coast Guard Research Advisory Committee was originally established as the Science Advisory Committee in 1970 to provide a broad external and neutral point of view in the review of the Coast Guard's Research, Development, Test and Evaluation Effort; to make recommendations for the development of new techniques that are applicable to Coast Guard missions, new or revised approaches to scientific inquiry, more effective utilization of the Research and Development staff, and interfacing of the Coast Guard program with other scientific and technological programs, particularly those of other elements of the Department of Transportation and the Department of the Navy; to review Coast Guard long-range Research and Development program planning, and to propose changes in Research, Development, Test and Evaluation policy, program emphasis, staffing, scope and use of facilities.

Interested persons may seek additional information or the summary minutes of the meeting by writing to:

Dr. C. C. Bates, Science Advisor to the Commandant
G-DS/62
Washington, D.C. 20590

or by calling (202-426-1037).

Dated: March 17, 1975.

CIVIL AERONAUTICS BOARD

[Docket No. 26679; Order 75-3-108]

CERTAIN AIR CARRIERS AND CANADIAN AIR CARRIERS

Charter Trips Between United States and Canada

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 27th day of March, 1975.

The Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974, provides that the charterworthiness standards of the country of charter trip origin shall govern. However, a Reservation by the United States had provided (with limited exceptions for certain Canadian charter carriers) that in addition to conforming to the regulations of the Canadian Transport Commission, Inclusive Tour Charters (ITC's) originating in Canada and destined for the United States must provide "• • • overnight hotel accommodations at a minimum number of places other than the point of origin, each place a minimal distance from the other, each such minimum to be the minimum permitted by the Civil Aeronautics Board for any United States-Canada Inclusive Tour Charter by any U.S. carrier • • •" In implementing the Agreement, and the U.S. Reservation thereto, the Board granted a waiver to all designated U.S. carriers to perform Canadian-originating charter flights pursuant to the regulations of the Canadian Transport Commission subject, however, to a three-stop requirement on ITC's.[1]

By diplomatic note dated March 19, 1975 the United States Government terminated the Reservation. This action had the effect of automatically terminating the Canadian Counter-Reservation pur-

[1] See ordering paragraph 3 of Order 74-5-37, adopted May 8, 1974, (made final by Order 74-7-140 adopted July 30, 1974) which reads as follows:

"3. That waivers of the provisions of Parts 207 and 208 of the Board's Economic Regulations (and of such provisions of our various Special Regulations authorizing particular types of charters, to the extent that such provisions apply to direct air carriers) are hereby granted to the U.S. carriers listed in Appendix A hereto insofar as any provisions therein regarding charterworthiness may conflict with the charterworthiness regulations of the Canadian Transport Commission for single entity passenger, single entity property, pro rata common purpose, advance booking, inclusive tour, and split passenger charter trips of the above types which first take on board passengers and their accompanied baggage or property, at a point or points in Canada for deboarding or reboarding in the United States, and are operated in conformity with such applicable regulations of the Canadian Transport Commission and in conformity with the Agreement: *Provided*, however, the inclusive tour charter trips operated by such carriers shall also provide, on the land portion of the tour, overnight hotel accommodations at a minimum of three places other than the point of origin, such places to be no less than 50 air miles from each other."

V 40163 APR 175

suant to the terms of the Counter-Reservation and provided authorization under the Agreement for U.S. and Canadian carriers to perform one-stop ITC's from Canada organized solely under Canadian ITC regulations.[5] Accordingly, the Board finds it in the public interest to amend Order 74–5–37, as amended, to delete the entire proviso to ordering paragraph 3 thereof. This amendment will permit U.S. carriers to perform Canadian-originating one-stop ITC's.[6]

Accordingly, it is ordered, That: 1. Ordering paragraph 3 of Order 74–5–37, finalized by Order 74–7–140, is hereby amended to read:

2. This Order shall be served upon the Departments of State and Transportation, the carriers listed in Appendix A to Order 74–5–37, as amended, and the Ambassador of Canada in Washington, D.C.

3. That waivers of the provisions of Parts 207 and 208 of the Board's economic regulations (and of such provisions of our various special regulations authorizing particular types of charters, to the extent that such provisions apply to direct air carriers) are hereby granted to the U.S. carriers listed in Appendix A hereto insofar as any provisions therein regarding the charterworthiness may conflict with the charterworthiness regulations of the Canadian Transport Commission for single entity passenger, single entity property, pro rata common purpose, advance booking, inclusive tour, and split passenger charter trips of the above types which first take on board passengers and their accompanied baggage or property, at a point or points in Canada for deboarding or reboarding in the United States, and are operated in conformity with such applicable regulations of the Canadian Transport Commission and in conformity with the Agreement.

This Order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75–8425 Filed 3–31–75;8:45 am]

[Docket No. 27334; Order 75–3–106]

EASTERN AIR LINES, INC.

Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 27th day of March, 1975.

On December 30, 1974, Eastern Air Lines filed an application in Docket 27334 requesting the amendment of its certificate for route 110[1] so as to authorize the foreign air transportation of mail as well as persons and property between points in Florida and points in the Bahama Islands. On the following day, Eastern filed a motion for an order to show cause or for such other expedited procedures as the Board may wish to employ.

In support of its application and motion, Eastern alleges that Pan American World Airways, the only United States-flag carrier certificated to transport mail between Florida and the Bahamas, no longer operates in any of the relevant markets; that the United States Postal Service "needs and desires to utilize Eastern's existing flights in the Florida-Bahamas markets for the carriage of mail;" that Eastern has, in the past, provided the mail service in question by exemption and is presently doing so under a temporary emergency contract at domestic service mail rates; and that amendment of Eastern's certificate will have no adverse impact upon any United States-flag carrier.

No answers to the application or the motion have been received.

Upon consideration of the pleadings and the facts enumerated below, we tentatively find and conclude that the public convenience and necessity require the amendment of Eastern's certificate for route 110 so as to authorize the foreign air transportation of mail between points in Florida and points in the Bahama Islands.[2]

Eastern acquired its certificate for route 110 from Mackey Airlines pursuant to the Board's decision in the Eastern-Mackey Merger Case, 45 C.A.B. 728 (1966); the certificate was subsequently amended in the United States-Caribbean Route Investigation, 49 C.A.B. 427 (1968). Service is presently operated in accordance with the Approved Service Plan-Foreign Air Transportation granted by Order 72–5–19, May 4, 1972, and consists of five daily nonstop round trips in the Miami-Nassau market, four in the Miami-Freeport market, one in the Ft. Lauderdale-Nassau market and a daily one-way, one-stop flight from Orlando to Nassau. OAG, March 1, 1975.[3] Mackey Airlines had never held certificate authority to carry mail on route 110; in fact, such authority was specifically denied in the Mackey Airlines Renewal Case, 37 C.A.B. 371 (1962). On the other hand, both Mackey[4] and Eastern[5] have, in the past, received exemption authority to transport mail between Florida and the Bahamas for temporary periods.

The Board's denial of the application for mail authority by Mackey Airlines, the previous holder of the certificate for route 110, was predicated upon the absence of "expressions on behalf of the Post Office Department of either a need or a desire" for additional certificated mail authority, the ample uplift provided by Pan American and the negligible revenues which mail authority would generate for Mackey if it were granted only on a service-rate basis (as opposed to a subsidy-eligible basis). 37 C.A.B. at 385, 289. These circumstances have now changed.

First, Eastern represents that the Postal Service supports its application and desires to utilize the capacity available on Eastern's regular and frequent Florida-Bahamas flights for the transportation of mail at service rates established by the Board.[6] Although Eastern could carry mail under temporary emergency contracts or exemptions, these vehicles are administratively cumbersome and should not be employed in lieu of certification pursuant to section 401 of the Act. Second, Pan American no longer participates in the Florida-Bahamas markets and, in fact, has been granted temporary authority to suspend all service at Freeport, Grand Bahama.[7] While technically there is nothing to prevent Pan American from resuming operations, its recent history of service, current financial difficulties and the high cost of fuel indicate that the carrier will not do so.[8]

[5] The Canadian ITC regulations do not prescribe a minimum number of stops; however, they are more restrictive than Part 378 in pricing, minimum stay, split chartering, and commingling of charter types on the same aircraft.

[6] Order 74–5–37 also provided similar waivers from the Board's Regulations for Canadian carriers. However, by Order 74–11–154, approved by the President November 27, 1974, new charter permits were authorized to be issued to all designated Canadian carriers holding section 401 permits, subject only to fulfilling certain technical requirements. Many Canadian carriers have been issued these new permits; the remainder will receive such permits as soon as the requirements are fulfilled. These permits are designed so that, in the absence of a U.S. Reservation, the charterworthiness of its Canadian-originated ITC's will be governed solely by Canadian Transport Commission regulations. It is therefore not necessary to amend the waivers applicable to the Canadian carriers. These waivers expire on March 31, 1975 pursuant to the terms of Order 74–11–154 as amended by Order 75–1–136.

[1] Segment 1: Between the terminal point Jacksonville, Fla., the intermediate points Tampa-St. Petersburg, West Palm Beach-Palm Beach, Ft. Lauderdale and Miami, Fla., and points in the Bahama Islands.

Segment 2: Between the coterminal points West Palm Beach-Palm Beach and Ft. Lauderdale, Fla., the intermediate point Havana, Cuba, and points in the Bahama Islands.

[2] We tentatively find that Eastern is a citizen of the United States within the meaning of the Act and is fit, willing and able properly to perform the foreign air transportation proposed herein and to conform to the provisions of the Act, and the Board's rules, regulations and requirements thereunder.

[3] Additional service between points in Florida and points in the Bahamas is provided by Bahamasair Holdings Limited, a foreign air carrier, and by three commuter carriers, Mackey International Airlines, Shawnee Airlines and Chalk's International Airline. OAG, March 1, 1975.

[4] Mackey Airlines, Mail Exemption, 43 C.A.B. 791 (1965).

[5] Order 71–5–19, May 6, 1971.

[6] We expect the Postal Service to submit an independent statement setting forth its position within the time allotted for filing objections to the tentative findings and conclusions contained in this order.

[7] Order 74–12–30, December 9, 1974.

[8] Throughout most of 1972 and 1973, Pan American operated five or six daily nonstop Miami-Nassau round trips. On September 6, 1973, the number was reduced to two and then to one on March 1, 1974. Service was discontinued entirely on April 24, 1974, and never reinstated. Present Bahamas service is limited to twelve weekly nonstop round trips in the New York-Nassau market and seven weekly one-stop round trips in the New York-Rock Sound market. Source: Various editions of OAG.

Therefore, Eastern's application should not be rejected, as was Mackey's, because of the availability of alternative United States-flag certificated service and because of diversion of mail revenue from an incumbent.[9] Third, since Eastern will be carrying the mail on existing flights, there should be a favorable financial impact upon the carrier.[10]

Finally, we tentatively find that there is no need to set Eastern's application for a formal hearing. In other cases in which certificate amendments of modest scope were requested and in which there was no opposition and no adverse impact upon another air carrier, show cause procedures have been utilized.[11] See, *e.g.*, Order 74–10–147, October 30, 1974 and Order 74–7–34, July 8, 1974.

Interested persons will be given thirty days following the date of adoption of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If an evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

Accordingly, it is ordered, That: 1. All interested persons be and they hereby are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions herein and amending, subject to approval of the President pursuant to section 801 of the Act, the certificate of public convenience and necessity for route 110 held by Eastern Air Lines, Inc. to authorize the foreign air transportation of mail as well as persons and property;

2. Any interested persons having objections to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendments set forth herein shall, within 30 days after the date of adoption of this order, file with the Board and serve upon all persons listed in paragraph 5 a statement of objections together with a summary of testimony, statistical data and other evidence expected to be relied upon to support the stated objections;[12]

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. A copy of this order shall be served upon Eastern Air Lines, Inc.; Pan American World Airways, Inc.; the United States Postal Service; Governor, State of Florida; and the Mayors of the Cities of Miami, Ft. Lauderdale, West Palm Beach, Tampa and Jacksonville, Florida.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75–8427 Filed 3–31–75;8:45 am]

[Docket No. 27468; Order 75–3–95]

FREE ALCOHOLIC BEVERAGES TO COACH PASSENGERS

Order Denying Petition for Reconsideration

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 26th day of March 1975.

By Order 75–2–14, dated February 4, 1975, the Board ordered the U.S. domestic trunk carriers and Pan American to provide certain information with respect to alcoholic beverages service in coach class.

Delta Air Lines, Inc. (Delta), has filed a Petition for Reconsideration asking that the Board expand the reporting requirements of its order to include reporting with respect to: (a) free alcoholic beverages to first-class passengers, (b) the expense and revenue (if any) experience with respect to in-flight television and movies, and (c) food service at other than specified meal hours. Delta contends that the Board must have this information in order to adequately ensure that such amenities do not adversely affect air fares.

Answers to Delta's petition for reconsideration have been received from Continental Air Lines, Inc. (Continental), American Airlines, Inc. (American), and United Air Lines, Inc. (United). All three parties want the Board to dismiss Delta's petition, albeit each for a different reason. American wants the Board to conduct a full investigation into amenities not limited to the items Delta mentions in their petition. In the alternative, American urges the Board to grant authority permitting all trunkline and local service carriers to engage in Board-supervised discussions related to passenger amenities.[1]

United supports the Board's action in limiting the reporting of data solely to the service of alcoholic beverages in coach service. The carrier feels that any expansion of the preliminary inquiry to include other standard amenities such as meal service would impose a costly and time-consuming undue burden on the domestic trunk carriers.

Continental believes that the Board has no right to regulate any in-flight amenities, an area, it believes Congress left to the discretion of carrier management. The carrier believes the public can be protected from the "liquor war" by disallowing the cost of free alcoholic beverages in coach in setting the fare level. Continental would also like the Board to establish general standards for efficiency and service for the purpose of setting fare-level costs; then the carriers would be able to choose their own competitive response and innovate with new service amenities—but at their own expense.

The Board finds that Delta's petition fails to establish sufficient reason for amending Order 75–2–14 and we will therefore deny the request. With regard to the service of alcoholic beverages in first class, this expense was considered in the Domestic Passenger-Fare Investigation and is reflected in the structuring of first-class fares. When the Phase 9 structure is fully implemented, the costs incurred in first-class service will be covered by that fare.

We are not persuaded that action with respect to the other matters raised by Delta, which involve practices of long standing, requires regulatory action at this particular time. On the other hand, the issue of the give-away of liquor should be expeditiously resolved before the practice spreads beyond the relatively few carriers now engaging in it.

Accordingly, pursuant to the Federal Aviation Act of 1958, *It is ordered*, That: 1. The request by Delta for reconsideration of Order 75–2–14 is hereby denied;

2. The motion of Allegheny to file an otherwise unauthorized document is granted; and

3. Copies of this order will be served upon Allegheny Airlines, Inc., American Airlines, Inc., Braniff Airways, Inc., Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., National Airlines, Inc., Northwest Airlines, Inc., Pan American World Airways, Inc.,

[9] Should Pan American express its intention to re-enter the Florida-Bahamas markets or object to grant of Eastern's application for any other reason, the carrier's pleading will receive complete consideration by the Board.

[10] As noted by Eastern, it will not be necessary to amend the Board's mail rate orders since the domestic mail rates presently in force apply to Eastern's entire system. See Priority and Nonpriority Domestic Service Mail Rates—Phase 2, Order 74–1–89, January 16, 1974, Docket 23060–2.

[11] We have tentatively determined that the certificate amendment proposed herein will not, by its very nature, lead to a "major Federal action significantly affecting the quality of the human environment" within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969. Accordingly, it is not necessary to undertake the preparation of an environmental assessment.

[12] All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections and no further such motions, requests or petitions for reconsideration of this order will be entertained.

[1] On March 3, 1975, Allegheny Airlines filed a motion for leave to file an otherwise unauthorized document. This document is in opposition to American's request. The motion will be granted.

[Docket No. 26494; Agreement C.A.B. 24806 R-1 and R-2; Agreement C.A.B. 24903 R-1 and R-2; Agreement C.A.B. 24943 R-1 and R-2; Agreement C.A.B. 24964 R-47 and R-51; Order 75-3-97]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Passenger Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 26th day of March, 1975.

By Orders 74-12-105 (December 27, 1974) and 75-2-102 (February 26, 1975), respectively, the Board deferred action on Agreement C.A.B. 24805, R-1 and R-2, and on Agreements C.A.B. 24903, R-1 and R-2 and C.A.B. 24943, R-1 and R-2, adopted by members of the International Air Transport Association (IATA). Those agreements involved the replacement of presently effective group inclusive tour (GIT) fares in most U.S.-Mexico markets with individual inclusive tour (IIT) fares.[1] Generally speaking, the new IIT fares were proposed at present GIT levels for U.S. east coast points, and at levels representing about a 10 percent increase over present GIT fares for midwest points. The IIT fares are to be available all year except during a Christmas blackout;[2] carry a 5/21-day minimum/maximum stay period; allow one stopover (in Mexico only); must be sold in connection with ground arrangements of at least $60 for the minimum stay and $7 per diem thereafter; and are 9–10 percent higher on weekends than on midweek days.[3]

A new IATA agreement has been filed with the Board which establishes the overall Western Hemisphere fare structure for effect from April 1 or April 15, 1975 through April 30, 1976, and which includes the proposed pattern of U.S.-Mexico IIT fares.[4] The new agreement, however, revises the fares previously agreed to by increasing their level approximately 10 percent over present GIT fares for both east coast and midwest points. West coast-Mexico IIT's would be set about 6 percent higher than current GIT's. GIT fares would be maintained only for travel from Florida, Buffalo, and between Los Angeles and Culiacan.

The Board has determined to approve the new agreement proposed U.S.-Mexico IIT fares for effect April 15, 1975, and to disapprove the previous agreements which, in any event, are now superseded and would expire on April 14. The Board has long encouraged the carriers to lessen reliance on group travel as opposed to individually ticketed service and the instant agreement, which covers the preponderence of U.S.-Mexico markets, represents a substantial step in this direction. The increase in fare level appears warranted since the alleged cost savings stemming from ticketing GIT service is no longer available, individual travel is inherently of greater value to the passenger than group travel, and the fares still continue to make available substantial discounts (ranging from 20 to 30 percent) from normal economy fares. Moreover, the new agreement eliminates the previous significant disparity in terms of fares levels between east coast and mid-west points.

The Board, acting pursuant to the Federal Aviation Act of 1958 and particularly sections 102, 204(a) and 412 thereof, makes the following findings:

1. It is found that the following resolutions, incorporated in the agreements indicated, are adverse to the public interest and in violation of the Act insofar as they apply in air transportation as defined by the Act:

Agreement CAB	IATA No.	Title	Application
24806:			
R-1	070aa	(Expedited) TC1 Excursion Fares USA/Canada-Mexico (Amending)	1
R-2	084ee	(Expedited) TC1 Group Inclusive Tour Fares USA/Canada-Mexico (Amending).	1

Agreement CAB 24903:	*IATA Resolution*
R-1	100 (Mail 970) 080a
R-2	100(Mail 970)084ee
Agreement CAB 24943:	*IATA Resolution*
R-1	100(Mail 971) 080a
R-2	100(Mail 971)084ee

2. It is not found that the following resolutions, incorporated in Agreement C.A.B. 24964 as indicated, are adverse to the public interest or in violation of the Act:

Agreement CAB	IATA No.	Title	Application
24964:			
R-47	080a	TC1 21-Day Individual Inclusive Tour Fares USA-Mexico (Revalidating and Amending).	1
R-51	084ee	TC1 Group Inclusive Tour Fares USA/Canada-Mexico (Revalidating and Amending).	1

Accordingly, *It is ordered*, That: 1. Agreements C.A.B. 24805, R-1 and R-2, C.A.B. 24903, R-1 and R-2, and C.A.B. 24943, R-1 and R-2, be and hereby are disapproved insofar as they apply in air transportation as defined by the Act;

2. Agreements C.A.B. 24964, R-47 and R-51, be and hereby are approved subject, where applicable, to conditions previously imposed by the Board; and

3. Tariffs implementing Agreements C.A.B. 24964, R-47 and R-51, shall be marked to expire not later than April 30, 1976.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[5]

[SEAL] EDWIN Z. HOLLAND, *Secretary.*

[FR Doc.75-8429 Filed 3-31-75;8:45 am]

[Docket No. 25280; Agreement C.A.B. 24967, R-2 through R-4; Order 75-3-107]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Reduced Fares for Cargo Sales Agents

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 27th day of March, 1975.

An agreement has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA). The agreement, adopted at the Sixth Meeting of the Cargo Agency Committee held in Singapore on November 26–29, 1974, has been assigned the above C.A.B. agreement number.

The agreement would revalidate Resolution 203a governing reduced-fare concessions for U.S.-based cargo agents, presently due to expire December 31, 1975, for an indefinite period, and would increase from 2 to 4 the number of 75 percent discount tickets provided U.S.-based agents under the productivity feature.[1]

---

[1] Agreement C.A.B. 24805 also proposed amendments to certain U.S.-Mexico excursion fares.

[2] December 15 through 28 southbound; December 29 through January 10 northbound.

[3] The Appendix sets forth a comparison of present and proposed fares in selected markets. Appendix filed as part of the original document.

[4] The balance of the agreement is dealt with in Order 75-3-96, issued concurrently herewith.

[5] Dissenting statement by Minetti and West filed as part of the original document.

[1] The portion of the resolution setting forth the number of additional reduced-fare tickets allocated under the productivity feature would be revalidated only through December 31, 1976. The productivity feature provides for extra tickets up to a maximum of 40 for each 100 percent or fraction thereof by which the total commissionable international sales of a U.S.-based IATA agent exceeds the average commissionable international sales for all agents in the country of registration.

The agreement also proposes technical and procedural amendments to Resolution 203a, as well as to Resolution 203c which governs reduced-fare concessions for foreign-based IATA cargo agents, to reduce the waiting period for reduced-fare eligibility from 12 to 3 months for persons previously qualified when employed by another IATA cargo agent, and to establish procedures for the numbering of reduced-fare authorizations and the replacement of stolen or destroyed authorizations. Finally, the agreement would amend Resolution 203e, which permits the carriers to absorb transportation expenses of IATA cargo agent employees traveling to participate in carrier-sponsored training programs, to allow stopovers on the return trip at a charge equal to 25 percent of the fare applicable between the first stopover and the point of origination.

The small increase in the unit allocation of tickets awarded for productivity under Resolution 203a does not appear to be unreasonable nor in violation of the Board's basic policy, since the allocation is still geared to the agent's productivity and would, in our opinion, still bear a reasonable relationship to his actual requirements in promoting air cargo transportation. Moreover, the present maximum total of 40 extra tickets is to be maintained without change. For these reasons, we will approve the amendment, as well as the remaining revisions to the resolutions governing reduced fares for U.S.-based and foreign-based IATA cargo agents.

However, in Order 74-3-109, dated March 26, 1974, the Board disapproved the application of Resolution 203e to U.S.-based agents. Accordingly, we will take parallel action with respect to the stopover provisions proposed in the instant agreement, although we will approve the agreement insofar as it applies to foreign-based agents.

The Board, acting pursuant to sections 102, 204(a), 404(b) and 412 of the Act, makes the following findings:

(1) It is not found that the following resolutions, incorporated in Agreement C.A.B. 24967 as indicated, are adverse to the public interest or in violation of the Act, provided that approval is subject to conditions previously imposed by the Board:

Agreement CAB	IATA No.	Title	Application
24967:			
R-2	203a	Reduced Fares for Cargo Agents (USA only) (Revalidating and Amending).	1; 2; 3; 1/2; 2/3; 3/1; 1/2/3.
R-3	203c	Reduced Fares for Cargo Agents (Except USA) (Amending)	1; 2; 3; 1/2; 2/3; 3/1; 1/2/3.
R-4	203e	Training Courses for Cargo Agents (Revalidating and Amending) (Insofar as it would apply only to the employees of foreign-based IATA cargo sales agents).	1; 2; 3; 1/2; 2/3; 3/1; 1/2/3.

(2) It is found that the following resolution, incorporated in the Agreement as indicated, is adverse to the public interest and in violation of the Act:

Agreement CAB	IATA No.	Title	Application
24967:			
R-4	203e	Training Courses for Cargo Agents (Revalidating and Amending) (Insofar as it would apply to the employees of U.S.-based IATA cargo sales agents).	1; 2; 3; 1/2; 2/3; 3/1; 1/2/3.

Accordingly, it is ordered, That: 1. Those portions of Agreement C.A.B. 24967 set forth in finding paragraph 1 above be and hereby are approved, subject to conditions previously imposed by the Board; and

2. That portion of Agreement C.A.B. 24967 set forth in finding paragraph 2 above be and hereby is disapproved as it would apply to employees of U.S.-based cargo agents.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND, *Secretary.*

[FR Doc.75-8432 Filed 3-31-75;8:45 am]

[Docket 26362; Order 75-3-106]

TEXAS INTERNATIONAL AIRLINES, INC.

Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 27th day of March, 1975.

By petition filed January 31, 1975, Texas International Airlines, Inc. (TXI) requests the Board to issue an order requiring interested persons to show cause why its certificate of public convenience and necessity for route 82 should not be amended so as to delete Lufkin, Texas.

By letter to Administrative Law Judge Frank M. Whiting dated November 26, 1974, the City of Lufkin, the Angelina County Airport Board and the Angelina County Chamber of Commerce, previously civic party intervenors in this proceeding, advised that they will not oppose TXI's application for deletion of Lufkin.

TXI's petition and the civic parties' letter mark the culmination of nearly two years of litigation, negotiation, and trial air service at Lufkin. On February 27, 1973, TXI filed an application for deletion of Lufkin, for temporary suspension of service at Lufkin pending the outcome of the deletion case and for resolution of the deletion case by show cause procedures. The civic parties opposed and the case was set for hearing, but the prehearing conference was postponed twice[1] while the civic parties and TXI first negotiated and then implemented a plan of improved air service and amplified promotion for a trial period. The trial pattern of service, whose principal feature was an early morning-late eventing round trip to Dallas, commenced in October 1974 and has continued with minor variations to the present.[2] While the improved service met with some traffic response, all parties acquiesce in TXI's view that the response was not sufficient to warrant continuation of the trial. However, TXI has agreed at the request of the city to continue air service at least until March 31, 1975.

In its petition, TXI alleges that while traffic has responded to the trial service pattern, the response has been insufficient and the overall level of traffic generation remains poor. In its original pleadings in this case TXI showed 2,370 boardings, or 3.5 per flight during 1972. TXI now states that before trial service was instituted the traffic level had declined to 1,775 total boardings or 2.8 per flight and that during the trial year of 1974 the traffic grew to only 2,431 total boardings or 4.3 per flight. Put in terms of passengers per day, traffic went from 6.5 in 1972, 4.9 in 1973, to 7.2 in 1974.

TXI further contends that the small traffic growth in the trial period has not stemmed the loses it experiences by serving Lufkin. Rather, TXI states the total subsidy need reduction which would accrue from deletion of Lufkin has actually increased slightly from $210,807 based on year end June 30, 1973 results to $214,738 based on year-end September 30, 1974 figures, although the increase in traffic has led to a decline in the subsidy need per passenger from $50.10 per passenger in the earlier period to $44.27 per passenger during the year ended September 30, 1974.[3]

This poor financial history is apparently not the result of failure of promotion. TXI offers evidence of substantial promotional efforts by itself and the civic parties.[4] TXI attributes poor traffic generation at Lufkin to the proximity and convenience of the vastly superior air services at Houston International Airport which TXI estimates is

---

[1] By notice from Judge Whiting dated June 29, 1973, the prehearing conference was originally set for August 1, 1973. By notices dated July 26, 1973 and September 20, 1973, Judge Whiting postponed the prehearing conference until September 26, 1973 and then postponed it indefinitely to permit a test and evaluation of improved air service at Lufkin.

[2] The service included an afternoon round trip as well. The flight itinerary has been Dallas/Ft. Worth-Tyler-Longview-Lufkin. While this experimental service pattern was not an improvement in terms of number of round trips, which remained at two, it was an improvement in timing.

[3] TXI's estimates may be understated in that they do not account for the financial benefit to TXI from retention of Lufkin traffic at alternate airports. Because Lufkin is the final point on a turn-around flight we do not anticipate any gain to TXI due to stimulation of traffic at downline points.

[4] See Appendix F of TXI's petition.

V 40 163 APR 175

only 100 miles from Lufkin with a driving time of 105 minutes, over excellent highways.[5]

No answers to TXI's petition have been received.

Upon consideration of the pleadings and all the relevant facts, we have decided to grant TXI's petition for an order to show cause why that carrier's obligation to serve Lufkin, Texas should not be terminated.[6] We note again the acquiescence of the civic parties in this procedure.

We tentatively find and conclude that the public convenience and necessity require the amendment of TXI's certificate of public convenience and necessity so as to delete Lufkin, Texas from segment 4 of route 82. We further tentatively find that Lufkin, Texas has consistently been a poor traffic-generating point with only 4.3 passengers per flight and only 7.3 per day during the year ended September 30, 1974, and that this low level of enplanements created the inordinately high level of subsidy need during that period of at least $214,735 or $44.27 per Lufkin passenger. In light of the recent experiment in air service conducted at Lufkin, we also tentatively conclude that there is little prospect for improved financial results at Lufkin in the future. We also tentatively find and conclude that Lufkin, Texas has reasonable access to the national air transportation system.[7]

Interested persons will be given 30 days following the date of adoption of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If any evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

Accordingly, it is ordered, That: 1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein, amending the certificate of public convenience and necessity of Texas International Airlines, Inc. for route 82 so as to delete Lufkin, Texas therefrom, and terminating the proceedings in Docket 25252;

2. Any interested persons having objections to the issuance of an order making final any of the proposed findings, conclusions or certificate amendments set forth herein shall, within 30 days after the date of adoption of this order, file with the Board and serve upon all persons listed in paragraph 5 a statement of objections together with a summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections;[8]

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. A copy of this order shall be served upon Texas International Airlines, Inc., the City of Lufkin, the Angelina County Airport Board, the Angelina County Chamber of Commerce, the Governor, State of Texas, and the U.S. Postal Service.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

LAS VEGAS-CALGARY/EDMONTON ROUTE PROCEEDING

Hearing

Notice is hereby given pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a public hearing in the above-entitled proceeding will be held on May 13, 1975, at 10 a.m. (local time) in Room No. 4, Las Vegas Convention Center, Convention Center and Paradise Roads, Las Vegas, Nevada, before the undersigned Administrative Law Judge.

In addition to the parties of record, any person may appear and present factual evidence relevant to the issues in accordance with rule 14 of the Board's rules of practice (14 CFR 302.14). All such participants will be heard at the beginning of the hearing. They will be followed by the Civic Parties, Hughes Airwest, Western Air Lines, and the Bureau of Operating Rights.

For information regarding the issues and other elements involved in this proceeding, interested persons are referred to Board Orders 74-11-89 (November 19, 1974) and 74-12-20 (December 5, 1974) instituting this proceeding, and to the various documents which are in the docket of this case on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., March 27, 1975.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 354-2]

STANDARDS OF PERFORMANCE FOR NEW STATIONARY SOURCES AND NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS

Delegation of Authority to State of Washington

On December 23, 1971 (36 FR 24876) and March 8, 1974 (39 FR 9308), pursuant to section 111 of the Clean Air Act, as amended, the Administrator of the Environmental Protection Agency (EPA) promulgated regulations establishing standards of performance for five categories and seven categories of new stationary sources (NSPS), respectively. On April 6, 1973 (38 FR 8820), pursuant to section 112 of the Clean Air Act, as amended, the Administrator promulgated national emission standards for three hazardous air pollutants (NESHAPS). Section 111(c) and 112(d) direct the Administrator to delegate his authority to implement and enforce NSPS and NESHAPS to any State which has submitted adequate procedures. Nevertheless, the Administrator retains concurrent authority to implement and enforce the standards following delegation of authority to the State.

On April 22, 1974, the Regional Administrator, Region X, EPA, forwarded to the State of Washington information setting forth the requirements for an adequate procedure for implementing and enforcing the standards for NSPS and NESHAPS. On January 8, 1975, the Governor of Washington submitted to the EPA Regional Office a request for delegation of authority. Included in that request were copies of the State of Washington Department of Ecology regulations which incorporate by reference the federal emission standards and testing procedures set forth in 40 CFR Parts 60 and 61, with certain exceptions. Also included were copies of State statutes which provide the State with the requisite authority to enforce the NSPS and NESHAPS. After a thorough review of that request, the Regional Administrator has determined that for the source categories set forth in paragraphs (a) and (b) of the following official letter to the Governor, delegation is appropriate subject to the conditions set forth in paragraphs 1 through 13 of that letter:

HON. DANIEL J. EVANS,
Governor of Washington,
Olympia, Wash. 98501

DEAR GOVERNOR EVANS: This letter is in response to your January 8, 1975, request for delegation of authority for implementation and enforcement of the Standards of Performance for Stationary Sources (NSPS) for eleven of the twelve source categories promulgated by EPA prior to January 1, 1975, and the National Emission Standards for Hazardous Air Pollutants (NESHAPS) for the three pollutants promulgated prior to June 1, 1974.

The Environmental Protection Agency (EPA) has determined that the following statutes for the State of Washington and the following regulations for the Department of Ecology generally provide for an adequate and effective procedure for implementation and enforcement of the NSPS and NESHAPS by the State of Washington and the Department of Ecology: Revised Code of Washington (RCW) 70.94.141; 70.94.151; 70.94.152; 70.94.200; 70.94.205; 70.94.211; 70.94.221; 70.94.331; 70.94.332; 70.94.333; 70.94.380; 70.94.425; 70.94.490; 70.94.431; and 70.94.435; Washington Administrative Code (WAC) 18-04-075; 18-04-100; 18-04-110; and 18-04-115. EPA hereby delegates to the State of Washington on behalf of the Department of Ecology, subject to the conditions set forth in paragraphs 1 through 13, the authority for:

(a) All sources in the State included in the list of source categories noted below which are subject to the standards of performance for new stationary sources promulgated in 40 CFR Part 60 prior to January 1, 1975. The eleven (11) categories of new sources covered by the delegation are incinerators; Portland cement plants; nitric acid plants; sulfuric acid plants; asphalt concrete plants, petroleum refineries; storage vessels for petroleum liquids; secondary lead smelters; secondary brass and bronze ingot production plants; iron and steel plants; and sewage treatment plants. Per your request, authority to implement and enforce NSPS for fossil fuel-fired steam generators is not covered by this delegation.

(b) All sources in the State which are subject to national emission standards for hazardous air pollutants promulgated in 40 CFR Part 61 prior to June 1, 1974. The three hazardous air pollutants covered by the delegation are asbestos, beryllium and mercury.

This delegation is based upon the following conditions:

1. The Department of Ecology will at no time grant a waiver of compliance with NESHAPS as provided for in WAC 18-04-075(2).

2. Sources subject to NSPS shall be excluded from WAC 18-04-150 which provides for variance from limitations contained in WAC 18-04 in accordance with the provisions of RCW 70.94.181. 40 CFR 60.11 does not allow for variance from emission limitations and is more stringent than the State regulation.

3. The "modification" of a source is defined in 40 CFR 60.2(h) and 61.2(h) as "any physical change in, or change in the method of operation of, an affected facility . . ." This definition is more stringent than WAC 18-04-110(3)(b) which contains a requirement relating to: "The addition to or enlargement or replacement of or major alteration in any stationary source . . ." The stricter definition in the federal regulations will apply to all sources which are subject to NSPS and NESHAPS.

4. Delegation of authority is conditioned to exclude sources subject to NSPS from WAC 18-04-120(3). This subsection is less stringent than 40 CFR Part 60 in that WAC 18-04-120 (3) specifies that the director may require a source test be conducted. NSPS regulations require performance testing of all affected facilities (40 CFR 60.8).

5. Asphalt batch plants which are (1) new sources or (2) are subject to NSPS in a State other than Washington shall be specifically excluded from the provisions of WAC 18-04-110(11). This section, as presently stated, could relieve a relocated plant from NSPS requirements such as performance testing, record keeping, etc. thereby making the regulation less stringent than NSPS requirements.

6. Enforcement of the NSPS and NESHAPS in the State will be the primary responsibility of the State of Washington Department of Ecology. If the State determines that such enforcement is not feasible and so notifies EPA, or where the State acts in a manner inconsistent with the terms of this delegation, EPA may exercise its concurrent enforcement authority pursuant to section 113 of the Clean Air Act as amended, with respect to sources which are subject to the NSPS and NESHAPS.

7. Upon approval of the Regional Administrator of Region X, the Director of the Department of Ecology may subdelegate his authority to implement and enforce the NSPS and NESHAPS to air pollution control authorities in the State when such authorities have demonstrated that they have equivalent or more stringent programs in force.

8. Acceptance of this delegation of presently promulgated NSPS and NESHAPS does not commit the State of Washington and the Department of Ecology to request or accept delegation of future standards and requirements. A new request for delegation will be required for any standards not included in the State's request of January 8, 1975.

9. The Department of Ecology will utilize the methods specified in 40 CFR Part 60 and 61 in performing source tests pursuant to the regulations, as specified in WAC 18-04-075 and 18-04-115, respectively.

10. The Department of Ecology and EPA will develop a system of communication sufficient to guarantee that each office is always fully informed and current regarding compliance status of the subject sources and interpretation of the regulations.

11. The delegation to the State of Washington does not include the authority to implement and enforce NSPS or NESHAPS for sources owned or operated by the United States which are located in the State.

12. If at any time there is a conflict between a State's regulation and a federal regulation (40 CFR Part 60 or 61), the federal regulation must be applied if it is more stringent than that of the State.

13. If the Regional Administrator determines that a State procedure for enforcing or implementing the NSPS or NESHAPS is inadequate, or is not being effectively carried out, this delegation may be revoked in whole or part. Any such revocation shall be effective as of the date specified in a Notice of Revocation to the Governor of the State of Washington.

A notice announcing this delegation will be published in the FEDERAL REGISTER in the near future. The Notice will state, among other things, that, effective immediately, all reports required pursuant to the federal NSPS (except fossil fuel-fired steam generators) and NESHAPS from sources located in the State should be submitted to the State of Washington Department of Ecology, Olympia, Washington, as well as the EPA, Region X Office. However, reports required pursuant to 40 CFR 60.7(c) (excess emissions and malfunctions) will be submitted to the State Agency only. Any reports which have been or may be received in this office prior to the publication of the Notice will be forwarded to the Department of Ecology.

Pursuant to discussions between EPA staff and Department of Ecology staff it has been agreed that the pending NESHAPS action concerning the Weyerhaeuser mercury chlor-alkali plant at Longview will be concluded by EPA and subject to DOE concurrence.

Since this delegation is effective immediately, there is no requirement that the State notify EPA of its acceptance. Unless EPA receives from the State written notice of objections within 10 days of the date of receipt of this letter, the State will be deemed to have accepted all the terms of the delegation.

Sincerely yours,

CLIFFORD V. SMITH, JR.,
Ph. D., P.E.,
Regional Administrator.

Therefore, pursuant to the authority delegated to him by the Administrator, the Regional Administrator notified the Governor of Washington on February 28, 1975, that authority to implement and enforce the standards of performance for new stationary sources and the national emission standards for

[5] In addition, air service is available at Tyler and Beaumont/Port Arthur.

[6] Our action does not result in a major Federal action significantly affecting the quality of the environment within the meaning of the National Environmental Policy Act of 1969. It is likely that our decision will result in some increase in surface traffic. However, in view of the low level of daily enplanements at Lufkin, it is doubtful that such an increase will be significant, especially when placed against the beneficial environmental effects of the elimination of TXI's current operations at Lufkin.

[7] We also tentatively find and conclude that TXI is a citizen of the United States within the meaning of the Act and is fit, willing and able properly to perform the air transportation pursuant to the proposed amended certificate of public convenience and necessity and to conform to the provisions of the Act and the Board's rules, regulations and requirements thereunder.

[8] All motions and/or petitions for reconsiderations shall be filed within the period allowed for filing objections and no further such motions, requests or petitions for reconsideration of this order will be entertained.

V 40-163 APR 1 75

hazardous air pollutants was delegated to the State of Washington.

Copies of the request for delegation of authority are available for public inspection at the Environmental Protection Agency, Region X Office, 1200 Sixth Avenue, Seattle, Washington 98101.

Effective immediately, all reports required pursuant to the standards of performance for new stationary sources listed in the above letter and the national emission standards for hazardous air pollutants should be submitted to the EPA Region X Office and should also be submitted to the State Agency at the following address:

State of Washington
Department of Ecology
Olympia, Washington 98504

However, reports required pursuant to 40 CFR 60.7(c) (excess emissions and malfunctions) should be sent to the State Agency only.

This notice is issued under the authority of sections 111 and 112 of the Clean Air Act, as amended. 42 U.S.C. 1857 c–6 and 7.

Dated: March 7, 1975.

DOUGLAS C. HANSEN,
Acting Regional Administrator.

[FR Doc.75–8400 Filed 3–31–75;8:45 am]

FEDERAL COMMUNICATIONS COMMISSION

NOTIFICATION LIST

Mexican List No. 273

List of new stations, proposed changes in existing stations, deletions, and corrections in assignments of Mexican standard broadcast stations modifying the assignments of Mexican broadcast stations contained in the Appendix to the Recommendations of the North American Regional Broadcasting Agreement Engineering Meeting, January 30, 1941.

January, 1975.

FEDERAL ENERGY ADMINISTRATION

CONSUMER AFFAIRS AND SPECIAL IMPACT ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770) notice is hereby given that the Consumer Affairs and Special Impact Advisory Committee will meet Thursday, April 17, 1975, at 9 a.m., Conference Room B, Departmental Auditorium, Constitution Avenue between 12th and 14th Street, NW., Washington, D.C.

This Committee was established to provide the Federal Energy Administration with diversified knowledge and experiences possessed by a wide range of highly qualified individuals who have been extensively involved in planning, developing, and implementing programs to remedy the problems of the consumer, the poor, the elderly, and the handicapped persons in rural and urban America.

The agenda for the meeting is as follows:

1. Staff Progress Report.
2. Report of Consumer Energy Workshop held in Philadelphia.
3. Old Business.
4. New Business:
   - Analysis of Citizens Energy Platform Presentation by Staff of Office of Policy and Analysis.
   - Plant Siting, Presentation by Staff of Office of Energy Resource Development.
   - Impact of the Energy Crisis on the Low and Middle Income Aged, Presentation by Staff of the Office of Consumer Affairs and Special Impact.

The meeting is open to the public. The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Lois Weeks, Advisory Committee Management Officer, (202) 961-7022, at least 5 days before the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection at the Federal Energy Administration, Washington, D.C.

Issued at Washington, D.C. on March 26, 1975.

ROBERT E. MONTGOMERY, Jr.,
General Counsel.

FEDERAL MARITIME COMMISSION

IBERJON/U.S. NORTH ATLANTIC WESTBOUND FREIGHT CONFERENCE

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before April 21, 1975. Any person desiring a hearing on the

V 40 163 APR 1 75

proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

Stanley O. Sher, Esquire
Billig, Sher & Jones, P.C.
Suite 300
1126 Sixteenth Street NW.,
Washington, D.C. 20036

Agreement No. 9615-14, among the member lines of the above-named conference, authorizes the conference to appoint the Executive Director of the Associated North Atlantic Freight Conferences, or any other entity, as its Enforcement Authority for purposes of self-policing.

By Order of the Federal Maritime Commission.

Dated: March 26, 1975.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.75-8378 Filed 3-31-75;8:45 am]

FEDERAL POWER COMMISSION

[Docket No. CP75-201]

ARKANSAS LOUISIANA GAS CO.

Withdrawal

MARCH 24, 1975.

On March 13, 1975, Arkansas Louisiana Gas Company filed a withdrawal of its application of December 31, 1974, in the above-designated matter.

Notice is hereby given that pursuant to § 1.11(d) of the Commission's rules of practice and procedure, the withdrawal of the above application shall become effective April 14, 1975.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-8340 Filed 3-31-75;8:45 am]

[Docket No. RI75-144]

AZTEC OIL AND GAS CO.

Extension of Procedural Dates

MARCH 24, 1975.

On March 20, 1975, Aztec Oil and Gas Company filed a motion to extend the procedural dates fixed by order issued January 27, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above-matter are modified as follows:

Service of Company's and Supporting Intervenors, Direct Testimony, April 4, 1975.
Service of Staff's and of Opposing Intervenors Testimony, April 25, 1975.
Service of Company Rebuttal, May 2, 1975.
Hearing, May 20, 1975 (10 a.m., e.d.t.).

KENNETH F. PLUMB,
Secretary.

[Docket No. CP75-129]

COLUMBIA GAS TRANSMISSION CORP.

Findings and Order After Statutory Hearing Issuing Certificate of Public Convenience and Necessity and Permitting and Approving Abandonment in Part, Establishing Procedural Dates and Fixing Date for Formal Hearing

MARCH 25, 1975.

On October 29, 1974, Columbia Gas Transmission Corporation (Applicant) filed in Docket No. CP75-129 an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities and for permission and approval to abandon certain natural gas facilities on its existing transmission system, all in the states of Ohio and West Virginia and the Commonwealth of Pennsylvania, all as more fully set forth in the application in this proceeding.

Specifically, Applicant proposes the following projects:

1. The construction and operation of approximately 0.9 mile of 24-inch transmission pipeline replacing a like amount of 16-inch pipeline located in Franklin County, Ohio.

The existing 16-inch pipeline is the sole source of supply for the communities of Canal, Winchester, Groveport, Obetz, and Waterloo, Ohio, and is one of the main lines serving the Columbus, Ohio, market area. The segment to be replaced was installed in 1947 and 1959 with reconditioned pipe that was salvaged from a pipeline that was constructed in 1911. Applicant asserts that the proposed replacement with larger diameter pipe will provide for future growth potential in the market areas served from this facility.

2. The construction and operation of approximately 0.9 mile of 3-inch transmission pipeline replacing a like amount of 2-inch pipeline located in Licking County, Ohio.

The segment to be replaced was installed in 1926 with screw connected bare steel pipe and is a portion of the transmission pipeline that is the sole transporter of supply for the community of Hartford, Ohio. Applicant alleges that the larger diameter replacement will provide needed operating flexibility for service to the existing market area.

3. The construction and operation of approximately 2.2 miles of 3-inch transmission pipeline replacing, in two separate segments, a like amount of 6-inch pipeline located in Knox County, Ohio.

This 6-inch transmission line is the sole transporter of supply for the communities of Bangs and Mount Liberty, Ohio. The segments to be replaced were installed in 1905 and consist of a mixture of coupled bare wrought iron pipe and steel pipe with no protection against corrosion. The proposed replacements with smaller diameter pipe will provide adequate capacity to supply the present and anticipated future market requirements of the communities served.

4. The construction and operation of approximately 0.9 mile of 4-inch transmission pipeline replacing a like amount of 8-inch pipeline located in Lorain County, Ohio.

The existing 8-inch transmission pipeline is the sole transporter of supply for a portion of the community of North Ridgeville, Ohio. The segment of pipe to be replaced consists of coupled bare steel pipe installed in 1915 with no protection against corrosion. The proposed replacement with smaller diameter pipe will provide adequate capacity to meet the present and anticipated future market requirements of the market area served through this facility.

5. The construction and operation of approximately 0.2 mile of 6-inch and approximately 0.9 mile of 2-inch transmission pipeline replacing, in two separate segments, a like amount of 4-inch and 8-inch pipeline located in Medina County, Ohio.

This 4-inch and 8-inch transmission pipeline is the sole transporter of supply for the communities of Chatham and Lafayette, Ohio. The segments to be replaced were installed in 1916 with sections of coupled bare steel pipe with no corrosion protection. The proposed smaller diameter replacements will provide adequate capacity to meet the present and anticipated future market requirements of the two communities.

6. The construction and operation of approximately 1.2 miles of 3-inch transmission pipeline replacing a like amount of 4-inch and 8-inch pipeline in Wayne County, Ohio.

The existing 4-inch and 8-inch transmission pipeline is the sole transporter of supply for the community of Lattasburg, Ohio. The segment of pipeline to be replaced was originally constructed in 1914 with coupled bare steel pipe with no corrosion protection. The proposed smaller diameter replacement pipeline will provide adequate capacity to supply the present and anticipated future market requirements of Lattasburg.

7. The construction and operation of approximately 0.6 mile of 16-inch transmission pipeline replacing, in seven separate segments, a like amount of 12-inch pipeline, located in Wayne County, Ohio.

The segments to be replaced are part of Applicant's 12-inch and 16-inch transmission system that serves six communities in Knox, Ashland, Wayne, and Medina Counties, Ohio. Segments of the line were originally installed in 1931, 1935, and 1922 with coupled bare steel pipe without corrosion protection. Applicant has been in the process for several years of replacing portions of this pipeline with 16-inch pipe and the proposed replacements are a continuation of this program to assure continued dependable service to existing wholesale customers.

8. The construction and operation of approximately 2.2 miles of 6-inch transmission pipeline replacing, in two separate segments, a like amount of 8-inch and 4-inch pipeline located in Homer County, Ohio.

This 3-inch and 4-inch transmission pipeline is a portion of Applicant's transmission system serving the requirements of the communities of Millersburg, Killbuck, and Clark, Ohio. The segments to be replaced consist of bare steel pipe installed in 1944 with no protection against corrosion. Applicant has previously replaced segments of this pipeline and the replacements proposed herein are part of a continuing program to maintain service to existing customers. Applicant proposes to replace the line with larger diameter pipe and alleges that a larger diameter pipe is needed to offset the decline in locally produced and purchased gas and to provide for future growth in the markets served from this line.

9. The construction and operation of approximately 0.8 mile of 6-inch transmission pipeline replacing a like amount of 4-inch pipeline in Perry County, Ohio.

This segment of existing 4-inch transmission pipeline is the sole transporter of supply for the community of New Lexington, Ohio. The segment to be replaced was installed in 1905 with bare steel pipe and without protection against corrosion. Applicant maintains that the proposed replacement with larger diameter pipe is required in order to offset the anticipated decline in locally produced volumes of gas presently delivered to the New Lexington market area.

10. The construction and operation of approximately 0.7 mile of 6-inch transmission pipeline replacing a like amount of 4-inch pipeline located in Athens County, Ohio.

The existing 4-inch transmission pipeline is a portion of the pipeline system serving the requirements of the Athens, Ohio, market area. The segment to be replaced consists of screw-connected bare steel pipe installed in 1924 without protection against corrosion. Applicant asserts segments of the line have previously been replaced and the proposed project will assure continuity of service and will provide capacity required to offset the projected decline in locally produced volumes of gas presently delivered to the Athens area.

11. The construction and operation of approximately 0.6 mile of 4-inch transmission pipeline replacing a like amount of 8-inch pipeline located in Jefferson County, Ohio.

The existing 8-inch transmission pipeline is a portion of the pipeline system serving the Unionport and Hopedale, Ohio, communities. The segment to be replaced consists of screw-connected bare steel pipe installed in 1927 with no protection against corrosion. Segments of this pipeline system have been previously replaced and the proposed project is a continuation of that program. The replacement with smaller diameter pipe will not impair Applicant's ability to supply the existing and anticipated future market requirements served through this facility.

12. The construction and operation of approximately 0.9 mile of 3-inch transmission pipeline replacing a like amount of 6-inch pipeline located in Columbiana County, Ohio.

This existing 6-inch transmission pipeline is the sole transporter of supply for the community of Franklin Square, Ohio. The section to be replaced was installed in 1904 with screw-connected bare steel pipe and without protection against corrosion. The proposed replacement with smaller diameter pipe will provide adequate capacity for Applicant to serve the present and anticipated future requirements in the Franklin Square market area.

13. The construction and operation of approximately 0.2 mile of 10-inch transmission pipeline replacing a like amount of 8-inch pipeline located in Lawrence County, Pennsylvania.

The segment of 8-inch transmission pipeline to be replaced is a portion of the pipeline system utilized to transport volumes of gas from Applicant's Brinker Storage Field and to its markets in that area. This segment of line was installed in 1952 and consists of bare steel pipe with no protection against corrosion. Applicant has previously replaced segments of this line with 10-inch pipe, and the proposed scheduled replacement is a continuation of Applicant's program to assure dependable service to its existing customers. The installation of larger pipe is needed to provide additional operating flexibility in this portion of Applicant's system.

14. The construction and operation of approximately 0.6 mile of 4-inch transmission pipeline replacing, in two separate segments, a like amount of 8-inch pipeline in Fayette County, Pennsylvania.

The existing 8-inch transmission pipeline transports a commingled stream of locally produced and purchased gas, southwest purchases, and storage withdrawals to supply the market requirements of communities located in Garrett County, Maryland, and Somerset County, Pennsylvania. The segments to be replaced consist of screw-connected bare steel pipe installed in 1906 with no corrosion protection. Applicant proposes to replace these 8-inch segments with smaller diameter pipe which will provide adequate capacity to meet the present and future market requirements of the communities served.

15. The construction and operation of approximately 0.4 mile of 8-inch transmission pipeline replacing a like amount of 16-inch pipeline in Tyler County, West Virginia.

The existing 16-inch transmission pipeline transports locally produced and purchased volumes of gas from the Sedalia production area in Doddridge, Harrison, and Wetzel Counties, West Virginia, to Applicant's Porter Falls Compressor Station in Wetzel County, where it is commingled with other production volumes and transported to markets in Wetzel County and Monroe County, Ohio. The segment to be replaced was installed in 1904 with coupled sections of bare steel pipe without protection against corrosion. The proposed smaller diameter pipe will provide adequate capacity to transport the above-mentioned volumes.

16. The construction and operation of one 600 horsepower compressor unit and the abandonment of five existing compressor units, totalling 3,350 horsepower, at Buff Lick Compressor Station located in Kanawha County, West Virginia.

Applicant's Buff Lick Compressor Station presently consists of five obsolete horizontal-reciprocating compressor units which were originally installed in 1917, 1919, and 1920. This station is utilized to compress locally produced and purchased gas from a suction pressure ranging between 1 and 4 psig to a discharge pressure ranging between 100 and 135 psig. The volumes of gas compressed at Buff Lick are transported along with other locally produced and purchased gas to Applicant's Cobb Compressor, also in Kanawha County, where they are further commingled in Applicant's interstate transmission system. The application states that the existing Buff Lick Compressor units, which employ an open-type cooling system, have deteriorated to a point that their continued operation and maintenance is no longer economically feasible and replacement parts for these units are no longer commercially available. Applicant asserts that because the volumes of locally produced and purchased gas have substantially declined over the years, the proposed 600 horsepower unit is needed to provide adequate capacity to compress all volumes of gas that will be available to the Buff Lick Station.

17. The construction and operation of approximately 1.9 miles of 4-inch transmission pipeline and appurtenant regulating facilities, and the abandonment of approximately 15.6 miles of multiple 8-inch and single 8-inch pipeline located in Lancaster County, Pennsylvania.

This 6-inch transmission system is the sole transporter of supply for Applicant's Lititz, Pennsylvania, point of delivery to UGI Corporation. Approximately 11.7 miles of multiple pipelines were installed between 1890 and 1905 with screw-connected bare steel pipe and without protection against corrosion. The remaining single pipeline, approximately 3.9 miles in length, consists of welded steel pipe which was installed in 1956 with cathodic protection. Because of the age and deteriorating condition of the portion of this system that was installed between 1890 and 1905, said multiple pipelines must either be replaced or an alternate method provided to supply the Lititz market requirements of UGI Corporation.

Rather than replace the 70-year old facility, Applicant proposes to install a shorter and smaller diameter transmission lateral approximately 1.9 miles in length, together with appurtenant regulating facilities, connecting its Lititz delivery point with its nearby 20-inch transmission pipeline. The proposed connecting lateral will provide adequate capacity to serve the present and anticipated future requirements at the Lititz delivery point.

18. The abandonment of approximately 13.6 miles of 4-inch, 5-inch, and 6-inch transmission pipeline in Jefferson County, Pennsylvania.

This existing low-pressure transmission system was installed between 1910 and 1926 and consists of two parallel 5-inch and 6-inch pipelines with short segments of 4-inch pipeline. These facilities are utilized to transport storage withdrawals and locally produced and purchased volumes to Applicant's New Bethlehem, Pennsylvania, market area. Because of the decline in locally produced and purchased gas in the Jefferson County production area, the continued operation of this dual pipeline system is no longer necessary. Applicant proposes to abandon four separate segments of this pipeline and to interconnect the remaining segments, thus providing a single pipeline system with adequate capacity to transport the available volumes of gas to the New Bethlehem market area.

19. The abandonment of approximately 0.3 mile of 8-inch transmission pipeline crossing the Ohio River, and appurtenant measuring and regulating facilities, located in Brooke County, West Virginia, and Jefferson County, Ohio.

Applicant's 8-inch transmission pipeline crossing of the Ohio River was installed in 1902 and, for the most part, consists of screw-connected pipe. Prior to 1972, this facility was utilized by Applicant as a secondary supply line for service to the community of Steubenville, Ohio. Flooding of the Ohio River in 1972 damaged said pipeline to the extent that Applicant found it necessary to remove from service the river crossing together with appurtenant facilities. Because sufficient capacity exists in other of Applicant's transmission facilities in this area, Applicant proposes to abandon this river crossing and all appurtenant facilities.

20. The abandonment of approximately 0.4 mile of 16-inch transmission pipeline located in Wetzel County, West Virginia.

This segment of Applicant's 16-inch transmission pipeline, together with an adjoining segment of the same pipeline which Applicant has previously been authorized to abandon, was previously utilized by Applicant to supply the market requirements of the community of Reader, West Virginia. Because this community is presently being supplied through an extension of the distribution system of Applicant's affiliate, Columbia Gas of West Virginia, Inc., the segment herein proposed to be abandoned is no longer used or useful in Applicant's transmission operations.

The abandonments proposed herein by Applicant will not result in the termination of service to any of Applicant's existing customers.

Applicant states the above described construction projects are primarily designed to maintain service to its existing wholesale customers at levels presently authorized by the Commission and that

V 40 163
APR 1 75

Applicant is not herein requesting authorization for any service or sale not heretofore authorized. With the exception of six projects Applicant has demonstrated such a purpose and the public convenience and necessity will be advanced by certification of those fourteen projects. Applicant has failed to produce sufficient evidence with respect to project numbers 1, 2, 8, 9, 10, and 16 hereinbefore described to warrant certification at this time. Rather than involving replacement of existing facilities with facilities of like size and deliverability these projects involve larger diameter pipe or additional compressor facilities which would result in increased capacity and deliverability. Applicant has failed to demonstrate the need for such facilities and we believe that a formal hearing should be convened to develop a complete record in this proceeding with respect to these six projects. Such proceeding should develop inter alia, a record regarding:

1. The future growth potential in the market areas proposed to be served by the facilities proposed in project numbers 1, 2 and 8 and the type and size of facilities, if any, required to meet such growth.

2. The degree of decline in locally produced and purchased gas stated to be offset by facilities proposed in project numbers 8, 9 and 10 and the type and size of facilities, if any, required to meet such declines.

3. The state of condition of the compressor units proposed to be abandoned in project number 16, the availability of replacement parts, the advisability of the units' replacement with the proposed 600 horsepower unit, and the effect of such a replacement on Applicant's system.

The Commission finds that this order does not constitute a major Federal action having any significant effect on the human environment.

After due notice by publication in the FEDERAL REGISTER on November 18, 1974 (39 FR 40530), no petition to intervene, notice of intervention, or protest to the granting of the application has been filed.

At a hearing held on March 20, 1975, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the application and exhibits thereto, submitted in support of the authorizations sought herein, and upon consideration of the record,

The Commission finds. (1) Applicant, Columbia Gas Transmission Corporation, a Delaware corporation having its principal place of business in Charleston, West Virginia, is a "natural-gas company" within the meaning of the Natural Gas Act, as heretofore found by the Commission in its order, issued March 10, 1971, in Docket No. CP71-132 (45 FPC 396).

(2) The facilities hereinbefore described, as more fully described in the application in this proceeding, are to be used in the transportation of natural gas in interstate commerce, subject to the jurisdiction of the Commission, and the construction and operation thereof by Applicant are subject to the requirements of Subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) Applicant is able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(4) The construction and operation of the proposed facilities by Applicant hereinbefore described in project numbers 3, 4, 5, 6, 7, 11, 12, 13, 14, 15, 17, 18, 19 and 20 are required by the public convenience and necessity and a certificate therefor should be issued as hereinafter ordered and conditioned.

(5) The facilities proposed to be abandoned, as hereinbefore described, are subject to the jurisdiction of the Commission and the abandonment thereof is subject to the requirements of subsection (b) of section 7 of the Natural Gas Act.

(6) The abandonment of facilities described in project numbers 3, 4, 5, 6, 7, 11, 12, 13, 14, 15, 17, 18, 19 and 20 by Applicant, as hereinbefore described, are permitted by the public convenience and necessity, and an order authorizing and approving same should be issued as hereinafter ordered.

(7) It is necessary and appropriate that part of the application in Docket No. CP75-129 be set for formal public hearing.

The Commission orders. (A) A certificate of public convenience and necessity is issued authorizing Applicant, Columbia Gas Transmission Corporation, to construct and operate the proposed facilities and to transport natural gas as hereinabove described in project numbers 3, 4, 5, 6, 7, 11, 12, 13, 14, 15, 17, 18, 19 and 20, all as more fully described in the application in this proceeding, upon the terms and conditions of this order.

(B) The certificate issued by paragraph (A) above and the rights granted thereunder are conditioned upon Applicant's compliance with all applicable Commission regulations under the Natural Gas Act and particularly the general terms and conditions set forth in paragraphs (a), (c) (3), (c) (4), (e), (f), and (g) of § 157.20 of such regulations.

(C) The facilities authorized in paragraph (A) above shall be completed and placed in actual operation, as provided by paragraph (b) of § 157.20 of the Commission's regulations under the Natural Gas Act, within one year from the date of this order.

(D) Permission for and approval of the abandonments by Applicant hereinbefore described in project numbers 3, 4, 5, 6, 7, 11, 12, 13, 14, 15, 17, 18, 19 and 20, all as more fully described in the application in this proceeding, are granted.

(E) Applicant shall advise the Commission of the date of said abandonments within 10 days thereof.

(F) A formal hearing shall be convened in the proceeding in Docket No. CP75-129 with regard to the six above described projects in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on May 6, 1975, at 10 a.m., (e.d.t.) The Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for the purpose—see Delegation of Authority 18 CFR 3.5(d)—shall preside at the hearing in this proceeding and shall prescribe relevant procedures not herein provided.

(G) The direct case of Columbia Gas Transmission Corporation as to all issues, except with respect to the authorization granted herein, raised by Applicant's filing in Docket No. CP75-129 as well as all issues referred to in this order shall be filed and served on all parties of record including the Commission Staff on or before April 15, 1975.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket Nos. RP69-6, etc.]

EL PASO NATURAL GAS CO.

Payment of Refunds

MARCH 25, 1975.

Take notice that on March 18, 1975, El Paso Natural Gas Company ("El Paso") tendered for filing a Report of Refunds made on March 3, 1975, to its Southern Division System jurisdictional and nonjurisdictional keyed customers. El Paso states that such refunds were made in compliance with the Commission's letter order issued February 3, 1975, in the captioned dockets and in accordance with the Stipulation and Agreement dated as of May 31, 1973, approved by Commission order issued February 14, 1974, at Docket Nos. RP69-6, et al.

El Paso further states that the refunds made, aggregating $61,737,711.96, encompass $50,523,679.23 principal refunds, plus interest thereon of $11,214,032.75, computed through March 3, 1975, at the interest rates specified by the Commission in each of the docketed proceedings, in conformity with the Stipulation and Agreement dated May 31, 1973, at Docket Nos. RP69-6, et al.

El Paso states that copies of the filing were served on all of El Paso's affected Southern Division System customers and all parties of record to the proceedings at Docket Nos. RP69-6, RP69-20, RP70-11, RP71-13, RP72-156 and RP73-155 and interested state regulatory commissions.

Any person desiring to be heard or to make any protest with reference to this filing should, on or before April 10, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RI75-119]

EXXON CORP.

Order Providing for Hearing on and Suspension of Proposed Change in Rate, and Allowing Rate Change To Become Effective Subject to Refund

MARCH 25, 1975.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A below.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds. It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders. (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. I), and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

APPENDIX A

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until—	Cents per Mcf* Rate in effect	Cents per Mcf* Proposed increased rate	Rate in effect subject to refund in docket Nos.
	Exxon Corp.	218	[1] 14	Mountain Fuel Supply Co. (Rocky Mountain Area) (Wyoming).	$1,274	2-27-75	----------	8-30-75	[2] 26.25	[2] 26.6588	

* Unless otherwise stated, the pressure base is 15.025 lb/in²a.
[1] Applicable only to gas produced from wells completed after June 7, 1972.
[2] Unless otherwise stated, the rate shown is the total rate, inclusive of any applicable Btu adjustment and tax.

The proposed rate increase of Exxon exceeds the applicable area ceiling in Opinion No. 658 and is suspended for five months.

[Docket No. CI75-540]

FOREST DRILLING VENTURE, ET AL.

Application Regarding General Policy and Interpretations

MARCH 25, 1975.

Take notice that on March 13, 1975, Forest Drilling Venture, a joint venture composed of Forest Oil Corporation and Columbia Gas Development Corporation; and Forest Oil Corporation, 2500 First City National Bank Building, Houston, Texas 77002, filed in Docket No. CI75-540 an application for a certificate of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act and § 2.75 of the Commission's rules of practice and procedure to authorize Applicant to sell natural gas from eight tracts in federal waters offshore Louisiana to Columbia Gas Transmission Corporation. Under the terms of the Gas Purchase and Sales Agreement dated March 7, 1975, the gas would be sold from certain acreage in the Federal Domain offshore Louisiana, specifically in Blocks 479, 485, 531 and 642, West Cameron Area; North Half of West Cameron Block 507; Blocks 370 and 371, East Cameron Area; and Block 267, South Marsh Island Area at the initial rate of $1.52 per Mcf together with the 2.0 cents per Mcf annual escalations.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before April 14, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RP72-140, PGA75-4]

GREAT LAKES GAS TRANSMISSION CO.

Proposed Changes in FPC Gas Tariff Under Purchased Gas Adjustment Clause Provisions

MARCH 25, 1975.

Take notice that Great Lakes Gas Transmission Company (Great Lakes), on March 14, 1975, tendered for filing Fifteenth Revised Sheet No. 57 (Fourteenth Revised PGA-1) to its FPC Gas Tariff, First Revised Volume No. 1, proposed to be effective May 1, 1975.

Great Lakes states that the cost of gas purchased from TransCanada PipeLines Limited, its sole supplier of natural gas, is reduced as a result of changes in the conversion rate of United States and Canadian currency and to reflect a lower BTU content in natural gas purchased.

Great Lakes is also including in the revised tariff sheet a purchased gas cost surcharge adjustment to be effective May 1, 1975. Great Lakes states that the surcharge adjustment results from maintaining an unrecovered purchased gas cost account for the period commencing September 1, 1974 and ending February 28, 1975.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[FR Doc.75-8347 Filed 3-31-75;8:45 am]

[Docket No. E-9329]

INDIANA & MICHIGAN ELECTRIC CO.

Tariff Change

MARCH 25, 1975.

Take notice that Indiana & Michigan Electric Company, (I&M) on March 17, 1975, tendered for filing an unsigned agreement with the City of Anderson, Indiana, pursuant to the Company's filed FPC Electric Tariff WS, filed with the Commission on June 13, 1972.

I&M states that the proposed rate change would increase I&M's revenues from Anderson by $117,598 or 1.8 percent based on a comparison of the revenues derived by utilizing the billing determinates for the 12 month period ending February 28, 1975 and applying them to Tariff WS and to Tariff IP. The Tariff IP calculation includes the 15.22 percent surcharge on the base bill, exclusive of fuel, as approved by PSCI on January 23, 1975 and filed with this Commission on January 29, 1975 as a supplement to I&M's FPC Rate Schedule No. 27 (Docket No. E-9233).

I&M states that the reason for the proposed change is to change the applicable rate for service to Anderson from Tariff IP to the Company's Tariff WS applicable to municipal wholesale customers, upon termination of the existing agreement with Anderson on April 16, 1975.

I&M states that copies of the filing were served upon the City of Anderson and the Public Service Commission of Indiana.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedures (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 8, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-8348 Filed 3-31-75;8:45 am]

[Docket No. RP74-100, (PGA75-9)]

NATIONAL FUEL GAS SUPPLY CORP.

Proposed PGA Rate Adjustment

MARCH 25, 1975.

Take notice that on March 17, 1975, National Fuel Gas Supply Corporation (National) tendered for filing as part of its FPC Gas Tariff, Original Volume No. 1, Third Revised Sheet No. 4, proposed to be effective April 1, 1975.

National states that the sole purpose of this revised tariff sheet is to adjust National's rates pursuant to the PGA provision in Section 17 of the General Terms and Conditions. National further states that such tariff sheet reflects an adjustment in National's rates of 15.59¢ per Mcf on Third Revised Sheet No. 4.

It is stated that the copies of the filing have been mailed to all of its jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 17, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Secretary.

[FR Doc.75-8349 Filed 3-31-75;8:45 am]

[Docket No. RP71-125, PGA75-6]

NATURAL GAS PIPELINE COMPANY OF AMERICA

PGA Filing To Track a Pipeline Supplier Rate Decrease

MARCH 25, 1975.

Take notice that on March 19, 1975, Natural Gas Pipeline Company of America (Natural) submitted for filing as part of its FPC Gas Tariff, Third Revised Volume No. 1, Twenty-Second Revised Sheet No. 5, to be effective May 1, 1975.

Natural states that the filing was made pursuant to the provisions of section 18, Purchased Gas Cost Adjustment, of the General Terms and Conditions of its FPC Gas Tariff, to track a decrease in the cost of gas purchased, effective May 1, 1975, from Great Lakes Gas Transmission Company, a pipeline supplier to Natural. Great Lakes' filing was made on March 14, 1975 to be effective May 1, 1975 in accordance with the terms of its PGA Clause.

Natural states that as notice of the supplier filing was not received by Natural in time to permit it to meet the 45 day filing requirement of its PGA tariff provision, it requests that that provision be waived to permit Natural's PGA unit adjustment to become effective May 1, 1975.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 8, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-8350 Filed 3-31-75;8:45 am]

[Docket No. E-9325]

PUGET SOUND POWER AND LIGHT CO.

Filing of Initial Rate Schedule

MARCH 25, 1975.

Take notice that Puget Sound Power and Light Company (Company), on March 14, 1975, tendered for filing an initial rate schedule relating to the terms and conditions under which the Company will exchange energy with other parties to the Intercompany Pool Agreement (Agreement) which the Company states was filed with the FPC on December 6, 1974, by The Washington Water Power Company with all other parties to the Agreement filing Certificates of Concurrence.

The Company states that Part III of the Agreement provides in paragraph 2 that each party to the Agreement will file rate schedules from time to time with the FPC setting forth the terms and conditions under which each party will make power and energy available to other parties. The Company states that this filing is pursuant to that.

The Company states that copies of the enclosed schedule have been mailed to each of the other parties to the Agreement.

The Company states that the schedule provides that the exchange shall be at such times and in such amounts as the Company and the other party to the exchange agree provided that the value of the exchange shall be approximately equivalent to each party. Therefore, the Company states that estimates of transactions or revenues under this schedule would not be applicable or would be impossible to make.

The Company requests an effective date of March 12, 1975. The Company states that this effective date will make energy immediately available to utilities who have present shortages or need to conserve energy for use in other times of the year and will have no effect upon purchasers under other rate schedules.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 8, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-8352 Filed 3-31-75;8:45 am]

[Docket No. E-9326]

PUGET SOUND POWER AND LIGHT CO.

Filing of Initial Rate Schedule

MARCH 25, 1975.

Take notice that Puget Sound Power and Light Company (Company), on March 14, 1975, tendered for filing an initial rate schedule relating to the terms and conditions under which the Company will sell non-firm energy to other parties to the Intercompany Pool Agreement (Agreement) which the Company states was filed with the Commission on December 6, 1974, by The Washington Water Power Company with all other parties to the Agreement filing Certificates of Concurrence.

The Company states that the rate schedule establishes the terms and conditions under which the Company will sell non-firm energy to other parties to the Agreement and was filed pursuant to Part III, paragraph 2 of the Agreement.

The Company states that copies of the enclosed schedule have been mailed to each of the parties to the Agreement.

The Company states that the schedule provides that such non-firm power will be sold at such times and in such amounts as the Company in its sole discretion determines. Therefore, the Company states that estimates of transactions or revenues under this schedule would not be applicable and would be impossible to make.

The Company states the rate for non-firm energy sold depends upon the resource from which such energy is generated. For energy from noncontrollable hydroelectric resources, the Company states that the rate is identical with the Bonneville Power Administration's presently effective schedule H-5, "Wholesale Non-firm Energy Rate." For energy delivered from hydroelectric resources which are subject to replacement by the Company from other resources, the Company states that the rate is the Company's predicted cost of such replacement. For energy delivered from the Company's thermal resources, the Company states that the rate is essentially an incremental cost rate plus additional compensation for investment costs not to exceed 100 percent of such investment costs in the case of energy having the characteristics of firm energy or 50% of such investment costs in the case of energy not having the characteristics of firm energy. For energy delivered from power purchased by the Company, the Company states that the rate is the cost of the power purchased; and for energy which could have been marketed by the Company to purchasers which are not parties to the ICP Agreement, the Company states that the rate is the net amount that could have been obtained from those purchasers.

The Company states that no special cost of service studies were prepared in connection with the derivation of the foregoing rates.

The Company requests an effective date of March 12, 1975. The Company states that this effective date will make energy immediately available to utilities who have present shortages or need to conserve energy for use in other times of the year and will have no effect upon purchasers under other rate schedules.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 8, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-121, PGA75-5b]

SOUTHWEST GAS CORP.

Proposed Changes in FPC Gas Tariff

MARCH 25, 1975.

Take notice that on March 5, 1975 the Southwest Gas Corporation (SGC) tendered for filing Ninth Revised Sheet No. 3A constituting Original PGA-1 and the supporting schedules, attached thereto, to be substituted for Ninth Revised Sheet No. 3A and supporting schedules of the filing by letters dated February 12, 1975 and February 18, 1975. SGC states that this filing is intended to constitute a complete replacement and is filed in substitution for the previous filings dated February 12, 1975 and February 18, 1975.

SGC states the reason for this filing is to replace Ninth Revised Sheet No. 3A to reflect the changes made by the Northwest Pipeline Corporation filed on February 28, 1975 in Docket No. RP72-154, a .332 cents per therm reduction.

SGC requests that the Commission permit the correction noted therein and allow the substitute tariff sheet to become effective on April 1, 1975.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 11, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person

V 40 163 APR 1 75

wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

SUN OIL CO.

Extension of Procedural Dates

MARCH 25, 1975.

On March 24, 1975, Sun Oil Company filed a motion to extend the procedural dates fixed by order issued February 28, 1975, in the above-designated matter.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Company Direct Testimony, May 1, 1975.
Service of Staff's Testimony, May 15, 1975.
Service of Company Rebuttal, May 22, 1975.
Hearing, June 2, 1975 (10 a.m. e.d.t.).

[Project No. 2716]

VIRGINIA ELECTRIC & POWER CO.

Availability of Staff Draft Environmental Impact Statement

Notice is hereby given in the captioned Project, that on April 1, 1975, as required by § 2.81(b) of Commission Order No. 415–C, a draft environmental impact statement prepared by the Staff of the Federal Power Commission was made available for comments. This statement deals with the environmental impact of an application for license filed pursuant to the Federal Power Act by Virginia Electric and Power Company for proposed Bath County Pumped Storage Project No. 2716 to be located on Back Creek and Little Back Creek in Bath, Highland, Augusta, and Rockbridge Counties, Virginia, and partially within the George Washington National Forest.

This statement has been circulated for comments to Federal, State and local agencies, has been placed in the public files of the Commission, and is available for public inspection both in the Commission's Office of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C. 20426 and at its Atlanta Regional Office located at 730 Peachtree Building; Room 500, Atlanta, Georgia 30308. Copies may be ordered from the Commission's Office of Public Information, Washington, D.C. 20426.

The project would consist of a 265-acre upper reservoir (full power pool elevation 3320 feet m.s.l.), a 555-acre lower reservoir (full power pool elevation 2118 feet m.s.l.), three tunnels connected to six penstocks, and an indoor-type powerhouse which would contain six 350 mW pump-turbine generating units. Also associated with the project would be two 500 kV transmission lines, one extending 50 miles to Burketown, Virginia, and one extending 35 miles to Lexington, Virginia. Recreation facilities include streamside fishing, 2 recreation ponds (total of 85 acres), camping facilities, and a visitors center.

Any person who wishes to do so may file comments on the staff draft statement for the Commission's consideration. All comments must be filed on or before May 15, 1975.

Any person who wishes to present evidence regarding environmental matters in this proceeding must file with the Commission a petition to intervene pursuant to § 1.8 of the Commission's rules of practice and procedure. Petitioners must also file timely comments on the draft statement in accordance with § 2.81(c) of Order No. 415–C.

All petitions to intervene must be filed on or before May 15, 1975.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8848]

HOLYOKE WATER POWER CO. AND HOLYOKE POWER AND ELECTRIC CO.

Conference

MARCH 31, 1975.

Take notice that on Monday, April 7, 1975, a conference of all interested parties in the above-referenced docket will be convened at 1 p.m. in Room 8402 at the offices of the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426.

The conference will be held pursuant to § 1.18 (Conferences, Offer of Settlement) of the Commission's rules of practice and procedure (18 CFR 1.18). Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, such attendance at the conference will not be deemed to authorize such intervention as a party in the proceedings.

In accordance with the provisions of § 1.18 of the rules, all parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of the proposed tariff changes in this docket, any procedural matters preparatory to a full evidentiary hearing, or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference. Failure to attend the conference shall constitute a waiver of all objections to stipulations and agreements reached by the parties in attendance at the conference.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

FEDERAL OPEN MARKET COMMITTEE

Domestic Policy Directive of January 20–21, 1975

In accordance with § 271.5 of its rules regarding availability of information, there is set forth below the Committee's Domestic Policy Directive issued at its meeting held on January 20–21, 1975.[1]

The information reviewed at this meeting suggests that real output of goods and services fell sharply in the fourth quarter of 1974 and that further declines are in prospect for the months immediately ahead. In December declines in industrial production and employment again were sharp and widespread, and the unemployment rate increased from 6.5 to 7.1 per cent. Average wholesale prices of industrial commodities were unchanged, after having risen much less rapidly from August to November than earlier in the year, and prices of farm and food products declined. In recent months increases in average wage rates have been large, but not so large as in the spring and summer.

In his State of the Union message, the President set forth a program of fiscal stimulus, including tax rebates for individuals and a temporary increase in the investment tax credit for business. The President also proposed a new program to reduce the consumption of energy; the program includes new taxes in the energy area along with measures of tax relief that, on balance, are designed to have a neutral effect on the size of the Federal deficit.

The dollar in December and early January continued the gradual decline against leading foreign currencies that began in September. In November, as in October, the U.S. foreign trade deficit was moderate; sizable inflows of official funds from oil-exporting countries continued, while other capital inflows and outflows reported by banks were roughly offsetting.

The narrowly defined money stock grew at an annual rate of 4 per cent over the fourth quarter of 1974, while the more broadly defined measure of the stock grew at a rate of nearly 7 per cent. In December and early January, however, the narrowly defined money stock changed little. Net inflows of consumer-type time and savings deposits at banks slowed sharply in December, although they continued to improve at nonbank thrift institutions; in early January deposit inflows at banks picked up. Business demands for short-term credit, both at banks and in the commercial paper market, moderated further in December, while demands in the long-term market remained strong. Over recent weeks short-term market interest rates have declined substantially, but yields on long-term securities have changed little, on balance. Federal Reserve discount rates were reduced from 7¾ to 7¼ per cent in early January, and on January 20 the Board announced a reduction in reserve requirements on demand deposits estimated to release $1.1 billion in required reserves.

In light of the foregoing developments, it is the policy of the Federal Open Market Committee, while resisting inflationary pressures and working toward equilibrium in the country's balance of payments, to foster financial conditions conducive to cushioning recessionary tendencies and stimulating economic recovery.

To implement this policy, while taking account of the forthcoming Treasury financing, developments in domestic and international financial markets, and the Board's action on reserve requirements, the Committee seeks to achieve bank reserve and money market conditions consistent with more rapid growth in monetary aggregates over the months ahead than has occurred in recent months.

By order of the Federal Open Market Committee, March 24, 1975.

ARTHUR L. BROIDA,
Secretary.

[FR Doc.75-8315 Filed 3-31-75;8:45 am]

[1] The Record of Policy Actions of the Committee for the meeting of January 20–21, 1975, is filed as part of the original document. Copies are available on request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

IMPROVEMENTS NEEDED FOR RIO GRANDE CANALIZATION PROJECT, NEW MEXICO AND TEXAS

Draft Environmental Impact Statement

Pursuant to the National Environmental Policy Act of 1969 and the Council on Environmental Quality guidelines (38 FR 20550, August 1, 1973), the United States Section, International Boundary and Water Commission, has prepared a draft environmental impact statement concerning the improvements needed for the Rio Grande Canalization Project, New Mexico and Texas.

The draft environmental impact statement concerns a plan which consists of levee raising and/or channel widening along three short segments totalling 3.8 miles in length of the 105.6 miles of the existing project, as well as completion by the Soil Conservation Service of dams on seven tributary arroyos under Soil Conservation Service's Pub. L. 566 program.

A copy of the draft environmental impact statement is being placed in the Office of the Country Director for Mexico, Room 3906–A, Department of State, 21st Street and Virginia Avenue NW., Washington, D.C., and in the office of the Chief of Planning and Reports, United States Section, International Boundary and Water Commission, 4110 Rio Bravo, El Paso, Texas.

Copies of the draft environmental impact statement, dated December 1974, can be obtained from J. J. Vandertulip, Chief of Planning and Reports, United States Section, International Boundary and Water Commission, Post Office Box 20003, El Paso, Texas 79998.

The date of publication in the FEDERAL REGISTER by the Council on Environmental Quality shall be the date from which the period for review and advance availability of the statement shall be calculated.

Done at El Paso, Texas, this 25th day of March 1975.

FRANK P. FULLERTON,
Special Legal Assistant.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

NASA WAGE COMMITTEE

[Notice 75-23]

Meeting

On March 20, 1975, an announcement of a meeting on April 11, 1975, of the NASA Wage Committee was published in the FEDERAL REGISTER. That notice did not specify that the meeting will be open to the public.

The entire meeting is open to the public. It will convene at 1:30 p.m. and will be held in Room 226–B, 600 Independence Avenue, Washington, D.C. 20546.

The Committee's primary responsibility is to consider and make recommendations to the Director of Personnel, National Aeronautics and Space Administration, on all matters involved in the development and authorization of a wage schedule for the Cleveland, Ohio, wage area pursuant to Pub. L. 92–392.

The approved agenda of the Committee provides that it will review the survey specifications for the Cleveland, Ohio, wage area which were recommended by the Local Wage Committee and will determine whether to recommend acceptance or modification of those survey specifications.

Dated: March 26, 1975.

DUWARD L. CROW,
Assistant Administrator for DOD and Interagency Affairs, National Aeronautics and Space Administration.

[FR Doc.75-8277 Filed 3-31-75;8:45 am]

NATIONAL COMMISSION FOR THE REVIEW OF FEDERAL AND STATE LAWS RELATING TO WIRETAPPING AND ELECTRONIC SURVEILLANCE

MEETING

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, 85 Stat. 770), notice hereby is given that the National Commission for the Review of Federal and State Laws Relating to Wiretapping and Electronic Surveillance, established under the authority of section 804 of Pub. L. 90–351, June 19, 1968, as amended by Section 20 of Pub. L. 91–644, January 2, 1971, and as further amended by Pub. L. 93–609, will meet in Room 1318 of the Dirksen Office Building (NSOB), Washington, D.C., at 9:30 a.m. on April 9, 1975.

The purpose of the meeting is to permit the Commission to consider various items of business, such as (1) whether

V 40-63 APR 175

the Commission should engage in a study of National Security wiretaps, (2) whether a special subcommittee should be appointed to conduct hearings with respect to illegal wiretapping, (3) whether the Commission should revise its procedures for conducting hearings and entering into contracts, (4) whether and to what extent it should authorize a study of magnetic tape alteration and verification, and (5) whether and to what extent it should authorize per diem reimbursement of public members of the Committee for work related to the Commission that is performed other than at Commission meetings.

The meeting of the Commission will be open to the public, and interested persons are invited to attend. Under the rules of the Commission, copies of which may be obtained from its offices, any person desiring to present any matter to the Commission shall request authorization therefor by filing a written request with the Offices of the Commission at 1875 Connecticut Avenue, NW., Washington, D.C. 20009, not later than seven days prior to the meeting. The request shall include a concise description of the material to be presented. Within three days of receipt of such a request, the Chairman will notify the requesting person of his decision on the request.

KENNETH J. HODSON,
Executive Director.

[FR Doc.75-8609 Filed 3-31-75;8:45 am]

MEETING

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice hereby is given that the National Commission for the Review of Federal and State Laws Relating to Wiretapping and Electronic Surveillance, established under the authority of section 804 of Pub. L. 90-351, June 19, 1968, as amended by section 20 of Pub. L. 91-644, January 2, 1971, and as further amended by Pub. L. 93-609, will meet in Room 3302, Dirksen Office Building (NSOB), Washington, D.C., at 9:30 a.m. on April 22 and 23, 1975.

The purpose of the meeting is to receive evidence and to hear testimony from law enforcement personnel, defense lawyers, and State and Federal Judges, concerning the use of wiretapping and electronic surveillance in law enforcement, as authorized by applicable state statutes in conformity with Chapter 119 of Title 18, United States Code.

The meeting of the Commission will be open to the public, and interested persons are invited to attend. Under the rules of the Commission, copies of which may be obtained from its offices, any person desiring to present any matter to the Commission shall request authorization therefor by filing a written request with the Offices of the Commission at 1875 Connecticut Avenue, NW., Washington, D.C. 20009, not later than seven days prior to the meeting. The request shall include a concise description of the material to be presented. Within three days of receipt of such a request, the Chairman will notify the requesting person of his decision on the request.

KENNETH J. HODSON,
Executive Director.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on March 27, 1975 (44 USC 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (X) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202-395-4529), or from the reviewer listed.

SECURITIES AND EXCHANGE COMMISSION

[70-5581]

APPALACHIAN POWER CO.

Increasing the Aggregate Maximum Amount of Short-Term Indebtedness and Request for Exception From Competitive Bidding

Notice is hereby given that Appalachian Power Company ("Appalachian"), 40 Franklin Road, Roanoke, Virginia 24009, an electric utility subsidiary company of American Electric Power Company, Inc., a registered holding company, has filed with this Commission a tenth post-effective amendment to the application previously filed in this matter, pursuant to section 9(a) of the Public Utility Holding Company Act of 1935 ("Act") and Rule 54(a)(5) promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application as now amended, which is summarized below, for a complete statement of the proposed transaction.

By orders dated June 29, 1973, March 29, 1974, June 11, 1974, July 5, 1974, August 22, 1974, December 31, 1974, and March 12, 1975 (Holding Company Act Release Nos. 18015, 18345, 18442, 18600, 18543, 18741, 18742, and 18860), this

Commission, among other things, authorized the issuance and sale of short-term notes by Appalachian to 91 banks in an aggregate amount up to $163,423,000 outstanding at any one time. At the time of said orders, the maximum amount of short-term indebtedness which Appalachian could incur at any one time could not exceed $175,000,000.

It is now proposed that Appalachian incur short-term indebtedness in an aggregate amount not to exceed $200,000,000. In no event would the borrowings by Appalachian of short-term funds through the issuance and sale of notes to banks and commercial paper to dealers in commercial paper exceed the maximum amount allowable both under Appalachian's Articles of Association and the consent granted by Appalachian's Cumulative Preferred stockholders permitting an increase in the amount of unsecured short-term debt that Appalachian could incur, which maximum amount as of December 31, 1974 was approximately $203,000,000.

Each note payable to a bank to be issued by Appalachian will be dated as of the date of the borrowing which it evidences and will mature not more than 270 days after the date of issuance or renewal thereof.

Each such note will bear interest no greater than the prime rate of commercial banks at the time of issuance or in effect from time to time and will be prepayable at any time without premium or penalty. It is stated that Appalachian will not pay any fees or charges to any of the banks in connection with the issuance and sale of such notes. Sufficient bank balances to meet operating and financial needs are kept at such banks to satisfy any compensating balance requirements in connection with the borrowings. If the average of such bank balances were maintained solely in order to fulfill the prevailing compensating balances requirements of such banks, generally between 15% and 20%, the effective interest cost to Appalachian, based on a prime commercial rate of 7% percent, would be 9.1 percent.

The commercial paper will be in the form of promissory notes in denominations of not less than $50,000 no more than $5,000,000 and will be of varying maturities, with no maturity more than 270 days after the date of issue; none will be prepayable prior to maturity. The commercial paper notes of Appalachian will be sold directly to not more than two dealers at a discount not in excess of the discount rate per annum prevailing at the time of issuance for commercial paper of comparable quality and maturity. No commercial paper notes will be issued having a maturity of more than 90 days at an effective interest cost which exceeds the effective interest cost at which Appalachian could borrow from banks. The dealers will reoffer the commercial paper notes to not more than 100 of their customers identified and designated in a list (nonpublic) prepared in advance. It is expected that Appalachian's commercial paper notes will be held by each dealer's customers to maturity, but if the customers wish to resell prior to maturity, the dealer, pursuant to a verbal repurchase agreement, will repurchase the notes and reoffer them to others in its group of 100 customers.

The proceeds from the issuance and sale of the notes will be used by Appalachian to reimburse its treasury for past expenditures made in connection with its construction program and to pay part of the cost of its future construction program. Such construction expenditures for the year 1975 is estimated to total $140,000,000. The application states that, unless otherwise authorized by the Commission, all of the short-term debt of Appalachian will be retired by December 31, 1975, from internal cash resources, debt or equity financing, or cash capital contributions.

Appalachian requests exception from the competitive bidding requirements of Rule 50 for the proposed issuance and sale of its commercial paper pursuant to paragraph (a)(5) thereof on the grounds that it is not practicable to invite competitive bids for commercial paper. Appalachian also requests authority to file certificates under Rule 24 with respect to the issuance and sale of commercial paper on a quarterly basis.

The Virginia State Corporation Commission has jurisdiction over the transaction proposed by Appalachian. No other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than April 18, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the application which he desires to controvert; or he may request that he be notified should the Commission order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as now amended or as it may be further amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

UTAH POWER & LIGHT CO.

Issue and Sale of Common Stock Through Negotiation

Notice is hereby given that Utah Power & Light Company ("Utah"), 1407 West North Temple Street, P.O. Box 899, Salt Lake City, Utah 84110, an electric utility company and a registered holding company, has filed a declaration, and an amendment thereto, with this Commission pursuant to the public Utility Holding Company Act of 1935 ("Act") designating sections 6(a) and 7 of the Act as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Utah proposes to issue and sell up to 1,200,000 additional shares of its common stock, par value $12.80 per share, through a negotiated offering. If the sale of the stock is consummated prior to April 30, 1975, it will be exempt from the competitive bidding requirements of Rule 50 under the Act (Holding Company Act Release No. 18646).

Proceeds of the sale of the stock will be used by Utah to repay commercial paper and short-term borrowings incurred for construction purposes. It is estimated that Utah will have $61,000,000 in short-term debt outstanding at April 30, 1975.

It is stated that the Idaho Public Utilities Commission and the Public Service Commission of Wyoming have jurisdiction over the proposed issue and sale of the stock and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction. Fees and expenses to be incurred in connection with the proposed transaction will be supplied by amendment.

Notice is further given that any interested person may, not later than April 17, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration, as amended, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended, or as it may be further amended, may be permitted to become effective as provided in

V 40-63 APR 175

Rule 20 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

SMALL BUSINESS ADMINISTRATION

[Disaster Loan Area 1112; Amdt. 1]

ALABAMA

Disaster Relief Loan Availability

As a result of the President's declaration of the State of Alabama as a major disaster area following severe storms and flooding, applications for disaster relief loans will be accepted by the Small Business Administration from disaster victims in the following counties and adjacent affected areas. Incidence periods and types of disaster are shown for each.

Severe storms, Jan. 10 to 12, 1975	Floods, Feb. 15 to 25, 1975	Severe storms, Feb. 25, 1975
Pulaski	Barbour	Calhoun
Choctaw	Bullock	Tuscaloosa
Cleburne	Coffee	Walker
Jefferson	Crenshaw	Winston
Lee	Dale	
Macon	Dallas	
St. Clair	Geneva	
Shelby	Lowndes	
Washington	Montgomery	
	Pike	
	Wilcox	

Adjacent areas include only counties within the state for which the declaration is made and do not extend beyond state lines. (See 40 FR 4195).

Applications may be filed at the:

Small Business Administration
District Office
908 South 20th Street
Birmingham, Alabama 35205

And at such temporary offices as are established. Such addresses will be announced locally.

Applications for disaster loans under this announcement must be filed not later than May 15, 1975. EIDL applications will not be accepted subsequent to December 15, 1975.

Dated: March 19, 1975.

LOUIS F. LAUN,
Acting Administrator.

[Declaration of Disaster Loan Area 1119]

OKLAHOMA

Declaration of Disaster Loan Area

Whereas, it has been reported that during the month of February, because of the effects of a certain disaster, damage resulted to property located in the State of Oklahoma;

Whereas, the Small Business Administration has investigated and received reports of other investigations of conditions in the area affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such area constitute a catastrophe within the purview of the Small Business Act, as amended;

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in Garvin, Jackson, Kiowa, and Stephens Counties, and adjacent affected areas, suffered damage or destruction resulting from a tornado and severe storms which occurred February 22, 1975. Adjacent areas include only counties within the state for which the declaration is made and do not extend beyond state lines.

Office: Small Business Administration, District Office, 50 Penn Place, Suite 340, Oklahoma City, Oklahoma 73118.

2. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to May 19, 1975. EIDL applications will not be accepted subsequent to December 19, 1975.

Dated: March 18, 1975.

LOUIS F. LAUN,
Acting Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice No. 732]

ASSIGNMENT OF HEARINGS

MARCH 27, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 112263 Sub 11, Yarbrough Transfer Company, now assigned April 14, 1975, at Washington, D.C., is postponed indefinitely.

MC 109397 Sub 302, Tri-State Motor Transit Co., now assigned April 28, 1975, at Washington, D.C., is postponed to May 6, 1975, at the Offices of The Interstate Commerce Commission, Washington, D.C.

MC 119789 Sub 216, Caravan Refrigerated Cargo, Inc., now assigned April 15, 1975, at Dallas, Texas, is cancelled and transferred to Modified Procedure.

MC 71459 Sub 43, O.N.C. Freight Systems, now assigned May 5, 1975, at Phoenix, Arizona, is postponed indefinitely.

MC 105269 Sub 87, Graff Trucking Company, Inc., now being assigned May 5, 1975 (1 week), at Chicago, Ill., in Room 1086A, Everett McKinley Dirksen Building, 219 S. Dearborn St.

No. 36095, Sterling Colorado Beef Company, Inc. v. The Atchison, Topeka, and Santa Fe Railway Company,, et al., now assigned May 6, 1975, at Washington, D.C., is postponed to May 20, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

No. 35794, Northville Dock Pipe Line Corp. and Consolidated Petroleum Terminal, Inc.—Petition of Declaratory Order or Investigation, and No. 35652, Northville Dock Pipe Line Corp., Northville Industries Corp., Consolidated Petroleum Terminal, Inc., and Total Resources, Inc.—Investigation of Operations, now being assigned for further pre-hearing conference April 8, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

I & S No. 9023, Transit Charge on Soybeans at Points in the South, now assigned April 29, 1975, at Washington, D.C., is postponed to May 6, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 139946, S & L Express, Inc., now assigned April 7, 1975, at Nashville, Tennessee, is Cancelled and application dismissed.

MC 115840 Sub 96, Colonial Fast Freight Lines, Inc., now assigned April 8, 1975, at Dallas, Texas, is cancelled and the application is dismissed.

MC 138500, Air Brook Limousine, Inc., now assigned April 9, 1975, at *Newark, New Jersey* is cancelled and reassigned April 9, 1975, at *Saddle Brook, New Jersey*; in the Holiday Inn, Room 201, 50 Kenney Place.

[AB-46 (Sub-No. 3)]

CHICAGO, ROCK ISLAND AND PACIFIC RAILROAD CO.

Abandonment Between Fairbury and Ruskin in Jefferson, and Nuckolls Counties, Nebraska

MARCH 27, 1975.

At a Session of the Interstate Commerce Commission, Division 3, acting as an Appellate Division, held at its office in Washington, D.C. on the 12th day of March, 1975.

Upon consideration of the record in the above-entitled proceeding, and of:

(1) Petition of Nebraska Public Service Commission filed January 16, 1975, for reconsideration or in the alternative, a stay in the finality of Order and accompanying Threshold Assessment Survey;

(2) Reply by applicant, filed January 29, 1975; and

(3) Comment by adjacent landowners filed January 17, 1975.

It appearing, That an environmental Threshold Assessment Survey (TAS) has been prepared by this Commission and made available to the public; that said survey has found that no significant environmental impact would result from the approval of the application; that by order of the Commission, Commissioner Tuggle, served December 19, 1974, it was determined that based on the aforementioned threshold assessment survey, no environmental impact statement need be issued in this proceeding as it does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, *et seq.*; and that petitions and comments received in response to the TAS have been responded to in an addendum to the TAS which is available upon request to the Interstate Commerce Commission, Washington, D.C. 20423;

Wherefore, and good cause appearing, therefore:

It is ordered, That because there has been presented no good cause to modify the Commission's previous determination that this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, said determination be, and it is hereby, affirmed.

And it is further ordered, That the petition for reconsideration and, in the alternative, stay of Order, be, and it is hereby, denied.

By the Commission, Division 3, acting as an Appellate Division.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-8409 Filed 3-31-75;8:45 am]

V 40 163 APR 175

[No. 36184]

CHICAGO, ROCK ISLAND AND PACIFIC RAILROAD CO.

Emergency Terminal Surcharge Tariff (Intrastate Application)

MARCH 27, 1975.

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 27th day of March, 1975.

By application for special permission to publish a terminal surcharge on an emergency basis because of grave financial difficulties, the Chicago, Rock Island and Pacific Railroad Company (Rock Island) has requested that the Commission consider permitting an order under section 13 of the Interstate Commerce Act authorizing concurrent effective publication on both intrastate and interstate traffic.

The Commission has determined that it lacks jurisdiction to order immediate publication of such a surcharge on intrastate traffic. In view of the emergency situation existing because of the Rock Island's financial difficulties, the Commission is accepting this application as a petition pursuant to section 13(3) of the Interstate Commerce Act. The Commission intends to determine, under a shortened schedule and modified procedure, whether the facts and circumstances existing at the time of filing statements and in view of any Commission actions, including any authorization to publish a terminal surcharge tariff for interstate application, require publication of such a terminal surcharge tariff for intrastate application.

The Commission notices that the States interested in this proceeding are Arkansas, Colorado, Illinois, Iowa, Kansas, Louisiana, Minnesota, Missouri, Nebraska, New Mexico, Oklahoma, Tennessee, and Texas.

Under section 13(4) of the Interstate Commerce Act and judicial authority[1] this Commission is directed to institute an investigation of the lawfulness of intrastate rail freight rates and charges upon the filing of a petition by the carrier concerned pursuant to section 13(3) of the Interstate Commerce Act, regardless of the prior or pending considerfation of such rates and charges by any State agency.

Wherefore, and good cause appearing therefor:

It is ordered, That the petition be, and it is hereby, granted; and that an investigation, under sections 13 and 15a of the Interstate Commerce Act, be, and it is hereby, instituted to determine whether the Arkansas, Colorado, Illinois, Iowa, Kansas, Louisiana, Minnesota, Missouri, Nebraska, New Mexico, Oklahoma, Tennessee, and Texas intrastate rail freight rates in any respect cause any unjust discrimination against or any undue burden on interstate or foreign commerce, or cause undue or unreasonable advantage, preference or prejudice as between persons and localities in intrastate commerce and those in interstate or foreign commerce, or are otherwise unlawful, by reason of the failure of such rates and charges to include an emergency terminal surcharge on behalf of the Chicago, Rock Island and Pacific Railroad Company; and to determine if any rates or charges, or maximum or minimum charges, or both, shall be prescribed to remove any unlawful advantage, preference, discrimination, undue burden or other violation of the law found to exist.

It is further ordered, That the Chicago, Rock Island and Pacific Railroad Company be, and it is hereby, made respondent in this proceeding.

It is further ordered, That all persons who wish actively to participate in this proceeding and to file and receive copies of pleadings shall make known that fact by notifying the Office of Proceedings, Room 5342, Interstate Commerce Commission, Washington, D.C. 20423, on or before five (5) days from the FEDERAL REGISTER publication date (but if this shall be a Saturday or Sunday, no later than noon on the following Monday). Although individual participation is not precluded, to conserve time and to avoid unnecessary expense, persons having common interests should endeavor to consolidate their presentations to the greatest extent possible. The Commission desires participation only of those who intend to take an active part in the proceeding.

It is further ordered, That on the final date of indicating a desire to participate in the proceeding, the Commission will serve a list of the names and addresses of all persons upon whom service of all pleadings must be made and this proceeding will be assigned for handling under modified procedure wherein 5 days will be allowed for respondent's opening statement, 10 days' for protestants' statements, and 5 days for respondent's reply statement.

It is further ordered, That a copy of this order be served upon petitioner; that the States of Arkansas, Colorado, Illinois, Iowa, Kansas, Louisiana, Minnesota, Missouri, Nebraska, New Mexico, Oklahoma, Tennessee, and Texas be notified of this proceeding by sending copies of this order and the instant petition by certified mail to the Governors and Public Service Commissions (or other interested Commissions) of the above mentioned States at their respective State capitals; and that further notice of this proceeding be given to the public by depositing a copy of this order in the office of the Secretary of the Interstate Commerce Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

This is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.75-8411 Filed 3-31-75;8:45 am]

[AB No. 2 (Sub-No. 3)]

LOUISVILLE AND NASHVILLE RAILROAD CO.

Abandonment Between Opp and Florala, Covington County, Ala.

MARCH 26, 1975.

Present: Kenneth H. Tuggle, Commissioner, to whom the matter which is the subject of this order has been assigned for action thereon.

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available to the public upon request; and

It appearing, That no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, et seq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in newspapers of general circulation in Covington County, Ala., on or before April 7, 1975, and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 20th day of March, 1975.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD, *Secretary.*

The Interstate Commerce Commission hereby gives notice that by order dated March 20, 1975, it has been determined that the proposed abandonment by the Louisville and Nashville Railroad Company of a portion of its Florala Branch extending between Opp and Florala in Covington County, Ala., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts of the proposed action are considered insignificant because the proposed abandonment will have a minimal impact upon the area's transportation needs. Overhead traffic, the primary traffic handled on the line, has been moving via a shorter and more direct route since 1971. The only shipper has moved his operations to another location which will continue to have direct rail service from the applicant. Furthermore, the potential for economic development in the area will not be inhibited since rail service over applicant's other lines will still be available.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before April 23, 1975.

This negative environmental determination shall become final unless good and sufficient reason demonstrating why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[FR Doc.75-8410 Filed 3-31-75;8:45 am]

[Ex Parte No. MC-43]

ROADWAY EXPRESS, INC. AND POOLE TRANSFER INC.

Lease and Interchange of Vehicles by Motor Carriers

MARCH 27, 1975.

At a session of the Interstate Commerce Commission, Motor Carrier Leasing Board, held at its office in Washington, D.C. on the 18th day of March, 1975.

It appearing, That a petition has been filed by Roadway Express, Inc. (MC-2202 and numerous subs) and Poole Transfer, Inc. (MC-108987 and various subs), under temporary common control for waiver of paragraphs (a) (3) and (c) of § 1057.4 of the Lease and Interchange of Vehicles Regulations (49 CFR Part 1057), concerning equipment leased between petitioners;

It further appearing, That petitioners have a jointly administered program applying the same standards of inspection and maintenance to equipment in accordance with the motor carrier safety regulations of the U.S. Department of Transportation;

It further appearing, That the U.S. Department of Transportation recommends that the petition be granted based on an examination of petitioners' records;

It is ordered, That waiver of paragraph (a) (3) and (c) of § 1057.4, be, and, it is hereby granted provided that the equipment is inspected on the day it is to be leased and found to meet the requirements of the motor carrier safety regulations of the U.S. Department of Transportation and that petitioners remain in satisfactory compliance with those regulations and under common control.

By the Commission, Motor Carrier Leasing Board.

ROADWAY EXPRESS, INC.

Lease and Interchange of Vehicles by Motor Carriers

MARCH 27, 1975.

At a session of the Interstate Commerce Commission, Motor Carrier Leasing Board, held at its office in Washington, D.C. on the 18th day of March, 1975.

It appearing, That a petition has been filed by Roadway Express, Inc. (MC-2202 and numerous subs) and Atlas Transit, Inc. (MC-99695 subs 1 and 2, certificates of registration), under temporary common control for waiver of paragraphs (a) (3) and (c) of § 1057.4 of the Lease and Interchange of Vehicles Regulations (49 CFR 1057), concerning equipment leased between petitioners;

It further appearing, That petitioners have a jointly administered program applying the same standards of inspection and maintenance to equipment in accordance with the motor carrier safety regulations of the U.S. Department of Transportation;

It further appearing, That the U.S. Department of Transportation recommends that the petition be granted based on an examination of petitioners' records;

It is ordered, That waiver of paragraph (a) (3) and (c) of § 1057.4, be, and, it is hereby granted provided that the equipment is inspected on the day it is to be leased and found to meet the requirements of the motor carrier safety regulations of the U.S. Department of Transportation and that petitioners remain in satisfactory compliance with those regulations and under common control.

By the Commission, Motor Carrier Leasing Board.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY-ELIMINATION OF GATEWAY LETTER NOTICES

MARCH 26, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR Part 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission within 10 days from the date of this publication. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 114211 (Sub-No. E1188), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over *irregular routes*, transporting: *Agricultural implements and parts* thereof when moving in mixed loads with such commodities, from points in Wisconsin, to points in that part of Nebraska on and south of a line beginning at the Wyoming-Nebraska State line extending along U.S. Highway 30 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Nebraska Highway 74, thence along Nebraska Highway 74 to junction Nebraska Highway 15, thence along Nebraska Highway 15 to junction Nebraska Highway 4, thence along Nebraska Highway 4 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Nebraska State line and to points in that part of Wyoming on and south of a line beginning at the Wyoming-Utah State line extending along Wyoming Highway 30 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Interstate Highway 80,

thence along Interstate Highway 80 to the Nebraska-Wyoming State line, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1187), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* for agricultural implements when moving in mixed loads with such commodities, from points in that part of Wisconsin on and south of a line beginning at the Iowa-Wisconsin State line extending along U.S. Highway 151 to Manitowoc, Wis., to points in that part of Wyoming on and south of a line beginning at the Idaho-Wyoming State line extending along U.S. Highway 20 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 16, thence along U.S. Highway 16 to the South Dakota-Wyoming State line, and to points in that part of Nebraska on and south of a line beginning at the Wyoming-Nebraska State line extending along U.S. Highway 26 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Nebraska State line, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1188), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof (except commodities the transportation of which, because of size or weight, requires the use of special equipment and except commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), from points in that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line extending along Wisconsin Highway 25 to junction Wisconsin Highway 85, thence along Wisconsin Highway 85 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 53, thence along U.S. Highway 53 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to junction Wisconsin Highway 40, thence along Wisconsin Highway 40 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction Wisconsin Highway 77, thence along Wisconsin Highway 77 to the Wisconsin-Michigan State line, to points in that part of Louisiana on and southwest of a line beginning at the Texas-Louisiana State line extending along Interstate Highway 20 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 167, thence along U.S. Highway 167 to junction Louisiana Highway 82, thence along Louisiana Highway 82 to junction Louisiana Highway 133, thence along Louisiana Highway 133 to Intracoastal, La. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., and Claremore, Okla.

No. MC 114211 (Sub-No. E1189), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof (except commodities the transportation of which, because of size or weight, requires the use of special equipment and except commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), from points in that part of New Mexico on and south of a line beginning at the Arizona-New Mexico State line extending along U.S. Highway 66 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction New Mexico Highway 529, thence along New Mexico Highway 529 to junction U.S. Highway 62, thence along U.S. Highway 62 to the New Mexico-Texas State line; points in that part of Arizona on and south of a line beginning at the Arizona-California State line, thence along U.S. Highway 66 to the New Mexico-Arizona State line, points in that part of California on and south of a line beginning at the Arizona California State line extending along U.S. Highway 66 to junction California Highway 58, thence along California Highway 58 to junction U.S. Highway 101, thence along U.S. Highway 101 to junction California Highway 1, thence along California Highway 1 to Morro Bay, Calif. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., and Claremore, Okla.

No. MC 114211 (Sub-No. E1190), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements, pumps, water systems, component parts* for water systems, *towers* and *parts* for agricultural implements and pumps, from points in that part of Missouri on and north of a line beginning at the Kansas-Missouri State line extending along U.S. Highway 36 to the Missouri-Illinois State line, to points in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 54 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction U.S. Highway 87, thence along U.S. Highway 87 to Port Lavaca, Tex., restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1191), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Agricultural implements, pumps, water systems, component parts* for water systems, *towers* and *parts* for agricultural implements and pumps, from points in that part of Missouri on and south of a line beginning at the Kansas-Missouri State line extending along Interstate Highway 70 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Missouri Highway 17, thence along Missouri Highway 17 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Missouri Highway 72, thence along Missouri Highway 72 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction Missouri Highway 146, thence along Missouri Highway 146 to the Missouri-Illinois State line, to points in that part of Minnesota on and west of a line beginning at the Iowa-Minnesota State line extending along Minnesota Highway 60 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 12 to junction Minnesota Highway 29, thence along Minnesota Highway 29 to junction U.S. Highway 71, thence along Minnesota Highway 11 to Baudette, Mich., restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1192), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural* implements and parts for agricultural implements and tanks and towers, from points in that part of Missouri on and north of a line beginning at the Kansas-Missouri State line extending along U.S. Highway 36 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 22, thence along Missouri Highway 22 to junction Missouri Highway 19, thence along Missouri Highway 19 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Missouri-Illinois State line, to points in that part of Kansas on and west of a line beginning at the Nebraska-Kansas State line extending along U.S. Highway 183 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Kansas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1193), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* for agricultural implements and tanks and towers, from points in that part of Missouri on and south of a line beginning at the Kansas-Missouri State line extending along U.S. Highway 36 to the Missouri-Illinois State line, to points in South Dakota. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1194), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* therefor when moving in mixed loads with such commodities, from points in that part of Missouri on and north of a line beginning at the Missouri-Kansas State line extending along U.S. Highway 36 to the Missouri-Illinois State line, to points in that part of Nebraska on and west of a line beginning at the Nebraska-Iowa State line extending along U.S. Highway 20 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction Nebraska Highway 15, thence along Nebraska Highway 15 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line, and to points in Wyoming, restricted against the transportation of commodities, the transportation of which, because of size or weight, requires the use of special equipment or special handling, and restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1195), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled agricultural implements*, and *parts* therefor, from points in that part of Missouri on and south of a line beginning at the Kansas-Missouri State line extending along Missouri Highway 18 to junction Missouri Highway 52, thence along Missouri Highway 52 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Missouri Highway 47, thence along Missouri Highway 47 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Missouri Highway 32, thence along Missouri Highway 32 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction Missouri Highway 52, thence along Missouri Highway 52 to Chester, Ill., to points in that part of Montana on and north of a line beginning at the Montana-North Dakota State line extending along U.S. Highway 2 to the Montana-Idaho State line, to points in that part of Idaho on and northwest of a line beginning at the Idaho-Montana State line extending along U.S. Highway 2 to junction U.S. Highway 95, thence along U.S. Highway 95 to junction Idaho Highway 3, thence along Idaho Highway 3 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Idaho-Washington State line, and to points in that part of Washington on and north of a line beginning at the Washington-Idaho State line extending along U.S. Highway 12, thence along U.S. Highway 12 to junction Washington Highway 124, thence along Washington Highway 124 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Interstate Highway 5 to Kelso, Wash., restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., and Minneapolis, Minn.

No. MC 114211 (Sub-No. E1197), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors* (except those with vehicle beds, bed frames, and fifth wheels), *equipment* designed for use in conjunction with farm tractors, from points in that part of Missouri on and east of a line beginning at the Missouri-Illinois State line extending along U.S. Highway 36, to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Missouri Highway 5, thence along Missouri Highway 5 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 65, thence along U.S. Highway 65 to the Missouri-Arkansas State line; to points in that part of Montana on and north of a line beginning at the Montana-North Dakota State line extending along U.S. Highway 10 to junction U.S. Highway Alternate 10, thence along U.S. Highway Alternate 10 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Montana-Idaho State line; points in that part of Idaho on and north of a line beginning at the Montana-Idaho State line; points in that part of Idaho on and north of a line beginning at the Montana-Idaho State line, extending along U.S. Highway 12 to the Idaho-Washington State line; to points in that part of Oregon on and northwest of a line beginning at the Oregon-Washington State line extending along Oregon Highway 11 to junction Interstate Highway 80N, thence along Interstate Highway 80N to junction Interstate Highway 5, thence along Interstate Highway 5 to junction Oregon Highway 42, thence along Oregon Highway 42 to Coqiville Pt., Oreg. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., points in Iowa, and Fargo, N. Dak.

No. MC 114211 (Sub-No. E1198), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements, pumps, water systems, component parts* for water systems, *towers*, and *parts* for agricultural implements and pumps, from points in Michigan, to points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line extending along Interstate Highway 35 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction U.S. Highway 87, thence along U.S. Highway 87 to Port Lavoca, Tex., restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1199), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements, pumps, water systems, component parts* for water systems, *towers & parts* for agricultural implements & pumps, from points in the Upper Peninsula of Michigan, to points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 271 to junction Texas Highway 19, thence along Texas Highway 19 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 75, thence along U.S. Highway 75 to Galveston, Tex., restricted against

V 40163 APR 175

movement to oilfield locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1200), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts*, for agricultural implements and tanks and towers, from points in Michigan, to points in Colorado, to points in that part of Kansas on and west of a line beginning at the Nebraska-Kansas State line extending along U.S. Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Kansas Highway 99, thence along Kansas Highway 99 to junction Kansas Highway 16, thence along Kansas Highway 16 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma State line, and to points in that part of Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 77 to junction U.S. Highway 177, thence along U.S. Highway 177 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Texas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1201), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* for agricultural implements and tanks and towers, from points in that part of Michigan on and north of a line beginning at Empire, Mich., extending along Michigan Highway 72 to junction Michigan Highway 66, thence along Michigan Highway 66 to junction Michigan Highway 61, thence along Michigan Highway 61 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction U.S. Highway 10, thence along U.S. Highway 10 to Bay City, Mich., to points in that part of Kansas on and west of a line beginning at the Kansas-Nebraska State line extending along U.S. Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Kansas Highway 99, thence along Kansas Highway 99 to junction Kansas Highway 16, thence along Kansas Highway 16 to junction U.S. Highway 75, thence along U.S. Highway 75 to the Kansas-Oklahoma State line, and to points in that part of Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 75 to junction Oklahoma Highway 3, thence along Oklahoma Highway 3 to junction U.S. Highway 271, thence along U.S. Highway 271 to the Oklahoma-Texas State line. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1203), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* for agricultural implements when moving in mixed loads with such commodities, from points in Michigan to points in that part of Nebraska on, south, and west of a line beginning at the Wyoming-Nebraska State line extending along U.S. Highway 26 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Nebraska State line and extending along U.S. Highway 26 to junction U.S. Highway 89, thence along U.S. Highway 89 to junction U.S. Highway 187, thence along U.S. Highway 187 to junction Wyoming Highway 28, thence along Wyoming Highway 28 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction Wyoming Highway 34, thence along Wyoming Highway 34 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction U.S. Highway 26, thence along U.S. Highway 26 to the Nebraska-Wyoming State line, restricted against the transportation of which, because of size or weight, requires the use of special equipment or special handling, and restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1204), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* thereof, when moving in mixed loads, with such commodities, from points in that part of Michigan on and south of a line beginning at Empire, Mich., extending along Michigan Highway 72 to junction Michigan Highway 33, thence along Michigan Highway 33 to junction Michigan Highway 55, thence along Michigan 55 to Tawas City, Mich., to points in Wyoming and points in that part of Nebraska on and south of a line beginning at the South Dakota-Nebraska State line extending along U.S. Highway 83 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction Nebraska Highway 22, thence along Nebraska Highway 22 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction Nebraska Highway 15, thence along Nebraska Highway 15 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Nebraska State line, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1205), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof (except commodities the transportation of which, because of size or weight, require the use of special equipment and except commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), from points in Michigan, to points in that part of New Mexico on, west, and south of a line beginning at the New Mexico-Texas State line extending along U.S. Highway 285 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 380, thence along U.S. Highway 380 to junction U.S. Highway 60, thence along U.S. Highway 60 to the New Mexico-Arizona State line; to points in that part of Arizona on and south of a line beginning at the Arizona-New Mexico State line extending along U.S. Highway 60 to junction U.S. Highway 180, thence along U.S. Highway 180 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction U.S. Highway 93, thence along U.S. Highway 93 to the Arizona-Nevada State line; to points in that part of Nevada on and south of a line beginning at the Nevada-Arizona State line extending along U.S. Highway 93 to junction Interstate Highway 15, thence along Interstate Highway 15 to the Nevada-California State line; and to points in that part of California on and south of a line beginning at the California-Nevada State line extending along Interstate Highway 15 to junction California Highway 58, thence along California Highway 58 to junction California Highway 99, thence along California Highway 99 to junction California Highway 180, thence along California Highway 180 to junction California Highway 33, thence along California Highway 33 to junction California Highway 198, thence along California Highway 198 to junction U.S. Highway 101, thence along U.S. Highway 101 to junction California Highway 68, thence along California Highway 68 to Monterey, Calif. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., and Claremore, Okla.

No. MC 114211 (Sub-No. E1206), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors* (except those with vehicle beds, bed frames, and fifth wheels), *equipment* designed for use in conjunction with farm tractors, *parts* thereof, from points in that part of Michigan on and east of a line beginning at Ludington, Mich., extending along U.S. Highway 10 to junction U.S. Highway 131, thence along U.S. Highway 131 to junction Michigan Highway 20, thence along Michigan Highway 20 to junction U.S. Highway B.R. 10, thence along U.S. Highway B.R. 10 to junction Michigan Highway 47, thence along Michigan Highway 47 to junction Michigan Highway 46, thence along Michigan Highway 46 to junction U.S. Highway 53, thence along U.S. Highway 53 to Port Austin, Mich.; to points in Washington and points in that part of Oregon on and north of a line beginning at the Washington-Oregon State line extending along Oregon Highway 11 to junction Interstate Highway 80N, thence along Interstate Highway 80N to junction Interstate Highway 5, thence along Interstate Highway 5 to junction Oregon Highway 42, thence along Oregon Highway 42 to junction Oregon Highway 425, thence along Oregon Highway 425 to Bandon, Oreg. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., points in Iowa, and Fargo, N. Dak.

No. MC 114211 (Sub-No. E1207), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements, pumps, water systems, component parts* for water systems, *towers* and *parts* for agricultural implements and pumps, from points in that part of Indiana on and north of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 24 to the Indiana-Ohio State line, to points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 281 to junction U.S. Highway 181, thence along U.S. Highway 181 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Texas Highway 44, thence along Texas Highway 44 to junction Texas Highway 358, thence along Texas Highway 358 to Port Aransas, Tex., restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1208), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements, pumps, water systems, component parts* for water systems, *towers* and *parts* for agricultural implements and pumps, from points in that part of Indiana on and north of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 24 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Ohio-Indiana State line; to points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 62 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction Texas Highway 92, thence along Texas Highway 92 to junction Texas Highway 70, thence along Texas Highway 70 to junction U.S. Highway 277, thence along U.S. Highway 277 to junction U.S. Highway 377, thence along U.S. Highway 377 to Del Rio, Tex., restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1209), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements, pumps, water systems, component parts* for water systems, *towers* and *parts* for agricultural implements and pumps, from points in that part of Indiana on and north of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 24 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Indiana-Ohio State line, to points in that part of South Dakota on and west of a line beginning at the Nebraska-South Dakota State line extending along U.S. Highway 81 to junction South Dakota Highway 20, thence along South Dakota Highway 20 to junction U.S. Highway 281, thence along U.S. Highway 281 to the North Dakota-South Dakota State line. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1210), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* for agricultural implements when moving in mixed loads with such commodities, from points in Indiana to points in that part of Nebraska on and west of a line beginning at the South Dakota-Nebraska State line extending along U.S. Highway 83 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 183, thence along U.S. Highway 183 on and west of a line beginning at the Nebraska-Kansas State line extending along U.S. Highway 77 to junction Colorado Highway 9, thence along Colorado Highway 9 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Colorado Highway 140, thence along Colorado Highway 140 to junction U.S. Highway 156, thence along U.S. Highway 156 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Oklahoma-Texas State line; points in that part of South Dakota on and west of a line beginning at the Wyoming-South Dakota State line extending along U.S. Highway 212 to junction U.S. Highway 85, thence along U.S. Highway 85 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction South Dakota Highway 73, thence along South Dakota Highway 73 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 83, thence along U.S. Highway 83 to the South Dakota-Nebraska State line. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1211), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* for agricultural implements and tanks and towers, from points in that part of Indiana on and south of a line beginning at the Illinois-Indiana State line extending along Interstate Highway 74 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Indiana-Ohio State line, to points in that part of South Dakota on and west of a line beginning at the Nebraska-South Dakota State line extending along U.S. Highway 81 to junction South Dakota Highway 20, thence along South Dakota Highway 20 to junction U.S. Highway 281, thence along U.S. Highway 281 to the North Dakota-South Dakota State line. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1212), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* for agricultural implements when moving in mixed loads with such commodities, from points in Indiana to points in that part of Nebraska on and west of a line beginning at the South Dakota-Nebraska State line extending along U.S. Highway 83 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 183

to junction Nebraska Highway 91, thence along Nebraska Highway 91 to junction Nebraska Highway 11, thence along Nebraska Highway 11 to junction Nebraska Highway 22, thence along Nebraska Highway 22 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction Nebraska Highway 15, thence along Nebraska Highway 15 to junction Nebraska Highway 41, thence along Nebraska Highway 41 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Nebraska State line, and to points in Wyoming, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1213), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled agricultural implements* and *parts* for agricultural implements, from points in that part of Indiana on and south of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 40 to the Indiana-Ohio State line, to points in Washington and points in that part of Oregon on and west of a line beginning at the Washington-Oregon State line extending along Interstate Highway 5 to junction U.S. Highway 20, thence along U.S. Highway 20 to Newport, Oreg., restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., and Minneapolis, Minn.

No. MC 114211 (Sub-No. E1214), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof (except commodities the transportation of which because of size or weight, requires the use of special equipment and except commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), from points in Indiana to points in that part of California on and south of a line beginning at the Pacific Ocean extending along California Highway 68 to junction U.S. Highway 101, thence along U.S. Highway 101 to junction California Highway 152, thence along California Highway 152 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction California Highway 140, thence along California Highway 140 to junction California Highway 99, thence along California Highway 99 to junction California Highway 58, thence along California Highway 58 to junction Interstate Highway 40, thence along Interstate Highway 40 to the Nevada-California State line. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., and Claremore, Okla.

No. MC 114211 (Sub-No. E1215), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof (except commodities the transportation of which because of size or weight, requires the use of special equipment and except commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459), from points in that part of Indiana on and north of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 52 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Ohio-Indiana State line, to points in that part of California on and south of a line beginning at the California-Nevada State line extending along Interstate Highway 15 to the California Highway 58, thence along California Highway 58 to junction California Highway 99, thence along California Highway 99 to junction California Highway 152, thence along California Highway 152 to junction U.S. Highway 101, thence along U.S. Highway 101 to junction Interstate Highway 280, thence along Interstate Highway 280 to junction California Highway 92, thence along California Highway 92 to Half Moon Bay, Calif., to points in that part of Nevada on and south of a line beginning at the Arizona-Nevada State line extending along U.S. Highway 93 to junction Interstate Highway 15, thence along Interstate Highway 15 to the Nevada-California State line; and to points in that part of Arizona on and south of a line beginning at the United States-Mexico International Boundary line extending along U.S. Highway 80 to junction Interstate Highway 10, thence along Interstate Highway 10 to junction Interstate Highway 17, thence along Interstate Highway 17 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction U.S. Highway 93, thence along U.S. Highway 93 to the Arizona-Nevada State line. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., and Claremore, Okla.

No. MC 114211 (Sub-No. E1216), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. BOX 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery*, and *parts* thereof, from points in that part of Indiana on and south of a line beginning at the Illinois-Indiana State line extending along Interstate Highway 70 to the Ohio-Indiana State line, to points in that part of North Dakota on and west of a line beginning at the United States-Canada International Boundary line extending along U.S. Highway 83 to junction North Dakota Highway 200, thence along North Dakota Highway 200 to junction North Dakota Highway 8, thence along North Dakota Highway 8 to junction U.S. Highway 12, thence along U.S. Highway 12 to the South Dakota-North Dakota State line. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., and Sioux City, Iowa.

No. MC 114211 (Sub-No. E1217), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors* (except those with vehicle beds, bed frames, and fifth wheels), *equipment* designed for use in conjunction with farm tractors, *parts* thereof, from points in that part of Indiana on and south of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 40 to the Indiana-Ohio State line, to points in Washington and points in that part of Montana on and north of a line beginning at the Montana-North Dakota State line extending along U.S. Highway 2 to junction U.S. Highway 191, thence along U.S. Highway 191 to junction Montana Highway 19, thence along Montana Highway 19 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Idaho-Montana State line; points in that part of Idaho on and north of a line beginning at the Idaho-Montana State line extending along U.S. Highway 12 to the Washington-Idaho State line; points in that part of Oregon on, north, and west of a line beginning at the Washington-Oregon State line extending along Oregon Highway 11 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 395 thence along U.S. Highway 395 to junction U.S. Highway 26, thence along U.S. Highway 26 to junction Oregon Highway 126, thence along Oregon Highway 126 to junction U.S. Highway 97, thence along U.S. Highway 97 to junction Oregon Highway 138, thence along Oregon Highway 138 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction U.S. Highway 199, thence along U.S. Highway 199 to the Oregon-California State line. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., points in Iowa, and Fargo, N. Dak.

No. MC 114211 (Sub-No. E1218), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting:

Agricultural implements, pumps, water systems, component parts for water systems, *towers* and *parts* for agricultural implements and pumps, from points in that part of Illinois on and north of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 136 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Indiana State line, to points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 281 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Texas Highway 185, thence along Texas Highway 185 to Port O'Connor, Tex., restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1219), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* for agricultural implements and tanks and towers, from points in that part of Illinois on and north of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 136 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Indiana State line, to points in that part of Kansas on and west of a line beginning at the Nebraska-Kansas State line extending along U.S. Highway 77 to junction Kansas Highway 177, thence along Kansas Highway 177 to junction Kansas Highway 18, thence along Kansas Highway 18 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Interstate Highway 35W, thence along Interstate Highway 35W to junction Interstate Highway 35, thence along Interstate Highway 35 to the Kansas-Oklahoma State line and points in that part of Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line extending along Interstate Highway 35 to junction H. E. Bailey Turnpike, thence along the H. E. Bailey Turnpike to the Oklahoma-Texas State line, and to points in Colorado. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1220), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50740. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* for agricultural implements and tanks and towers, from points in that part of Illinois on and south of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 136 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Indiana-Illinois State line, to points in that part of Kansas on and west of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 56 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 156, thence along U.S. Highway 156 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction U.S. Highway 81 to the Kansas-Nebraska State line, to points in that part of South Dakota on and west of a line beginning at the North Dakota-South Dakota State line extending along U.S. Highway 83 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction South Dakota Highway 37, thence along South Dakota Highway 37 to the South Dakota-Nebraska State line, and to points in Colorado. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1221), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* for agricultural implements when moving in mixed loads with such commodities, from points in Illinois, to points in that part of Wyoming on, west, and south of a line beginning at the Montana-Wyoming State line extending along U.S. Highway 87 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Wyoming-Nebraska State line; and to points in that part of Nebraska on and south of a line beginning at the Wyoming-Nebraska State line extending along U.S. Highway 20 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Nebraska Highway 4, thence along Nebraska Highway 4 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment, or special handling, and restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1222), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* for agricultural implements when moving in mixed loads with such commodities, from points in that part of Illinois on and south of a line beginning at the Missouri-Illinois State line extending along U.S. Highway 24 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction Interstate Highway 74, thence along Interstate Highway 74 to the Illinois-Indiana State line, to points in Wyoming, and to points in that part of Nebraska on and west of a line beginning at the South Dakota-Nebraska State line extending along U.S. Highway 81 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Nebraska State line, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1223), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural* implements, pumps, water systems, component parts for water systems, towers, and parts for agricultural implements and pumps, from points in that part of Minnesota on and west of a line beginning at the Iowa-Minnesota State line extending along Minnesota Highway 60 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Minnesota Highway 72, thence along Minnesota Highway 72 to junction Minnesota Highway 11, thence along Minnesota Highway 11 to Baudette, Minn., to points in that part of Missouri on and south of a line beginning at the Kansas-Missouri State line extending along Interstate Highway 70 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Missouri Highway 52, thence along Missouri Highway 52 to junction Missouri Highway 17, thence along Missouri Highway 17 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Missouri Highway 72, thence along Missouri Highway 72 to junction Missouri Highway 146, thence along Missouri Highway 146 to the Illinois-Missouri State line, restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1225), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements and parts* for agricultural implements and tanks and towers,

V 40 163 APR 1 75

from points in Minnesota, to points in that part of Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 75 to junction Indian Nation Turnpike, thence along Indian Nation Turnpike to junction Oklahoma Highway 7, thence along Oklahoma Highway 7 to junction U.S. Highway 70, thence along U.S. Highway 70 to the Oklahoma-Arkansas State line; to points in that part of Kansas on and west of a line beginning at the Kansas-Nebraska State line extending along U.S. Highway 77 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 75, thence along U.S. Highway 75 to the Nebraska-Oklahoma State line; and to points in that part of Colorado on and south of a line beginning at the Nebraska-Colorado State line extending along U.S. Highway 6 to junction Colorado Highway 14, thence along Colorado Highway 14 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Colorado-Utah State line. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1226), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements and parts* for agricultural implements and tanks and towers, from points in that part of Minnesota on and east of a line beginning at the Iowa-Minnesota State line extending along Minnesota Highway 60 to junction U.S. Highway 71, thence along U.S. Highway 71 to the United States-Canada International Boundary line, to points in Colorado. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1227), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements and parts* for agricultural implements and tanks and towers, from points in that part of Minnesota on and west of a line beginning at the Iowa-Minnesota State line extending along Minnesota Highway 60 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Minnesota Highway 23, thence along Minnesota Highway 23 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Minnesota Highway 38, thence along Minnesota Highway 38 to junction Minnesota Highway 1, thence along Minnesota Highway 1 to junction Minnesota Highway 6, thence along Minnesota Highway 6 to junction U.S. Highway 71, thence along U.S. Highway 71 to the United States-Canada International Boundary line, to points in Oklahoma and to points in that part of Kansas on, west, and south of a line beginning at the Nebraska-Kansas State line extending along U.S. Highway 77 to junction Kansas Highway 9, thence along Kansas Highway 9 to junction Kansas Highway 63, thence along Kansas Highway 63 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Kansas-Missouri State line. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1228), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Agricultural implements and parts therefor when moving in mixed loads with such commodities, from points in that part of Minnesota on and east of a line beginning at the Iowa-Minnesota State line extending along Interstate Highway 35 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Minnesota-Wisconsin State line, to points in that part of Nebraska on and south of a line beginning at the Wyoming-Nebraska State line extending along U.S. Highway 30 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Nebraska Highway 4, thence along Nebraska Highway 4 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line, to points in that part of Wyoming on and south of a line beginning at the Utah-Wyoming State line extending along U.S. Highway 30N to junction Interstate Highway 80, thence along Interstate Highway 80 to the Wyoming-Nebraska State line, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1229), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson, (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements, water systems, pumps, component parts* for water systems, *towers* and *parts* for agricultural implements and pumps, from points in Texas, to points in Minnesota, and to points in that part of Michigan on and west of a line beginning at the Wisconsin-Michigan State line extending along Michigan Highway 73 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction Michigan Highway 69, thence along Michigan Highway 69 to junction Michigan Highway 95, thence along Michigan Highway 95 to junction U.S. Highway 41, thence along U.S. Highway 41 to Marquette, Mich.; and to points in that part of Wisconsin on and north of a line beginning at the Iowa-Wisconsin State line extending along Wisconsin Highway 82 to junction Wisconsin Highway 131, thence along Wisconsin Highway 131 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Wisconsin Highway 21, thence along Wisconsin Highway 21 to junction Wisconsin Highway 173, thence along Wisconsin Highway 173 to junction Wisconsin Highway 80, thence along Wisconsin Highway 80 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction Wisconsin Highway 97, thence along Wisconsin Highway 97 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 17, thence along Wisconsin Highway 17 to junction Wisconsin Highway 70, thence along Wisconsin Highway 70 to junction Wisconsin Highway 55, thence along U.S. Highway 55 to the Wisconsin-Michigan State line restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1230), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements, pumps, water systems, component parts* for water systems, *towers* and *parts* for agricultural implements and pumps, from points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 281 to junction Texas Highway 29, thence along Texas Highway 29 to junction Texas Highway 16, thence along Texas Highway 16 to junction Texas Highway 44, thence along Texas Highway 44 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction Texas Highway 285, thence along Texas Highway 285 to junction U.S. Highway 77, thence along U.S. Highway 77 to Brownsville, Tex.; to points in that part of Illinois on and north of a line beginning at the Missouri-Illinois State line extending along U.S. Highway 24 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Texas Highway 9, thence along Texas Highway 9 to the Illinois-Indiana State line: to points in that part of Indiana on and north of a line beginning at the Indiana-Illinois State line extending along Indiana Highway 26 to junction Indiana Highway 29.

Thence along Indiana Highway 29 to junction Indiana Highway 22, thence along Indiana Highway 22 to junction Indiana Highway 26, thence along Indiana Highway 26 to the Indiana-Ohio State line; points in that part of Ohio on and north of a line beginning at the Indiana-Ohio State line extending along Ohio Highway 119 to junction Ohio Highway 65, thence along Ohio Highway 65 to junction Ohio Highway 47, thence along Ohio Highway 47 to junction Ohio Highway 4, thence along Ohio Highway 4 to junction U.S. Highway 30S, thence along U.S. Highway 30S to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Ohio Highway 43, thence along Ohio Highway 43 to junction Ohio Highway 39, thence along Ohio Highway 39 to the Ohio-Pennsylvania State line; and to points in Minnesota, Wisconsin, and Michigan, restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1231), filed September 5, 1974. Applicant: WARREN TRANSPORT INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* for agricultural implements and tanks and towers, from points in Texas, to points in that part of Iowa on and north of a line beginning at the Iowa-Nebraska State line extending along Iowa Highway 2 to junction Iowa Highway 48, thence along Iowa Highway 48 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Iowa Highway 150, thence along Iowa Highway 150 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction Iowa Highway 51, thence along Iowa Highway 51 to junction Iowa Highway 9, thence along Iowa Highway 9 to Lansing, Iowa. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1232), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* for agricultural and tank and towers, from points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line extending along Interstate Highway 35 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 75, thence along U.S. Highway 75 to Galveston, Tex., to points in Iowa. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1233), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* for agricultural implements and tanks and towers, from points in that part of Texas on and east of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 281 to junction Texas Highway 16, thence along Texas Highway 16, to junction U.S. Highway 377, thence along U.S. Highway 377 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction U.S. Highway 61, thence along U.S. Highway 81 to the United States-Mexico International Boundary line to points in South Dakota. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1234), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and parts for agricultural implements when moving in mixed loads with such commodities, from points in that part of Texas on and east of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 281 to junction Texas Highway 16, thence along Texas Highway 16 to junction Texas Highway 67, thence along Texas Highway 67 to junction U.S. Highway 180, thence along U.S. Highway 180 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Texas Highway 16, thence along Texas Highway 16 to junction Texas Highway 173, thence along Texas Highway 173 to junction U.S. Highway 81, thence along U.S. Highway 81 to the United States-Mexico International Boundary line; to points in that part of Nebraska on and north of a line beginning at the Iowa-Nebraska State line extending along Nebraska Highway 2 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction U.S. Highway 26, thence along U.S. Highway 26 to the Nebraska-Wyoming State line; to points in that part of Wyoming on and north of a line beginning at the Nebraska-Wyoming State line extending along U.S. Highway 26 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Wyoming Highway 120, thence along Wyoming Highway 120 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Idaho-Wyoming State line; and to points in South Dakota, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 *M.C.C.* 459. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E1235), filed September 5, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements and parts for agricultural implements when moving in mixed loads with such commodities, from points in that part of Texas on and east of a line beginning at the Texas-Oklahoma State line extending along Interstate Highway 35 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Texas Highway 80, thence along Texas Highway 80 to junction Texas Highway 72, thence along Texas Highway 72 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 83 to junction Texas Highway 336, thence along Texas Highway 336 to the United States-Mexico International Boundary line; to points in Wyoming, South Dakota; and to points in that part of Nebraska on, north, and west of a line beginning at the Kansas-Nebraska State line extending along U.S. Highway 77 to junction Nebraska Highway 41, thence along Nebraska Highway 41 to junction Nebraska Highway 50, thence along Nebraska Highway 50 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to the Nebraska-Iowa State line, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and restricted against the transportation of those commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 117344 (Sub-No. E8), filed May 17, 1974. Applicant: THE MAXWELL CO., 10360 Evendale Drive, Cincinnati, Ohio 45215. Applicant's representative: Thomas L. Maxwell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Caustic soda, alkaline cleaning compounds, sulphuric acid, hydrochloric acid, buffing, polishing, and abrasive compounds, coal tar chemicals, nitric acid*, ink, in bulk, in tank vehicles, from Cincinnati, Ohio, to points in the Upper Peninsula of Michigan. The purpose of this filing is to eliminate the gateway of Jackson County, Ind.

No. MC 117344 (Sub-No. E37), filed June 2, 1974. Applicant: THE MAXWELL CO., 10360 Evendale Drive, Cincinnati, Ohio 45215. Applicant's representative: Thomas L. Maxwell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Vegetable oils*, in bulk, in tank vehicles, (1) from points in Illinois (except Chicago, Decatur, and Bloomington), to points in Delaware, those in Maine on and south of a line beginning at the Maine-New Hampshire State line and extending east along U.S. Highway 2 to Bangor, thence southeast along U.S. Highway Alternate 1 to Ellsworth, thence along Maine Highway 102 to the Atlantic Ocean, Maryland, New Hampshire, New Jersey, Vermont, and West Virginia, (2) from points in Indiana (except Indianapolis), to points

APR 175

in Delaware, Maryland, New Jersey; and (B) *Soya beans* oil, from Chicago, Decatur and Bloomington, Ill., to points in Georgia, Delaware, those in Maine on and south of a line beginning at the Maine-New Hampshire State line and extending along U.S. Highway 2 to Bangor, thence along U.S. Highway Alternate 1 to Ellsworth, thence along Maine Highway 102 to the Atlantic Ocean, Maryland, New Hampshire, New Jersey, North Carolina, South Carolina, Vermont, Virginia, and West Virginia. The purpose of this filing is to eliminate the gateway of Cincinnati, Ohio.

No. MC 117574 (Sub-No. E2), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities, which because of size or weight require the use of special equipment or special handling* (except boats), between points in New York on and south of a line beginning at Port Jervis, N.Y., extending along U.S. Highway 209 to junction U.S. Highway 44, thence along U.S. Highway 44 to the New York-Massachusetts State line, on the one hand, and, on the other, points in Gates, Hertford, Currituck, Camden, Pasquotank, Perquimans, Chowan, Bertie, Martin, Washington, Tyrell, Dare, Hyde, Pitt, Beaufort, Craven, Jones, Onslow, Carteret, and Pamlico Counties, N.C. (points in Pennsylvania on and east of U.S. Highway 15 in Adams, York, Cumberland, Perry, Dauphin, Lebanon and Lancaster Counties, Pa.; points in Susquehanna, Wayne, Wyoming, Lackawanna, Pike, Columbia, Luzerne, Monroe, Carbon, Schuylkill, Lebanon, and Berks Counties, Pa., and points in those parts of Bradford, Sullivan, Lycoming, Montour, York, Northumberland, Dauphin, and Lancaster Counties, Pa., east of a line beginning at the Pennsylvania-Maryland State line near New Freedom, Pa., extending through York, Hummelstown, Trevorton, Opp, and East Smithfield, Pa., to the Pennsylvania-New York State line; and points in Northampton, Bucks, Montgomery, Philadelphia, Delaware, Lehigh, and Chester Counties, Pa.*);

(2) *Commodities, which because of size or weight require the use of special equipment* (except boats), between points in Ohio on the one hand, and, on the other, points in Delaware, Maryland (except points in Allegheny and Garrett Counties), points in Virginia east of the Chesapeake Bay, those in Pennsylvania east of a line beginning at the Pennsylvania-Maryland State line near New Freedom, Pa., and extending north through York, Hummelstown, Trevorton, Opp, and East Smithfield, Pa., to the Pennsylvania-New York State line, and those points in New York in and east of the counties of Cortland, Onondaga, Oswego, and Tioga, and the District of Columbia, and New Jersey (points in Pennsylvania bounded on the north by the New York-Pennsylvania State line extending along U.S. Highway 11 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-New York State line; points in Pennsylvania on and east of U.S. Highway 15 in Adams, York, Cumberland, Perry, Dauphin, Lebanon and Lancaster Counties, Pa.; points in Pennsylvania within 150 miles of Philadelphia, Pa., in the counties of Snyder, Juniata, Perry, Cumberland, Franklin, Adams, Dauphin, Fulton, Huntingdon, Mifflin, Centre, Clinton, Union, Lycoming, and Tioga.*);

(3) *Heavy machinery, building and contractors' equipment*, which because of size or weight require the use of special equipment or special handling (except boats), between points in Ohio on and north of U.S. Highway 22, on the one hand, and, on the other, points in Virginia on and east of Interstate Highway 95 and west of the Chesapeake Bay (those points within 25 miles of Baltimore, Md., within an area in Pennsylvania on and east of U.S. Highway 15 in Adams, York, Cumberland, Perry, Dauphin, Lebanon and Lancaster Counties, Pa.*);

(4) *Heavy machinery, building and contractors' equipment, materials and supplies*, which because of size or weight require the use of special equipment or special handling (except machinery, equipment, materials, and supplies used in, or in connection with, the construction, operations, repair, servicing, maintenance, dismantling of pipelines), between points in Virginia, on and east of Interstate Highway 95, on the one hand, and, on the other, points in Illinois, Indiana, Michigan, Minnesota, and Wisconsin (points in Maryland within 25 miles of Baltimore, Md.*); (5) *Heavy machinery, building and contractors' equipment, materials and supplies*, which because of size or weight require the use of special equipment or special handling (except boats, and except machinery, equipment, materials, and supplies used in, or in connection with, the construction, operations, repair, servicing, maintenance, dismantling of pipelines), between those points in Illinois and Indiana on and north of U.S. Highway 24, points in Michigan, Minnesota, and Wisconsin, on the one hand, and, on the other, points in Virginia on and west of Interstate Highway 95 (except points in and west of Highland, Bath, Rockbridge, Amherst, Campbell and Halifax Counties), and points in North Carolina in and east of Granville, Wake, Johnston, Wayne, Duplin, Pender, and New Hanover Counties (points in Maryland, and points in Pennsylvania on and east of U.S. Highway 15 in Adams, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., that are within 150 miles of Philadelphia*);

(6) *Heavy machinery, building and contractors' equipment, materials and supplies* which because of size or weight require the use of special equipment or special handling (except boats), between Wilmington, Del., on the one hand, and, on the other, points in Maryland west of the Susquehanna River and Chesapeake Bay, points in Virginia (except the City of Chesapeake and points in Nansemond County), and points in North Carolina and the District of Columbia (points in Pennsylvania on and east of U.S. Highway 15 in York, Dauphin, Lebanon, and Lancaster Counties, Pa., that are east of a line beginning at the Pennsylvania-Maryland State line near New Freedom, Pa., and extending north through York, Hummelstown, Trevorton, Opp, and East Smithfield, Pa., to the Pennsylvania-New York State line*); (7) *Such commodities as by reason of their size or weight require the use of special equipment* (except machinery, equipment, materials and supplies used in, or in connection with, the construction, operations, repair, servicing, maintenance, and dismantling of pipelines), between Wilmington, Del., on the one hand, and, on the other, points in Georgia on and west of a line beginning at the Georgia-South Carolina State line extending along U.S. Highway 1 to junction with U.S. Highway 341, thence along U.S. Highway 341 to Brunswick, Ga., and all points in Florida (those points in Pennsylvania bounded on the north by the New York-Pennsylvania State line extending along U.S. Highway 11 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-New York State line, and points in that part of Pennsylvania on and east of U.S. Highway 219 to junction U.S. Highway 322, thence on and north of a line beginning at Grampian, Pa., extending along U.S. Highway 322 through Clearfield and State College, Pa., to Lewistown, Pa., thence along U.S. Highway 522 to Selinsgrove, Pa., and on and west of U.S. Highway 11 to the New York-Pennsylvania State line, except the site of the Curtiss Wright Corporation plant near Clearfield*). The purpose of this filing is to eliminate the gateways indicated by the asterisks above.

No. MC 117574 (Sub-No. E3), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities, which because of size or weight require the use of special equipment* (except boats), between points in Rhode Island, on the one hand, and, on the other, points in Ohio and West Virginia (points in Pennsylvania bounded on the north by the New York-Pennsylvania State line, thence by highways beginning at the New York-Pennsylvania State line extending along U.S. Highway 11 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-New York State line, including points on the indicated highways; points in Pennsylvania on and east of U.S. Highway 15 in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa.; and points in Susquehanna, Wayne, Wyoming, Lackawanna, Pike, Columbia, Luzerne, Monroe, Carbon, Schuylkill, Lebanon, and Berks Counties, Pa., and points in those parts of Bradford, Sullivan, Lycoming, Montour, York, Northumberland, Dauphin, and Lancaster Counties, Pa., east of a line beginning at the Pennsylvania-Maryland State line near New Freedom, Pa., and extending north through York, Hummelstown, Trevorton, Opp, and East Smithfield, Pa., to the Pennsylvania-New York State line; and points in Northampton, Bucks, Montgomery, Philadelphia, Delaware, Lehigh, and Chester Counties, Pa.*).

(2) *Commodities, which by reason of their size or weight require the use of special equipment* (except boats and machinery, equipment, materials, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance and dismantling of pipelines), between points in Rhode Island, on the one hand, and, on the other, points in Illinois, Indiana, Kentucky, Michigan, Minnesota, and Wisconsin (points in Pennsylvania on and east of U.S. Highway 15 in Adams, York, Cumberland, Perry, Dauphin, Lebanon and Lancaster Counties, Pa., and points in Maryland*); (3) *Commodities, which because of size or weight require the use of special equipment* (except machinery, equipment, materials, and supplies used in or in connection with, the construction, operation, repair, servicing, maintenance and dismantling of pipelines), between points in Maine, New Hampshire, and Vermont, on the one hand, and, on the other, points in Illinois, Indiana, Kentucky, Michigan, Minnesota, and Wisconsin (points in Pennsylvania bounded on the north by the New York-Pennsylvania State line, thence by highways beginning at junction of New York-Pennsylvania State line extending along U.S. Highway 11 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 322, thence along U.S. Highway 322 to the Pennsylvania-New York State line, including points on the indicated highways; and points in New York*); (4) *Commodities, which because of size or weight require the use of special equipment* (except machinery, equipment, materials, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance and dismantling of pipelines), between points in Rhode Island, on the one hand, and, on the other, points in Delaware, District of Columbia, Maryland, Ohio, Virginia and West Virginia (points in Pennsylvania bounded on the north by the New York-Pennsylvania State line, thence by highways beginning at the New York-Pennsylvania State line extending along U.S. Highway 11 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-New York State line, including points on the indicated highways; points in Pennsylvania on and east of U.S. Highway 15 in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa.; and points in Susquehanna, Wayne, Wyoming, Lackawanna, Pike, Columbia, Luzerne, Monroe, Carbon, Schuylkill, Lebanon, and Berks Counties, Pa., and points in those parts of Bradford, Sullivan, Lycoming, Montour, York, Northumberland, Dauphin, and Lancaster Counties, Pa., east of a line beginning at the Pennsylvania-Maryland State line near New Freedom, Pa., and extending through York, Hummelstown, Trevorton, Opp, and East Smithfield, Pa., to the Pennsylvania-New York State line*). The purpose of this filing is to eliminate the gateways indicated by the asterisks above.

No. MC 117574 (Sub-No. E4), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, which because of size or weight, require the use of special equipment (except boats and machinery, equipment, materials, and supplies, used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines), between points in Rhode Island, on the one hand, and, on the other, points in Florida, Georgia, South Carolina, and North Carolina (except points in the North Carolina Counties of Gates, Chowan, Washington, Pamlico, Carteret, Craven, Beaufort, Currituck, Camden, Pasquotank, Perquimans, Tyrell, Hyde, Dare, Hertford, Bertie, Martin, Pitt, Jones, and Onslow) (points in that part of Pennsylvania on and east of U.S. Highway 219, to the junction with U.S. Highway 322, thence on and north of a line beginning at Grampian, Pa., and extending along U.S. Highway 322 through Clearfield and State College, Pa., to Lewistown, Pa., thence along U.S. Highway 522 to Selinsgrove, Pa., and on and west of U.S. Highway 11 to the New York-Pennsylvania State line; points in Pennsylvania on and east of U.S. Highway 15 in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa.; points in Susquehanna, Wayne, Wyoming, Lackawanna, Pike, Columbia, Luzerne, Monroe, Carbon Schuylkill, Lebanon, and Berks Counties, Pa., and points in those parts of Bradford, Sullivan, Lycoming, Montour, York, Northumberland, Dauphin, and Lancaster Counties, Pa., east of a line beginning at the Pennsylvania-Maryland State line, New Freedom, Pa., and extending along York, Hammelstown, Trevorton, Opp, and East Smithfield, Pa., to the Pennsylvania-New York State line; and points in Northampton, Bucks, Montgomery, Philadelphia, Delaware, Lehigh, and Chester Counties, Pa.)*;

(2) *Commodities*, which because of size or weight, require the use of special equipment or special handling (except boats), between points in Rhode Island, on the one hand, and, on the other, points in Pennsylvania in the counties of Berks, Dauphin, Lebanon, Lancaster, Chester, Northumberland, Schuylkill, Montour, York, and Columbia, lying east of a line beginning at the Pennsylvania-Maryland State line, beginning at New Freedom, Pa., and extending along York, Hummelstown, Trevorton to junction U.S. Highway 11 on the north bank of the East Branch of the Susquehanna River, and extending along U.S. Highway 11 through Danville, Bloomsburg, and Berwick, Pa., to the Columbia and Luzerne County line (points in Pennsylvania on and east of U.S. Highway 15 to Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa.)*; and (3) *Commodities*, which, because of size or weight, require the use of special equipment, between points in New Jersey, and those in New York, lying on and south of U.S. Highway 44 and east of U.S. Highway 209, on the one hand, and, on the other, all points in New York, lying on or west of U.S. Highway 11 (points and places in a Pennsylvania area bounded on the north by the New York-Pennsylvania State line, thence by highways beginning at junction of New York-Pennsylvania State line with U.S. Highway 11, thence along U.S. Highway 11 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-New York State line, including points on the indicated highways; and points in Susquehanna, Wayne, Wyoming, Lackawanna, Pike, Columbia, Luzerne, Monroe, Carbon, Schuylkill, Lebanon, and Berks Counties, Pa., and points in those parts of Bradford, Sullivan, Lycoming, Montour, York, Northumberland, Dauphin, and Lancaster Counties, Pa., east of a line beginning at the Pennsylvania-Maryland State line near New Freedom, Pa., and extending through York, Hummelstown, Trevorton, Opp, and East Smithfield, Pa., to the Pennsylvania-New York State line)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 117574 (Sub-No. E5), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities or articles*, which because of size or weight, require the use of special equipment (except boats), between points in that part of New York north of a line beginning at the Pennsylvania-New York State line at Port Jervis, N.Y., extending along U.S. Highway 209 to junction U.S. Highway 44, thence along U.S. Highway 44 to the Massachusetts-New York State line, on the one hand, and, on the other, points in the District of Columbia, Virginia, that part of Maryland west of the Susquehanna River and the Chesapeake Bay, and points in West Virginia in Berkeley, Jefferson, Morgan, Hampshire, Mineral, Grant, Pendleton, Pocahontas, Randolph, Greenbrier, Monroe, Summers, Mercer, and McDowell Counties (Luzerne and Lancaster Counties, Pa., and State College, Pa.*); (2) *Self-propelled articles*, each weighing 15,000 pounds or more, which because of size or weight, require the use of special equipment, and

V 40163
APR 1 75

related machinery, tools, parts, and supplies moving in connection therewith, between points in Niagara, Orleans, Monroe, Genessee, Erie, and Chautauqua Counties, N.Y., on the one hand, and, on the other, points in Hancock, Brooke, Ohio, Marshall, Wetzel, Tyler, Pleasants, Wood, Ritchie, Doddridge, Harrison, Jackson, Wirt, Roane, Calhoun, Gilmer, Lewis, Braxton, Upshur, Randolph, Webster, Pocahontas, Mason, Cabell, Putnam, Kanawha, Clay, Nicholas, Greenbrier, Summers, Monroe, Fayette, Raleigh, Mercer, Wayne, Lincoln, Boone, Mingo, Logan, Wyoming, and McDowell Counties, W. Va., restricted to commodities which are transported on trailers (points within 80 miles of Columbus, Ohio*);

(3) *Commodities*, which because of size or weight require the use of special equipment, between points in New York in and east of Oswego, Onondaga, Cortland, and Tioga Counties, on the one hand, and, on the other, points in West Virginia (points in Pennsylvania within 150 miles of Philadelphia, and the Counties of Snyder, Juniata, Perry, Cumberland, Franklin, Adams, Dauphin, Fulton, Huntingdon, Mifflin, Centre, Clinton, Union, Lycoming, and Tioga, which are also in the area in Pennsylvania bounded on the north by the New York-Pennsylvania State line extending along U.S. Highway 11 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction U.S. Highway 219, thence along Highway 219 to the Pennsylvania-New York State line, including points on the indicated highways*); (4)*Commodities*, which because of size or weight require the use of special equipment (except boats), between points in that part of New York in, north or west of Albany, Delaware, Rensselaer, and Schoharie Counties, on the one hand, and, on the other, points in Delaware, and that part of Maryland east of the Susquehanna River and the Chesapeake Bay (points in Pennsylvania bounded on the north by the New York-Pennsylvania State line extending along U.S. Highway 11 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-New York State line, including points on the indicated highways; points in Pennsylvania on and east of U.S. Highway 15 in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa.; points in Susquehanna, Wayne, Wyoming, Lackawanna, Pike, Columbia, Luzerne, Monroe, Carbon, Schuylkill, Lebanon, and Berks Counties, Pa., and points in those parts of Bradford, Sullivan, Lycoming, Montour, York, Northumberland, Dauphin, and Lancaster Counties, Pa., east of a line beginning at the Pennsylvania-Maryland State line near New Freedom, Pa., and extending through York, Hummelstown, Trevorton, Opp, and East Smithfield, Pa., to the Pennsylvania-New York State line; and points in Northampton, Bucks, Montgomery, Philadelphia, Delaware, Lehigh, and Chester Counties, Pa.*);

(5) *Commodities* which because of their size or weight require the use of special equipment or special handling (except boats), between points in that part of New York south of a line beginning at the Pennsylvania-New York State line at Port Jervis extending along U.S. Highway 209 to junction U.S. Highway 44, thence along U.S. Highway 44 to the New York-Massachusetts State line, on the one hand, and, on the other, points in Delaware (except Wilmington), the District of Columbia, Maryland, and Virginia (points in Lebanon County, Pa., and those points in Lancaster and York Counties, Pa., east of a line beginning at the Pennsylvania-Maryland State line near New Freedom, Pa., and extending north through York, Hummelstown, Trevorton, Opp, and East Smithfield, Pa., to the Pennsylvania-New York State line*); (6) *Such commodities* as by reason of their size or weight require the use of special equipment (except machinery, equipment, materials, and the supplies used in, or in connection with, the construction, operations, repair, servicing, maintenance, and dismantling of pipelines between points in New York, on the one hand, and, on the other points in Florida, Georgia, South Carolina, and North Carolina (except points in Gates, Hertford, Currituck, Camden, Pasquotank, Perquimans, Chowan, Bertie, Martin, Washington, Tyrell, Dare, Hyde, Pitt, Beaufort, Craven, Jones, Onslow, Carteret, and Pamlico Counties (points in Pennsylvania bounded on the north by the New York-Pennsylvania State line extending along U.S. Highway 11 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-New York State line, including points on the indicated highways, that are also in the bounded area of that part of Pennsylvania on and east of a line extending along U.S. Highway 219 to junction U.S. Highway 322, thence on and north of a line beginning at Grampian, Pa., and extending along U.S. Highway 322 through Clearfield and State College, Pa., to Lewistown, Pa., thence along U.S. Highway 522 to Selinsgrove, Pa., and on and west of U.S. Highway 11 to the New York-Pennsylvania State line*). The purpose of this filing is to eliminate the gateways indicated by the asterisks above.

No. MC 117574 (Sub-No. E6), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Such commodities as by reason of their size or weight require the use of special equipment* (except machinery, equipment, materials and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, and boilers, heaters, and castings), between points in Massachusetts, on the one hand, and, on the other, points in the North Carolina Counties of Gates, Hertford, Currituck, Camden, Pasquotank, Perquimans, Chowan, Bertie, Martin, Washington, Tyrell, Dare, Hyde, Pitt, Beaufort, Craven, Jones, Onslow, Carteret, and Pamlico (points in that part of Pennsylvania on and east of U.S. Highway 219, to the junction with U.S. Highway 322, thence on and north of a line beginning at Grampian, Pa., and extending along U.S. Highway 322 through Clearfield and State College, Pa., to Lewistown, Pa., thence along U.S. Highway 522 to Selinsgrove, Pa., and on and west of U.S. Highway 11 to the New York-Pennsylvania State line.*); (2) *such commodities as by reason of their size or weight require the use of special equipment* (except machinery, equipment, materials, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, and boilers, heaters, and castings), between Connecticut and Massachusetts, on the one hand, and, on the other, points in Ohio and West Virginia (points in that part of Pennsylvania on and east of U.S. Highway 219, to the junction with U.S. Highway 322, thence on and north of a line beginning at Grampian, Pa., and extending along U.S. Highway 322 through Clearfield and State College, Pa., to Lewistown, Pa., thence along U.S. Highway 522 to Selinsgrove, Pa., and on and west of U.S. Highway 11 to the New York-Pennsylvania State line.*); (3) *articles or commodities, which because of size or weight require the use of special equipment* or require special handling (except boats), between points in Connecticut, Massachusetts, and Rhode Island, on the one hand, and, on the other, those points in Maryland west of the Susquehanna River and the Chesapeake Bay (points in Pennsylvania on and east of U.S. Highway 15 in Adams, Cumberland, Perry, Dauphin Counties, Pa.*); (4) *such commodities as by reason of their size or weight require the use of special equipment* (except machinery, equipment, materials and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, and boilers, heaters, and castings), between points in Massachusetts, on the one hand, and, on the other, points in the District of Columbia and those in Virginia, on and west of a line beginning at the District of Columbia, thence along U.S. Highway 1 to its junction with U.S. Highway 301 at Richmond, Va., thence along U.S. Highway 301 to the Virginia-North Carolina State line (points in that part of Pennsylvania on and east of U.S. Highway 219, to the junction with U.S. Highway 522, thence on and north of a line beginning at Grampian, Pa., and extending along U.S. Highway 322 through Clearfield and State College, Pa., to Lewistown, Pa., thence along U.S. Highway 522 to Selinsgrove, Pa., and on and west of U.S. Highway 11 to the New York-Pennsylvania State line, that one also in the area of Pennsylvania bounded on the north by the New York-Pennsylvania State line, thence by highways beginning at junction of said State line with U.S. Highway 11, over U.S. Highway 11 to junction with U.S. Highway 522, thence along U.S. Highway 522 to junction with U.S. Highway 322, thence along U.S. Highway 322 to junction with U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-New York State line*). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 117574 (Sub-No. E8), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, which because of size or weight, require the use of special equipment or special handling, between points in Delaware in the counties of Kent and New Castle, points in Pennsylvania in the counties of Wayne, Pike, Monroe, Northampton, Carbon, Schuylkill, Lehigh, Berks, Bucks, Chester, Delaware, Montgomery, Philadelphia, and those in Northumberland, Montour, Columbia, Luzerne, Lackawanna, Wyoming, and Susquehanna on and east of U.S. Highway 11, and points in New Jersey, on the one hand, and, on the other, points in West Virginia on and west of a line beginning at the Pennsylvania-West Virginia State line on U.S. Highway 19, thence along U.S. Highway 19 to junction U.S. Highway 119, thence along U.S. Highway 119 to the Kentucky-West Virginia State line (points and places in a Pennsylvania area bounded on the north by the New York-Pennsylvania State line, thence along the New York-Pennsylvania State line to U.S. Highway 11, thence along U.S. Highway 11 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction U.S. Highway 219, and thence along U.S. Highway 219 to the Pennsylvania-New York State line, including points on the indicated highways;

Points in Pennsylvania, within 150 miles of Philadelphia, Pa., in the counties of Snyder, Juniata, Perry, Cumberland, Franklin, Adams, Dauphin, Fulton, Huntingdon, Mifflin, Centre, Clinton, Union, Lycoming, and Tioga; points in Susquehanna, Wayne, Wyoming, Lackawanna, Pike, Columbia, Luzerne, Monroe, Carbon, Schuylkill, Lebanon, and Berks Counties, Pa., and points in those parts of Bradford, Sullivan, Lycoming, Montour, York, Northumberland, Dauphin, and Lancaster Counties, Pa., east of a line beginning at the Pennsylvania-Maryland State line near New Freedom, Pa., and extending through York, Hummelstown, Trevorton, Opp, and East Smithfield, Pa., to the Pennsylvania-New York State line; and points in Northampton, Bucks, Montgomery, Philadelphia, Delaware, Lehigh, and Chester Counties, Pa.)*; (2) *Such commodities* as by reason of their size or weight, require the use of special equipment (except machinery, equipment, materials, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, between points in New Jersey, on and north of a line beginning at the Pennsylvania-New Jersey State line at Burlington, N.J., along New Jersey Highway 541 to junction New Jersey Highway 80, thence along New Jersey Highway 80 to junction New Jersey Highway 530, thence along New Jersey Highway 530 to Tom's River, N.J., on the one hand, and, on the other, points in Florida, Georgia, and those in South Carolina on and west of U.S. Highway 52 (points in that part of Pennsylvania on and east of U.S. Highway 219 to the junction of U.S. Highway 322, thence on and north of a line beginning at Grampian, Pa., and extending along U.S. Highway 322 through Clearfield and State College, Pa., to Lewistown, Pa., thence along U.S. Highway 522 to Selinsgrove, Pa., and on and west of U.S. Highway 11 to the New York-Pennsylvania State line)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 117574 (Sub-No. E9), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as by reason of their size or weight require the use of special equipment* (except machinery, equipment, materials and supplies used in, or in connection with, the construction, operations, repair, servicing, maintenance, and dismantling of pipelines, between points in New Jersey, on and north of a line beginning at the Pennsylvania-New Jersey State line at Burlington, N.J., along New Jersey Highway 541 to junction New Jersey Highway 80, thence along New Jersey Highway 80 to junction New Jersey Highway 530, thence along New Jersey Highway 530 to Tom's River, N.J., on the one hand, and, on the other, points in North Carolina. The purpose of this filing is to eliminate the gateway of Scranton and Lancaster, Pa.

No. MC 117574 (Sub-No. E10), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as by reason of their size or weight require the use of special equipment* (except machinery, equipment, materials, and supplies used in, or in connection with, the construction, operations, repair, servicing, maintenance and dismantling of pipelines), between points in Ohio in the counties of Mahoning, Portage, Summit, Medina, Lorain, Huron, Cuyahoga, Lake, Geauga, Ashtabula, and Trumbull, on the one one hand, and, on the other, points in South Carolina in the counties of Horry, Marion, Florence, Williamsburg, Georgetown, Clarendon, Berkeley, Charleston, Dorchester, Colleton, Allendale, Hampton, Jasper, Orangeburg, Bamberg, Barnwell, Calhoun, and Beaufort; points in Georgia in the counties of Screven, Jenkins, Emanuel, Treutlen, Candler, Bulloch, Effingham, Wheeler, Montgomery, Toombs, Tattnall, Evans, Bryan, Chatham, Liberty, Long, Telfair, Ben Hill, Jeff Davis, Appling, Wayne, Bacon, McIntosh, Glynn, Camden, Charlton, Ware, Brantley, Pierce, Brooks, Echols, Clinch, Lowndes, Lanier, Atkinson, Cook, Berrien, Coffee, and Irwin; and those in Florida (except points in the counties of Taylor, Madison, Jefferson, Wakulla, Franklin, Liberty, Leon, Gadsden, Jackson, Calhoun, Gulf, Bay, Washington, Holmes, Walton, Okaloosa, Santa Rosa, and Escambia; and points in North Carolina in and east of the counties of Caswell, Alamance, Chatham, Moore, and Scotland. The purpose of this filing is to eliminate the gateway of points in Pennsylvania bounded on the north by the New York-Pennsylvania State line, thence by highways beginning at the junction of the New York-Pennsylvania State line extending along U.S. Highway 11 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-New York State line, including points on the indicated highways that are also within an area of Pennsylvania on and east of U.S. Highway 219 to junction U.S. Highway 322, thence on and north of a line beginning at Grampian, Pa., extending along U.S. Highway 322 through Clearfield and State College, Pa., to Lewistown, Pa., thence along U.S. Highway 522 to Selinsgrove, Pa., and on and west of U.S. Highway 11 to the New York-Pennsylvania State line.

No. MC 117574 (Sub-No. E15), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Boards and sheets* consisting of sawdust, ground wood, wood chips or wood shavings with resin binder, from points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont, and points in New Jersey on and north of U.S. Highway 46, and points in New York in and east of the counties of Wayne, Seneca, Schuyler, and Chemung, to points in Illinois, Indiana, Kentucky, Michigan, and Wisconsin (Bradford County, Pa., and Tyrone, Pa.)*; (2) *Boards and sheets* consisting of sawdust, ground wood, wood chips, or wood shavings with resin binder, from points in Pennsylvania in and east of the counties of McKean, Elk, Jefferson, Indiana, Cambria, and Bedford to points in Illinois, Indiana, Kentucky, Michigan, and Wisconsin (Tyrone, Pa.)*; (3) *Fiberwood and fiberwood products, and accessories and supplies* used in the installation and erection thereof, between points in Maryland (except points in Allegany and Garrett Counties), and

V 40163
APR 175

points in Virginia, and Martinsburg, W. Va., on the one hand, and, on the other, points in New York in and east of Monroe, Livingston, and Steuben Counties, and in and west of Broome, Chenango, Otsego, Montgomery, Fulton, Hamilton, Warren, Essex, and Clinton Counties, and points in Vermont in and north of the counties of Addison, Caledonia, Essex, and Washington (points in Pennsylvania within 25 miles of Baltimore, Md. (New Freedom), and Bradford Counties, Pa.)*; and (4) *Fireboard and* fibrewood products, construction materials, and building and contractor's equipment, supplies, and materials, between points in Virginia on and east of U.S. Highway 15, on the one hand, and, on the other, points in Pennsylvania on and north of a line beginning at the Ohio-Pennsylvania State line, thence along U.S. Highway 322 to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-Maryland State line, and on and west of a line beginning at the Pennsylvania-Maryland State line and extending along Interstate Highway 83, to junction U.S. Highway 222, thence along U.S. Highway 222 to the Pennsylvania-New Jersey State line [points in Pennsylvania within 25 miles of Baltimore, Md., (New Freedom, Pa.)]*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 117574 (Sub-No. E16), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printing presses, printing press parts and sub-assemblies and equipment* used in the operation of printing presses, *welding, baking, and blending equipment*, and *parts* for and subassemblies of welding, baking, and chemical mixing and blending equipment, which because of size or weight, requires the use of special equipment; (2) *Printing presses, printing presses parts and sub-assemblies, and equipment* used in the operation of printing presses, *welding, bakery, and chemical mixing, and blending equipment, and parts* for and sub-assemblies of welding, baking, and chemical mixing, and blending equipment, the transportation of which because of size or weight does not require the use of special equipment, when moving in the same vehicle with the commodities described in (1) of this paragraph, from points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont, those in New York on and east of a line beginning at the New York-Pennsylvania State line and extending along Interstate Highway 81 to junction New York Highway 12, thence along New York Highway 12 to junction New York Highway 8, thence along New York Highway 8 to the New York-Vermont State line, points in New Jersey in and north of Mercer and Middlesex Counties, and Pennsylvania in and east of a line beginning at the Pennsylvania-Maryland State line, near New Freedom, Pa., and extending through York, Hummelstown, Trevorton, Opp, and East Smithfield, Pa., to the Pennsylvania-New York State line, to points in Alabama, Arkansas, Iowa, Kansas, Louisiana, Mississippi, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota, Tennessee, Texas, West Virginia, and points in Virginia on and west of Interstate Highway 95, points in Colorado, Montana, New Mexico, and Wyoming east of the Continental Divide (facilities of J. C. Motter Printing Press Co., near York, Pa., and Scranton, Pa.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 117574 (Sub-No. E18), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Air, water*, and gas cooling and heating equipment, steam generating equipment and materials, accessories, and supplies used in the installation thereof, which because of size or weight, require the use of special equipment, and (2) *Commodities* listed in (1) above which do not require the use of special equipment, when moving in the same vehicle or as part of the same shipment with commodities in (1) above, between points in Connecticut, Delaware, Massachusetts, Rhode Island, New Jersey, those in New York on and south of a line beginning at the Massachusetts-New York State line along U.S. Highway 44 to its junction with U.S. Highway 209 to the New York-Pennsylvania State line, and those in Maryland and Virginia east of the Susquehanna River, and the Chesapeake Bay, on the one hand, and, on the other, points in Pennsylvania west of the Susquehanna River on and south of a line extending along Interstate Highway 80 from the Pennsylvania-Ohio State line to its junction with U.S. Highway 322, thence along U.S. Highway 322 to its junction with U.S. Highway 522, thence along U.S. Highway 522 to the Susquehanna River. The purpose of this filing is to eliminate the gateway of Lebanon, Pa.

No. MC 117574 (Sub-No. E20), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Self-propelled tractors* (except truck tractors), each weighing 15,000 pounds or more and which because of size or weight, require the use of special equipment, and *related machinery, parts, tools, and supplies* moving in connection therewith, from points in Maine, New Hampshire, and Vermont, to points in the United States (except points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia), said operations are restricted to the transportation of commodities which are transported on trailers, and restricted against the transportation of machinery, equipment, materials, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines (Batavia, N.Y., Clifton, N.J., and points in that part of Pennsylvania on and east of U.S. Highway 219 to junction U.S. Highway 322, thence on and north of a line beginning at Grampian, Pa., and extending along U.S. Highway 322 through Clearfield and State College, Pa., to Lewistown, Pa., thence along U.S. Highway 522 to Selinsgrove, Pa., and on and west of U.S. Highway 11 to the New York-Pennsylvania State line (except the site of the Curtiss-Wright Corporation Plant located near Clearfield)]*;

(2) *Self-propelled articles*, 15,000 pounds or more, which because of size or weight, require the use of special equipment, and *related machinery, tools, parts, and supplies* when moving in connection therewith, between points in Maine, New Hampshire, and Vermont, on the one hand, and, on the other, points in Florida, Georgia, Illinois, Indiana, Kentucky, points in Maryland west of the Susquehanna River and the Chesapeake Bay, Michigan, Minnesota, North Carolina, Ohio, South Carolina, Virginia, West Virginia, Wisconsin, and the District of Columbia. Restriction: The operations authorized herein are subject to the following conditions: Said operations are restricted to the transportation of commodities which are transported on trailers. Said operations are restricted against the transportation of machinery, equipment, materials, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines. (Points in that part of Pennsylvania on and east of U.S. Highway 219 to junction U.S. Highway 322, thence on and north of a line beginning at Grampian, Pa., and extending along U.S. Highway 322 through Clearfield and State College, Pa., to Lewistown, Pa., thence along U.S. Highway 522 to Selinsgrove, Pa., and on and west of U.S. Highway 11 to the New York-Pennsylvania State line (except the site of the Curtiss Wright Corporation Plant located near Clearfield)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 117574 (Sub-No. E21), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements, agricultural machinery, tractors* (except truck tractors), and *agricultural implements*, and *agricultural machinery parts*, and *attachments* and *accessories* moving in connection with shipments of such

commodities, restricted against the transportation of commodities which because of size or weight, require the use of special equipment, from points in Connecticut, Delaware, Massachusetts, Rhode Island, New Jersey, those points in New York in and east of the counties of Broome, Delaware, Schoharie, Schenectady, and Rensselaer, those in Pennsylvania in and east of the counties of Adams, Cumberland, Perry, Juniata, Mifflin, Snyder, Union, Montour, Columbia, Luzerne, Wyoming, and Susquehanna, and those in Maryland in and east of the counties of Carroll and Baltimore, and the Chesapeake Bay, and those in Virginia east of the Chesapeake Bay, to points in Ohio. The purpose of this filing is to eliminate the gateways of New Holland, Intercourse, Belleville, and Mountville, Pa.

No. MC 117574 (Sub-No. E12), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Tractors* (other than truck tractors), with or without attachments (except those which because of size or weight, require special handling or the use of special equipment, and parts for such tractors, from Minneapolis, Minn., to points in Vermont and North Carolina (New York and Virginia)*; (2) *Agricultural machinery, implements*, and *parts* as described in Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except truck tractors and except commodities requiring special equipment), from South Bend, Ind., and Shelbyville, Ill., to points in North Carolina (Virginia and Maryland)*; (3) *Agricultural implements and machinery* designed for use in conjunction with farm tractors (except commodities requiring special equipment, from Zanesville, Ohio, to points in Maine and North Carolina (New Hampshire and Virginia)*; (4) *Self-propelled construction and materials handling equipment* (except highway trucks), and *attachments, and self-propelled cranes and hoisting equipment and attachments*, each weighing 15,000 pounds or more, from Schofield, Wis., to points in North Carolina on and east of U.S. Highway 220. Restriction: To the transportation of commodities which are transported on trailers, and against the transportation of machinery, equipment, materials, and supplies used in, or in connection with the construction, operations, repair, servicing, maintenance, and dismantling of pipelines. (Points in that part of Pennsylvania on and east of U.S. Highway 219 to junction U.S. Highway 322, thence on and north of a line beginning at Grampian, Pa., and extending along U.S. Highway 322 through Clearfield and State College, Pa., to Lewiston, Pa., thence along U.S. Highway 522 to Selinsgrove, Pa., and on and west of U.S. Highway 11 to the New York-Pennsylvania State line (excerpt the site of the Curtiss Wright Corporation Plant located near Clearfield)*;

(5) *Self-propelled construction and material handling machines, construction and material handling machines without undercarriages, and attachments and parts* for the machines described above, restricted to self-propelled articles each weighing 15,000 pounds or more transported on trailers and construction and material handling machines without undercarriages, which because of size or weight require the use of special equipment, and restricted against the transportation of machinery, equipment, materials, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, from Waukesha, Wis., to points in North Carolina on and west of a line beginning at the Virginia-North Carolina State line and extending along U.S. Highway 501 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 401, thence along U.S. Highway 401 to junction U.S. Highway 301, thence along U.S. Highway 301 to the North Carolina-South Carolina State line [points in that part of Pennsylvania on and east of U.S. Highway 219 to junction U.S. Highway 322, thence on and north of a line beginning at Grampian, Pa., and extending along U.S. Highway 322 through Clearfield and State College, Pa., to Lewistown, Pa., thence along U.S. Highway 522 to Selinsgrove, Pa., and on and west of U.S. Highway 11 to the New York-Pennsylvania State line (except the site of the Curtiss Wright Corporation Plant located near Clearfield)]*;

(6) *Self-propelled trucks*, each weighing 15,000 pounds or more, designed for off-highway use, in initial movements in truckaway service, from Decatur, Ill., to points in North Carolina in and east of the counties of Vance, Franklin, Nash, Wilson, Greene, Lenoir, Jones, and Carteret, and those in Virginia in and east of the counties of Highland, August, Nelson, Buckingham, Prince Edward, Laurinburg, and Mecklenburg. Restriction: The operations authorized herein are subject to the following conditions: Said operations are restricted to the transportation of commodities which are transported on trailers. Said operations are restricted against the transportation of machinery, equipment, materials, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines. (Points in that part of Pennsylvania on and east of U.S. Highway 219 to junction U.S. Highway 322, thence on and north of a line beginning at Grampian, Pa., and extending along U.S. Highway 322 through Clearfield and State College, Pa., to Lewistown, Pa., thence along U.S. Highway 522 to Selinsgrove, Pa., and on and west of U.S. Highway 11 to the New York-Pennsylvania State line (except the site of the Curtiss Wright Corporation Plant located near Clearfield)]*; (7) *Tractors* (except truck tractors), and *attachments, parts*, and *accessories* for tractors (except truck tractors), moving separately, or in mixed loads with tractors (except truck tractors), except those because of size or weight require the use of special equipment, from Detroit, Mich., to points in North Carolina. The operations authorized herein are restricted to traffic originating at the plant and warehouse sites of Massey-Ferguson, Inc., at Detroit, Mich. (Virginia)*;

(8) *Self-propelled streetsweepers*, each weighing 15,000 pounds or more, transported on trailers, and related machinery, tools, parts, and supplies moving in connection therewith, from Elgin, Ill., to points in North Carolina on and east of a line beginning at the Virginia-North Carolina State line and extending along U.S. Highway 50 to junction North Carolina Highway 87, thence along North Carolina Highway 87 to the Atlantic Ocean, and points in Virginia on and east of a line beginning at the Virginia-North Carolina State line and extending along U.S. Highway 501 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction U.S. Highway 250, thence along U.S. Highway 250 to the Virginia-West Virginia State line (points in Pennsylvania bounded on the north by the New York-Pennsylvania State line, thence by highways beginning at junction of New York-Pennsylvania State line to junction U.S. Highway 11, thence along U.S. Highway 11 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-New York State line, including points on the indicated highways)*; (9) *Self-propelled road rollers*, each weighing in excess of 15,000 pounds and *related machinery, tools, parts, and supplies* moving in connection therewith, from Minneapolis, Minn., to points in Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, points in North Carolina and South Carolina, on and east of U.S. Highway 52 (except Charleston, S.C.). Restriction: The operations authorized herein are subject to the following conditions: Said operations are restricted to the transportation of commodities which are transported on trailers. Said operations are restricted against the transportation of machinery, equipment, materials, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines. (Points in that part of Pennsylvania on and east of U.S. Highway 219 to junction U.S. Highway 322, thence on and north of a line beginning at Grampian, Pa., and extending along U.S. Highway 322 through Clearfield and State College, Pa., to Lewistown, Pa., thence along U.S. Highway 522 to Selinsgrove, Pa., and on and west of U.S. Highway 11 to the New York-Pennsylvania State line (except the site of the Curtiss Wright Corporation Plant located near Clearfield)]*;

(10) *Agricultural equipment, agricultural machinery, agricultural implements*, and *attachments* and *parts* for agricultural equipment, agricultural machinery, and agricultural implements (except truck tractors and commodities

V 40163
APR 175

requiring special equipment), between La Porte, Ind., on the one hand, and, on the other, points in North Carolina on and east of a line beginning at the Tennessee-North Carolina State line and extending along U.S. Highway 23 to junction Interstate Highway 26, thence along Interstate Highway 26 to the North Carolina-South Carolina State line; and points in Virginia on and south of an east-west line beginning at the West Virginia-Virginia State line on U.S. Highway 460, thence along U.S. Highway 460 to junction U.S. Highway 301, thence along U.S. Highway 301 to the Maryland-Virginia State line, restricted to the transportation of traffic originating at or destined to La Porte (Maryland, and points in Virginia located north of U.S. Highway 460 and west of U.S. Highway 301, except Richmond and its commercial zone)*; (11) (A) *Tractors* (except truck tractors), and (B) *Attachments* for and *equipment* designed for use with and when moving in mixed loads with the articles described in (A) above, and parts for (A) and (B) above, when moving in mixed loads with the articles described in (A) and (B) above, from Eau Claire, Wis., to points in Virginia in and east of the counties of Bland, Smyth, Grayson, and those in North Carolina in and east of the counties of Alleghany, Wilkes, Alexander, Iredell, Rowan, Mecklenburg, and Union, restricted to the transportation of traffic originating at Eau Claire, Wis., and against the transportation of articles which because of size or weight require the use of special equipment (Pennsylvania)*; and (12) *Agricultural implements, agricultural machinery*, and *agricultural machinery* parts and accessories moving in connection with shipments of such commodities, except articles which because of size or weight, require the use of special equipment, and except truck tractors, from points in New Jersey, and those in New York in and east of the counties of Monroe, Livingston, and Steuben, to points in West Virginia (Belleville, Mountville, New Holland, or Intercourse, Pa.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 117574 (Sub-No. E22), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Agricultural implements, agricultural machinery* and *parts*, other than hand, as described in Sections B and C of Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, except truck tractors and commodities requiring special equipment, from Coldwater, Ohio, to points in Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, those in New York in and east of the counties of Niagara, Genessee, Wyoming, and Allegany, and those in Pennsylvania, in and east of the counties of McKean, Cameron, Clearfield, Indiana, Westmoreland, and Fayette (points in Somerset, Centre, Cambria, Clinton, and Potter Counties, Pa.)*; (2) *Agricultural implements, agricultural machinery, agricultural machinery parts* (except those which because of size or weight, require the use of special equipment, and except truck tractors), from Richmond, Ind., Battle Creek, Mich., Bucyrus, Galion, Loudonville, Mansfield, and Springfield, Ohio, to points in Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, New Jersey, Delaware, and Maryland (except points in the counties of Tioga, Clinton, Lycoming, Centre, Blair, and Bedford, those in New York in and east of the counties of Steuben, Yates, Seneca, Cayuga, and Oswego, those in Virginia in and east of the counties of Frederick, Shenandoah, Augusta, Rockingham, Nelson, Appamatox, Charlotte, and Mecklenburg, and those in North Carolina in and east of the counties of Vance, Franklin, Nash, Wilson, Wayne, Duplin, Pender, and New Hanover, (Downingtown, Pa., points in Adams, Cumberland, Dauphin, (except Harrisburg), Franklin, Fulton, Huntingdon, Juniata, Lebanon, Mifflin, Perry, Snyder, Schuylkill, Union, and York Counties, Pa., and points in Bedford and Centre Counties, Pa., on and east of U.S. Highway 220)*; and (3) *Agricultural implements, agricultural machinery, agricultural machinery parts* (except those which because of size or weight, require the use of special equipment, and except truck tractors), from Louisville, Ky., and Memphis, Tenn., to points in Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, New Jersey, Delaware, New York (except points in the counties of Orleans, Genesee, Wyoming, Cattaraugus, Chautauqua, Erie, and Niagara), Maryland, those in Pennsylvania in and east of the counties of McKean, Elk, Clearfield, Cambria, and Somerset, and those in Virginia on and north of Buckingham, Greene, Orange, Spotsylvania, Hanover, New Kent, James City, and York, Downingtown, Pa., points in Adams, Cumberland, Dauphin (except Harrisburg), Franklin, Fulton, Huntingdon, Juniata, Lebanon, Mifflin, Perry, Snyder, Schuylkill, Union, and York Counties, Pa., and points in Bedford and Centre Counties, Pa., on and east of U.S. Highway 220)*; and (4) *Agricultural implements, agricultural machinery and parts*, other than hand, as described in Sections B and C of Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except truck tractors, and except commodities requiring special equipment), from Minneapolis and Owatonna, Minn., and Columbia City, Ind., to points in Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, New York, New Jersey, Delaware, Maryland, and those points in Virginia and North Carolina on and east of U.S. Highway 220 (to points in Pennsylvania, except points in Erie, Crawford, Warren, McKean, Potter, Tioga, Bradford, Sullivan, Wyoming, Susquehanna, Lackawanna, Wayne, Pipe, and Monroe Counties, Pa.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 117574 (Sub-No. E27), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles*, between the plant site of the Bethlehem Steel Corporation, located at Burns Harbor, Porter County, Ind., on the one hand, and, on the other, points in West Virginia, and those points in Kentucky in and east of the counties of Mason, Fleming, Rowan, Morgan, Wolfe, Breathitt, Perry, Leslie, and Bell, restricted to the transportation of traffic originating at said plant site (Franklin County, Ohio)*; and (2) Iron and steel articles, which because of size or weight, require the use of special equipment (except machinery, equipment, materials, and supplies used in, or in connection with, the construction, operations, repair, servicing, maintenance, and dismantling of pipelines), from the plant site of the Bethlehem Steel Corporation at Burns Harbor, Porter County, Ind., on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and those in Virginia in and east of the counties of Highland, Augusta, Nelson, Amherst, Campbell, and Halifax, and the District of Columbia (Gettysburg, Adams County, Pa., Bradford, McKean County, Pa., and Lancaster, Lancaster County, Pa.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 117574 (Sub-No. E28), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Agricultural implements, farm tractors, farm equipment* (except commodities which because of size or weight require the use of special equipment, and except truck tractors), from points in Maine, New Hampshire, Vermont, New York, New Jersey, Connecticut, Massachusetts, Rhode Island, Delaware, District of Columbia, points in Maryland (except those in Garrett, Allegany, Washington, Frederick, and Montgomery Counties), and those in Pennsylvania, in and east of the counties of Warren, Forest, Jefferson, Clearfield, Cambria, Blair, Huntington, and Fulton, to points in Alabama, Arkansas, Arizona, California, Colorado, Idaho, Louisiana, Mississippi, Montana, Nevada, New Mexico, Oklahoma, Oregon, Utah, Texas, Washington, and Wyoming (2) *Agricultural implements, farm tractors, farm equipment* (except commodities, which because of size or weight require the use of special equipment, and except truck tractors), from points in the Pennsylvania Counties of Erie, Crawford, Mercer, Venango, Clarion, Lawrence, Butler, Beaver, Armstrong, Indiana, Allegheny, Westmoreland, Somerset, and Bedford, points in the Maryland Counties of Garrett, Allegany, Washington, Frederick, and Montgomery, and those in Virginia on and east of a north-south line beginning at the West Virginia-Virginia State line on U.S. Highway 522, thence along U.S. Highway 522 to junction Interstate Highway 64, thence along Interstate Highway 64 to junction Interstate Highway 95, thence along Interstate Highway 95 to the Virginia-North Carolina State line to points in Washington, Oregon, Idaho, Montana, Wyoming, Nevada, Utah, Arizona, California, Colorado, and New Mexico; and (3) *Agricultural implements* and *agricultural machinery*, and *agricultural machinery parts* and *accessories* moving in connection with shipments of such commodities (except commodities requiring special equipment and except truck tractors), from points in Connecticut, Delaware, Maine, Massachusetts, New Hampshire, New Jersey, New York (except counties of Chautauqua and Cattaraugus, Pennsylvania (except points in and west of the counties of Warren, Forest, Jefferson, Indiana, Cambria, Blair, Bedford, and Fulton), and Vermont, to points in Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, South Carolina, South Dakota, Tennessee, and Wisconsin. The purpose of this filing is to eliminate the gateways of New Holland, Mountville, Belleville, and Intercourse, Pa.

No. MC 117574 (Sub-No. E32), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery*, except that which because of size or weight, requires the use of special equipment (except boats), from points in New York, New Jersey, Connecticut, Massachusetts, Rhode Island, Delaware, District of Columbia, and Maryland (except points in Garrett, Allegany, Washington, Frederick, and Montgomery Counties), to points in Alabama, Arkansas, Arizona, California, Colorado, Idaho, Louisiana, Mississippi, Montana, Nevada, New Mexico, Oklahoma, Oregon, Utah, Texas, Washington, and Wyoming, restricted against the transportation of traffic having an immediately prior movement by water (Belleville and Lancaster, Pa.)*; (2) *Machinery*, except that which because of size or weight, requires the use of special equipment (except boats), from points in Maryland, in the counties of Garrett, Allegany, Washington, Frederick, and Montgomery, and those in Virginia on and east of a north-south line beginning at the West Virginia-Virginia State line on U.S. Highway 522, thence along U.S. Highway 522 to junction Interstate Highway 64, thence along Interstate Highway 64 to junction Interstate Highway 95, and thence along Interstate Highway 95 to the Virginia-North Carolina State line, to points in Washington, Oregon, Idaho, Montana, Wyoming, Nevada, Utah, Arizona, California, Colorado, and New Mexico, restricted against the transportation of traffic having an immediately prior movement by water (Belleville, Pa.)*; (3) *Machinery*, except that which because of size or weight, require the use of special equipment (except boats), from points in Pennsylvania (except those in Washington, Greene, or Fayette Counties), to points in Alabama, Arkansas, Arizona, California, Colorado, Idaho, Louisiana, Mississippi, Montana, Nevada, New Mexico, Oklahoma, Oregon, Utah, Texas, Washington, and Wyoming (except from points in the Pennsylvania Counties of Erie, Crawford, Mercer, Venango, Clarion, Lawrence, Butler, Beaver, Armstrong, Indiana, Allegheny, Westmoreland, Somerset, and Bedford to points in Alabama, Louisiana, Mississippi, Oklahoma, Arkansas, and Texas), restricted against the transportation of traffic having an immediately prior movement by water (Belleville and Lancaster, Pa.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 117574 (Sub-No. E34), filed May 31, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Storage tanks* and *processing equipment*, and *parts* and *accessories* for storage tanks and processing equipment (except commodities in bulk), between points in Maine, Massachusetts, New Hampshire, Vermont, Rhode Island, those in Connecticut on and north of a line beginning at the New York-Connecticut State line along U.S. Highway 44 to junction Connecticut Highway 2, thence along Connecticut Highway 2 to junction Connecticut Highway 85, thence along Connecticut Highway 85 to the Long Island Sound, and points in New York on and north of a line beginning at Lake Erie on Alternate U.S. Highway 20 to junction New York Highway 36, thence along New York Highway 36 to junction New York Highway 70, thence along New York Highway 70 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 352, thence along New York Highway 352 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 10, thence along New York Highway 10 to junction New York Highway 23.

Thence along New York Highway 23 to the New York-Massachusetts State line, on the one hand, and, on the other, all points in the states of Alabama, Arkansas, Iowa, Kansas, Louisiana, Upper Peninsula of Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota, Tennessee, Texas, Wisconsin, and those points in Kentucky in and west of the counties of Oldham, Shelby, Spencer, Nelson, Washington, Marion, Taylor, Adair, Russell, and Clinton. Restrictions: (1) Transportation of the articles described above which do not require the use of special equipment is limited to transportation on the same vehicle or in the same shipment with such articles which, because of size or weight, require the use of special equipment. (2) Against the transportation of clay products, between points in Ohio, on the one hand, and, on the other, points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia. (2) *Storage tanks and processing equipment, and parts and accessories* for storage tanks and processing equipment (except commodities in bulk), between points in New York east of the counties of Allegany and Wyoming but south of a line extending along Alternate U.S. Highway 20 to its junction with New York Highway 36, thence along New York Highway 36 to junction New York Highway 70, thence along New York Highway 70 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 10, thence along New York Highway 10 to junction New York Highway 23,

Thence along New York Highway 23 to the New York-Massachusetts State line, those in Pennsylvania on and east of the counties of Tioga, Lycoming, Northumberland, Schuylkill, Berks, and Chester, those in Connecticut south of a line beginning at the New York-Connecticut State line and extending along U.S. Highway 44 to junction Connecticut Highway 2, thence along Connecticut Highway 2 to junction Connecticut Highway 85, thence along Connecticut Highway 85 to the Long Island Sound, points in New Jersey, and Wilmington, Del., on the one hand, and, on the other, points in Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, South Dakota, North Dakota, Wisconsin, and Illinois. Restrictions: (1) Transportation of the articles described above which do not require the use of special equipment is limited to transportation on the same vehicle or in the same shipment with such articles which, because of size or weight, require the use of special equipment. (2) Against the transportation of clay products, between points in Ohio, on the one hand, and, on the other, points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia. The purpose of this filing is to eliminate the gateway of Rochester, N.Y.

No. MC 117574 (Sub-No. E36), filed June 4, 1974. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority

V 40163
APR 1 75

sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, which because of their size or weight, require the use of special equipment, and *related iron and steel and iron and steel products* when their transportation is incidental to the transportation of commodities which by reason of size or weight require the use of special equipment (except machinery, equipment, materials, and supplies used in, or in connection with, the construction, operations, repair, servicing, maintenance, and dismantling of pipelines), between points in Indiana, Kentucky, Michigan, Minnesota, and Wisconsin, on the one hand, and, on the other, points in an area of Pennsylvania on and north of a line beginning at the Susquehanna River thence along U.S. Highway 209 to the Pennsylvania-New York State line and on and east of U.S. Highway 11 (points in that part of Pennsylvania on and east of U.S. Highway 219 to the junction U.S. Highway 322, thence on and north of a line beginning at Grampian, Pa., and extending along U.S. Highway 322 through Clearfield and State College, Pa., to Lewistown, Pa., thence along U.S. Highway 522 to Selinsgrove, Pa., and on and west of U.S. Highway 11 to the New York-Pennsylvania State line; points in Susquehanna, Wayne, Wyoming, Lackawanna, Pike, Columbia, Luzerne, Monroe, Carbon, Schuylkill, Lebanon, and Berks Counties, Pa., and points in those parts of Bradford, Sullivan, Lycoming, Montour, York, Northumberland, Dauphin, and Lancaster Counties, Pa., east of a line beginning at the Pennsylvania-Maryland State line near New Freedom, Pa., and extending through York, Hummelstown, Trevorton, Opp, and East Smithfield, Pa., to the Pennsylvania-New York State line; and points in Northampton, Bucks, Montgomery, Philadelphia, Delaware, Lehigh, and Chester Counties, Pa.)*.

(2) *Commodities*, which because of size or weight, require the use of special equipment, and *related iron and steel and iron and steel products* when their transportation is incidental to the transportation of commodities which by reason of size or weight require special equipment (except machinery, equipment, materials, and supplies used in, or in connection with, the construction, operations, repair, servicing, maintenance, dismantling of pipelines), between points in Indiana, Kentucky, Michigan, Minnesota, and Wisconsin, on the one hand, and, on the other, points in Pennsylvania on and east of U.S. Highway 15 and on and south of U.S. Highway 209 (points in Pennsylvania on and east of U.S. Highway 15 in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., Cumberland, Md., points in Susquehanna, Wayne, Wyoming, Lackawanna, Pike, Columbia, Luzerne, Monroe, Carbon, Schuylkill, Lebanon, and Berks Counties, Pa., and points in those parts of Bradford, Sullivan, Lycoming, Montour, York, Northumberland, Dauphin, and Lancaster Counties, Pa., east of a line beginning at the Pennsylvania-Maryland State line near New Freedom, Pa., and extending north through York, Hummelstown, Trevorton, Opp, and East Smithfield, Pa., to the Pennsylvania-New York State line, and points in Northampton, Bucks, Montgomery, Philadelphia, Delaware, Lehigh, and Chester Counties, Pa.)*; (3) *Iron and steel, iron and steel products*, machinery, boilers, and contractors' equipment, which because of size or weight, require the use of special equipment, between points in Pennsylvania (except the counties of Erie, Warren, McKean, Potter, Tioga, Crawford, Venango, Forest, Elk, Cameron, Clinton, Mercer, Clarion, Jefferson, Clearfield, Lawrence, Butler, Armstrong, and Beaver), on the one hand, and, on the other, points in the Indiana counties of Steuben, DeKalb, Allen, Legrange, Noble, Whitley, Elkhart, and St. Joseph, and points in Michigan (except Huron, Tuscola, Sanilac, Shiawassee, Genesee, Lapeer, St. Clair, Livingston, Oakland, Macomb, Washtenaw, Wayne, Lenawee, and Monroe Counties) (points in Franklin County, Ohio, and 80 mile radius of Columbus, Ohio)*;

(4) *Iron and steel, iron and steel products, machinery, boilers and contractors' equipment*, which because of size or weight, require the use of special equipment, between points in Illinois, on and south of U.S. Highway 36, on the one hand, and, on the other, points in Michigan, on and east of U.S. Highway 23 to and including Bay City (points within 80 miles of Columbus, Ohio)*; (5) *Iron and steel, iron and steel products, machinery, boilers and contractors' equipment*, which because of size or weight, require the use of special equipment, and *related iron and steel and iron and steel products* when their transportation is incidental to the transportation of commodities which by reason of size or weight, require the use of special equipment, between points in West Virginia, on the one hand, and, on the other, points in Indiana on and north of U.S. Highway 40, and points in Michigan (points in Franklin County, Ohio)*; (6) *Iron and steel, iron and steel products, machinery, boilers and contractors' equipment*, which because of size or weight, require the use of special equipment and *related iron and steel and iron and steel products* when their transportation is incidental to the transportation of commodities which by reason of size or weight, require the use of special equipment, between points in Michigan on and east of a line beginning at the Indiana State line and extending along U.S. Highway 127 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Interstate Highway 75.

Thence along Interstate Highway 75 to the United States-Canada International Boundary line, on the one hand, and, on the other, points in Kentucky, on and east of a line beginning at the Ohio-Kentucky State line and extending along U.S. Highway 127 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction U.S. Highway 31W, thence along U.S. Highway 31W to the Kentucky-Tennessee State line (Franklin County, Ohio)*; and (7) Iron and steel, iron and steel products, machinery, boilers and contractors' equipment, which because of size or weight, require the use of special equipment, and related iron and steel and iron and steel products when their transportation is incidental to the transportation of commodities which by reason of size or weight, require the use of special equipment, between points in West Virginia, on and north of U.S. Highway 50, on the one hand, and, on the other, points in Kentucky on and west of U.S. Highway 27 (Franklin County, Ohio)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 125294 (Sub-No. E2), filed February 3, 1975. Applicant: HILLDRUP TRANSFER AND STORAGE, INC., Fredericksburg, Va., Applicant's representative: Alan P. Wohlstetter, 1700 K St. NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission; (1) between points in Florida, on the one hand, and, on the other, points in Pennsylvania, New York, Delaware, New Jersey, Maryland, Rhode Island, and points in Arlington, Fairfax, Prince William, and Loudoun Counties, Va., and Alexandria, Falls Church, and Fairfax, Va.; (2) between points in Tennessee, on the one hand, and, on the other, points in Delaware, New Jersey, Rhode Island, and points in Arlington, Fairfax, and Prince William, Va., and Alexandria, Falls Church, and Fairfax, Va., and points in that part of New York on and east of New York Highway 14, and points in that part of Pennsylvania on and east of U.S. Highway 15, and points in that part of Maryland on and east of Interstate Highway 81; (3) between points in South Carolina, on the one hand, and, on the other, points in New York, Delaware, New Jersey, Maryland, Rhode Island, and points in that part of Pennsylvania on and east of a line beginning at the Ohio-Pennsylvania State line, thence along Interstate Highway 76 to junction U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-Maryland State line and points in Arlington, Fairfax, Prince William, and Loudoun Counties, Va., and Alexandria, Falls Chuch, and Fairfax Va.; (4) between points in that part of South Carolina on and east of Interstate Highway 95, on the one hand, and, on the other, points in Pennsylvania; and (5) between points in that part of Florida beginning at the Georgia-Florida State line, thence along U.S. Highway 221 to junction Taylor County Highway 361A, thence along Taylor County Highway 361A to the Gulf of Mexico, on the one hand, and, on the other, points in Caroline, King George, Spotsylvania, Stafford, Prince William, Fairfax, Arlington, Culpeper, Fauquier, and Loudoun Counties, Va., and Alexandria, Falls Church, Fairfax, and Fredericksburg, Va. The purpose of this filing is to eliminate the gateway of the District of Columbia.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

MILK IN THE MIDDLE ATLANTIC AND NEW YORK—NEW JERSEY MARKETING AREAS

Decision on Proposed Amendments to Marketing Agreements and to Orders

V 40-63 APR 1 75

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Parts 1004, 1002]

[Docket Nos. AO-349-A39, AO-71-A67]

MILK IN THE MIDDLE ATLANTIC AND NEW YORK-NEW JERSEY MARKETING AREAS

Decision on Proposed Amendments to Marketing Agreements and to Orders

A public hearing was held upon proposed amendments to the marketing agreements and the orders regulating the handling of milk in the Middle Atlantic and New York-New Jersey marketing areas. The hearing was held, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice (7 CFR Part 900), at Allentown, Pennsylvania on January 23–25, 1974; at Downingtown, Pennsylvania on January 28 through February 1, 1974 and February 5–7, 1974; and at Philadelphia, Pennsylvania on March 5–8, 1974 and March 11–13, 1974 pursuant to notices thereof issued on December 19, 1973 (38 FR 35006) and February 14, 1974 (39 FR 6536).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Administrator, on October 15, 1974 (39 FR 37926) filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision are hereby approved and adopted and are set forth in full herein, subject to the following modifications:

1. Under "1. Marketing area extension," two new paragraphs are added after paragraph five, one paragraph is added after paragraph seven, three new paragraphs are added after paragraph 17, paragraph 21 is revised to form two new paragraphs, two paragraphs are added after paragraph 22, paragraph 36 is revised, four paragraphs are added after paragraph 47, paragraph 69 is revised, three paragraphs are added after paragraph 83, one paragraph is added after paragraph 90, paragraphs 90, 94, and 105 are revised, four paragraphs are added after paragraph 105, and three paragraphs are added after paragraph 120.

2. Under "2(i) Distributing plants," four paragraphs are added after paragraph 3.

3. Under "2(iii) Reserve processing plant," eight paragraphs are added after paragraph 12.

4. Under "6. Direct delivery differentials," three paragraphs are added after paragraph eight.

5. Under "9.(i) Deletion of reference to certified milk," one paragraph is added after paragraph five and two paragraphs are added after paragraph six.

6. Under "9.(ii) Deletion of references to Orders 3 and 14," the issue heading is revised and five paragraphs are added after paragraph one.

7. Under "9.(iii) Treatment to be accorded own production of a pool plant operator," one paragraph is added after paragraph four.

8. Under "9.(iv) Quantity of milk that a producer handler may purchase from pool plants," one paragraph is added after paragraph seven.

The material issues on the record of the hearing relate to:

1. Marketing area extension.
2. Pool plant qualifications.
3. Classification of other order milk at a pool plant diverting producer milk for Class II purposes.
4. Diversion limitations.
5. Pricing level for reserve milk supplies.
6. Direct delivery differentials.
7. Seasonal incentive payments to producers.
8. Interest charges on overdue accounts.
9. Miscellaneous and conforming changes.

Findings and Conclusions

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Marketing area extension.* The marketing area of the Middle Atlantic (Federal Order No. 4) milk order should be extended to include the remaining unregulated areas of Bucks and Montgomery Counties in Pennsylvania, the additional Pennsylvania counties of Adams, Chester, Cumberland, Dauphin, Franklin, Fulton, Juniata, Lancaster, Lebanon, Perry, and York; and Washington County in the State of Maryland. Territory within the boundaries of the expanded part of the marketing area which is occupied by Government (municipal, State or Federal) reservations, installations, institutions or other establishments should be considered as within the marketing area.

The current Order 4 marketing area includes: The District of Columbia; the State of Delaware; in the State of Maryland, the counties of Anne Arundel, Baltimore, Calvert, Caroline, Carroll, Cecil, Charles, Dorchester, Frederick, Harford, Howard, Kent, Montgomery, Prince Georges, Queen Annes, Somerset, St. Marys, Talbot, Wicomico and Worcester, the city of Baltimore and Fort Ritchie in Washington County; in the State of New Jersey, the counties of Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, Mercer, Salem and part of Ocean County; in the State of Pennsylvania, Delaware and Philadelphia counties and parts of Bucks and Montgomery counties; and in the State of Virginia the counties of Arlington, Fairfax, Loudoun and Prince William and the cities of Alexandria, Falls Church and Fairfax.

Five proposals concerning marketing area were considered at the hearing. In combination, such proposals would have extended the Order 4 marketing area to include all nonfederally regulated territory in the eastern half of Pennsylvania, Washington County, Maryland, and that part of New Jersey currently a part of the New York-New Jersey (Order 2) marketing area. One of the proposals would have included the northeastern portion of Pennsylvania in the Order 2 marketing area.

The Milk Distributors Association of the Philadelphia area (MDAPA), a trade association consisting of six handlers who operate fully regulated distributing plants in the Philadelphia area, proposed that the Pennsylvania counties of Berks, Chester, Lehigh, Northampton and currently nonfederally regulated territory in Bucks and Montgomery counties be included in the Order 4 marketing area. At the hearing the association supported its proposal and also the marketing area proposal submitted by Pennmarva Dairymen's Cooperative Association.

Pennmarva, a federation of three cooperatives—Interstate Milk Producers Cooperative, Maryland Cooperative Milk Producers, Inc., and the Maryland and Virginia Milk Producers Association, Inc.—proposed that the Order 4 marketing area be expanded to include the territory proposed by the MDAPA and ten additional Pennsylvania counties constituting the Pennsylvania Milk Marketing Board Area 4 (Adams, Cumberland, Dauphin, Franklin, Fulton, Juniata, Lancaster, Lebanon, Perry and York) and Washington County, Maryland. Pennmarva represents the majority of producers supplying plants presently regulated under Order 4 and a substantial proportion of the dairy farmers supplying nonfederally regulated plants distributing milk within the additional territory it proposed for inclusion in the Order 4 marketing area.

Exceptions filed on behalf of certain nonfederally regulated dealers and partially regulated distributing plants contend that Pennmarva does not supply a substantial portion of milk to nonfederally regulated dealers. Exceptor further states that the number of dairy farmers and their cooperative affiliation is not a criteria to determine what territory should be included in a marketing area.

The record reveals that Pennmarva represents approximately 41 percent of the dairy farmers supplying nonfederally regulated dealers in the area the association proposed to be included in the Order 4 marketing area. However, the location and affiliation of producers was not relied upon at any point in marketing area delineation.

Lehigh Valley Cooperative Farmers supported Pennmarva's marketing area proposal and proposed that 17 additional northeastern and north central Pennsylvania counties (Bradford, Carbon, Columbia, Lackawanna, Luzerne, Lycoming, Monroe, Montour, Northumberland, Pike, Schuylkill, Snyder, Sullivan, Susquehanna, Tioga, Wayne and Wyoming) be included in the Order 4 marketing area. The cooperative currently operates two Order 4 pool plants (a manufacturing facility at Allentown, Pennsylvania, pooled as a reserve processing plant and a fluid milk distributing plant at Lansdale, Pennsylvania) and a nonfederally regulated plant at Schuylkill Haven, Pennsylvania, from which fluid milk products are distributed throughout the

area which it supported for inclusion in the Order 4 marketing area.

Two other dairy farmer cooperatives, Dairylea and Northeast Dairy Cooperative Federation (NEDCO) proposed that 20 northeastern and north central Pennsylvania counties (the 17 counties included in Lehigh Valley's proposal and Clinton, Potter and Union Counties) be included in the Order 2 marketing area. Their proposal was also supported at the hearing by Eastern Milk Producers Cooperative Association. The three cooperatives represent the majority of producers under Order 2, many of which are located in the area proposed to be added to the Order 2 marketing area. Dairylea and Eastern also have a substantial number of member producers under Order 4.

All proponents of Federal order extension, either in a statement of position or through exceptions, supported the inclusion of Berks, Lehigh, and Northampton counties in the Middle Atlantic marketing area, and the inclusion of 20 northeastern Pennsylvania counties in the New York-New Jersey marketing area. Those supporting such action included the cooperative association that originally proposed extension of the Middle Atlantic marketing area to include 17 northeastern Pennsylvania counties. Consequently, there is overwhelming producer support for such extension of the two marketing areas. However, notwithstanding such producer support, the record of the hearing upon which this decision is based does not support either a further extension of the Middle Atlantic marketing area at this time or an extension of the New York-New Jersey marketing area.

The operator of an Order 2 pool plant located at Union, New Jersey, proposed that the northern New Jersey portion of the Order 2 marketing area be removed from that area and added to the Order 4 marketing area.

Much of the testimony and other evidence presented at the hearing with respect to marketing area extension into Pennsylvania was related to marketing areas as defined by the Pennsylvania Milk Marketing Board (PMMB). The PMMB establishes minimum prices for milk at the farm level and at the resale level in eight marketing areas which in combination cover all the State of Pennsylvania. Five of these PMMB marketing areas encompass the maximum area of extension in Pennsylvania here under consideration. Such areas are: PMMB Southeastern Area 1—Zone 2 (includes portions of Bucks, Chester and Montgomery counties); East Central Area 2 (Berks, Lehigh, Northampton and Monroe counties and portions of Bucks, Chester, and Montgomery counties); Northeastern Area 3 (Lackawanna, Pike, Susquehanna, Wayne, and Wyoming counties and most of Luzerne County); South Central Area 4 (Adams, Cumberland, Dauphin, Franklin, Fulton, Juniata, Lancaster, Lebanon, Perry and York counties); and North Central Area 5 (Bradford, Carbon, Clinton, Columbia, Lycoming, Montour, Northumberland, Potter, Schuylkill, Snyder, Sullivan, Tioga, and Union counties and that portion of Luzerne County not included in Area 3).

Chester County and the portions of Bucks and Montgomery counties not presently included in the Order 4 marketing area are an integral part of the regular distribution area of the members of the Milk Distributors Association of the Philadelphia area (MDAPA) and of certain other fully regulated Order 4 handlers. This area is contiguous with the present Order 4 marketing area.

The Pennsylvania portion of the marketing area has remained unchanged since February 1, 1958, when the then Order 61 (Philadelphia) was amended to include additional suburban territory adjacent to Philadelphia. The final decision issued November 25, 1957, recommending such marketing area expansion stated, in part, that "• • • neither the present marketing area, nor the area as herein recommended embraces the normal area of distribution of regulated handlers. Not only do Order 61 handlers located in Philadelphia do a substantial business outside the area supported at the hearing, but other Order 61 handlers have their receiving and bottling plants actually located in this outside area and it is apparent that they do a very substantial part of their fluid business in the surrounding local area • • •"

The above findings indicating that the Order 61 marketing area did not fully reflect the primary distribution area of regulated handlers continues to describe the present situation. Since 1958 there has been a substantial growth of population outside the City of Philadelphia to the north and west of the area now covered by Order 4. From 1960 to 1970 the population of Philadelphia County declined by 2.7 percent. In contrast, the number of inhabitants increased by 34.5 percent in Bucks County, 32.1 percent in Chester County and 20.7 percent in Montgomery County. The combined population of the three counties in 1970 was over 1.3 million, 27.2 percent greater than 1960. The population of the presently unregulated portions of Bucks and Montgomery counties increased by 54.2 percent and 26 percent, respectively, during this period.

Bucks, Chester and Montgomery counties are included in the Philadelphia, Pennsylvania-New Jersey Standard Metropolitan Statistical area. The present Order 4 marketing area boundary divides the Pennsylvania portion of such SMSA, excluding from the marketing area a significant portion of the heavily populated suburban area.

During the 12-month period November 1972 through October 1973, the members of the MDAPA distributed approximately 320.5 million pounds of fluid milk products in Pennsylvania. Approximately 20 percent of such disposition (64 million pounds) was outside the current Order 4 marketing area (PMMB Area 1—Zone 1). About one-half of such outside disposition (2.7 million pounds per month) was in PMMB Area 1—Zone 2, which comprises most of the nonfederally regulated area in Bucks, Chester and Montgomery counties.

Fluid milk sales in Chester County and the nonfederally regulated portion of Bucks and Montgomery Counties by the MDAPA members and four other Order 4 pool handlers, including Lehigh Valley Cooperative Farmers (whose distribution is from its nonfederally regulated plant at Schuylkill Haven), account for at least 50 percent of the total fluid milk sales made in such area. One Order 4 pool handler is based in Langhorne (Bucks County) and two are located in Montgomery County, along with the principal distributing plant of Lehigh Valley, operated as a fully regulated plant under the order.

It is not possible on the basis of the record to establish what part of the distribution in this area is made by Lehigh Valley nor is it possible to ascertain whether all of its distribution here originates from its Schuylkill Haven plant. However, this is not a matter of primary concern since the cooperative's fully regulated plant is centrally located at Lansdale (Montgomery County) to serve this 3-county area. It must be presumed that to the extent the area is served from the distant nonfederally regulated Schuylkill Haven plant, it is because of the advantage which results from the lower pricing under PMMB regulation.

The MDAPA spokesman, in support of its requested area extension, indicated that fluid milk sales by its members in Pennsylvania outside the current Order 4 area declined by approximately 43 percent in the 12-month period between November 1972 to October 1973. This decline in outside market sales by MDAPA members is in contrast with the overall increase in Class I sales by Order 4 regulated handlers during the same period. It cannot be specifically ascertained from the record where this decline occurred. However, it is reasonable to presume, that a significant portion thereof occurred in this three-county area where the Association's members have their greatest concentration of out-of-area sales.

Exceptions filed on behalf of certain nonfederally regulated dealers and partially regulated distributing plants oppose the inclusion of Bucks, Chester and Montgomery Counties in the Order 4 marketing area. Exceptors state that such counties should not be included in the Order 4 marketing area since the volume of sales within this area cannot be determined for either currently regulated handlers or nonfederally regulated dealers. Furthermore, exceptors state that it cannot be presumed that the greatest proportion of fluid milk sales lost by the MDAPA occurred in this three-county area or that the sales in such counties by nonfederally regulated dealers have increased by a corresponding amount. They indicate that sales lost by the MDAPA could have been acquired by other Order 4 handlers.

It is true that the precise volume of sales by any one fluid milk plant (Federally or nonfederally regulated) in the area cannot be ascertained from evidence contained in the record. However, the volume of sales in this area by the

V 40 163
APR 1 75

MDAPA, as previously mentioned, can be approximated from evidence in the record. Testimony indicates that approximately one-half of the association's sales outside the Order 4 marketing area are in PMMB Area 1–Zone 2. Furthermore, sworn testimony indicating that Order 4 handlers account for at least 50 percent of total fluid milk sales in Chester County and unregulated portions of Bucks and Montgomery Counties is not refuted by any testimony or evidence in the record. As heretofore explained, it is immaterial that a portion of such sales may be accounted for by Lehigh Valley from Schuylkill Haven.

The actual volume of fluid milk sales lost by the MDAPA in this three-county area cannot be ascertained, nor can it be inferred that nonfederally regulated dealers increased their sales by any specific amount. However, evidence in the record indicates that sales by all Order 4 handlers in nonfederally regulated areas of Pennsylvania declined by approximately 20 percent from October 1971 to October 1973. Obviously, sales declines of this magnitude must reflect, in large part, the pricing disparity between Federal and State regulation as hereinafter discussed. This, in itself, does not indicate that all nonfederally regulated areas of Pennsylvania should be included in a Federal order. Bucks, Chester, and Montgomery counties, however, are an integral part of the distribution area of fully regulated handlers.

Regulated handlers directly attributed their loss in sales to the procurement advantage which local nonfederally regulated dealers have enjoyed in recent years. The minimum prices which local nonfederally regulated dealers must pay for milk purchased from dairy farmers are established under the orders of the PMMB. Such prices are established for each PMMB area through a hearing procedure and once established, are valid until changed through subsequent hearings. For reasons not fully explained on the record of the hearing, the PMMB in recent years has experienced great difficulty in maintaining a viable level of order prices.

The PMMB Class I price per hundredweight for milk containing 3.5 percent butterfat used in fluid milk products distributed in Area 1—Zone 2 is $7.45 and has remained unchanged since September 1, 1970. Since October 1973 the PMMB Class I price has been $8.35 in Area 2 and $8.37 in Area 4. In contrast, the Federal order Class I price applicable to Order 4 handlers supporting extension of Federal regulation increased from $9.23 in October 1973 to $10.99[1] in May 1974 (such price includes a 6-cent per hundredweight direct delivery differential for milk delivered within 55 miles of Philadelphia).

[1] This decision makes use of the Federal Order 4 Class I price and weighted average price for months beyond the dates for which such prices were available on the hearing record. For that purpose, official notice is taken of the official price announcements of the market administrator, Middle Atlantic Federal order market for April and May 1974.

Since July 1973 the weighted average price under Order 4 has exceeded the Class I price established by the PMMB for Area 2. During April 1974 the weighted average price reached a high of $9.56[1] or $1.21 per hundredweight over the PMMB Class I price for Area 2.

There are six (rather than seven as indicated in the recommended decision) nonfederally regulated distributing plants located in PMMB Area 1—Zone 2. The 7th plant is located in Pottstown, a city located within the borders of Chester and Montgomery counties. An exceptor pointed out that such plant is located in PMMB Area 2 rather than Area 1—Zone 2 as indicated in the recommended decision.

Four of the six plants in PMMB Area 1—Zone 2 are in Montgomery County (twi at Royersford, one at Hatfield, and one at Norristown) and two in Chester County. Another plant located at Spring City (Chester County) is presently a partially regulated distributing plant under Order 4.

One additional nonfederally regulated distributing plant is located at Red Hill in that portion of Montgomery County in PMMB Area 2. Finally there are two partially regulated distributing plants located in PMMB Area 4 (one in Lancaster County and one in Lebanon County) distributing fluid milk products in Bucks, Chester and Montgomery counties. These plants, along with the fully regulated handlers previously enumerated, and the Schuylkill Haven plant (Lehigh Valley) generally compete for sales in this 3-county area.

Exceptions filed on behalf of certain nonfederally regulated dealers and partially regulated distributing plants state that the plant located in Lebanon County has no fluid milk sales in either Bucks, Chester, or Montgomery counties. The witness representing the MDAPA, in his direct statement testified that such plant distributes within the three-county area. No testimony or evidence was presented at the hearing to contradict this statement. In addition, counsel for the plant operator did not object to the statement at the hearing or in his brief filed subsequent to the closing of the hearing.

Exceptor further indicates that a review of the records maintained by the Order 4 market administrator would reveal that such plant has no sales in the three-county area. The order, however, does not require the market administrator to maintain statistics which would indicate the location of out-of-area sales by a partially regulated distributing plant. Furthermore, the extent of Class I sales in the three-county area by the Lebanon plant is not a primary consideration in determining whether Bucks, Chester, and Montgomery counties should be included in the Order 4 marketing area. Also, as indicated later in this decision, such consideration does not alter, to any substantial degree, the findings concerning Order 4 regulation of PMMB Area 4.

Because the PMMB Class I prices are well below the Federal order Class I price, nonfederally regulated dealers selling milk in the 3-county area voluntarily are paying their dairy farmers prices which exceed the requirements of the PMMB regulations. For example, a dairy located at Hatfield (Montgomery County—PMMB Area 1—Zone 2) with an applicable PMMB Class I price of $7.45 and a Class I utilization of 99 percent during December 1973 paid a blend price to its dairy farmer suppliers of $9.45. Such price, while 44 cents greater than the December 1973 Order 4 weighted average price was 86 cents (almost 2 cents per quart) less than the Class I price applicable to Order 4 pool plants distributing fluid milk products in Bucks, Chester and Montgomery counties.

Several local dealers testifying in opposition to extension of the area conceded that during periods when the PMMB Class I price is less than the Order 4 weighted average price they pay their producers a price approximating such weighted average price. Any lesser pay price, they said, would result in the loss of their dairy farmer suppliers to regulated handlers.

As previously indicated, Lehigh Valley distributes fluid milk products in Chester County and the nonfederally regulated portions of Bucks and Montgomery counties from its nonfederally regulated bottling plant at Schuylkill Haven. Lehigh Valley pays its dairy farmer members delivering to such plant the same uniform base and excess prices that producers delivering to that location would receive under Order 4. However, the plant is essentially a straight Class I operation and, as a cooperative, Lehigh exercises its reblending privileges. Consequently, it is clear that the plant has a product cost advantage in competing for Class I sales with handlers operating plants fully regulated under Order 4 who must pay the order Class I price for all milk disposed of for fluid use.

In fact, all nonfederally regulated dealers distributing milk in the nonfederally regulated areas of Chester, Bucks and Montgomery counties, by virtue of their lesser procurement costs, are operating at a significant competitive advantage over fully regulated handlers who are the primary distributors. It is not surprising, therefore, that regulated handlers are experiencing a significant loss in sales.

The existing situation is a manifestation of market instability which cannot long persist without dire consequences. In substantial measure the situation bodes a total breakdown in the classified pricing scheme and, in the long run, a retrenchment of Federally regulated handlers to the Order 4 marketing area boundaries. It is apparent that what market stability remains in this area has been buttressed by the Federal milk order which carries the prerequisite reserve supplies. This results in an unequal sharing of returns from the sale of the milk among producers in a single common market and an undue burden on consumers in the Federally regulated area who, in the final analysis, pay the cost

associated with the carrying of the reserve milk supply for the adjacent nonfederally regulated area.

Extension of the Order 4 marketing area to include all of Bucks, Chester and Montgomery counties will encompass the principal area of sales by Order 4 pool plants in Pennsylvania outside the Order 4 marketing area. Furthermore, the preponderance of sales by currently nonfederally regulated dealers located in the 3-county area are within the boundaries of such counties. Additionally, there are no nonfederally regulated dealers, other than Lehigh Valley with respect to its Schuylkill Haven plant, located in the 17 northeastern counties included in Lehigh's proposal or in Berks, Lehigh or Northampton counties with substantial distribution in Bucks, Chester or Montgomery counties.

However, the extension of regulation to include Chester and the remainder of Bucks and Montgomery Counties will result in the substantial additional involvement of two of the largest dealers presently distributing milk in PMMB Area 4. Both of these dealers now have sales in the existing Order 4 market and with their sales in the three-county area they will necessarily acquire fully regulated status unless they make substantial operational changes. Consideration therefore must be given to a further extension of the marketing area to include the ten counties composing PMMB Area 4.

According to the 1970 Census of Population, there are about 1.3 million inhabitants in the 10-county area which includes 3 Standard Metropolitan Statistical Areas: the Harrisburg SMSA, which consists of Cumberland, Dauphin and Perry Counties; the Lancaster SMSA, which consists of Lancaster County; and the York SMSA, which consists of Adams and York Counties.

As of January 1, 1973, there were approximately 4,577 commercial dairy farms within Area 4. Of this total, approximately 91 percent ship their milk to plants regulated under Federal milk orders. About 2,086 of the dairy farmers are producers under Order 4 and 2,092 are producers under Order 2. The remaining 399 dairy farmers ship their milk to nonfederally regulated distributing plants located in the area.

The preponderance of the fluid milk sales in Area 4 are presently supplied by nonfederally regulated dealers and Order 4 partially regulated distributing plants all located in the 10-county area.

In October 1971, the most current month in which a breakdown of fluid milk sales in PMMB areas by in-area and out-of-area dealers was available, dealers in Area 4 accounted for 89.2 percent of total fluid milk sold in that area. The remaining sales were made by dealers located in PMMB Areas 1, 5, and 6 (an area not herein under consideration) and by dealers located in the State of Maryland. Only about 6.8 percent of all fluid milk sales by Area 4 dealers were made outside Area 4.

There is some uncertainty with respect to the volume of fluid milk sales made in Area 4 by dealers located in other PMMB areas since October 1971. Proponents alleged that Class I sales in Area 4 by Lehigh Valley from its nonfederally regulated plant at Schuylkill Haven have increased substantially since 1971. However, local dealers opposing regulation held that Lehigh Valley does not now have nor has it ever had a substantial business in Area 4. The record does not provide a means for quantifying the sales of Lehigh Valley, or any other dealer, to appraise what changes may have taken place in the distribution of fluid milk products in Area 4 since 1971. Neither does it indicate whether Area 4 dealers have further extended their fluid milk routes into other PMMB Areas.

Although Area 4 dealers are the predominant distributors in Area 4, such area is by no means isolated. At least four fully regulated Order 4 handlers located outside Area 4 distribute fluid milk products within the area. In addition, one fully regulated Order 4 handler is located in Area 4 (Lancaster County). Class I sales by fully regulated Order 4 handlers are estimated to represent 8 percent of the fluid milk sales in the York area, 6 percent of sales in the Harrisburg-Chambersburg area, 15 percent in the Lancaster area, and 5.2 percent of fluid milk sales in Lebanon County. The Harrisburg, Lancaster, and York urbanized areas and Lebanon County account for 45 percent of the approximately 1.3 million inhabitants in Area 4.

Two of the five principal distributors of Class I milk in PMMB Area 4 are based in York and the other three in Lancaster, Lebanon, and Harrisburg, respectively. All except the plant at Harrisburg are presently partially regulated under Order 4. The two plants with the greatest Class I sales in Area 4 are located at Lancaster and Lebanon, respectively. An exception was filed to the preceding statement. Exceptor, however, provided no information to conclude otherwise.

The Lancaster plant was a fully regulated pool plant under Order 4 and/or under Order 16 (Baltimore) from early 1960 until July 1971. At that time the plant's operations were modified to bring about its present partially regulated status. The primary reason cited for the handler's withdrawal from full regulation was the increasing spread between the PMMB Area 4 Class I price and the Federal Order Class I price applicable at Lancaster. The handler allegedly was unable to compete successfully for fluid milk sales in his principal market (PMMB Area 4) with nonfederally regulated dealers who had a significantly lower Class I milk cost.

Since the Lancaster plant was withdrawn from full regulation, the difference between the Order 4 and PMMB Class I prices has continued to increase. For example, in January of each year since 1970, the Federal order Class I price applicable at Lancaster exceeded the PMMB Area 4 Class I price by the following amounts: 1970, 10 cents; 1971, 34 cents; 1972, 44 cents; 1973, 83 cents; and 1974, $2.15.

Since June 1973, the weighted average price under Federal Order 4 has exceeded the Class I price established by the PMMB in Area 4. Because this area is a very substantial procurement area for Order 4 handlers, local dealers have found it necessary to pay their dairy farmer suppliers a price which approximates the Order 4 weighted average price. Therefore, they have not had the full advantage of the difference between the Order 4 Class I price and the local PMMB area Class I price. Nevertheless, the advantage has been substantial.

The two distributing plants located at York are partially regulated under Order 4 and compete directly for fluid sales in Area 4 with the Lancaster plant. In January 1974, one of these plants paid producers a blend price of $9.07 per hundredweight or 10 cents less than the Order 4 weighted average price. Such price reflected a $9.50 Class I price and a 76.3 percent Class I utilization. The Class I price was $1.23 above the PMMB Area 4 Class I price, but 92 cents less than the Federal Order 4 Class I price applicable at York and Lancaster.

The other York dealer paid his producers the Order 4 weighted average price in January 1974 ($9.17). Such dealer's calculated Class I price ($9.40) was $1.02 under the Order 4 Class I price.

Other nonfederally regulated Area 4 dealers have similar price advantages over federally regulated handlers in competing for local sales.

As previously indicated, the Lancaster-based partially regulated distributing plant undoubtedly would become a fully regulated Order 4 handler because of fluid milk sales made in Chester County, which represent about 6 percent of the total estimated distribution in such county by all dealers. The dealer has 18–20 percent of the total Class I disposition in PMMB Area 4 and has route sales in all of the counties in Area 4 except Fulton. His sales as a percentage of total Class I sales in such counties are as follows: Adams, 29 percent; Cumberland, 4 percent; Dauphin, 10 percent; Franklin, 5 percent; Juniata, 19 percent; Lancaster, 25 percent; Lebanon, 5 percent; Perry, 13 percent, and York, 14 percent.

Such percentages do not include milk products which are custom bottled by the plant for a grocery chain, some of which may be sold through stores in the area.

Even though PMMB Area 4 is its primary sales area, the plant would be fully regulated under Order 4 at the present time except for an arrangement with a fully regulated handler whereby such handler is a custom supplier of some of the unregulated plant's Class I sales outlets within the Order 4 marketing area. Inclusion of Chester County in the Order 4 marketing area will increase the Lancaster plant's Federal order sales significantly and make it impractical to continue the custom supplying arrangement. It was for this reason that this dealer urged that if any territory adjoining the present Order 4 marketing

V 40163 APR 175

area were added to the marketing area, all of PMMB Area 4 also should be added.

The Lancaster plant obtains its milk supply for Class I use outside the Order 4 marketing area from one of the cooperatives constituting the Pennmarva Federation. This milk is not pooled and is priced to the dealer at the Middle Atlantic uniform base price plus 20 cents a hundredweight. This dealer also operates a substantial nonfederally regulated manufacturing plant located at York, which is also supplied by the proponent cooperative. All of that plant's receipts are pooled as Class II milk under the order. The milk is pooled by the cooperative association in its capacity as a handler diverting producer milk. As a consequence of these arrangements, none of the Class I utilization of the combined operation of the Lancaster and York plants, except that distributed in the current Order 4 marketing area, is pooled under Order 4 while all of its Class II milk is pooled.

The partially regulated distributing plant located at Lebanon, Pennsylvania (previously indicated to be one of the five principal dairies distributing in PMMB Area No. 4), receives milk from approximately 100 dairy farmers and distributes in an area that extends westward to Harrisburg, Pennsylvania, and eastward to the Middle Atlantic marketing area. This plant also would almost certainly become fully regulated by virtue of an extension of the marketing area to Chester County, and to the unregulated portions of Bucks and Montgomery Counties.

Exceptions filed on behalf of certain nonfederally regulated dealers and partially regulated distributing plants indicate that the Lebanon plant would not become a fully regulated handler by virtue of Order 4 extension to Bucks, Chester and Montgomery counties. In fact, exceptor states that the Lebanon plant has no sales in the three counties. Exceptor further states that a plant at Lancaster has no sales in Bucks or Montgomery counties. Consequently, exceptor concludes that Order 4 extension to Bucks, Chester and Montgomery counties will not substantially involve any nonfederally regulated dealer in PMMB area 4.

As previously noted, testimony on the record indicates that the Lebanon plant distributes in Bucks, Chester and Montgomery Counties. By virtue of the plant's location in Lebanon County, and the fact that such plant is a partially regulated distributing plant because of fluid milk sales in the Order 4 marketing area, it was reasonable to presume that any westward expansion of the Order 4 marketing area would increase such plants sales in the Order 4 marketing area. Since the plant's specific volume of sales by area was not presented at the hearing, it is possible that the Lebanon plant would not become a fully regulated plant due to the inclusion of Bucks, Chester, and Montgomery counties in the Order 4 marketing area. Notwithstanding, the Lebanon plant, however, competes for fluid milk sales in PMMB Area 4 with the partially regulated distributing plant located at Lancaster, as well as other dealers in Area 4. A witness representing the Lancaster plant testified that, although the plant distributes no fluid milk products in the unregulated portions of Bucks and Montgomery counties, sales in Chester County would fully regulate the plant if Chester County were included in the Order 4 marketing area. Consequently, the Lancaster plant would be competitively disadvantaged in its primary sales area, PMMB Area 4, due to the differences in State and Federal fluid milk prices previously described unless its competitors are also regulated by further extension of the Order 4 marketing area to include PMMB Area 4.

In this regard exceptor states that a comparison of the Order 4 Class I price with the PMMB Area 4 Class I price that existed at the time of the hearing is no longer relevant. Exceptor requests that official notice be taken of the PMMB's action to increase the Area 4 Class I price by $1.15 per hundredweight effective November 18, 1974.

The current PMMB Area 4 Class I price ($9.42) compares more favorably with the most recently announced Order 4 Class I prices than the PMMB Area 4 Class I price effective at the time of the hearing. However, as pointed out in the record, decision and exceptions, the PMMB establishes Class I prices through a hearing process while Federal order prices are computed each month. The pricing differences that existed at the time of the hearing are examples of what can occur under the different methods of establishing Class I prices. Furthermore, there is no assurance that wide differences between Order 4 and PMMB Class I prices will not reoccur in the future.

Extension of the marketing area to include all of PMMB Area 4 will fully regulate under Order 4 a number of additional plants. Two of these plants are located in Lebanon County, one at Lebanon and one at Palmyra. Seven plants are located in Lancaster County, as follows: two in Lancaster, two in Millersville, and one each in Ephrata, Pequea, and Elizabethtown. In addition, the two partially regulated plants in York County would become fully regulated Order 4 pool plants.

Two other plants which would become fully regulated are located in Cumberland County, one at Shippensburg, and the other at Camp Hill. The sales area of these two plants was not described on the record. However, since Cumberland County is centrally located within PMMB Area No. 4, it must be presumed that their sales are preponderantly within PMMB Area No. 4.

In Dauphin County, there are five plants that would become fully regulated plants. Three of these plants are located in Harrisburg, one of which is currently a partially regulated plant under Order 4. The other two plants are located in Millersburg and Dauphin.

The operator of the largest distributing plant in Dauphin County testified that his sales area encompasses a very small portion of Schuylkill and Berks Counties, all of Lebanon, Dauphin and Cumberland Counties, much of Perry County, and a small portion of Lancaster and York Counties.

There are three plants in Franklin County which would become fully regulated by the inclusion of PMMB Area 4 in the marketing area. One plant is located at Chambersburg and two are located at Waynesboro, one of which, at the time of the hearing, was a partially regulated distributing plant under Order 4. There is substantial overlapping of sales between these plants and plants in other counties within PMMB Area 4.

There are no distributing plants located in Adams, Fulton, Juniata or Perry Counties. However, all of the Class I sales within these counties are made by plants which will be fully regulated by the addition of the territory recommended herein.

It is concluded that the entire ten-county area comprising PMMB Area 4 must be included in the extended marketing area. There is an inextricable involvement in both procurement and sales between Area 4 and the immediately adjacent federally regulated area and the area in Chester, Montgomery, and Bucks Counties which must also be added to the Order 4 marketing area as hereinbefore concluded.

Washington County, Maryland, also should be included in the extended Order 4 marketing area. The inclusion of this county was supported by the proponent Pennmarva and no opposition testimony was offered at the hearing.

This county, which contained 108,829 residents in 1970, is located in north-central Maryland and is contiguous with the Order 4 marketing area. The eastern boundary of Washington County abuts the western boundary of Frederick County, Maryland, which is currently in the Order 4 marketing area. The northern boundary of Washington County abuts Franklin and Fulton Counties, Pennsylvania, which are herein recommended for inclusion in the Order 4 marketing area. Fort Ritchie, which is a substantial military installation in the eastern part of the county, is already included in the marketing area.

Seven fully regulated Order 4 pool plants distribute fluid milk products in Washington County, accounting for approximately 23 percent of total Class I sales in the county. The remaining fluid milk sales (slightly over 2 million pounds per month) are supplied by two fluid milk plants located at Hagerstown, the largest city in Washington County. Both plants distribute fluid milk products in the Order 4 marketing area and are partially regulated under the order.

A spokesman for Pennmarva testified that the two partially regulated distributing plants located at Hagerstown have a decided price advantage in competing with Order 4 handlers for fluid sales in Washington County. These plants have Class I utilizations (approximately 92 percent) much above the Order 4 marketwide Class I utilization, but in most instances have paid their producers less than the prices received by neighboring farmers supplying Federal order markets. During December 1973 the two plants had at least a 2-cents per quart advantage in raw product costs over Order 4 handlers.

As a consequence of the competitive advantage enjoyed by the local plants, some Order 4 handlers have abandoned fluid milk sales in Washington County and others who operate their own store outlets have begun to purchase supplies for such outlets from the local handlers.

It is estimated that the two plants are supplied by 66 producers, 43 of which are located in Washington County. Approximately 289 Washington County dairymen ship to Order 4 while 5 dairy farmers are Order 2 producers.

One of the plants distributes 90–95 percent of its total Class I sales within Washington County. Minor sales are made in the Order 4 marketing area and in West Virginia.

The other plant (Eldridge Farm Dairy, trading as Potomac Farms) until March 1, 1974, was a proprietary operation and is the largest distributor in the county. At the time of the hearing, about 75 to 80 percent of the plant's total Class I sales were within Washington County. About 10 percent of the plant's total Class I usage was bottled for a handler located at Waynesboro, Pennsylvania, and subsequently distributed in the Pennsylvania counties herein recommended to be included in the Order 4 marketing area. The remaining sales were in the current Order 4 marketing area and in West Virginia.

The competitive situation existing between the dairies located in Hagerstown and fully regulated handlers has been a matter of continuing controversy since 1958 when the Washington, D.C. Federal order (Order 3) was promulgated. The inclusion of Washington County in the marketing area has been aspired to by both regulated handlers and cooperatives representing the majority of producers from the initial promulgation. However, because of overlapping procurement and sales with Pennsylvania dealers immediately to the north and lack of any positive showing of substantial competition between local dealers and regulated handlers, proposals to extend the area to include Washington County have been denied in the past.

Both of these factors become moot with the extension of regulation to include PMMB Area 4 and the purchase on March 1, 1974, of the Eldridge Farm Dairy (Potomac Farms) by Valley of Virginia Milk Producers Association, whose member-producers are substantial suppliers of milk to Order 4 through its subsidiary, Shenandoah's Pride, one of the principal distributors in the Washington segment of the marketing area.

The extension of the marketing area to include Washington County at this time is desirable to implement continuing orderly marketing in this area where fully regulated handlers will be essentially the exclusive suppliers.

By virtue of the extension at this time, all producers, handlers, and other segments of the industry doing business therein, or contemplating such, will have full assurance that all milk sold therein is being accounted for under the terms of the order at not less than minimum Class prices specified under the order.

It is concluded that the expanded Order 4 marketing area proposed herein should result in effective regulation of the principal handlers who compete for sales throughout the marketing area without bringing under full regulation plants having minimal sales within the marketing area. A uniform price plan applicable to all handlers buying milk for sale in the expanded area will stabilize and improve marketing conditions in such area. Regulation will effectuate the declared policy of the Act by providing for:

(1) The establishment of uniform prices to handlers for milk received from producers according to a classified price plan based upon the utilization made of milk.

(2) An impartial audit of handlers' records to verify the payments of required prices;

(3) A system for verifying the accuracy of weights and butterfat content of milk purchases; and

(4) Uniform returns to producers supplying the market based upon an equitable sharing among all producers supplying the expanded market of the lower returns from the sale of reserve milk which cannot be marketed as Class I milk.

Berks, Lehigh and Northampton Counties, in PMMB Area 2, should not be included in the Order 4 marketing area on the basis of this record. While nonfederally regulated dealers serving the three counties have essentially the same product cost advantage over Order 4 handlers as local dealers in the area hereinbefore recommended for inclusion in the marketing area, there is no substantial evidence in this record on which to conclude that such counties are, or have ever been, a substantial part of the general sales area of currently regulated Order 4 handlers or handlers who will become fully regulated by virtue of the recommended Order 4 expansion to include other Pennsylvania territory.

This three-county area is contiguous with and immediately to the north of Bucks, Chester and Montgomery Counties. The three counties comprise the bulk of two Standard Metropolitan Statistical Areas: The Reading SMSA, which is comprised of Berks County, and the Allentown - Bethlehem - Easton SMSA, which is comprised of Lehigh and Northampton counties and Warren County in the State of New Jersey. The combined population of the three counties in 1970 was 766,054, about 8.8 percent greater than 1960. This is in contrast to the growth rate in Bucks, Chester, and Montgomery Counties of 34.5, 32.1, and 20.7 percent, respectively, during the same period.

There are 4 nonfederally regulated plants located in Berks County. Three of the plants are located in the city of Reading and the fourth is located at Barto. The three dairies in Reading receive their supply of milk from a total of 115 dairy farmers who are all members of the Berks County Dairy Farmers Association. The association was organized approximately 40 years ago and in recent years has presented testimony at PMMB hearings. At this hearing it opposed any extension of Federal regulation to Berks County.

Fluid milk sales in the Reading area, which is the major population center in Berks County, are predominantly supplied by the three local plants. Approximately 91 percent of such sales are supplied by these dealers. The remaining sales there are supplied principally by Lehigh Valley from its nonfederally regulated plant at Schuylkill Haven. One Order 4 handler (A & P Co.) selling only through its own store outlets accounts for the remaining one percent of total fluid sales in the Reading area.

Prior to June 1972, dealers selling in the city of Reading were required to have their milk supply inspected by the local city health authority. Dealers whose plants were located outside such city in most instances found that the expense involved in maintaining the necessary approval of their supply made it impractical for them to extend their business into Reading. Proponents of Federal regulation testified that in June 1972 the authority of local health agencies in Pennsylvania was superseded by an agency of the State. Since that time dealers with plants located outside Berks County have extended their sales into such county and the city of Reading. However, it is apparent that the county continues to be served preponderantly by local dealers. The partially regulated distributing plant located in Lancaster (which will become a fully regulated handler by virtue of Order 4 expansion hereinbefore recommended) has an estimated three percent of total fluid milk sales in the county. Sales in the county by three Order 4 pool plants and one plant located in Pottstown (which will become an Order 4 pool plant by inclusion of Montgomery County in the marketing area) were categorized on the record as being substantial but no quantifying data was presented.

The four local plants located in Berks County do not have significant sales in the Order 4 marketing area as herein recommended to be extended.

The fact that a few Order 4 pool plants and/or prospective pool plants have distribution in Berks County is not in itself a compelling reason for including such county in the Order 4 marketing area. Berks County presently is essentially a separate local market served preponderantly by local handlers and with insufficient ties with the marketing areas as recommended to be extended to justify its inclusion at this time.

The Allentown-Bethlehem-Easton urbanized area (a portion of such area is in the State of New Jersey) encompasses approximately 72 percent of total population in Lehigh and Northampton Counties. The 1970 combined population of the two counties was 469,672. Nonfederally regulated dealers supply approximately 76 percent of the total fluid milk

V 40 163 APR 1 75

sales in such urbanized area. About one-third of the total sales are made by two local dealers who have no distribution in the Order 4 marketing area as herein extended. One such dealer is located at Easton (Northampton County) while the other and larger dealer is located at Allentown (Lehigh County). He receives milk from 44 dairy farmers whose spokesmen voiced their opposition to Federal regulation The greater proportion of sales in this area are made by Lehigh Valley through its Schuylkill Haven plant.

The Berks County dealer located at Barto supplies approximately one percent of the total Class I sales in the area. One additional nonfederally regulated dealer is located at Schnecksville (Lehigh County) but his area of distribution was not shown. However, the plant is located in the northern portion of Lehigh County and it is unlikely that such handler has distribution in any portion of the expanded Order 4 marketing area herein recommended.

Two Order 4 handlers and one Order 2 handler have distribution in the Allentown-Bethlehem-Easton area. The percentage of the local sales made by these handlers cannot be specifically determined on the record but seemingly is about 25 percent. Distribution by one such handler (A & P) is solely through its store outlets. Distribution by the other handler is substantially retail-home delivery. These sales by present Order 4 handlers are a very small proportion of their total fluid sales.

Two plants located in Montgomery County, which will become regulated by the inclusion of such county in the marketing area, also have some distribution in the Allentown-Bethlehem-Easton urbanized area. Such sales are not substantial, representing only one to two percent of total fluid milk sales in such area.

Lehigh Valley is by far the largest single distributor serving the Allentown-Bethlehem-Easton area. The cooperative's sales from its nonfederally regulated plant at Schuylkill Haven represents approximately 40 percent of total Class I sales in the area.

Ideally, in delineating a marketing area it would be desirable to find a boundary which encompasses the total sales area of all handlers who would be regulated and leaves no interplay between regulated handlers and nonregulated dealers. However, it is seldom possible to attain such a goal. For reasons hereinafter set forth, it is not appropriate on the basis of this record to extend regulation to the 17 northeastern Pennsylvania counties which Lehigh Valley proposed for inclusion in the Order 4 marketing area. In much of this 17-county area the Lehigh Valley Schuylkill Haven plant has substantial sales. Its concentration of sales, however, is in the Allentown-Bethlehem-Easton area. Inclusion of this area would leave the cooperative in a position of necessarily submitting that plant to full regulation or, in the alternative, closing the plant and serving all of its fluid customers from its Lansdale fully regulated plant. In either circumstance, the cooperative would be forced to operate at a serious competitive disadvantage in a substantial segment of what is now the Schuylkill Haven plant's primary sales area.

Although fluid milk products are currently distributed from the Schuylkill Haven plant into the recommended area of extension, particularly Chester, Bucks, and Montgomery counties, these sales could readily be shifted to the Lansdale plant, leaving the Schuylkill Haven plant free to compete on equal terms with other nonfederally regulated dealers in the remainder of the proposed area of extension not included.

While presently regulated handlers and dealers who will become regulated by the recommended area extension will continue to operate at a disadvantage in the Allentown-Bethlehem-Easton area in competition with nonregulated dealers, their total sales here are not a substantial part of their total business. The marketing area boundaries herein recommended represent the maximum limits of extension which can reasonably be achieved under the existing market situation on the basis of this record.

It was clearly the intent of Pennmarva through adoption of its proposal to have the Schuylkill Haven plant either fully regulated or combined with the Lansdale operation of Lehigh Valley. The proponent spokesman complained of the inequity resulting from the fact that the Schuylkill Haven Class I sales are not shared with Order 4 producers while at the same time Lehigh pools its manufacturing plant at Allentown with the resulting dilution of pool proceeds. For reasons previously stated, it would not be appropriate through amendment action to place the Schuylkill Haven plant in the identical position now complained of by regulated handlers and which prompted the hearing call. To the extent that the Allentown manufacturing plant is handling the market's regular reserve milk supply, this is an accommodation to the market and not a burden. If, in fact, the milk processed at Allentown is not available for fluid use as needed by the market, this reflects a pooling problem and should not be confused with the problem of area extension. The appropriate pooling standard for cooperative reserve processing plants are later discussed as a separate issue.

Cooperative associations, the MDAPA, and other interested parties filed exceptions to the exclusion of Berks, Lehigh, and Northampton counties from the Middle Atlantic marketing area. Exceptors state that by excluding such counties the recommended marketing area does not reflect a natural, well-defined distribution area and discriminates against fully regulated Order 4 handlers. Exceptors further state that the record supports inclusion of such counties in that there is substantial economic interaction between Berks, Lehigh and Northhampton counties and both the presently regulated areas and the areas to which Order 4 extension is recommended.

Exceptors also cited new information and various changes in distribution patterns which purport to indicate that total sales in these three counties by currently regulated handlers, and handlers who would become regulated by virtue of the recommended marketing area extension, have increased. Such gratuitous statements are not verifiable. Furthermore, no sales volumes were presented that would provide a basis to modify this decision.

Further examination of the record on the basis of exceptions received reaffirms the Administrator's conclusion that the Order 4 marketing area should not be extended to Berks, Lehigh and Northampton counties at this time for the reasons hereinbefore discussed.

Neither the Order 4 nor the Order 2 marketing area should be extended to include any of the territory in PMMB Areas 3 and 5 or Monroe County in PMMB Area 2. This large geographical area is basically rural and is predominantly supplied by a large number of nonfederally regulated plants located throughout the area. Neither Order 4 nor Order 2 regulated handlers are substantially involved in distributing fluid milk products in the area.

According to the 1970 Census of Population, there are over 1.4 million inhabitants in the 20-county area, with the most inhabited counties (Lackawanna, Luzerne, Lycoming, and Schuylkill) accounting for almost 60 percent of the total population. Three Standard Metropolitan Statistical Areas are included within the territory: The Williamsport SMSA, which consists of Lycoming County; the northeastern Pennsylvania SMSA, which consists of Lackawanna, Luzerne and Monroe counties and includes the principal cities of Hazleton, Scranton and Wilkes-Barre; and the Binghamton, New York, SMSA which includes Susquehanna County, Pennsylvania.

In total, the population density of the area is approximately 107 persons per square mile, less than one-half the population density in PMMB Area 4. Excluding the four most populated counties, the population density in the remaining 16 counties is only 58 persons per square mile.

Proponents requesting regulation of the area under Order 2 excepted to describing such area as basically rural and using such criteria as a basis to deny Federal regulation of the area. Exceptors pointed out that this territory was characterized by witnesses as a mixture of urban, suburban, and rural areas with approximately 51.5 percent of the population residing within 3 Standard Metropolitan Statistical Areas. Such statement, however, does not contradict a prior finding that the area is basically rural. Furthermore, population density was only one of many considerations in the marketing area evaluation of such area.

Nearly 300 million pounds of fluid milk products are distributed annually in the 20-county area while about 1.7 billion pounds of milk is produced there annually. As of January 1, 1973, there were 4,360 commercial dairy farms within the 20-county area. Of this total, 3,378 (77.5 percent) were producers under Order 2

and 544 (12.5 percent) were producers under Order 4. The remaining 438 dairy farms were associated with local nonfederally regulated dealers. The total number of producers located outside the area, but whose milk is distributed in the area, is not known.

Approximately 3,600 of the 4,360 dairy farmers located in the 20-county area have membership among the three cooperative associations supporting regulation of the area under Order 2. Lehigh Valley represents 41 producers located in this area, but the milk of about 350 of the association's producer members is regularly received at its nonfederally regulated Schuylkill Haven plant located in the area.

There are 40 nonfederally regulated fluid milk bottling plants located within the 20-county area. Two of such plants are operated by cooperative associations supporting Federal regulation of the area, i.e., Lehigh Valley at Schuylkill Haven and Dairylea at Scranton. Dairylea also operates three Order 4 supply plants located at Beaver Springs (Snyder County), Honesdale and Newfoundland (Wayne County), and in addition has some distribution into the area from its Order 2 regulated bottling plants at Binghamton and Elmira, New York. There are 14 transfer plants and eight manufacturing plants, all of which are pool plants under Order 2, located in the area.

Lehigh Valley requested regulation of this northeastern area following the proposal of Pennmarva for regulation of the entire southeastern portion of the State. The proposal by Dairylea and NEDCO was submitted to provide for regulation of this area under Order 2 rather than Order 4.

In support of its proposal Lehigh pointed out that about 50 percent of its Schuylkill Haven plant's distribution is in Berks, Chester, Lehigh, Northampton, and unregulated portions of Bucks and Montgomery Counties. Thus, the plant would become a fully regulated Order 4 pool plant if southeastern Pennsylvania were included in the Order 4 marketing area. This, proponent's witness held, would place the association at a serious competitive disadvantage in competing for fluid milk sales with nonfederally regulated dealers in northeastern Pennsylvania. Class I prices established by the PMMB in northeastern and north central Pennsylvania, as in the areas previously discussed, are substantially below Federal order prices. Thus, nonfederally regulated dealers can secure a supply of milk for fluid use at a lesser cost than Federal order handlers.

Witnesses for the three cooperative associations supporting regulation of this area under Order 2 pointed out that such extension of regulation would improve that market's Class I utilization and provide for a better blend price relationship between Orders 2 and 4 than if the area were regulated by Order 4.

Evidence presented at the hearing establishes that expansion of the Order 4 marketing area to include all the currently nonfederally regulated Pennsylvania counties set forth in the hearing notice would have increased the Order 4 weighted average price in 1972 by about 13 cents per hundredweight. Regulation of only southeastern Pennsylvania by Order 4 would have increased the 1972 weighted average price by about 8.2 cents while regulation of northeastern Pennsylvania under Order 2 would have increased the 1972 Order 2 blend by 3.6 cents per hundredweight. It is this latter combination of Federal order extension which the three cooperatives support.

Order 2 proponents pointed out that the area on a production basis is closely associated with the Order 2 market. It was their position that inclusion of the area in Order 4 would be confusing and unacceptable to those dairy farmers supplying the Order 2 market. They referred to the Nourse Committee recommendations[1] and concluded that the extent of producer affiliation with the Order 2 market is a major factor requiring extension of the Order 2 marketing area into northeastern Pennsylvania.

A Lehigh Valley witness also referred to criteria for defining "marketing area" as recommended in the Nourse Committee Report. The witness conceded that such recommendations for defining marketing area would also support regulation of northeastern Pennsylvania by Order 2. However, he held that the extent of competition between Order 4 pool plants and unregulated dealers in this area is the overriding factor in establishing that the area should be added to the Order 4 marketing area.

Two producer associations operating nonfederally regulated distributing plants in the area opposed Federal regulation. Farmers Cooperative Dairy operates a plant at Hazleton (Luzerne County) receiving milk from 44 members and Monroe County Milk Producers Cooperative Association operates a plant at Brodheadsville receiving milk from 32 members.

Neither Order 4 nor Order 2 handlers are substantially engaged in the distribution of fluid milk in the 20-county area. To the contrary, the preponderance of sales are made by competing nonfederally regulated dealers. The two largest of such nonfederally regulated plants located in the area are operated by Lehigh Valley (which receives milk from approximately 350 producers at its Schuylkill Haven plant) and Dairylea (which receives milk from about 376 producer members at its Scranton plant).

The actual volume of milk received at the Schuylkill Haven plant or the volume of fluid milk products distributed from such plant cannot be specifically ascertained from the record. The volume of sales in northeastern Pennsylvania from the Schuylkill Haven plant were combined with sales in such area by Order 4 pool plants and were presented as a percentage of total fluid milk sales, both on a PMMB area basis and a county basis. It was testified that sales by Lehigh Valley and Order 4 handlers represent approximately 24 percent of total fluid milk sales in PMMB Area 3, 22.5 percent of sales in PMMB Area 5, and 54 percent of sales in Monroe County.

The record indicates, however, that the sales of only two Order 4 pool handlers are involved in the above PMMB Areas 3 and 5 sales percentages presented by Lehigh Valley and they represent not more than 10 percent of the total fluid milk sales in such areas. One of these handler's sales are not more than 500,000 pounds per month. Although the exact location of this handler's sales was not presented by Lehigh Valley or the handler's witness, other testimony indicates that substantial distribution is made by this handler in the Hazleton area (Luzerne County). In the Hazleton area such handler, who is a member of the MDAPA, and the other Order 4 handler account for 8 percent of total Class I sales.

The other Order 4 handler, who was not represented at the hearing, accounts for the majority of the regulated sales in northeastern and north central Pennsylvania. Such handler is alleged to have 12 percent of total Class I sales in the Schuylkill Haven-Pottsville area (Schuylkill County), 5 percent in the Sunbury area (Northumberland County), and 7 percent of sales in the Williamsport area (Lycoming County). Such sales are made through the handler's chain grocery stores.

Of the three cooperatives supporting regulation by Order 2, only Dairylea is substantially involved in supplying the fluid milk requirements in northeastern Pennsylvania, both through direct sale of fluid milk products on routes and bulk milk sales to nonfederally regulated dealers.

Route sales from Dairylea's plant at Scranton (unregulated), Binghamton, and Elmira (both Order 2 plants) represent approximately 23 percent of the area's fluid milk requirements. Including bulk milk sales to nonfederally regulated dealers, Dairylea supplies about 44 percent of the total fluid milk sales. Most of such milk is supplied by the association's 376 producers located in the area and is not priced by any Federal order. Under the provisions of Order 2, Dairylea apparently has been able to avoid pooling, and hence pricing, of the minor routes sales in this area from their Binghamton and Elmira Order 2 plants.

Dairylea obviously is not at a disadvantage in competing for fluid milk sales with other nonfederally regulated dealers in this area. While it is true that payments by nonfederally regulated dealers are not based on the use of milk in fluid milk (Class I) products, the association does receive the competitive fluid use value for the milk it distributes on routes, about 6 million pounds per month. This is equally true with respect to sales which Lehigh Valley makes in the area from its Schuylkill Haven plant.

Clearly, the preponderance of sales in the northeastern area of Pennsylvania emanate from nonfederally regulated plants. Fluid milk route sales and transfers of pool milk by Order 2 handlers in northeastern Pennsylvania approximated 7 percent of total fluid milk requirements of northeastern Penn-

[1] Report to the Secretary of Agriculture by the Federal Milk Order Study Committee, December 1962, Washington, D.C.

V 40 163
APR 1 75

sylvania in 1972. No breakdown of the exact area of sales was presented. However, there is no indication that sales of Order 2 handlers in the area were ever greater, or that sales had been lost as a result of any competitive disadvantage.

On the other hand, Order 4 regulated handlers, as previously indicated, also do not have substantial sales here. If regulation were necessary, the area by sales association seemingly should be included with the Middle Atlantic market. However, there is no compelling evidence of market disorder of a magnitude requiring Federal regulation at this time. Further, there is no evidence of substantial support for regulation under Order 4. Lehigh's proposal was not supported by Pennmarva and was opposed by the three major cooperatives in the New York-New Jersey market and by dairy farmer suppliers of local handlers. The extension of regulation to this area would not result in any perceptible improvement in returns to these dairy farmers and would not materially affect prices to producers under the orders. Under the circumstances, proposals to add this area alternatively to the Order 4 or Order 2 marketing area are denied.

Proponents of a marketing area expansion of Order 2 reiterated their position in exceptions that extension of such marketing area to northeastern Pennsylvania meets the criteria set forth in the Nourse Committee Report for defining marketing area. Exceptors further state that regulation of northeastern Pennsylvania by Order 2 is necessary in order to preserve the blend price alignment between Orders 2 and 4. The record of the proceeding indicates that the addition of portions of northeastern Pennsylvania to Order 2 comports with that portion of the Nourse report criteria which would include principal urban centers in the production area of a market within the marketing area of a Federal order. However, there is little association in terms of the distribution of fluid milk products as the greatest proportion of fluid milk sales in northeastern Pennsylvania is made from nonfederally regulated plants located in the area. The question of blend price alignment is discussed under issues 2 and 7. Basically, such discussions indicate that the base-excess plan and pool plant qualifications of the Middle Atlantic order permit milk to move from Order 2 to Order 4 when needed for fluid use. Thus, it is not necessary that the marketing area of Order 2 be expanded to maintain blend price alignment since dairy farmers may shift supplies between the two markets to preserve the existing alignment of blend prices.

Other exceptors requested that the hearing be reopened, either to receive testimony on the effects of Order 4 regulation on handlers who would become fully regulated as a consequence of extending the marketing area of the Middle Atlantic order as provided in the recommended decision, or to obtain additional information regarding the extension of Federal regulation to Pennsylvania counties not recommended for inclusion in either the New York-New Jersey or Middle Atlantic marketing area.

It would not be appropriate to reopen the proceeding at this time to receive evidence on the need to further extend Federal regulation to additional Pennsylvania counties and, thus, delay the proceeding with respect to recommended revisions to the Middle Atlantic order. The hearing record upon which this decision is based contains over 3,300 pages of testimony, 58 exhibits as well as briefs and exceptions filed on behalf of a large number of interested parties. The hearing itself lasted approximately 18 days and was held in four sessions in three different locations in Pennsylvania. Consequently, all interested parties have had ample opportunity to present testimony and evidence with respect to the marketing area issue.

For the previously stated reason, requests to reopen the hearing are denied. Additional consideration of Federal order extension, if desired, should be considered in a new proceeding.

Northern New Jersey should not be added to the Middle Atlantic (Order 4) marketing area but should be retained as a part of the marketing area of the New York-New Jersey (Order 2) Federal milk order.

An Order 2 handler operating a plant located at Union, New Jersey, proposed that northern New Jersey which is presently a part of the Order 2 marketing area be excluded therefrom and added to the Order 4 marketing area. Adoption of the proposed changes in the respective marketing areas would result in regulation of the Union, New Jersey, plant as well as a number of other Order 2 pool plants under Order 4 rather than Order 2.

Proponent anticipated that adoption of his proposed adjustments in marketing area boundaries would result in a decrease in his milk procurement cost. He held that inclusion of northern New Jersey as a part of the Middle Atlantic marketing area would reduce his costs for Class I milk because (1) the cooperatives supplying his plant would reduce their handling charges and (2) his cost for milk assigned to shrinkage and dumpage would be reduced 3 to 5 cents per hundredweight.

Three cooperative associations and one independent producer offered testimony in opposition to removing northern New Jersey from the Order 2 marketing area. They contended that the 13-county area of northern New Jersey is geographically, commercially, economically and institutionally associated with the New York Metropolitan area. In addition, the spokesman for one of the cooperatives suggested that the Order 4 market would not have sufficient milk to supply the Class I needs of the market if northern New Jersey area were added to the Order 4 area.

The principal concern of producers associated with the Order 2 market was that shifting northern New Jersey from Order 2 to Order 4 marketing area would create a misalignment of blend prices under the respective orders. One cooperative witness estimated that such shift in regulation would depress the Order 2 blend price by 14 cents and increase the Order 4 blend price by 18 cents.

The Union, New Jersey, plant has 77 percent of its Class I sales in northern New Jersey, 8 percent in the State of New York and 15 percent in southern New Jersey and Pennsylvania. Thus, the plant sells milk in competition with both Order 4 and Order 2 handlers. However, the greatest proportion of the plant's sales are in direct competition with sales of other Order 2 handlers. In total, Order 2 handlers account for approximately 80 percent of fluid sales in northern New Jersey.

Proponent estimated that 18–25 percent of all Class I sales in northern New Jersey are made by Order 4 handlers whose costs, he held, are less than the cost which he incurs as an Order 2 handler. As an example of alleged added costs incurred in purchasing Order 2 milk, proponent presented a tabulation of his costs for Class I milk compared to the Class I costs which he contended were incurred by Order 4 handlers. Such tabulation indicated that his per hundredweight cost for Class I milk during January 1974 was $10.94. This reflected the minimum Class I price under Order 2 at the 201–210 mile zone ($10.04) plus $0.457 (trucking and freight) plus $0.413 (handling) plus $0.03 (administrative assessment). The per hundredweight cost to his competitors for milk under Order 4 during the same month, he held, was $10.42 (minimum Class I price exclusive of location adjustment) plus $0.06 (direct delivery differential) plus $0.025 (administrative assessment) or a total of $10.505. On this basis, proponent's cost for Class I milk delivered to his plant was 43.5 cents per hundredweight higher than the cost of milk for Class I use to a competing handler regulated under Order 4.

The costs attributed by proponent to trucking and freight were the average of his costs in obtaining milk from three sources. Sixty percent of his plant's fluid milk supply is obtained from plants operated by cooperative associations, 30 percent is received directly from farms and 20 percent is received from farms through a reload plant operated by the handler. His computed handling costs were based upon the cost of obtaining milk from the same three supply sources plus the cost of obtaining milk on a somewhat regular basis from a fourth source, a proprietary plant. The average cost of obtaining milk from the proprietary plant during December 1973 was 60 cents per hundredweight over the price under Order 2 plus the cost of moving the milk from the proprietary plant to the processing plant. That milk represented two percent of the processing plant's receipts.

Proponent was reluctant to reveal the cost of freight and trucking and handling charges applicable to milk received directly from farms and from plants operated by cooperative associations. He indicated that the company was in the process of negotiating with various cooperative associations for a milk supply and for that reason he did not want to reveal information on the cost of obtaining milk from plants operated by cooperatives currently supplying the processing plant. He did detail the cost of obtaining milk at his Union, New Jersey, plant through a reload plant located at North Bienheim, New York, during December 1973 as follows: Handling costs of 51 cents per hundredweight (hauling cost from farm to reload plant, 26 cents; assembly cost at reload plant, 12 cents; premium to producers, 10 cents; and administrative assessment, 3 cents); and freight and trucking differential of 42.2 cents per hundredweight (hauling cost from reload plant to processing plant, 35 cents; and location adjustment, 7.2 cents).

The reasons advanced by proponent for adding northern New Jersey to Order 4 are essentially identical to those presented at a prior hearing by New Jersey-based Order 2 handlers in support of a proposal which would have decreased the Order 2 Class I price, which they contended was necessary, to align such price with the Order 4 Class I price. At that hearing proponents contended that New Jersey-based Order 2 handlers have an average Class I cost 24 cents per hundredweight higher than competing Order 4 handlers. The Assistant Secretary's findings and conclusions relating to that issue were set forth in his final decision on October 5, 1970 (35 FR 15927). Official notice of that decision is hereby taken.

In denying the New Jersey-based handlers' request that the Order 2 Class I price be reduced 24 cents with respect to milk sold in the State of New Jersey, the Assistant Secretary stated as follows:

> Proponents' problem is not related to the Class I price alignment as between Orders 2 and 4, per se, but rather to the differences in handling methods customary under the respective orders and the handling charges over order prices which generally prevail under Order 2.
>
> The Order 4 market is essentially a direct-delivery market; i.e., milk needed for Class I use is collected in bulk tankers from the farms and is moved directly to handlers' city bottling plants for processing. The receiving handler under the order is held accountable for the milk at the order prices applicable at the location of the receiving plant and the producer generally pays the transportation costs, either through authorized deductions from his payments for milk where the handler is also the hauler or, in other circumstances, through negotiation when the hauling is by a contract hauler. Milk not needed at the city for Class I use is moved by diversion directly to nearby country manufacturing plants and, in usual circumstances, is priced at the location of the plant of physical receipt. Prior to the transition to bulk tank handling, however, most of the market's milk supply was initially received at country plants for assembly, cooling and transshipment.
>
> In contrast, the New York-New Jersey market is still largely a country plant receiving market. While the greater size of the market and distance from the farm to the central market have been obvious factors in this regard, the continuing operation of country receiving plants is in large measure due to the fact that can handling is still common (25 percent of the milk supply) and the market has not taken full advantage of the efficiencies of bulk tank handling.
>
> There is no apparent reason why a bottling plant in northern New Jersey could not receive all of its needed milk supplies direct-shipped in bulk tankers from farms in the supply area in the identical manner of Order 4 handlers. Nevertheless, proponents contend that they can acquire only about 25 percent of their supply in this manner; the remainder must be obtained through country plants. It is this facet of procurement which is the root of the problem; i.e., increased costs incurred in country plant receiving and transshipment. These costs allegedly include: 18 cents hauling from farm to receiving plant, 24 cents hauling from receiving plant to processing plant, 6 cents plant handling, 3 cents administrative assessment, 5 cents premium, 5 cents service charge and a plus 7 cents location differential. The total costs over and above the 201–210-mile zone farm point price, proponents contend, is on the average 68 cents, resulting in an actual cost to the New Jersey handler, 24 cents above the f.o.b. market Order 4 price.
>
> To the extent that the added costs reflect hauling from farm to plant of initial receipt, the problem is identical with the Class II problem discussed under the preceding issue and the appropriate solution is the same. To the extent that procurement costs involve country plant operation and transfer costs, the logical solution is improved efficiency and reduced costs through direct receipt. An administrative assessment obviously is applicable under both orders and is a necessary handler cost. The remaining extra cost items reflect service charges over and above the minimum order price.
>
> The costs from which proponents seek relief are not a result of the order prices and appropriately may not be alleviated through an adjustment of the Order 2 Class I price level. The proposal for a Class I price adjustment must be denied for the reasons stated above.

The additional charges for freight and handling which are the basis for handler's complaint are outside the scope of order regulation. As was pointed out in prior findings, such costs reflect the differences in customary handling methods under Orders 2 and 4, respectively.

While the volume of canned milk receipts under Order 2 has declined sharply since 1970, there has been no apparent substantial change in handling procedures to improve efficiency and reduce marketing costs under Order 2. Hence, proponent continues to complain of the over-order costs incurred in receiving milk under Order 2 as compared to Order 4.

The northern New Jersey area was initially included in the Order 2 marketing area in recognition of its close association with the New York Metropolitan area. There is no indication that there has been any substantial change in that association. The bulk of proponent's sales are in northern New Jersey in direct competition with other Order 2 handlers, all of whom rely primarily on the Order 2 pool for a milk supply.

The costs from which proponent seeks relief are not a result of the order prices. In fact the alignment of Class I prices as between Orders 2 and 4 is such that the Order 4 price f.o.b. market in the New Jersey segment of the marketing area is 15 cents above the Order 2 f.o.b. market price in the northern New Jersey segment of that marketing area. Under the same degree of marketing efficiency therefore, it would be expected that handler costs for Class I milk under Order 4 would exceed such costs under Order 2. The fact that institutional factors in the Order 2 market have resulted in procurement costs for Order 2 handlers which exceed the procurement costs for Order 4 handlers is not an appropriate basis for the requested action.

The Order 2 handler who proposed that northern New Jersey be included in the Order 4 marketing area excepted to the denial of his proposal. Exceptor further questions the 15-cent difference between the Order 4 and Order 2 f.o.b. market Class I prices and the finding that, with given prices and costs, his price for Class I milk delivered to his plant was 43.5 cents higher than the cost of milk to a competing handler regulated under Order 4. Exceptor states that data presented at the hearing indicates that his cost for Class I milk is 58.5 cents higher than an Order 4 handler's cost.

The 15-cent difference represents the Order 4 f.o.b. market Class I price plus the 6-cent per hundredweight direct delivery differential ($10.48 in January, 1974) minus the Order 2 f.o.b. market Class I price plus the 5-cent per hundredweight direct delivery differential ($10.33 in January 1974). The findings contain a detailed calculation of the derivation of the 43.5 cent difference.

Exceptions filed by the Order 2 handler further reiterated his position but provide no basis to adopt his proposal.

2. *Pool plant qualification requirements*—(1) *Distributing plants.* The present pooling provisions for distributing plants should not be modified.

The order requires that a pool distributing plant have not less than 50 percent of its dairy farmer receipts, including milk diverted to other plants and milk received from a cooperative association acting as a handler on farm bulk tank milk, disposed of as Class I milk during the month and at least 10 percent of such receipts disposed of as route disposition in the marketing area.

No specific proposal to modify the pool distributing plant provisions was offered at the hearing. However, one witness testifying in support of lowering the shipping requirements for supply plants indicated that it also might be appropriate to reduce the percentage of receipts from dairy farmers which must be disposed of as Class I to qualify a distributing plant for pooling. Another witness presented a resolution on behalf of a cooperative association supporting adoption of the pool distributing plant provisions of the Boston Regional (Order 1) milk order. Neither witness offered any substantive reasons for the modifications they suggested. In the absence of any specific proposal to amend the present provisions and in view of the opposition expressed by others to any change, it is concluded that no modification of qualifying standards for pool distributing plants should be made on the basis of this record.

Exceptions filed on behalf of certain nonfederally regulated dealers and par-

V 40163
APR 175

tially regulated distributing plants request that the in-area disposition requirement for pooling a distributing plant be increased from 10 to 15 percent of receipts. Exceptor states that the 10 percent requirement is unrealistic and that it is obvious that dealers opposing regulation are not in favor of being pooled if as little as 10 percent of their receipts are distributed as Class I in the marketing area.

The pooling provisions of the existing order were formulated on the basis of the record of the August 1969 hearing on which the three-market merger was effected, effective August 1, 1970. It was found on the basis of that record that any distributing plant having at least 50 percent overall Class I utilization and disposing of 10 percent or more of its receipts as route distribution in the marketing area was associated with the market to a degree requiring full regulation.

Proponents of the area extension testified that, except for modifications specifically noted, the current order was appropriate and should be the terms of the regulation covering the extended Market. No modification of the 10 percent standard was proposed.

No testimony was offered in opposition to such proposed 10 percent route distribution standard, and, accordingly, the exceptions filed suggesting that such standard would not be acceptable to parties to which it might apply provides no basis for modifying such provision.

(ii) *Supply plants.* The present provisions for pooling supply plants should not be modified.

The order provides that a supply plant shall be fully regulated in any month during the period of September through February in which at least 50 percent, and in any month during the period of March through August in which at least 40 percent, of its dairy farmer receipts are moved as fluid milk products to a plant(s) which meets the pool distributing plant performance percentages with respect to its total milk receipts. A plant that was pooled as a supply plant in each of the immediately preceding months of September through February is provided continuing pooling status during each of the following months of March through August. However, such automatic pooling status is negated effective the first day of any month in which another supply plant is qualified for pooling through shipments of fluid milk products to the same distributing plant(s) through which such automatic pooling status was accomplished.

A supply plant which has earned such automatic status is permitted to withdraw from pool status, however, at the operator's option in any of the months of March through August in which it does not meet the current shipping requirements for a pool supply plant. In such case, it can acquire pooling status only by meeting the current shipping requirements.

The cooperative proposing the addition of 17 counties in northeastern Pennsylvania to the Order 4 marketing area proposed a reduction in the qualifying shipping requirements for pool supply plants.

Such proposal was offered in conjunction with a companion proposal that the base and excess plan under the order be replaced with a Louisville plan. The two proposals were offered as a solution to an alleged misalignment of blend prices between Order 2 and Order 4 which Order 2 cooperatives contended would result from extension of the Order 4 marketing area to all of the territory proposed to be added to the Middle Atlantic marketing area.

Dairylea Cooperative, Inc., also testified in support of a group of interrelated proposals dealing with the pooling of supply plants and revision of the base and excess plan. Proponent stated that the purpose of such proposals was to implement the orderly association of additional milk supplies with the Order 4 market, prevent any abuses through interplay on the different seasonal plans provided in Orders 2 and 4, respectively, and to provide equitable treatment for new producers associated with plants which became pool plants as a result of the area extension.

At the time of the hearing Dairylea was operating three pool supply plants under Order 4. Two of these plants were located in northeastern Pennsylvania and the third was located in west-central Pennsylvania. Proponent proposed that the order be revised so that the cooperative might retain pool plant status for each of its three plants by supplying the market during each of the months of September through February with not less than a specified percentage of either producer milk directly from the farm or plant milk from the two supply plants least distant from the Philadelphia area. Under this arrangement, the milk at its most distant supply plant could be held for local fluid or manufacturing use.

If its proposals were adopted, it was Dairylea's intent to provide pooling status for an additional plant which it operates at Wyalusing, Pennsylvania. The cooperative's spokesman held that the addition of this plant would be necessary to supply the Class I needs of the Order 4 market.

At one point proponent implied that the pooling of additional supply plants under the Middle Atlantic milk order would increase the Class I utilization of the Middle Atlantic order. At another juncture proponent indicated that, if the cooperative were permitted to pool additional supply plants, the addition of such plants would tend to shift to the Middle Atlantic order milk which is reserve to the needs of the Order 2 market.

Pennmarva opposed any change in the shipping requirements for pool supply plants and questioned the economic need for pool supply plants under Order 4. The cooperative's spokesman pointed out that the market is supplied principally by direct shipment from producers' farms, some of which are located more distant than any of the pool supply plants presently serving the market.

In addition to the three pool supply plants operated by Dairylea there is one other pool supply plant under the Middle Atlantic milk order operated by a cooperative. Most of the milk associated with the Middle Atlantic market, however, is received at pool distributing plants directly from producers' farms or is diverted therefrom to pool reserve processing plants or nonpool plants for manufacturing use.

There is no indication that the expansion of the Middle Atlantic marketing area herein provided would involve any supply plant not presently regulated. All of the distributing plants which will be brought under regulation appear to be supplied by direct delivered milk. Thus, there is no indicated need for additional pool supply plants to meet the fluid needs of the market.

Furthermore, inspection of the releases of the market administrator of the Middle Atlantic milk order for the months of June, July and August, 1974,[1] reveals that the proponent cooperative pooled only 2 of its supply plants during such months. Such action by the proponent cooperative appears to be inconsistent with its testimony that, if given the opportunity, it would pool additional supply plants under the order.

In any circumstance, the order provisions do not deter the pooling of additional supply plants. Any plant which meets the specified shipping requirements is, in fact, required to pool. The dairy farmers delivering to such plant then would receive bases in the identical manner as any new producer entering the market. In this regard, however, special treatment is accorded producers under Order 2 who transfer to the Order 4 market either individually or through a supply plant during the short production season, when milk could most reasonably be expected to be needed. Such producers receive credit for their deliveries under Order 2 in the computation of new bases for the coming year, provided the transfer occurred prior to October 1. This is an appropriate procedure for accommodating the transfer of plants and/or producers from Order 2 to Order 4. Nevertheless, to insure that no inequity may result from the extension of the marketing area, special provisions as later discussed are made for issuing bases to producers who may enter the market because their milk is received at a supply plant which becomes pooled as a result of its continuing association with a distributing plant(s) pooled as a result of the area extension.

Also, there appears to be no need to lower the present shipping requirements for pool supply plants. Neither of the two cooperatives operating pool supply plants indicated that they were experiencing any problems in meeting the current pooling standards. The cooperative requesting the lower shipping requirements does not operate a pool supply

[1] Official notice is taken of monthly reports entitled "Pool Handlers" issued by the Order 4 market administrator for the months of June, July and August, 1974.

plant. Such proposal was supported by a cooperative association which has no producers supplying the Order 4 market. Thus, it would appear that the proposal was made in an attempt to enlist the support of those cooperatives proposing extension of the Order 2 marketing area to northeastern Pennsylvania for proponent cooperative's proposal that northeastern Pennsylvania be added to the Order 4 marketing area.

(iii) *Reserve processing plant.* The provisions of Order 4 for pooling a reserve processing plant operated by a cooperative association should be modified to provide that such plant may be pooled only if the total of fluid milk products (except filled milk) transferred from such cooperative association's pool plant(s) to pool distributing plants plus the volume of milk of member producers physically received at pool distributing plants is not less than 50 percent of the total milk deliveries of member producers during the month. A pool reserve processing plant of a cooperative association should not, however, be the means of pooling any milk other than its own members. Otherwise, once the plant acquires status it could receive and pool milk from independent producers and other cooperatives solicited solely for manufacturing use and without any association with the fluid market.

To implement these conclusions appropriate changes must be made in the producer and producer milk definitions as hereinafter discussed.

The present order provisions accord pool plant status to any reserve processing plant which is operated by a cooperative association if at least 70 percent of its member milk is received throughout the month at other pool plants, including the milk of such producers which is delivered to pool plants by the cooperative association acting as a handler on bulk tank milk.

Pennmarva proposed that these provisions providing pooling for a reserve processing plant operated by a cooperative association be revised to require, as a condition of pooling, that the Class I utilization of all milk pooled under the order by any cooperative association delivering milk to such plant be not less than 50 percent during any month of September through February and 40 percent for any month of March through August.

The cooperative held that any milk delivered by a cooperative having a Class I utilization less than that specified in the proposal should not be pooled. In such instance the specific producers whose milk would be excluded from the pool would be determined by the cooperative. If the cooperative would not make such determination, then all of the milk of the cooperative received at the reserve processing plant would be nonpool milk for the month.

In support of this position the cooperative's spokesman indicated that the present requirements, for pooling a reserve processing plant operated by a cooperative association have permitted one cooperative operating such a plant to associate with this market, a large volume of milk intended solely for manufacturing uses. He pointed out that once pool status is accorded to such a plant, other cooperatives could pool unlimited quantities of milk under this order by delivering milk to such pool plant.

The present standard admittedly is ambiguous and has been administered to require that 70 percent of the members deliver one day's production per month to other pool plants (an amount totaling less than 2.5 percent of the total milk produced monthly by members of the cooperative). Under such application a cooperative association could associate the remaining 97.5 percent of the milk of its members with the Order 4 pool by receiving and manufacturing such receipts at its pool reserve processing plant. In addition, up to one-half of the quantity received at pool plants from the cooperative could also be diverted from such plants to the reserve processing plant.

The provisions providing for automatic pooling status for a reserve processing plant are not intended to be a means for assuring a supply of pool milk for a manufacturing operation. The provisions were adopted to implement orderly marketing by assuring pooling status for the regular reserve milk supply of the fluid market which is in excess of demands of fluid processors and which the cooperatives were therefore necessarily manufacturing. It is not practical to provide shipping requirements for a reserve processing plant since its primary purpose is to manufacture the reserve milk supplies of the market which is either received as diverted milk from other pool plants or is received directly from the farms of member producers. In this market the milk which a cooperative supplies to pool plants is normally supplied in the cooperative's role as a bulk tank handler. In such instance the cooperative moves the milk directly from the bulk tank of its members to other pool plants.

While it would be inappropriate to conclude on the basis of this record that there has been any abuse of the reserve processing plant pooling procedure, nevertheless, it has been clearly established that the provision as presently structured could be so used.

Requiring that 50 percent of a cooperative's member producer milk be physically received at pool distributing plants either directly from the farm or as transfers from pool plants operated by the cooperative is an appropriate pooling standard for this market. In order for a distributing plant to qualify as a pool plant or to be the means for pooling a supply plant, the distributing plant must have 50 percent of its producer milk utilized as Class I milk.

Historically, the Class I utilization in the market has substantially exceeded 50 percent. It is reasonable therefore to expect that any cooperative in the market would necessarily have an outlet for not less than 50 percent of its member milk with pool distributing plants. Otherwise it would be questionable whether such cooperative's milk was sufficiently associated with the fluid market to warrant sharing fully in the total proceeds from the sale of milk for fluid (Class I) use.

Since a pool reserve processing plant is not required to make shipments, it is probable that having acquired pooling status the plant might, in the interest of maximizing operating efficiency, solicit additional milk supplies solely for manufacturing use. This could be accomplished even under the modified standards here provided unless appropriate safeguards are provided. Nothing should be done to deny the plant access to any milk supplies bona fidely pooled under the present performance standards. However, it should not be permitted to be the means of pooling milk not otherwise qualified. To this end it is provided that a pool reserve processing plant may not implement the pooling of nonmember or other cooperative member milk. Milk from such sources, therefore, must be received only as a diversion from other pool plants to retain producer status.

Under the present order provisions cooperatives are accorded diversion privileges only to nonpool plants. In a prior decision it was concluded appropriate not to provide for diversions by a cooperative association to a pool reserve processing plant because the milk could be pooled by the cooperative in its role as the responsible handler on milk caused to be picked up from farm bulk tanks and delivered to a pool reserve processing plant. Since this decision provides that such milk may no longer be pooled in this manner, it is desirable in the interest of promoting handling efficiency to extend diversion privileges to cooperatives in the movement of milk to pool reserve processing plants. Consequently, a modification of the handler definition, which was overlooked in the drafting of the recommended decision, is necessary to accomplish this end.

Exceptions filed by cooperative associations requesting regulation of northeastern Pennsylvania under Order 2 express concern that the recommended Order 4 provisions would result in the loss of pool plant status of a plant currently pooled as a reserve processing plant under Order 4. Exceptors are concerned that reserve milk currently delivered to such plant might be pooled under Order 2, thereby diluting the Order 2 pool and destroying the blend price alignment between Orders 2 and 4.

A cooperative association that operates both a pool distributing plant and a reserve processing plant pooled under Order 4 also excepted to the recommended provisions for pooling a reserve processing plant. The association indicated that it had the flexibility to meet the recommended order provisions, but only through uneconomic movements of milk which would substantially increase the association's operating costs.

The cooperative stated that in order to meet the requirement that 50 percent of its members' milk be physically received at pool distributing plants, the milk of its member producers currently received at its reserve processing plant would have to be redirected to its pool distributing plant. Then the association would have to transfer such milk back to its

V 40 63
APR 1 75

reserve processing plant, incurring substantial transportation costs. Alternatively, the member milk presently received at the reserve processing plant could be bottled at the cooperative's distributing plant, thereby displacing the milk of other producers currently utilized in fluid milk products at that plant. The milk of such other producers would then be surplus to bottling needs and would have to be shipped to reserve processing plants for manufacturing.

Exceptor points out that the provisions of the recommended decision for pooling a reserve processing plant could be met by the cooperative without altering the volume of milk associated with the Order 4 pool, but would require the cooperative to redirect the manner in which such volumes of milk are received at the plants of the cooperative. Furthermore, the altered handling procedures would result in increased costs to be borne by the cooperatives producer members.

The cooperatives points have merit. Consequently, these provisions should be further modified to provide that, in the case of a cooperative association that owns and operates both a reserve processing plant and a pool distributing plant, the conditions for pooling the reserve processing plant shall have been met if the volume of the cooperative's member milk pooled at the reserve processing plant does not exceed the volume of Class I sales from the cooperative's pool distributing plant, plus the volume of the cooperative's member milk supplied to pool distributing plants of other handlers.

The purpose of the revised order provisions for pooling a reserve processing plant operated by a cooperative association, as contained in the recommended decision, was to limit the ability of a cooperative to associate milk with the market solely for manufacturing use. The proviso here adopted continues such principle and carries out the intent of the 50 percent delivery requirement. The volume of member milk pooled at the reserve processing plant is limited to the extent that the cooperative furnishes the fluid milk requirements of the market, either through Class I sales from its own distributing plant or by delivery of its members' milk to pool distributing plants of other handlers.

Exceptions filed on behalf of certain nonfederally regulated plants and partially regulated distributing plants request that reserve processing plants not be permitted to be the means of pooling milk which would not otherwise be qualified for pooling. The pooling of additional milk supplies through reserve processing plants except as a diversion from other pool plants is explicitly prohibited in the producer and producer milk definitions of the attached order.

3. *Classification of other order milk at a pool plant diverting producer milk for Class II purposes.* No change should be made in the present method of classifying other order milk received at an Order 4 pool plant.

The order provides that receipts of bulk milk from an other order plant which is to be classified and priced under such other order and which is not classified as Class II by agreement, shall be classified as Class I and Class II on the basis of the marketwide utilization of producer milk. The quantity of milk so assigned to Class II, however, may not be greater than the Class II utilization of the receiving handler.

In the case of interorder transfers of bulk milk the order provides that a Class II classification shall apply whenever the parties involved agree that the shipment is for manufacturing use in the receiving market. A higher classification is provided when it is found, on verification, that some portion of the milk could not have been used for manufacturing uses. In that instance such portion would then be reclassified as Class I.

The order does not provide for marketwide proration of milk received from an order plant if such milk is not classified and priced under such other order or when the receiving handler has a greater proportion of milk in Class II than the average for the market. Marketwide proration of milk received from other Federal order markets is designed to deal primarily with milk received by a handler who is supplementing his local supply for Class I use. If marketwide proration were permitted on all receipts of other order milk, a handler with a higher proportion of milk in Class II than the market average would seek such supply in order to minimize his procurement costs for producer milk. In such case marketwide utilization for other source milk would result in a disproportionate share of local producers' milk being assigned to Class II.

The order provides for the system assignment of interorder bulk milk to the overall utilization of milk at all the handler's regulated plants in the receiving market. Such assignment of bulk receipts from other order plants to the handler's system utilization prevents a handler with more than one plant from discriminating against either his own producers or those supplying the other Federal order market.

Pennmarva proposed that the present system of allocating other order milk to Class I and Class II uses be revised to deter the allocation of other order milk to Class I when the pool plant receiving such transfers is at the same time diverting producer milk for Class II purposes. The federation proposed that any producer milk diverted by a pool plant for Class II purposes be combined with the producer milk utilized within such plant when prorating the plant's total Class I and Class II utilization to producer receipts physically received at the plant.

This procedure, it was indicated, would preserve for Order 4 producers some of the Class I utilization which otherwise would be accorded other order milk when the operator of a plant receiving other order milk was diverting producer milk for Class II use. It was suggested that milk purchased from a plant regulated under the Eastern Ohio-Western Pennsylvania (Federal Order No. 36) might be obtained at a lesser cost than producer milk because in some instances the Class I price under Order 36 plus the cost of hauling from western Pennsylvania to an Order 4 pool plant could be less than the Order 4 Class I price applicable at the transferee plant. This could be the catalyst whereby a handler could be encouraged to pervert the intent of the order by procuring a supply of milk for Class II use to the detriment of producers under the order, proponent held. He concluded, however, that this opportunity did not exist as between Orders 2 and 4 since the cost of transportation from an Order 2 plant to an Order 4 pool plant would be greater than the difference in Class I costs between Federal Orders 2 and 4.

Adoption of Pennmarva's proposal could have serious consequences in periods of limited milk supplies for plant operators who do not bottle milk on weekends and might need to divert producer milk for Class II use for that reason, but who later in the week might find it necessary to purchase other order milk to meet their need for fluid milk.

In addition, notwithstanding proponents position, it is unlikely that any handler could exploit the pool in the manner suggested. Other Federal order receipts are assigned prorata to the receiving handler's utilization which minimizes any possibility that a handler could recover transportation costs on all of his other order receipts. When a handler diverts milk from his pool plant for Class II uses, the utilization at such plant is lowered, thereby lessening the amount of other source receipts that could be assigned to Class I. No transportation could be recovered on such receipts assigned to Class II since the Class II price is the same, i.e., the Minnesota-Wisconsin price. Thus, there is a minimal possibility that the abuse proponents fear could occur under the order price now provided. If, however, the situation were prospective, it would be an indication of a serious misalignment of Class I prices between orders and an urgent need for a reduction in the Order 4 Class I price.

Furthermore, cooperative's proposal, if adopted, would not be effective in allocating additional Class II utilization to receipts of other order milk in the event the pool plant operator receiving the other order milk utilizes all of its receipts as Class I and the producer milk diverted from the plant is diverted by a cooperative association for its account. In those instances in which a cooperative association diverts milk from a pool plant for the account of the cooperative, the pool plant's utilization is unaffected by such diversion. Therefore, a pool plant operator whose plant's utilization is entirely Class I could obtain other order milk and have such milk assigned to Class I even though producer milk was diverted from such plant to a nonpool plant for Class II utilization. This procedure cannot be altered in conformity with proponent's proposal since two separate handlers (the plant operator and the

cooperative) are involved and there is no way that utilization as between the two appropriately could be adjusted.

(4) *Diversion limitations.* The present diversion limitations of the order are appropriate for the expanded marketing area and should be retained.

The order now permits diversions without limit to pool reserve processing plants throughout the year. Unlimited diversions are also permitted to nonpool plants during the months of March through August. However, during the months of September through February, diversions to nonpool plants are limited to not more than 10 days' production of individual dairy farmers. An alternative procedure is provided whereby a cooperative may divert to nonpool plants up to 25 percent of its total member-producer milk without restriction on the days of diversion of an individual dairy farmer's milk, and a proprietary handler may similarly divert up to 25 percent of his nonmember milk supply. If the prescribed percentage limitations are exceeded, all diversions by the handler are governed by the 10-day limitation. In the event any producer's milk is diverted in excess of the allowed 10-days, only the milk of such producer physically received at pool plants is pooled.

The operator of a pool plant located in Philadelphia, who also operates a nonpool manufacturing plant immediately adjacent, proposed that the diversion provisions of the order be revised to permit 15 days' production of individual dairy farmers to be diverted during the month instead of 10 days production. At the hearing proponent presented no testimony in support of the proposal. Counsel for proponent, although declining to appear as a witness, made a statement for the record and later cross-examined witnesses opposed to any changes in the diversion limitations.

Counsel stated that a proceeding attacking the legality of the present 10-day diversion limitation had been instituted by proponent. The remainder of his statement was directed to the response made by the market administrator to a request on behalf of the proponent handler for information.

Counsel stated that he had requested information of the market administrator for his client with respect to cooperatives and the utilization of members milk and of producer milk. The information solicited purported to demonstrate that over the years the number of handlers in the Philadelphia segment of the market receiving nonmember milk and operating nonpool manufacturing facilities had declined to the point that only Michaels Dairies, Inc., remained. Counsel was informed that no data for other than pool milk was available to the market administrator, and the requested data on pool milk could not be made available to counsel because such information was deemed confidential. Counsel did obtain certain other information from the market administrator as a result of his request.

Cooperative associations testified that the present diversion provisions of the order have fully accommodated the orderly handling of the market's reserve milk supply and they urged that the provisions be retained in their present form.

In his brief counsel contended that the 10-day diversion limitation provided under the present order does not accommodate the operations of pool plants with Class I utilization less than the marketwide average. He urged that, since the order requires a pool distributing plant to utilize only 50 percent of its dairy farmer receipts in Class I, the diversion limitations should accommodate the diversion of all the remaining milk.

The diversion provisions of the order are intended to implement the orderly and efficient disposition of the regular and necessary reserve milk supply of the fluid market. Such provisions under each order are tailored to fit the needs of the market. Thus, in the months when production is lowest seasonally (i.e., September through February) diversions of individual producer's milk is limited to not more than 10-days. Alternatively, diversions by a cooperative with respect to its member milk or by a proprietary handler with respect to his nonmember milk are permitted in such months in an amount not in excess of 25 percent of total member and nonmember milk, respectively. During the months of March through August, when milk production increases seasonally, diversion to nonpool plants is permitted without limits.

During the months of shortest production, through maximum use of the 10-day provision, the cooperative or proprietary handler can theoretically divert one-third of the member and nonmember milk, respectively. However, because the cooperative is the supply source for a number of handlers variously located in the market, it is more practical in the interest of operating efficiency to divert continuously that milk most advantageously located with respect to manufacturing facilities rather than to divert the milk of each individual producer a specified number of days. For this reason the cooperative in 1971 petitioned for a hearing to consider increasing the diversion limitation percentage from the then 15 percent to 25 percent.

At that hearing proponent handler of the current proposal urged that the limitation on diversion of individual producer milk be proportionately increased from 10 days to 15 days. This request with respect to the increase in the number of days production which might be diverted was denied by the Assistant Secretary in his decision issued August 17, 1971 (36 FR 16517), official notice of which is hereby taken.

Proponent's interest is to maximize his ability to secure pool milk for his manufacturing operation. In this regard he occupies a unique position in the market in that his pool processing plant and his nonpool manufacturing plant are located side-by-side in Philadelphia. He therefore does not use the diversion provisions in the usual meaning of the term since the decision to receive milk at his pool plant versus his manufacturing plant involves the movement of milk but a few feet. Diversions by the cooperative on the other hand versus receipt at a pool plant normally involves moving such milk some distance, i.e., movement to Philadelphia versus movement to Laurel, Maryland.

Thus, proponent, by virtue of the unique location of his plants, need not make the decision to "divert" until the milk actually arrives at his Philadelphia facilities. It is for this reason that he is almost with certainty the single handler in the total market who can approximate diversion of one-third of his milk by use of the 10-day provision. To increase such limitation to 15 days would for all practical purposes permit diversion of 50 percent of his supply.

If proponent persists in exploiting the pool to obtain a full supply of milk for his nonpool manufacturing facility he must accommodate to the necessity of receiving and transferring milk to maintain pooling status when he reaches the limit of the diversion privileges. Relaxation of the limits as proponent requests could result in undue dilution of pool proceeds since other handlers in the market would have equal opportunity to exploit the pool through the association of milk solely for manufacturing, either by themselves or in consort with a nonpool processor. It is neither desirable nor appropriate that the diversion limitations be further extended to implement the special interests of this particular handler who already enjoys a unique advantage over all other handlers in the market in use of the diversion provisions.

(5) *Pricing level for reserve milk supplies.* The reserve milk price (Class II) in the Middle Atlantic marketing area as herein proposed to be expanded should be based on the Minnesota-Wisconsin price for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as announced by the Department for the month.

At the time of the hearing reserve milk in the Middle Atlantic and other northeastern area order markets was priced at the lower of either the Minnesota-Wisconsin price or a butter-nonfat dry milk formula price. Subsequently, the Class II pricing provisions of these several orders were amended on the basis of evidence presented at a public hearing held at Washington, D.C., on February 20–28, 1974, to consider various proposals relating to the pricing of reserve milk. The amendments provided for the pricing of reserve milk disposed of in manufacturing uses other than butter and nonfat dry milk at the Minnesota-Wisconsin price for the period April 3 through July 1974. The amendments also provided that milk utilized in butter and nonfat dry milk during such period be priced below the Minnesota-Wisconsin price by the amount, not to exceed 50 cents, that the butter-powder formula price is less than the Minnesota-Wisconsin price. Official notice is taken of the fact that during such months the Class II price was the Minnesota-Wisconsin price because the butter-powder formula price exceeded the Minnesota-Wisconsin pay price. The findings and conclusions concerning Class II pricing during the April 3 through July 1974 period were set forth

V 40 163
APR 175

in the Assistant Secretary's partial decision issued March 27, 1974 (39 FR 11567).

A further decision issued July 25, 1974 (39 FR 27678) provided for basing reserve milk prices under these several orders[1] solely on the Minnesota-Wisconsin price.

An order amending the orders instituting the use of such Class II pricing procedure was issued on August 21, 1974 (39 FR 30925) after approval of producers engaged in the production of milk for sale in the respective marketing areas. Such pricing procedure, effective October 1, 1974 in the Middle Atlantic marketing area, is appropriate for the marketing area as herein proposed to be expanded.

Official notice is taken of the fact that during the interim months of August and September the Class II price in these markets continued to be the Minnesota-Wisconsin pay price because the butter-powder formula price exceeded such price, as it has continuously in each month beginning with April 1974.

At this hearing considering the proposed expansion of the Order 4 and Order 2 marketing areas, it was proposed that the then existing Order 4 Class II price provisions (the lower of the Minnesota-Wisconsin price or the butter-nonfat dry milk formula price) be amended. Although testimony presented did not deal with the specific Class II pricing provisions effected October 1, 1974, it did center on the necessity for maintaining regional alignment of reserve milk prices.

A proposal by a substantial cooperative association representing producers supplying the Order 4 market, as set forth in the hearing notice, would provide the basic formula price (Minnesota-Wisconsin price) plus 10 cents per hundredweight as the applicable price for all Class II products except butter and nonfat dry milk powder. Milk used in butter and nonfat dry milk powder would be priced at the lesser of basic formula price or the butter-powder formula price subject to the seasonal differentials currently provided in the order. At the hearing the proponent spokesman revised the proposals to provide that the price for milk used in butter and nonfat dry milk powder be the butter-powder formula price.

The proponent spokesman held that adding 10 cents to the basic formula price for all Class II products except butter and nonfat dry milk powder was consistent with the amending orders effected August 1, 1974 for 39 markets.[2] The witness stated that a three-class pricing system, as provided in the 39 orders previously cited, was not proposed because that would require a more complicated presentation and would require major changes in other Order 4 provisions. A separate price as proposed to be applied to milk used in the production of butter and nonfat dry milk powder would accomplish essentially the same end, proponent held.

In supporting the cooperative's position, the witness presented a monthly comparison of the Minnesota-Wisconsin price and the butter-powder formula price for the period 1970 through 1973. Particular emphasis was placed on the fact that the Minnesota-Wisconsin price exceeded the butter-powder formula price by $0.47, $0.78 and $1.13 for October, November and December 1973, respectively. He pointed out that, if all Class II milk were priced on the basis of the lower of the Minnesota-Wisconsin price of the butter-powder formula price, producers could not recover the full value of milk used in Class II when the butter-powder formula price is the lower and hence the effective price.

The witness further pointed out that the major use of Class II milk in the Order 4 market is in the so-called "soft products", namely, cream, cottage cheese, frozen desserts and condensed products. However, because the cooperative's reserve milk supply is largely utilized at a butter-powder facility at Laurel, Maryland, and a butter plant at Reading, Pennsylvania he urged that it was essential that the order price milk so utilized in relation to its value for butter and nonfat dry milk. He further testified that his proposed Class II pricing formula must be adopted in all of the northeastern markets simultaneously, since it would not be appropriate to have a Class II price in Order 4 higher than other markets in the northeast. The witness recommended that before the association's proposal was finalized in Order 4, there should be a hearing for the other northeastern markets to consider its adoption there, also.

Such Class II price proposal was opposed by a substantial cooperative which operates a reserve processing (manufacturing) pool plant in addition to a large bottling pool plant.

The witness testifying for such cooperative, which processes primarily cheddar cheese at its manufacturing facility, held that the proposed revision of the then existing Class II price provisions would be intolerable to Order 4 pool handlers. He pointed out that Order 4 handlers' price for milk used in cheese under such a pricing structure would be substantially higher than the cost for milk similarly used in the other northeastern order markets. For example, in December 1973 an Order 4 pool handler manufacturing producer milk into cheddar cheese would have been required to pay $1.15 a hundredweight more than a handler regulated under either the New York-New Jersey, Boston Regional or Connecticut orders if the proposed Class II pricing provisions had been in effect. In addition, handlers regulated under the Eastern Ohio-Western Pennsylvania, Ohio Valley, or Southern Michigan orders would have paid $1.21 less per hundredweight for milk used in cheese than an Order 4 handler. Such price disparity would place Order 4 handlers in an untenable position the witness stated, since there is essentially a single national market for all cheddar cheese.

The witness further stated that establishing a reserve milk price in the Order 4 market different from that in other markets in the northeast would be contrary to a long-standing concept of maintaining uniformity in pricing milk used in manufactured dairy products.

Two nonpool manufacturing plant operators also opposed the proposal to modify the Class II pricing provisions. One such operator opposed pricing dry whole milk powder at the Minnesota-Wisconsin price plus 10 cents. The other testified that revision of the Order 4 Class II pricing provisions could not be accomplished unless similar adjustments were made simultaneously in other orders, particularly Order 2. He held that adoption of the proposal would bring about a substitution of milk powder for fresh solids-not-fat in the manufacturing of ice cream. He further stated that the proposal should not be considered without a further appraisal of the Minnesota-Wisconsin price series and alternative pricing procedures.

A witness testifying on behalf of the Milk Distributors Association of the Philadelphia Area and associations of ice cream manufacturers also opposed the Class II price proposal. He held that there is no appropriate reason to increase manufacturing milk prices, which would result from adoption of the proposal. The witness pointed out that there is a high degree of substitutability between butter and powder and cream and condensed products in the manufacturing of ice cream and other frozen desserts. Thus, milk priced at the Minnesota-Wisconsin price level or higher would not be utilized if butter and milk powder were available at a lesser price. In this regard, however, he recognized that sufficient facilities were probably not available to first process into butter and powder all the fat and solids presently utilized in frozen desserts. The witness also questioned the appropriateness of the Minnesota-Wisconsin price series as a measure of manufacturing milk values.

The amendments effective October 1 which price reserve milk solely on the basis of the Minnesota-Wisconsin pay price insure the continuity of pricing among the northeastern area order markets which witnesses at this hearing generally supported as essential. Clearly, most of the reserve milk for the marketing area as herein proposed to be extended has been and continues to be pooled under this order.

The reserve milk pricing provisions effective October 1 under the several northeastern area orders are concluded to be equally appropriate for the extended order for the identical reasons set forth in the Assistant Secretary's decision of July 25, 1974 (39 FR 27678) and such decision is adopted as a part of this decision as if set forth in full herein.

[1] Boston Regional, New York-New Jersey, Middle Atlantic, Connecticut, Ohio Valley, Eastern Ohio-Western Pennsylvania, Southern Michigan, and Indiana Federal milk orders.

[2] Amended orders for 39 markets effective August 1, 1974 (39 FR 15405, 15762, 15997, and 16232) which, among other things, provides for three classes of utilization, a Class II price at the Minnesota-Wisconsin price plus 10 cents, and a Class III price at the Minnesota-Wisconsin price for the month.

6. *Direct delivery differentials.* The current direct delivery differential provided under the Middle Atlantic milk order should not be modified.

The order provides for a direct delivery differential of 6 cents per hundredweight for producer milk received at a plant located within 55 miles of the City Hall in Philadelphia, Pennsylvania.

Pennmarva proposed that the direct delivery differential be modified to provide for a differential of 10 cents per hundredweight on producer milk received at a plant located within 25 miles of the City Hall in either Philadelphia, Pennsylvania, or Trenton, New Jersey, and a differential of 6 cents per hundredweight on producer milk received at a plant located within 60 miles but more than 25 miles from the City Hall in Philadelphia, Pennsylvania, or Trenton, New Jersey. The federation proposed further that the operator of a plant located within 25 miles of the City Hall in Philadelphia, Pennsylvania, or Trenton, New Jersey be permitted a credit of 4 cents per hundredweight on his obligation to the pool on producer milk received at the pool plant and disposed of in Class II use by the handler operating such plant.

Proponent's witness noted that prior to 1970 the cost of Class I milk at Philadelphia plants had been 10 cents higher than at Baltimore, Maryland, or Washington, D.C. plants. When the three separate orders were merged in 1970, a single Class I price was established for plants located in such cities and a direct delivery differential was made applicable for producer milk received at plants in the Philadelphia area. The cooperative alleged that the prior 10-cents difference in Class I prices between Philadelphia and the cities of Washington and Baltimore had provided a proper balance of milk supplies for Philadelphia plants and, appropriately, should be reinstated to alleviate the present problem.

Proponent indicated it was a matter of indifference whether such Class I pricing differential was adopted again or whether the proposed changes in the direct delivery differential were adopted. The basic issue as presented was that the present direct delivery differential has not provided sufficient revenue to cover the additional costs of transporting milk to Philadelphia and Trenton as compared to other segments of the market with respect to the primary production area for the market located west and southwest of the City of Philadelphia.

Pennmarva's witness presented data indicating that the cost of transporting milk from dairy farms in York and Lancaster counties to the cities of York and Lancaster is 12–15 cents per hundredweight less than the cost of hauling milk to Philadelphia. Consequently, the witness held that such dairy farmers must receive more for their milk delivered to the Philadelphia and Trenton areas so that it becomes a matter of indifference to which segment of the market individual producer milk is directed. The witness held that there is also an incentive under the present pricing structure for dairy farmers to deliver their milk to pool plants at Belleville, Pennsylvania and Laurel, Maryland (both of which are principally manufacturing plants) rather than to Philadelphia plants.

At the same time that proponent urges a higher Class I price level in the Philadelphia area, he also urges a restructuring of the allocation provisions to deter handlers from seeking milk in the Eastern Ohio-Western Pennsylvania order because the Order 36 Class I price plus transportation to the Philadelphia area is, under certain circumstances, less than the applicable Class I price under Order 4. In light of this, any increase in the Class I price level in the Philadelphia area could only create additional problems.

There is little question but that the existing pricing structure has attracted ample milk supplies to fully service the market. If, as proponent alleges, the differential in pricing as between Philadelphia and other segments of the market is not properly structured consideration appropriately should be given to restructuring such prices without an increase in overall returns to producers. However, this would be a very complex undertaking and the record of this hearing does not provide an adequate basis for such action. If the problem persists, however, it is urged that consideration be directed to this matter in a separate proceeding which would not be encumbered by the other matters at issue at this hearing.

Exceptions filed request that the direct delivery differential zone be extended from 55 to 60 miles from Philadelphia. Exceptions filed by a cooperative association suggest that the direct delivery zone should be expanded because there are plants located within the 55–60 mile zone which would have a 15-cent per hundredweight price advantage over plants located within 55 miles of Philadelphia. Also, a nonpool manufacturing plant located at Reading, Pennsylvania (Berks County), is in the 55–60 mile zone and receives substantial quantities of reserve milk by diversion. Producers diverted to the plant suffer a 9-cent reduction in their base milk price.

The fact that a nonpool manufacturing plant is located beyond 55 miles from Philadelphia provides no basis for extending the direct delivery zone. Such zone was established to assure deliveries of producer milk to pool plants at specific locations and should not be changed at this time due to the particular location of one nonpool plant. Also, testimony on the record of the proceeding indicates that potential problem areas in terms of pricing inequities could occur because fluid milk plants are located at Reading and Easton (Northampton County). Neither of these areas are recommended to be included in the Order 4 marketing area. Exceptor, however, indicates that some of these plants may become fully regulated or partially regulated by virtue of sales within the recommended marketing area. There is nothing in the record to substantiate such assumption and, therefore, no basis exists for expanding the direct delivery zone.

Exceptions filed by a cooperative association also request that the 10-cent per hundredweight differential be applied to producer milk received at plants within 25 miles of Philadelphia or Trenton, New Jersey. Such exception provides no basis to alter the findings contained in the recommended decision.

7. *Seasonal incentive payments to producers.* The current base and excess provisions should be retained with only minor modifications. The order should be revised to permit a dairy farmer with two farms and two herds which he combines into one dairy farm to combine his separate bases into one base. Also any dairy farmer whose milk is received at a plant which qualifies as a pool supply plant in the first month of operation of the extended order solely on the basis of qualifying shipments to newly regulated pool distributing plants in the expanded order shall be accorded a base computed as if his deliveries to such supply plant during the base-forming months were made to a pool plant.

The present base and excess provisions establish a base for each producer by dividing his total deliveries to pool plants in the months of August through December by 153 (by 154 in the case of a producer on every-other-day delivery schedule who delivered on August 1) less the number of days, if any, for which such producer's production was not received by pool handlers, but under no circumstances by less than 120. Such bases are computed by the market administrator to be effective for the 12-month period of March 1 through February of the following year.

In any month in which a distributing plant first becomes regulated, the market administrator is required to compute bases for producers delivering to such plant on the identical basis used in computing bases for established producers, considering the deliveries of such producers to the plant in its nonpool status as though it had been a pool plant.

Dairy farmers associated with any supply plant that becomes pooled under the order acquire a base in the same manner as other new producers.

New producers are accorded a base equal to 50 percent of their deliveries during each of the months of March through June; 60 percent in the months of January, February, July and December; and 70 percent in the months of August through November. A producer with an established base can forfeit such base by notifying the market administrator and he may then have a new base computed each month utilizing the same percentage of his deliveries as is applicable to new producers. Once a producer relinquishes his established base, he must have his base computed each month on a percentage basis until the following March when new bases become applicable.

The base and excess provisions of the order recognize the special circumstances of shifting of producers between this

V 40163
APR 1 75

order and Order 2. The order provides that for any farm from which the entire production was moved as producer milk under Order 2 during all or part of the August–September period, and thereafter was moved as producer milk under this order through December, a base shall be computed using the total deliveries under both orders during the base-forming period. Until such base is effective, the producer's base each month is computed under the procedure applicable to new producers.

Pennmarva proposed that the base and excess provisions be modified to permit a dairy farmer with two farms and two herds, which he combines into one dairy farm, to combine the separate bases into one base. The cooperative requested that all other provisions of the base plan be retained. In its brief the cooperative suggested that any dairy farmer who becomes a producer under the order as a consequence of an extension of the Order 4 marketing area should be accorded a base 10 percentage points greater than the base normally assigned a new producer.

Lehigh Valley proposed that a Louisville seasonal incentive payment plan be substituted for the present base and excess plan. Such proposal was offered in conjunction with a proposal to lower the pooling standards for supply plants to facilitate the movement of producers between Orders 2 and 4 in the event that the blend price alignment of the two orders was changed as a result of expanding the Order 4 marketing area.

Dairylea Cooperative, Inc., testified in support of a group of interrelated proposals dealing with the pooling of supply plants and revision of the base and excess plan. Although the cooperative proposed that revisions be made in the base plan, the cooperative's spokesman indicated that the members of the association preferred a Louisville plan in preference to a base and excess plan. Proponent's witness stated that the purpose of its proposals was to provide a method of associating additional supplies of milk with the market on an orderly basis, prevent any abuses which could result from the operation of different seasonal plans in Orders 2 and 4, respectively, and to provide equitable treatment for producers who become new producers under Order 4 because the plant to which they have been delivering milk becomes fully regulated as a consequence of an expansion of the marketing area.

Dairylea proposed that dairy farmers delivering milk to any plant which becomes a pool plant on the basis of transfers of milk to distributing plants which become pooled as a result of the marketing area extension be assigned bases reflecting their total deliveries of milk to plants, wherever located, during the preceding base-forming period. In addition, the cooperative proposed that, during the first three months after the marketing area extension is made effective, any dairy farmer who begins shipping to a pool plant be assigned a base reflecting his deliveries to all plants, wherever located, during the previous base-forming period. It was further proposed that bases be assigned to dairy farmers at any time the plant to which they deliver becomes pooled as a supply plant following the identical procedure now applicable to newly pooled distributing plants.

Eastern Milk Producers proposed a revision of the present base plan provisions to provide that for each of the months of August through February the base of a producer be adjusted by an amount equivalent to any increase in his deliveries to pool plants over the quantity delivered during the corresponding month of the previous year on which said base was determined. However, such adjusted base could not exceed 110 percent of said deliveries during the corresponding month of the previous year. In the event such proposed plan is not administratively feasible, proponent urged that producers be permitted a 10 percent increase in their established base during the months of August through February.

Another cooperative proposed that the present base plan be revised so that base and excess prices would be paid to producers during only the 4-month period of March through June instead of the 12-month period of March through February. A new producer who had made no qualifying shipments or a producer who relinquished his base would be given a base reflecting 50 percent of his deliveries during March through June. The cooperative proposed that the buyer of either an existing herd or a dairy farm be permitted to acquire the base associated with such herd or farm.

A Louisville plan and a base-excess plan each serves the same purpose, i.e., to encourage a production pattern which comports with the fluid milk demands of the market. Each are specifically authorized by the Agricultural Marketing Agreement Act.

The question of which seasonal incentive plan should be used in any particular market must be decided largely on the basis of the desires of the majority of the producers affected. The base and excess plan is supported by the majority of producers in the Middle Atlantic market and appropriately, therefore, should be retained.

A number of dairy farmers opposing the extension of the Order 4 marketing area cited the base and excess plan under such order as one of the principal reasons for objecting to the area extension. These same farmers, for the most part, also were opposed to other forms of seasonal incentive pricing such as the Louisville plan.

One of the principal reasons expressed by dairy farmers for opposing seasonal incentive pricing was that their production level during the August–December 1972 base-forming period was below normal as the result of the after effects of Hurricane Agnes. However, since this order could not become effective until at least March 1, 1975, the bases awarded new producers would be based upon their production history for the base-forming period of August–December 1974 and this objection, therefore, is not valid. In any event producers under the order are subject to the same climatic conditions as those dairy farmers shipping to plants which would be regulated by the expansion of the marketing area. Thus, the base computation procedure does not result in inequitable treatment to any group of producers.

It is conceded that those dairy farmers who become new producers as the result of the marketing area extension could not with certainty have known that they would have their milk priced under the amended order. As a consequence, such dairy farmers may not have organized their dairy production for the expressed purpose of establishing a base to be effective in 1975. However, most producers indicated that they have a very good relationship with the dealers to whom they ship their milk and have adjusted their production to meet the fluid milk needs of the plant operator. For the most part those dealers who will become regulated as a result of the marketing area extension have carried a very high Class I utilization. Thus, any new producer who has been meeting the demands of his purchasor for fluid milk will have a desirable production pattern comparable with that of established producers and therefore, would not be adversely affected by the operation of the base plan.

The order should accord full bases to all producers shipping to distributing plants which become newly regulated. This procedure is prescribed in the present order and should be continued for the identical reasons on which the procedure was initially adopted.

The order also should provide full bases for dairy farmers who become producers in the first month of operation of the extended order by virtue of their shipments to a supply plant which becomes pooled solely on the basis of its shipments to newly regulated distributing plants. Producers shipping milk to such a plant should be accorded bases computed as if their deliveries to that plant during the base-forming months had been delivered to a pool plant. The awarding of bases in this manner is desirable to assure that all dairy farmers who become new producers solely as a result of the marketing area extension are accorded uniform and equitable treatment whether their milk is received directly from the farms at a newly regulated distributing plant or through a supply plant serving such distributing plant.

It is not apparent that any distributing plant which will become regulated through the area extension is supplied by other than direct farm receipts. However, if any such plants are in fact relying on supply plant sources to a degree which would pool such supply plants, it is appropriate that the dairy farmers delivering to such supply plants be treated in the same manner as established producers who deliver to established pool supply plants.

Except in the above circumstances, however, no change should be made in the computation of bases for producers entering the market through supply plants. The Middle Atlantic market is essentially a direct-delivery market and there is no basic need for supply plants to accommodate the assembly and movement of milk to the central market.

Proponents seeking liberation of the provision for computing bases through new supply plants are primarily interested in adding new producers on the market. This they may do at any time under the provisions of the present order, and the existing base plan accommodates such entry by providing assurance that such producers will receive a base reflecting an appropriate percentage of their actual deliveries each month until a base is established under the regular procedure. Special treatment is already provided for Order 2 producers who enter the market after August 1 but before October 1 in any year. This procedure was adopted in recognition of the close interrelationship between the Order 4 and Order 2 markets and the fact that they draw to a considerable extent upon a common supply area. It would be inequitable to new producers who enter the market individually and to established producers to provide a means whereby blocks of new producers could associate with the market, through unneeded supply plants, at any time and receive full bases reflecting their deliveries to such plants during the previous base-forming period. This would, for all practical purposes, totally defeat the purposes of the plan in promoting an even milk supply throughout the year.

The order should be revised to accommodate under specified circumstances the combining of separate bases of a producer who possesses two bases, one for each of the farms and herds that he manages. Such combination should be permitted only if the two farms and herds are combined into a single dairy farm and would be effective the first of the month following the producer's request to the market administrator for such action and subject to the approval of the market administrator to insure that the transaction is in fact a bona fide consolidation of the separate operation of a single producer. Accommodating the consolidation of the two bases would reduce administrative problems for both the producer and the market administrator and would result in no unwarranted advantage to the particular producer involved. No testimony was presented in opposition to the adoption of this procedure.

One cooperative proposal would permit dairy farmers who become new producers within three months of the effective date of the expanded order to be accorded bases computed on the basis of their deliveries during the base-forming months to any plant, wherever located. The principal reason why the cooperative proposed this particular revision was to implement the shift of producers from Order 2 and Order 4 in the event that an undue spread should occur between the blend prices of the respective orders as a result of any Order 4 area expansion. As previously indicated, the marketing area expansion recommended herein will not result in any substantial change in the Order 4 blend price relative to Order 2. There are in fact no deterrents in the order against the entry of new producers at any time. Thus, there is no basis for adoption of the proposed modification.

The cooperative which proposed that bases be increased for those producers who increase their production during the base-forming months suggested that the current base plan provisions inhibit (1) appropriate adjustments in the seasonal pattern of production, and (2) the expansion of productive capacity and market supplies of producer milk on a longer-term basis. Its spokesman indicated that such inhibiting effects are beyond the intended purpose of the base and excess plan and are occurring at a time when supply enhancement is needed.

Proponent's position in this regard is without foundation. Under the plan here in effect, a base has value only to the producer who made the base. Any producer wishing to adjust his base can do so by giving up his established base and taking a base reflecting a specified percentage of his deliveries each month. Alternatively, a producer, by choosing to initiate a production adjustment at the beginning of the base-forming period, can minimize the impact of his production adjustment on his returns. There is no indication that the base plan has deterred desired production. For example, the monthly marketwide Class I utilization percentages of producer milk this year have been below a year earlier while milk production during each month of April–August 1974[1] has been at or above such levels one year ago.

No change should be made in the transfer rules which now provide for transfer of base only where discontinuance of milk production is caused by entry into military service by the baseholder. The plan was adopted to eliminate the abuse which resulted from earlier plans where bases, because of their transferability, had substantial monetary value and individual producers made unneeded base for the sole purpose of subsequent sale on an opportunity basis.

Under the Order 4 base plan, a producer establishes a new base each fall. A producer may relinquish his established base at any time and obtain a new base under the same rules that apply to a new producer. These provisions have operated to the apparent satisfaction of most producers and should be continued in the amended order.

8. *Interest charges on overdue accounts.* The order should not be revised to provide for interest charges on overdue accounts.

Pennmarva proposed that interest charges be imposed upon any handler for unpaid obligations pursuant to § 1004.71 Payment to the producer-settlement fund; § 1004.73 Payments to producers and to cooperative associations; § 1004.79 Direct delivery differentials; § 1004.85 Assessment for order administration; and § 1004.86 Deduction for marketing services. Proponent alleged that producers are not receiving timely payments for their milk from handlers and urged the institution of interest charges as a tool to enforcement of order provisions. He indicated that, if handlers do not pay their accounts promptly, cooperatives and producers may be forced to borrow money to pay their obligations.

Pennmarva's primary interest in having interest charges apply on overdue accounts was with respect to handler payments to producers and cooperative associations for milk, including payment of the direct delivery differentials on such milk. Proponent indicated that handlers were making payments to cooperatives and to producers after the due date specified in the order for making such payments.

The administrative problems in determining when handlers have made payments to cooperative associations and producers are many. The date on which payments to producers or cooperatives are made by handlers is not readily available to the market administrator. This is particularly true if other transactions have been entered into between the handler and producers or cooperatives and the terms or allocations of payment are not known to the market administrator on a current basis. Furthermore, it is questionable whether there is any reliable method of determining the exact date on which payment occurs. Dates appearing on cancelled checks, recorded dates in ledgers, postmarks affixed by postal meters, etc., may not in all instances indicate the precise date on which a transaction was completed.

The problem of timely payments by handlers to cooperatives is not unique to this order. With tight money and high interest rates, handlers increasingly are turning to the use of producers' money by delaying payments in lieu of seeking other lines of credit. While, for reasons previously set forth, it is not practical to provide interest provisions as a means of implementing prompt payments by handlers to cooperatives and producers in accordance with the payment dates prescribed in the order, nevertheless some effective means must be found to implement this end. The matter has been explored in depth in proceedings under several other Federal orders on which decisions are pending. The record of this hearing does not establish an adequate basis for the implementation of more fruitful procedures for insuring prompt payments to cooperatives and producers. If delinquent payments persist, consideration should be given to the initiation of a new proceeding to resolve this matter.

There is no evident urgency for the suggested interest charges on overdue accounts payable to the market administrator. It is concluded, therefore, that provisions establishing interest charges on overdue accounts should not be adopted on the basis of this record.

9. *Miscellaneous and conforming changes.* As an aid in identifying the issues discussed hereunder, separate subheadings have been provided.

(1) *Deletion of references to certified milk.* References to certified milk should

[1] Official notice is taken of the official announcement of uniform prices for base and excess producer milk of the market administrator, Middle Atlantic Federal order for January–August 1974.

V 40163 APR 1 75

be deleted from the present provisions of the order.

Presently the order exempts from pooling any milk which is produced, packaged, and sold under the label of certified milk in accordance with the rules and regulations promulgated by the American Association of Medical Milk Commissions, Inc.

Pennmarva proposed that references to certified milk be deleted from the order. Its spokesman was concerned that, if the order contained references to certified milk, such references might be interpreted to mean that milk produced by dairy farmers and designated as "certified milk" by a health department of any governmental agency would be exempted from regulation. He further indicated that no certified milk as defined under the Middle Atlantic order is presently being distributed within the marketing area.

One witness opposed such proposal and requested that the definition of certified milk and the exemption of certified milk provided under the present order provisions be retained. He stated that he is processing certified milk on a farm located in the State of New York and expects to expand the merchandising of such milk into the Middle Atlantic marketing area at some future time.

The distribution of certified milk in this market such as opponent contemplates is essentially no different than the distribution of a "special" breed milk under a trademark controlled by a producer organization. The fact that "certified milk" or "special" breed milk may be claimed to have superior qualities entailing higher production costs which entitle producers to higher prices is not a compelling reason for exempting such milk from pooling. The marketwide pooling arrangement provided under the order contemplates the equitable sharing by all producers of the total proceeds of their milk at the established order prices. If certified milk or special breed milk has qualities that appeal to consumers, such milk can command a premium over competing milk which would tend to offset to the extent that they exist, higher production or processing costs.

An exception to the deletion of the certified milk exemption was filed by the processor of certified milk who opposed the deletion of such provision at the hearing.

For the reasons previously stated the exemption for certified milk should be removed from the Middle Atlantic milk order by deleting references to certified milk appearing in present order provisions.

Exceptor does not now, and insofar as the record shows, never has distributed certified milk in the marketing area as herein extended. However, it is not apparent that the elimination of the certified milk exemption would have an adverse effect on his operation, even if he should elect to so distribute at some future time. Assuming that the milk is produced on his own farm, processed in his own plant and distributed on his own routes in the tradition of a certified milk operation, exceptor could obtain exemption as a producer-handler.

Exceptor requested that judicial notice be taken of previous decisions of the Department providing for an exemption for certified milk on the grounds of retail differentiation of product and absence of competitive impact. It would not be appropriate to grant exceptor's request because such action would preclude other interested parties the opportunity of commenting on material for which notice is requested.

(ii) *Deletion of references to Orders 3 and 16 and revision of § 1004.7(c).* References to Orders 3 and 16 in the Middle Atlantic order should be deleted. The marketing areas of Order 3 (Washington, D.C.), Order 16 (Baltimore, Maryland) and Order 4 (Delaware Valley) were merged and expanded to form the Middle Atlantic marketing area (Order 4) effective August 1, 1970. Because packaged fluid milk products in ending inventory in Order 3 and Order 16 had been classified differently from the classification provided under Order 4, it was necessary at that time to make specific provisions for classifying such milk during the first month the Middle Atlantic marketing order was effective. After the order had been in effect for one month, such references were no longer essential to the operation of the order. Accordingly, references to Orders 3 and 16 should be deleted.

Likewise, the provisions of § 1004.7(c) should be rewritten to delete obsolete order language dating back to the effective date of the Middle Atlantic order. This matter was overlooked in the drafting of the recommended decision.

When the Middle Atlantic order was established § 1004.7(c) was provided in orders in each of the 12 months preserve processing plant(s) that was a pool plant under the Delaware Valley, Upper Chesapeake Bay or Washington, D.C., orders in each of the 12 months preceding the effective date of the Middle Atlantic order. The pooling of such plant(s), which did not meet the distributing or supply plant pooling requirements, was continued in each consecutive month, subject to certain conditions. One of the conditions for pooling required that a handler file a written request with the market administrator on or before the effective date of the Middle Atlantic order requesting pool status for such plant under the subject provision.

The references to the Delaware Valley, Upper Chesapeake Bay and Washington, D.C., orders should be deleted, as well as the requirement that a reserve processing plant must have been a pool plant under one of such orders for each of the 12 months preceding the effective date of the Middle Atlantic order. Such requirement was provided to assure that any plant pooled under the provision had a bona fide association with one of the prior markets. Such requirement is no longer necessary since any remaining plant pooled under this provision has demonstrated, as a consequence of such pooling, a month-to-month association with the market. Consequently, it is only necessary to provide that a plant, in order to continue pooling under this provision, must have been pooled under such provision in the month immediately preceding the effective date of this order.

In addition, the requirement that a handler file a written request to pool a plant under the provision should be deleted. The requirement is no longer necessary, since a written request was necessary, on a one-time basis, on or before the effective date of the Middle Atlantic order.

Revision of this provision will neither affect the status of any plant currently pooled under the provision, nor accommodate the pooling of any additional plants.

(iii) *Treatment to be accorded own production of a pool plant operator.* As previously indicated, several persons who operate distributing plants supplied in part by own farm production opposed any extension of the marketing area which would result in full regulation of their plants. They urged that, if notwithstanding the marketing area was expanded to include the territory in which they distributed milk, operators of pool plants with own production be permitted to assign their own production pro rata to the utilization at their plants and that such milk be exempted from pooling. Proponents pointed out that processors with own farm production are exempted from pooling their own production under the New York-New Jersey order.

Such exemption under the New York-New Jersey order (applicable only to a handler other than a producer-handler) is limited to 800 pounds per day, and is permitted only in instances in which the milk handled in excess of own farm production does not exceed 1,800 pounds per day.

These provisions reflect particular circumstances in the New York-New Jersey market and may not be presumed appropriate for the Middle Atlantic order simply because of their existence in Order 2. Under any circumstances, the adoption of these provisions as contained in Order 2 could not be helpful to proponents since their operations are of such size that they exceed the exceptions provided.

The own farm production of a handler who receives milk from other producers should be treated in the same manner as other producer milk. Such milk is a part of the total market supply of producer milk and as such it should share equally in the total market for Class I and Class II use. There is no basis for the requested exemption for own farm production and, accordingly, the request for such exemption is denied.

An exception to this finding was filed on behalf of a witness who testified at the hearing in support of exemption from pooling of own farm production. The exception reiterated the position of the witness, but provided no basis for altering such finding.

(iv) *Quantity of milk that a producer-handler may purchase from pool plants.* Under the present order a producer-handler must be essentially self-sufficient

in that he may not purchase milk from other dairy farmers and may not purchase in excess of 10,000 pounds of fluid milk products from pool plants during the month.

The plant operators who proposed that own production received in their plants be exempted from pooling proposed alternatively that the quantity of milk which a producer-handler is permitted to purchase from pool plants be increased. These individuals were interested in obtaining order revisions which would permit them to operate as producer-handlers with only minor modifications in their operating practices in the event that their sales area was included within the expanded marketing area. One such operator whose own production was 40 percent of his total receipts urged that producer-handlers be permitted to purchase unlimited quantities of fluid milk from pool plants. He indicated that in order to operate as a producer-handler under the order he would need the flexibility of making supplemental purchases of as much as 100,000 pounds of fluid milk per month. Another such operator urging that producer-handlers be permitted to purchase fluid milk without limit from pool plants indicated that his own farm production represented 2 percent of his fluid milk requirements.

Experience under Federal orders generally has demonstrated that effective regulation of the market can be insured without direct involvement of individuals who produce, process and distribute, essentially, the milk from their own production and who buy no milk from other dairy farmers. Individuals who assume a dual role of producer and handler and who carry their own balancing supplies seemingly have no economic advantage either as a producer or a handler.

However, operators who receive milk from their own farm production but receive no milk directly from other dairy farmers and who rely on other plants for substantial supplemental supplies either in bulk or packaged form are not significantly different from the operations conducted by pool handlers. In addition, such individuals do not assume the risk or cost of providing a full supply. If the operations of such individuals are not pooled, the pool does not receive the benefits of their Class I sale but acts as a supply balance for these producer-handlers by carrying their necessary reserve milk supplies.

Such operations should not be treated as producer-handler, but should be accorded status similar to that of any other handler receiving milk directly from farms. If they sell a sufficient proportion of their milk in the marketing area, they should be accorded full pooling status and, thus, participate in the equalization pool.

Notwithstanding the above conclusion it is appropriate that producer-handlers be permitted some tolerance for purchasing fluid milk products from pool plants. The present order provides a limitation on purchases from pool plants of 10,000 pounds per month. In adopting this limitation, the Assistant Secretary in his decision of May 18, 1970 (35 FR 7924) concluded that "such limitation on a producer-handler's purchase will best insure against the unintentionable involvement in regulation of producer-handlers as a group. At the same time such limit should be effective in deterring larger handlers with own farm production from evading the pooling of such production by seeking producer-handler status."

While the incidence of own farm production is far greater in the area of extension here recommended than has been the case in the currently regulated market, it is apparent that the preponderance of handlers with own farm production are operating as producer-handlers without the benefit of supplemental supplies from other sources. Testimony introduced at the hearing indicates that there are at least 90 juggers and producer-distributors whose operations are based in the area herein recommended for inclusion in the marketing area. Under the Pennsylvania Milk Marketing Act, operators in these categories may process only milk of own farm production. The extension of regulation, therefore, should not substantially affect these operators other than the necessity for maintenance of records and the filing of such reports as required by the market administrator to establish their continuing status as producer-handlers.

Exception was taken to the 10,000-pound limit on the grounds that such limit is unwarranted. For all of the reasons hereinbefore stated, such limit is, nevertheless, concluded to be appropriate.

Any milk which a producer-handler may dispose of to pool plants under the terms of the order is considered to be a receipt of other source milk and assigned first to available Class II utilization. In the event any such receipts are necessarily assigned to Class I, the receiving handler is required to make a payment to the pool on such milk at the difference between the applicable Class I and Class II prices. Any purchase from a pool plant by a producer-handler are classified as Class I. This procedure is prescribed by the present order and is equally appropriate for the extended order for the identical reasons set forth in the decision under which they were adopted.

The operator of a processing plant located in Northern Pennsylvania proposed that, in the event Northeastern Pennsylvania is added to the marketing area of a Federal order, the provisions relating to a producer-handler be revised to permit his processing plant to purchase milk from 6 corporate farms in which he or members of his family own stock. Since Northeastern Pennsylvania is not being added to a Federal order marketing area on the basis of this hearing, no action with respect to that proposal is required.

(v) *Conforming changes in the producer and producer milk definition.* The "producer" and "producer milk" definition of the order should be revised to preclude the pooling under this order of milk received directly from the farm at a pool reserve processing plant operated by a cooperative association unless such dairy farmer is a member of the cooperative operating such plant.

The present provisions of the order permit a cooperative that is operating a pool reserve processing plant to pool limited quantities of its own member milk. Such cooperative, however, may pool unlimited quantities of additional milk if such milk is received at the cooperative's pool reserve processing plant directly from the farms of dairy farmers who are not members of the cooperative operating the plant.

The findings and conclusions establishing the need for limiting the pooling of milk at a cooperative's pool reserve processing plant to that milk which is received directly from the farm of its members are set forth in the discussion on appropriate pooling standards for a reserve processing plant. To implement such findings and conclusions it is necessary, however, that conforming changes be made in the "producer" and "producer milk" definition. Such terms should be modified so that they do not apply in those instances when a dairy farmer who is not a member of the cooperative operating the pool reserve processing plant delivers milk directly from his farm to such plant.

(vi) *Provisions of the Middle Atlantic milk order requiring no revision.* Handlers and producers indicated that provisions of the Middle Atlantic milk order for which they were proposing no changes were appropriate for the expanded marketing area.

No testimony was presented indicating that the reasons set forth in the decision providing for the adoption of such provisions were not equally applicable to regulation of the expanded marketing area. For the reasons previously stated the remaining unrevised provisions of the order are appropriate for the extended order and are hereby adopted.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

Determination

The findings and conclusions of this decision do not require any change in the regulatory provisions of the order regulating the handling of milk in the New York-New Jersey marketing area.

General Findings

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determi-

V 40163
APR 175

nations previously made in connection with the issuance of the Middle Atlantic order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held;

(d) All milk and milk products handled by handlers, as defined in the tentative marketing agreement and the order as hereby proposed to be amended, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(e) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to milk specified in § 1004.85 of the aforesaid tentative marketing agreement and the order as proposed to be amended.

Rulings on Exceptions

In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing Agreement and Order

Annexed hereto and made a part hereof are two documents, a Marketing Agreement regulating the handling of milk, and an Order amending the order regulating the handling of milk in the Middle Atlantic marketing area, which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That this entire decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which is published with this decision.

Referendum Order To Determine Producer Approval; Determination of Representative Period and Designation of Referendum Agent

It is hereby directed that a referendum be conducted and completed on or before the 30th day from the date this decision is issued, in accordance with the procedure for the conduct of referenda (7 CFR 900.300 et seq.), to determine whether the issuance of the attached order as amended and as hereby proposed to be amended (except for the proposed Advertising and Promotion Program) regulating the handling of milk in the Middle Atlantic marketing area is approved or favored by producers, as defined under the terms of the order as amended and as hereby proposed to be amended, who during the representative period were engaged in the production of milk for sale within the aforesaid marketing area.

It is hereby further directed that a separate referendum be conducted and completed on or before the 30th day from the date this decision is issued, in accordance with the procedure for the conduct of referenda (7 CFR 900.300 et seq.), to determine whether the proposed order provisions constituting the Advertising and Promotion Program in the order, regulating the handling of milk in the Middle Atlantic marketing area are separately approved or favored by the producers, as defined under the terms of the order, who during the representative period were engaged in the production of milk for sale within the aforesaid marketing area.

The representative period for the conduct of these referenda is hereby determined to be January 1975.

The agent of the Secretary to conduct these referenda is hereby designated to be Joseph D. Shine.

Signed at Washington, D.C., on March 24, 1975.

RICHARD L. FELTNER,
Assistant Secretary.

Order[1] amending the order, regulating the handling of milk in the Middle Atlantic marketing area.

Findings and Determinations

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Middle Atlantic marketing area.

The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in the order as hereby amended, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to milk specified in § 1004.85.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Middle Atlantic marketing area shall be in conformity to and in compliance with the terms and conditions of the order, as amended, and as hereby amended, as follows:

The provisions of the proposed marketing agreement and order amending the order contained in the recommended decision issued by the Administrator on October 15, 1974 and published in the FEDERAL REGISTER on October 24, 1974 (39 FR 37926) shall be and are the terms and provisions of this order, amending the order, and are set forth in full herein subject to modifications in § 1004.7(c), § 1004.7(d), and § 1004.44(a)(2).

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

Subpart—Order Regulating Handling

General Provisions

§ 1004.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

Definitions

§ 1004.2 Middle Atlantic marketing area.

"Middle Atlantic marketing area" (hereinafter called the "marketing area") means all territory within the boundaries of the following places, including piers, docks and wharves and territory within such boundaries occupied by government (municipal, State, or Federal) reservations, installations, institutions or other similar establishments:

(a) The District of Columbia.

(b) The State of Delaware.

(c) In the State of Maryland:

(1) The counties of:

Anne Arundel.	Kent.
Baltimore.	Montgomery.
Calvert.	Prince Georges.
Caroline.	Queen Annes.
Carroll.	Somerset.
Cecil.	St. Marys.
Charles.	Talbot.
Dorchester.	Washington.
Frederick.	Wicomico.
Harford.	Worcester.
Howard.	

(2) The city of Baltimore.

(d) In the State of New Jersey:

(1) The counties of:

Atlantic.	Cumberland.
Burlington.	Gloucester.
Camden.	Mercer.
Cape May.	Salem.

(2) In Ocean County:

(i) The townships of:

Eagleswood.	Ocean.
Lacey.	Stafford.
Long Beach.	Union.
Little Egg Harbor.	

(ii) The boroughs of:

Barnegat Light.	Ship Bottom.
Beach Haven.	Tuckerton.
Harvey Cedars.	

(e) In the State of Pennsylvania, the counties of:

Adams.	Juniata.
Bucks.	Lancaster.
Chester.	Lebanon.
Cumberland.	Montgomery.
Dauphin.	Perry.
Delaware.	Philadelphia.
Franklin.	York.
Fulton.	

(f) In the State of Virginia:

(1) The counties of:

Arlington.	Loudoun.
Fairfax.	Prince William.

(2) The cities of:

Alexandria.	Fairfax.
Falls Church.	

§ 1004.3 Route disposition.

"Route disposition" means any delivery of a fluid milk product from a plant to a retail or wholesale outlet (including any delivery through a distribution depot, by a vendor, from a plant store or through a vending machine) except any delivery to a plant.

§ 1004.4 Plant.

"Plant" means the land and buildings together with their surroundings, facilities and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment for the receiving, processing or packaging of milk or milk products (including filled milk). However, a separate facility used only for the purpose of transferring bulk milk from one tank truck to another tank truck or only as a distribution depot for fluid milk products in transit for route distribution shall not be included under this definition.

§ 1004.5 [Reserved]

§ 1004.6 [Reserved]

§ 1004.7 Pool plant.

Except as provided in paragraph (f) of this section, "pool plant" means a plant (except a producer-handler plant or the plant of a handler pursuant to § 1004.9 (e)) specified in paragraphs (a) through (e) of this section.

(a) A plant from which during the month a volume not less than 50 percent of its receipts described in subparagraph (1) or (2) of this paragraph is disposed of as Class I milk (except filled milk) and a volume not less than 10 percent of such receipts is disposed of as route disposition (other than as filled milk) in the marketing area;

(1) Milk received at such plant directly from dairy farmers (including milk diverted as producer milk pursuant to § 1004.12, by either the plant operator or by a cooperative association, but excluding the milk of dairy farmers for other markets) and from a cooperative in its capacity as a handler pursuant to § 1004.9(c); or

V 40 163
APR 1 75

(2) In the case of a plant with no receipts described in subparagraph (1) of this paragraph, receipts of fluid milk products (other than filled milk) from other plants.

(b) Any plant not meeting the conditions of paragraph (a) of this section from which during the month a quantity of fluid milk products (other than filled milk) not less than the applicable percentage (as specified in subparagraph (1) of this paragraph) of such plant's receipts of milk from dairy farmers (including milk diverted as producer milk pursuant to § 1004.12 by either the plant operator or by a cooperative association) and from a cooperative association in its capacity as a handler pursuant to § 1004.9(c) is moved to a plant(s) meeting the percentage disposition requirements specified in paragraph (a) of this section with respect to its total receipts of fluid milk products (other than filled milk) from dairy farmers, cooperative associations as handlers pursuant to § 1004.9(c) and from other plants. However, a plant shall not qualify pursuant to this paragraph in any month in which a greater proportion of its qualifying shipments are made to a plant(s) regulated under another Federal order than to plants regulated under this order.

(1) The applicable percentage for the purpose of this paragraph shall be:

(i) 50 percent for any month of September through February; and

(ii) 40 percent for any month of March through August.

(c) A reserve processing plant which was a pool plant under this paragraph in the month immediately preceding the effective date of this order, which does not meet the conditions for pool status pursuant to paragraph (a) or (b) of this section shall continue to hold such status in each consecutive succeeding month in which:

(1) It is owned and operated by a handler who also operates a plant qualified pursuant to paragraph (a) of this section;

(2) The plant does not qualify as a pool plant pursuant to the provisions of another Federal order;

(3) The plant, in combination with a distributing plant of such handler, meets the performance standards of paragraph (a) of this section;

(4) No plant of such handler is a means for qualification of any other plant for pooling pursuant to paragraph (b) of this section; and

(5) The handler notifies the market administrator each month, at the time of filing reports pursuant to § 1004.30 in the detail prescribed by the market administrator, with respect to any receipts from dairy farmers delivering to such plant not meeting the health requirements for disposition as fluid milk in the marketing area.

(d) A reserve processing plant operated by a cooperative association at which milk from dairy farmers is received if the total of fluid milk products (except filled milk) transferred from such cooperative association plant(s) to, and the milk of member producers physically received at, pool plants pursuant to § 1004.7(a) is not less than 50 percent of the total milk of member producers during the month: *Provided*, That in the case of a cooperative association that owns and operates both a reserve processing plant and a pool plant pursuant to § 1004.7(a), the provisions of this paragraph shall have been met so long as the volume of the cooperative's member milk pooled at the reserve processing plant does not exceed the volume of sales of Class I milk (except filled milk) from the cooperative's pool distributing plant, plus the milk of member producers received directly at pool plants pursuant to § 1004.7(a) of other handlers during the month, and provided further that a cooperative operating a pool reserve processing plant qualified pursuant to this paragraph shall notify the market administrator each month, at the time of filing reports pursuant to § 1004.30 in the detail prescribed by the market administrator, with respect to any receipts from member dairy farmers delivering to such plant not meeting the health requirements for disposition as fluid milk in the marketing area.

(e) Subject to the conditions of subparagraph (1) of this paragraph, a plant that was qualified pursuant to paragraph (b) of this section during each of the immediately preceding months of September through February shall remain so qualified during the following months of March through August, unless written application is filed by the plant operator with the market administrator on or before the first day of any such month requesting that the plant be designated a nonpool plant for such month and each subsequent month of such period during which it does not otherwise qualify pursuant to said paragraph (b):

(1) The automatic pooling status of any plant pursuant to this paragraph shall be canceled beginning on the first day of any month during the March through August period in which another supply plant is qualified for pooling through shipments to the same plants through which such automatic pooling status was acquired.

(f) A plant specified in subparagraph (1) or (2) of this paragraph shall, except as provided in §§ 1004.32(e) and 1004.71(c), be exempt from the provisions of this part:

(1) Any plant qualified pursuant to paragraph (a) of this section which would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless the Secretary determines that a greater volume of Class I milk, except filled milk, is disposed of from such plant as route disposition in the Middle Atlantic marketing area than is so disposed of in a marketing area regulated pursuant to such other order; or

(2) Any plant subject to the classification and pricing provisions of another order issued pursuant to the Act, notwithstanding its status under this order pursuant to paragraphs (a) or (b) of this section.

§ 1004.8 Nonpool plant.

"Nonpool plant" means a plant other than a pool plant. The following categories of nonpool plants are further defined:

(a) "Other order plant" means a plant that is fully subject to the pricing and payment provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a plant which is not a pool plant, a producer-handler plant, an other order plant, or the plant of a handler pursuant to § 1004.9(e), from which fluid milk products in consumer-type packages or dispenser units are disposed of as route disposition in the marketing area during the month.

(d) "Unregulated supply plant" means a plant which is not a pool plant, a producer-handler plant, an other order plant, or the plant of a handler pursuant to § 1004.9(e), from which fluid milk products are shipped during the month to a plant qualified under § 1004.7.

§ 1004.9 Handler.

"Handler" means any person described in paragraphs (a) through (f) of this section. Any person in his capacity as the operator of a pool plant or a cooperative association in its capacity as a handler pursuant to paragraph (b) or (c) of this section shall be a "pool handler".

(a) Any person in his capacity as the operator of:

(1) A pool plant;

(2) A partially regulated distributing plant;

(3) An unregulated supply plant; or

(4) An other order plant.

(b) Any cooperative association with respect to the milk of any producer which it causes to be diverted in accordance with the provisions of § 1004.12 for the account of such cooperative association.

(c) Any cooperative association with respect to the milk of its producer members which is delivered from the farm to the pool plant of another person in a tank truck owned and operated by or under contract to such cooperative association, unless both the cooperative association and the operator of the pool plant notify the market administrator in writing prior to the first day of the month that the plant operator will be responsible for payment for the milk and is purchasing the milk on the basis of farm weights determined by farm bulk tank calibrations and butterfat tests based on samples taken at the farm. Milk for which the cooperative association is qualified pursuant to this paragraph shall be deemed to have been received at the location of the pool plant to which such milk is delivered.

(d) A producer-handler.

(e) A governmental agency in its capacity as the operator of a plant with route disposition in the marketing area.

(f) Any other person who by purchase or direction causes milk of producers to

be picked up at the farm and/or moved to a plant.

§ 1004.10 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a plant with route disposition in the marketing area, and who meets the conditions of paragraphs (a), (b), and (c) of this section:

(a) The sole source of supply of fluid milk products is his own farm production and transfers of such products from pool plants;

(b) The quantity of fluid milk products received from pool plants during the month does not exceed 10,000 pounds; and

(c) Such person furnishes proof satisfactory to the market administrator that the maintenance and management of all dairy animals and other resources necessary to produce the entire amount of fluid milk products handled (excluding transfers from pool plants), and the operation of the plant are each the personal enterprise of and at the personal risk of such person.

(d) Sections 1004.40 through 1004.45, 1004.50 through 1004.54, 1004.60 through 1004.62, 1004.70 through 1004.79, 1004.85 and 1004.86, 1004.90 through 1004.95, and 1004.110 through 1004.122 shall not apply to a producer-handler.

§ 1004.11 Dairy farmer.

"Dairy farmer" means any person who produces milk which is delivered in bulk to a plant. A dairy farmer shall be a "dairy farmer for other markets" with respect to milk reported pursuant to § 1004.7(c)(6) or the proviso of paragraph (d) of said § 1004.7.

§ 1004.12 Producer.

Subject to the conditions of paragraph (e) and the exceptions of paragraph (f) of this section, "producer" means any person described in paragraphs (a) through (d) of this section.

(a) A dairy farmer with respect to milk which is received at a pool plant pursuant to § 1004.7 (a), (b), (c) or (e) directly from the farm including milk received at a pool plant pursuant to § 1004.7(c) as milk diverted from a pool plant pursuant to § 1004.7 (a), (b), or (e).

(b) A dairy farmer with respect to milk which is received at a pool plant pursuant to § 1004.7(d): *Provided*, That such milk is received directly from the farm of one who is a member of the cooperative operating the plant or is received as milk diverted from a pool plant pursuant to § 1004.7 (a), (b) or (e).

(c) A dairy farmer with respect to milk received by a cooperative association in its capacity as a handler pursuant to § 1004.9(c).

(d) A dairy farmer with respect to milk which is diverted to a nonpool plant (other than a producer-handler plant) in accordance with the conditions of subparagraphs (1) and (2) of this paragraph.

(1) During any month of March through August.

(2) Not more than 10 days production during any month of September through February unless all of the diversions of member and nonmember milk, as the case may be, are pursuant to subdivision (i) or (ii), respectively, of this subparagraph and they fall within the limits prescribed thereunder. If a handler diverting milk pursuant to this subparagraph diverts milk of any dairy farmer in excess of the limits prescribed such dairy farmer shall be a producer only with respect to that milk physically received at a pool plant.

(i) All of the diversions of milk of members of a cooperative association to nonpool plants are for the account of such cooperative association and the amount of member milk so diverted does not exceed 25 percent of the volume of milk of all members of such cooperative association received at all pool plants during such month.

(ii) All of the diversions of milk of dairy farmers who are not members of a cooperative association diverting milk for its own account during the month are diversions by a handler in his capacity as the operator of a pool plant from which the quantity of such nonmember milk so diverted does not exceed 25 percent of the total of such nonmember milk delivered to such handler during the month.

(e) Milk which is diverted in accordance with the provisions of this section shall be deemed to have been received by the handler for whose account it is diverted at a pool plant at the location of the plant from which it is diverted, except that, for the purpose of applying location adjustments pursuant to §§ 1004.52 and 1004.75 and the direct-delivery differential pursuant to § 1004.79, milk which is diverted in the manner described in subparagraph (1), (2), or (3) of this paragraph shall be treated as though received at the location of the plant to which diverted.

(1) Diverted from a pool plant at which no location adjustment credit is applicable to a plant at which a location adjustment credit is applicable.

(2) Diverted from a pool plant at which a location adjustment credit is applicable to a plant at which a greater location adjustment credit is applicable.

(3) Diverted from a pool plant in the direct-delivery zone to a plant outside such direct-delivery zone.

(f) This definition shall not include a:

(1) Producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Dairy farmer for other markets;

(3) Government agency which is a handler pursuant to § 1004.9(e);

(4) Dairy farmer with respect to milk reported as milk diverted to an other order plant if any portion of such dairy farmer's milk so moved is assigned to Class I under the provisions of such other order; or

(5) Dairy farmer with respect to milk physically received at a pool plant as diverted milk from an other order plant if all of the milk so received from such dairy farmer is assigned to Class II and the milk is treated as producer milk under the provisions of such other order.

§ 1004.13 Producer milk.

"Producer milk" means any skim milk or butterfat contained in milk:

(a) Received at a pool plant pursuant to § 1004.7 (a), (b), (c) or (e) directly from the farm including milk received at a pool plant pursuant to § 1004.7(c) as milk diverted from a pool plant pursuant to § 1004.7 (a), (b), or (e).

(b) Received at a pool plant pursuant to § 1004.7(d): *Provided*, That such milk is received directly from the farm of one who is a member of the cooperative operating the plant or is received as milk diverted from a pool plant pursuant to § 1004.7 (a), (b), or (e).

(c) Received from producers by a cooperative association in its capacity as a handler pursuant to § 1004.9(c); or

(d) Diverted to a nonpool plant in accordance with the provisions of § 1004.12.

§ 1004.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts in the form of fluid milk products from any source other than producers, pool plants, or from a cooperative association in its capacity as a handler pursuant to § 1004.9(c);

(b) Receipts (including any Class II product produced in the handler's plant during a prior month) in a form other than as a fluid milk product which are reprocessed, converted, or combined with another product during the month; and

(c) Receipts in a form other than a fluid milk product for which the handler fails to establish a disposition.

§ 1004.15 Fluid milk product.

"Fluid milk product" means milk, skim milk (including concentrated and reconstituted milk or skim milk), buttermilk, cultured buttermilk, flavored milk, milk drinks (plain or flavored), filled milk, and (except ice cream, ice cream mixes, ice milk mixes, milkshake mixes, eggnog, yogurt, condensed or evaporated milk, and any product which contains 6 percent or more nonmilk fat [or oil]) any mixture in fluid form of cream and milk or skim milk containing less than 10 percent butterfat: *Provided*, That when the product is modified by the addition of nonfat milk solids, the amount of skim milk to be included within this definition shall be only that amount equal to the weight of skim milk in an equal volume of unmodified product of the same nature and butterfat content.

§ 1004.16 [Reserved]

§ 1004.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

V 40163
APR 175

§ 1004.18 Exempt milk.

"Exempt milk" means bulk fluid milk products received at a pool plant or a partially regulated distributing plant from the plant of a handler pursuant to § 1004.9(e) for processing and packaging and for which an equivalent quantity of packaged fluid milk products is returned to such handler during the month.

§ 1004.19 [Reserved]

§ 1004.20 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association:

(a) Is qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act";

(b) Has full authority in the sale of milk of its members and is engaged in making collective sales of or marketing milk or milk products for its members; and

(c) Has its entire activities under the control of its members.

HANDLER REPORTS

§ 1004.30 Reports of receipts and utilization.

(a) On or before the eighth day after the end of each month each handler with respect to each of his pool plants shall report for the month to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(1) The quantities of skim milk and butterfat contained in:

(i) Receipts of producer milk (including such handler's own production);

(ii) Receipts of fluid milk products from other pool plants and milk received from a cooperative association for which it is a handler pursuant to § 1004.9(c); and

(iii) Receipts of other source milk;

(2) Inventories of fluid milk products on hand at the beginning and end of the month; and

(3) The utilization of all skim milk and butterfat required to be reported pursuant to this paragraph, showing separately in-area route disposition, except filled milk, and filled milk route disposition in the area;

(b) Each handler who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts of milk from dairy farmers shall be reported in lieu of producer milk; such report shall include a separate statement showing the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(c) Each producer-handler and each handler pursuant to § 1004.9(c) shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe; and

(d) On or before the eighth day after the end of each month, each cooperative association shall report with respect to milk for which it is a handler pursuant to § 1004.9 (b) or (c) as follows:

(1) Receipts of skim milk and butterfat from producers;

(2) Utilization of skim milk and butterfat diverted to nonpool plants; and

(3) The quantities of skim milk and butterfat delivered to each pool plant of another handler.

§ 1004.31 [Reserved]

§ 1004.32 Other reports.

(a) Each pool handler shall report to the market administrator in detail and on forms prescribed by the market administrator as follows:

(1) On or before the 26th day after the end of the month for each pool plant, his producer payroll for such month which shall show for each producer:

(i) His name and address;

(ii) The total pounds of milk received from such producer;

(iii) The average butterfat content of such milk; and

(iv) The net amount of the handler's payment, together with the price paid and the amount and nature of any deduction;

(2) Such other information with respect to receipts and utilization of butterfat and skim milk as the market administrator shall prescribe.

(b) Promptly after a producer moves from one farm to another, or starts or resumes deliveries to a pool handler, the handler shall file with the market administrator a report stating the producer's name and post office address, the health department permit number, if applicable, the date on which the changes took place, and the farm and plant location involved.

(c) Each handler operating a partially regulated distributing plant who does not elect to make payments pursuant to § 1001.76(b) shall report the same information as required in paragraph (a) of this section with respect to dairy farmers from whom he receives milk.

(d) On or before the 20th day after the end of the month, each handler pursuant to § 1004.9(f) shall report to the market administrator, in the detail and on forms prescribed by the market administrator, all transactions wherein milk was bought or dealt in, giving the following information:

(1) The name and address of any cooperative association or producer for whom the handler by either purchase or direction caused milk of producers to be moved to a plant;

(2) The total pounds of milk involved in the transaction, and the average butterfat content of such milk; and

(3) Such other information with respect to such transaction as the market administrator may prescribe.

(e) Each handler operating a plant described in § 1004.7(f) shall, with respect to total receipts and utilization or disposition of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of other reports specified in this section or in § 1004.30) and allow verification of such reports by the market administrator.

CLASSIFICATION OF MILK

§ 1004.40 Classes of utilization.

Subject to the conditions set forth in §§ 1004.41 through 1004.44, all skim milk and butterfat required to be reported by a handler pursuant to §§ 1004.30 and 1004.32 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat;

(1) Disposed of as a fluid milk product except as provided in paragraph (b) (2), (3), or (7) of this section;

(2) Contained in inventory of packaged fluid milk products on hand at the end of the month; and

(3) Not specifically accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Used to produce any product other than a fluid milk product;

(2) Disposed of for livestock feed;

(3) Contained in fluid milk products which are dumped, if the handler gives the market administrator such advance notice of intent to dump as the market administrator may prescribe;

(4) Contained in inventory of fluid milk products in bulk which are on hand at the end of the month;

(5) In shrinkage of skim milk and butterfat, respectively, assigned pursuant to § 1004.41(b)(1), but not to exceed the following:

(i) Two percent of producer milk received at a pool plant; plus

(ii) One and one-half percent of milk received at a pool plant from a cooperative association in its capacity as a handler pursuant to § 1004.9(c); plus

(iii) One and one-half percent of milk received at a pool plant in bulk tank lots from other pool plants; plus

(iv) One and one-half percent of receipts of fluid milk products in bulk from an other order plant, exclusive of the quantity for which Class II utilization was requested by the handler (and by the operator of such other order plant if such receipt is fully subject to the classification and pricing provisions of such other order); plus

(v) One and one-half percent of receipts from dairy farmers for other markets pursuant to § 1004.11 and receipts of fluid milk products in bulk from unregulated supply plants, exclusive of the quantity for which Class II utilization was requested by the handler; less

(vi) One and one-half percent of milk moved in bulk tank lots from a pool plant to other plants; and plus

(vii) One-half of 1 percent in receipts of producer milk by a cooperative association in its capacity as a handler pursuant to § 1004.9(c);

(6) In shrinkage of skim milk and butterfat, respectively, assigned pursuant to § 1004.41(b)(2);

(7) Disposed of in bulk fluid milk products to manufacturing establishments such as bakeries, candy factories, soup factories, and similar establishments at which fluid milk products were used only in the manufacture of food products other than milk products; and

(8) In skim milk represented by the nonfat milk solids added to a fluid milk product for fortification which is in excess of the volume included within the fluid milk product definition pursuant to § 1004.15.

§ 1004.41 Shrinkage.

The market administrator shall allocate shrinkage over a handler's receipts at each pool plant as follows:

(a) Compute the total shrinkage of skim milk and butterfat, respectively, for each handler; and

(b) Shrinkage shall be prorated between: (1) Skim milk and butterfat in receipts described in § 1004.40(b)(5); and (2) skim milk and butterfat in other source milk, exclusive of that specified in § 1004.40(b)(5).

§ 1004.42 Classification of transfers and diversions.

Skim milk and butterfat in the form of any fluid milk product shall be classified:

(a) As Class I milk if diverted from a pool plant pursuant to § 1004.7 (a), (b), or (e) to a pool plant pursuant to § 1004.7 (c) or (d), or transferred from a pool plant or by a cooperative association as a handler pursuant to § 1004.9(c) to a pool plant, unless Class II utilization is indicated by the transferee and transferor handlers (or by the handler if such transaction is between two pool plants of the same handler) in their reports pursuant to § 1004.30(a) for the month, subject to the conditions of subparagraphs (1), (2), and (3) of this paragraph:

(1) The skim milk or butterfat so assigned to either class shall be limited to the amount thereof remaining in such class in the transferee plant after computations pursuant to § 1004.44(a)(10) and the corresponding step of § 1004.44(b);

(2) If the transferor plant received during the month other source milk to be allocated pursuant to § 1004.44(a)(5), the skim milk and butterfat so transferred or diverted shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor handler received during the month other source milk to be allocated pursuant to § 1004.44(a)(9) or (10), and the corresponding steps of § 1004.44(b), the skim milk and butterfat so transferred or diverted up to the total of such receipts shall not be classified as Class I milk to a greater extent than would be applicable to a like quantity of such other source milk received at the transferee plant;

(b) As Class I milk, if transferred from a pool plant to a producer-handler;

(c) As Class I milk, if transferred or diverted from a pool plant or delivered by a cooperative association in the capacity as a handler pursuant to § 1004.9 (c) to a handler pursuant to § 1004.9(e);

(d) As Class I milk, if transferred or diverted in bulk to a nonpool plant that is not an other order plant, a producer-handler plant, or the plant of a handler pursuant to § 1004.9(e), unless the requirements of subparagraphs (1) and (2) of this paragraph are met, in which case the skim milk and butterfat so transferred or diverted shall be classified in accordance with the assignment resulting from subparagraph (3) of this paragraph;

(1) The transferring or diverting handler claims classification pursuant to the assignment set forth in subparagraph (3) of this paragraph in his report submitted to the market administrator pursuant to § 1004.30 for the month within which such transaction occurred;

(2) The operator of such nonpool transferee plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for the purpose of verification;

(3) The skim milk and butterfat so transferred shall be classified on the basis of the following assignment of utilization at such nonpool plant in excess of receipts of packaged fluid milk products from all pool plants and other order plants:

(i) Any route disposition in the marketing area shall be first assigned to the skim milk and butterfat in the fluid milk products so transferred or diverted from pool plants, and thereafter pro rata to receipts from other order plants;

(ii) Any route disposition in the marketing area of an other order issued pursuant to the Act shall be first assigned to receipts from plants fully regulated by such order, and thereafter pro rata to receipts from pool plants and other order plants not regulated by such order;

(iii) Class I utilization in excess of that assigned pursuant to subdivisions (i) and (ii) of this subparagraph shall be assigned first to the receipts from dairy farmers who the market administrator determines constitute the regular source of supply for such nonpool plant, and Class I utilization in excess of such receipts shall be assigned pro rata to unassigned receipts at such nonpool plant from all pool and other order plants; and

(iv) Any remaining receipts from pool plants or other order plants shall be assigned to Class II: *Provided*, That if on inspection of the books and records of the nonpool plant the market administrator finds that the remaining unassigned receipts at such plant exceed the available Class II utilization, the transfer shall be classified as Class I up to the amount of such excess.

(e) As follows, if transferred to another order plant in excess of receipts from such plant in the same category as described in subparagraph (1), (2), or (3) of this paragraph:

(1) If transferred in packaged form, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated as a fluid milk product under the other order (including allocation under the conditions set forth in subparagraph (3) of this paragraph);

(3) If the operators of both the transferor and transferee plants so request in the reports of receipts and utilization filed with their respective market administrators, transfers in bulk form shall be classified as Class II to the extent of the Class II utilization (or comparable utilization under such other order) available for such assignment pursuant to the allocation provisions of the transferee order;

(4) If information concerning the classification to which allocated under the other order is not available to the market administrator for purposes of establishing classification pursuant to this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the transferee order provides for more than two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and milk allocated to other classes shall be classified as Class II; and

(6) If the form in which any fluid milk product is transferred to an other order plant is not defined as a fluid milk product under such other order, classification shall be in accordance with the provisions of § 1004.40.

§ 1004.43 General rules.

(a) Each month, the market administrator shall correct for mathematical and other obvious errors, the reports of receipts and utilization submitted pursuant to § 1004.30(a) by each handler and compute the total pounds of skim milk and butterfat, respectively, in each class at each of the plants of such handler, and the total pounds of skim milk and butterfat in each class which was received from producers by a cooperative association handler pursuant to § 1004.9 (b) and (c) and was not received at a pool plant.

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk used or disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such products plus all the water originally associated with such solids.

§ 1004.44 Classification of producer milk.

After making the computations pursuant to § 1004.43, the market administrator each month shall determine the classification of milk received from producers by each cooperative association handler pursuant to § 1004.9 (b) and (c) which was not received at a pool plant, and the classification of milk received from producers and from cooperative association handlers pursuant to § 1004.9(c) at each pool plant for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

V 40 163
APR 1 75

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk classified as Class II pursuant to § 1004.40(b)(5);

(2) Subtract from the total pounds of skim milk in Class I, the pounds of skim milk in receipts of exempt milk;

(3) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (5)(vi) of this paragraph as follows:

(i) From Class II milk, the lesser of the pounds remaining, or 2 percent of such receipts; and

(ii) From Class I milk the remainder of such receipts;

(4) Except for the first month this order is effective, with respect to plants which in the immediately preceding month were unregulated plants, subtract from the remaining pounds of skim milk in Class I, the pounds of skim milk in inventory of packaged fluid milk products on hand at the beginning of the month;

(5) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products from dairy farmers for other markets pursuant to § 1004.11 and from unidentified sources;

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts (other than exempt milk) of fluid milk products from a handler pursuant to § 1004.9(e);

(v) Receipts of reconstituted skim milk in filled milk from unregulated supply plants;

(vi) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling to the extent that reconstituted skim milk is allocated to Class I at the transferor plant and is not assigned under this step at a plant regulated under another market pool order;

(6) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II:

(i) The pounds of skim milk in receipts of fluid milk products from unregulated supply plants for which the handler requests Class II utilization, but not in any case to exceed the pounds of skim milk remaining in Class II;

(ii) The pounds of skim milk remaining in receipts of fluid milk products from unregulated supply plants which are in excess of the pounds of skim milk determined as follows:

(a) Multiply the pounds of skim milk remaining in Class I milk (exclusive of transfers between pool plants of the same handler) at all pool plants of the handler by 1.25;

(b) Subtract from the result the sum of the pounds of skim milk at all such plants in producer milk, receipts from pool plants of other handlers, from a cooperative association in its capacity as a handler pursuant to § 1004.9(c), and in receipts in bulk from other order plants; and

(c) (1) Multiply any resulting plus quantity by the percentage that receipts of skim milk in fluid milk products from unregulated supply plants remaining at this plant is of all such receipts remaining at all pool plants of such handler, after any deductions pursuant to subdivision (i) of this subparagraph.

(2) Should such computation result in a quantity to be subtracted from Class II which is in excess of the pounds of skim milk remaining in Class II, the pounds of skim milk in Class II shall be increased to the quantity to be subtracted and the pounds of skim milk in Class I shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

(iii) The pounds of skim milk in remaining receipts of fluid milk products in bulk from an other order plant which are in excess of similar movements to such plant, if such receipts were classified and priced pursuant to the other order and if Class II utilization was requested by the operator of such plant and the transferee handler, but not in excess of the pounds of skim milk remaining in Class II milk;

(7) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in inventory of fluid milk products in bulk (and for the first month this order is effective, in packaged fluid milk products not subtracted pursuant to subparagraph (4) of this paragraph) on hand at the beginning of the month;

(8) Add to the remaining pounds of skim milk in Class II, the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(9) (i) Subtract from the pounds of skim milk remaining in each class, pro rata to the total pounds of skim milk remaining in each class in all pool plants of the receiving handler, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants and from other order plant(s) if not classified or priced pursuant to the order regulating such plant, that were not subtracted pursuant to subparagraph (6) (i) or (ii) of this paragraph;

(ii) Should such proration result in the amount to be subtracted from any class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case the utilization of skim milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made;

(10) Subtract from the pounds of skim milk remaining in each class, the pounds of skim milk in remaining receipts of fluid milk products in bulk from other order plants (except receipts from other order plants not classified and priced pursuant to the order regulating such plant), in excess in each case of similar movements to the same plant, pursuant to the following procedure:

(i) Subject to the provisions of subdivisions (ii) and (iii) of this subparagraph, such subtraction shall be pro rata to whichever of the following represents the higher proportion of Class II milk:

(a) The estimated utilization of skim milk in each class, by all handlers, as announced for the month pursuant to § 1004.45(b); or

(b) The pounds of skim milk in each class remaining at all pool plants of the handler;

(ii) Should proration pursuant to subdivision (i) of this subparagraph result in the total pounds of skim milk to be subtracted from Class II at all pool plants of the handler exceeding the pounds of skim milk remaining in Class II at such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which received;

(iii) Except as provided in subdivision (ii) of this subparagraph, should proration pursuant to either subdivision (i) or (ii) of this subparagraph result in the amount to be subtracted from either class exceeding the pounds of skim milk remaining in such class in the pool plant at which such skim milk was received, the pounds of skim milk in such class shall be increased to the amount to be subtracted and the pounds of skim milk in the other class shall be decreased a like amount. In such case, the utilization of milk at other pool plant(s) of such handler shall be adjusted in the reverse direction by an identical amount in sequence beginning with the nearest other pool plant of such handler at which such adjustment can be made.

(11) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received in fluid milk products from other pool plants and from a cooperative association in its capacity as a handler pursuant to § 1004.9(c) according to the classification assigned pursuant to § 1004.42(a); and

(12) If the pounds of skim milk remaining in both classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class II. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) Combine the amounts of skim milk and butterfat determined pursuant to paragraphs (a) and (b) of this section into one total for each class and determine the weighted average butterfat content of producer milk in each class.

§ 1004.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) On or before the 15th day after the end of each month, report to each cooperative association which so requests, the class utilization of milk purchased from such association or delivered to the pool plant(s) of each handler by producers who are members of such cooperative association. For the purpose of this report, the milk so purchased or received shall be allocated to each class in the same ratio as all producer milk received by such handler during such month;

(b) Whenever required for purpose of allocating receipts from other order plants pursuant to § 1004.44(a)(10) and the corresponding step of § 1004.44(b), the market administrator shall estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose;

(c) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products from an other order plant, the classification to which such receipts are allocated pursuant to § 1004.44 pursuant to such report, and thereafter any change in such allocation required to correct errors disclosed in verification of such report; and

(d) Furnish to each handler operating a pool plant who has shipped fluid milk products to an other order plant, the classification to which the skim milk and butterfat in such fluid milk products were allocated by the market administrator of the order on the basis of the report of the receiving handler; and, as necessary, any changes in such classification arising in the verification of such report.

Class Prices

§ 1004.50 Class prices.

Subject to the provisions of § 1004.52 the minimum class prices per hundredweight of milk containing 3.5 percent butterfat for the month shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $2.78.

(b) *Class II price.* Subject to the adjustment set forth below for the applicable month, the Class II price shall be the basic formula price for the month.

Month:	Amount
January	+$0.05
February	+.04
March	−.03
April	−.07
May	−.10
June	−.09
July	+.05
August	+.12
September	+.08
October	+.08
November	+.08
December	+.08

§ 1004.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1004.52 Location differentials to handlers.

(a) For that milk received from producers and from a cooperative association in its capacity as a handler pursuant to § 1004.9(c) at a pool plant located 55 miles or more by shortest highway distance from the city hall in Philadelphia, Pa., and also 75 miles or more by the shortest highway distance from the nearer of the zero milestone in Washington, D.C., or the city hall in Baltimore, Md. (all such distance to be determined by the market administrator), and which is assigned to Class I milk, subject to the limitations pursuant to paragraph (b) of this section, and for other source milk for which a location adjustment is applicable, the Class I price shall be reduced at the rate of 1.5 cents per 10-mile distance or fraction thereof that such plant location is from the nearest of such basing points.

(b) For purposes of calculating such adjustment, transfers between pool plants shall be assigned to Class I disposition at the transferee plant in an amount not in excess of that by which such Class I disposition exceeds 95 percent of the sum of receipts at such plant from producers, cooperative associations pursuant to § 1004.9(c), and the pounds assigned as Class I to receipts from other order plants and unregulated supply plants, and from dairy farmers for other markets pursuant to § 1004.11. Such assignment is to be made first to transferor plants at which no location adjustment credit is applicable and then in sequence beginning with the plant at which the least location adjustment would apply: *Provided,* That for the purposes of this paragraph, transfers from a pool plant to a second pool plant which are in turn transferred to a third pool plant shall be treated as though the transfer was direct from the originating plant to the plant of final receipt.

§ 1004.53 Announcement of class prices and producer butterfat differential.

On or before the fifth day of each month the market administrator shall publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate, the following:

(a) The Class I price for the following month, and for the first month for which this paragraph is effective, the Class I price for the current month;

(b) The Class II price for the preceding month; and

(c) The producer butterfat differential for the preceding month.

§ 1004.54 Equivalent prices or indexes.

If for any reason a price or index specified by this part for use in computing class prices or other purposes is not reported or published in the manner described in this part, the market administrator shall use a price or index determined by the Secretary to be equivalent or comparable with the factor which is specified.

Uniform Prices

§ 1004.60 Pool obligation of each pool handler.

The net pool obligation of each pool handler for each pool plant, and of each cooperative association handler pursuant to § 1004.9 (b) and (c) with respect to milk which was not received at a pool plant, shall be a sum of money computed by the market administrator as follows:

(a) Multiply the quantity of milk received from a cooperative association as a handler pursuant to § 1004.9(c) and allocated pursuant to § 1004.44(a)(11) and the corresponding step of § 1004.44 (b) and the quantity of producer milk in each class, as computed pursuant to § 1004.44(c), by the applicable class prices (adjusted pursuant to § 1004.52);

(b) Add the amount obtained from multiplying the pounds of overage deducted from each class pursuant to § 1004.44(a)(12) and the corresponding step of § 1004.44(b) by the applicable class prices adjusted by the applicable differentials pursuant to §§ 1004.52, 1004.74, and 1004.79;

(c) Add the amounts computed under subparagraphs (1) and (2) of this paragraph:

(1) Multiply the difference between the applicable Class II price for the preceding month and the applicable Class I price for the current month by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1004.44(a)(7) and the corresponding step of § 1004.44(b) for the current month;

(2) Multiply the difference between the applicable Class I price for the preceding month and the applicable Class I price for the current month by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1004.44(a)(4) and the corresponding step of § 1004.44(b). If the Class I price for the current month is less than the

V 40 163
APR 1 75

Class I price for the preceding month, the result shall be a minus amount.

(d) Add an amount equal to the difference between the value at the Class I price applicable at the pool plant and the value at the Class II price, with respect to skim milk and butterfat in other source milk subtracted from Class I pursuant to § 1004.44(a)(5) and the corresponding step of § 1004.44(b), except that for receipts of fluid milk products assigned to Class I pursuant to § 1004.44(a)(5)(v) and (vi) and the corresponding step of § 1004.44(b) the Class I price shall be adjusted to the location of the transferor plant but not less than the Class II price; and

(e) Add an amount equal to the value at the Class I price of skim milk and butterfat assigned to Class I pursuant to § 1004.44(a)(9) and the corresponding step of § 1004.44(b) (excluding receipts from partially-regulated distributing plants for which disposition a specific allocation is made to Federal order receipts from this or any other order) adjusted for the location of the nearest plant from which such types of receipts were received.

§ 1004.61 Computation of weighted average price and uniform prices for base milk and excess milk.

(a) For each month the market administrator shall compute the weighted average price per hundredweight of milk received from producers as follows:

(1) Combine into one total the values computed pursuant to § 1004.60 for all handlers who filed the reports prescribed by § 1004.30 for the month and who made the payments pursuant to § 1004.71 for the preceding month;

(2) Add an amount equal to the total value of the location differentials computed pursuant to § 1004.75;

(3) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to subparagraph (1) of this paragraph by 5 cents;

(4) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(5) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(i) The total hundredweight of producer milk included pursuant to subparagraph (1) of this paragraph; and

(ii) The total hundredweight for which a value is computed pursuant to § 1004.60(e);

(6) Subtract not less than 4 cents nor more than 5 cents per hundredweight.

(b) For each month the market administrator shall compute the uniform prices per hundredweight for base milk and excess milk received from producers, each of 3.5 percent butterfat content, f.o.b. market, as follows:

(1) Compute the aggregate value of excess milk for all handlers included in the computations pursuant to paragraph (a) of this section as follows:

(i) Multiply the quantity of such milk which does not exceed the total quantity of producer milk received by such handlers assigned to Class II milk by the Class II milk price less 5 cents;

(ii) Multiply the remaining hundredweight quantity of excess milk by the Class I price less 5 cents; and

(iii) Add together the resulting amounts.

(2) Divide the total value of excess milk obtained in subparagraph (1) of this paragraph by the total hundredweight of such milk and round to the nearest cent. The resulting figure shall be the uniform price for excess milk;

(3) From the amount resulting from the computations of subparagraphs (1) through (4) of paragraph (a) of this section subtract an amount computed by multiplying the hundredweight of milk specified in § 1004.61(a)(5)(ii) by the weighted average price;

(4) Subtract the total value of excess milk determined by multiplying the uniform price obtained in subparagraph (2) of this paragraph by the hundredweight of excess milk, from the amount computed pursuant to subparagraph (3) of this paragraph;

(5) Divide the amount calculated pursuant to subparagraph (4) of this paragraph by the total hundredweight of base milk for handlers included in these computations: *Provided*, That if the resulting price should exceed the Class I price by more than the amount deducted pursuant to subparagraph (6) of this paragraph the aggregate amount in excess thereof shall be included in the computation of the excess price pursuant to subparagraph (1) of this paragraph, except that if by such addition the excess price should exceed the base price then the aggregate amount of the excess shall be prorated to the aggregate values of base milk and excess milk on the basis of the respective volumes of base and excess milk; and

(6) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to subparagraph (5) of this paragraph. The resulting figure shall be the uniform price for base milk.

§ 1004.62 Announcement of weighted average price and uniform prices for base milk and excess milk.

On or before the 13th day of each month, the market administrator shall publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate, the weighted average price and uniform prices for base milk and excess milk computed pursuant to § 1004.61 for the preceding month.

PAYMENTS FOR MILK

§ 1004.70 Producer-settlement fund.

The market administrator shall maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments into such fund pursuant to §§ 1004.71, 1004.76 and 1004.77 and out of which he shall make all payments from such fund pursuant to §§ 1004.72 and 1004.77: *Provided*, That the market administrator shall offset the payment due to a handler against payment due from such handler.

§ 1004.71 Payments to the producer-settlement fund.

On or before the 15th day after the end of the month each handler shall pay to the market administrator the amount, if any, by which the total amount specified in paragraph (a) of this section exceeds the amounts specified in paragraph (b) of this section:

(a) The net pool obligation computed pursuant to § 1004.60 for such handler;

(b) The sum of:

(1) The value of milk received by such handler from producers and from cooperative association handlers pursuant to § 1004.9(c) at the applicable uniform price(s) pursuant to § 1004.61 adjusted by location differentials, less in the case of a cooperative association on milk for which it is a handler pursuant to § 1004.9(c), the amount due from other handlers pursuant to § 1004.73(d), exclusive of differential butterfat values; and

(2) The value at the weighted average price plus 5 cents, adjusted by the applicable location differential on nonpool milk pursuant to § 1004.75(b) (not to be less than the value of the Class II price) with respect to other source milk for which values are computed pursuant to § 1004.60(e).

(c) Each handler operating a plant specified in § 1004.7(f)(1) if such plant is subject to the classification and pricing provisions of another order which provides for individual-handler pooling, shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of on routes in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant on routes in the marketing areas regulated by two or more market-wide pool orders, the reconstituted skim milk assigned to Class I shall be prorated according to such disposition in each area; and

(2) Compute the value of the quantity assigned in subparagraph (1) of this paragraph to Class I disposition in this area, at the Class I price under this part applicable at the location of the other order plant and subtract its value at the Class II price.

§ 1004.72 Payments from the producer-settlement fund.

On or before the 17th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1004.71(b) exceeds the amount computed pursuant to § 1004.71(a): *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 1004.73 Payments to producers and to cooperative associations.

(a) Except as provided in (b) and (d) of this section, each pool handler shall make payment as specified in subparagraphs (1) and (2) of this paragraph to each producer from whom milk is received.

(1) On or before the last day of each month at not less than the Class II price for the preceding month per hundredweight for his deliveries of producer milk during the first 15 days of the month; and

(2) On or before the 20th of the following month at not less than the uniform price for base milk computed pursuant to § 1004.61(b)(3) through (6) with respect to base milk received from such producer and not less than the excess price determined pursuant to § 1004.61(b)(1) and (2) for excess milk received from such producers subject to the following adjustments: *Provided*, That such payment shall be at not less than the weighted average price with respect to milk received from producers, also subject to the following adjustments:

(i) Proper deductions authorized in writing by such producers;

(ii) Partial payments made pursuant to subparagraph (1) of this paragraph;

(iii) The butterfat differential computed pursuant to § 1004.74; and

(iv) Less the location differential received pursuant to § 1004.75: *Provided*, That if by such date such handler has not received full payment from the market administrator pursuant to § 1004.72 for such month he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payment to producers shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after receipt of the balance due from the market administrator;

(b) In the case of a cooperative association which the market administrator determines is authorized by its producer-members to collect payment for their milk and which has so requested any handler in writing, such handler shall on or before the second day prior to the date on which payments are due individual producers, pay the cooperative association for milk received during the month from the producer-members of such association as determined by the market administrator an amount equal to not less than the total due such producer-members as determined pursuant to paragraph (a) of this section;

(c) In the case of milk received by a handler from a cooperative association in its capacity as the operator of a pool plant such handler shall on or before the second day prior to the date on which payments are due individual producers, pay to such cooperative association for milk so received during the month, an amount not less than the value of such milk computed at the applicable class prices for the location of the plant of the buying handler; and

(d) Each handler who receives milk from a cooperative association handler pursuant to § 1004.9(c), shall on or before the second day prior to the date payments are due individual producers, pay such cooperative association for such milk as follows:

(1) A partial payment for milk received during the first 15 days of the month at the rate specified in paragraph (a)(1) of this section; and

(2) A final payment equal to the value of such milk at the uniform price(s) adjusted by the applicable differentials pursuant to §§ 1004.74 and 1004.75, less the amount of partial payment on such milk.

(e) In making payments to producers pursuant to paragraph (a)(2) of this section, or to a cooperative association pursuant to paragraph (b) of this section, each pool handler shall furnish such producer or cooperative association with respect to each of its producer members from whom the handler received milk during the month, a written statement showing:

(1) The month and the identity of the handler and the producer;

(2) The total pounds and average butterfat test of milk delivered by the producer;

(3) The minimum rate at which payment to such producer is required under paragraph (a)(2) of this section;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The nature and amount of any deductions made in payment due such producer; and

(6) The net amount of the payment to the producer.

§ 1004.74 Butterfat differential.

In making the payments to producers and cooperative associations required pursuant to § 1004.73, each handler shall add for each one-tenth of 1 percent of average butterfat content above 3.5 percent, or may deduct for each one-tenth of 1 percent of average butterfat content below 3.5 percent, as a butterfat differential an amount per hundredweight which shall be computed by the market administrator as follows: Multiply by 0.115 and round to the nearest one-tenth cent the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of Grade A (92-score) bulk creamery butter at Chicago, as reported by the Department for the month.

§ 1004.75 Location differentials to producers and on nonpool milk.

(a) Subject to the exception pursuant to § 1004.12(d), for that milk received from producers and from cooperative association handlers pursuant to § 1004.9(c) at a pool plant located 55 miles or more from the city hall in Philadelphia, Pa., and also at least 75 miles from the nearer of the zero milestone in Washington, D.C., or the city hall in Baltimore, Md. (all distances to be the shortest highway distance as determined by the market administrator), the uniform price for base milk computed pursuant to § 1004.61(b) shall be reduced 1.5 cents for each 10 miles distance or fraction thereof that such plant is from the nearest of such basing points.

(b) For purposes of computations pursuant to §§ 1004.71 and 1004.72 the weighted average price shall be reduced at the rate set forth in paragraph (a) of this section applicable at the location of the nonpool plant(s) from which the milk was received with respect to other source milk for which a value is computed pursuant to § 1004.60(e).

§ 1004.76 Payments by a handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month either of the amounts (at the handler's election) calculated pursuant to paragraph (a) or (b) of this section. If the handler fails to report pursuant to §§ 1004.30(b) and 1004.32(c) the information necessary to compute the amount specified in paragraph (a) of this section, he shall pay the amount computed pursuant to paragraph (b) of this section:

(a) An amount computed as follows:

(1) (i) The obligation that would have been computed pursuant to § 1004.60 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant, a cooperative association as a handler pursuant to § 1004.9(b), or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class II price. There shall be included in the obligation so computed a charge in the amount specified in § 1004.60(e) and a credit in the amount specified in § 1004.71(b)(2) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class II price, unless an obligation with respect to such plant is computed as specified below in this subparagraph; and

(ii) If the operator of the partially regulated distributing plant so requests, and provides with his reports pursuant to §§ 1004.30(b) and 1004.32(c) similar reports with respect to the operations of any other nonpool plant which serves as a supply plant for such partially regulated distributing plant by shipments to such plant during the month equivalent to the requirements of § 1004.7(b) with agreement of the operator of such plant that the market administrator may examine the books and records of such plant for purposes of verification

V 40 163
APR 1 75

of such reports there will be added the amount of the obligation computed at each nonpool supply plant in the same manner and subject to the same conditions as for the partially regulated distributing plant.

(2) From this obligation there will be deducted the sum of (i) the gross payments made by such handler for milk (approved by a duly constituted health authority for fluid disposition) received during the month from dairy farmers at such plant and like payments made by the operator of a supply plant(s) included in the computations pursuant to subparagraph (1) of this paragraph, and (ii) any payments to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant.

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants; cooperative associations in their capacity as handlers pursuant to § 1004.9(b), and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of on routes in the marketing area;

(4) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant (but not less than the Class II price), subtract its value at the weighted average price applicable at such location plus 5 cents (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant (but not less than the Class II price), less the value of such skim milk at the Class II price.

§ 1004.77 Adjustment of accounts.

Whenever verification by the market administrator of reports or payments of any handler discloses errors resulting in money due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 1004.78 [Reserved]

§ 1004.79 Direct-delivery differential.

For producer milk received at a plant located within 55 miles of the city hall in Philadelphia, Pa., the handler in making payments to producers and cooperative association handlers pursuant to § 1004.9(c), in addition to any amounts required by other provisions of this part, shall pay 6 cents per hundredweight of milk so received.

Administrative Assessment and Marketing Service Deduction

§ 1004.85 Assessment for order administration.

As his pro rata share of the expense of administration, each handler shall pay to the market administrator on or before the 20th day after the end of the month, 4 cents per hundredweight, or such lesser amount as the Secretary may prescribe with respect to milk handled during the month as follows:

(a) Each handler (excluding a cooperative association in its capacity as a handler pursuant to § 1004.9(c), and a cooperative association as the operator of a pool plant with respect to milk transferred in bulk to a pool plant) with respect to his receipts of producer milk (including such handler's own-farm production, milk received from a cooperative association pursuant to § 1004.9(c), and milk transferred in bulk from a pool plant owned and operated by a cooperative association) and other source milk allocated to Class I pursuant to § 1004.44(a) (5) and (9) and the corresponding step of § 1004.44(b);

(b) Each handler in his capacity as the operator of a partially regulated distributing plant with respect to his route disposition in the marketing area in excess of his receipts of Class I milk from pool plants, cooperative associations as handlers pursuant to § 1004.9(b), and other order plants assigned to such disposition.

§ 1004.86 Deduction for marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler, making payments directly to producers for milk (other than milk of his own production) pursuant to § 1004.73(a) shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may prescribe and shall pay such deductions to the market administrator on or before the 20th day after the end of the month. Such money shall be expended by the market administrator to provide market information and to verify the weights, samples and tests of milk of producers who are not receiving such service from a cooperative association; and

(b) In the case of producers for whom the Secretary determines a cooperative association is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made directly to such producers pursuant to § 1004.73(a) as are authorized by such producers on or before the 18th day after the end of each month and pay such deductions to the cooperative rendering such services.

Base-Excess Plan

§ 1004.90 Base milk.

"Base milk" means milk received from a producer by a pool handler which is not in excess of such producer's daily base computed pursuant to § 1004.92 multiplied by the number of days in such month on which such producer's milk was so received: *Provided*, That with respect to any producer on every-other-day delivery, the day of nondelivery prior to a day of delivery, although such prior day is in the preceding month, shall be considered as a day of delivery for purposes of this paragraph.

§ 1004.91 Excess milk.

"Excess milk" means milk received from a producer by a pool handler which is in excess of base milk received from such producer during the month.

§ 1004.92 Computation of base for each producer.

For each month of the year, the market administrator shall compute, subject to the rules set forth in § 1004.93, a base for each producer described in paragraphs (a) through (e) of this section by dividing the applicable quantity of milk receipts specified in such paragraph by 153 (by 154 in the case of a producer on every-other-day delivery schedule who delivered August 1) less the number of days, if any, during the applicable base-forming period of August through December for which it is shown that the day's production of milk of such producer was not received by a pool handler as described in the applicable paragraphs (a) through (e) of this section under which such producer's base is computed: *Provided*, That in no event shall the number of days used to compute a producer's base pursuant to this section be less than 120.

(a) For any producer, except as provided in paragraphs (b) through (f) of this section, the quantity of milk receipts shall be the total pounds of producer milk received by all pool handlers from such producer during the preceding months of August through December;

(b) Except as provided in paragraph (c) of this section, for any producer whose milk was received at a plant which first became a pool plant after the beginning of the preceding August–December period, which plant was a pool plant for at least 120 days during such period, the quantity of milk receipts to be used in the computation of such producer's base shall be the total pounds of milk received from such dairy farmer at such plant during the entire August–December period.

(c) For any producer who on August 1 was an Order 2 (New York-New Jersey) producer and who held such status in all or part of the 2 months of August and September and who otherwise was a producer only under this part for all of the remaining August through December period, the quantity of milk receipts shall be the total pounds of milk received from such dairy farmer by pool handlers under both orders throughout the August–December period.

(d) For any producer whose milk was received during the preceding August through December period at a plant which became a pool plant pursuant to § 1004.7(a) during or after such August through December period, the quantity of milk receipts shall be the total pounds of milk received from such dairy farmer during such August–December period by pool handlers as producer milk and at such plant as a nonpool plant.

(e) For any producer whose milk, in the initial month of operation of this extended order, is received at a plant which becomes a pool plant pursuant to § 1004.7(b) for such month on the basis of qualifying shipments to a plant(s) which was not a pool plant in the immediately preceding month but is a pool plant(s) pursuant to § 1004.7(a) in such initial month, the quantity of milk receipts shall be the total pounds of milk received from such dairy farmer during the immediately preceding August–December period (1) as producer milk by pool handlers and (2) as direct receipts at such transferor (nonpool) plant.

(f) Any producer who made no qualifying milk deliveries during the base-forming period of August through December, or who relinquishes his established base pursuant to § 1004.94, shall have a base reflecting the percentage of his average daily deliveries of producer milk each month as set forth in the following table. A new base is earned on the basis of his milk deliveries during the subsequent August through December period.

Month:	*Percentage of production as base*
January and February	60
March through June	50
July	60
August through November	70
December	60

§ 1004.93 Base rules.

The following rules shall apply in connection with the establishment of bases:

(a) A base computed pursuant to paragraphs (a) through (e) of § 1004.92 (except as provided in paragraph (f) of said section) shall be effective for the subsequent months of March through February, inclusive.

(b) A base computed pursuant to paragraphs (a) through (e) of § 1004.92 may be transferred only in its entirety to another dairy farmer and only upon discontinuance of milk production because of the entry into military service of the baseholder.

(c) Base transfers shall be accomplished only through written application to the market administrator on forms prescribed by the market administrator and shall be signed by the baseholder and by the person to whom such base is to be transferred: *Provided*, That if a base is held jointly, except as provided in paragraph (e) of this section, the entire base only is transferrable and only upon receipt of such application signed by all joint holders.

(d) If a producer operates more than one farm and milk is received from each at a pool plant or by a cooperative association in its capacity as a handler pursuant to § 1004.9 (b) or (c), he shall establish a separate base with respect to producer milk delivered from each such farm; *Provided*, That if such farms and herds are combined into one dairy farm, the separate bases may be combined into one base subject to approval of the market administrator.

(e) Only one base shall be allocated with respect to milk produced by one or more persons where a dairy farm is jointly owned or operated: *Provided*, That in the case of a base established jointly, if a copy of the partnership agreement setting forth as a percentage of the total interest of the partners in the base is filed with the market administrator before the end of the base-forming period, then upon termination of the partnership agreement each partner will be entitled to his stated share of the base to hold in his own right or to transfer in conformity with the provisions of paragraph (b) or (c) of this section (including transfer to a partnership of which he is a member). Such termination of partnership shall become effective as of the end of any month during which an application for such division of base signed by each member of such partnership is received by the market administrator.

(f) Two or more producers with bases may combine such bases upon the formation of a bona fide partnership operating from one farm. Such a combination shall be considered a joint base under paragraph (e) of this section.

(g) Subject to approval by the market administrator, the name of the baseholder may be changed to that of another member of the baseholder's immediate family but only under circumstances where the base would be applicable to milk production from the same herd and on the same farm.

§ 1004.94 Relinquishing a base.

A producer holding an established base can, upon notification to the market administrator, relinquish his established base and be paid pursuant to the provisions of § 1004.92(f) beginning with the first day of the month in which such notification is received by the market administrator and extending until March 1, next.

§ 1004.95 Announcement of base.

On or before February 25 of each year, the market administrator shall notify each producer, the handler receiving his milk and the cooperative association of which he is a member of the daily base established by such producer.

Advertising and Promotion Program

§ 1004.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1004.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1004.111 Composition of the Agency.

Each cooperative association or combination of cooperative associations as provided for under § 1004.113(b) is authorized one Agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers that have elected not to combine pursuant to § 1004.113(b), and participating producers who are not members of cooperatives are authorized to select from such group, in total, one Agency representative for each full 5 percent that such producers constitute of the total participating producers. For the purpose of the Agency's initial organization, all persons defined as producers shall be considered as participating producers.

§ 1004.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1004.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative association authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating membership and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1004.111 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required 5 percent of the producers participating in the ad-

V 40 163
APR 1 75

vertising and promotion program and who have not elected to combine memberships as provided in paragraph (h) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more Agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for Agency membership and shall conduct a referendum among the individual producers eligible to vote. Election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1004.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

§ 1004.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1004.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91–670;

(c) Recommend amendments to the Secretary; and

(d) With the approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1004.110 and 1004.117.

§ 1004.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committee as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1004.110 and 1004.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings, and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1004.117 Advertising, research, education, and promotion program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1004.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1004.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1004.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1004.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

(d) A producer, located in a State which has a State advertising and promotion program in which producers are required to participate unless they are participating in an advertising and promotion program under a Federal order, may (in lieu of a refund request) authorize the market administrator to pay to the State the amount of his required participation not in excess of 5 cents per hundredweight.

§ 1004.121 Duties of the market administrator.

Except as specified in § 1004.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1004.113(c);

(b) Set aside the amounts subtracted under § 1004.61(a)(3) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraph (3) of this paragraph; payments, if any, to producers or States pursuant to subparagraph (2) of this paragraph; and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1004.61(a)(3).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1004.120 or make payment to any State on behalf of any producer for which specific authorization has been received pursuant to § 1004.120 (d). Such refund or payment, as the case may be, shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1004.61(a)(3) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1004.110 through 1004.122).

(d) Audit the Agency's records of receipts and disbursements.

§ 1004.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1004.70.

list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 4—Accounts

CHAPTER III—COST ACCOUNTING STANDARDS BOARD

SUBCHAPTER G—COST ACCOUNTING STANDARDS

PART 408—COST ACCOUNTING STANDARD

Depreciation of Tangible Capital Assets

On January 29, 1975, a Cost Accounting Standard entitled Depreciation of Tangible Capital Assets was published in the FEDERAL REGISTER (40 FR 4259 et seq.).

As shown in the following § 408.80(a), the effective date of the standard which was reserved in the January 29, 1975 publication is July 1, 1975.

In consideration of the foregoing, § 408.80(a) is revised to read as follows:

§ 408.80 Effective date.

(a) The effective date of this Cost Accounting Standard is July 1, 1975.

(84 Stat. 196, section 103 (50 U.S.C. App. 2168))

ARTHUR SCHOENHAUT,
Executive Secretary.

Title 7—Agriculture

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 724—FIRE-CURED, DARK AIR-CURED, VIRGINIA SUN-CURED, CIGAR-BINDER (TYPES 51 AND 52), AND CIGAR-FILLER AND BINDER (TYPES 42, 43, 44, 53, 54, AND 55) TOBACCO

Marketing Quota Referendum Results

Basis and Purpose. Sections 724.26 and 724.27 are issued pursuant to and in accordance with section 312 of the Agricultural Adjustment Act of 1938, as amended, to proclaim the marketing quota referendum results for cigar-binder (types 51 and 52) and cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco, respectively, for the three marketing years beginning October 1, 1975, October 1, 1976, and October 1, 1977. Under the provisions of the same section of the Act, the Secretary proclaimed national marketing quotas for cigar-binder (types 51 and 52) tobacco and for cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco, for the 1975–76, 1976–77, and 1977–78 marketing years, and announced the amount of the national marketing quota for each of such kinds of tobacco for the 1975–76 marketing year (40 FR 5135). The Secretary announced (40 FR 6381) that separate referendums would be conducted by mail ballot during the period February 24–28, 1975, each inclusive, to determine whether cigar-binder (types 51 and 52) tobacco producers and cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco producers were in favor of or opposed to marketing quotas for the three marketing years beginning October 1, 1975, October 1, 1976, and October 1, 1977.

The material previously appearing in these sections under centerhead Marketing Quota Referendum Results remains in full force and effect as to the crops to which they were applicable.

The only purpose of this document is to proclaim the results of the referendums. It is hereby found and determined that with respect to this proclamation, application of the notice and procedure provisions of 5 U.S.C. 553 is unnecessary.

Sections 724.26 and 724.27 are revised to read as follows:

§ 724.26 Cigar-binder (types 51 and 52) tobacco—1975–76, 1976–77 and 1977–78 marketing years.

In a referendum of farmers engaged in the production of the 1974 crop of cigar-binder (types 51 and 52) tobacco held during the period February 24–28, each inclusive, 199 farmers voted. Of those voting, 183 or 92.0 percent, favored quotas for a period of three years beginning October 1, 1975; 16 or 8.0 percent were opposed to quotas. Therefore, the national marketing quota of 6.8 million pounds proclaimed February 1, 1975 (40 FR 5135, 7619) for cigar-binder (types 51 and 52) tobacco for the 1975–76 marketing year will be in effect, and marketing quotas will be in effect for the three marketing years beginning October 1, 1975, October 1, 1976 and October 1, 1977.

§ 724.27 Cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco—1975–76, 1976–77 and 1977–78 marketing years.

In a referendum of farmers engaged in the production of the 1974 crop of cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco held during the period February 24–28, each inclusive, 3526 farmers voted. Of those voting, 3053 of 86.6 percent, favored quotas for a period of three years beginning October 1, 1975; 473 or 13.4 percent were opposed to quotas. Therefore, the national marketing quota of 33.8 million pounds proclaimed February 1, 1975 (40 FR 5135, 7619) for cigar-filler and binder (types 42, 43 44, 53, 54, and 55) tobacco for the 1975–76 marketing year will be in effect, and marketing quotas will be in effect for the three marketing years beginning October 1, 1975, October 1, 1976, and October 1, 1977.

(Secs. 312, 375, 52 Stat. 46, as amended, 66, as amended; (7 U.S.C. 1312, 1375))

Signed at Washington, D.C. on: March 28, 1975.

GLENN A. WEIR,
Acting Administrator, Agricultural Stabilization and Conservation Service.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 991—HANDLING OF HOPS OF DOMESTIC PRODUCTION

Salable Quantity and Allotment Percentage for the 1975–76 Marketing Year

Notice was published in the February 28, 1975, issue of the FEDERAL REGISTER (40 FR 8566) regarding a proposal to establish, for the 1975–76 marketing year, beginning August 1, 1975, a salable quantity of 60,270,000 pounds, and an allotment percentage of 100 percent, for hops grown in Washington, Oregon, Idaho, and California. The salable quantity is the total quantity of hops from any crop grown in those states that may be freely handled by handlers. The salable quantity is prorated among producers by applying the allotment percentage to each producer's allotment base. The result is the quantity handlers may purchase from, or handle for, the producer.

The salable quantity and allotment percentage established by this action are based on a recommendation of the Hop Administrative Committee and other available information in accordance with provisions of Marketing Order No. 991, as amended (7 CFR Part 991), regulating the handling of hops of domestic production, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The notice afforded interested persons the opportunity to submit written data, views, or arguments with respect to the proposal. None were received.

The proposed salable quantity and allotment percentage were based upon recommendations of the Committee made at their meeting of January 20, 1975, and are based on the following estimates for the marketing year beginning August 1, 1975:

(1) Total domestic consumption of 39,500,000 pounds of hops;

V 40-64
APR 2 75

(2) Minus imports of 11,000,000 pounds of hops to result in domestic consumption of U.S. hops of 28,500,000 pounds;

(3) Plus total U.S. exports of 30,000,000 pounds of hops to equal 58,500,000 pounds total usage of U.S. hops;

(4) Minus a desirable inventory adjustment, as of September 1, 1976, of 5,000,000 pounds;

(5) Plus an adjustment of 6,770,000 pounds to provide for adequate supplies should some producer allotments not be fully produced.

Thus, the salable quantity during the 1975–76 marketing year would be 60,270,000 pounds.

The allotment percentage is computed by subtracting from this salable quantity 1,000,000 pounds for additional allotment bases (for hops of the Fuggle variety pursuant to §§ 991.38(b) and 991.138c), and dividing the remainder by 59,270,000 pounds, the total of all allotment bases less the 1,000,000 pound additional allotment bases for Fuggle variety hops.

After consideration of all relevant matter presented, including that in the notice, the information and recommendation submitted by the Committee, the applicable provisions of the marketing order, and other available information, it is found that to establish a salable quantity and allotment percentage as hereinafter set forth will tend to effectuate the declared policy of the act.

Therefore, the salable quantity and allotment percentage to be applicable to the 1975–76 marketing year (August 1, 1975–July 31, 1976) are established as follows:

§ 991.213 Allotment percentage and salable quantity for hops during the marketing year beginning August 1, 1975.

The allotment percentage during the marketing year beginning August 1, 1975, shall be 100 percent, and the salable quantity shall be 60,270,000 pounds.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: March 27, 1975.

FLOYD F. HEDLUND,
Director,
Fruit and Vegetable Division.

[FR Doc.75-8482 Filed 4-1-75;8:45 am]

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Inclusion of Canadian Plant Condensate in Crude Oil Runs for Old Oil Allocation Program

On February 21, 1975, the Federal Energy Administration issued a notice of proposed rulemaking and public hearing (40 FR 8228, February 26, 1975) to amend Part 211, Chapter II of Title 10, Code of Federal Regulations to permit inclusion of plant condensate imported from Canada in a refiner's crude oil runs to stills for purposes of the old oil allocation program (the program). Written comments were invited to be submitted by March 10, 1975 and a public hearing was held on March 12, 1975.

Sixteen written comments were received by FEA in response to the notice of proposed rulemaking and two oral presentations were made at the public hearing. FEA has considered carefully the comments and statements submitted and is hereby adopting the amendment as proposed.

The amendment will be effective for refiners' crude run volumes commencing February 1, 1975. Due to the coverage by the program of Canadian plant condensate imports that have already passed through U.S. Customs, the amendment makes it clear that inclusion of the condensate in crude run volumes is only permissible where payment has been made of the import license fees applicable to crude oil imported for refining under the program. Further, the amendment provides that, for purposes of the relevant Presidential proclamation, Canadian plant condensate is deemed to be defined as crude oil under the program, thus making the condensate subject to the import license fees applicable to crude oil under the proclamation.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93–159; as amended by Pub. L. 93–511; Federal Energy Administration Act of 1974, Pub. L. 93–275; E.O. 11790, 39 FR 23185)

In consideration of the foregoing, Part 211, Chapter II of Title 10, Code of Federal Regulations, is amended as set forth below, effective immediately.

Issued in Washington, D.C., on March 28, 1975.

ROBERT E. MONTGOMERY, Jr.,
General Counsel.

1. Section 211.62 is amended by adding a definition for "plant condensate" in the appropriate alphabetical order to read as follows:

§ 211.62 Definitions.

• • • • • •

"Plant condensate" means a natural gas plant product, mostly pentanes and heavier hydrocarbons, recovered and separated as a liquid at gas inlet separators or scrubbers in processing plants or field facilities and which is not suitable for blending with natural gasoline or refinery gasoline.

• • • • • •

2. Section 211.67 is amended in paragraph (d) by adding a new subparagraph (3) to read as follows:

§ 211.67 Allocation of old oil.

• • • • • •

(d) *Adjustments to volume of crude oil runs to stills.* • • •

(3) The volume of a refiner's crude oil runs to stills in a particular month for purposes of calculating its old oil supply ratio and the adjusted national old oil supply ratio shall include the total number of barrels of plant condensate imported from Canada which is utilized in that month as an input to distillation units by a refiner, measured in accordance with the Bureau of Mines Form 6–1300–M. Plant condensate imported from Canada shall not be eligible for inclusion in the volume of a refiner's crude oil runs to stills under this paragraph (d)(3) unless upon the import thereof payment has been made of the import license fees applicable to crude oil as defined for purposes of this section which is imported for refining, as provided in Presidential Proclamation No. 3279, as amended. For purposes of section 3(a)(1)(viii) of that Proclamation, plant condensate imported from Canada is deemed to be defined as crude oil for purposes of this section.

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER D—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

[No. 75-197]

PART 563—OPERATIONS

Amendment Relating to Delegations of Authority

FEBRUARY 26, 1975.

The following summary of the amendments adopted by this Resolution is provided for the reader's convenience and is subject to the full provisions of this Resolution, including the provisions in the preamble thereof and in the amended regulations set forth below.

I. *Amended regulations.* The Board adopts delegations of authority to its Office of Examinations and Supervision relating to nationwide loans, participation loans, and earmarking of net worth accounts for Federal insurance reserve purposes.

II. *Reason for amendments.* To provide for more prompt processing of applications in these areas.

The Federal Home Loan Bank Board, as the operating head of the Federal Savings and Loan Insurance Corporation, considers it desirable to amend §§ 563.9, 563.9–1, and 563.11 of the rules and regulations for Insurance of Accounts (12 CFR 563.9, 563.9–1, and 563.11). The purpose of these amendments is to delegate authority to make certain approvals or disapprovals under those sections.

Under § 563.9(f) the Corporation may approve waivers for any limitation or requirement of § 563.9, *Nationwide lending.* Present § 563.9(f) is redesignated as § 563.9(f)(1) and a new § 563.9(f)(2) is added to delegate authority to approve or disapprove requests for waivers to the Director of the Board's Office of Examinations and Supervision. New § 563.9(f)(2) also authorizes such Director to delegate such authority to any Deputy Director of the Office of Examinations and Supervision under such circumstances and subject to such limitations as the Director may prescribe.

Similar delegations to the Director of the Office of Examinations and Supervision are adopted for actions under § 563.9–1(b)(2), *Participation loans,* and § 563.11(b), *Federal insurance reserve; establishment of and earmarking to.* Actions of the Director of the Office of Examinations and Supervision or his delegate under §§ 563.9(f) or 563.9–1(b)(2) would be effective with respect to required Corporation approval under § 563.9–2, *Sale of interests in loans on real estate located outside normal lending territory,* without having to amend that section.

Accordingly, the Board hereby amends §§ 563.9, 563.9–1, and 563.11 by revising paragraph (f) of § 563.9, adding a new § 563.9–1(b)(2)(iii), and by revising paragraph (b) of § 563.11, all to read as set forth below, effective February 26, 1975.

Because the above-described amendments relate to rules of Board organization, procedure, or practice, the Board hereby finds that notice and public procedure as to such amendments are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and because publication of said amendments for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date would, in the opinion of the Board, likewise be unnecessary for the same reason, the Board hereby provides that said amendments shall become effective as hereinbefore set forth.

1. Revise § 563.9(f) to read as follows:

§ 563.9 Nationwide lending.

• • • • • •

(f) *Exceptions to limitations or requirements.* (1) An insured institution may apply to the Corporation for a waiver of any limitation or requirement of this section. The application shall, to the extent appropriate, (i) be supported by a map showing the area in which such institution desires to invest its funds, (ii) state the type and character of the loan to be made, purchased, or sold, including the percentage of the loan to appraisal, (iii) show the need in such area for such loan by such institution, (iv) show that the institution is able to service the loan adequately or that the loan will be serviced adequately by or through a local eligible servicer, and (v) show that waiver of the limitation or requirement would be consistent with sound and economical home financing. In the case of an application for waiver of the scheduled items limitation of paragraph (e)(3) of this section, such application shall be filed by the insured institution having a scheduled items ratio in excess of that limitation. A loan made, purchased, or sold pursuant to an approval by the Corporation of such application shall comply with the terms and conditions of such approval. Such application shall be filed with the Supervisory Agent of the district in which the principal office of the applicant is located, with a copy to the Director, Office of Examinations and Supervision, Federal Home Loan Bank Board, 320 First Street, N.W., Washington, D.C. 20552.

(2) The Director of the Office of Examinations and Supervision is authorized to approve or disapprove on behalf of the Corporation applications by insured institutions for waivers under paragraph (f)(1) of this section and in connection with approvals may specify the terms and conditions of such approvals. Such Director is also authorized to delegate to any Deputy Director of the Office of Examinations and Supervision the authority conferred by this paragraph (f)(2) under such circumstances and subject to such limitations as the Director may prescribe.

• • • • • •

2. Add a new § 563.9–1(b)(2)(iii) as follows:

§ 563.9–1 Participation loans.

• • • • • •

(b) *Loans with participation by local approved lenders on real estate located outside normal lending territory.* • • •

(2) *Scheduled items limitation.* • • •

(iii) The Director of the Office of Examinations and Supervision is authorized to approve or disapprove requests by insured institutions under paragraph (b)(2)(ii) of this section. Such Director is also authorized to delegate to any Deputy Director of the Office of Examinations and Supervision the authority conferred by this paragraph (b)(2)(iii) under such circumstances and subject to such limitations as the Director may prescribe.

3. Revise § 563.11(b) as follows:

§ 563.11 Federal insurance reserve; establishment of and earmarking to.

• • • • • •

(b) *Earmarking of net worth accounts.* (1) Any insured institution, by specific and appropriate corporate action, and with the prior written approval of the Corporation, may earmark as part of its Federal insurance reserve account (i) any portion of any other reserve account which, by such corporate action, is made subject to charges for losses only, or (ii) any amount of pledged savings accounts, capital stock (where permitted by State law to be used for absorbing losses), capital surplus, contributed surplus, or retained earnings. Such Corporation approval may set forth the conditions under which such earmarked amounts may be released.

(2) The Director of the Office of Examinations and Supervision is authorized to approve or disapprove on behalf of the Corporation earmarking under paragraph (b)(1) of this section and is authorized in connection with an approval to set forth the conditions under which earmarked accounts may be released. Such Director is also authorized to delegate to any Deputy Director of the Office of Examinations and Supervision the authority conferred by this paragraph (b)(2) under such circumstances and subject to such limitations as the Director may prescribe.

• • • • • •

(Secs. 402, 403, 48 Stat. 1256, 1257, as amended; 12 U.S.C. 1725, 1726, Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071).

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, Jr.,
Assistant Secretary.

[FR Doc.75-8529 Filed 4-1-75;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 75–EA–12; Amdt. 39–2150]

PART 39—AIRWORTHINESS DIRECTIVE

Canadair Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to Canadair CL–44D4 and CL–44J type airplanes.

There have been reports of cracks in the nose landing gear toggle pins. Since this deficiency can exist or develop in aircraft of the same type design, an airworthiness directive is being issued which will require a repetitive inspection and replacement, when necessary, of the toggle pins.

The failure of the toggle pins can result in failure and loss of the landing gear.

In view of the foregoing and because the deficiency is one which affects air safety, notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697) § 39.13 of Part 39 of the Federal aviation regulations is amended by issuing a new Airworthiness Directive as follows:

CANADAIR. Applies to all CL–44D4 and CL–44J airplanes.

Compliance required as indicated:

1. Affects the nose landing gear upper and lower toggle pins P/N 28–86126.

a. Within the next 300 hours' time in service after the effective date of this AD, unless accomplished within the last 450 hours' time in service, remove the upper and lower nose landing gear toggle pins P/N 28–86128 and inspect for cracks emanating from the ends of the slotted hole located at the center of the pins using Magnaflux (MIL–I–6868) or an FAA-approved equivalent inspection.

b. The inspection specified in "a" above shall be repeated at intervals not to exceed 750 hours' time in service from the last inspection.

2. Cracked parts shall be replaced prior to further flight.

a. Replacement parts shall be of the same part number or P/N 28–86128–2 or approved equivalent parts.

3. The inspection specified in (1) is not required if:

a. P/N 28–86128–2 pins are installed or;

b. P/N 28–86128 pins are reworked, in accordance with Canadair Limited Service Information Circular No. 381–CL44 dated

V 40-64
APR 2 75

October 23, 1974, to P/N 28-86128-2 configuration.

4. The aircraft may be flown in accordance with FAR 21.197 to a base where the inspections or repairs can be performed.

5. Upon submission of substantiating data by an owner or operator through an FAA Maintenance Inspector, the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region, may adjust the inspection intervals specified in this AD. Equivalent parts must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

This amendment is effective April 7, 1975.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on March 24, 1975.

DUANE W. FREER,
Director, Eastern Region.

[FR Doc.75-8498 Filed 4-1-75;8:45 am]

[Docket No. 75-EA-3; Amdt. 39-2149]

PART 39—AIRWORTHINESS DIRECTIVE

deHavilland Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal aviation regulations so as to issue an airworthiness directive applicable to deHavilland DHC-6 type airplanes.

There has been a report of a loss of aileron control on a DHC-6 airplane caused by an arcing between the cable and an electrical power line. The arcing caused the eventual severing of the aileron cable. Since this deficiency can exist or develop in other airplanes of similar type design, an airworthiness directive is being issued which will require the alteration of a terminal block and routing of the electrical power line.

In view of the foregoing and because the deficiency is one which affects air safety, notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697) § 39.13 of Part 39 of the Federal aviation regulations is amended by issuing a new airworthiness Directive as follows:

DEHAVILLAND. Applies to deHavilland Model DHC-6 Series Twin Otter Aircraft, Serial Nos. 1 through 135 inclusive.

Compliance required as indicated:

To preclude the hazard created by the failure of the right hand aileron control cable through contact with DC electrical power cable coded 2E66A8, accomplish the following:

(a) Within the next 100 hours' time in service after the effective date of this A.D., after the attachment of terminal block TB-17 and the routing of the cable harness to terminal block TB-17 and TB-18 in accordance with deHavilland Service Bulletin No. 6/304, Revision B, dated June 28, 1974, or equivalent alteration approved by the Chief, Engineering and Manufacturing Branch, FAA Eastern Region.

(b) Upon request with substantiating data submitted through an FAA inspector, the compliance time specified in this A.D. may be increased by the Chief, Engineering and Manufacturing Branch, FAA Eastern Region.

This amendment is effective April 7, 1975.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on March 24, 1975.

DUANE W. FREER,
Director, Eastern Region.

[FR Doc.75-8499 Filed 4-1-75;8:45 am]

[Docket No. 75-SO-57; Amdt. 39-2148]

PART 39—AIRWORTHINESS DIRECTIVES

Piper Model PA-28

There have been found unsecured fuel gascolator drain valves on Piper PA-28 airplanes that could result in fuel loss. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require inspection and tightening of the fuel gascolator drain valve on PA-28-140, 150, 151, 160, S-160, 180, S-180, PA-28R-180 and PA-28R-200 airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697) § 39.13 of Part 39 of the Federal aviation regulations is amended by adding the following new airworthiness directive:

PIPER AIRCRAFT CORPORATION. Applies to PA-28-140, PA-28-150, PA-28-151, PA-28-160, PA-28-S-160, PA-28-180, PA-28-S-180, airplanes serial numbers 28-08, 28-1 thru 28-7525201; PA-28R-180, PA-28R-200 airplanes serial numbers 28R-30002 thru 28R-7535143; certificated in all categories.

To detect and correct unsecured fuel drain valves installed at the gascolator, accomplish the following or an equivalent method approved by Chief, Engineering and Manufacturing Branch, Southern Region:

(a) Prior to next flight, unless already accomplished, check the fuel gascolator drain valve, (Piper Part No. 492-022) to determine if it is tight in the fitting by attempting to turn the valve counter-clockwise by hand. This check may be performed by the pilot.

1. If the valve is loose, tighten by turning clockwise, check the drain for proper operation and tighten the lock seal nut (Piper Part No. 477-677), if installed, all in accordance with FAR 43.

(b) Within the next 50 hours' time in service after the effective date of this AD, unless already accomplished, secure the valve in the gascolator fitting as follows:

1. Remove the fuel gascolator drain valve from the gascolator AN 915-1D fitting, (Piper Part No. 458-046), if installed. NOTE: Do not remove the valve if Loc-tite has been previously applied.

2. Unless already installed, install a lock seal nut (Piper Part No. 477-677). Install with seal toward AN 915-1D fitting.

3. Apply one (1) drop of Loc-tite (88-31) sealant, coating only the 2nd, 3rd, and 4th threads evenly. NOTE: Do not allow Loc-tite to enter the Fuel System.

4. Install drain valve into AN 915-1D fitting with a minimum of 2½ turns and a maximum of 3½ turns.

5. Secure valve in place with lock seal nut. Piper Service Bulletin 450 pertains to this subject.

The amendment becomes effective April 4, 1975.

(Sec. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in East Point, Georgia, on March 21, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.75-8442 Filed 4-1-75;8:45 am]

[Airspace Docket No. 75-SO-30]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal aviation regulations is to alter the Eglin AFB, Fla., control zone.

The Eglin AFB control zone is described in § 71.181 (40 FR 354). In the description, an extension predicated on the ILS localizer southeast course has a width of 6 miles and extends to 8.5 miles southeast of the LMM. Effective March 27, 1975, the Eglin Low Frequency Nondirectional Radio Beacon, associated with the LMM, will be decommissioned, thus cancelling the NDB RWY 30 Standard Instrument Approach Procedure. It is necessary to amend the description to reduce the control zone extension to provide the required protection for the ILS RWY 30 Standard Instrument Approach Procedure only. Since this amendment lessens the burden on the public, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal aviation regulations is amended, effective 0901 G.m.t., March 27, 1975, as hereinafter set forth.

§ 71.171 [Amended]

In § 71.171 (40 FR 354), the Eglin AFB, Fla., control zone is amended as follows:

"• • • within 3 miles each side of the ILS localizer southeast course, extending from the 5-mile radius zone to 8.5 miles southeast of the LMM • • •" is deleted and "• • • within 1 mile each side of the ILS localizer southeast course, extending from the 5-mile radius zone to 4.5 miles southeast of the runway end • • •" is substituted therefor.

Issued in East Point, Ga., on March 21, 1975.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.75-8443 Filed 4-1-75;8:45 am]

[Airspace Docket No. 75-SO-20]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On March 12, 1975, Federal Register Document No. 75-6359 was published in the FEDERAL REGISTER (40 FR 11550), amending Part 71 of the Federal aviation regulations by altering the Augusta, Ga., transition area.

Subsequent to publication of the rule, it was discovered that the McDuffie RBN bearing, on which the extension was predicated, was inadvertently omitted. It is necessary to amend the Federal Register document to include this bearing. Since this amendment is editorial in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, effective immediately, Federal Register Document No. 75-6359 is amended as follows:

In line 13 of the Augusta, Ga., transition area description "• • • McDuffie RBN • • •" is deleted and "• • • 090° bearing from McDuffie RBN •-• •" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on March 21, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.75-8503 Filed 4-1-75;8:45 am]

[Airspace Docket No. 75-EA-9]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The Federal Aviation Administration is amending § 71.171 of Part 71 of the Federal aviation regulations so as to alter the Hagerstown, Md., Control Zone (40 FR 387).

The hours of weather observations and reporting and radio communications will be extended from 0600 to 2100 to 0600 to 2230. In view of the foregoing, the hours of effectiveness of the control zone may likewise be extended.

Since the amendment is minor in nature, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In view of the foregoing, Part 71 of the Federal aviation regulations is amended, effective 0901 G.m.t. June 19, 1975, as follows:

Amend § 71.171 of Part 71 of the Federal aviation regulations by deleting in the description of the Hagerstown, Md. Control Zone, the following: "This control zone is effective from 0600 to 2100 hours local time, daily." and by substituting the following in lieu thereof: "This control zone is effective from 0600 to 2230 hours, local time daily."

(Sec. 307(a), Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348]; sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on March 17, 1975.

JAMES BISPO,
Acting Director, Eastern Region.

[FR Doc.75-8502 Filed 4-1-75;8:45 am]

[Airspace Docket No. 74-CE-31]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On pages 4319 and 4320 of the FEDERAL REGISTER dated January 29, 1975, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal aviation regulations so as to alter the transition area at Belleville, Kansas.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., June 19, 1975.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Kansas City, Missouri, on March 14, 1975.

GEORGE R. LACAILLE,
Acting Director, Central Region.

In § 71.181 (39 FR 440), the following transition area is amended to read:

BELLEVILLE, KANSAS

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Belleville Municipal Airport (latitude 39°49'00" N., longitude 97°39'00" W.); within 3 miles each side of the 356° bearing from the Belleville Municipal Airport, extending from the 5-mile radius to 8 miles north of the airport.

[FR Doc.75-8500 Filed 4-1-75;8:45 am]

[Airspace Docket No. 75-SO-10]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On February 12, 1975, a notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 6509), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal aviation regulations that would designate the Mayfield, Ky., transition area.

Interested persons were afforded an opportunity to participate in the rule-making through the submission of comments. There were no comments received.

In consideration of the foregoing, Part 71 of the Federal aviation regulations is amended, effective 0901 G.m.t., June 19, 1975, as hereinafter set forth.

§ 71.181 [Amended]

In § 71.181 (40 FR 441), the following transition area is added:

MAYFIELD, KY.

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Mayfield-Graves County Airport (latitude 36°46'03" N., longitude 88°35'05" W.).

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on March 25, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

(Sec. 6, 38 Stat. 721; (15 U.S.C. 46). Interprets or applies sec. 5, 38 Stat. 719, as amended; (15 U.S.C. 45))

In the Matter of Fuqua Industries, Inc., a corporation, and Space/Time, Inc., a corporation, and Nationwide Acceptance Corporation, a corporation, Fortune Enterprises, Inc., a corporation, and William L. Phillips, individually and as an officer and director of Fortune Enterprises, Inc.

Consent order requiring an Atlanta, Ga., vocational school operator and franchisor, among other things to refund up to $1.25 million to eligible former students; and requiring a St. Petersburg, Fla., vocational school operator and franchisor, among other things to disclose designated information such as drop-out rates and positions and salaries received by graduates; to allow enrollees a 10-day period in which to affirm their enrollment contracts, with cancellation of contract and refund of money if there is no affirmation of contract; and to provide prospective franchisees with full particulars on the franchise operation in writing.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

I

It is ordered, That respondents Fortune Enterprises, Inc., a corporation, and its officers, and William L. Phillips, individually and as an officer or director of Fortune Enterprises, Inc., and those respondents' agents, representatives, employees, successors and assigns, directly or through any corporation, subsidiary, division, franchisee or other device, in connection with the creating, advertising, promoting, offering for sale or distribution of courses of study, training or instruction or of any franchise for any product or service in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing orally, visually, or in writing, directly or by implication, that:

(a) Inquiries are solicited for the purpose of offering employment to qualified applicants; or that employment is being held out or made available in any respect.

(b) Graduates of any course of instruction offered by respondents are not required to actively seek employment opportunities through sources other than respondents' placement office; or misrepresenting in any manner the requirements, duties, obligations or responsibilities imposed upon any person who seeks placement assistance; or misrepresenting in any manner the capabilities or functions of any placement office, referral service or any other type of assistance in obtaining employment for persons completing any said course.

(c) A purchaser will complete any course of instruction offered by respondents within a specified course duration; or misrepresenting orally, visually, or in writing the length of time required to complete any course of instruction offered by respondents.

(d) The placement assistance furnished by respondents is free or without cost; or misrepresenting orally, visually, or in writing, the cost of any placement assistance or service.

(e) The placement assistance furnished by respondents is made available to all graduates of respondents' courses of instruction, unless placement assistance of the same kind and quality is made available to each such graduate; or misrepresenting orally, visually, or in writing, the extent of any placement assistance or service furnished by respondents.

(f) Individualized training or instruction is furnished in any course of instruction offered by respondents; or misrepresenting orally, visually, or in writing the nature or quality of instruction offered by respondents.

(g) Respondents offer a tuition finance plan which allows purchasers of respondents' courses of instruction to "train now, pay later," or words of similar import and meaning, unless in each and every instance respondents offer, in the regular course and conduct of their business, a tuition finance plan which operates to defer all tuition payments until after the scheduled completion of training.

(h) (1) There is an urgent need or demand, or a need or demand of any size, proportion or magnitude, for graduates of any course of instruction offered by respondents.

(2) Or otherwise representing orally, visually, or in writing that opportunities for employment, or opportunities of any type or number are available to such persons, except as hereinafter provided in paragraph 9(b) of this Order. *Provided, however,* That respondents shall cease and desist from making such representations unless the respondents in each and every instance:

(A) Until the passage of a base period to be determined pursuant to paragraph 9(b) of this Order, after the establishment of a new school location by respondents in any metropolitan area or county, whichever is larger, where respondents did not previously operate a school, and after the introduction by respondents of any new course of instruction at any school or location, shall:

(i) have in good faith conducted a statistically valid survey which establishes the validity of any such representation at all times when the representation is made, and

(ii) have disclosed in immediate and conspicuous conjunction with any such representation, that

All representations of potential employment demand or opportunities for graduates of this school (course) are merely estimates. This school (course) has not been in operation long enough to indicate what, if any, actual employment may result upon graduation.

(B) After the passage of a base period to be determined pursuant to paragraph 9(b) of this Order, and until two years after the establishment of a new school location by respondents in any metropolitan area or county, whichever is larger, where it did not previously operate a school, and after the introduction by respondents of any new course of instruction at any school or location, shall:

(i) make any such representations in the form and manner provided in paragraph 9(b) of this Order, and

(ii) disclose in immediate and conspicuous conjunction with any such representation, that:

This school (course) has not been in operation long enough to indicate what, if any, actual employment may result upon graduation.

2. Failing to keep adequate records which may be inspected by Commission staff members upon reasonable notice:

(a) Which disclose facts upon which any placement percentages or claims, or other representations of the type described in paragraphs 1(h) and 9(b) of this Order are based; and

(b) From which the validity of any placement percentages or claims, or other representations of the type described in paragraphs 1(h) and 9(b) of this Order can be determined.

3. Representing orally, visually, or in writing, directly or by implication, that:

(a) Graduates of respondents' course of instruction are hired by certain local business entities, unless in each and every instance such companies are in fact hiring said graduates in substantial numbers at the time that the representation is made, and in the positions for which such persons have been trained by respondents.

(b) Graduates of respondents' courses are guaranteed a job through respondents' placement office.

(c) A purchaser of any course of instruction offered by respondents is entitled to receive and will receive a full refund of any monies paid as a "reservation fee" if said person cancels his enrollment prior to the commencement of classes; or representing that any refund method, right or privilege is available to purchasers of respondents' courses of instruction, unless said manner of refund is as represented in an integral provision of the written contract used by respondents to sell their courses of instruction.

(d) Any training facilities operated by respondents have standing contractual agreements with local business entities whereby said entities agree to employ the graduates of said facilities; or misrepresenting orally, visually, or in writing the relationship which exists between any of respondents' training facilities and local business entities.

(e) Respondents will place students in part-time employment positions during the time that such students are enrolled in respondents' courses of instruction; or misrepresenting orally, visually, or in writing that any form of employment, remuneration or tuition assistance is available to purchasers of any course of instruction offered by respondents during the time said purchasers are enrolled in respondents' courses of instruction.

(f) Any course of instruction offered by respondents is approved for veterans' education assistance benefits from the United States Government, unless in every instance, each such course is in fact so approved by the appropriate government agency; or misrepresenting orally, visually, or in writing the approval or other form of government action taken with respect to any course of instruction.

4. Failing to place the title "CONTRACT" in bold face type on any document which evidences an agreement between a person and respondents relating to the purchase of one of respondents' courses of instruction; and failing to remove from any such document the word "application," or words of similar import and meaning.

5. Failing to disclose, clearly and conspicuously, orally, visually, or in writing prior to the time that a prospective purchaser of respondents' courses of instruction signs an enrollment contract or contract of sale for any such course where all the necessary equipment to instruct said course is not contained on the premises of respondents' training facilities, that any particular piece of equipment necessary for instruction is located elsewhere than on the premises of respondents' training facilities and that said purchasers must pay the cost of transportation between said facility and the point where the necessary equipment is located.

6. Failing to offer to refund and refund to purchasers of any course of instruction offered by respondents, in the event that any said course is discontinued by respondents prior to completion, or in the event that any said course is cancelled by respondents before classes begin, the full amount of all tuition monies paid by any said purchaser to respondents; *provided however,* That respondents may make available, to any said purchaser, who so selects, a transfer to the same course at a different, specified location where training shall be completed or commenced at no additional cost or change in contractual terms. It is understood and agreed that this Paragraph shall become effective with respect to any course of instruction offered by respondents after the date this Order is formally accepted by the Commission.

7. Representing orally, visually, or in writing, directly or by implication, that any of respondents' company training facilities or franchises have been or are accredited through the use of the name National Career Education Accrediting Association of Washington, D.C., or any abbreviation or seal of same, or any other similar name, or through the use of any name containing the word "Accrediting" or any other similar word, unless the said organization has been recognized by the United States Office of Education as an official accrediting association.

8. Placing any advertisement in any newspaper or magazine column entitled "Help Wanted", "Employment", "Preparing for Employment" or any other title of similar import or meaning, and failing to include in any advertisement, in a clear and conspicuous manner, the full name of any training facility which places or otherwise disseminates said advertisement.

9. Failing to send by certified mail, return receipt requested, to each person who shall contract with respondents for the purchase of any course of instruction, a written notice printed in at least ten (10) point type which shall disclose in substantially the same form as provided in Appendix A the following information and none other:

(a) The title "IMPORTANT INFORMATION" printed in bold face type across the top of the form;

(b) Paragraphs reciting the following information to be computed in the manner and form set forth below for the applicable base period as hereinafter defined in subparagraph (6);

(1) For each different course of instruction offered by respondents for each school, location or facility at which respondents offer said courses of instruction; the dates of the "base period" as computed in (b)(6); the total number of students who graduated during such base period; the numbers and percentages of total graduates who attained employment in the fields for which such graduates were trained. Such information must include an accurate description of each position in which such graduates attained employment.

(2) As to the same graduates used to compute the placement and employment statistics in (b)(1) above, a list of all employers which hired any such graduates during the base period, the number of such graduates hired by each firm or employer and the positions in which said graduates were hired.

(3) As to the same graduates used to compute the statistics in (b)(1) and (b)(2) above, the annual salary or income of said graduates. Such salary or income shall be classified by number of graduates attaining employment in each position described in (b)(1) at starting salaries expressed in consecutive categories of one thousand dollar amounts, in the form described in Appendix A.

(4) In compiling the foregoing information respondents shall not include any such graduates who respondents know have not retained such positions for more than one month from the initial date of employment. Respondents may use information supplied to them by graduates, employers, or other sources and shall not be required to obtain such information independently.

(5) For each course of instruction for which respondents are required to disclose information pursuant to subparagraphs (b)(1) through (b)(4), the total number of students who enrolled in said course and were scheduled to graduate during the base period and the number and percentage of the enrollees in said course who failed to complete the course of instruction. The term, "failure to complete", shall encompass those enrollees who:

(A) Withdrew;

(B) Failed the course (i.e. were academically terminated);

(C) Did not complete the course within the base period in which they were scheduled to graduate and must take (a) make-up exam(s) in order to graduate;

(D) Completed the course but did not receive a graduation certificate due to their failure to pay the balance of the tuition; or

(E) For any other reason, did not successfully complete the course within the base period in which they were scheduled to graduate.

(6) "Base Period" shall mean a six (6) month period beginning eight (8) months before and ending two (2) months before the date on which respondents must begin to disseminate the necessary statistics with respect to the base period.

There shall be a one month period immediately following the close of a base period during which respondents shall gather the necessary statistics with respect to said base period. These statistics will relate to those graduates who successfully complete the particular course of instruction during the base period and who obtained employment during the base period or the one month period thereafter. Respondents may not include in the computation of the statistics for the base period any persons who graduate during the month after the base period and who find jobs during said one month period. Such persons will be included in statistics for the base period during which they graduate.

[1] Copies of the Complaint, Decision and Order, filed with the original document.

V 40 64
APR 2 75

At the end of the first month period immediately following the close of a base period, respondents shall be allowed a second one-month period to calculate and prepare for distribution the necessary statistics with respect to said base period.

On the first day of each month, respondents shall begin to distribute statistics relating to the base period for the period beginning eight months before and ending two months before the first day of each month. Respondents shall continue to distribute said statistics until the first day of the next month and not thereafter.

For any six month period during which respondents have no graduates for a particular course of instruction, respondents may continue to distribute the statistics with respect to the prior base period for said course of instruction until such time as respondents have graduates of said course of instruction and have had one month in which to gather statistics with respect to those graduates and a second month during which to calculate and prepare for distribution the necessary statistics.

Appendix B contains a sample base period calculation.

Provided, however, That subparagraph (b) (1) through (5) (6) above shall be inapplicable to any newly established school that respondents may establish in any metropolitan area or county, whichever is larger, where they did not previously operate a school, or to any course newly introduced by respondents, until such time as the new school or course has been in operation for the base period defined in subparagraph (b) (6) above. The following statement shall be included in such notice during such period:

All representations of potential employment or salaries are merely estimates. This school (course) has not been in operation (offered) long enough to indicate what, if any, actual employment or salary may result upon graduation from this school (course).

After such time as the new school or course has been in operation for the base period (subparagraph (b) (6) above), and until two years after the establishment of a new school location in any metropolitan area or county, whichever is larger, where they did not previously operate a school or after the introduction of any new course by respondents, the following statement shall be included in such notice:

This school (course) has not been in operation (offered) long enough to indicate what, if any, actual employment or salary you may expect to achieve upon graduation from this school (course).

10. Contracting for any sale of any course of instruction in the form of a sales contract or other agreement which shall become binding prior to the purchaser affirming the enrollment contract by signing and returning to respondents the Affirmation Form specified in paragraph 11, within ten (10) days of his receipt of that form. If the purchaser fails to affirm the enrollment contract within the ten (10) day period, respondents shall consider the contract null and void and within ten (10) business days of the expiration of the affirmation period shall refund all monies paid by the purchaser and cancel and return to the purchaser any evidence of indebtedness.

11. Failing to send by certified mail, return receipt requested, to each person who shall contract with respondents for the purchase of any course of instruction, a one page form, in duplicate that contains the following unsigned Affirmation statement printed in bold face type of at least ten (10) points:

NOTICE TO THE PURCHASER

The enrollment contract that you signed with (name of school) on (date) to enroll in (name of course) is not effective or valid unless you first sign this statement and return it to the above named school within ten (10) days from the time that you received this statement. You are free to cancel your enrollment and receive a full refund of any monies you have paid to the school *by not signing or mailing* this statement within ten (10) days. At the expiration of this ten (10) day period the school has ten (10) business days to send you your refund (if any) and to cancel and return to you any evidence of indebtedness that you signed. However, if you do want to enroll in the above named school, you should sign your name below and mail this statement to the school within ten (10) days. Keep the duplicate copy for your own records.

Date

Signature

The Affirmation Form shall not contain any information or representation other than the information specified in this paragraph, and the Form shall be mailed in the same envelope that is used to mail placement information as required by Paragraph 9. The Affirmation Form and said placement information shall be sent by respondents no sooner than the next day after the person shall have contracted for the purchase of any course of instruction. During such period provided for in this paragraph, respondents shall not initiate contact with such person other than that required by this paragraph.

12. Making any representation of any kind whatsoever in connection with the creating, advertising, promoting, offering for sale, sale or distribution of courses of study, training or instruction in any course offered to the public in any field in commerce, for which respondents have no reasonable basis prior to the making or dissemination thereof.

13. Using course names and descriptions which either directly or by implication indicate that respondents' courses are designed to prepare students for certain entry-level positions when in fact a substantial number of graduates of such courses do not achieve such entry-level positions.

14. Representing orally, visually, or in writing, directly or by implication, that purchasers of franchises will receive advice or assistance for maintaining or operating any business, or will receive a franchise that places its graduates in positions of employment; unless respondents have a reasonable basis for each such statement or representation and maintain and upon reasonable notice, provide access to the Commission or its representatives for purposes of inspection or copying, for a period of three (3) years after each such statement or representation, full, complete and accurate records which will disclose:

(a) The time, frequency and duration of use or publication, and the content of each such statement or representation, and details as to the media or other means utilized in its dissemination or publication, and

(b) A factual, documented and verifiable basis for substantiation of each such statement or representation. *Provided further,* That with respect to any statement or representation as to placement or employment, such substantiation shall include a list of firms or employers which are currently hiring graduates of such courses in substantial numbers and in the positions for which such graduates have been trained, and the salary range of such graduates, computed in the manner provided in Paragraph 9 above.

15. Failing to furnish any prospective franchisee with the following information in a legible, written document, at the earlier of the time (1) when the first personal meeting for the purpose of discussing the possible sale of a franchise occurs between prospective franchisee and the franchisor or its sales representative; or (2) at least fifteen (15) business days prior to the execution by the prospective franchisee of any franchise agreement or any other binding obligation, or the payment by the prospective franchisee of any consideration in connection with the sale or proposed sale of a franchise:

(a) A distinctive and conspicuous cover sheet with the following notice in bold face type of not less than ten (10) point size, and containing no other promotional claims or other information not required by State law:

(1) Information for prospective franchisees required by Federal Trade Commission.

This information is provided for your own protection. It is in your best interest to study it carefully before making any commitment. The information contained herein has not been reviewed or approved by the Federal Trade Commission, but any misrepresentation may constitute a violation of Federal law.

(2) If you do sign a contract, you may cancel it and promptly obtain a full refund of any money paid, for any reason, within ten (10) business days after either signing such contract or receiving this disclosure statement, whichever occurs later.

(b) A detachable form which a franchisee may use as a notice of cancellation, which indicates the proper address of accomplishing any such cancellation.

(c) (1) The trade name(s) or trademark(s) under which the franchisor and the prospective franchisee will be doing business; (2) the official name(s) and address(es) and principal place(s) of the franchisor, the parent firm or holding company of franchisor, if any; and (3) all persons the franchisee is required or is suggested to do business with by the franchisor which have a substantial connection with the franchisor.

(d) The business experience stated individually of each of the franchisor's directors and chief executive officers including the biographical data concerning all such persons; except, however, that the information required by this subparagraph need not be disclosed where the franchisor is a listed company on a national stock exchange, although such fact shall be disclosed.

(e) The business experience of the franchisor, including the length of time the franchisor has conducted a business of the type to be operated by the franchisee; has granted franchises for such business; and has granted franchises in other lines of business.

(f) A certified balance sheet for the most recent year, a certified profit and loss statement for the most recent three (3) year period, and a statement of any material changes in the financial soundness of the franchisor since the date of such financial statements.

(g) Where such is the case, a statement that the franchisor or any of its current directors of chief executive officers:

(1) Has been held liable in a civil action by final judgment, convicted of a felony or plead nolo contendere to a felony charge if such felony or civil action involved fraud, embezzlement, fraudulent conversion or misappropriation of property for the most recent seven (7) year period.

(2) Is subject to any currently effective State or federal agency injunctive or restrictive order relating to or affecting franchise activities or the franchisor/franchisee relationship.

(3) Has filed in bankruptcy or has been associated as a director or chief executive officer of any company that has filed bankruptcy or reorganization proceedings for the most recent seven (7) year period.

(4) Has been a party to any cause of action brought by franchisees against the franchisor for the most recent seven (7) year period which resulted either in an out of court settlement or a judgment against the franchisor.

(5) Is presently a party to any cause of action brought by a franchisee against the franchisor.

Such statement shall set forth the identity and location of the court, date of conviction or judgment, and penalty imposed or damages assessed, and the date, nature, and issuer of each such order or ruling.

(h) A factual description of the franchise offered to be sold.

(i) (1) A statement of the total funds which must be paid by the franchisee to the franchisor or to a person having a substantial connection with the franchisor, in order to obtain or commence the franchise operation, such as deposits, downpayments and fees.

(2) If all or part of these fees or deposits are returnable under certain conditions, these conditions should be set forth; and if not returnable such fact so disclosed.

(j) A statement describing the recurring fees required to be paid, in connection with carrying on the franchise business, by the franchisee to the franchisor or to persons having a substantial connection with the franchisor, including but not limited to royalty, lease, advertising, training, and sign rental fees.

(k) A statement disclosing (1) the number of franchises and company-owned outlets operating at the end of the last calendar year, and (2) the names and addresses of the ten (10) franchises or company-owned outlets nearest the prospective franchisee's intended location, indicating which units are company-owned outlets.

(l) A statement of the number of franchises, if any, that operated at a loss during the previous year.

(m) A statement describing any real estate, services, supplies, products, signs, fixtures or equipment relating to the establishment or the operation of the franchise business which the franchisee is required to purchase, lease or rent directly or indirectly from the franchisor or persons having substantial connection with the franchisor.

(n) A description of the basis and the amount of any revenue or other consideration to be received by the franchisor, or persons having a substantial connection with the franchisor, from suppliers to the prospective franchisee in consideration for goods or services required or suggested to be purchased by the franchisee.

(o) (1) A statement of the terms and conditions of any financing arrangement offered directly or indirectly by the franchisor or any person having a substantial connection with the franchisor, and

(2) A description of any payments received by the franchisor from any person for the placement of financing with such person.

(p) A statement whether, by the terms of the franchise agreement or other device or practice, the franchisee is limited in the goods or services he may offer for sale, or limited in the customers to whom he may sell such goods or services.

(q) A statement of the extent to which the franchisor requires the franchisee to participate personally in the direct operation of the franchise.

(r) A statement disclosing: (1) The conditions and terms under which the franchisor allows the franchisee to sell, lease, assign, or otherwise transfer his franchise, or any interest therein, and

(2) the amount of consideration which must be paid to the franchisor for such sale, lease, assignment or transfer, if any.

(s) A statement disclosing: (1) The conditions under which the franchise agreement may be terminated by the franchisor, renewal may be refused, or the franchise may be repurchased by the franchisor at its option;

(2) the number, stated for each category, or franchises which were terminated, renewal refused or repurchased during the preceding calendar year and a complete explanation thereof; and

(3) the conditions under which the franchise agreement may be terminated by the franchisee and the number of franchises voluntarily terminated by franchisees during the preceding calendar year.

(t) If site selection is involved, a statement disclosing the range of time that has elapsed in the preceding calendar year, between signing of a franchise agreement and site selection. If, in addition, operating units are to be provided, a statement disclosing the range of time that has elapsed in the preceding calendar year between the signing of the franchise agreement and opening of the franchise outlet.

(u) If the franchisor offers a training program or informs the prospective franchisee that it intends to provide him with training; the franchisor must specify the specific type and nature of the training, the number of hours or days of instruction, and the cost to the franchisee, if any.

(v) If a franchisor uses the name of a "public figure" in connection with the recommendation of the franchise or as a part of the name of the franchise operation, a statement disclosing: (1) The nature and extent of the public figure's involvement and obligations to the franchisor, including but not limited to the promotional assistance the public figure will provide to the franchisor and to the franchisee; (2) the total investment of the public figure in the franchise operation; and (3) the amount of any fees the franchisee will be obligated to pay for such involvement and assistance provided by the public figure.

(w) A statement explaining clearly the terms and conditions of any covenant not to compete which a franchisee may be required to enter into.

16. *It is further ordered,* That in addition to the information required by Paragraph 15 above, respondents Fortune Enterprises, Inc. and William L. Phillips, in connection with the creating, advertising, promoting, offering for sale or distribution of franchises for courses of study, training, or instruction, shall disclose to any such prospective franchisee in the same manner and form as prescribed in Paragraph 15 above:

(a) The placement percentage for graduates as computed in the following manner: Separately for each course of instruction offered by each of the said franchises at which franchisees conduct business or offer any course of instruction, and during the six month period immediately preceding such computation, the total number of graduates during said period divided into the total number of such graduates who during said period, within the actual knowledge of such school, location or facility, attained employment in the entry-level positions for which said graduates were trained.

(b) The percentage of enrollees, during the past six months, separately for each course of instruction offered by each of the said franchises, who have failed to complete their courses of instructions.

V 40 64
APR 2 75

(c) A list of firms or employers which are currently hiring graduates of respondents' courses in substantial numbers and in the positions for which such graduates have been trained, as to the same graduates used to compute the placement percentage in (a) above.

(d) The salary range achieved by the same graduates used to compute the placement percentage in (a) above, based upon a statistically valid survey conducted in good faith at each location or facility where franchisees offer training.

17. *It is further ordered*, That respondents Fortune Enterprises, Inc. and William L. Phillips shall not:

(a) Make any oral or written representation of a prospective franchisee's potential sales, income, gross or net profit unless:

(1) Such sales, income or profits are reasonably likely to be achieved by the person to whom the representation is made;

(2) The basis and assumptions for such representation are set forth in detail;

(3) Such representation and the underlying data have been prepared in accordance with generally accepted accounting principles;

(4) In immediate conjunction therewith, the following statement is clearly and conspicuously disclosed: "There is no assurance that income and profit projections will be attained by any specific franchisee. They are merely estimates."; and

(5) The amounts represented are not in excess of sales, income or profits actually achieved by existing franchisees. If franchisees have not been in operation long enough to indicate what sales, income or profits may result, then representations of such to a prospective franchisee are prohibited.

(b) Make any claim with respect to past or potential sales, profits, or earnings in any advertising, promotional material, or disclosure statement, or in any oral sales presentation, or discussion between a franchisor's representatives and prospective franchisees, for which the franchisor does not have substantiation in its possession, which substantiation shall be made available to prospective franchisees or the Commission or its staff upon demand.

(c) Make any claim or representation in advertising or promotional material, or in any oral sales presentation, solicitation or discussion between a franchisor's representatives and prospective franchisees, which is inconsistent with the information required to be disclosed by this Order.

(d) Fail to furnish the prospective franchisee with a copy of the completed franchise agreement which shall not become binding prior to the end of the tenth (10th) day after the date of receipt by the customer of the form of notice provided for in paragraph 15 of this Order.

(e) Fail to orally explain to the prospective franchisee, before an agreement is consummated, the cancellation procedure provided in this Order, namely that any contract or other agreement may be cancelled for any reason within ten (10) business days after the contract becomes legally binding on both parties or after the franchisee receives this disclosure statement, whichever occurs later.

(f) Fail to return the funds or deposits in accordance with subparagraph 15(1) of this Order.

18. For the purpose of this Order, the term "in connection with the creating, advertising, promoting, offering for sale or distribution" of any franchise for any product or service shall not include a relationship between respondents and any natural person, partnership, corporation, group, association, or any other business entity involving the mere investment of money.

19. For the purpose of this Order, the term "franchise" shall incorporate by reference the first alternative definition of "franchise" contained in the Federal Trade Commission's revised Proposed Trade Regulation Rule on Disclosure Requirements And Prohibitions Concerning Franchising published at 39 FR 30362.

20. *It is further ordered*, That in the event the Federal Trade Commission promulgates a final Trade Regulation Rule on Disclosure Requirements And Prohibitions Concerning Franchising, then such Trade Regulation Rule shall completely supersede and replace all franchise provisions contained in this Order, except paragraphs 14, 16, 18 and subparagraphs 15(a)(2), 15(b), 15(1), 17(d) and 17(e), and such Trade Regulation Rule shall become a part of this Order.

II

1. *It is further ordered*, That Fortune Enterprises, Inc. and William L. Phillips:

(a) Deliver a copy of this Order by hand or by certified mail to each of their present and future franchisees, licensees, employees, salesmen, agents, solicitors, independent contractors or to any other person or entity which promotes, offers for sale, sells or distributes any course of instruction offered by respondents; *provided however*, with respect to any other franchise for any other product or service, respondents shall deliver to such persons described above a copy of those paragraphs in Part I of this Order applicable to franchising such other products or services and Part II;

(b) Provide each person or entity described in subparagraph (a) above with a form returnable to the respondents clearly stating his (its) intention to be bound by and to conform his (its) business practices to the requirements of this Order; retain said statement during the period said person or entity is so engaged; and make said statement available to the Commission's staff for inspection and copying upon request;

(c) Inform each person or entity described in subparagraph (a) above that the respondents will not use or engage or will terminate the use or engagement of any such person or entity, unless such person or entity agrees to and does file notice with the respondents that he (it) will be bound by the provisions contained in this Order;

(d) Shall not, if such person or entity as described in subparagraph (a) above will not agree to so file the notice set forth in subparagraph (b) above with the respondents and be bound by the provisions of the Order, use or engage or continue the use or engagement of such person or entity to promote, offer for sale, sell or distribute any course of instruction or franchise included in this Order;

(e) Inform each person or entity described in subparagraph (a) above that the respondents are obligated by this Order to discontinue dealing with or to terminate the use or engagement of persons or entities who continue on their own the deceptive acts or practices prohibited by this Order;

(f) Institute a program of continuing surveillance adequate to reveal whether the business practices of each said person or entity described in subparagraph (a) above conform to the requirements of this Order;

(g) Discontinue dealing with or terminate the use or engagement of any person or entity described in subparagraph (a) above, as revealed by the aforesaid program of surveillance, who continues on his (its) own any act or practice prohibited by this Order.

2. *It is further ordered*, That respondents Fortune Enterprises, Inc. and William L. Phillips shall forthwith distribute a copy of this Order to each of their operating divisions which promotes, offers for sale, sells or distributes any course of instruction or franchise offered by respondents.

3. *It is further ordered*, That respondents Fortune Enterprises, Inc. and William L. Phillips shall notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, or any other change in respondents which may affect compliance obligations arising out of this Order.

4. *It is further ordered*, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business or employment in which he is engaged as well as a description of his duties and responsibilities.

III

1. *It is further ordered*, That respondents Fuqua Industries, Inc. ("Fuqua") and William L. Phillips ("Phillips") shall each within sixty (60) days from the effective date of this Order, compile a list from Career Enterprises, Inc. ("Career") records in their respective possession, custody or control, or any other records in their respective possession, custody, or control, of the last known names and addresses of all persons who purchased a Career course of instruction in a company-owned or franchise school of Career

and who first paid monies to Career from January 1, 1969 to July 17, 1972, including the names and addresses of the purchasers' nearest relative(s) or others whose addresses appear on any document relating to said purchaser, supplemented by a list of the same category of persons identified by the Commission and transmitted to said respondents within one hundred five (105) days after the effective date of this Order.

2. *It is further ordered*, That respondents Fuqua and Phillips shall jointly, within sixty (60) days from the effective date of this Order, employ an independent contractor acceptable to the Commission, and give to the independent contractor, within one hundred ten (110) days from the effective date of this Order, the lists of names and addresses of persons referred to in paragraph 1 above. Said independent contractor shall review the lists, strike out any duplication of names and addresses of persons who purchased a Career course of instruction, and shall prepare a final list of all persons to receive Appendices C and D. Said independent contractor shall make an inquiry in writing on the one hundred fiftieth (150th) day after the effective date of this Order, to all persons whose names and addresses appear on the final list, in the language, manner and form shown in Appendices C and D, by first class mail and with a self-addressed postage prepaid envelope. With respect to all persons whose first mailed inquiry is returned unopened said independent contractor shall have a duty, commencing within three (3) business days after such mailed inquiry is returned unopened, to attempt to establish contact with persons referred to above by requesting by mail new addresses from the students' nearest relative(s) or others whose addresses appear on any document supplied to the independent contractor through which a student may be located.

3. *It is further ordered*, That (a) at the expiration of ninety (90) days after the independent contractor first mails Appendices C and D to persons on the final list referred to in paragraph 2 above, the independent contractor shall transmit the Appendix D responses it has received by such date to respondents Fuqua and Phillips, and (b) respondents' obligation to make restitution shall extend only to such persons (i) whose names appear on the final list referred to in Paragraph 2 above and (ii) whose Appendix D responses have been received by the independent contractor at or before the expiration of said ninety (90) day period.

4. *It is further ordered*, That, within one hundred fifty (150) days after the independent contractor first mails Appendices C and D to persons on the final list referred to in paragraph 2 above, respondents Fuqua and Phillips shall refund to purchasers of Career courses of instruction whose names appear on the Appendix D responses transmitted by the independent contractor pursuant to paragraph 3 above, less any prior refunds, seventy-five percent (75 percent) per person, of the total amount of monies paid by such persons to Career, or paid or owed by such persons to any third party financial institution or individual by virtue of the third party's purchase of a contractual debt owed by such persons to Career with respect to such enrollment or instruction; provided, however, that this Order provision shall not apply to any such person who paid less than one hundred dollars and one cent ($100.01) with respect to enrollment or instruction in a Career course, or who attained an employment position as a result of or substantially related to the training received in the course of instruction purchased from or arranged by Career, or who, for reasons unrelated to the training or job demand, elected not to seek such employment, or who made a deposit but did not show up for classes, or who enrolled in a class and dropped out for reasons unrelated to the course of instruction or job demand, and *provided further*, That respondents' obligation to make refunds of any nature whatsoever under this Order provision and as contemplated by the Complaint herein shall expire in all respects at the end of two hundred ten (210) days after the date on which the independent contractor first mails inquiries to purchasers of Career courses of instruction. It is understood and agreed and adopted as part of this Order that respondents' liability for restitution shall not exceed one million two hundred fifty thousand dollars ($1,250,000); and in the event that this sum is not adequate to provide a refund of seventy-five percent (75%) of the total monies paid by persons eligible to receive a refund as set forth in this paragraph, then a proportionate percentage of the 75 percent refund due shall be paid to those persons eligible until the $1,250,000 has been exhausted. Respondents Fuqua and Phillips shall bear equally the expense of making the restitution payments referred to in this Paragraph, *provided*, That in the event the total amount of restitution payments exceeds one million dollars ($1,000,000), Fuqua shall bear the expense of making restitution payments in excess of one million dollars ($1,000,000), up to one million two hundred fifty thousand dollars ($1,250,000). In no event shall the total amount of Fuqua's liability to make restitution exceed one-half of restitution payments, up to and including one million dollars ($1,000,000), or, in the event the restitution payments required by this Order exceed one million dollars ($1,000,000), said one-half share, plus the amount of any required restitution payments over one million dollars ($1,000,000), up to one million two hundred fifty thousand dollars ($1,250,000), for a total maximum Fuqua liability of seven hundred fifty thousand dollars ($750,000). In no event shall the total amount of Phillips' liability to make restitution payments exceed five hundred thousand dollars ($500,000) or one-half of the restitution payments up to one million dollars ($1,000,000), whichever is less. It is further ordered that respondents Fuqua and Phillips' liability for restitution arising out of any of the acts or practices of Career does not and shall not extend to any other period of time or class of claimant other than as provided in this Order.

5. *It is further ordered*, That if an independent contractor acceptable to the Commission is not employed by respondents Fuqua and Phillips within sixty (60) days from the effective date of this Order, then: (i) Said independent contractor shall have ninety (90) days from the time of his employment to prepare the final list and to make the inquiry in writing referred to in Paragraph 2 above, and (ii) said respondents' liability to make refunds shall not expire until two hundred ten (210) days after the date on which the independent contractor first mails inquiries to purchasers of Career courses of instruction.

6. *It is further ordered*, That respondents Fuqua and Phillips shall maintain adequate records for two (2) years after the effective date of this Order, same to be furnished upon request by the Federal Trade Commission, which disclose the dates and manner in which persons were contacted and responded pursuant to the above procedures including all documents received from such persons.

7. *It is further ordered*, That the respondents Fuqua Industries, Inc., Fortune Enterprises, Inc., and William L. Phillips shall notify the Commission at least thirty (30) days prior to any proposed change in the respondents such as dissolution, assignment or sale resulting in the emergence of a successor corporation, or any other change in respondents which may affect compliance obligations arising out of this Order.

8. *It is further ordered*, That each respondent herein shall, within sixty (60) days after service upon it of this Order, file with the Commission a report in writing setting forth the manner and form in which each has complied with this Order, and shall, within two hundred seventy (270) days after the independent contractor first mails the inquiries referred to in paragraph 2 above, file with the Commission a report in writing setting forth the manner and form in which each has complied with Part III of this Order.

APPENDIX A

IMPORTANT INFORMATION

Regarding Students of Career Training Institute of New York, New York.
Course: Keypunch Operator.
Base Period: January 1, 1974 through June 30, 1974.
Information regarding post-graduate employment of graduates:

	Number	Percent
Total graduates	80	[1] 100
Total graduates obtaining employment as keypunch operators	16	20

[1] The examples in this Appendix are for illustration and are not based on actual statistics.

Employers hiring persons who graduated from career training institute of New York, New York, from January 1, 1974 through June 30, 1974:

Salary information regarding persons who graduated from Career Training Institute of New York, New York, from January 1, 1974 through June 30, 1974:

As Keypunch Operators:

4 Graduate(s) began at a salary between $5,000 and 5,999
6 Graduate(s) began at a salary between $6,000 and 6,999
6 Graduate(s) began at a salary between $7,000 and 7,999

Information regarding total number and percentage who failed to complete this course:

	Percent
Total number of students enrolled in this course and scheduled to graduate from January 1, 1974 through June 30, 1974	240
Total number who failed to complete this course	160
Total percentage who failed to complete this course	66

APPENDIX B

Base Period 1 begins January 1, 1974 and ends June 30, 1974.

During July, respondents shall gather the statistics with respect to Base Period 1. These statistics shall include the required information regarding jobs obtained by the January-June graduates from January 1 through July 31. These statistics may not include any persons who graduate during July and who obtain employment before July 31. Those persons will be included in the statistics for Base Period 2. During August respondents shall calculate and prepare the Base Period 1 statistics for distribution.

On September 1, respondents shall begin to disseminate statistics with respect to graduates for the period January 1 through June 30, and respondents shall continue to use those statistics through September 30.

During August, respondents shall gather the statistics with respect to Base Period 2, which begins February 1, 1974, and ends July 31, 1974. These statistics shall include the required information regarding jobs obtained by the February-July graduates from February through August 31. During September, respondents shall calculate and prepare for distribution the necessary statistics.

Beginning October 1, respondents shall disseminate the necessary statistics for Base Period 2 and shall be prohibited from disseminating previous base period statistics.

APPENDIX C

IMPORTANT NOTICE

To: (Name of Addressee).

Subject: Your attendance at (Name of School and City), a Career Enterprises, Inc. school.

By an order of the United States Federal Trade Commission entered on (date of order), we have been directed to determine from you certain facts concerning your relationship with the above Career school. The Commission has determined that the collection of this information is required under the Federal Trade Commission Act to properly implement a Commission order that requires the undersigned individual and Fuqua Industries, Inc. to meet certain obligations with respect to former enrollees of this school. It is important, therefore, that you provide us with your response to the enclosed questionnaire as soon as possible so that we may comply with the Commission's order.

Please mark or fill-in the appropriate spaces on the enclosed statement and return it by the self-addressed, stamped envelope within seven (7) days to:

[Independent Contractor]
[Name and Address]
[Telephone No.]

If you have any questions regarding this letter, please contact the above company.

Your cooperation in this matter will be appreciated.

WILLIAM L. PHILLIPS,
Former Chairman of the Board of Career Enterprises, Inc.

APPENDIX D

Subject: Your attendance at (Name of School and City), a Career Enterprises, Inc. school.

1. Is your present address correctly shown on the envelope? Yes ( ) No ( ). If no, what is your address?

2. On what date did you enroll in the above Career school? _____ _____
Month Year

3. What is the total amount of money you paid for your course at the above Career school? In computing this amount, include both the amount you paid directly to the Career school, and the amount, if any, paid for such course to Career by any financial institution or individual who informed you that your debt obligation had been transferred from the Career school to such financial institution or individual and that, therefore, in the future you would not make payments on your tuition to the Career school, but would make such payments to the financial institution or individual who informed you of this new arrangement. (Total amount $_____).

4. What is the name and address of this financial institution or individual?

5. What is the name of the course you signed up for?

6. Did you attend any classes? Yes ( ) No ( ).

7. Did you complete the course? Yes ( ) No ( ).

8. If the answer to question number 7 is no, set forth reason.

9. Did you receive any refund of any tuition money paid to the above Career school? Yes ( ) No ( ). (If the answer to question number 9 is yes, please answer question number 10).

10. What is the total amount of such refunds received by you? (Total amount $_____).

11. Did you ever attain any employment positions as a result of, or substantially relating to, the training you received from the Career school? Yes ( ) No ( ).

12. If no, why not?

13. Please attach to this form any documents or copies of such documents that indicate you paid an amount of money for any course of instruction offered by the Career school.

This form should be signed and mailed, in the enclosed self-addressed postage paid envelope.

I hereby certify that the above answers are true and correct to the best of my knowledge and belief.

_____
(Date)

_____
(Social Security No.)

_____
(Signature)

_____
(Print Name Here)

_____
(Home Address)

_____
(Home Telephone No.)

_____

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

Delegation of Authority

Pursuant to authority set forth in section 19 of the Securities Act of 1933, section 23(a) of the Securities Exchange Act of 1934, section 20 of the Public Utility Holding Company Act of 1935, Section 319 of the Trust Indenture Act of 1939, section 38 of the Investment Company Act of 1940, and section 211 of the Investment Advisers Act of 1940, the Securities and Exchange Commission hereby amends 17 CFR Part 200 as follows:

Section 200.30-4 is amended by revising paragraph (a)(2) and adding new paragraphs (a)(3) and (4):

§ 200.30-4 Delegation of authority to Director of Division of Enforcement.

* * * * *

(a) * * *

(2) In nonpublic investigatory proceedings within the responsibility of the Director, to grant requests of persons to procure copies of the transcript of their testimony given pursuant to Rule 6 of the Commission's Rules Relating to Investigations as in effect subsequent to November 16, 1972 (17 CFR 203.6).

(3) To terminate and close all investigations authorized by the Commission pursuant to section 20 of the Securities Act of 1933 (15 U.S.C. 77t), section 21 of the Securities Exchange Act of 1934 (15 U.S.C. 78u), section 18 of the Public Utility Holding Company Act of 1935 (15 U.S.C. 79r), section 42 of the Investment Company Act of 1940 (15 U.S.C. 80a-41) and section 209 of the Investment Advisers Act of 1940 (15 U.S.C. 80b-9).

(4) To terminate the authority to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records in the course of investigations instituted by the Commission pursuant to section 19(b) of the Securities Act of 1933 (15 U.S.C. 77s(b)), section 21(b) of the Securities Exchange Act of 1934 (15 U.S.C. 78u(b)), section 18(c) of the Public Utility Holding Company Act of 1935 (15 U.S.C. 79r(c)), section 42(b) of the Investment Company Act of 1940 (15 U.S.C. 80a-41(b)) and section 209(b) of the Investment Advisers Act of 1940 (15 U.S.C. 80b-9(b)).

(Sec. 4(b), 48 Stat. 885, sec. 1106(a), 63 Stat. 972 (15 U.S.C. 78d(b)); sec. 1, 76 Stat. 394 (15 U.S.C. 78d-1); secs. 19, 209, 48 Stat. 85, 908 (15 U.S.C. 77s); sec. 23(a), 48 Stat. 901, sec. 8, 49 Stat. 1379 (15 U.S.C. 78w(a)); sec. 20, 49 Stat. 833 (15 U.S.C. 79t); sec. 319, 53 Stat. 1173 (15 U.S.C. 77 sss); sec. 38, 54 Stat. 841 (15 U.S.C. 80a-37); sec. 211, 54 Stat. 855, sec. 14, 74 Stat. 888 (15 U.S.C. 80b-11))

The Commission finds that the foregoing amendments relate solely to rules and regulations of agency organization, procedure and practice, and therefore the provisions of 5 U.S.C. 553 relating to notice and procedures are not applicable. The foregoing amendments became effective December 18, 1974.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DECEMBER 18, 1974.

[FR Doc.75-8511 Filed 4-1-75;8:45 am]

Title 18—Conservation of Power and Water Resources

CHAPTER II—TENNESSEE VALLEY AUTHORITY

PART 301—PROCEDURES

Fees for Search and Duplication of Records

On pages 7684-7685 of the FEDERAL REGISTER of Friday, February 21, 1975, there was published a notice of proposed rulemaking to amend 18 CFR Part 301 by adding a new § 301.2. Pursuant to the Freedom of Information Act (5 U.S.C. § 552), as amended, the new section provides for a uniform fee schedule for search and duplication of TVA records limited to reasonable standard charges to recover the direct costs of such search and duplication. The new section also provides for waiver and reduction of fees in certain circumstances, as set out in paragraph (c).

The charges for files search and duplication are for clerical time only, and no charge will be made for supervisory time. As stated in the notice of proposed rulemaking, if it develops that significant amounts of supervisory time are being required in the search and duplication process, the regulations may be amended to provide for charges therefor.

Opportunity for comment on or objection to the proposed regulation was given. No comments or objections have been received and the proposed regulation is hereby adopted without change and is set forth below.

Effective date. This new section is effective on April 2, 1975.

By Direction of the Board of Directors.

Dated: March 26, 1975.

LYNN SEEBER,
General Manager.

Part 301 of Title 18 is amended by adding the following new section.

§ 301.2 Schedule of fees.

(a) *Basis.* Except as otherwise provided in subsection (c) of this section, TVA records which are available for public inspection under § 301.1 are made available upon payment of uniform fees which will approximately cover the direct costs to TVA of searching for, compiling, transporting, and copying the records.

(b) *Fees.* The following fees are applicable:

(1) *Time charges.* For time spent searching files, compiling requested material from files, and making any requested copies the charge is $4.15 per hour.

(2) *Duplication charges.* For reproduction of requested material which consists of sheets no larger than 8½ by 14 inches, the charge is ten cents per page. For reproduction of other materials, the charge is the direct cost of photostat or other means necessarily used for duplication.

(3) *Other charges.* Where a response to a request requires services or materials (including personnel) other than the common ones described in paragraphs (1) and (2) of this section, the charge is the direct cost of such services and materials to TVA, but only if the requester has been notified of such cost before it is incurred, or if the request contains a statement that all costs are acceptable.

(c) *Waiver or reduction of fees.* (1) No time charge is made with respect to any request for records requiring less than four (4) hours' time for searching and reproducing documents.

(2) If it is determined by TVA that all material requested is exempt from disclosure under § 301.1 of this part, and TVA accordingly declines to furnish all such material, no fees shall be charged. TVA may waive or reduce fees otherwise chargeable under this section upon its determination that waiver or reduction is in the public interest because furnishing the information can be considered as primarily benefiting the general public.

[16 U.S.C. 831-831dd]

[FR Doc.75-8441 Filed 4-1-75;8:45 am]

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE

[T.D. 75-78]

PART 22—DRAWBACK

Drawback Statements From Manufacturers or Producers

Section 22.20a of the Customs Regulations (19 CFR 22.20a) provides that a claimant for drawback whom the regional commissioner of Customs determines not delinquent or otherwise remiss in transactions with Customs is eligible for accelerated payment of drawback claims which are properly prepared and fully completed. A claimant requesting accelerated payment of a drawback claim must submit with the claim a computation of the amount due. He must also file with Customs, for approval by the regional commissioner, a bond on either Customs Form 7609 or 7611 guaranteeing the refund of any excess payment. If, after receiving such a claim, the regional commissioner determines that the conditions for accelerated payment are met and that the claim appears reasonable in amount, he shall certify for payment 90 percent of the claim as computed by the claimant. It has been determined that increasing the amount of accelerated payment from 90 percent to 100 percent would be beneficial to the exporting claimants. Furthermore, in view of the bond guaranteeing the refund of any excess payments, any danger to the revenue would be eliminated.

Accordingly, the third and fourth sentences of § 22.20a of the Customs Regulations (19 CFR 22.20a), are amended as set forth below:

§ 22.20a Accelerated payment of drawback claims.

* * * If the regional commissioner, after receiving a claim, determines that the conditions for accelerated payment are met and that the claim appears reasonable in amount, he shall, within 3 weeks after the claim is filed, certify it for payment. After liquidation, any amount found to be due will be paid or a demand for refund of any excess payment paid will be made. * * *

(R.S. 251, as amended, sec. 624, 46 Stat. 759 (19 U.S.C. 66, 1624))

Inasmuch as this amendment merely relaxes present requirements and requires no public initiative, notice and public procedure thereon is found to be unnecessary and good cause exists for dispensing with a delayed effective date under the provisions of 5 U.S.C. 553.

Effective date. This amendment will be effective on April 2, 1975.

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

Approved: March 20, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

[FR Doc.75-8524 Filed 4-1-75;8:45 am]

[T.D. 75-77]

PART 113—CUSTOMS BONDS

Customs Bonds

Treasury Decision 74-227, which was published in the FEDERAL REGISTER on September 4, 1974 (39 FR 32013), revised and replaced Part 25 of the Customs Regulations with a new part, designated Part 113, "Customs Bonds". This revision was part of the overall revision of the Customs Regulations which includes a rearrangement of the sequence of parts in Chapter I, title 19, of the Code of Federal Regulations.

Implementing the United States Customs Service's Automated Bond Information System (ABIS), which was established in 1973, § 113.26(a) of the

V 40-64
APR 2 75

Customs Regulations requires that each bond on Customs Forms 7553, 7563-A, 7569, 7595, and 7599, must be accompanied by a completed Bond Transcript on Customs Form 53, in triplicate, and that the bond and bond transcript must be filed with the district director at least 60 days before the bond's effective date. In order to accommodate importers who urgently needed to use the Immediate Delivery and Consumption Entry Term Bond (Customs Form 7553) but who had not previously obtained such a bond and were therefore unable to effect coverage without a delay of 60 days, § 113.26(a) provides an exception to the 60-day advance filing requirement in the case of importers who had not previously obtained a consumption entry term bond. As a result of this exception, a bond on Customs Form 7553 and the related bond transcript may be accepted from an importer who has not previously had such a bond on, or at any time before, the effective date of the bond.

Additional experience with the ABIS program has shown that the 60-day advance filing requirement may be dispensed with in the case of importers who have previously had a consumption entry term bond without adversely affecting the program. Accordingly, it is considered desirable to amend the Customs Regulations to eliminate in all cases the 60-day advance filing requirement for a consumption entry term bond filed on Customs Form 7553 and the accompanying bond transcript.

Accordingly, the second sentence of paragraph (a) of § 113.26 (19 CFR 113.26 (a)) is amended to read as follows:

§ 113.26 Bond transcript for certain term bonds.

(a) * * * The bond and bond transcript shall be furnished at least 60 days before the date on which the bond shows it is to become effective, except that a bond on Customs Form 7553 and the related bond transcript may be accepted on or at any time before, the effective date of the bond. * * *

* * * * *

(R.S. 251, as amended, secs. 623, 624, 46 Stat. 759, as amended (19 U.S.C. 66, 1623, 1624))

Because this amendment merely relaxes a present requirement and requires no public initiative, notice and public procedure thereon is found to be unnecessary, and good cause exists for dispensing with a delayed effective date under the provisions of 5 U.S.C. 553.

Effective date. This amendment shall become effective on April 2, 1975.

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

Approved: March 21, 1975.

JAMES B. CLAWSON,
Acting Assistant Secretary of the Treasury.

[FR Doc.75-8455 Filed 4-1-75;8:45 am]

Title 20—Employees' Benefits

CHAPTER I—OFFICE OF WORKERS' COMPENSATION PROGRAMS, DEPARTMENT OF LABOR

EMPLOYEES' BENEFITS

Claims for Compensation Under the Federal Employees' Compensation Act

Correction

In FR Doc. 75-4173 appearing at page 6876 in the issue for Friday, February 14, 1975, the following corrections should be made:

1. On page 6880 in § 10.100(b) in the 3rd column, the 8th line beginning, "• • • ment related occupational disease or • • • ", should be deleted; and "• • • give written notice of such disease or • • • " should be inserted.

2. On page 6883 in the 1st column, in § 10.123, the 2nd sentence, the word "beaen" should be corrected to read "been".

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER J—RADIOLOGICAL HEALTH

PART 1030—PERFORMANCE STANDARDS FOR MICROWAVE AND RADIO FREQUENCY EMITTING PRODUCTS

Microwave Ovens

The Commissioner of Food and Drugs is amending the performance standard for microwave ovens in § 1030.10 (21 CFR 1030.10) by adding requirements that specific safety instructions be included in user and service manuals, and that all microwave ovens, to which the standard is applicable, bear certain specified warning labels, effective October 3, 1975.

In a notice of proposed rule making published in the FEDERAL REGISTER of May 30, 1974 (39 FR 19797), interested persons were given until July 29, 1974, to file written comments with the Hearing Clerk, Food and Drug Administration, regarding the proposal. Eighty-one letters were received, 64 of which were from consumers and consumer associations, six from manufacturers, four from health care facilities, and seven from various other organizations. Twenty-two letters generally supported all or part of the proposal. Twenty-four letters indicated no general approval or disapproval, while the remaining 35 letters expressed significant opposition. A number of the comments did not relate to the proposed amendment but rather to the microwave oven standard in general.

1. Thirty-one comments stated that the proposed amendment is unnecessary since microwave ovens are extremely safe home appliances. These comments expressed the view that the proposed warning label would be a sales deterrent and would add considerable, unnecessary cost to the purchase price of microwave ovens.

The Commissioner concludes that although microwave ovens have had a good safety record, it is prudent to take preventive action, when indicated, before there are documented incidents of injury. The proposed warning label is considered necessary to insure that consumers receive the most important precautions related to microwave oven use. There has been no evidence provided to support the claim that the proposed amendment would be a sales deterrent or would add considerable cost to the purchase price of microwave ovens. A detailed analysis of the possible economic consequences of the amendment is presented in the environmental assessment report concerning this action. A conclusion of this report is that the costs of compliance with the amendment should be minimal, but potential benefits to the public health are expected to be considerable. A copy of this report is on file in the office of the Hearing Clerk.

2. Fourteen comments urged adoption of all or part of the Consumers Union petition published in the FEDERAL REGISTER of September 13, 1973 (38 FR 25402), or offered recommendations in addition to, or in place of, the proposed amendment.

The preamble to the notice of proposed rule making contained the evaluation and conclusions of the Food and Drug Administration with respect to the petition of Consumers Union of the United States, Inc. As stated, the preamble to the notice of proposed rule making represented the final action of the Food and Drug Administration with respect to the petition. No new significant information or data have been presented to alter this action.

3. One comment suggested that the proposed warning labels be made available to owners of older microwave ovens.

Section 358(c) of the Radiation Control for Health and Safety Act of 1968, does not allow the amendment to apply to microwave ovens manufactured before promulgation of the amendment. However, the information contained in the proposed warning labels is included in consumer literature available from the Food and Drug Administration. Copies of this material may be obtained by writing to the Food and Drug Administration, Bureau of Radiological Health, HFX-26, 5600 Fishers Lane, Rockville, MD 20852. Also, individual manufacturers may, on a voluntary basis, make warning labels available to owners of older ovens.

4. One comment suggested that the phrase "using microwave energy" be deleted from the first precaution in user and service instructions in § 1030.10(c) (4) (iii) (a) and (5) (iii) (a) and from the first warning label precaution in § 1030.10 (c) (6) (i) for ovens that can be operated only with microwave energy. It was stated that the phrase would tend to confuse owners of the majority of microwave ovens which operate only with microwave energy, since the phrase implies that the oven can operate with other than microwave energy.

The Commissioner agrees that, as worded, the warning could be confusing and the phrase has been deleted. It should be noted, however, that proposed § 1030.10(c) (4) (iv), (5) (iv), and (6) (iii) provide for the use of additional instructions for particular oven designs or models. These provisions would permit a manufacturer to employ the phrase "using microwave energy" for combination ovens which use other means of cooking in addition to microwave energy.

5. One comment suggested that the Food and Drug Administration specify the procedures and criteria that would be used to decide which oven models require additional precautions and how the additional precautions should be worded.

The Commissioner has concluded that decisions on the suitability of additional precautions must be made on a model by model basis. It is not possible for the FDA to specify generally applicable procedures and criteria which would be sufficient for all makes and models of ovens.

6. One comment advocated recordkeeping and reporting requirements with regard to § 1030.10(c) (5) (iii) (c) of the proposed service instructions, concerning leakage checks prior to release of a microwave oven to an owner.

The Food and Drug Administration does not have the authority under the Radiation Control for Health and Safety Act of 1968 to impose recordkeeping and reporting requirements on independent service agents. If such requirements were needed, they could be imposed by local or State jurisdictions. However, the Commissioner concludes that no evidence has been presented which supports the need for such requirements on service agents.

7. Several comments stated that proposed § 1030.10(c) (5) (iii) (c) regarding leakage checks, implies a legal obligation to measure leakage radiation and verify compliance with the Federal Standard during each service call, necessitating substantial costs for instrumentation to service agents. Furthermore, it was suggested that leakage checks should be required only if repairs are such that leakage may be affected.

The amendment imposes a requirement on manufacturers to include the prescribed precautions in user and service literature. The Radiation Control for Health and Safety Act of 1968 does not authorize direct regulatory control of service personnel. Therefore, the service instructions state that a microwave leakage check, while not mandatory, should be performed, as an integral part of microwave oven servicing.

8. One comment suggested that the label specified in proposed § 1030.10(c) (6) (i) be on the front exterior surface of the oven. In addition, several comments requested clarification concerning placement of the proposed label.

The Commissioner has established that the intent of the proposed amendment would be served if the label were on any surface (internal or external) as long as the label is readily viewable during normal oven use. Thus, it would fulfill this intent if it were viewable either when the oven door is open or closed. There is no radiation safety basis for specifying the exact position of the label.

9. Three comments stated that the requirements in § 1030.10(c) (5) that service instructions be made available to any interested parties, is inconsistent with the intent of § 1030.10(c) (4) (iii) and (6) (ii) which advise that service should be performed only by qualified service personnel.

The Commissioner has determined that although one intent of the proposed amendment is to discourage unqualified user servicing, this should not be accomplished by withholding service information from those who may have the technical skills to use such information.

10. Two comments requested that the effective date be 1 year after publication of the final order, rather than 6 months as proposed, because some oven models would require design changes in order to place the proposed label according to the amendment.

Since the exact position of the label is not specified, as discussed in paragraph 8 above, the Commissioner has concluded that no currently marketed microwave ovens would require redesign to comply with the labeling provisions of the amendment.

11. Three comments stated that the phrase "exposure to microwave energy," in the proposed warning labels and user and service instructions, implies that any exposure to microwave energy is harmful. It was suggested that the word "excessive" be inserted before "microwave energy."

The Commissioner agrees with the suggested change and § 1030.10(c) (4) (iii), (5) (iii), (6) (i), and (ii) have been changed accordingly.

12. One comment asserted that directing attention to the danger of defeating interlocks in proposed § 1030.10(c) (4) (iii) (a) is, in itself, a potential hazard, since it may invite inspection of and tampering with the interlocks by curious persons.

The Commissioner concludes that since open-door operation is extremely hazardous, interference with the safety interlocks must be vigorously discouraged. It is considered unlikely that the warning would motivate tampering by persons not already disposed to do so. This precaution augments the engineering safeguards provided by the interlock and interlock monitor provisions of the microwave oven standard.

13. One comment suggested changing the word "Radiation" to "Energy" on the service label as proposed in § 1030.10(c) (6) (ii).

The Commissioner agrees with the suggestion. Therefore, the word "Radiation" has been changed to "Energy" in § 1030.10(c) (6) (ii) to be consistent with the phraseology of the user label and instructional material.

14. As an alternative to a permanent warning label, one comment recommended that only a temporary warning sign be required, suggesting that the sign be placed near the microwave oven for users unfamiliar with the oven.

The Commissioner disagrees and emphasizes that a primary reason for requiring permanently attached labels is to make all users aware of the most important precautions. In particular, it is important to inform users of ovens installed in dwellings at the time of construction, and other users who may not have access to the user's manual. These objectives would not be met by a temporary, easily misplaced sign.

15. One comment suggested that the warning label, as proposed in § 1030.10 (c) (6) (i) should only be required for microwave ovens used commercially, and that the label not be required for home ovens because it could detract from the appearance of such ovens.

The Commissioner disagrees with the suggestion since all microwave oven users must be advised of the most important precautions. It would not suffice to require warning labels only on commercially used ovens. The warning label would not be required to be viewable except during normal oven use, i.e., either when the oven door is open or closed. The label may be positioned so that it is not visible when the oven door is closed. See paragraph 8 above.

16. A manufacturer of microwave ovens stated that his and certain other manufacturers' ovens should not be required to bear the proposed user warning label mentioned in § 1030.10(c) (6) (i) primarily because these ovens, by design, are not susceptible to the situations addressed by the proposed label. The comment suggested that either the current performance standard be amended to eliminate the problems addressed by the proposed warning label, or that warning labels not be required for microwave oven models not susceptible to the problems addressed by the label. The commentator rejects the variance provisions in § 1010.4 (21 CFR 1010.4) as a mechanism for relieving such ovens from the labeling requirement because he believes that a variance might appear to the consumer as an indication that the product has uncorrectable radiation safety problems. It was alleged that such an effect upon the consumer would result in an unfair competitive disadvantage for the manufacturers of such ovens.

The Commissioner recognizes that all microwave oven models might not be equally susceptible to the conditions of use warned against in the proposed user label. However, the commentator has not adequately documented his claim that his ovens are not susceptible to conditions such as increased emissions due to a damaged door, hinge, latch, or sealing surface.

With respect to the suggestion that the performance requirements of the current standard be amended to eliminate the problems addressed by the proposed user label, the Commissioner concludes that, while it might be possible to counteract such adverse conditions of use warned against in the proposed label by such an amendment, it would not now be justified. Such a major change in the performance standard at this time would

V 40-64 APR 2 75

severely disrupt the industry and would not yield benefits substantially greater than those realized by the proposed amendment.

The Commissioner concludes that it is reasonable to assume that through technological refinements microwave ovens could be designed which are not likely to be subject to one or more of the adverse conditions of use referred to in the proposed user warning label.

The Commissioner has determined that in such instances a manufacturer should not be required to comply with the provisions of the user warning label requirements.

Therefore, the Commissioner has added to this order a new § 1030.10(c)(6)(iv) whereby a manufacturer may apply to the Director, Bureau of Radiological Health, Food and Drug Administration, for an exemption from part or all of the user warning label requirement. The granting of an exemption will be based on data and information submitted by the manufacturer which substantiate that one or more of the radiation safety warnings in § 1030.10(c)(6)(i) are not necessary for the microwave oven model for which the exemption is sought. The Director may require a sample of the applicable model before a determination is made whether or not to grant the exemption. Those manufacturers who believe their microwave oven design could support an application for exemption, should submit such application to the Director, Bureau of Radiological Health, according to the procedures specified in 21 CFR 1030.10(c)(6)(iv).

The Commissioner has determined that the exemption provision should be limited to the requirement for user labels, and not apply to the user instructions required in § 1030.10(c)(4). The granting of an exemption will be made only on an evaluation, based upon criteria, which shows a very low probability of occurrence of the radiation exposure situation for which the exemption is sought. The precautionary statements in the user instructions, on the other hand, are intended to avert even those situations which have a very low probability of occurrence. They are educational and general in nature, and address all possible adverse conditions of use.

A more detailed analysis of the comments received in response to the proposal is available for public review in the office of the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852. This analysis includes comments that did not relate directly to the proposal, but were received in response to it.

The Radiation Control for Health and Safety Act of 1968 (42 U.S.C. 263f) states that each regulation prescribing, amending, or revoking a standard shall specify the date on which it shall take effect; a regulation prescribing or amending a standard may not take effect sooner than 1 year nor later than 2 years after the date on which such regulation is issued, unless the Secretary finds, for good cause shown, that an earlier or later effective date is in the public interest and issues for publication in the FEDERAL REGISTER his reason for such finding in which case such earlier or later date shall apply.

The Commissioner has determined that an earlier effective date is in the public interest since it is necessary that microwave oven users and service personnel have adequate safety instructions to assure protection of the public health. The amendment should not necessitate any changes in microwave oven design. Furthermore, 6 months should be an adequate length of time to revise user and service manuals and to have user and service labels prepared. Therefore, the earlier effective date should not impose an unreasonable burden on manufacturers.

Pursuant to provisions of § 6.1(b) (21 CFR 6.1(b)), the possible environmental consequences of these amendments have been carefully considered. In accordance with the guidelines of the Council on Environmental Quality (40 CFR 1500.6(a)), concerning the identification of actions which may cumulatively have a significant effect upon the environment, the possible environmental consequences of these amendments have been evaluated. It has been concluded that this action will not have a significant effect upon the environment and, therefore, an environmental impact statement pursuant to section 102(2)(c) of the National Environmental Policy Act is not required.

Data and information supporting the Commissioner's conclusions with respect to this order and a copy of the environmental assessment report are available for public review in the office of the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852.

The Commissioner of Food and Drugs has determined that this amendment to § 1030.10 is necessary for the protection of the public health and safety.

Therefore, pursuant to the Public Health Service Act, as amended by the Radiation Control for Health and Safety Act of 1968 (sec. 358, 82 Stat. 1177–1179; 42 U.S.C. 263f) and under authority delegated to the Commissioner (21 CFR 2.120), § 1030.10 is amended by revising paragraph (c)(4) and adding new paragraph (c)(5) and (6) to read as follows:

§ 1030.10 Microwave ovens.

* * * * * * *

(c) * * *

(4) *User instructions.* Manufacturers of microwave ovens to which this section is applicable shall provide, or cause to be provided, with each oven, radiation safety instructions which:

(i) Occupy a separate section and are an integral part of the regularly supplied users's manual and cookbook, if supplied separately, and are located so as to elicit the attention of the reader.

(ii) Are as legible and durable as other instructions with the title emphasized to elicit the attention of the reader by such means as bold-faced type, contrasting color, a heavy-lined border, or by similar means.

(iii) Contain the following wording:

PRECAUTIONS TO AVOID POSSIBLE EXPOSURE TO EXCESSIVE MICROWAVE ENERGY

(*a*) Do not attempt to operate this oven with the door open since open-door operation can result in harmful exposure to microwave energy. It is important not to defeat or tamper with the safety interlocks.

(*b*) Do not place any object between the oven front face and the door or allow soil or cleaner residue to accumulate on sealing surfaces.

(*c*) Do not operate the oven if it is damaged. It is particularly important that the oven door close properly and that there is no damage to the: (*1*) Door (bent), (*2*) hinges and latches (broken or loosened), (*3*) door seals and sealing surfaces.

(*d*) The oven should not be adjusted or repaired by anyone except properly qualified service personnel.

(iv) Include additional radiation safety precautions or instructions which may be necessary for particular oven designs or models, as determined by the Director, Bureau of Radiological Health or the manufacturer.

(5) *Service instructions.* Manufacturers of microwave ovens to which this section is applicable shall provide or cause to be provided to servicing dealers and distributors and to others upon request, for each oven model, adequate instructions for service adjustments and service procedures, and, in addition, radiation safety instructions which:

(i) Occupy a separate section and are an integral part of the regularly supplied service manual and are located so as to elicit the attention of the reader.

(ii) Are as legible and durable as other instructions with the title emphasized so as to elicit the attention of the reader by such means as bold-faced type, contrasting color, a heavy-lined border, or by similar means.

(iii) Contain the following wording:

PRECAUTIONS TO BE OBSERVED BEFORE AND DURING SERVICING TO AVOID POSSIBLE EXPOSURE TO EXCESSIVE MICROWAVE ENERGY

(*a*) Do not operate or allow the oven to be operated with the door open.

(*b*) Make the following safety checks on all ovens to be serviced before activating the magnetron or other microwave source, and make repairs as necessary: (*1*) Interlock operation, (*2*) proper door closing, (*3*) seal and sealing surfaces (arcing, wear, and other damage), (*4*) damage to or loosening of hinges and latches, (*5*) evidence of dropping or abuse.

(*c*) Before turning on microwave power for any service test or inspection within the microwave generating compartments, check the magnetron, wave guide or transmission line, and cavity for proper alignment, integrity, and connections.

(*d*) Any defective or misadjusted components in the interlock, monitor, door seal, and microwave generation and transmission systems shall be repaired, replaced, or adjusted by procedures described in this manual before the oven is released to the owner.

(*e*) A Microwave leakage check to verify compliance with the Federal performance standard should be performed on each oven prior to release to the owner.

(iv) Include additional radiation safety precautions or instructions which may be necessary for particular oven designs or models, as determined by the Director, Bureau of Radiological Health or the manufacturer.

(6) *Warning labels.* Except as provided in paragraph (c)(6)(iv) of this section, microwave ovens shall have the following warning labels:

(i) A label, permanently attached to or inscribed on the oven, which shall be legible and readily viewable during normal oven use, and which shall have the title emphasized and be so located as to elicit the attention of the user. The label shall bear the following warning statement:

PRECAUTIONS FOR SAFE USE TO AVOID POSSIBLE EXPOSURE TO EXCESSIVE MICROWAVE ENERGY

DO NOT Attempt to Operate This Oven With:

(*a*) Object Caught in Door.

(*b*) Door That Does Not Close Properly.

(*c*) Damaged Door, Hinge, Latch, or Sealing Surface.

(ii) A label, permanently attached to or inscribed on the external surface of the oven, which shall be legible and readily viewable during servicing, and which shall have the word "CAUTION" emphasized and be so located as to elicit the attention of service personnel. The label shall bear the following warning statement:

CAUTION: This Device is to be Serviced Only by Properly Qualified Service Personnel. Consult the Service Manual for Proper Service Procedures to Assure Continued Compliance with the Federal Performance Standard for Microwave Ovens and for Precautions to be Taken to Avoid Possible Exposure to Excessive Microwave Energy.

(iii) The labels provided in accordance with paragraph (c)(6)(i) and (ii) of this section shall bear only the statements specified in that paragraph, except for additional radiation safety warnings or instructions which may be necessary for particular oven designs or models, as determined by the Director, Bureau of Radiological Health or the manufacturer.

(iv) Upon application by a manufacturer, the Director, Bureau of Radiological Health, Food and Drug Administration, may grant an exemption from one or more of the statements (radiation safety warnings) specified in paragraph (c)(6)(i) of this section. Such exemption shall be based upon a determination by the Director that the microwave oven model for which the exemption is sought should continue to comply with paragraph (c)(1), (2), and (3) of this section under the adverse condition of use addressed by such precautionary statement(s). Applications shall be submitted in quintuplicate to the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852. Copies of the written portion of the application, including supporting data and information, and the Director's action on the application will be maintained by the Hearing Clerk for public review. The application shall include:

(*a*) The specific microwave oven model(s) for which the exemption is sought.

(*b*) The specific radiation safety warning(s) from which exemption is sought.

(*c*) Data and information which clearly establish that one or more of the radiation safety warnings in paragraph (c)(6)(i) is not necessary for the specified microwave oven model(s).

(*d*) Such other information and a sample of the applicable product if required by regulation or by the Director, Bureau of Radiological Health, to evaluate and act on the application.

Effective date. This order shall become effective on September 29, 1975.

(Sec. 358, 82 Stat. 1177–1179 (42 U.S.C. 263f))

Dated: March 5, 1975.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

Title 24—Housing and Urban Development

CHAPTER III—GOVERNMENT NATIONAL MORTGAGE ASSOCIATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER A—INTRODUCTION

[Docket No. R–75–210]

PART 300—GENERAL

List of Attorneys-in-Fact

Paragraph (c) of § 300.11 is amended to add additional names to the list of attorneys-in-fact authorized to act on behalf of the Association.

Notice and public procedure on this amendment are unnecessary and impracticable because of the large volume of legal documents that must be executed on behalf of the Association in connection with its recent auctions of mortgages.

Paragraph (c) of § 300.11 is amended by adding the following names in alphabetical sequence to the current list of attorneys-in-fact:

§ 300.11 Power of attorney.

* * * * * * *

(c) * * *

Robert E. Airy, Washington, D.C.

* * * * * * *

Thomas L. Kinney, Washington, D.C.

* * * * * * *

Effective date. This amendment shall be effective April 2, 1975.

DANIEL P. KEARNEY,
President, Government National Mortgage Association.

[FR Doc.75–8457 Filed 4–1–75;8:45 a.m.]

CHAPTER IX—OFFICE OF INTERSTATE LAND SALES REGISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R–75–298]

PART 1700—INTRODUCTION

Subpart A—Authority and Organization

PUBLIC INFORMATION

On November 11, 1974, a notice of proposed rulemaking (39 FR 39733) was published in the FEDERAL REGISTER. The proposal invited public comment on the establishment of a fixed fee of $12.00 per filing for duplication fees and certification of registration to the various States accepting Federal filings. The deadline for receipt of written comments was December 9, 1974. No written comments were received and all verbal comments were favorable with the exception of two, one which addressed the Freedom of Information Act and was beyond the scope of this amendment. The other addressed the method of payment of the fees set forth in the current paragraph (b) and the proposed paragraph (e). As a result of that comment a new paragraph (f) has been added which sets forth the acceptable methods of payments of these fees.

Section 1700.30 is amended by adding new paragraphs (e) and (f) as follows:

§ 1700.30 Public information.

* * * * * * *

(e) *Duplication and certification fee-required documents to the several States that accept Federal filings.* Notwithstanding the provisions of § 15.14 *Schedule of fees* of this title, copies of documents on file with the Office of Interstate Land Sales Registration that are provided for certification to the several states that accept Federal filings will be provided upon request for a fixed fee of $12.00 per filing regardless of the number of pages duplicated.

(f) *Methods of payment.* The fees set forth in paragraphs (d) and (e) of this section may be paid by cash, by personal check, or by company check; or by U.S. money orders; or by certified check payable to the Treasurer of the United States or to the Department of Housing and Urban Development. Postage stamps will not be accepted. All other fees must be paid as set forth in § 15.14(g) of Title 24 of the Code of Federal Regulations.

(Sec. 7(d), Department of Housing and Urban Development Act, 79 Stat. 670 (42 U.S.C. 3535(d), 1419); 82 Stat. 598 (15 U.S.C. 1718); Secretary's delegation of authority published at 37 FR 5071)

Effective date. These amendments will be effective on May 5, 1975.

JOHN R. MCDOWELL,
Acting Interstate Land Sales Administrator.

V 40 I 64
APR 2 75

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-539]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding. Since this publication is merely for the purpose of informing the public of the location of areas of special flood hazard and has no binding effect on the sale of flood insurance or the commencement of construction, notice and public procedure are impracticable, unnecessary, and contrary to the public interest. Inasmuch as this publication is not a substantive rule, the identification of special hazard areas shall be effective on the date shown. Where two dates appear in the column marked effective date of identification, the first listing refers to the initial identification of areas having special flood hazards, and the second date refers to additional areas identified. Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

State	County	Location	Map No.	State map repository	Local map repository	Effective date of identification of areas which have special flood hazards

Title 32—National Defense

CHAPTER VII—DEPARTMENT OF THE AIR FORCE

SUBCHAPTER F—AIRCRAFT

PART 856—AIRCRAFT ARRESTING SYSTEMS

This revision of Part 856 changes the symbols of the responsible offices, includes the definitions of the terms, adds information concerning systems installed overseas, and provides additional information and makes minor changes to update and to clarify the part.

Part 856, Subchapter F of Chapter VII of Title 32 of the Code of Federal Regulations is revised to read as follows:

Sec.
856.1 Purpose.
856.3 Changing concept on the use of aircraft arrestment systems.
856.5 Definitions.
856.7 What systems are authorized.
856.9 Authorized use of aircraft arresting systems.
856.11 Pilot responsibilities.
856.13 Use of systems by non-United States Government aircraft.
856.15 Installing a system at a joint-use airport.
856.17 Agreements required for the operation of these systems.
856.19 Letter of agreement with FAA for operating aircraft arresting systems.

AUTHORITY: Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012.

§ 856.1 Purpose.

This part establishes policy on the management and use of aircraft arresting systems.

§ 856.3 Changing concept on the use of aircraft arresting systems.

With the advent of jet aircraft that are equipped with stronger controllable tailhooks, a change in concept for aircraft arrestment has evolved. At some bases, certain aircraft, (for example, the F–4) routinely make operational arrestments under certain adverse weather and runway conditions. This procedure has reduced accidents and incidents resulting from the loss of directional control or braking action. However, aircraft which do not have tailhooks (for example, the T–38) have structural limitations allowing an arresting system only in an emergency stopping situation. Consequently, the Air Force has reviewed its policy on the use of arresting systems to allow for both operational and emergency arrestments. Related policy management and operation of these systems is in the publications listed in paragraphs (a) through (c) of this section.

(a) AFM 88–14, Part 4, Criteria for Airfield Marking. The OPR is HQ USAF, Director of Civil Engineering (PRE).

(b) AFR 60–11, Aircraft Operation and Movement on the Ground or Water. The OPR is HQ USAF, Flight Management Branch, Office of the Deputy Chief of Staff, Plans and Operations. (XOOFSA).

(c) AFM 86–2, Standard Facility Requirements, Basic Item 116–922 Location Criteria. The OPR is HQ USAF, Director of Civil Engineering (PRE).

§ 856.5 Definitions.

(a) *Aircraft arresting system.* A combination of components used to engage an aircraft and absorb its kinetic energy. Each system consists, generally, of an energy absorber and one or more securing or snaring receivers such as hook-cables or pendant-cables attached to a net.

(1) *Aircraft arresting cable (H/C).* A device used to engage hook-equipped aircraft to absorb the kinetic energy of a landing or aborted take-off aircraft.

(2) *Aircraft arresting barrier.* Referred to as a Barrier (BARRIER), a device used to engage and absorb the kinetic energy or a landing or aborted take-off aircraft which is not dependent on an aircraft arresting hook.

(b) *Airfield arresting system complex.* An airfield layout comprised of one or more aircraft arresting systems of the same or different types (see § 856.7(a) for classification of runways).

(c) *Arrestment capable aircraft.* Aircraft which have recognized arrestment procedures in its appropriate flight handbook.

(d) *Cycle time.* The time measured between the engagement of an aircraft with an arresting system and completion of repositioning the arresting system for another engagement. This includes normal inspection and system cooling time according to the appropriate 35E8 Series technical orders.

(e) *Emergency arrestment system (EAS).* Used primarily to prevent damage to aircraft and possible loss of life during an aborted take-off or a landing emergency.

(f) *Energy absorber.* The mechanism through which the kinetic energy of the aircraft is dissipated. Examples of energy absorbers are weights and rotary hydraulic or friction brakes.

(g) *Hook-cable.* A cable or wire rope which is engaged by the arresting hook of an aircraft during an arrestment.

(h) *Location identification.* An arresting system is identified by stating whether it is located on the approach end or the departure end of the runway. (That is, a BAK–12 on the approach end of R/W 36 is on the south end of the runway, and BAK–12 on the departure end of R/W 36 is on the north end of the runway.) Always use the term "approach end" or "departure end" in referring to an arresting system which is installed near the end of a runway.

(i) *Operational arrestment system (OAS).* Generally, a rapid cycle system used to enhance the tactical mission or to avert a possible emergency which may be caused by meteorological conditions, a short runway, or known or suspected aircraft malfunctions.

(j) *Pendant-cable.* A cable or wire rope suspended from the net of an aircraft arresting barrier which engages a structural portion of the aircraft during an arrestment.

(k) *Reset time.* The time required from the beginning of reset operations to make the arresting system ready for another engagement.

§ 856.7 What systems are authorized.

Each runway used by arrestment compatible aircraft should be equipped either with an EAS or an OAS. An additional system (of either type) should also be installed on a runway if the installation's primary mission involves the operation of arrestment capable aircraft, or if the runway's closure (because of an inoperative system) would result in a serious degradation of mission capability. In any case, the development of the airfield arresting system complex should be made with the objective of providing maximum mission capability within the limits imposed by cost-effectiveness. In evaluating the requirement for installing an arrestment system, there are four classes of runways which must be considered in the decision.

(a) *Class A runway.* This runway is intended primarily for operating tactical or training aircraft. For example, a fully developed Class A runway could have the arresting systems in paragraph (a) (1) through (4) of this section.

(1) An arresting barrier at each end, generally located in the overrun, but placed to provide the runout prescribed in AFM 86–2.

(2) A bi-directional emergency arrestment system on each end of the runway, placed 950 to 1500 feet up the runway from the threshold. (This system may also have an OAS capability.)

(3) A bi-directional operational arrestment system placed 1500 to 2500 feet up the runway from the threshold. It must be placed at least 1000 feet from the EAS, but far enough from it to avoid any possible conflict with the runout from the EAS.

(4) An OAS placed at the midpoint of the runway. However, the installation of this additional system must be specifically approved by HQ USAF.

(b) *Class B runway.* A runway that is a prime alternate for a Class A runway. It should have an EAS or OAS 950 to 1500 feet up the runway on each end, as well as a backup EAS in the overrun.

(c) *Class C runway.* A runway that requires only a single EAS capability on each end of the runway for either hook or nonhook equipped aircraft.

(d) *Class D runway.* A runway that does not have an arresting system requirement.

§ 856.9 Authorized use of aircraft arresting systems.

A deviation from the following policy is authorized only when directed by the major command (or his designated representative) because of meteorological conditions, safety of flight, or peculiar operational conditions:

(a) Under normal operations and conditions, unidirectional barrier nets or arresting cables will be disconnected and, preferably, removed on the approach end of the runway. Aircraft will take off and land toward the most compatible arresting system available; however, tailhook-equipped aircraft will not take off over a raised remote-controlled net barrier if a more compatible arresting system is available (except during cold weather operations). Bi-directional arresting gear will be kept in the ready position on the approach end of the runway, unless directed otherwise by the installation commander and noted in Flight Information Publications (FLIPs).

(b) If aircraft are landing with known or suspected radio failure, the departure end barrier net will be raised (except for B–57 or T–37 aircraft) and the hook-cable positioned for aircraft engagement. Also, the arresting gear at the approach end will be positioned for engagement, unless the aircraft is vulnerable to an inadvertent engagement because of an unguarded tailhook.

(c) If there is no remote control function, or cold weather makes the remote functional unreliable, the arresting net will be raised manually and left in a cocked position on the departure end of the runway.

(d) During ice and snow removal, barrier nets and hook-cables may be removed from the runway, but the runway should be returned to operational status as quickly as possible. Enough of the runway and overruns should be cleared to allow an obstacle-free runout of the arresting system, plus the length of the arrested aircraft.

§ 856.11 Pilot responsibilities.

Each pilot must understand the capabilities and limitations of each arresting system, and how it may affect the operation of his aircraft. Information on the compatibility of these systems should be included in the appropriate flight handbook. In addition, the pilot must:

(a) Determine the status of the arresting system at each base of takeoff and intended landing, as well as any alternate or planned emergency bases, before he begins a flight.

(b) Use the emergency radio phraseology, "barrier, barrier, barrier" or "cable, cable, cable," when emergency conditions require the tower to raise the barrier net or ready a hook-cable for possible engagement of remote controlled systems.

(c) Be aware of the effect of each aircraft configuration on the probability of a successful engagement. He should also be aware of possible damage caused by an inadvertent engagement, landing on, rolling over, or impacting hook-cables or other associated arresting equipment.

§ 856.13 Use of systems by non-United States Government aircraft.

In an emergency, the pilot of these aircraft may, upon request, use the aircraft arresting system at an Air Force base or joint-use airfield in the United States or overseas.

V 40 64
APR 2 75

§ 856.15 Installing a system at a joint-use airport.

At a civil airport used jointly by the Air Force and civil agency the procedure for installing an arresting system is:

(a) The responsible Air Force commander notifies the airport manager that the Air Force needs to install an arresting system.

(b) If the airport manager agrees that the system should be installed, the Air Force commander submits the required plans or sketches to the FAA regional office through FAA channels.

(c) If the airport manager of the FAA disagrees with these specifications, the Air Force commander informs HQ USAF/PRE and requests appropriate action to resolve the disagreement.

(d) If an arresting system is required, but the lease does not authorize or prohibits the Government from placing an additional structure on the leased premises, the Air Force commander submits a request to HQ USAF/PRE for action as prescribed by AFR 87-1, Acquisition of Real Property, and attaches a brief statement explaining or quoting the lease restriction.

§ 856.17 Agreements required for the operation of these systems.

(a) *Military rights agreement at an overseas base.* These systems are installed under the military rights agreement with the host government. If a separate agreement is specifically required to install the system, the base commander initiates action to obtain it from the host government. He coordinates these negotiations with the local United States diplomatic representative. If the commander cannot reach an agreement, he notifies HQ USAF/XOOF, requesting action.

(b) *Liability agreements at a joint-use civil airport.* If the Air Force installs an arresting system for the primary use of United States military aircraft at a joint-use civil airport, the FAA acts for, and on behalf of, the Air Force in operating this equipment. However:

(1) Any third-party claim presented for damage, injury or death, resulting from the FAA operation of the system for military aircraft or from the Air Force or Air National Guard maintenance of the system, is the responsibility of the Air Force and is processed under AFM 112-1, Claims Manual (as prescribed for any claim against the Air Force).

(2) A separate agreement between the Air Force and the FAA is not required concerning liability for damage arising from the intentional operation of the system by FAA personnel for civil aircraft, because such claims are the responsibility of FAA.

(c) *Operational agreement with FAA for a joint-use civil airport.* The major commander has authority to negotiate the written agreement for this use, but may redelegate this authority to the base commander. The agreement must decide FAA functions and responsibilities covering the remote control operation of arresting systems by FAA air traffic controllers (see § 856.19).

§ 856.19 Letter of agreement with FAA for operating aircraft arresting systems.

The following operational agreement is entered into between the (FAA office and address) and (designated command) for the operation and use of aircraft arresting equipment installed on (designated runway, airport name and address).

(a) *General provisions.* (1) This agreement governs the use of the arresting barrier (BARRIER), and hook-cable arresting systems for military aircraft and in an emergency for civil aircraft at pilot request.

(2) Automatic aircraft arresting systems can be installed on the runway or in the overrun. The barrier or hook-cable shall be raised or lowered by control tower personnel by a remote control panel in the control tower.

(3) This agreement becomes effective when the tower chief receives notice in writing from the base commander that:

(i) The arresting system has been accepted from the contractor and is commissioned and fully operational, or

(ii) The arresting system is available on a limited basis for emergency use. If the arresting system has not been accepted from the contractor, this notification must be accompanied by a written statement from the contractor authorizing the emergency use of the system, and waiving any claim against the FAA for damage to the system as the result of such use, or

(iii) A NOTAM has been issued specifying conditions in paragraphs (a) (3) (i) and (ii) of this section. Prior to the receipt of the letter from the base commander, the tower arresting system controls shall be de-energized by the military and placarded "INOPERATIVE" by the Chief Controller, and shall not be activated by tower personnel under any circumstance.

(4) When the arresting systems are in commission or emergency use status, as described in paragraph (a) (3) (ii) of this section, controllers shall operate the tower arresting system controls at the request of a pilot of any military aircraft (regardless of the service concerned, type of aircraft, or whether the operation is routine or emergency) and at the request of a civil pilot in an emergency. The tower shall also comply with requests for arresting system operations by a mobile control units, the base operations officer, or his designated representative.

(5) NOTAMS covering operational or outage status of the barrier or hook cable shall be originated by the military. During a NOTAMED outage for repair or maintenance, the tower personnel shall operate the controls provided that the outage NOTAM contains the statement "available for emergency use" and the tower is provided a copy. Otherwise, tower controls shall be de-energized by the military and posed "INOPERATIVE" by the Chief Controller, and shall not be activated by tower personnel under any circumstance.

(6) During the NOTAMED outages owing to failure of tower controls or control lines to the facility, or upon notification by tower personnel of a malfunction of the arresting system mechanism or remote control system (see paragraph (b)(8) of this section for notice), the military crew at the system site shall have full and final responsibility for operating the arresting device. The arresting system crew shall maintain a listening watch on appropriate air and ground frequencies and have transmit and receive capability with the tower on the ground control frequency in order to keep personnel informed of the position of the system.

(b) *Operations.* (1) Normally, all military aircraft takeoffs and landings shall be made toward an operational arresting system in the appropriate "ready" configuration. It is the pilot's responsibility to request the control tower operator to raise or lower the barrier or hook-cable (NOTE: For normal operations, request to raise the barrier or cable shall be interpreted to mean the runway departure end barrier or cable). Example: "Duluth Tower Joy 32 on base gear down and locked—raise cable." When the pilot advises the control tower that he is ready for takeoff, he shall also request that the barrier or cable be raised. Example: "Duluth Tower Joy 32 ready for takeoff—raise barrier/cable." If an approach end arrestment is desired by the pilot, he must specifically request the approach end cable be raised. Example: "Duluth Tower Joy 32 three mile final gear down and locked—raise cable on approach end of 24." The departure end cable will also be raised as for normal operations.

(2) When the barrier/cable is requested, tower personnel shall advise the pilot of the indicated barrier/cable position when providing takeoff or landing information. Example: Joy 32 cleared for takeoff—barrier/cable indicates up or down.

(3) The barrier/cable operating status may be requested by the pilot at any time.

(4) The barrier/cable controls shall be activated for the down position except when pilots or other authorized personnel request that the barrier/cable be raised.

(5) The tower personnel shall raise the departure end barrier and both approach and departure end barrier and both approach and departure end cables for known or suspected radio failure landings by any military jet aircraft except for B-57, T-37 and large cargo type aircraft C-141, C-5, C-9, and so forth. If there is a doubt regarding the ability of an aircraft to engage a system, the system should be activated.

(6) The standard emergency phraseology for the barrier to be raised to the up position shall be "Barrier, Barrier, Barrier" and for the cable to be raised to the up position shall be "Cable, Cable, Cable."

(7) Tower personnel shall initiate normal crash procedures when an aircraft engages the barrier/cable if these procedures have not previously been initiated.

(8) When there is a malfunction of the barrier or hook-cable mechanism or remote control system, the tower personnel shall notify Base Operations immediately.

Title 33—Navigation and Navigable Waters

CHAPTER II—CORPS OF ENGINEERS, DEPARTMENT OF THE ARMY

PART 380—PUBLIC INVOLVEMENT: GENERAL POLICIES

Policies and Procedures

On January 8, 1975, the Secretary of the Army, acting through the Chief of Engineers, proposed a regulation to provide general policies for public involvement in Corps of Engineers Civil Works planning activities (FEDERAL REGISTER, Vol. 40, No. 5, pp. 1619-1620). A 45-day period was allowed for public comment, closing on February 24, 1975.

No written objections have been received and all comments have been considered. The proposed regulation is adopted, with several editorial changes, as set forth below.

This regulation is effective April 2, 1975.

Dated: March 28, 1975.

CHRISTOPHER P. TATE,
Major, CE, Executive Assistant to Chief of Engineers.

Sec.
380.10 Purpose.

380.15 Policy and objective of public involvement.
380.16 Public involvement programs.
380.17 Documentation of public involvement.
380.18 Public involvement and agency coordination regulations.
380.19 Responsibilities.

AUTHORITY: Water Resources Council, Principles and Standards for Planning Water and Related Land Resources, 38 FR 24778-24869, 10 September 1973.

§ 380.10 Purpose.

This regulation provides general policies for public involvement in Civil Works planning programs.

§ 380.11 Applicability.

This regulation is applicable to all OCE elements and all field operating agencies having Civil Works responsibilities.

§ 380.12 References.

(a) Section 1, Public Law 534, 78th Congress, Flood Control Act of 1944 (58 Stat. 887), December 22, 1944.

(b) Section 1, Public Law 18, 79th Congress, River and Harbor Act of 1945 (59 Stat. 10), March 2, 1945.

(c) Section 2, Public Law 89-80, Water Resources Planning Act (79 Stat. 244), July 22, 1965.

(d) Section 101(b), Public Law 91-190, National Environmental Policy Act of 1969 (83 Stat. 852), January 1, 1970.

(e) Water Resources Council, Principles and Standards for Planning Water and Related Land Resources, 38 FR 24778-24869, 10 September 1973.

(f) AR 340-17.

§ 380.13 Definition.

"Public" is defined as any affected or interested non-Corps of Engineers entity. This includes other Federal, regional, state, and local government entities and officials; public and private organizations; and individuals.

§ 380.14 Basic authorities.

(a) In the referenced authorities, both the Congress and the Water Resources Council have stressed the importance of broad public involvement in Federal water resource planning. The Flood Control Act of 1944 and the River and Harbor Act of 1945 directed the Corps of Engineers to provide to affected States information developed during the course of planning investigations and to consult with the States throughout such studies. In the Water Resources Planning Act of 1965, the Congress encouraged utilization and development of water and related land resources on a coordinated basis by Federal, State and local interests, and established the Water Resources Council as the responsible Federal agency to assist such coordination at the Federal level. More recent legislative and administrative direction on public involvement is embodied in the National Environmental Policy Act of 1969 and the Water Resources Council Principles and Standards. These authorities require Federal planning procedures to be more responsive to increased demands of the public to become more informed and actively involved in water resources management planning and decisions. In essence, these more recent public involvement policies and requirements complement previously established policies and requirements for intergovernmental coordination.

(b) The provisions of 5 U.S.C. 552, commonly referred to as the "Freedom of Information Act", are implemented for the Department of the Army by AR 340-17. Pending issuance of further clarifying instructions by OCE to 5 U.S.C. 552, reporting and reviewing officers are to utilize the guidance provided in the Army Regulation. Questions concerning this Army Regulation should be referred to HQDA (DAEN-GCK) WASH DC 20314.

§ 380.15 Policy and objective of public involvement.

(a) *Policy.* In consonance with the intent of Congress, it is the policy of the Chief of Engineers that the Civil Works program be conducted in an atmosphere of public understanding, trust and mutual cooperation.

(b) *Objective.* The objective of public involvement is to actively involve the public in water resources studies in order to insure that these studies respond to public needs and preferences to the maximum extent possible, within the bounds of local, state and federal programs, responsibilities and authorities. To accomplish this objective, the Corps of Engineers in its planning programs will:

(1) Open and maintain channels of communication with the public.

(2) Encourage public understanding of federal, state, regional, and local responsibilities, authorities and procedures in conducting water resources planning studies and implementing water resources programs,

(3) Present information which will assist the public in defining its water resources problems, needs, and objectives,

(4) Solicit the public's comments, views, and perceptions of problems, needs, alternative solutions and related impacts, and any recommendation for Federal action, and

(5) Give full consideration to public needs and preferences in the planning process.

(c) *Accomplishment of objective.* The accomplishment of the objective of public involvement is the recognition by the public that study conclusions and selected implementation plans of reporting and reviewing officers adequately considered public views and preferences. The test of public acceptance and other evaluation criteria used to select a plan will be discussed in the 1105-2-200 series of regulations.

§ 380.16 Public involvement programs.

If Corps planning is to be responsive to public needs and preferences, a continuous dialogue between the Corps and the public is required during the planning process. The means to establish this dialogue must be identified early in the planning process, formalized as a specific public involvement program, and implemented by the reporting officer in each planning study. Further explanation of such programs will be included in other 1105-2-800 series regulations as discussed in § 380.18 below. The task of achieving the public involvement objective is not easy. A considerable effort to elicit public views is required, as well as integration of diverse public inputs in the planning and decision-making process. There is no single best approach to achieving the Corps public involvement objective. All affected Corps elements should be committed to ongoing training, monitoring and evaluation in order to develop and employ techniques which will achieve the desired results.

V 40-64 APR 2 75

§ 380.17 Documentation of public involvement.

Public involvement programs developed by reporting officers to meet the specific needs of a planning study will be described in the Plan of Study, or other first stage planning document. A summary of public involvement program implementation, including a discussion of how the results of such programs influenced the study conclusions and selected plans, will be incorporated in subsequent planning reports and Statements of Findings.

§ 380.18 Public involvement and agency coordination regulations.

Other regulations will be developed in the 1105–2–800 series to further refine and implement the policies and objective prescribed in this regulation. Several Engineer Pamphlets will be also developed to provide field planners with related information and case studies on conducting effective public involvement programs, with emphasis on communication skills. These regulations will address the following areas:

(a) Coordination established by legislative and executive authorities, and interagency agreements,

(b) Requirements and suggested approaches for developing public involvement programs,

(c) Policies and procedures for public meetings and workshops; and

(d) Standards for public information brochures, public opinion surveys and public notices.

§ 380.19 Responsibilities.

Public involvement programs for planning studies will be the responsibility of the reporting officer. These programs should be developed, conducted and evaluated jointly by personnel from planning and public affairs elements.

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 57—GRANTS FOR CONSTRUCTION OF HEALTH RESEARCH FACILITIES (INCLUDING MENTAL RETARDATION RESEARCH FACILITIES), TEACHING FACILITIES, STUDENT LOANS, EDUCATIONAL IMPROVEMENT AND SCHOLARSHIPS

Nursing Special Project Grants

Correction

In FR Doc. 75-7398, appearing at page 12791, in the issue for Friday, March 21, 1975, make the following corrections:

1. In § 57.1909(d), the first sentence now reading, "Grant funds used for remodeling, alteration, or repairs shall be * * *", should read "Grant funds used for alteration or renovation shall be * * *".

2. In § 57.1909(c) (2) appearing at page 12793, the sentence now reading "There shall be * * *", delete the 7th line, reading "to Subparts F, M, and O of 45 CFR Part", and insert "(ii) any other amounts due pursuant" in its place.

Title 45—Public Welfare

CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 151—RIGHT TO READ PROGRAM

Notice of proposed rule making was published in the FEDERAL REGISTER on August 19, 1974 at 39 FR 29929 setting forth proposed regulations governing grants for planning and operating exemplary reading programs which emphasize training and staff development. Interested persons were given 60 days in which to submit written comments, suggestions, or objections regarding the proposed regulations.

Pursuant to section 503 of the Education Amendments of 1972, a public hearing was held on October 29, 1974 in Washington, D.C. on the proposed regulations.

A. *Summary of comments; changes in the regulations.* Only two comments were submitted to the Office of Education regarding the proposed regulations.

1. *Comment.* A comment was received suggesting that public school district agencies serving schools in a number of counties be allowed to be eligible applicants.

Response. The proposed regulations limited eligibility to "local educational agencies," a term which was not intended to exclude multi-county school agencies, but which was not defined in the proposed regulations. To clarify the matter of eligibility in accordance with the comment, a definition of "local educational agency" (which is derived from section 801 of the Elementary and Secondary Education Act) is added to § 151.31.

2. *Comment.* A second comment was received suggesting that, in § 151.30(b), successful implementation of any model project is dependent not only upon the teacher, but also "the principal and the substantive knowledge and leadership skills which the principal brings to the school." The comment suggested that training focus on principals as well as teachers.

Response. The Office of Education has expanded the proposed provisions to include training for administrative, as well as teaching, staff.

B. *Other changes.* Adjustments in the weights accorded to the funding criteria have been made.

Assistance provided under this Subpart is subject to the provisions in the governing legislation as well as the applicable provisions of Subpart A of Part 151 of the regulations. Assistance is also subject to applicable provisions of Subchapter A of this Chapter (See, in particular, 45 CFR Part 100a).

After consideration of all comments, Title 45 of the Code of Federal Regulations is amended by revising Part 151 to read as set forth below.

We are providing this final regulation pursuant to the provisions of section 431(d) of GEPA because the proposed regulation for the program had been published prior to the enactment of Pub. L. 93–380 and had not, therefor, been transmitted to the Congress.

Effective date. Pursuant to section 431(d) of the General Education Provisions Act, as amended (20 U.S.C. 1232 (d)), these regulations have been transmitted to the Congress concurrently with the publication of this document in the FEDERAL REGISTER. That section provides that regulations subject thereto shall become effective on the forty-fifth day following the date of such transmission, subject to the provisions therein concerning Congressional action and adjournment.

(Catalog of Federal Domestic Assistance Number 13.533—Right to Read—Elimination of Illiteracy.)

Dated: February 24, 1975.

T. H. BELL,
U.S. Commissioner of Education.

Approved: March 25, 1975.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

Subpart C—School-Based Program

Sec.
151.30 Scope and purpose.
151.31 Definitions.
151.32 Criteria for funding.
151.33 Funding requirements.
151.34 Allowable costs.

Subpart C—School-Based Program

§ 151.30 Scope and purpose.

(a) This subpart governs grants to local educational agencies to plan and operate an exemplary and innovative reading program which emphasizes training and staff development.

(b) The school-based program operates on the premise that the successful implementation of any model project is dependent on all staff members, both teachers and administrators, and the substantive knowledge and skills which they bring to the project. For this reason, the school-based program will focus use of its resources on support of quality staff development activities.

(c) As only one part of the Right to Read program strategy for achieving its ultimate goal of eliminating illiteracy, the school-based program must provide for an effective multiplier potential. The staff development projects supported under this subpart will need to be of such quality that these programs will be sufficiently exemplary to be adopted by other local educational agencies and other schools of the same local educational agency.

(20 U.S.C. 331a(a))

§ 151.31 Definitions.

As used in this Subpart:

"Local Educational Agency" means a public board of education or other public authority legally constituted within a State for either administrative control or direction of, or to perform a service function for, public elementary or secondary schools in a city, county, township, school district, or other political subdivision of a State, or such combination of school districts or counties as are recognized in a State as an administrative agency for its public elementary or secondary schools. Such term also includes any other public institution or agency having administrative control and direction of a public elementary or secondary school. As used in this subpart:

"Right to Read school" means a school to be served by a project assisted under this subpart.

(20 U.S.C. 331a(a))

§ 151.32 Criteria for funding.

In addition to the criteria found in § 100a.26(b) of this chapter (300 points), the Commissioner will evaluate grant applications under this subpart according to the following criteria:

(a) (50 points) (1) The extent to which teachers, paraprofessionals, administrators, and librarians to be served by the project will be involved in continuous staff development regarding reading activities conducted within the Right to Read school itself (the best project would involve all of these staff personnel), and (2) the extent to which those activities relate directly to everyday, practical classroom reading activities;

(b) (90 points) The extent to which the project aims at helping these teachers, paraprofessionals, administrators, and librarians in upgrading their competencies in the following skill areas:

(1) Classroom management which minimizes whole-class instruction and maximizes small group and individual instruction;

(2) Effective use of diagnostic and prescriptive reading materials;

(3) Keeping relevant reading records of students;

(4) Use of varied reading instructional techniques;

(5) Systematic planning of sequential reading tasks for students;

(6) Measurement of reading achievement of students;

(7) Measurement of self-competencies in the teaching of reading skills;

(8) Building and using a communication system among these members of the school staff such that continuity is maintained when students move from grade to grade and level to level; and

(9) Training and involving peer students, older elementary students, high school students, college students, parents, and other adults in classroom reading activities;

(c) (25 points) The extent to which the application reflects knowledge on the part of the applicant of recent research and development in the area of reading and staff development;

(d) (25 points) The extent to which the project would address the problem of deficient pupil reading achievement through staff development, using promising planning procedures, implementation techniques and methods, evaluation procedures, and dissemination procedures that are not commonly used in elementary and secondary schools at present;

(e) (50 points) The extent to which the proposed staff development is based on (1) a systematic assessment of the reading needs of the students to be served by the project and (2) a systematic assessment of the instructional reading needs of the teachers, paraprofessionals, administrators, and librarians to be involved in the project;

(f) (25 points) The extent to which the project would focus on the development of the existing staff rather than on the employment of new personnel;

(g) (60 points) The extent to which the proposed staff development would be comprehensive, sequential, varied in approaches and continuous;

(20 U.S.C. 331a(a))

(h) (25 points) The extent to which the application:

(1) Sets forth such policies and procedures as will ensure that the project has been planned and developed, and will be operated, in consultation with, and with the involvement of, parents of the children to be served;

(2) Is submitted with assurance that such parents have had an opportunity to present their views with respect to the application; and

(3) Sets forth policies and procedures for adequate dissemination of program plans and evaluations to such parents and the public.

(20 U.S.C. 1231d)

(i) (25 points) The extent to which the applicant demonstrates that it has been making efforts to improve its reading program through the use of available resources;

(j) (75 points) The extent to which the application contains a detailed plan for (1) testing, evaluating, and disseminating the results of the project; (2) implementing, in the maximum number of schools of the applicant, a system that will make use of the same needs assessment procedures, planning procedures, implementation methods, and evaluation methods as were used at the Right to Read schools; and (3) cooperating with and assisting other local and State educational agencies which wish to adopt those procedures and methods;

(k) (25 points) The extent to which the proposed staff development activities would help staff to understand and assist students in their affective as well as cognitive development with respect to reading; and

(l) (25 points) The extent to which the proposed staff development activities will assist staff (1) in using methods of evaluating student achievement in reading other than by the use of standardized tests and (2) in interpreting standardized test results for staff, parents, and students.

(20 U.S.C. 331a(a))

§ 151.33 Funding requirements.

(a) Projects assisted under this subpart must address the problem of deficient reading achievement of students through activities focused on training and staff development for teachers, administrators, paraprofessionals, and librarians and must be sufficiently exemplary to elicit adoption by other schools.

(b) Assistance under this subpart shall be subject to the following requirements, and each application for assistance under this subpart must describe the proposed activities and provide information adequate to establish that these requirements will be met:

(1) Exemplary planning procedures, implementation techniques and methods, and evaluation and dissemination procedures shall be utilized in the project;

(2) Students whose teachers are involved in the project shall be pre- and post-tested using standardized reading tests; the tests to be used must be identified by name in the application;

(3) The principals of the schools served by the project shall lead in formulating and implementing the project;

(4) The grantee shall appoint a unit task force, consisting of, at least: (i) A representative of the applicant, (ii) a principal, two teachers, a librarian, and a reading specialist of the Right to Read schools, and (iii) two parents. The unit task force shall serve as an advisory body in planning, budgeting, implementing and evaluating the project. The names and signatures of the unit task force members must accompany the application and the application must attest to their participation in the preparation of the application. The unit task force must be equitably representative of the economic, racial, and cultural composition of the student population in the Right to Read schools;

(5) A Right to Read school must have an enrollment which includes a substantial number of students who have serious deficiencies in reading achievement;

(6) The appropriate State educational agency shall be given a reasonable opportunity to review and offer comments on the application prior to its submission to the Commissioner;

(7) The grantee shall disseminate information concerning the project to other local educational agencies and schools, including:

(i) Any new and effective resources which were used in carrying out the project;

(ii) The specific ways in which these resources were used;

(iii) Any problems discovered in the process; and

(iv) Any innovative methods which were used to overcome those problems; and

(8) All staff members to be involved in the project shall be given an opportunity to make recommendations as to the time and location of the activities and the resource persons to be involved in the project.

(c) In selecting applications for funding, the Commissioner will (1) seek to achieve a widespread distribution of Right to Read school-based projects throughout the Nation and (2) select applications which will contribute to the achievement of an ethnic and racial diversity in the population of students involved in the projects assisted under this subpart.

(20 U.S.C. 331a(a))

V 40 I 64
APR 2 75

§ 151.34 Allowable costs.

(a) Allowable costs under grants awarded under this subpart shall be determined in accordance with the cost principles set forth in Appendix B to Subchapter A of this chapter, subject to the following restrictions:

(1) A minimum of 85 percent of the Federal funds provided under the grant shall be used for training or staff development of teachers, paraprofessionals, administrators and librarians in the schools to be served by the project. The remainder may be used for activities such as planning, evaluation, dissemination and parental involvement.

(2) Stipends may be paid to teachers, paraprofessionals, administrators, and librarians when working on staff development activities over and above their forty hour week or during the summer, only when such activities involve a group of four or more persons from the school to be served by the project.

(b) Although there will be no formula for establishing limits to the amount of assistance provided under a grant, it is suggested that the applicant base its total Federal dollar request on an amount not exceeding the product of $600 multiplied by the number of teachers, paraprofessionals, administrators, and librarians to be involved in the project.

(20 U.S.C. 331a(a))

[FR Doc.75-8466 Filed 4-1-75;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

PART 0—COMMISSION ORGANIZATION

Common Carrier Bureau; Reorganization

In the matter of Editorial Amendment of Part 0 of the Commission's Rules to reflect a reorganization of the Common Carrier Bureau.

1. On March 11, 1975 an Order was adopted describing the Office of the Bureau Chief, Common Carrier Bureau. Within that Office an editorial revision is required to change the title of the Administrative Officer to Assistant Chief—Management. Part 0 of the rules and regulations, which describes the organization of the Commission is being amended to reflect this change.

2. The amendment adopted herein pertains to agency organization. The prior notice, procedure and effective date provisions of 5 U.S.C. 553 of the Administrative Procedures Act are therefore inapplicable. Authority for the amendments adopted herein is contained in sections 4(i) and 5(b) of the Communications Act of 1934, as amended and in 0.213(d) of the Commission's rules.

3. In view of the foregoing, *it is ordered*, effective April 9, 1975 Part 0 of the rules and regulations is amended as set forth below.

(Secs. 4, 5, 303, 307, 48 Stat., as amended, 1066, 1068, 1082, 1083; 47 U.S.C. 154, 155, 303, 307)

Adopted: March 20, 1975.

Released: March 25, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] R. D. LICHTWARDT,
Acting Executive Director.

Section 0.93 is revised to read as follows:

§ 0.93 Office of the Bureau Chief.

The Office of the Bureau Chief is composed of the immediate office of the Chief; a Deputy Chief; an Assistant Chief—Management; an Assistant Chief—International Programs; and a Special Projects Staff. They assist the Chief of the Bureau in planning, directing, coordinating, executing and evaluating the functions and programs of the Bureau, and conduct special projects and research efforts in common carrier regulation.

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 1; Amdt. 1-107]

PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Delegations to the Federal Highway Administrator

The Purpose of this amendment is to delegate to the Federal Highway Administrator certain functions vested in the Secretary by the Federal-Aid Highway Amendments of 1974 (Pub. L. 93-643, January 4, 1975, 88 Stat. 2281).

Significant changes made by the Act are:

1. Amendments to sections 147 and 165 of the Federal-Aid Highway Act of 1973, dealing with the rural highway public transportation program and transportation for elderly and handicapped persons, respectively;

2. Changes in vehicle weights and sizes (23 U.S.C. 127);

3. Requirements for a permanent uniform national speed limit of 55 miles per hour, 23 U.S.C. 154);

4. Requirements for State certification of enforcement of the speed limit and the limits on vehicle weights and sizes (23 U.S.C. 141);

5. Extension of the carpool demonstration program (Pub. L. 93-239);

6. Changes in the amount of funds available for interstate substitution projects (23 U.S.C. 103(e)); and

7. Establishment of school bus driver training grants (23 U.S.C. 406).

Those sections of the Act which amend existing sections of title 23, U.S. Code or other statutes which have previously been delegated are subsumed by the existing delegations and do not require additional delegation. A technical amendment is made in the delegations to the Urban Mass Transportation Administrator to reflect amendment of the Federal-Aid Highway Act of 1973.

Chapter 4 of Title 23 incorporates the Highway Safety Act of 1966. Section 126 of the Federal-Aid Highway Act Amendments of 1974 adds a new section 406 to Chapter 4 of Title 23 U.S.C. but does not amend the Highway Safety Act of 1966. Technical changes are made in the delegations to the Federal Highway and National Highway Traffic Safety Administrators to reflect this addition to Chapter 4 of Title 23 U.S.C.

Since this amendment relates to Departmental management, procedures and practices, notice and public procedure thereon are unnecessary and it may be made effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, Part 1 of title 49, Code of Federal Regulations, is amended as follows:

1. In § 1.48, new paragraphs (b) (25), (32) and (33) are added, present paragraphs (b) (25) through (30) are renumbered (b) (26) through (31), and (b) (32) through (37) are renumbered (b) (35) through (40); paragraphs (c) (1) and (15) are revised; paragraph (n) is revised; and a new paragraph (t) is added, to read as follows:

§ 1.48 Delegations to Federal Highway Administrator.

* * * * *

(b) Administer the following sections of title 23, United States Code: * * *

(25) 141;

* * * * *

(32) 154;
(33) 155;
(34) 201 through 219 (Chapter 2);

* * * * *

(c) Administer the following laws relating generally to highways:

(1) Sections 103, 104, 111(b), 128(b), 131, 133(b), 135, 136, 141, 147 (with the concurrence of the Urban Mass Transportation Administrator), 149, 154, 158, 159, 160, 161, 163, 203, 206, 401, and 402 of the Federal-Aid Highway Act of 1973, as amended (Pub. L. 93-87, 87 Stat. 250; Pub. L. 93-643, 88 Stat. 2281).

* * * * *

(15) Section 3 of the Emergency Highway Energy Conservation Act, as amended (Pub. L. 93-239, 87 Stat. 1046).

* * * * *

(n) Carry out the Highway Safety Act of 1966, as amended (80 Stat. 731), and Chapter 4 of Title 23, United States Code for highway safety programs, research, and development relating to highway design, construction, and maintenance, traffic control devices, identification and surveillance of accident locations, and highway-related aspects of pedestrian and bicycle safety.

* * * * *

(t) Exercise the authority vested in the Secretary by sections 101, 118, 119, 120(b), 123, and 124 of the Federal-Aid Highway Amendments of 1974 (Pub. L. 93-643, January 4, 1975; 88 Stat. 2281).

2. In § 1.50, paragraph (g) is revised to read as follows:

§ 1.50 Delegations to the Urban Mass Transportation Administrator.

* * * * *

(g) Sections 140, 146, 147 (with the concurrence of the Federal Highway Administrator), 164 and 165 of the Federal-Aid Highway Act of 1973, as amended (Pub. L. 93-87, Title I, 87 Stat. 250; Pub. L. 93-643, 88 Stat. 2281).

3. In § 1.51, paragraph (b) is amended to read as follows:

§ 1.51 Delegations to National Highway Traffic Safety Administrator.

* * * * *

(b) Carry out the Highway Safety Act of 1966, as amended (80 Stat. 731) and Chapter 4 of Title 23, United States Code, except for highway safety programs, research, and development relating to highway design, construction, and maintenance, traffic-control devices, identification and surveillance of accident locations, and highway-related aspects of pedestrian and bicycle safety.

Effective date. This amendment is effective April 2, 1975.

(Sec. 9(e) Department of Transportation Act (49 U.S.C. 1657(e))

Issued in Washington, D.C., on March 27, 1975.

WILLIAM T. COLEMAN, JR.,
Secretary of Transportation.

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 74-29; Notice 1]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

New Pneumatic Tires for Passenger Cars; Correction

Correction

In FR Doc. 75-6224 appearing at page 11356 in the issue of Tuesday, March 11, 1975 make the following correction:

In the first column, the bold face section heading four lines from the top should read "§ 571.109".

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Amdt. No. 1 to S.O. No. 1198]

PART 1033—CAR SERVICE

Baltimore and Ohio Railroad Co. and Louisville and Nashville Railroad Co. Authorized To Operate Over Tracks of Penn Central Transportation Co., Robert W. Blanchette, Richard C. Bond, and John H. McArthur, Trustees

MARCH 28, 1975.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 27th day of March, 1975.

Upon further consideration of Service Order No. 1198 (39 FR 34666), and good cause appearing therefor:

It is ordered, That: Service Order No. 1198 be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

§ 1033.1198 Service Order 1198.

(a) *The Baltimore and Ohio Railroad Company and Louisville and Nashville Railroad Company authorized to operate over tracks of Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond, and John H. McArthur, trustees.* * * *

* * * * *

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., September 30, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., March 31, 1975.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2))

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the FEDERAL REGISTER.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[S.O. No. 1211]

PART 1033—CAR SERVICE

Chicago, Rock Island and Pacific Railroad Company Authorized To Operate Over Tracks of Ashley, Drew & Northern Railway Company

MARCH 28, 1975.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 28th day of March, 1975.

It appearing, That the Chicago, Rock Island and Pacific Railroad Company (RI), is unable to operate over its line between Whitlow Junction, Arkansas, and Crossett, Arkansas, a distance of approximately 4.7 miles, because of track conditions; that RI operations can be accomplished by use of tracks of Ashley, Drew & Northern Railway Company (ADN), between Whitlow Junction, Arkansas, and Crossett, Arkansas; that the ADN has consented to the use of such tracks by the RI; that the operation by the RI over the aforementioned tracks of the ADN is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1211 Service Order 1211.

(a) *Chicago, Rock Island and Pacific Railroad Company Authorized to Operate Over Tracks of Ashley, Drew & Northern Railway Company.*

(a) The Chicago, Rock Island and Pacific Railroad Company (RI) be, and it is hereby, authorized to operate over tracks of Ashley, Drew & Northern Railway Company (ADN), between Whitlow Junction, Arkansas, and Crossett, Arkansas, a distance of approximately 4.7 miles.

(b) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(c) *Rates applicable.* Inasmuch as this operation by the RI over tracks of the ADN is deemed to be due to carrier's disability, the rates applicable to traffic moved by the RI over the tracks of the ADN shall be the rates which were applicable on the shipments at the time of shipment as originally routed.

(d) *Effective date.* This order shall become effective at 12:01 a.m., March 28, 1975.

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., September 30, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10-17)

Title 50—Wildlife and Fisheries

CHAPTER I—FISH AND WILDLIFE SERVICES, DEPARTMENT OF THE INTERIOR

PART 33—SPORT FISHING

Kirwin National Wildlife Refuge, Kansas

The following special regulation is issued and is effective on April 2, 1975.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

KANSAS

KIRWIN NATIONAL WILDLIFE REFUGE

Sport fishing on the Kirwin National Wildlife Refuge, Kansas, is permitted during 1975 in accordance with state regulations, on all areas not designated by signs as closed to fishing. These open areas, comprising 5,000 acres, are delineated on maps available at refuge headquarters, 5 miles west of Kirwin, Kansas, and from the Regional Director, Fish and Wildlife Service, P.O. Box 25486, Denver Federal Center, Denver, Colorado 80225. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1975.

KEITH S. HANSEN,
Refuge Manager, Kirwin National Wildlife Refuge, Kirwin, Kansas.

MARCH 12, 1975.

[FR Doc.75-8440 Filed 4-1-75;8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

[12 CFR Part 7]

NATIONAL BANKS PROVIDING TRAVEL SERVICES

Proposed Functions of Banks

On December 21, 1973, this office published in the FEDERAL REGISTER, 38 FR 35023, a notice that it was considering revising its Interpretive Ruling 7.7475 entitled "National Banks Acting as Travel Agents." The December 1973 notice referred to the decision of the U.S. Court of Appeals for the First Circuit in the case of Arnold Tours, Inc. v. Camp to the effect that I.R. 7.7475 was "invalid to the extent that it is construed by the Comptroller as authorizing a national bank to operate a full-scale travel agency." Since the court's decision did not define the term "full-scale travel agency", and in view of the controversy surrounding the matter, the office solicited comments from all interested parties as to the proper definition of the term "full-scale travel agency."

Many comments were received from banks and independent travel agents on the matter. After careful consideration of all of these comments and after our own analysis of the Arnold Tours decision, a revised Interpretive Ruling 7.7475 has been drafted. The revised interpretation states that national banks are without power to operate full-scale travel agencies but may, in the Comptroller's opinion, continue certain travel related activities, such as making travel loans, selling travelers' checks, foreign currency, letters of credit, transportation tickets and providing free travel information. Activities deemed to be prohibited would include travel promotion, soliciting travel business from the public at large, and organizing or planning individual or group trips.

Comments on the proposed interpretation should be submitted in writing to Robert Bloom, Chief Counsel, Office of the Comptroller of the Currency, Washington, D.C. 20219, to be received by May 1, 1975. Such material will be made available for inspection and copying upon request, except as provided in § 4.16 (b) as amended 40 FR 7337, February 19, 1975, of the Comptroller's rules regarding the availability of information.

The proposed revised Interpretive Ruling § 7.7475 reads as follows:

§ 7.7475 National banks providing travel services.

(a) A national bank may not operate a full-scale travel agency. However, national banks historically have provided and may continue to provide services related to travel which are either expressly permitted or are incidental to the business of banking. Such services may include the following: making travel loans, providing travel information, acting as collection agent for a steamship, railroad, airline or other company, selling travelers' checks and foreign currency, and issuing letters of credit.

(b) Travel services provided pursuant to paragraph (a) should be provided principally to serve bank customers, subject to the prohibitions of 12 U.S.C. 1972 against tie-ins. Thus, a national bank should not hold itself out as operating a full-scale travel agency or offering all services available from a travel agent, and advertising of bank travel services should be limited to on-premises displays, mailings to existing bank customers and inclusion in advertisements of other bank services.

(c) A national bank may not invest its own funds in an inventory of tickets, tours, or accommodations for the purpose of reselling them to the public or otherwise undertake any financial risks in the provision of travel services other than the normal risks inherent in bank agency, safekeeping and lending functions.

Dated: March 28, 1975.

[SEAL] JAMES E. SMITH,
Comptroller of the Currency.

[50 CFR Part 17]

ATLANTIC BLUEFIN TUNA

Proposed "Threatened" Status

MARCH 25, 1975.

The Director, National Marine Fisheries Service, in consultation with the Director, United States Fish and Wildlife Service, hereby issues a notice of proposed determination, pursuant to the Endangered Species Act of 1973, 16 U.S.C. 1531 et. seq., that Atlantic bluefin tuna (*Thunnus thynnus thynnus*), indigenous to the Atlantic Ocean, is a threatened species. Proposed rules, procedures, and measures to conserve and manage this species will be published shortly in 50 CFR Part 227.

Background. The status and welfare of the Atlantic bluefin tuna stock has been the subject of discussion domestically and internationally in several forums in recent years. It is currently the subject of an intense scientific investigation in the Northwestern Atlantic by the National Marine Fisheries Service. The scientific consensus from these discussions and preliminary findings of the studies is that the data presently available are inadequate to positively determine the status of the Atlantic bluefin tuna stocks, but the data convincingly indicate that adult (or spawning) Atlantic bluefin tuna stocks are substantially reduced in number from previous years. The ongoing scientific studies will eventually supply information needed to determine the sustainable level of harvest. However, in the meantime, proper management requires that steps be taken to assure that spawning stocks will not be reduced to the extent that recruitment of small fish would be adversely affected.

Summary of recent actions and recommendations. In 1974 the National Marine

V 40 I 64
APR 2 75

Fisheries Service, in cooperation with Canada, the eastern coastal States, academia and commercial and recreational fishing groups, commenced a comprehensive scientific study and stock sampling program on the Atlantic bluefin tuna found adjacent to the Atlantic coast of the United States. The broad goals were (1) to determine the status of the stocks, (2) to identify the effects of fishing thereon, and (3) develop a suitable management program. This study was predicated on the need to acquire information necessary to develop a sound management program for proper protection of this important commercial and recreational species.

Additionally in 1974, the National Marine Fisheries Service met with appropriate Canadian fisheries officials for the purpose of developing an international research program and implementing immediate conservation measures, which included a voluntary management program. Meetings were also held with state management agencies and conservation organizations to coordinate such voluntary regulatory actions. The National Marine Fisheries Service then prepared and published in the FEDERAL REGISTER (39 FR 22444) on June 24, 1974, voluntary guidelines for persons subject to the jurisdiction of the United States fishing for Atlantic bluefin tuna. These guidelines relate to conservation measures required to maintain the Atlantic bluefin tuna stocks with a view toward preserving recreational opportunities for marine anglers and maintaining a viable commercial industry.

The United States Delegation to the International Commission for the Conservation of Atlantic Tunas (ICCAT) proposed bluefin tuna conservation measures at the Annual Meetings in 1973 and again in 1974. The 1974 recommendations were discussed extensively by the scientific committee of ICCAT, the Standing Committee on Research and Statistics (SCRS). This committee, after carefully reviewing the scientific information available considered two management actions: (1) Short-term reduction of fishing intensity on giant fish, to protect spawning fish, and (2) long-term reduction in purse seine fishing of young fish to permit escapement of maturing fish. These general recommendations were further refined to describe specific actions that must be taken. The resulting recommendations of the Commission were sent to member countries for a mail vote. These recommendations read as follows:

First. That the Contracting Parties take the necessary measures to prohibit any taking and landing bluefin tuna (*Thunnus thynnus thynnus*) weighing less than 6.4 kg.

Notwithstanding the above regulation, the Contracting Parties may grant tolerances to boats which have incidentally captured bluefin weighing less than 6.4 kg., with the condition that this incidental catch should not exceed 15 percent of the number of fish per landing of the total bluefin catch of said boats or its equivalent in percentage by weight.

Second. That as a preliminary step, the Contracting Parties that are actively fishing for bluefin tuna (*Thunnus thynnus thynnus*) or those that incidentally catch it in significant quantities shall take the necessary measures to limit the fishing mortality of bluefin tuna to recent levels for a period of one year.

The Executive Secretary of ICCAT notified all member countries by letter dated February 7, 1975, that a majority of ICCAT member countries replied in favor of these recommendations. Therefore, in accordance with Article VIII(2) of the Convention, the referred recommendations will enter into effect for all member countries on August 10, 1975. However, if any contracting government presents to the Commission an objection to the recommendation within this six-month period, the recommendation will not become effective for an additional sixty days.

The need for immediate conservation measures has also been conveyed to the National Marine Fisheries Service by interested individuals and conservation organizations in response to a FEDERAL REGISTER notice of July 12, 1974 39 FR 25677.

The Sport Fishing Institute responded that the best available scientific information indicates that the bluefin tuna stocks of the North Atlantic are in so depleted a state as to threaten endangerment of the species, unless effective regulatory action is invoked to control harvest at levels significantly below those of recent record. A resolution has been received from this organization specifically requesting that the Atlantic bluefin tuna be declared a threatened species under the Endangered Species Act of 1973. An additional letter of August 19, 1974, urged that the species be officially classified as "threatened" in order that an adequate regulatory mechanism may be invoked and the species prevented from declining further to the endangered status.

Mr. Frank Mather of the Woods Hole Oceanographic Institution has repeatedly expressed his concern for the status of Atlantic bluefin tuna and feels strongly that if present trends in the bluefin stocks continue, we will be faced with a most serious situation on an ocean wide basis.

The International Game Fish Association has written and recommended that "Unless a satisfactory conservation policy can be established for the year 1975 and sufficient authority be given to your agency to enforce this policy, then there is a good case for having this species declared as a threatened species."

Response from The Emergency Committee to Save America's Resources requests that the bluefin tuna be declared an "Endangered Species," seining eliminated and sportfishermen restricted to very moderate catches.

The Department of Environmental Conservation of the State of New York has written and urged that Atlantic bluefin tuna be declared a threatened species.

Proposed action. The Endangered Species Act of 1973 authorizes the Secretary, by regulation, to determine whether any species is endangered or threatened because of, among other things, the inadequacy of existing regulatory mechanisms. Since at this time there are no regulatory mechanisms, even though shown and recognized to be necessary, it is accurate to say that existing regulatory mechansims are inadequate within the meaning of section 4(a)(1)(4) of the Act (16 U.S.C. 1533(a)(1)(4)). Therefore, the Director proposes to determine that the Atlantic bluefin tuna is a "threatened" species in the North Atlantic Ocean, and add it to the threatened species list under Part 17, Subchapter B of Chapter I, Title 50 of the Code of Federal Regulations. The National Marine Fisheries Service has under preparation an environmental assessment of this subject. An inflationary impact statement was considered but determined not necessary.

Interested persons may participate in this rulemaking process by submitting written comments, views or objections on this proposed determination on or before June 2, 1975. Further, any persons who feel that they may be adversely affected by this proposed determination may file, on or before May 19, 1975, objections thereto and request a public hearing thereon. Said comments, views, objections, or requests for a public hearing shall be submitted to the Director, National Marine Fisheries Service, Washington, D.C. 20235.

Dated: March 28, 1975.

LYNN A. GREENWALT,
Director, Fish and Wildlife Service.

JACK W. GEHRINGER,
Director, National Marine Fisheries Service.

Accordingly, it is hereby proposed to amend Part 17, Subchapter B of Chapter I, Title 50 of the Code of Federal Regulations to add a new § 17.33 "Threatened Species–Fish" as follows:

§ 17.33 Threatened species—fish.

(a) Marine:

Common name	Scientific name	Range	Portion of range where threatened
(1) Atlantic Bluefin Tuna	*Thunnus thynnus thynnus*	Atlantic Ocean	Atlantic Ocean

[7 CFR Part 1033]

[Docket No. AO-166-A46]

MILK IN THE OHIO VALLEY MARKETING AREA

Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments to Tentative Marketing Agreement and to Order

Notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreement and order regulating the handling of milk in the Ohio Valley marketing area.

Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D.C., 20250, on or before April 17, 1975. The exceptions should be filed in quadruplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The above notice of filing of the decision and of opportunity to file exceptions thereto is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

PRELIMINARY STATEMENT

The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order as amended, were formulated, was conducted at Columbus, Ohio, on November 7–8, 1974, pursuant to notice thereof which was issued October 16, 1974 (39 FR 37502).

The material issues on the record of the hearing relate to:

1. Pool plant qualifications.
2. Diversion of producer milk.
3. Classification provisions.
4. Adoption of a single butterfat differential.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Pool plant qualifications—(a) Considering Class II and Class III transfers from a supply plant as a receipt at a distributing plant in determining such distributing plant's pool status.* No change should be made in the distributing plant pooling standards on the basis of this record. However, the procedure for pooling supply plants should be modified to establish a demonstrated bona fide relationship of any supply plant with the fluid market rather than basing pooling qualifications on shipments (which could be exclusively for Class II or Class III use) to pool distributing plants.

Under the existing order, a pool distributing plant must have at least 15 percent of its overall route disposition in the marketing area and its total monthly route disposition must be at least 50 percent (45 percent in March-August) of its overall receipts (including milk diverted from such plant but excluding bulk fluid milk products received by transfer or diversion from other plants as Class II or Class III milk).

As proposed by a federation of cooperatives representing the majority of producers, the overall receipts at the distributing plant to be counted for determining such plant's pool status would be expanded to include all Class II and Class III transfers from supply plants to such distributing plant.

Proponent cooperatives contended that the present pooling provisions constitute a loophole whereby large quantities of milk not associated with the fluid market could be attached to the pool through the receipt and transfer of milk through a supply plant(s) under a requested Class II or Class III classification.

Their proposal was opposed by one cooperative and by a proprietary supply plant operator. The opposing cooperative's spokesman stated that if the proposal were adopted, certain distributing plants, in order to insure continuing pool status, might find it necessary to reduce milk receipts from supply plants. The affected supply plants, in turn, might have to reduce receipts from dairy farmers in order to meet the minimum shipping requirements. The Spokesman contended that this chain reaction would force this milk to move to balancing plants operated by the proponent cooperatives, which are pooled under standards different from those applicable to regular supply plants. This, he contended, would not be appropriate.

The proprietary handler's opposition centered on the effect adoption of the proposal would have on his total operation. This handler operates one pool supply and six pool distributing plants. One of such distributing plants has substantial capacity to manufacture nonfat dry milk, and at times it has been necessary to utilize this capacity when the supply plant (also a manufacturing plant) could not physically handle all the milk associated therewith and not needed for fluid use. The handler contended that adoption of the proposed change would make it difficult to maintain continuing pool status for the supply plant and/or the distributing plant with manufacturing operations. As a result of actions taken in this decision, the likelihood that a supply plant would lose pool status in such a situation is minimized.

While the present pooling provisions could be used to pool almost unlimited volumes of milk through supply plant operations which have no direct association with the fluid market, it is not apparent that there has been any abuse of the order through this means. Nevertheless, to protect the integrity of regulation, it is desirable that the order be modified to deter such end.

The present performance standards for pooling distributing plants recognize the fact that some distributing plants in this market, which are primarily fluid milk operations, nevertheless operate substantial manufacturing facilities and therefore, on occasion, may receive milk from other plants for manufacture. In order that such receipts may not jeopardize such a distributing plant's pooling status, and at the same time to accommodate the use of the plant's manufacturing facilities, receipts by transfer from other plants under an agreed Class II or Class III classification are not counted in determining such plant's pooling status. If, as proposed by cooperatives, supply plant milk designated for manufacturing uses was included as a receipt in determining such a distributing plant's pool status, the pooling status of certain distributing plants that have been regularly pooled, and which provide a service to the market in handling reserve milk supplies, might be jeopardized. Loss of pooling status would have serious adverse effect on dairy farmers regularly supplying such plants with milk for fluid use.

The problem proponents seek to resolve (i.e., potential dilution of pool proceeds by the pooling of milk intended solely for manufacturing use), therefore, can best be resolved under the conditions existing in this market by modification of the supply plant rather than the distributing plant pooling standards.

To protect the integrity of regulation, it is desirable that supply plant milk be required to more adequately demonstrate association with the fluid market to qualify for pooling. This may be accomplished by requiring that pooling status for a supply plant be conditioned on making the prescribed percentage of shipments to a pool distributing plant(s) which has total route disposition of at least 50 percent (45 percent in March-August) of overall receipts (including milk diverted from such plant but excluding bulk fluid milk products received by transfer or diversion from pool distributing plants under an agreed Class II or Class III classification). Route disposition in the marketing area by the supply plant would continue to be added to its qualifying shipments to pool distributing plants for the purpose of determining whether the supply plant met the performance standards for pooling.

Under this procedure a supply plant could conceivably ship all of its receipts to a pool distributing plant and yet fail to qualify because part or all of such shipments were made under an agreed upon Class II or Class III classification and the inclusion of such transfers in the distributing plant's receipts (for the purpose of determining the supply plant's pool status only) resulted in a route disposition percentage less than the prescribed minimum. Such resulting nonpool status for the supply plant could not be construed as inappropriate since it would be a direct manifestation of such plant's insufficient association in supplying the needs of the fluid market. If a

V 40-64
APR 2 75

supply plant should fail to qualify for pooling receipts from such plant at any pooling receipts from such plant at any source receipt.

Under certain conditions, notwithstanding, a supply plant regularly associated with the market as a pool plant should be allowed to pool for the first subsequent month in which it fails to qualify as a pool plant. Without such a provision, a supply plant could unexpectedly lose pool plant status for the month because of an unforeseen precipitous decline in Class I utilization at a distributing plant that received milk from the supply plant. In that circumstance, the milk of dairy farmers who delivered to the supply plant during the month would not qualify for pooling. Although such an occurrence admittedly should be infrequent, to insure orderly marketing a reasonable safeguard should be provided against loss of pool participation by the supply plant and its dairy farmer patrons. This appropriately can be achieved by according continued pooling for one month to a supply plant which has demonstrated a sustained association with the fluid market but which failed to meet the pooling requirements for such month solely because the pool distributing plant(s) to which it made qualifying shipments did not meet the route distribution requirements with respect to specified overall milk receipts.

Continued pool status should be accorded a supply plant for any month in which it failed to qualify as a pool plant if (1) its failure to qualify was due solely to the fact that the distributing plant(s) to which it made qualifying shipments failed to meet the minimum route distribution requirements with respect to its overall milk receipts (exclusive of receipts from pool distributing plants under an agreed upon Class II or Class III classification) and (2) it was a pool supply plant on the basis of performance in each of the immediately preceding three months.

Allowing a supply plant to retain pool status for one month, as herein provided, will protect the "producer" status of its dairy farmer patrons when such plant inadvertently fails to qualify for pooling solely because the distributing plant it regularly supplies did not perform as expected. With the safeguards here provided, one month's continued pool status for a supply plant will afford reasonable protection to supply plants associated with the market while precluding exploitation of the provision by other supply plants.

(b) *Designating a distributing plant as a pool plant for the month based on its performance in preceding months.* A distributing plant that failed to meet the total route disposition percentage pooling requirement should be allowed to be a pool plant for the month if it met such percentage requirement in each of the immediately preceding three months.

To qualify as a pool plant for the month, at least 15 percent of a distributing plant's route disposition must be in the marketing area and its total monthly route disposition must be at least 50 percent (45 percent in March–August) of specified receipts. A distributing plant that failed to meet the total route disposition percentage requirement in any month may nevertheless be pooled for such month if it had been pooled in the preceding month by virtue of having met such performance requirements.

A federation of cooperatives proposed to allow pool plant status for the month for a plant that failed to meet the total route disposition percentage requirement only if it had been pooled as a distributing plant in each of the preceding 12 months. The cooperatives contended the 12-month requirement would demonstrate not only appropriate market association of the distributing plant but also would prevent a handler from using the provision to load the pool with large quantities of milk that are not a regular and dependable supply for the market. Further, they contended that assurance to dairy farmers that their milk would be pooled in a month in which the plant to which their milk was delivered failed to meet the performance requirements was appropriate only under circumstances where such plant's failure to meet the total route disposition requirement for pool status was inadvertent. This, they held, was the intent of their proposed 12-month requirement.

The proposal was opposed by proprietary handlers. The principal basis of the opposition was that the present provision is needed to provide their producer patrons assurance of pool status for their milk in the event of a sudden loss of Class I sales, plant strikes, fire, or other catastrophies that may result in a distributing plant's unanticipated failure to qualify for pooling in any given month.

One opposing handler, who operates six distributing plants in the market, stated that only through the present provision had he been able to keep all his distributing plants pooled. He pointed out that one of his distributing plants produces cottage cheese and other Class II products for his other distributing plants in Ohio. By assignment of particular loads of milk to different plants at different times he was able to keep all the plants qualified as pool distributing plants. A spokesman for this handler cited two instances involving loss of sales contracts that would have caused plants to lose pool status if the provision that allows continued pooling for one month had not been applicable.

This same handler suggested that if the proposed changes were adopted, a proviso should be added to provide that all distributing plants operated by a handler be considered as one plant for the purpose of meeting the total route disposition percentage pooling requirement.

A proposed provision for unit pooling was denied in the 1970 decision that resulted in the merger of five orders into the present Ohio Valley order. It was denied on the basis that such a provision accommodates only a multiple plant operation and does not give recognition to single plant fluid milk operations that also process a relatively large amount of milk for other uses.

The current request for unit pooling was premised on adoption of the proposal to require a 12-month period of prior performance to obtain automatic pool status for one additional month. That proposal is not adopted in this decision. Moreover, this record contains no showing of changed market conditions to provide a basis for reversing the findings in the 1970 decision denying the proposal for unit pooling.

As an alternative to unit pooling, the multi-plant handler proposed lowering the total route disposition percentage pooling requirements from 50 percent to 45 percent in September-February, and from 45 percent to 40 percent in March-August. The handler contended that such action is warranted because of the decline in Class I sales.

Aside from the general statement that Class I sales in the market had declined, no specific testimony was presented to show that the present route disposition requirements are inappropriate and should be changed. Therefore, no action should be taken on proposals advanced at the hearing to change the route disposition percentage requirements for pooling distributing plants.

Producers should have protection against unexpected loss of pool participation of their milk because a distributing plant, over which they have no control, failed to qualify as a pool plant. The present provision, which allows pool status for the month to a distributing plant that met the required total route disposition percentage the preceding month, provides such protection. It also allows a distributing plant operator flexibility in adjusting his operation to meet changing market situations without losing pool status for the month.

However, the present provision provides an "open door" whereby a system of distributing plants may be pooled by adjusting receipts as between plants to the end that each plant individually meets the pooling requirements on at least an every-other-month basis. This is because a distributing plant may be pooled on a year-round basis by meeting the total route disposition percentage requirement for pooling every other month. In other months the plant has pool status without meeting the performance standards and could pool additional quantities of milk for manufacturing uses. Since this milk would share in the pooled proceeds, the market's Class I use value would be spread over a larger volume of milk. This would lower the marketwide "blend" price, thus diluting returns to those producers regularly supplying milk for the market's fluid needs.

The cooperatives' proposal to provide pool status for the month to a distributing plant based on its route disposition performance in the preceding 12 months would substantially reduce the level of protection now provided producers. Moreover, substantial changes in operations might be required by some

handlers in order to maintain pool status for their plants.

Allowing a distributing plant that failed to meet the total route disposition percentage pooling requirement to be a pool plant for the month if it met that requirement in each of the three preceding months, as adopted in this decision, is a reasonable and equitable basis to qualify a plant for pooling under current conditions in the Ohio Valley market. As such, it will contribute to orderly marketing by providing a safeguard against exploitation of the order by pooling milk from farms that are not a regular part of the market supply and by protecting, in a reasonable manner, producers regularly supplying the market from losing the benefits of pooling under the order because of the unanticipated loss of pool plant status by the plant to which their milk is customarily delivered.

In the absence of unit pooling, the provision adopted herein for continued pool status for one month based on three months prior performance is applicable to each distributing plant operated by a multi-plant handler. With present provisions for diverting milk to pool plants, a multi-plant handler should continue to have short-term pooling flexibility sufficient to maintain pool status for his plants without making major adjustments in his total operation.

(c) *Automatic pooling in March-August for a supply plant that was a pool plant in preceding September-February.* A supply plant that was a pool plant throughout the preceding September-February period and which transferred at least 50 percent of its monthly receipts to pool distributing plants in each month of the period should be accorded pool plant status in the following March-August.

Under the existing order provisions, a supply plant may qualify as a pool plant in any month that its transfers to pool distributing plants plus direct route disposition in the marketing area is at least 50 percent of its receipts. Automatic pooling is provided during the March-August period for any supply plant that was a pool plant in the preceding months of September-February.

A pool distributing plant by definition is also a supply plant in any month in which it makes even a token shipment to another pool distributing plant. As a supply plant, which was a pool plant in each of the months of September-February, such a plant in fact acquires automatic pool plant status in the following March-August.

Cooperatives contended that the automatic pooling thus made available for pool distributing plants was inadvertently provided for in the order, and is not an appropriate basis for pooling a distributing plant. They urge that route dispositions not be counted for the purpose of determining the qualification of a supply plant for automatic pooling status.

Because a distributing plant typically serves the market in a different manner than does a supply plant it is necessary that they be accorded different treatment in determining their pooling qualification. The pooling qualifications for a distributing plant are based solely on (1) its route disposition in the marketing area relative to its total route disposition and (2) the total route disposition from the plant relative to its receipts.

Since Class I sales in the market are relatively uniform throughout the year, it is not necessary nor appropriate to provide automatic status for pooling distributing plants during the flush months. Except under the special circumstances hereinbefore provided for continuing pooling status for a distributing plant for one month if it fails to meet the minimum route disposition requirements, no further accommodation for pooling is appropriate. A plant with route disposition months cannot be considered to be sufficiently associated with the fluid market to merit sharing the Class I proceeds of the total market.

A supply plant serves the market by making its milk supply available when needed to meet the varying demands of pool distributing plants. The demand for milk from supply plants is greatest in the fall and winter months of seasonally low production. Pool distributing plants' needs for milk from supply plants is substantially diminished and may be nonexistent in some of the spring and summer months of seasonally high production.

Providing automatic pool status in March–August for a supply plant which qualified for pooling in the preceding September–February by its shipments to pool distributing plants (1) assures the dairy farmers who have established their association with the fluid market by supplying a pool supply plant during the short season that the milk will continue to be pooled during the flush and (2) avoids uneconomic shipments from supply plants to pool distributing plants during the months of seasonally high production solely for the purpose of maintaining pool status.

(d) *Balancing plant.* No change should be made in the shipping requirements for pooling the "balancing plant" of a cooperative. However, the provision for pooling such a plant should be modified to require that the plant have manufacturing facilities and actually processes milk during the month.

A plant other than a distributing plant may now qualify for pooling as a balancing plant if it is operated by a cooperative, is approved by a duly constituted health authority to handle milk for fluid consumption, and more than 50 percent of the cooperative's members' producer milk was received at pool distributing plants during the month, either by direct delivery from the producers' farms or by transfer from the cooperative's plant. Two balancing plants currently qualify as pool plants under the order.

A federation of cooperatives, including the two cooperatives whose balancing plants now qualify as pool plants, proposed changing the qualifications for pooling a balancing plant. During the months of September through March, proponents would require that not less than 65 percent of a cooperative's members' producer milk be received at pool distributing plants either by direct delivery from producers' farms or by transfer from such cooperative's plant. In addition, these cooperatives proposed that a balancing plant, to qualify for pooling, be required to have combined receipts from and sales to plants regulated by the Ohio Valley order that are greater than the sales from such plant to all other plants.

Proponent cooperatives claimed the more rigid standards for pooling a balancing plant that they proposed are desirable and necessary to avoid possible dilution of the pool by the pooling of plants that are not a regular part of the market supply.

A cooperative that qualified a plant for pooling as a balancing plant in January and February 1974 opposed changing the present pooling qualifications for a balancing plant. It took the position that the proposed changes were aimed at making it more difficult to qualify its plant for pooling as a balancing plant and would preclude a cooperative that did not operate a manufacturing plant from pooling a plant other than a distributing plant.

Balancing plants traditionally operated by cooperatives in this market provide the means whereby proprietary plant operators may adjust their receipts each day to fit their bottling needs and at the same time have assurance that milk not accepted will be available for fluid use as needed. A bottling plant that receives milk by direct delivery from the farms of designated producer members of a cooperative may accept a part or none of such deliveries on any day. The total deliveries of such producers on the days the bottling plant is not operated, and the amount in excess of its Class I needs on other days, may be received at the cooperative's manufacturing (i.e., balancing) plant. Providing pool status for the balancing plant enhances market stability and efficiency and implements the pooling of the milk which is regularly and substantially associated with the market.

The requirement that a cooperative that operates a balancing plant must have supplied to pool plants of other handlers more than half its members' producer milk pooled during the month insures that the cooperative's pooled milk is substantially associated with the fluid market. Any limitation on the quantity of milk that a balancing plant may dispose of to plants outside the market, without losing its status as a pool plant, as suggested by proponents, would tend to reduce the flexibility of marketing inherent in the operation of balancing plants for the Ohio Valley market and could severely restrict the ability of the cooperatives to market the reserve milk supply in the most remunerative outlets.

V 40-64
APR 2 75

The outlets for the reserve milk supplies handled at balancing plants frequently may be plants outside the market. Consequently, to require that a plant that otherwise qualified as a balancing plant must have combined receipts from and sales to plants regulated by the Ohio Valley order that are greater than sales to other plants in the same month could unnecessarily restrict the operations of a balancing plant and adversely affect the economic handling of the market's reserve supplies.

Although proponent cooperatives proposed increasing the quantity of member producer milk that must be received at pool distributing plants of other handlers during the month (either by direct delivery from producers' farms or as transfers from a cooperative's plant) from 50 percent to 65 percent to qualify the balancing plant as a pool plant in September–March, it was not shown that the proposed change would achieve any purpose not now realized by the 50 percent requirement. As indicated above, under current conditions in the Ohio Valley market, if more than half the producer milk of a cooperative is utilized at pool plants of other handlers, an association with the market has been reasonably established and an appropriate safeguard is thereby provided against pooling under the order of cooperative plants that are not an integral part of the market.

A major concern of proponent cooperatives was that a balancing plant operated by a cooperative should perform a discernible service to the market in which it is pooled. Evidence of a discernible service to the market can be most appropriately manifested, under the conditions existing in this market, through a requirement that a cooperative operated plant, as a condition of pooling as a balancing plant must have manufacturing facilities which are actively operated during the month processing fluid milk products into a manufactured milk product(s).

A plant without processing facilities cannot service the market in a meaningful way except in the role of a supply plant. A plant without processing facilities accordingly should be required to meet the shipping requirements for pooling as a supply plant. These requirements as hereinbefore modified provide the appropriate means for pooling plants the basic function of which is to receive and transfer milk.

(e) *Deletion of the pool plant provision applicable only to Ohio State University.* The provision that allows a distributing plant with route disposition only on the campus of the Ohio State University at Columbus, Ohio, to qualify as a pool plant for the months other than January, February, October, and November, without meeting the total route disposition percentage requirement, should be removed from the order.

A proposal to delete the provision, which no longer has any application in the Ohio Valley market, was submitted by a federation of cooperatives and was not opposed. There is not, at this time, any plant operating under the limited disposition requirement specified in the provision.

Deletion of the provision will not adversely affect any handler now regulated. Moreover, it is not considered likely that any operation such as that covered by the provision will be established in the foreseeable future.

2. *Diversion of producer milk.* The present diversion privileges which limit the amount of an individual producer's milk that may be diverted to nonpool plants during the months of September through February should be modified to provide an alternative percentage standard applicable to both cooperative and nonmember milk. In any month of September-February a cooperative should be permitted to divert to nonpool plants a quantity of milk not exceeding 40 percent of the aggregate amount of producer milk it caused to be delivered to pool plants. Similarly, a proprietary pool handler should be permitted to divert to nonpool plants up to 40 percent of producer milk (exclusive of that received from producers whose milk a cooperative is diverting on a percentage basis) physically received at his pool plant during such month. The diversion privilege, now applicable only to milk associated with pool distributing plants, should be extended to include milk associated with pool supply plants.

The present provision limiting a producer's production that may be diverted to nonpool plants during the months of September through February to not more than his production physically received at pool plants should be continued as an alternative to the percentage limitation adopted above. In March-August, diversion of a producer's milk to a nonpool plant is limited only by the two days' production that must be delivered to a pool plant in any month to qualify the reminder of his production for diversion.

The modifications of the existing diversion provisions adopted herein were proposed by handlers who claimed that under present order provisions they are often forced into uneconomic handling, especially when the plants cannot accommodate the milk of all producers regularly supplying such plants. They held that adoption of their proposals would implement handling efficiency by eliminating the unnecessary receipt and transfer of reserve milk disposed of for manufacturing uses.

Although a federation of cooperatives opposed the proposals, their spokesman acknowledged that their adoption would implement more efficient disposition of surplus milk, as claimed by proponents.

Most, if not all, supply plants currently pooled under the Ohio Valley order maintain manufacturing operations, which are used in handling the market's reserve milk. However, when production of such a plant's regular producers exceeds its processing capacity, the excess production can be pooled only by first receiving it into the plant and subsequently transferring it to another plant for manufacture. Under such conditions, particularly during periods of seasonally high production, supply plants may have no less need for diversion privileges to nonpool plants than do pool distributing plants. Such need is appropriately met by providing for diversion of producer milk from supply plants to nonpool plants.

Diversion provisions are intended to implement the efficient handling of that producer milk not needed in the market for Class I uses, such as on weekends, holidays, and during periods of seasonally high production. Such milk can be most economically handled by direct shipment from the farm to nearby manufacturing plants. The greatest efficiency in this regard is achieved by diverting milk from farms of producers nearest the manufacturing plants. This can be accomplished most practicably if the diversion is in terms of a percentage of the aggregate quantity of milk delivered to pool plants.

Under the present diversion provisions, which limit the amount of individual producers' milk that may be diverted in the months of September–February, handlers cannot always divert milk of producers in the most efficient manner. The adopteion of alternative percent diversion standards will implement continued diversion of that milk less favorably situated with respect to the central market and to that end will enhance marketing efficiency while at the same time maintaining the integrity of the pooling provisions. In the aggregate, the percentage diversion limit herein adopted will not increase the amount of milk which may be diverted. In fact, a greater quantity of milk could be diverted under the present 50 percent limitation on individual producers' milk.

3. *Classification provisions*—(a) *Eggnog.* The product "eggnog" should be added to the list of named products for which a Class II classification applies. Eggnog is presently accounted for as a Class I disposition.

A producer proposal to remove eggnog from Class I was unopposed at the hearing and was strongly supported by handlers.

Eggnog is a small-volume seasonal item that is produced and sold almost entirely in November and December. In 1973, when more than 99 percent of eggnog sales for the year were in these two months, their aggregate sales accounted for less than 0.2 percent of total Class I fluid milk product sales in the market. Thus, its removal from Class I will have a minimal effect on producer returns.

Proponents initially proposed a Class III classification for eggnog. However, they testified at the hearing that its inclusion in Class II might be more appropriate since eggnog is in Class II in most Federal orders.

With eggnog in Class I, Ohio Valley order handlers are at a competitive disadvantage with competing handlers regulated under other nearby Federal orders. Under the present provision a major handler in the market has found it economically feasible to package eggnog at his regulated plants under the Indiana and Southern Michigan orders, respectively, (where eggnog is Class II) for distribution in the Ohio Valley market. Other competing handlers in the market do not have the same flexibility of operation and accordingly are disadvantaged because of their higher product cost.

Removing eggnog from the "fluid milk product" definition and designating it as a Class II item, as provided in this decision, will allow Order 33 handlers to compete for eggnog sales on a more equitable basis with each other and with handlers regulated under adjacent orders.

(b) *Milk shake mixes.* The classification of skim milk and butterfat in milk shake mixes should be determined on the basis of total solids content of the product. A Class I classification should apply to milk shake mixes containing less than 20 percent total solids. Conversely, milk shake mixes with 20 percent or more total solids should be Class III.

Milk shake mixes containing less than 15 percent total milk solids are now Class I and those with 15 percent or more total milk solids are Class III.

The federation of cooperatives proposing the change from "15 percent total milk solids" to "20 percent total solids" indicated a need to provide a more appropriate standard for determining classification of milk shake mixes. (The 20 percent total solids standard now applies for determining classification of milk shake mixes in most Federal orders.) They contended that total solids content of milk shake mixes can readily be established through a simple laboratory analysis whereas the determination of total milk solids content requires extensive testing procedures to separate the milk and nonmilk solids components. Proprietary handlers concurred and there was no opposition to the proposal.

Handlers testified that the present 15 percent or more total milk solids basis for determining a Class III classification of milk shake mixes requires use of a mix formula utilizing more costly ingredients than needed to meet the 20 percent total solids standard. Competitors regulated under surrounding orders which provide standards different from the 15 percent milk solids standard are able to use a less costly mix formulation, thereby gaining an advantage in competing for sales of milk shake mixes in the Ohio Valley marketing area.

Under the Indiana and Southern Michigan orders milk shake mixes containing less than 20 percent total solids are Class I. Handlers regulated under these and other orders compete with Ohio Valley handlers for milk shake mix sales.

Adoption herein of 20 percent total solids as a minimum requirement for Class III classification of milk shake mixes in the Ohio Valley order will provide a more equitable basis for Ohio Valley handlers to compete for milk shake mix sales with handlers regulated under other orders.

(c) *Direct allocation of nonfluid other source milk to Class II utilization.* The order should permit the direct allocation to Class II of other source milk received in a form other than a fluid milk product (e.g., nonfat dry milk and condensed milk or skim milk) or bulk cream and used to produce, or added to, Class II products.

A handler who proposed the change contended there is no basis for protecting the local dairy farmer against the use of nonfat dry milk solids and condensed milk or skim milk in Class II products since such products are more costly than producer milk. Proponent stated that handlers rely principally on producers for their Class II needs and obtain supplies from other sources only when producer milk is not available for Class II uses.

The major use of other source milk in Class II products is the addition of nonfat dry milk to cream products and to skim milk used for cottage cheese manufacture. When supplies of producer milk are short, handlers also may reconstitute nonfat dry milk for cottage cheese production. Condensed milk or condensed skim milk may be similarly used.

Nonfat dry milk has certain processing advantages for handlers. It can be added readily to milk or milk products to increase the nonfat milk solids content. Its storability enables handlers to have a concentrated form of nonfat milk solids on hand at all times for emergency use.

Since handlers can generally expect to pay more for nonfluid milk products than the cost of producer milk for Class II uses, there is no likelihood that they will restrict their use of producer milk for making cottage cheese when such milk is available. Allowing the direct allocation of nonfluid other source milk to Class II, as adopted herein, is compatible with the procedure followed in Federal orders generally and will tend to promote greater equity in competition with handlers in adjacent markets.

(d) *Classification of packaged fluid milk products in end-of-month inventory.* Packaged fluid milk products on hand at the end of the month should be Class III. Such products in ending inventory are now Class I while ending inventories of bulk fluid milk products are Class III.

The handler who proposed the change claimed that it would simplify application of the order without essentially affecting actual returns to producers. He stated further that, since the milk would be priced in the month when it is actually disposed of as Class I, a more appropriate treatment of packaged fluid milk products in ending inventory is achieved. There was no opposition to the proposal.

Whenever the Class I milk price changes from month-to-month, it is now necessary to adjust the Class I price value of the preceding month's ending inventory of packaged fluid milk products to reflect the current month's Class I price in computing each handler's pool obligation. Proponent testified that this procedure, which he contended is unnecessarily involved and tends to cause confusion, would be eliminated if his proposal were adopted.

As proposed, and adopted herein, ending inventory of packaged fluid milk products would be classified as Class III and would be allocated at the same time as inventory of bulk fluid milk products to the lowest available use class in the following month. Any milk so assigned to Class I would be subject to an appropriate charge to the handler to reflect the changed classification.

Adopting the proposal will eliminate the necessity of making adjustments to reflect month-to-month Class I price differences when computing handlers' pool obligations and will provide the same classification of month-end inventories of packaged fluid milk products now provided in most Federal orders.

For the first month that this provision is effective, beginning inventories of packaged fluid milk products should be allocated to Class III to the extent possible. Since such inventories will have been priced at the previous month's Class I price, handlers should receive a credit on such packaged inventories equal to the difference between the preceding month's Class I and Class III prices. If a higher classification results through the allocation procedure, the appropriate reclassification charge would apply.

(e) *Definition of fluid cream product.* A proposed "fluid cream product" definition offered during the hearing should not be adopted.

The fluid cream product definition proposed is identical to that incorporated in most Federal milk orders when the classification amendments were adopted in 1974.

Although proponent handler indicated it would be desirable to change the classification provisions of the order incidental to incorporating a fluid cream product definition in the order, his testimony in support of the proposal related essentially only to simplifying order references to cream items.

Producers opposed adoption of the proposed definition. They contended that the proponent handler was attempting to change the classification provisions of the order without submitting for inclusion in the hearing notice a specific proposal to that effect.

Testimony presented at the hearing provided no basis for the associated changes that would be required in classification provisions through adoption of the proposed fluid cream product definition. Accordingly, no amendatory action in this regard would be appropriate on the basis of this record.

4. *Adoption of a single butterfat differential.* A single butterfat differential, 11.5 percent of the Chicago butter price for the current month, should be used to adjust the class prices and the uniform price.

V 40-64 APR 2 75

Presently, the order provides for three different butterfat differentials. That for Class I is 12 percent of the Chicago butter price for the preceding month; for Class II and Class III, it is 11.5 percent of the Chicago butter price for the current month. The butterfat differential used in adjusting the uniform price is the average of the butterfat differentials for the three classes, weighted by the proportion of producer milk in each class.

A federation of cooperatives proposed that the Class I butterfat differential be reduced from 12 percent of the butter price for the preceding month to 11.5 percent of the butter price for the current month. In proposing a lower Class I butterfat differential, the cooperatives contended that the values now assigned to butterfat and skim milk in Class I products do not reflect the current market values of these components of milk.

Handler opposition to the proposal was limited to the slight increase in Class I milk costs that could result from lowering the Class I butterfat differential.

Indicative of the declining proportion of butterfat in Class I sales is the continuous decline in the average test of fluid milk products sold in the Federal order marketing areas. In 1966, the average butterfat test in 66 Federal order markets for such sales was 3.53 percent.[1] This percentage declined yearly, and in 1973, the latest full year for which data are available, the comparable average butterfat test for 57 markets was 3.11 percent. On a percentage basis, the average butterfat content in these fluid milk products declined 12 percent from 1966 to 1973. It can reasonably be expected that the decline at a comparable rate will continue in the several years immediately ahead.

The declining average butterfat content of packaged fluid milk product sales in the Ohio Valley order has been similar to the national trend. In 1966, the average butterfat content of Class I sales in the five markets that were merged in 1970 to form the Ohio Valley marketing area was 3.45 percent.[2] The comparable average test for 1973 was 3.14 percent, a decline of 9 percent. The increasing demand for Class I products of lower butterfat content can be expected to result in a continuing decline in the average butterfat content of Class I sales under the order. Adopting the same butterfat differential for Class I milk as for other classes, as provided in this decision, gives recognition to a lower market value of butterfat in the fluid milk products in Class I.

While the butterfat content in producer milk is relatively close to the average butterfat content of whole milk sold as Class I, it is now running substantially above the average test of all Class I milk. This is because fluid skim milk and lowfat milk items have become an increasing proportion of Class I sales at the expense of whole milk.

During 1973, when the butterfat in Class I packaged fluid milk product sales averaged 3.01 percent, producer milk deliveries averaged 3.71 percent butterfat.

The order price for Class I milk of 3.01 percent butterfat sold by handlers during 1973 averaged $7.218. This is computed by subtracting 41.2 cents (4.9 points of butterfat at 8.4 cents per point) from the average 1973 Class I price of $7.63 for 3.5 percent milk. At the lower butterfat differential adopted in this decision, the adjustment in butterfat for such period would have been 39.2 cents (4.9 points of butterfat at 8.0 cents per point). This would have resulted in an average price of $7.238 for such milk sold in Class I, 2.0 cents more than the actual Class I price ($7.218) under the order for milk of 3.01 percent butterfat sold in Class I in 1973.

As indicated above, only the Class I butterfat differential is based on the butter price for the preceding month. That quotation no longer would be used for pricing under the order in the current month. The differential adopted in this decision would be based on the butter price for the current month, which is now used for computing the Class II and Class III butterfat differentials.

Because there is little change from month to month in the Chicago butter price, it is unnecessary to provide for average monthly butter quotations for both the current month and the preceding month for computing butterfat differentials applicable in the same month. Providing for the use of one average monthly butterfat quotation, that for the current month, as proposed at the hearing and here adopted, will simplify application of the order's provisions.

Since a single butterfat differential will apply to all classes of milk, such differential will determine the value of all butterfat in producer milk. If the differential is the same for each class, as proposed herein, the provisions for weighting the values of butterfat by classes become unnecessary and the same butterfat differential will be used for adjusting the producer's uniform price.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General Findings

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended Marketing Agreement and Order Amending the Order

The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended. The following order amending the order, as amended, regulating the handling of milk in the Ohio Valley marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out:

1. Section 1033.7 is revised as follows:

§ 1033.7 Fluid milk product.

"Fluid milk product" means the following products or mixtures in either fluid or frozen form, including such products or mixtures that are flavored, cultured, modified (with added nonfat milk solids), concentrated, or reconstituted: Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, milk shake mixes containing less than 20 percent total solids, and mixtures of cream and milk or skim milk containing less than 10.5 percent butterfat. The term "fluid milk product" shall not include eggnog, yogurt, frozen desserts, frozen dessert mixes, dietary products and infant formulas in hermetically sealed metal or glass containers, evaporated or condensed milk or skim milk in plain or sweetened form, and any product containing 6 percent or more nonmilk fat (or oil).

[1] Official notice is taken of the January 1972 Summary of Federal Milk Order Statistics (issued by the Dairy Division, AMS, USDA).

[2] Official notice is taken of the Annual Summary for 1967, Federal Order Statistics, Statistical Bulletin No. 426 (issued by the Dairy Division, CAMS, USDA).

2. In § 1033.12, paragraph (a) (2) (iii) is deleted and paragraph (a) (2) (i) and (ii), and paragraphs (b) and (c) are revised as follows:

§ 1033.12 Pool plant.

* * * * * *

(a) * * *

(2) * * *

(i) Both such route disposition and receipts shall be exclusive of filled milk and of packaged fluid milk products received from other plants if priced as Class I milk under this or any other Federal order; and

(ii) A distributing plant that does not meet such percentage requirement in the current month shall not be disqualified under this subparagraph as a pool plant if such percentage was met in each of the three immediately preceding months.

(b) A supply plant from which during the month the total quantity of fluid milk products (except filled milk) transferred to and physically received in a pool distributing plant(s) meeting the percentage disposition requirements specified in paragraph (a) of this section with respect to its total receipts of fluid milk products (including milk diverted from such plant by the plant operator or a cooperative association but excluding bulk fluid milk products received by transfer or diversion from pool distributing plants as Class II or Class III milk) that are approved by a duly constituted health authority for fluid consumption, plus route disposition in the marketing area from the supply plant, is not less than 50 percent of the total quantity of milk approved by a duly constituted health authority for fluid consumption that is received from dairy farmers (including milk diverted from the supply plant and excluding milk received by diversion from other plants) and from handlers described in § 1033.16(c). A supply plant that qualified as a pool plant in each of the preceding three months shall not be disqualified as a pool plant for the month if it failed to qualify solely because a distributing plant(s) to which qualifying shipments of milk were made during the month did not meet the percentage disposition requirements specified in paragraph (a) of this section with respect to its receipts specified in this paragraph. A plant that was qualified under this paragraph in each of the months of September through February (exclusive of route disposition in the marketing area from such plant) shall be a pool plant for the immediately following months of March through August unless the milk received at the plant does not meet the requirements of a duly constituted health authority, or the plant operator files with the market administrator prior to any such month a written request that the plant be designated as a nonpool plant. Such nonpool plant status shall be effective, beginning with the first month following such notice, until the plant qualifies under this section on the basis of shipments.

(c) A plant, other than a distributing plant, that is approved by a duly constituted health authority to handle milk for fluid consumption and is operated by a cooperative association, if during the month fluid milk products are used to produce a manufactured milk product(s) in such plant, and more than 50 percent of the producer milk of members of such cooperative association is delivered directly from their farms, or transferred in bulk form from such plant, to plants of other handlers qualified under paragraph (a) of this section. If the cooperative association files with the market administrator prior to any month a written request for nonpool status for such plant, the plant shall be a nonpool plant for such month and for each of the next 11 months in which it does not qualify pursuant to paragraph (b) of this section on the basis of shipments.

3. In § 1033.15, paragraphs (a) (3), (b), and (d) are revised as follows:

§ 1033.15 Producer milk.

* * * * * *

(a) * * *

(3) Diverted for the handler's account from a pool distributing plant to another pool plant, or from a pool distributing plant or a pool supply plant to a nonpool plant that is not a producer-handler plant, subject to the further conditions set forth in paragraph (d) of this section; and

(b) With respect to a handler described in § 1033.16(b), diverted for such handler's account from the pool distributing plant of another handler to a pool plant, or from the pool distributing plant or a pool supply plant of another handler to a nonpool plant that is not a producer-handler plant, subject to the further conditions set forth in paragraph (d) of this section; and

* * * * * *

(d) The following conditions shall apply to milk of a producer diverted from a distributing pool plant to another pool plant, or from a pool distributing plant or a pool supply plant to a nonpool plant that is not a producer-handler plant:

(1) Not less than two days' production of the producer must be physically received during the month at such pool plant;

(2) In any month of September through February, the quantity of milk diverted to a nonpool plant shall be limited to the amounts specified in paragraph (d) (2) (i) and (ii) of this section:

(i) The operator of a pool plant may divert the milk of any producer (except a producer for whom a cooperative association is diverting milk under the percentage limit of paragraph (d) (2) (ii) of this section) for not more days of production than it was physically received at the diverting pool plant from such producer or he may divert an aggregate quantity of milk not exceeding 40 percent of the milk of all such producers that was physically received at the diverting pool plant during the month; and

(ii) A cooperative association may divert the milk of any producer (that it caused to be delivered to pool plants during the month) for not more days of production than it was physically received at pool plants or it may divert an aggregate quantity not exceeding 40 percent of the milk of all such producers that it caused to be delivered to pool plants during the month;

(3) When milk is diverted in excess of the limit by a handler who elects to divert on the basis of days-of-production, only that milk which was received at a pool plant or which was diverted to a nonpool plant for not more days of production that it was physically received at a pool plant shall be producer milk;

(4) When milk is diverted in excess of the percentage limit by a handler who elects to divert on a percentage basis, eligibility as producer milk would be forfeited on a quantity of milk equal to such excess. If the handler fails to designate such dairy farmers whose milk is ineligible, producer milk status shall be forfeited with respect to all milk diverted to nonpool plants by such handler;

(5) Diverted milk shall be priced at the location of the plant to which the milk is diverted; and

(6) Milk diverted to another order plant would be produced milk only if a Class II or Class III classification is designated for such milk pursuant to the provisions of another order issued pursuant to the Act, and such milk is not subject to the pricing and pooling provisions of the other order.

4. In § 1033.16, paragraph (b) is revised as follows:

§ 1033.16 Handler.

* * * * * *

(b) Any cooperative association with respect to producer milk which it causes to be diverted for its account from a pool distributing plant of another person to a pool plant, or from a pool distributing plant or a pool supply plant of another person to a nonpool plant that is not a producer-handler plant;

* * * * * *

5. In § 1033.27, paragraph (k) is revised as follows:

§ 1033.27 Duties.

* * * * * *

(k) Publicly announce on or before:

(1) The 5th day of each month;

(i) The Class I price for the following month;

(ii) The Class II and Class III prices for the preceding month; and

(iii) The butterfat differential for the preceding month; and

(2) The 12th day of each month, the uniform price for the preceding month;

* * * * * *

6. In § 1033.41, paragraphs (a), (b) (1) and (c) (1) and (3) are revised as follows:

§ 1033.41 Class of utilization.

* * * * * *

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as provided in paragraphs (b) and (c) of this section. Any

V 40-64
APR 2 75

fluid milk product that is modified by the addition of nonfat milk solids shall be Class I milk in an amount equal only to the weight of an equal volume of an unmodified product of the same nature and butterfat content; and

(2) Not accounted for as Class II or Class III milk.

(b) • • •

(1) Disposed of as fluid cream (including aerated cream and sterilized cream), eggnog, or as mixtures of cream and milk or skim milk containing 10.5 percent or more butterfat:

• • • • • •

(c) • • •

(1) Skim milk and butterfat used to produce butter, nonfat dry milk, dry whole milk, dry whey, dry buttermilk, casein, cheese (except cottage cheese and cottage cheese curd), frozen cream, milk shake mixes containing 20 percent or more total solids, frozen desserts, frozen dessert mixes, dietary products and infant formulas in hermetically sealed metal or glass containers, evaporated or condensed milk or skim milk in plain or sweetened form, and any product containing six percent or more nonmilk fat (or oil);

• • • • • •

(3) Skim milk and butterfat in inventory of fluid milk products and bulk cream at the end of the month;

• • • • • •

7. In § 1033.46, paragraph (a) (4) is deleted, paragraph (a) (5) is renumbered (a) (4), a new paragraph (a) (5) is added to read as follows, and paragraphs (a) (6) (i) and (a) (9) are revised as follows:

§ 1033.46 Allocation of skim milk and butterfat classified.

• • • • • •

(a) • • •

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a product described in § 1033.41(b) (1) that is used to produce, or added to, any product specified in § 1033.41(b), but not in excess of the pounds of skim milk remaining in Class II;

(6) • • •

(i) Other source milk in a form other than that of a fluid milk product or bulk cream that was not subtracted pursuant to paragraph (a) (5) of this section;

• • • • • •

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in inventory of fluid milk products and bulk cream at the beginning of the month;

• • • • • •

8. In § 1033.51, the introductory paragraph is revised as follows:

§ 1033.51 Class prices.

Subject to the provisions of § 1033.53, the class prices per hundredweight for the month shall be as follows:

• • • • • •

§ 1033.52 [Revoked]

9. Section 1033.52 is revoked.

10. In § 1033.60, paragraph (d) is revoked, and paragraphs (b) and (e) are revised as follows:

§ 1033.60 Computation of the net pool obligation of each handler.

• • • • • •

(b) Add the amounts obtained from multiplying the pounds of overage deducted from each class pursuant to §1033.46(a)(14) and the corresponding step of § 1033.46(b) by the applicable class price, as adjusted by the butterfat differential specified in § 1033.73;

• • • • • •

(e) For the first month that this paragraph is effective, subtract the amount obtained from multiplying the difference between the applicable Class I and Class III prices for the preceding month by the hundredweight of skim milk and butterfat in any fluid milk product that was in the plant's inventory at the end of the preceding month and classified as Class I milk.

• • • • • •

§ 1033.61 [Amended]

11. In § 1033.61, paragraph (b) is revoked.

12. Section 1033.73 is revised as follows:

§ 1033.73 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent at a rate determined by multiplying the Chicago butter price for the month by 0.115.

Signed at Washington, D.C., on: March 27, 1975.

JOHN C. BLUM,
Associate Administrator.

Farmers Home Administration

[7 CFR Part 1823]

[FmHA Instruction 442.9]

ASSOCIATION LOANS AND GRANTS; COMMUNITY FACILITIES, DEVELOPMENT, CONSERVATION, UTILIZATION

Processing Loans to Associations

Notice is hereby given that the Farmers Home Administration has under consideration the proposed amendment of §§ 1823.287 and 1823.288 of Subpart I of Part 1823, Title 7, Code of Federal Regulations (35 FR 15091; 37 FR 14218; 38 FR 8663). It is proposed that § 1823.287 be revised to amend the requirements pertaining to audits for association-type loans; it is proposed that § 1823.288 be amended to comply with changes made in § 1823.287.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed amendment to the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6315, South Building, Washington, D.C. 20250, on or before May 2, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Chief, Directives Management Branch during regular business hours (8:15 a.m.-4:45 p.m.).

As proposed, §§ 1823.287 and 1823.288 will read as follows:

§ 1823.287 Audits.

State Directors are responsible for audit report review and analyzing and initiating indicated servicing and/or management assistance actions.

(a) Unless otherwise required by the FmHA State Director, borrowers whose annual income exceeds the amounts shown below are required to submit audit reports:

(1) Recreation—$50,000.
(2) EO Coops—$100,000.
(3) Irrigation and Drainage—$50,000.
(4) Grazing Associations—$50,000.

(b) Public body borrower audit reports prepared in accordance with State statutes and regulations are acceptable, provided they contain the financial information necessary and are prepared on a frequency sufficient to provide a basis to furnish borrowers with management assistance guidance, and provide FmHA with the information for proper program operations.

(c) Borrowers other than public bodies and public bodies in those cases where the State has no audit requirements are required to have their records audited at least biannually by an independent public accountant.

(1) Such audits should be conducted in accordance with generally accepted auditing standards by independents certified public accountants or by independent licensed public accountants licensed on or before December 31, 1970, who have been certified or licensed by a regulatory authority of a State or other political subdivision of the United States.

(2) Audits will be prepared in accordance with the requirements of the handbook, "Instructions to Independent Certified Public Accountants and Licensed Public Accountants Performing Audits of Farmers Home Administration Borrowers and Grantees."

(d) A copy of the audit report will be forwarded to the FmHA County Supervisor by the borrower as soon as it is received.

§ 1823.288 Financial reports for organizations not required to submit an audit report.

Borrowers whose annual gross incomes for a full year of operation are less than those shown in § 1823.287 and not having an annual audit made by an independent public accountant, will within 60 days following the end of each fiscal year, furnish the FmHA County Supervisor with an annual report, consisting of a verification of the organization's balance sheet and statement of income and expense by a committee of the membership not including any officer, director or employee. Such committees will be appointed by the borrower's governing body and will certify to its examination of the accounts and records. The final Form FmHA 442-2, "State of Income and Expense," for the year and the Form FmHA 442-3, "Balance Sheet," will be used. Borrowers having six or less members may use officers or directors on such committees.

(7 U.S.C. 1989, delegation of authority by the Sec. of Agri., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70)

Dated: March 27, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.75-8481 Filed 4-1-75;8:45 am]

Federal Crop Insurance Corporation

[7 CFR Part 401]

FEDERAL CROP INSURANCE

Barley; Wyoming

Pursuant to a statement of policy issued by the Secretary of Agriculture on July 20, 1971 (36 FR 13804), notice is hereby given that the Board of Directors of the Federal Crop Insurance Corporation is considering and tentatively approved at its meeting on March 27, 1975, an amendment to the Federal Crop Insurance Regulations for the 1969 and Succeeding Crop Years, as amended (7 CFR 401.101 et seq.) to be effective beginning with the 1976 crop year, which would amend § 401.103 and § 401.125 in the following respects:

1. The portion of the table relating to "Closing Dates" following paragraph (a) of § 401.103 of this chapter under the heading "Barley" is amended effective beginning with the 1976 crop year by striking out "and Wyoming" from the line reading "Colorado and Wyoming."

2. In section 6 of the Barley Endorsement shown in § 401.125 of this chapter, the table at the end thereof is amended effective beginning with the 1976 crop year by striking out "and Wyoming" from the line reading "Colorado and Wyoming."

The foregoing amendment will establish April 15 instead of March 31, as the closing date for filing applications and termination date for indebtedness in the State of Wyoming. Thus, the amendment would provide an additional 15 days in Wyoming for applicants to obtain barley crop insurance, and for insureds to pay their premiums before their contracts are terminated for indebtedness.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed amendment should send the same to Melvin R. Peterson, Manager, Federal Crop Insurance Corporation, Room 4096, South Building, U.S. Department of Agriculture, Washington, D.C. 20250. All written submissions must be delivered or postmarked no later than May 2, 1975 to be sure of consideration. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Manager during regular business hours, 8:15 a.m. to 4:45 p.m., Monday through Friday (7 CFR 1.27(b)).

Dated: March 28, 1975.

[SEAL] PETER F. COLE,
Acting Secretary, Federal
Crop Insurance Corporation.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[50 CFR Part 227]

ATLANTIC BLUEFIN TUNA

Threatened Species—Fish

Section 4(d) of the Endangered Species Act of 1973, 16 U.S.C. 1531 et. seq., provides that for any species listed as threatened, the Secretary shall issue such protective regulations as he deems necessary and advisable to provide for the conservation of such species. On April 2, 1975, the Director, National Marine Fisheries Service in consultation with the Director, United States Fish and Wildlife Service, published in the FEDERAL REGISTER (40 FR 14767) a notice of proposed rulemaking which would list the Atlantic bluefin tuna (*Thunnus thynnus thynnus*) as a threatened species in 50 CFR 17.33.

In anticipation of and in the event that, Atlantic bluefin tuna is listed as threatened, notice is hereby given that the Director, National Marine Fisheries Service proposes to establish the following regulations concerning the taking of Atlantic bluefin tuna. The proposed regulations establish catch quotas for several methods of taking during the fishing season, and outline reporting requirements to implement the measures to conserve and manage this species.

Interested persons may participate in this rulemaking process, by submitting written comments, views or objections on these proposed regulations on or before June 2, 1975. Further, any persons who feel that they may be adversely affected by these proposed regulations may file, on or before May 19, 1975, objections thereto and request a public hearing thereon. Said comments, views, objections, or requests for a public hearing shall be submitted to the Director, National Marine Fisheries Service, Washington, D.C. 20235, no later than close of business May 28, 1975.

JACK W. GEHRINGER,
Acting Director,
National Marine Fisheries Service.

It is therefore proposed to add new Part 227 "Threatened Species—Fish" as follows:

PART 227 THREATENED SPECIES—FISH

Subpart A—General

Sec.
227.1 Definitions.
227.2 Purpose of regulations.
227.3 Scope.
227.4 Enforcement.
227.5 Civil penalties.

Subpart B—Atlantic Bluefin Tuna

(Thunnus thynnus thynnus)

227.11 Catch quotas.
227.12 Prohibitions.
227.13 Size and weight tolerance.
227.14 Open and closed seasons.
227.15 Reporting requirements.

AUTHORITY: Endangered Species Act of 1973, Pub. L. 93-205, 16 U.S.C. § 1531 et seq. (the Act).

Subpart A—General

§ 227.1 Definitions.

Unless otherwise defined herein, the terms used in this part will have the meanings ascribed to them in Parts 217-22 of these regulations and the Act.

(a) "Angling" means taking fish with a hand-held rod and reel designed and manufactured for the purpose of sport.

(b) "Closed season" means the time during which threatened species may not be lawfully taken.

(c) "Dealer" means any person (as hereinafter defined) who carries out a commercial activity with respect to a threatened species, or parts thereof.

(d) "Fish" means finfish, mollusks, crustaceans, and all other forms of marine animal life other than birds or marine mammals.

(e) "Open season" means the time during which threatened species may be lawfully taken in accordance with established quotas or other limitations.

(f) "Person" means any individual, association, corporation, or partnership over which the United States has jurisdiction.

(g) "Purse seining" means taking fish by means of an encircling net and associated gear used in commercial fishing operations.

(h) "Threatened species" means any species over which the Secretary of Commerce exercises jurisdiction and which is listed as "threatened" pursuant to section 4(d) of the Endangered Species Act of 1973, 87 Stat. 884, Pub. L. 93-205.

(i) "Vessel" means all watercraft subject to the jurisdiction of the United States, except purse seine skiffs, which are used for taking, transporting, holding or preserving fish.

§ 227.2 Purpose of regulations.

The regulations contained in this part provide rules, procedures, and measures to conserve and manage any threatened species.

§ 227.3 Scope.

The regulations in this part apply only for fish or wildlife under the jurisdictional responsibilities of the Secretary of Commerce for the purpose of carrying out the Endangered Species Act of 1973. Threatened species of fish or wildlife other than those covered by these regulations are under the jurisdiction of the Secretary of the Interior. For rules and procedures relating to such species, see 50 CFR Parts 10-17.

V 40-64 APR 275

§ 227.4 Enforcement.

Enforcement agents of the National Marine Fisheries Service shall enforce these regulations and the Act. The Secretary may utilize by cooperative agreements, the personnel, services, and facilities of other Federal or State Agency for the purposes of enforcing this Act. The Secretary may also designate officers and employees of any State or of any possession of the United States to enforce the provisions of the Act.

§ 227.5 Civil penalties.

Any person who knowingly violates, or who knowingly commits an act in the course of a commercial activity which violates any provisions of these regulations or the Act with respect to a threatened species may be assessed a civil penalty by the Secretary of not more than $5,000 for each such violation. Any person who otherwise violates any provisions of these regulations or the Act with respect to a threatened species may be assessed a civil penalty by the Secretary of not more than $1,000 for each violation.

Subpart B—Atlantic Bluefin Tuna

(*Thunnus thynnus thynnus*)

§ 227.11 Catch quota.

The total annual catch quotas, by method of taking, for Atlantic bluefin tuna are as follows:

(a) *Purse seining.* (1) The total annual catch quota for Atlantic bluefin tuna that weigh between 14 pounds (6.4 kg.) round weight and 115 pounds (52.3 kg.) round weight is 1,000 short tons.

(2) The total annual catch quota for Atlantic bluefin tuna that weigh in excess of 115 pounds round weight is 200 short tons.

(b) *Taking by other than purse seining.* (1) The total annual catch of Atlantic bluefin tuna which weigh in excess of 115 pounds round weight is 1300 tuna. When taken by angling prior to September 1, the catch shall be limited to one tuna per vessel per day, which shall be counted as part of the total annual catch of 1300 tuna.

(2) Individuals may take and possess two Atlantic bluefin tuna per day by angling, which weigh between 14 and 115 pounds round weight.

§ 227.12 Prohibitions.

(a) It shall be unlawful for any person or vessel: (1) To take Atlantic bluefin tuna weighing less than 14 pounds (6.4 kg.) round weight or measuring less than 27 inches (68 cm.) in length (measured in a straight line from tip of the nose to the fork of the tail) except as provided for in § 227.13; and (2) to take Atlantic bluefin tuna in excess of the catch quotas established by § 227.11 and tolerances established by § 227.13.

(b) It shall be unlawful for any persons: (1) To possess Atlantic bluefin tuna taken in violation of these regulations; (2) to fail to comply with the reporting requirements under § 227.3; and § 227.15 (3) to engage in any commercial activity in territorial waters or on the high seas with respect to Atlantic bluefin tuna without prior approval from the Director.

§ 227.13 Size and weight tolerance.

(a) Purse seine vessels taking Atlantic bluefin tuna weighing more than 14 pounds but less than 115 pounds round weight, may in addition incidentally take, on any one trip, Atlantic bluefin tuna outside said weight limits provided, however, that the number of such tuna taken shall not exceed either 15 percent of the total number of tuna taken which do not exceed said limits, or 4 percent by weight the total weight of tuna taken which do not exceed said limits. All tuna taken incidentally shall be included in catch quotas set forth under § 227.11.

§ 227.14 Open and closed seasons.

(a) The season for taking Atlantic bluefin tuna by purse seining shall open January 1 of each calendar year.

(b) The season for taking Atlantic bluefin tuna by angling shall open January 1 of each calendar year.

(c) The season for taking bluefin tuna by methods other than seining and angling shall open September 1 of each calendar year.

(d) The Director shall announce in the FEDERAL REGISTER the closing of each open season for the taking of Atlantic bluefin tuna.

§ 227.15 Reporting requirements.

(a) *Dealers.* Dealers shall maintain and furnish to an authorized representative of the National Marine Fisheries Service, within 72 hours of a commercial activity, a complete record of all transactions, showing the numbers and weight, date of transaction, and disposition.

(b) *Vessels.* The master or operator of any vessel that takes an Atlantic bluefin tuna shall keep an accurate record of the fishing operations and provide this information to an authorized representative of the National Marine Fisheries Service within 72 hours of landing. The record shall include the vessel name, operator's name, and with respect to the catch, the date and place caught, weight, and numbers for tuna that weigh in excess of 115 pounds, and dealer's name and address when appropriate.

(c) It shall be the responsibility of the dealer to affix upon the tail of each Atlantic bluefin tuna that weighs in excess of 115 pounds, a tag, furnished by the National Marine Fisheries Service. The tear away portion of the tag shall be completed and mailed to the National Marine Fisheries Service within 72 hours of receipt of the fish.

(d) The affixed portion of the tag must remain in place until the tuna is being processed, packed for export, or otherwise disposed of, at which time the dealer shall cause the tag to be removed with a 3–6 inch section of the tail (caudal peduncle) and retain for collection by the National Marine Fisheries Service.

[FR Doc.75–8454 Filed 4–1–75;8:45 am]

[50 CFR Part 251]

FINANCIAL AID PROGRAM PROCEDURES

Fishery for American Lobster in the Gulf of Maine

Notice is hereby given that the Director, National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), has under consideration an amendment to Financial Aid Program Procedures (50 CFR Part 251) to incorporate in Subpart B of Part 251 a new section to adopt the "fishery for American lobster in the Gulf of Maine" as a Conditional Fishery.

It is the intent of the conditional fisheries regulatory mechanism as set forth in Part 251 of this chapter that NMFS financial assistance activities will be consistent with the wise use of the fisheries resources and with their development, advancement, management, conservation and protection. When, upon review and evaluation of situations and conditions in a fishery, it is determined that certain fisheries demonstrably do not need additional harvesting capacity to meet management needs and objectives those fisheries may be adopted as conditional fisheries. Fisheries adopted as conditional fisheries will be those in which application of NMFS financial assistance activities will be controlled in a manner which, on balance, will be consistent with the needs and objectives of management. Consequently, NMFS financial assistance programs will not be used to worsen conditions in those fisheries adopted as conditional fisheries. To the contrary, these programs may then be more effectively and efficiently used to assist established fishermen in all fisheries, including conditional fisheries, under terms and conditions as set forth in the cross-referenced regulations for each financial assistance program. However, this regulatory mechanism (50 CFR Part 251) is not viewed as a substitute for sound fisheries management and enforcement practices at the international, national, and state levels.

Subpart A of 50 CFR Part 251 sets forth the general policy under which financial assistance programs for the commercial fisheries will be administered and establishes the procedures to be used in proposing and adopting a fishery as a Conditional Fishery. Each fishery adopted as a Conditional Fishery will be enumerated under Subpart B of 50 CFR Part 251.

In considering the adoption of a Conditional Fishery, the terms and conditions of cross-referenced regulations for administering the Fishing Vessel Obligation Guarantee program (50 CFR Part 255) and the Fishing Vessel Capital Construction Fund program (50 CFR Part 259) are reviewed to assure that due consideration is afforded to participants or potential participants in these programs. Part 255 and Part 259 of this chapter should be referred to for details.

The proposed amendment, as set forth below, would incorporate in Subpart B of the regulations a new § 251.22 to classify the "fishery for American lobster in the Gulf of Maine" as a Conditional Fishery as the term is defined in § 251.1(l).

The principal situations and conditions under consideration for determining that the "fishery for American lobster in the Gulf of Maine" is in need of regulation under Part 251 of this chapter are described in the following Explanatory Statement.

Federal and State agencies as well as the general public were given time to comment on this proposed amendment after a similar notice was published on July 22, 1974, in the FEDERAL REGISTER (39 FR 26650). Comments that were received are being evaluated and the Director has determined that additional opportunity for presentation of written views and for evaluation of all available information is warranted. Accordingly, written views, data or arguments on this proposed amendment should be submitted to the Director, National Marine Fisheries Service, Washington, D.C. 20235. All communications received on or before July 1, 1975, will be considered before action is taken with respect to adoption of the proposed amendment.

By order of the Administrator, National Oceanic and Atmospheric Administration.

ROBERT M. WHITE,
Administrator.

Explanatory statement. The Director considers it necessary to classify the "fishery for American lobster (*Homarus americanus*) in the Gulf of Maine" as a Conditional Fishery for regulation under Part 251 of this chapter. For the purposes of this regulation, the Gulf of Maine lobster fishery is defined to include all waters west of an imaginary line drawn between Race Point Light, Massachusetts and Frenchman Point, Nova Scotia. The necessary situations and conditions for such classification follow.

Programs to conserve and manage the fishery for American lobster in the Gulf of Maine have relied generally on controlling the minimum size at which lobsters may be legally harvested and on restricting the harvesting of egg-bearing female lobsters; but these programs do not restrict the number of vessels or the units of fishing gear, i.e., lobster traps, which may be used in this fishery.

Scientific studies of Gulf of Maine American lobsters indicated that 90 percent or more of the available legal size Maine lobsters are caught each year, and that the majority of Maine lobsters reach minimum legal size (3 and 3/16 inches carapace length in Maine) when they are from 5 to 7 years old which is before most female lobsters have reached sexual maturity thus obviating any opportunity for them to spawn. Further, some wastage of lobsters is inevitable when lobsters are caught in traps which cannot be recovered by fishermen and such wastage probably increases with increased numbers of traps used in this fishery.

The estimated annual maximum sustainable yield from the Maine lobster fishery is about 22 million pounds. This amount was harvested in 1962 when about 5,600 craft, employing some 750,000, traps, were engaged in this fishery. During recent years, annual lobster landings in Maine have decreased to about 10 to 20 percent below the estimated annual maximum sustainable yield while the number of craft has increased more than 10 percent and the number of traps fished has increased more than 70 percent. Fishermen from New Hampshire and Massachusetts also harvest American lobsters in the Gulf of Maine under conditions similar to those of the Maine fishery. It is considered, therefore, that currently there are more craft and traps than needed to harvest the estimated annual maximum sustainable yield from the fishery for American lobster in the Gulf of Maine. Upon review of, among other things, the facts set forth herein, Maine is considering legislation to limit the number of lobster licenses as part of its conservation and management program.

Consequently, the Director is considering that the "fishery for American lobster in the Gulf of Maine" should be a Conditional Fishery in accordance with Part 251 of this chapter as it now appears that the use of the financial assistance programs to add vessel capacity which would lead to an increase in the number of traps being employed in this fishery would not be consistent with the needs and objectives of management.

It is proposed to amend Part 251 of this chapter, Subpart B—Conditional Fisheries to add a new § 251.22 as follows:

§ 251.22 Fishery for American lobster (*Homarus americanus*) in the Gulf of Maine.

[FR Doc.75–8513 Filed 4–1–75;8:45 am]

[50 CFR Part 251]

FINANCIAL AID PROGRAM PROCEDURES

Fishery for Salmon in Washington, Oregon, and California

Notice is hereby given that the Director, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, has under consideration an amendment to the regulations (50 CFR Part 251) which sets forth financial aid program procedures.

It is the intent of Part 251 of this chapter that financial assistance programs will not be made available when upon review of situations and conditions at hand, as well as prospective developments, the Director deems that the use of such financial assistance programs would not be consistent with the wise use and with the development, advancement, management, conservation, and protection of fisheries resources.

The proposed amendment, as set forth below, would incorporate in Subpart B of the regulation a new § 251.23 to classify the "fishery for salmon in Washington, Oregon and California" as a Conditional Fishery as the term is defined in § 251.1(l).

The principal situations and conditions under consideration for determining that the "fishery for salmon in Washington, Oregon and California" is in need of regulation under Part 251 of this chapter are described in the following Explanatory Statement.

Federal and State agencies as well as the public will be given time and opportunity to comment on this proposed amendment. Comments that are received will be evaluated giving full consideration to the national interest and the multiplicity of environmental, biological, economic, social, and other situations and conditions as the Director may deem relevant. Upon evaluation of all comments and available information the Director will take action as may be appropriate and will continue to monitor and assess situations and conditions related to the "fishery for salmon in Washington, Oregon, and California" to determine the continued need for regulation. This proposed amendment is published pursuant to the authority contained in section 4 of the Fish and Wildlife Act, 1956, as amended, Title XI of the Merchant Marine Act, 1936, as amended, section 607 of the Merchant Marine Act, 1936, as amended, the National Environmental Policy Act, and Reorganization Plan No. 4 of 1970.

Written views, data, or arguments on this proposed amendment should be submitted to the Director, National Marine Fisheries Service, Washington, D.C. 20235. All communications received on or before July 1, 1975 will be considered before action is taken with respect to adoption of the proposed amendment. No public hearing is contemplated at this time; however, any persons desiring a public hearing may request such a hearing by writing to the Director, National Marine Fisheries Service, Washington, D.C. 20235. In the event that a public hearing is found necessary, an appropriate notice to that effect will be published in the FEDERAL REGISTER.

By order of the Administrator, National Oceanic and Atmospheric Administration.

ROBERT M. WHITE,
Administrator.

Explanatory Statement. The Director considers it necessary to classify the "fishery for salmon in Washington, Oregon, and California" as a Conditional Fishery for regulation under Part 251 of this chapter. The necessary situations and conditions for such classification follow.

Washington, Oregon, and California have established laws, regulations, and joint agreements to protect and conserve the salmon fisheries in those areas of the Pacific Ocean over which these States have jurisdiction. These States, as well as the Federal Government and universities, carry out research studies and activities related to conservation and management of fisheries resources. Accordingly, based on information related to its salmon fisheries, each of the States of

V 40164 APR 275

Washington, Oregon, and California established stringent rules and regulations to restrict commercial fishing for salmon. However, during recent years, there have been progressive increases in the number of vessels engaged in taking the limited harvestable portion of salmon in those waters of the Pacific Ocean over which these States have jurisdiction. This condition has made it increasingly difficult for the States to carry out management programs to provide for the season and the conditions under which limited harvests of salmon may be taken while still conserving and protecting salmon fisheries resources.

Management agencies of these States have recognized that there presently exist more than enough vessels and gear to take the harvestable portions of each State's salmon runs and that, in addition, scientific advancement have increased the efficiency of salmon fishing gear. These conditions have made it necessary for State management agencies to place additional regulatory constraints on the commercial fishery for salmon, further complicating already difficult salmon fisheries management efforts. Management has further recognized that limited salmon resources cannot provide reasonable economic returns for an unlimited number of commercial fishermen, vessels, and gear, and that to continue additions of commercial salmon fishing vessels and gear would only further exacerbate the problems of management and affect the economic efficiency of the existing commercial salmon fishing fleet.

Examples of protective regulations used by State management agencies to constrain commercial fishing for salmon in Washington, Oregon, and California include the prohibition of the use of all but certain specified fishing gear, restrictions on the open seasons for commercial fishing, prohibitions that close certain areas to commercial fishing, and minimum size limits for salmon.

In view of the above situations and conditions, it appears that the use of financial assistance programs to add vessel capacity to the fishery for salmon in the States of Washington, Oregon, and California would not be consistent with the needs and objectives of management. Consequently, the Director is considering that the "fishery for salmon in Washington, Oregon, and California" should be a Conditional Fishery in accordance with Part 251 of this chapter.

It is proposed to amend Part 251 of this chapter, Subpart B—Conditional Fisheries to add a new § 251.23 as follows:

§ 251.23 Fishery for salmon in Washington, Oregon, and California.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 75-EA-20]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal aviation regulations so as to alter the Parkersburg, W. Va., Transition Area (40 FR 563).

A new NDB Rwy 3 instrument approach procedure developed for Wood County (Gill Robb Wilson Field) Airport, Parkersburg, W. Va. requires alteration of the transition area to provide additional controlled airspace for aircraft executing the new procedure.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before May 2, 1975, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Parkersburg, West Virginia, proposes the airspace action hereinafter set forth:

§ 71.181 [Amended]

Amend § 71.181 of Part 71, Federal aviation regulations so as to amend the description of the Parkersburg, W. Va. Transition Area by inserting, "within 4.5 miles west and 6.5 miles east of a 200° bearing from the Wood County (Gill Robb Wilson Field) Airport ILS localizer south course OM, extending from 5.5 miles north to 11.5 miles south of the OM;" following, "10 miles south of the OM;".

This amendment is proposed under (Sec. 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on March 19, 1975.

JAMES BISPO,
Acting Director,
Eastern Region.

[FR Doc.75-8444 Filed 4-1-75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 75-EA-21]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal aviation regulations so as to alter the Hazleton, Pa., Transition Area (40 FR 508).

A new LOC Rwy 28 instrument approach procedure developed for Hazleton Municipal Airport, Hazleton, Pa., requires alteration of the transition area to provide additional controlled airspace for aircraft executing the instrument approach procedure.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before May 2, 1975, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Hazleton, Pennsylvania, proposes the airspace action hereinafter set forth:

§ 71.181 [Amended]

Amend § 71.181 of Part 71, Federal aviation regulations so as to amend the description of the Hazleton, Pa. Transition Area by adding, "; within 4.5 miles each side of the Hazleton Municipal Airport ILS localizer east course, extending from the OM to 10 miles east of the OM." following, "east of the VOR."

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on March 19, 1975.

JAMES BISPO,
Acting Director,
Eastern Region.

[FR Doc.75-8445 Filed 4-1-75;8:45 am]

[14 CFR Part 71]

[Airspace Dockets Nos. 73-SO-38, 39, 44, 45, 48, and 58]

TRANSITION AREAS

Withdrawal of Proposed Alteration and Designation

The following notices of proposed rulemaking, together with the FEDERAL REGISTER publication date and the proposed actions to amend Part 71 of the Federal aviation regulations, are withdrawn:

1. Airspace Docket No. 73-SO-38, published in the FEDERAL REGISTER dated September 14, 1973 (38 FR 25696) proposing to alter the Dillon and Bennettsville, S.C., transition areas.

2. Airspace Docket No. 73-SO-39, published in the FEDERAL REGISTER dated June 27, 1973 (38 FR 16914) proposing to alter the Cheraw and Sumter, S.C., transition areas.

3. Airspace Docket No. 73-SO-44, published in the FEDERAL REGISTER dated June 29, 1973 (38 FR 17250) proposing to alter the Marion, S.C., transition area.

4. Airspace Docket No. 73-SO-45, published in the FEDERAL REGISTER dated June 29, 1973 (38 FR 17250) proposing to designate the Newberry, S.C., transition area.

5. Airspace Docket No. 73-SO-48, published in the FEDERAL REGISTER dated July 18, 1973 (38 FR 19131) proposing to alter the Clemson, S.C., transition area.

6. Airspace Docket No. 73-SO-58, published in the FEDERAL REGISTER dated August 29, 1973 (38 FR 23337) proposing to alter the Lancaster, S.C., transition area.

Subsequent to publication of the notices, it was determined that the proposed nondirectional radio beacons, at the above locations, would not be established, and action is required to withdraw the proposals to provide controlled airspace protection for IFR aircraft executing NDB instrument approaches to the airports.

In consideration of the foregoing, notice is hereby given that the proposed amendments contained in Airspace Dockets Nos. 73-SO-38, 39, 44, 45, 48 and 58 are withdrawn.

These withdrawals are made under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on March 21, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.75-8446 Filed 4-1-75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 75-EA-16]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal aviation regulations so as to designate a Luray, Va., Transition Area.

A new NDB instrument procedure is being developed for Luray Caverns Airport, Luray, Virginia. This development will require designation of a transition area to provide controlled airspace to protect aircraft executing the new instrument procedure.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before May 2, 2, 1975 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Luray, Virginia, proposes the airspace action hereinafter set forth:

§ 71.181 [Amended]

Amend § 71.181 of Part 71, Federal aviation regulations by designating a Luray, Va. Transition Area as follows:

LURAY, VA.

That airspace extending upward from 700 feet above the surface within a 7.5-mile radius of the center, 38°40'01" N., 78°30'01" W., of Luray Caverns Airport, Luray, Va., extending clockwise from a 266° bearing to a 314° bearing from the airport; within a 10-mile radius of the center of the airport, extending clockwise from a 314° bearing to a 348° bearing from the airport; within a 13.5-mile radius of the center of the airport, extending clockwise from a 348° bearing to a 040° bearing from the airport; within a 15-mile radius of the center of the airport, extending clockwise from a 040° bearing to a 057° bearing from the airport; within a 19-mile radius of the center of the airport, extending clockwise from a 057° bearing to a 074° bearing from the airport; within a 13.5-mile radius of the center of the airport, extending clockwise from a 074° bearing to a 141° bearing from the airport; within a 16.5-mile radius of the center of the airport, extending clockwise from a 141° bearing to a 166° bearing from the airport; within a 20-mile radius of the center of the airport extending clockwise from a 166° bearing to a 188° bearing from the airport; within a 14.5-mile radius of the center of the airport, extending clockwise from a 188° bearing to a 213° bearing from the airport; within a 20.5 mile radius of the center of the airport, extending clockwise from a 213° bearing to a 234° bearing from the airport; within a 12-mile radius of the center of the airport, extending clockwise from a 234° bearing to a 246° bearing from the airport; within a 10.5-mile radius of the center of the airport, extending clockwise from a 246° bearing to a 266° bearing from the airport.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on March 20, 1975.

DUANE W. FREER,
Director, Eastern Region.

[FR Doc.75-8504 Filed 4-1-75;8:45 am]

[14 CFR Part 75]

[Airspace Docket No. 75-RM-7]

JET ROUTE

Proposed Extension

The Federal Aviation Administration (FAA) is considering an amendment to Part 75 of the Federal aviation regulations that would extend Jet Route J10 from Denver, Colo., to Wolbach, Nebr., via North Platte, Nebr.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Rocky Mountain Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Park Hill Station, P.O. Box 7213, Denver, Colo. 80207. All communications received on or before May 2, 1975, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would extend J-10 from Denver, Colo., via North Platte, Nebr.; direct to Wolbach, Nebr. The proposed route extension overlies the North Platte Two SID which is used

V 40-64 APR 2 75

extensively by eastbound departures from Denver Airport. This would aid flight planning, reduce controller workload, and improve air traffic control procedures.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on March 27, 1975.

EDWARD J. MALO,
Acting Chief, Airspace and Air Traffic Rules Division.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 275]

[Release Nos. 34-11324, IA-448 File No. S7-559]

EXEMPTION OF INVESTMENT ADVISERS REGISTERED AS BROKER-DEALERS WITH RESPECT TO CERTAIN INVESTMENT ADVISORY SERVICES

Proposed Rulemaking

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to adopt Rule 206(3)-1 (17 CFR 275.206(3)-1) under the Investment Advisers Act of 1940 (15 U.S.C. 80b-1 et seq.) (the "Act"). The Rule would exempt investment advisers who are registered broker-dealers from the requirements of section 206(3) [15 U.S.C. 80b-6(3)] of the Act in connection with transactions in relation to which such brokers or dealers are acting as investment advisers solely by means of (1) publicly distributed written materials or publicly made oral statements, or (2) responses to specific requests for statistical information where such responses involve no expressions of opinion or estimates by the investment adviser as to the investment merits of a particular security; provided, however, that such materials and oral statements include a statement that if the purchaser of the advisory communication uses the services of the adviser in connection with a sale or purchase of a security which is a subject of such communication, the adviser may act as principal for its own account or as agent for another person.

For the purposes of this rule, publicly distributed written materials are those which are distributed to 35 or more persons who pay for such materials, and publicly made oral statements are those made simultaneously to 35 or more persons who pay for access to such statements.

Section 206(3) of the Act makes it unlawful for any investment adviser by use of the mails or any means or instrumentality of interstate commerce, directly or indirectly—

[A]cting as principal for his own account, knowingly to sell any security to or purchase any security from a client, or acting as broker for a person other than such client, knowingly to effect any sale or purchase of any security for the account of such client, without disclosing to such client in writing before the completion of such transaction the capacity in which he is acting and obtaining the consent of the client to such transaction. The prohibitions of this paragraph (3) shall not apply to any transaction with a customer of a broker or dealer if such broker or dealer is not acting as an investment adviser in relation to such transaction.

The Commission proposes to adopt Rule 206(3)-1 because of indications that, as a result of the decision of the Commission that commission rates for securities transactions executed on or effected by the use of the facilities of a national securities exchange be unfixed,[1] broker-dealers whose performance of investment advisory services was solely incidental to their brokerage business and without separate charge therefor may now decide to charge separately for these services. This practice would cause them to be subject to the provisions of the Act. However, compliance with section 206(3) may be difficult in connection with the performance of certain impersonal advisory services. In these circumstances, an exemption from section 206(3) with respect to such impersonal advisory services appears to be consistent with the intent of Congress. Such services generally have been provided by broker-dealers without special charges. To that extent, they therefore have been services not subject to the provisions of the Act because of the exception provided by the Act from the definition of "investment adviser" for broker-dealers providing such services without special charge and solely incidental to their business as such broker-dealers.[2]

The Act broadly defines "investment adviser" to mean " * * * any person who, for compensation, engages in the business of advising others, either directly or through publications or writings, as to the value of securities or as to the advisability of investing in, purchasing, or selling securities, or who, for compensation and as part of a regular business, issues or promulgates analyses or reports concerning securities * * *"[3]

Any broker or dealer whose performance of investment advisory services is solely incidental to the conduct of his business as a broker or dealer and who receives no special compensation therefor is specifically exempted from the definition.[4] Broker-dealers who provide advisory services to their customers for special compensation are, therefore, "investment advisers" within the meaning of the Act and thus subject to the provisions of section 206(3) of the Act.

A large brokerage firm providing thousands of persons with investment advisory services such as market letters or other widely distributed written publications, seminars, or pricing and valuation services may find it difficult and impractical to determine with respect to each customer with whom the firm proposes to effect a principal or cross-trade whether the firm has acted as an investment adviser "in relation to such transaction." Moreover, the administrative problems of determining when and under which circumstances notice must be given, and the time involved in making such a determination as well as the problems of handling the volume of paperwork that would be generated in providing written notice to all such customers and in obtaining their consent, may make the procedure required by section 206(3) administratively unfeasible. Finally, because advisory recommendations are frequently quite specific with respect to a particular time interval or a specified price range within which a security is to be purchased or sold, it may be impractical to require the broker-dealer to wait until receipt of the customer's consent before executing principal transactions or cross-trades.

The Commission proposes, therefore, to utilize the exemptive rulemaking process provided by sections 206A (15 U.S.C. 80b-6a) and 211(a) (15 U.S.C. 80b-11(a)) of the Act[5] to afford investment advisers who are registered broker-dealers an exemption from section 206(3) with respect to their provision of certain impersonal investment advisory services.

The exemption has been limited to these services because they do not normally involve a close personal relationship between adviser and client which is likely to result in the client's relying on the adviser for services as a broker or dealer. In contrast, such a relationship exists, for example, in situations involving investment supervisory services or discretionary management. In these situations, as well as in the rendering of investment advisory opinions on an individual basis, the recipients of such services place a special trust and reliance on their investment advisers. In that context, it is critical that when the adviser also acts as agent or principal in securities transactions with the client, the protections of section 206(3) should be applicable.

For purposes of the proposed Rule, publicly distributed written materials would be those which are distributed to 35 persons who pay for such materials, and publicly made oral statements would be those made simultaneously to 35 or more persons who pay for access to such statements.

A definition of "publicly distributed materials" and "publicly made oral statements" by reference solely to the number of "paying" customers to whom the materials have been sent or the statements made, has the virtue of being both simple and precise. The definition is also fitting to the purpose since persons who are merely recipients of materials distributed to a number of persons or among a number of persons to whom statements have been made, even if they have made special payments, are not as likely to have that type of close relationship with the adviser that would require that the section 206(3) protections be available.[6]

Rule 206(3)-1 would not in any way diminish the obligations, under the other antifraud provisions of the applicable federal securities laws, of investment advisers who are broker-dealers to provide full disclosure of material facts to persons to whom these services are made available.

Under the general anti-fraud provisions of the federal securities laws, all persons, in connection with the purchase and sale of securities, have the duty to disclose material facts.[7] In addition, brokers and dealers have a specific duty under the anti-fraud provisions of the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.) to disclose material facts to their clients,[8] and investment advisers have a similar duty under the anti-fraud provisions of the Act.[9] Thus, if a broker-dealer has a relationship of trust and confidence with its customers and as principal sells to those customers securities which it recommended to them, the broker-dealer is required to disclose to such customers the nature and extent of its adverse interest, including (1) the best price at which the securities could be purchased in the open market, and (2) the cost to the broker-dealer of the securities to be sold."[10]

A broker-dealer which recommends to customers a transaction in securities in which the broker-dealer is making an over-the-counter market, and who proposes to act as a principal in such transaction, may be required to disclose to the customer that it is a market-maker."[11] An investment adviser who issues publicly distributed materials has the duty to disclose to his customers any facts which might tend to call into question the presumption that the adviser is dispensing disinterested investment advice."[12] Thus, the statement which would be required by the proposed Rule is in addition to whatever disclosure may be required to comply with the provisions of subparagraphs (1) and (2) of section 206 (15 U.S.C. 80b-6) of the Act or other provisions of the federal securities laws concerning the adviser's interest, if any, as principal or agent in any security referred to in the investment advice.

The text of Rule 206(3)-1 (§ 275.206(3)-1) which the Commission proposes to adopt pursuant to sections 206A and 211(a) is as follows:

§ 275.206(3)-1 Exemption of investment advisers registered as broker-dealers in connection with the provision of certain investment advisory services.

(a) An investment adviser which is a broker or dealer registered pursuant to section 15 of the Securities Exchange Act of 1934 shall be exempt from section 206(3) in connection with any transaction in relation to which such broker or dealer is acting as an investment adviser solely (1) by means of publicly distributed written materials or publicly made oral statements or (2) through the issuance of responses to specific requests for statistical information where such responses involve no expressions of opinion or estimates by such investment adviser as to the investment merits of a particular security; provided, however, that such materials and oral statements include a statement that if the purchaser of the advisory communication uses the services of the adviser in connection with a sale or purchase of a security which is a subject of such communication, the adviser may act as principal for its own account or as agent for another person.

(b) For the purpose of this rule, publicly distributed written materials are those which are distributed to 35 or more persons who pay for such materials, and publicly made oral statements are those made simultaneously to 35 or more persons who pay for access to such statements.

NOTE: The requirement that the investment adviser disclose that it may act as principal or agent for another person in the sale or purchase of a security that is the subject of investment advice does not relieve the investment adviser of an disclosure obligation which may be imposed by subparagraphs (1) or (2) of section 206 or the other provisions of the federal securities laws.

All interested persons are invited to submit their views and comments on the above proposal to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549, on or before April 29, 1975. All such communications should refer to File No. S7-559 and will be available for public inspection.

By the Commission.

Dated: March 31, 1975.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

VETERANS ADMINISTRATION

[38 CFR Part 1]

SAFEGUARDING THE PRIVACY OF PERSONAL INFORMATION OF INDIVIDUALS IDENTIFIED IN VETERANS ADMINISTRATION INFORMATION SYSTEMS

Social Security Numbers

Notice is hereby given that the Veterans Administration is considering promulgating a new § 1.575 series in Title 38, Code of Federal Regulations, initiating only § 1.575 at this time. The § 1.575 series will implement the provisions of Pub. L. 93-579 (88 Stat. 1897) of December 31, 1974, which amends title 5, United States Code by adding after section 552 a new section 552a to regulate the collection, maintenance, use, and dissemination of personal information of individuals identified in information systems maintained by Federal agencies.

Section 1.575 implements section 7, Pub. L. 93-579, which makes it unlawful with certain exceptions to deny to any individual any right, benefit, or privilege provided by law because of such individual's refusal to disclose a social security number and provides that any Federal agency which requests an individual to disclose a social security number shall inform that individual whether that disclosure is mandatory or voluntary, by what statutory or other authority such number is solicited, and what uses will be made of it.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue, NW., Washington, DC 20420. All relevant material received before May 2, 1975 will be considered. All written comments received will be available for public inspection at the above

---

[1] Rule 19b-3 [17 CFR 240.19b-3] under the Securities Exchange Act of 1934 (the "1934 Act"), which has recently been adopted by the Commission (Rel. No. 34-11203) mandates the unfixing of commission rates effective May 1, 1975.

[2] Section 202(a)(11)(C) [15 U.S.C. 80b-2(a)(11)(C)] of the Act.

[3] Section 202(a)(11) [15 U.S.C. 80b-2(a)(11)] of the Act.

[4] See note 2, above.

[5] Pursuant to Section 206A, the Commission, by rules and regulations, upon its own motion, or by order upon application, may conditionally or unconditionally exempt any person or transaction, or any class or classes of persons, or transactions, from any provision or provisions of the Act or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Section 211(a) provides that the Commission shall have authority from time to time to make, issue, amend, and rescind such rules and regulations and such orders as are necessary or appropriate to the exercise of the functions and powers conferred upon the Commission elsewhere in the Act. For the purposes of its rules or regulations the Commission may classify persons and matters within its jurisdiction and prescribe different requirements for different classes of persons or matters.

[6] The figure 35, which has been selected for the definition of the terms "publicly distributed written materials" and "publicly made oral statements", is the same figure which is designated in Rule 146(g)(1) [17 CFR 230.146(g)(1)] of the Securities Act of 1933 [15 U.S.C. 77b et seq.] (the "1933 Act") as the limit on the number of purchasers of securities in an offering that would not be deemed to be a public offering within the meaning of Section 4(2) of the 1933 Act.

[7] Section 17(a) [15 U.S.C. 77q] of the 1933 Act, Section 10(b) [15 U.S.C. 77j] of the 1934 Act and Rule 10(b)-5 [17 CFR 240.10b-5] thereunder.

[8] Section 15c-1 [15 U.S.C. 78o(c)-1] of the 1934 Act and Rule 15c(1)-2, 15c(1)-3, 15c(1)-4, 15c(1)-5 and 15c(1)-6 [17 CFR 240.15c1-2, 240.15c1-3, 240.15c1-4, 240.15c1-5, and 240.15c1-6] thereunder.

[9] Section 206(1) [15 U.S.C. 80b-6(1)] and 206(2) [15 U.S.C. 80b-6(2)].

address only between the hours of 8 a.m. and 4:30 p.m., Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office and furnished the address and the above room number.

Notice is given that it is proposed to make this new section effective December 31, 1974.

A new centerhead, note and § 1.575 are added to read as follows:

SAFEGUARDING THE PRIVACY OF PERSONAL INFORMATION OF INDIVIDUALS IDENTIFIED IN VETERANS ADMINISTRATION INFORMATION SYSTEMS [1]

§ 1.575 Social security numbers in veterans' benefits matters.

(a) No one will be denied any right, benefit, or privilege provided by law because of refusal to disclose to the Veterans Administration a social security number.

(b) Anyone requested by the Veterans Administration to disclose a social security number, whether the request is oral or in writing, through use of instructions or captioned spaces on applications, forms, form letters, or correspondence, will be orally counseled or advised in writing that:

(1) Disclosure of the social security number is voluntary; however, refusal may delay action on the communication.

(2) The social security number, whether disclosed voluntarily by the correspondent or ascertained by the Veterans Administration from other sources, may be necessary in the development of evidence and documentation as required by title 38, United States Code.

(3) The social security number is used in the identification of veterans and their records and in the administration of veterans' benefits.

Approved: March 27, 1975.

By direction of the Administrator.

[SEAL] ODELL W. VAUGHN,
Deputy Administrator.

Department of the Air Force

USAF SCIENTIFIC ADVISORY BOARD

Meeting

MARCH 28, 1975.

The USAF Scientific Advisory Board ad hoc Committee for Review of Mission, Organization, Resources and Location of Air Force Cambridge Research Laboratories will hold a meeting in the Pentagon. The dates and times are as follows:

April 16, 1975, 9 a.m.–5 p.m.
April 19, 1975, 9 a.m.–5 p.m.

The portions of the meeting being held from 9 a.m. to 2 p.m. and from 4 p.m. to 5 p.m. each day will be closed to the public. During these times, the Committee will receive briefings and discuss matters listed in 5 U.S.C. 552(b) (1), (4), and (5), including classified briefings on the content and requirements of the AFCRL programs, discussions of proprietary information regarding future activities of AFCRL, internal planning meetings for the future activities of the Committee and briefings from AFSC on proposed reposturing and reorganization of Air Force laboratories.

The afternoon sessions on April 18 and 19 from 2 p.m. to 4 p.m. will be open to the public.

For further information, contact the Scientific Advisory Board Secretariat at 202–697–4648.

JAMES E. DAGWELL,
Chief, Documentation Management Branch, Directorate of Administration.

Department of the Navy

CHIEF OF NAVAL OPERATIONS EXECUTIVE PANEL ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. I), notice is hereby given that the Chief of Naval Operations Executive Panel Advisory Committee will hold a closed meeting on April 22 and 23, 1975, at the Pentagon, Washington, D.C. The sessions will commence at 9 a.m. and terminate at 5:30 p.m. each day.

The agenda will consist of matters which are classified in the interest of national security, including current intelligence, military capabilities, reserve and development projects, and long-range Navy plans. The Secretary of the Navy for that reason has determined in writing that this meeting should be closed to the public because it will be concerned with matters listed in section 552 (b) (1) of title 5, United States Code.

Dated: March 27, 1975.

WILLIAM O. MILLER,
Rear Admiral, JAGC, U.S. Navy Deputy Judge Advocate General.

DEPARTMENT OF JUSTICE

Law Enforcement Assistance Administration

COMMITTEE ON PREVENTION OF TERRORISTIC CRIMES, PRIVATE SECURITY ADVISORY COUNCIL

Notice of Meeting

Notice is hereby given that the Committee on Prevention of Terroristic Crimes of the Private Security Advisory Council (PSAC) to the Law Enforcement Assistance Administration LEAA), U.S. Department of Justice, will meet Wednesday, April 16, 1975, at the FBI Academy, Quantico, Virginia.

Discussion at this meeting will focus upon the development of techniques and procedures to prevent terroristic crimes by examining the nature of terroristic crimes and the current means used to defend against these crimes.

The discussion will be based upon confidential Government information and records and confidential commercial information relating to preventive techniques and procedures. The Administrator of LEAA has determined that these matters are within the scope of 5 U.S.C. 552(b) (47 and (7). In addition, since the discussion of confidential information will occur throughout the agenda, rather than in a separable portion of the meeting, it would be impractical to attempt to open part of the meeting while closing another part. As a result, the entire meeting will be closed to the public pursuant to section 10(d) of the Federal Advisory Committee Act, Pub. L. 92–463.

For further information on the PSAC, please contact Mr. Irving Slott, Director, Program Development and Evaluation, Office of National Priority Programs, LEAA, U.S. Department of Justice, 633 Indiana Avenue, N.W., Washington, D.C. 20531.

GERALD H. YAMADA,
Attorney-Advisor, Office of General Counsel.

Rural Electrification Administration

BIG RIVERS ELECTRIC CORP.

Draft Environmental Impact Statement

Notice is hereby given that the Rural Electrification Administration has prepared a Draft Environmental Impact Statement in accordance with section 102 (2) (C) of the National Environmental Policy Act of 1969, in connection with a loan application from Big Rivers Electric Corporation, P.O. Box 24, Henderson, Kentucky 42420. This project includes financing for two 225 MW gross (each) units to be constructed at the Robert Reid Station and approximately 69 miles of 161 kV transmission lines and related terminal facilities.

Additional information may be secured on request, submitted to Mr. David H. Askegaard, Assistant Administrator—Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250. Comments are particularly invited from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved from which comments have not been requested specifically.

Copies of the REA Draft Environmental Impact Statement have been sent to various Federal, State and local agencies, as outlined in the Council on Environmental Quality Guidelines. The Draft Environmental Impact Statement may be examined during regular business hours at the offices of REA in the South Agriculture Building, 12th Street and Independence Avenue, SW., Washington, D.C., Room 4310, or at the borrower address indicated above.

Comments concerning the environmental impact of the construction proposed should be addressed to Mr. Askegaard at the address given above. Comments must be received on or before June 2, 1975 to be considered in connection with the proposed action.

Final REA action with respect to this matter (including any release of funds) will be taken only after REA has reached satisfactory conclusions with respect to its environmental effects and after procedural requirements set forth in the National Environmental Policy Act of 1969 have been met.

Dated at Washington, D.C., this 26th day of March, 1975.

DAVID H. ASKEGAARD,
Acting Administrator, Rural Electrification Administration.

[FR Doc.75-8556 Filed 4-1-75;8:45 am]

KILKENNY UNIT PLAN, WHITE MOUNTAIN NATIONAL FOREST

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement on the Kilkenny Unit Plan for the White Mountain National Forest, USDA-FS-R9-DES-(ADM)-75-03.

The environmental statement concerns a proposed land use plan for 54,000 acres of Forest Service land located on the White Mountain National Forest in Coos County in the State of New Hampshire.

This draft environmental statement was transmitted to CEQ on March 25, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3231

Laconia, New Hampshire 03246

A limited number of single copies are available upon request to Forest Supervisor, White Mountain National Forest, Federal Building, 719 Main Street, P.O. Box 638, Laconia, New Hampshire 03246.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

Written comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Written comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor, White Mountain National Forest, Federal Building, 719 Main Street, P.O. Box 638, Laconia, New Hampshire 03246. Written comments must be received by May 25, 1975, in order to be considered in the preparation of the final environmental statement.

JOHN A. SANDOR,
Acting Regional Forester.

MARCH 25, 1975.

[FR Doc.75-8487 Filed 4-1-75;8:45 am]

Comments concerning the environmental impact of the construction proposed should be addressed to Mr. Askegaard at the address given above. Comments must be received on or before June 2, 1975 to be considered in connection with the proposed action.

Final REA action with respect to this matter (including any release of funds) will be taken only after REA has reached satisfactory conclusions with respect to its environmental effects and after procedural requirements set forth in the National Environmental Policy Act of 1969 have been met.

Dated at Washington, D.C., this 26th day of March, 1975.

DAVID H. ASKEGAARD,
Acting Administrator, Rural Electrification Administration.

Rural Electrification Administration

TRI-STATE GENERATION AND TRANSMISSION ASSOCIATION, INC.

Proposed Loan Guarantee

Under the authority of Pub. L. 93-32 (83 Stat. 65) and in conformance with applicable agency policies and procedures as set forth in REA Bulletin 20-22 (Guarantee of Loans for Bulk Power Supply Facilities), notice is hereby given that the Administrator of REA will consider providing a guarantee supported by the full faith and credit of the United States of America for a loan in the approximate amount of $19,056,000 to Tri-State Generation and Transmission Association, Inc., of Denver, Colorado. This loan will provide long-term financing for approximately two-thirds of a project consisting of three, 67 MW gas-fired turbines, two fuel oil storage tanks, 78 miles of pipeline and related equipment. The Association has a commitment from the National Rural Utilities Cooperative Finance Corporation for the long-term financing of the balance of the cost without a REA guarantee.

Legally organized lending agencies capable of making, holding and servicing the loan proposed to be guaranteed may obtain information on the proposed project, including the engineering and economic feasibility studies and the proposed schedule for the advances to the borrower, of the guaranteed loan funds from Mr. Wendell Garwood, Manager, Tri-State Generation and Transmission Association, Inc., P.O. Box 29198, Denver Colorado 80229.

In order to be considered, proposals must be submitted (within 30 days from the date of this notice) to Mr. Garwood. The right is reserved to give such consideration and make such evaluation, or other disposition of all proposals received, as Tri-State and REA deem appropriate. Prospective lenders are advised that the guaranteed financing for this project is available from the Federal Financing Bank under a standing agreement with the Rural Electrification Administration.

Copies of REA Bulletin 20-22 are available from the Director, Information Services Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated at Washington, D.C., this 26th day of March 1975.

DAVID H. ASKEGAARD,
Acting Administrator, Rural Electrification Administration.

Correction

In FR Doc. 75-6788 appearing at page 12134 in the issue of Monday, March 17, 1975 make the following corrections:

1. At page 12135, at the top of the 3d column, the heading to the table should read "IP^{-1}".

2. At page 12137, the table appearing at the top of the page should be headed by "S_1" with only "Column No." appearing on the 2d line.

3. At page 12138, in the table headed "S_7" the number "2" appearing in the last column on the last line should read "12".

4. At page 12138, in the first column, the first line of the first paragraph of text should read, "Recall that K_n for $1 \le n \le 16$, is the block".

National Oceanic and Atmospheric Administration

INSPECTION PROGRAM INVOLVING PRODUCERS, PROCESSORS, AND SHIPPERS OF FISH MEAL AND RELATED PRODUCTS

Agreement With the Food and Drug Administration and the Animal and Plant Health Inspection Service

On May 11, 1973, the National Marine Fisheries Service (NMFS) published a proposal in the FEDERAL REGISTER (38 FR 12334) to act favorably upon a request by the National Fish Meal and Oil Association and other industry groups to design and implement new inspection services to assist the fish meal industry in developing and applying sanitation guidelines for the control of *Salmonella* in fish meal plants and products. Fish meal inspection services were implemented by the NMFS in 1973, and were generally modeled after a similar but discontinued program conducted by the United States Department of Agriculture which was recognized by cooperating agencies to be effective in the control of *Salmonella*.

To gain formal recognition and cooperation regarding these newly implemented inspection services, the National Marine Fisheries Service, in conjunction with the Animal and Plant Health Inspection Service, and the Food and Drug Administration, have drawn up an agreement concerning certain related objectives in carrying out their respective responsibilities under the Agricultural Marketing Act, the Fish and Wildlife Act, and the Federal Food, Drug, and Cosmetic Act relative to the conduct of the NMFS operated inspection program for fish meal plants and products. The agreement, which sets forth the working arrangements being followed or adopted in the interest of the public so that each agency will discharge as effectively as possible its inspection and standardization activities

V 40-64 APR 2 75

for fish meal plants and products, reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, FOOD AND DRUG ADMINISTRATION, AND DEPARTMENT OF COMMERCE NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, AND DEPARTMENT OF AGRICULTURE ANIMAL AND PLANT HEALTH INSPECTION SERVICE

INSPECTION OF INDUSTRIAL FISHERY PRODUCTS INTENDED FOR ANIMAL FEED USE

The Food and Drug Administration (FDA) of the Department of Health, Education, and Welfare is charged with the enforcement of the Federal Food, Drug, and Cosmetic Act. In fulfilling its responsibilities under the act, FDA directs its activities toward the protection of the public health of the nation by ensuring that foods are safe and wholesome and that products are honestly and informatively labeled. This is accomplished by inspecting the processing and distribution of foods and examining samples thereof, to assure compliance with the act. FDA also promulgates under the act, mandatory standards of identity, quality, and fill of container for food products after appropriate notices and public procedures.

The National Marine Fisheries Service (NMFS), under authorities established by the Agriculture Marketing Act and the Fish and Wildlife Act, is responsible for (1) the development and advancement of commercial grade standards for fishery products and better health and sanitation standards in the industry and (2) furnishing inspection, analytical, and grading services and issuing certificates to producers, processors, shippers, receivers, or interested parties. Its major purpose is to encourage and assist the industry in improving the quality and safety of its products, and to provide objective information by means of inspection and official certification concerning the class, quality, quantity, identity, or condition of products which will be of maximum assistance to interested parties engaged in the production, processing, and marketing of fish and fishery products.

The Animal and Plant Health Inspection Service of the Department of Agriculture, under the authority of the Meat and Poultry Inspection Acts, is responsible for the wholesomeness of these products for human consumption as well as the protection and improvement of animal and plant health.

These agencies have certain common or related objectives in carrying out their respective regulatory and service activities. This Memorandum of Understanding sets forth the working arrangements which are being followed or adopted to enable each agency to discharge, as effectively as possible, its responsibilities related to the inspection and standardization activities for industrial fish products intended for animal feed use.

Whereas, the parties recognized since early 1966 the need for coordinating efforts to avoid duplication and to provide for the most efficient use of resources; and

Whereas, the informal working agreement initiated in 1967 between APHIS and FDA has been discontinued and NMFS has agreed to continue program operations for industrial fishery products under its voluntary fisheries inspection program; and

Whereas, the purpose of this Memorandum of Understanding is to update, specify and formalize the current phase of an agreement, directed toward elimination of Salmonella from industrial fishery products.

SERVICES TO BE FURNISHED

A. The National Marine Fisheries Service will:

1. Provide a voluntary Salmonella inspection service for fish meal plants and products under its voluntary fisheries inspection program similar to that previously operated by APHIS.

2. Not carry out inspections and testing of products from plants under FDA investigation or enforcement procedures.

3. Provide the appropriate FDA field office, periodically or on request, with a list of firms participating in Phase I, Phase II, and Phase III of the Salmonella inspection program for fish meal plants along with any pertinent inspectional information data, and to revise such lists as needed.

4. Drop from NMFS-state program firms failing to meet the time schedule requirements of Phase II, or to make corrections recommended by the NMFS cooperative program.

5. Provide the appropriate FDA field office inspectional and analytical data on those plants failing to meet the agreed upon timetable for corrections.

6. Provide FDA headquarters (Bureau of Veterinary Medicine) with periodic reports on program progress.

B. The Food and Drug Administration will:

1. Recognize and support the Salmonella control program offered by the Department of Commerce as providing a desirable means of developing and maintaining Salmonella surveillance for participating fishmeal plants.

2. Recognize that the NMFS service provided in connection with voluntary contract inspection of fishmeal processing establishments contributes to and aids FDA in enforcement of pertinent statutes. The NFMS inspection service will not diminish FDA's authority to inspect but should minimize FDA inspections in establishments under NMFS contract inspection. In this regard NMFS inspectors shall routinely notify contract establishments of pertinent FDA requirements and advise them on how to comply and verify compliance. NMFS inspectors may not act as FDA inspectors but their inspections and consultations with FDA should reduce the necessity for FDA inspections.

3. Provide NMFS with a list of firms known by FDA to be manufacturers of industrial fish products intended for animal feed use including those identified as not engaged in interstate commerce.

4. Provide NMFS headquarters with timely status reports on the FDA-State-Industry Cooperative Salmonella Program. Provide timely notification to appropriate NMFS field personnel of all official seizure actions taken by FDA on industrial fish intended for animal feed use which are processed in NMFS inspected plants. This would include the name of the product, name of the plant, and the basis for the action taken.

C. The Animal and Plant Health Inspection Service of USDA will:

1. Support the principle of Salmonella control activities and recognize the value of, and continuation of inspection services of fish meal plants and products by NMFS.

D. It is mutually understood and agreed that:

1. FDA, NMFS, and APHIS, will participate in periodic meetings with each other and with industry to promote better communication and understanding of regulations, policy, and statutory responsibilities, and to serve as a clearing house for questions and problems posed by individual firms.

2. The two agencies, FDA and NMFS, will keep up-to-date records of the work carried out under the provisions of this agreement, such records to be made available to the cooperating parties upon request.

3. The two agencies, FDA and NMFS, will collaborate in furnishing reports of the progress of the work and such other reports as may be mutually agreed upon from time to time between the two parties.

4. The responsibilities assumed by each of the cooperating parties are contingent upon funds being available from which the expenditures legally may be met.

5. This understanding is entered into under the authority of the Economy Act of 1932, as amended (31–USC–686).

6. This Memorandum of Understanding shall become effective upon date of final signature and shall continue indefinitely, but may be modified or discontinued at the request of any party.

Requests for termination or any major change shall be submitted to the other parties for consideration not less than 60 days in advance of the effective date desired.

Approved:

Dated: October 31, 1974.

ROBERT M. WHITE,
Administrator, National Oceanic and Atmospheric Administration.

Dated: October 3, 1974.

A. M. SCHMIDT,
Commissioner, Food and Drug Administrator.

Dated: November 13, 1974.

E. E. NORRIS,
Acting Administrator, Animal and Plant Health Inspection Service.

Effective date. This agreement becomes effective April 2, 1975.

Approved:

ROBERT M. WHITE,
Administrator.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

PANEL ON REVIEW OF DENTIFRICES AND DENTAL CARE AGENTS

Notice of Meeting

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92–463, 86 Stat. 770–776; 5 U.S.C. App. D, the Food and Drug Administration announces the following public advisory committee meeting and other required information in accordance with provisions set forth in section 10(a)(1) and (2) of the act:

Committee name	Date, time, place	Type of meeting and contact person
Panel on Review of Dentifrices and Dental Care Agents.	May 7 and 8, 9 a.m., Conference Room G–H, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open May 7, 9 a.m. to 12 noon, closed May 7 after 12 noon, closed May 8, Michael D. Kennedy, (HFD–510), 5600 Fishers Lane, Rockville, Md. 20852, 301–443–4960.

Purpose. Reviews and evaluates available data on the safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing dentifrices and dental care agents.

Agenda. Open session: Discussion of the "The Relationship Between Bioavailability of Fluorides and their Anticaries Effectiveness". The guest speakers will include: Dr. John Hefferson, Dr. Finn Brudevold, Dr. Aaron Trubman, and Dr. Hershel Horowitz. Comments and presentations by interested persons. Closed session: Continuing review of over-the-counter dentifrices and dental care drug products under investigation.

Agenda items are subject to change as priorities dictate.

During the open sessions shown above, interested persons may present relevant information or views orally to any committee for its consideration. Information or views submitted to any committee in writing before or during a meeting shall also be considered by the committee.

A list of committee members and summary minutes of meetings may be obtained from the contact person for the committee both for meetings open to the public and those meetings closed to the public in accordance with section 10(d) of the Federal Advisory Committee Act.

Most Food and Drug Administration advisory committees are created to advise the Commissioner of Food and Drugs on pending regulatory matters. Recommendations made by the committees on these matters are intended to result in action under the Federal Food, Drug, and Cosmetic Act, and these committees thus necessarily participate with the Commissioner in exercising his law enforcement responsibilities.

The Freedom of Information Act recognized that the premature disclosure of regulatory plans, or indeed internal discussions of alternative regulatory approaches to a specific problem, could have adverse effects upon both public and private interests. Congress recognized that such plans, even when finalized, may not be made fully available in advance of the effective date without damage to such interests, and therefore provided for this type of discussion to remain confidential. Thus, law enforcement activities have long been recognized as a legitimate subject for confidential consideration.

These committees often must consider trade secrets and other confidential information submitted by particular manufacturers which the Food and Drug Administration by law may not disclose, and which Congress has included within the exemptions from the Freedom of Information Act. Such information includes safety and effectiveness information, product formulation, and manufacturing methods and procedures, all of which are of substantial competitive importance.

In addition, to operate most effectively, the evaluation of specific drug or device products requires that members of committees considering such regulatory matters be free to engage in full and frank discussion. Members of committees have frequently agreed to serve and to provide their most candid advice on the understanding that the discussion would be private in nature. Many experts would be unwilling to engage in candid public discussion advocating regulatory action against a specific product. If the committees were not to engage in the deliberative portions of their work on a confidential basis, the consequent loss of frank and full discussion among committee members would severely hamper the value of these committees.

The Food and Drug Administration is relying heavily on the use of outside experts to assist in regulatory decisions. The Agency's regulatory actions uniquely affect the health and safety of every citizen, and it is imperative that the best advice be made available to it on a continuing basis in order that it may most effectively carry out its mission.

A determination to close part of an advisory committee meeting does not mean that the public should not have ready access to these advisory committees considering regulatory issues. A determination to close the meeting is subject to the following conditions: First, any interested person may submit written data or information to any committee, for its consideration. This information will be accepted and will be considered by the committee. Second, a portion of every committee meeting will be open to the public, so that interested persons may present any relevant information or views orally to the committee. The period for open discussion will be designated in any announcement of a committee meeting. Third, only the deliberative portion of a committee meeting, and the portion dealing with trade secret and confidential information, will be closed to the public. The portion of any meeting during which nonconfidential information is made available to the committee will be open for public participation. Fourth, after the committee makes its recommendations and the Commissioner either accepts or rejects them, the public and the individuals affected by the regulatory decision involved will have an opportunity to express their views on the decision. If the decision results in promulgation of a regulation, for example, the proposed regulation will be published for public comment. Closing a committee meeting for deliberations on regulatory matters will therefore in no way preclude public access to the committee itself for full public comment with respect to the decisions made based upon the committee's recommendation.

The Commissioner has been delegated the authority under section 10(d) of the Federal Advisory Committee Act to issue a determination in writing, containing the reasons therefor, that any advisory committee meeting is concerned with matters listed in 5 U.S.C. 552(b), which contains the exemptions from the public disclosure requirements of the Freedom of Information Act. Pursuant to this authority, the Commissioner hereby determines, for the reasons set out above, that the portions of the advisory committee meetings designated in this notice as closed to the public involve discussion of existing documents falling within one of the exemptions set forth in 5 U.S.C. 552 (b), or matters that, if in writing, would fall within 5 U.S.C. 552(b), and that it is essential to close such portions of such meetings to protect the free exchange of internal views and to avoid undue interference with Agency and committee operations. This determination shall apply only to the designated portions of such meetings which relate to trade secrets and confidential information or to committee deliberations.

Dated: March 27, 1975.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

INSPECTION PROGRAM INVOLVING PRODUCERS, PROCESSORS, AND SHIPPERS OF FISH MEAL AND RELATED PRODUCTS

Agreement With National Oceanic and Atmospheric Administration and the Animal and Plant Health Inspection Service

CROSS REFERENCE: For a document issued jointly by the National Oceanic and Atmospheric Administration, the Animal and Plant Health Inspection Service and the Food and Drug Administration concerning the cooperative effort to design and implement new inspection services to assist the fish meal industry in developing and applying sanitation guidelines for the control of *Salmonella* in fish meal plants and products, see FR Doc. 75–8512, supra.

Office of Education

EMERGENCY SCHOOL AID ACT

Closing Date for Receipt of Proposals for Educational Television Projects

The Commissioner of Education hereby gives notice that pursuant to sections 711 and 704(b) of the Emergency School Aid Act (20 U.S.C. 1610 and 1603(b)), proposals are being accepted from public and private nonprofit agencies, institutions, and organizations for Educational Television projects. Processing of these proposals will be subject to the availability of funds.

Proposals for assistance must be received by the U.S. Office of Education Application Control Center on or before May 19, 1975.

A. *Proposals sent by mail.* A proposal sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue, SW., Washington, D.C. 20202,

V 40-64 APR 2 75

Attention: 13.530. A proposal sent by mail will be considered to be received on time by the Application Control Center if:

(1) The proposal was sent by registered or certified mail not later than May 14, 1975, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The proposal is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.)

B. Hand delivered proposals. A proposal to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand delivered proposals will be accepted daily between the hours of 8 a.m. and 4 p.m., Washington, D.C. time, except Saturdays, Sundays, or Federal holidays. Proposals will not be accepted after 4 p.m. on the closing date.

C. Program information and forms. Information and proposal forms may be obtained from the U.S. Office of Education, Special Projects Branch, Equal Educational Opportunity, Room 2017, 400 Maryland Avenue, SW., Washington, D.C. 20202.

D. Project periods. Awards of assistance will be made pursuant to this notice for activities commencing no earlier than July 1, 1975.

E. Applicable regulations. Awards of assistance made pursuant to this notice will be subject to (1) the regulations contained in 45 CFR Part 185, and, (2) upon their becoming effective, the amendments thereto published as a notice of proposed rule making on March 28, 1975 at 40 FR 14166 and, (3) except where inconsistent with Part 185, the Office of Education General Provisions Regulations relating to direct project assistance programs (45 CFR Parts 100 and 100a). Proposers' attention is directed in particular to Subpart H, Educational Television, of the notice of proposed rule making.

(Catalog of Federal Domestic Assistance Number 13.530, Emergency School Aid—Educational Television)

(20 U.S.C. 1610 and 1608(b))

Dated: March 27, 1975.

T. H. BELL,
U.S. Commissioner of Education.

RIGHT TO READ SCHOOL BASED PROGRAM

Closing Date for Receipt of Applications

Notice is hereby given that pursuant to the authority contained in the Cooperative Research Act, Pub. L. 83-531, as amended, 20 USC 331, applications are being accepted for new grants under the Right to Read School Based Program.

Applications must be received by the U.S. Office of Education Application Control Center on or before May 9, 1975.

A. Applications sent by mail. An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue SW., Washington, D.C. 20202, Attention: 13.533. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than May 5, 1975, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.

B. Hand delivered applications. An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. 20202. Hand delivered applications will be accepted daily between the hours of 8:30 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

C. Authority. The regulations applicable to this program include the Office of Education General Provisions Regulations (45 CFR 100a), the General Regulations for Right to Read (45 CFR Part 151, Subpart A; published in the FEDERAL REGISTER on June 30, 1974 at 39 FR 22147). Final regulations governing the School Based Program are published in this issue of the FEDERAL REGISTER (45 CFR Part 151, Subpart C), and will govern the operation of the program.

D. Program information and forms. Information and application forms may be obtained from the Right to Read Program, U.S. Office of Education, Room 2131, 400 Maryland Avenue SW., Washington, D.C. 20202.

NATIONAL ADVISORY COUNCIL ON SERVICES AND FACILITIES FOR THE DEVELOPMENTALLY DISABLED

Meeting

The National Advisory Council on Services and Facilities for the Developmentally Disabled was established, by section 133(a)(1) of Pub. L. 91-517, which was signed on October 30, 1970, to advise the Secretary with respect to any regulations promulgated or proposed to be promulgated by him in the implementation of the Act and study and evaluate programs authorized by the Act with a view to determining their effectiveness in carrying out the purposes for which they were established.

Notice is hereby given, pursuant to Pub. L. 92-463 that the National Advisory Council on Services and Facilities for the Developmentally Disabled will hold a meeting on April 28 and 29, 1975. The meeting will be in Room 5051 Health, Education, and Welfare North Building, 330 Independence Avenue SW., Washington, D.C. from 9 a.m. to 5 p.m. on April 28th and 9 a.m. to 3:30 p.m on April 29th. Agenda: Executive Secretary's Report; Status of Developmental Disabilities Legislation; University Affiliated Facilities Report; De-Institutionalization and Community Alternatives; Comprehensive Health Planning; Recommendations for the Secretary.

This meeting open for public observation.

Further information on the Council may be obtained from Francis X. Lynch, Executive Secretary, National Advisory Council on Services and Facilities for the Developmentally Disabled, Mary E. Switzer Building, 330 C Street SW., Washington, D.C. 20201, telephone: Area Code 202-245-0335.

FRANCIS X. LYNCH,
Executive Secretary, National Advisory Council on Services and Facilities for the Developmentally Disabled.

MARCH 26, 1975.

SECRETARY'S ADVISORY COMMITTEE ON THE RIGHTS AND RESPONSIBILITIES OF WOMEN

Meeting

The Secretary's Advisory Committee on the Rights and Responsibilities of Women, which was established to review the policies, programs, and activities of the Department of Health, Education, and Welfare relative to women and to make recommendations to the Secretary on how to better the services of HEW's programs to meet these special needs of women, will meet on Thursday and Friday, April 24-25, 1975 from 9 a.m. to 5 p.m. in Room 1137, HEW—North Building, 330 Independence Ave. SW., Washington, D.C. The agenda includes a meeting with the Secretary to discuss the Committee's issues of concern and a panel presentation on vocational education and women.

Interested persons wishing to address the Committee, should contact the Acting Executive Secretary by COB Monday, April 21st. Phone: 202-245-8454. Written statements received by April 21st will be duplicated and distributed to the members. Members of the public are invited to attend the meeting.

Dated: March 27, 1975.

SANDRA S. KRAMER,
Acting Executive Secretary, Secretary's Advisory Committee on the Rights and Responsibilities of Women.

MICROWAVE LANDING SYSTEM ADVISORY COMMITTEE

Meeting

Pursuant to section 10(a)(2) of Pub. L. 92-463, notice is hereby given that the Microwave Landing System (MLS) Advisory Committee will hold a meeting on April 22, and 23, 1975, beginning at 8:30 a.m. in Conference Room 3201, Trans Point Building, 2100 2nd Street SW., Washington, D.C.

Topics to be considered include: the review of operational and design requirements for the Microwave Landing System (MLS); procurement plans for Phase III; current efforts on monitoring, L-Band Distance Measuring Equipment for MLS, flare guidance; activities related to the ICAO submission; and discussion of MLS benefits.

Anyone desiring further information on the meeting should contact Mr. G. Jensen, Executive Director, Microwave Landing System Advisory Committee, Federal Aviation Administration, 2100 2nd Street SW., Washington, D.C., 20591, Telephone 202-426-2072. The meeting will be open to the public.

Issued in Washington, D.C. on March 20, 1975.

GENE JENSEN,
Executive Director, Microwave Landing System Advisory Committee.

Federal Railroad Administration

[FRA Waiver Petition No. HS-75-6]

JOHNSTOWN AND STONY CREEK RAILROAD CO.

Petition for Exemption From Hours of Service Act

The Johnstown and Stony Creek Railroad Company has petitioned the Federal Railroad Administration pursuant to 45 U.S.C. 64a(e) for an exemption, with respect to certain employees, from the Hours of Service Act, 45 U.S.C. 61, 62, 63 and 64.

Interested persons are invited to participate in this proceeding by submitting written data, views, or comments. Communications should be submited in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, Attention: FRA Waiver Petition No. HS-75-6, Room 5101, 400 Seventh Street, SW, Washington, D.C. 20590. Communications received before May 2, 1975, will be considered before final action is taken on this petition. All comments received will be available for examination by interested persons during business hours in Room 5101, Nassif Building, 400 Seventh Street, SW, Washington, D.C. 20590.

Issued in Washington, D.C. on March 28, 1975.

DONALD W. BENNETT,
Chief Counsel, Federal Railroad Administration.

National Highway Traffic Safety Administration

[Docket No. EX75-5; Notice 2]

POLAR CO.

Petition for Temporary Exemption From Federal Motor Vehicle Safety Standard

The National Highway Traffic Safety Administration has decided to deny The Polar Company a temporary exemption from Motor Vehicle Safety Standard No. 121, Air Brake Systems, which it had sought on grounds of substantial economic hardship.

Notice of petition for the exemption was published in the FEDERAL REGISTER on February 4, 1975 (40 FR 5182), and an opportunity afforded for comment. Polar, of Holdingford, Minnesota, manufactures air-braked trailers, required as of January 1, 1975, to conform to Standard No. 121.

Polar stated that its primary and secondary suppliers had failed to deliver components necessary for conformance (air brakes and axles) as promised, and proposed delivery dates extend into the first half of 1975. Accordingly, Polar asked for a 6-month exemption from the standard, at the end of which it will comply. Because of its limited sales in a competitive field the company argued that a 6-month shutdown could result in a loss of its entire market. The company's net income in the fiscal year ending May 31, 1974, was $427,000. It further argued that an exemption would be in the public interest, as Polar "is the largest employer in the small rural area of Holdingford, Minnesota," and a denial would mean a loss of jobs, perhaps permanent, for its 125 employees.

No comments on the petition were received during the comment period. Subsequently, however, objections to it were filed by the Heil Corporation and by Robert W. Berry, Esq., on behalf of Brenner Tank Company and Dairy Equipment Company. Heil stated "there is an excess of 121 components available and we will be happy to supply Polar Manufacturing Company with all they need at our cost." Mr. Berry stated "there is ample evidence that suppliers have such conforming components available in stock." Both comment on the unfair competitive advantage to other trailer manufacturers that an exemption to Polar would provide.

Polar's is the only petition for exemption from Standard No. 121 that the NHTSA has received from a trailer manufacturer. The agency has talked with the prime suppliers Polar listed in its petition, and has been assured that a supply problem no longer exists. Evidently, therefore, Polar can now begin to manufacture conforming trailers.

For these reasons, the NHTSA finds that insufficient justification has been presented for an exemption from Standard No. 121, and the petition by Polar Company is denied.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410); delegation of authority at 49 CFR 1.51.)

Issued on March 26, 1975.

JAMES B. GREGORY,
Administrator.

CIVIL AERONAUTICS BOARD

[Docket 17207; Order 75-3-115]

ALLEGHENY AIRLINES, INC.

Certificate Amendment; Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 28th day of March, 1975.

V 40-64 APR 275

On February 5, 1975, Allegheny Airlines filed a petition for an order to show cause why its certificate for route 97–F should not be amended so as to authorize nonstop service between Rochester and Toronto,[1] by modifying segment 2 (Erie-Buffalo-Toronto) to read as follows:

2. Between the terminal point Toronto, Canada, the intermediate points Erie, Pa., and Buffalo, N.Y., and the terminal point Rochester, N.Y.

No answers in opposition have been filed in response to Allegheny's application.

Upon consideration of Allegheny's application and all relevant facts, we have decided to issue an order to show cause which proposes to grant the requested route amendment. We tentatively find and conclude that the public convenience and necessity require the amendment of Allegheny's certificate for route 97–F so as to authorize nonstop service between Toronto and Rochester, N.Y., by the modification of segment 2 thereof in the manner indicated above.

In support of our ultimate conclusion, we make the following tentative findings and conclusions. Allegheny is already certificated at the points in question and holds nonstop authority between Rochester and Toronto by exemption (see fn. 1, *supra*). The carrier presently operates six nonstop jet flights per day in the market, five of which continue to New York and one of which continues to Washington.[2] This service constitutes the only direct service in the market. In the Airline Route Agreement entered into between the United States and Canada and signed on May 5, 1974, route C.1 provides, *inter alia*, for nonstop rights for a U.S. carrier between Rochester and Toronto. In these circumstances, grant of Allegheny's application will permit the carrier to continue to provide a needed service and make use of new international authority[3] without significant diversion from any other U.S. carrier. Further, we note that Allegheny's application is unopposed.[4]

Interested persons will be given 30 days following adoption of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If any evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

Accordingly, *it is ordered*, That:

1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein, and amending Allegheny Airlines' certificate of public convenience and necessity for route 97–F by modifying segment 2 thereof to read as follows:

2. Between the terminal point Toronto, Canada, the intermediate points Erie, Pa., and Buffalo, N.Y., and the terminal point Rochester, N.Y.;

2. Any interested persons having objections to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendments set forth herein shall, within 30 days after the date of adoption of this order, file with the Board and serve upon all persons listed in paragraph 5 a statement of objections together with a summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections; [5]

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. A copy of this order shall be served on Allegheny Airlines, Inc.; Eastern Air Lines, Inc.; Delta Air Lines, Inc.; the Mayor of Rochester, N.Y.; the Governor of New York; and the U.S. Postal Service.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75–8535 Filed 4–1–75;8:45 am]

[1] Allegheny (and its predecessor Mohawk) has been operating nonstop service between Rochester and Toronto since 1966 pursuant to exemption authority granted by the Board in order E–23845, dated June 22, 1966.

[2] OAG, Mar. 1, 1975.

[3] Until the recently amended bilateral, Allegheny's Canadian authority was based upon an exchange of notes between the United States and Canada.

[4] We further tentatively find that Allegheny is a citizen of the United States within the meaning of the Act and is fit, willing, and able properly to perform the transportation pursuant to the amended certificate proposed and to conform to the provisions of the Act and the Board's rules, regulations, and requirements thereunder. We also tentatively find that the proposed new authority should be granted on a subsidy-ineligible basis, and we shall modify condition (5) in this connection.

[5] All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections, and no further such motions, requests, or petitions for reconsideration of this order will be entertained.

[Docket 26494; Agreement C.A.B. 24822, R–1 through R–19; Order 75–3–96]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Agreement Relating to South Pacific Air Fares; Order

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 26th day of March, 1975.

By Order 75–1–67, dated January 14, 1975, the Board established procedural dates for the receipt of carrier justification in support of an agreement filed by the International Air Transport Association (IATA) for effect April 1, 1975 through March 31, 1976, which would increase, with certain exceptions, all fares for U.S.-originating travel over the South Pacific by 13 percent [1] and impose stopover restrictions on various promotional fares not heretofore so restricted. In our order requesting justification and public comments the Board specifically addressed itself to certain anomalies in the proposed fare structure and set forth a format for the presentation of carrier data in order that the agreement might be properly evaluated. On February 27, 1975, Pan American World Airways, Inc. (Pan American), the only U.S. air carrier currently providing service over the South Pacific, submitted its justification. No comments have been received.

Pan American justifies the proposed fare increases on the basis of a need for additional revenue and improvement in its return on investment. The carrier alleges that without the proposed fare increases, it would realize a return on investment of 7.22 percent on its scheduled passenger service, for the year ending March 31, 1976. With the proposed increases, its scheduled passenger service would produce a return on investment of 13.26 percent. Under present fares, Pan American forecasts 995.4 million revenue passenger-miles and 2,136.0 million available seat-miles, for a passenger load factor of 46.6 percent.[2] With the proposed fares, Pan American projects 936.4 million revenue passenger-miles, and 2,136.0 available seat-miles, producing a load factor of 43.84 percent. In response to the Board's specific questions as to certain fare structure anomalies, Pan American responds that the differences in yield between certain city pairs results from the Board's insistence that IATA fares be held to the combination of local sector fares over Honolulu; that the only fares in the structure which offer a discount greater than 50 percent are the GIT and affinity fares; and that the Honolulu-Papeete group inclusive tour fare is set at the same level as the individual tour fare at the insistence of one foreign-flag carrier. It is alleged that, in any event, these group inclusive tour fares are very little used.

In the evaluation of any IATA agreement, the Board must consider not only the impact of the agreement upon the traveling public and the need of the carriers for increased revenues, but also what impact, if any, the agreement would have on the overall operations of the carriers providing service in the particular geographical area involved. While the Board has acknowledged that certain fare or rate increases may be in order because of increased costs, it has also determined that a carrier's overall financial position in a given area of operation may indicate its ability to absorb those particular cost increases and, in such circumstances, proposed increases have been disapproved.

To enable this sort of evaluation, the Board requested justification of the agreement here under consideration in a specified format, since Pan American's Form 41 recurrent reports are stated in terms of total Pacific operations—encompassing services to/from the mainland over North/Central and South Pacific routes as well as intra-Pacific services.[3] Specifically, the requested format was to proceed from Form 41 data through itemized exclusions which would have separately and successively isolated out North/Central Pacific services, intra-Pacific services, South Pacific all-cargo services, and lastly South Pacific mail and cargo service performed in combination aircraft: with the net result being an isolation of operating results stemming solely from South Pacific passenger service. Pan American has provided the latter. However, it has lumped together all those operations designated for exclusion in one aggregate sum and, thus, makes it impossible to evaluate the agreement before us in the context of the carrier's current overall experience in this rate-making area on the basis of current information. As a result, it is necessary to fall back in part upon data which Pan American furnished on November 15, 1974 in support of fuel-related fare and rate increases then being proposed.[4]

In November 1974, Pan American projected a return from combination service for the year ending September 1975 of 9 percent (including belly cargo and mail), and a return from all-cargo service of 35 percent—for an overall return in South Pacific service of 11.4 percent (Appendix III) [5] The Board concluded that, after certain indicated adjustments were made, this composite return would be in excess of 14 percent.[6] The carrier now projects a return from scheduled passenger service only for the year ending March 1976 of 7.22 percent at present fare levels. We attribute the difference between this projection and that of 9 percent made earlier to the exclusion of belly cargo and mail, since it would seem that the lapse of only three and one-half months could hardly be expected to alter expectations significantly. By the same token, we believe it reasonable to rely upon a return in all-cargo service for the year ending March 1976 which approximates the 35 percent earlier forecast for the year ending September 1975. The inescapable conclusion, in the absence of more current and refined data, would seem to be that the proposed increase in passenger fares on the South Pacific route is not necessary to provide Pan American with overall earnings which are consistent with the Board's 12 percent benchmark. Stated differently, approval of the agreement which, by Pan American's estimate, will produce a 13.26 percent return in scheduled passenger service alone, is unnecessary to ensure adequate earnings from operations in this rate-making entity, and could well result in excessive profits to the carrier.

Aside from this most basic issue, Pan American's traffic projections raise some question. Pan American's scheduled passenger load factor over the South Pacific for the year ended September 1974 was 50.35 percent. For the year ending March 1976 at present and proposed fares, the carrier projects load factors of 46.60 percent and 43.84 percent, respectively. This load factor decline is attributable primarily to a 12 percent increase in capacity and, in the Board's opinion, is incompatible with the dictates of today's environment that airlines hone their services more closely to demand.

As for Pan American's responses to the specific questions on fare structure raised in our procedural order, we accept its explanation that the distortions in yield are caused by the Board's insistence that fares be held to a combination of local sector fares over Hawaii. However, we are not persuaded by Pan American's contention that a continuation of discounts in excess of 50 percent is warranted simply by past practice. We also continue to be unpersuaded that GIT and IIT fares should be set at the same level. To the contrary, while we are not disapproving the agreement on these counts, such anomalies are clearly inconsistent with the principles of a rational cost-based transportation system, and we will continue to seek their elimination in the future. On the other hand, the imposition of stopover charges on promotional fares is a move in the right direction and we would urge the carriers to include such charges in any revised agreement.

For the reasons stated, the Board is unable to conclude that the agreement warrants approval insofar as fares to/from the United States are concerned and, accordingly, it will be disapproved. Various resolutions contained in the instant agreement which do not relate to basic fares and charges will be approved subject to conditions previously imposed by the Board.

Pursuant to the Federal Aviation Act of 1958 and particularly sections 102, 204(a) and 412 thereof, the Board makes the following findings:

(1) It is not found that the following resolutions incorporated in Agreement C.A.B. 24822 are adverse to the public interest or in violation of the Act subject, where applicable, to previously imposed conditions:

Agreement CAB	IATA No.	Title	Application
24822:			
R–1	000b	South Pacific-Special Effectiveness Resolution (Tie-In)	3/1 South Pacific.
R–2	001f	Special Emergency Escape for (South Pacific) Agreement (Revalidating and Amending).	3/1 South Pacific.
R–3	002	Standard Revalidation Resolution	3/1 South Pacific.
R–4	014a	Construction Rule for Passenger Fares (Amending)	3/1 South Pacific.
R–6	022g	JT3/1 (South Pacific) Special Rules for Sales of Passenger Air Transportation (Revalidating and Amending).	3/1 South Pacific.
R–7	022t	JT3/1 (South Pacific) Special Rules for Sales of Passenger Air Transportation (New).	3/1 South Pacific.
R–9	060	Economy-Class Conditions of Service (Amending)	3/1 South Pacific.

(2) It is found that the following resolutions incorporated in Agreement C.A.B. 24822, are adverse to the public interest and in violation of the Act insofar as they would apply in air transportation as defined by the Act:

[1] Economy fares from Honolulu and the U.S. west coast to Papeete would be increased by 20 and 15 percent respectively while the Honolulu-Papeete first-class fare would be increased by 18 percent.

[2] This compares with historical results for the year ended September 30, 1974 of 879.3 million revenue passenger-miles, 1,746.4 million available seat-miles, and a load factor of 50.35 percent.

[3] Appendices I through III filed as part of the original document.

[4] Board adjustments to Pan American's November justification based on current fares and rates indicated a rate of return of 11.8 percent in combination services and 41.2 percent in all-cargo services.

[5] Order 75–1–67 which established the procedural schedule for justification and comments relative to the agreement.

[6] Those increases were disapproved in light of the carrier's already sufficient earnings position (Order 74–12–23).

V 40-64 APR 2 75

[Docket 26494; Agreement C.A.B. 24964, R-1 through R-46, R-48 through R-50, R-52 through R-62; Order 75-3-96]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Approving Agreements

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 26th day of March, 1975.

By Order 75-2-102 (February 25, 1975) the Board approved increases in U.S.-Caribbean and U.S.-Central/South America fares, and reaffirmed the increases in most U.S.-Mexico fares which had been approved previously in Order 74-12-49 (December 13, 1974). Increases in U.S. west coast-Mexico fares were disapproved. The increases were contained in agreements among the carrier members of the International Air Transport Association (IATA).

The Board acted on these agreements, which involved increases of approximately six percent in U.S.-Mexico fares, four percent in U.S.-Caribbean fares, and eight percent in U.S.-Central/South America fares, after careful evaluation of detailed economic justification submitted by the U.S. carriers as recently as January 22, 1975 in response to a specific Board request (Order 74-12-49). The carrier forecasts, together with data from Form 41 reports, indicated that the U.S. carriers would earn the following composite rates of return on investment in each ratemaking area during the year ending September 30, 1975:

[In percent]

	Present fares	Proposed fares
United States-Mexico (Excluding U.S. west coast)	[1] 3.9	11.4
United States-Caribbean	(10.9)	(8.2)
United States-Central/South America	7.5	10.6

[1] Return experienced during the 12 months ended September 30, 1974, before the new higher fares went into effect.

The Board's analysis indicated that in none of the areas would the U.S. carriers realize earnings above the 12 percent benchmark, and accordingly the respective fare increases were approved. At the same time, however, the Board stated that the levels of return forecast in the U.S.-Mexico and U.S.-Central/South America markets indicated that further material increases in those markets were not justifiable for the year immediately ahead. The Board disapproved the increase in U.S. west coast-Mexico fares on the basis that Western Air Lines, Inc., the only U.S. carrier providing direct service, was currently experiencing very profitable results (20.0 percent return on investment for the year ended September 30, 1974) in its Mexico operations; that Western's forecast of a decline in return to about 10 percent was questionable; and that in any event Western's present earnings were adequate and no showing had been made that a fare increase was warranted.[2]

A new IATA agreement has now been filed setting forth a proposed Western Hemisphere fare structure for effect from April 1 or April 15, 1975 through April 30, 1976. The agreement proposes an increase of about six percent in U.S.-Mexico fares; five percent in U.S.-Caribbean fares (nine to ten percent for first-class fares); and increases ranging from four to ten percent in U.S.-Central/South America fares. As noted above, the Board believes U.S. carrier earnings in the Mexico and Central/South America markets to be adequate at present fares,

[2] Although Western is not an IATA member, it proposed to match the IATA fare increase and was directed to submit justification in the same format as the IATA carriers.

and accordingly we will herein disapprove those portions of the agreement which would increase fares in those areas.[3] We will, however, approve various ancillary resolutions which do not affect fare levels. In the Caribbean, on the other hand, the carriers are generally experiencing substantial operating losses, and are expected to achieve a composite ROI of —8.2 percent at present fares. Assuming a five percent increase in scheduled passenger revenues, with no allowance for demand elasticity, and the same level of operations and costs as previously forecast, the carriers would achieve a composite ROI of —2.0 percent.

The Board is proceeding to act on the instant agreements without an additional request for justifications and comments because we have just completed a detailed evaluation of carrier justifications covering the same ratemaking areas treated in this order. We believe any additional material submitted at this time would be essentially duplicative, and would merely reaffirm the conclusions reached herein and in Order 75-2-102. However, if any person believes that it has new data which would sustain different findings, e.g., which would clearly show that further fare increases are justified to/from Mexico and Central/South America, it is of course free to bring such material to the Board's attention under established procedures.

The Board, acting pursuant to the Federal Aviation Act of 1958 and particularly sections 102, 204(a) and 412 thereof, makes the following findings:

1. It is not found that the following resolutions, incorporated in Agreement C.A.B. 24964 as indicated, are adverse to the public interest or in violation of the Act:

Agreement CAB	IATA No.	Title	Application
24964			
R-1	001b	Special Effectiveness Resolution (Tie-in)	1 (Mexico).
R-2	001b	Special Effectiveness Resolution (Tie-in)	1 (Caribbean).
R-3	001b	Special Effectiveness Resolution (Tie-in)	1 (C/S America).
R-4	001kk	Special Resolution for Review of TC1 Fare Construction Rules (New).	1.
R-5	001oo	Special Escape for TC1 Agreement (New)	1.
R-6	002	Standard Revalidation Resolution	1 (Mexico).
R-7	002	Standard Revalidation Resolution	1 (Colombia).
R-8	002	Standard Revalidation Resolution	1.
R-9	002	Standard Revalidation Resolution	1.
R-10	003	Standard Rescission Resolution (New)	1.
R-11	012f	Definition of Areas within TC1 (New)	1.
R-12	014a	Construction Rule for Passenger Fares (Revalidating and Amending).	1.
R-13	014y	Construction Rule for High Density Class Fares (Revalidating and Amending).	1.
R-14	021bb	Special Conversion Rates (TC1) (Revalidating and Amending)	1.
R-15	021e	Brasil—Sales in Cruzeiros (New)	1.
R-16	038	Advertising of Propeller Fares (Revalidating and Amending)	1.
R-17	050	First-Class Conditions of Service (Amending)	1.
R-19	051b	TC1 First-Class Fares	1 (Caribbean).
R-22	051r	USA/Canada-Greenland First-Class Fares	1.
R-23	060	Economy-Class Conditions of Service	1.
R-25	061b	TC1 Economy-Class Fares	1 (Caribbean).
R-26	061r	USA/Canada-Greenland Economy-Class Fares	1.
R-33	070i	TC1 21-Day Excursion Fares, Canada-Bermuda/Caribbean (Revalidating and Amending).	1.
R-36	075t	TC1 Advance-Purchase Travel Group Fares (USA/Canada/Mexico—Bermuda/Caribbean/Venezuela) (Revalidating and Amending).	1.
R-42	076q	TC1 Own Use and Incentive Group Fares (Bermuda and Caribbean) (Revalidating and Amending).	1.
R-43	080L	TC1 10-Day Individual Inclusive Tour Fares—USA-Bermuda/Bahamas/Caribbean (Revalidating and Amending).	1.
R-45	080p	TC1 10/14-Day Individual Inclusive Tour Fares Canada and Bermuda/Bahamas/Caribbean (Revalidating and Amending).	1.
R-53	084l	TC1 14-Day Group Inclusive Tour Fares—Netherlands Antilles (Revalidating and Amending).	1.
R-54	084j	TC1 14-Day Group Inclusive Tour Fares—Venezuela (Revalidating and Amending).	1.
R-55	084jj	TC1 5-Day Group Inclusive Tour Fares—Venezuela (Revalidating and Amending).	1.
R-56	084LL	TC1 Group Inclusive Tour Fares—Caribbean—Mexico (Revalidating and Amending).	1.
R-62	311k	Charges for Skin Diving Equipment (New)	1.

2. It is found that the following resolutions, incorporated in Agreement C.A.B. 24964 as indicated, are adverse to the public interest and in violation of the Act to the extent they affect air transportation as defined by the Act:

[3] The Mexico agreement also proposes introduction of individual inclusive tour (IIT) fares to replace the current group inclusive tour (GIT) fares in most U.S. east coast and midwest-Mexico markets. That proposal is the subject of Order 75-3-97 issued concurrently herewith.

R-61	092o	TC1 Intra-Caribbean Youth Fares (Revalidating and Amending)	1

Accordingly, *it is ordered*, That:

1. Those portions of Agreement C.A.B. 24964 set forth in finding paragraph 1 above be and hereby are approved subject, where applicable, to conditions previously imposed by the Board;

2. Those portions of Agreement C.A.B. 24964 set forth in finding paragraph 2 above be and hereby are disapproved insofar as they affect air transportation as defined by the Act;

3. Jurisdiction be and hereby is disclaimed with respect to those portions of Agreement C.A.B. 24964 set forth in paragraph 3 above; and

4. Tariffs implementing those portions of Agreement C.A.B. 24964 approved herein shall be marked to expire not later than the expiration dates of the respective resolutions.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[4]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

North/Central Pacific and Intra-Pacific Air Fares; Order Approving Agreement

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 26th day of March, 1975.

Order 74-12-91 (December 23, 1974) established procedural dates for the receipt of carrier justifications and comments from interested persons pertaining to an agreement among the members of the International Air Transport Association (IATA) encompassing the overall North/Central Pacific and intra-Pacific fare structures to be applicable from April 1, 1975 through March 31, 1976.

The agreements contemplate an increase of eight percent in all fares for U.S.-originating travel over the North/Central Pacific and within the Pacific; elimination of presently available individual inclusive tour fares; and imposition of stopover limitations on various promotional fares not heretofore so restricted. Free stopovers in connection with individual excursion fares, affinity group fares, and group inclusive tour fares would be limited to a total of four, with additional stopovers available at a charge of $15 each.

Statements of justification have been submitted by Pan American World Airways, Inc. (Pan American) and Trans World Airlines, Inc. (TWA). Northwest Airlines, Inc. (Northwest), although not a member of IATA, has submitted a forecast of its anticipated financial results in North/Central Pacific scheduled passenger service in the same format as the IATA carriers.[1] No comments have been received from other persons.

Pan American states that it is currently earning a return on investment (ROI) of 3.71 percent in North/Central Pacific scheduled passenger operations (year ended September 1974), and that during the forecast year ending March 1976 it would earn an ROI of 9.65 percent under present fares. Under the proposed fares, it forecasts a return of 12.90 percent. Pan American attributes this financial improvement primarily to the beneficial effects of the Pan American/TWA route realignment approved by the Board in Order 75-1-133 (January 30, 1975), under which TWA will suspend all Pacific services. The carrier anticipates a level of operations reflecting a 50.3 percent increase in traffic and a 48.7 percent increase in capacity-for a net gain in load factor of 0.5 points to 49.9 percent at status quo fares. The carrier expects a load factor of 47.9 percent under the proposed fares, reflecting its estimate of demand elasticity.

TWA cites a historical ROI of —42.0 percent in Pacific passenger service, and forecasts returns of —25.6 percent and —18.5 percent under present and proposed fares, respectively, for the year ending March 1976. Since TWA suspended its Pacific operations on March 2, 1975 pursuant to the approved route realignment agreements, its projections are no longer pertinent to the Board's disposition of the agreements.

Northwest states that it earned an ROI of 5.58 percent in scheduled Pacific passenger service during the year ended September 1974, and anticipates returns of 8.05 and 12.08 percent under present and proposed fares, respectively, during the forecast period.[2] Northwest's forecast, which reflects no traffic demand elasticity, is based on a load factor of 51.0 percent, a 1.0 point improvement over the historical period.

In requesting carrier justifications of the agreements, the Board also sought comments on certain specific aspects of the fare structure, i.e., the proposed continuation of a number of promotional fares discounted more than 50 percent; the relatively high yields on Alaska-Far East fares as compared with yields from other U.S. gateways; and the rationale for cancellation of individual inclusive tour fares. On the first point, Pan American states that the group-100 affinity fare is the only fare which offers a discount from the normal economy fare in excess of 50 percent and seeks to support the level on the grounds that the restriction to groups of 100 persons warrants a discount of this magnitude, application is only to westbound originations, and that the fare was introduced and has been maintained in the IATA fare structure primarily at the insistence of one foreign-flag carrier. On the second point, Pan American contends that, although Alaska fares admittedly produce somewhat higher yields than fares from other U.S. gateways, a fare structure based on identical yields is simply not possible. If international Alaska fares were any lower, their combination with domestic west coast-Alaska fares would allegedly undercut west coast-Far East fares, which it contended to be another instance of conflict between U.S. domestic fares and international fares due to the higher costs of international flights. Finally, Pan American defends elimination of the individual inclusive tour fares on the basis that they carried an insignificant amount of traffic (1.56 percent of the total North/Central Pacific traffic during the year ended November 1974) and that, to the extent the fares were sold, substantial abuses occurred such as sale without the required ground arrangements.

Upon consideration of the proposed North/Central Pacific fare structure and the carrier justifications, the Board has determined to approve the agreements only insofar as they relate to first-class fares and promotional fares in economy-class service. The carriers' justifications indicate that they have incurred substantial cost increases which legitimately warrant some compensation in yield improvement. However, in the Board's opinion, this can be accomplished without an increase in normal economy fares at this time.[3]

At present fares, the carriers forecast a healthy although somewhat substandard composite return on investment of 9.13 percent. Under the proposed fares, Pan American forecasts a return of 12.90 percent, and Northwest a return of 12.55 percent, for a composite retirn on investment of 12.74 percent for aggregate U.S.-flag North/Central Pacific passenger services.

However, in the Board's opinion, Pan American's return may be understated. Pan American has projected a load factor which is somewhat below the carrier's historical experience in the North/Central Pacific market. In view of the route realignment cited above, there is no reason to believe that Pan American will be unable to improve its experienced load factor. Even assuming that Pan American does not exceed its reported historical load factor of 49.4 percent (year ended September 30, 1974), it would still achieve an ROI of 13.38 percent. Thus, it appears that if the proposed fare increases were approved in toto, both U.S. carriers would receive earnings in excess of the 12 percent ROI benchmark. In these circumstances the Board is unable to conclude that approval of the proposed increase in normal economy fares is essential to the carriers' financial stability, and accordingly it will be disapproved.

Disapproval of the normal economy fares coupled with approval of the various promotional fares would also have the benefit of reducing the spread between the two, an objective which the Board has long urged. The present promotional fare struture includes discounts ranging up to 59 percent from the normal economy fare and, contrary to Pan American's contentions, the affinity group-100 fare is not the only fare offering a discount greater than 50 percent. The affinity group-70 and the basic season GIT fares both offer discounts in excess of 50 percent in several markets. Data supplied by Pan American indicate that travel at discount fares now accounts for more than 54 percent of its North/Central Pacific traffic on scheduled service, which suggests that the normal economy-fare passenger is, or with normal traffic growth will be, subjected to the burden of an unnecessarily high fare level. With the present disparity in the levels of promotional and normal economy fares it can only be expected that traffic will move increasingly and disproportionately to the former. Retention of normal economy fares at status quo levels will substantially eliminate discounts in excess of 50 percent and move the structure in the direction of a more rational and cost-related relationship between the various fares. We would also note that the agreement has the additional merit of imposing stopover restrictions on promotional fares, a further step in moving toward a more cost-related structure which the Board has long urged.

Finally, the Board is unable to conclude that approval of the proposed Alaska-Far East fares is warranted in view of the disparity in yield between these fares and those to/from other U.S. gateways. Concededly a similar disparity exists under present fares. However, it would be exacerbated by this new agreement to a point which is no longer acceptable. For example, the present normal economy fare from Anchorage to Tokyo represents a yield of 13.12 cents per revenue passenger-mile as compared to a yield of only 9.48 cents from the Los Angeles-Tokyo fare, a difference of 3.64 cents.[4] We accept Pan American's contention that adjustment of Alaska-Far East fares to reflect west coast yields would, when combined with domestic fares, produce undercuts of the west coast-Far East fares. Our analysis of fares to Tokyo (holding normal economy fares at *status quo*) indicates that undercuts would encompass normal first-class and economy fares, excursion fares, and in one case the affinity group-25 fare, and range from $212 for the Los Angeles-Anchorage-Tokyo first-class fares to $8 for the Seattle-Anchorage-Tokyo affinity group-25 fare. However this is not to say that fares could not be constructed which would avoid undercuts and at the same time result in a significant reduction in fares to/from Alaska. For example, based on the present yield at Seattle where the potential for undercuts appears to be the greatest, the Anchorage-Tokyo normal economy fare would be $725. In combination with the $230 domestic Seattle-Anchorage fare this admittedly would undercut the specified $1004 Seattle-Tokyo fare by $49. However, the addition of this $49 to the constructed Anchorage-Tokyo fare would eliminate the undercut and would at the same time effect a $164 reduction in the present Anchorage-Tokyo fare. In summary, the Board acknowledges the structural intricacies of establishing Alaska fares on an equivalent cents-per-mile basis with fares from other west coast points in the lower 48 states; but we are not prepared to permit fares any higher than necessary to cover the particular construction problems presented.

The Board, acting pursuant to the Federal Aviation Act of 1958 and particularly sections 102, 204(a) and 412 thereof, makes the following findings:

1. It is not found that the following resolutions, incorporated in the agreements indicated, are adverse to the public interest or in violation of the Act provided that approval is subject, where applicable, to conditions previously imposed by the Board:

[1] The carriers' submissions are detailed in the Appendices filed as part of the original document.

[2] We have adjusted Northwest's forecast to include $553,00 in "other transport revenue" and $759,000 "nontransport revenue," which were included under the scheduled passenger service in Northwest's statement of historical results but omitted, without explanation, from its forecast. After this adjustment Northwest's return under present fares would be 8.52 percent, and 12.55 percent under proposed fares.

[3] In addition to disapproving North/Central Pacific normal economy fares, we will also disapprove increases in normal economy fares between Guam and other points in Traffic Conference 3. The special TC3 excursion fares for U.S. military personnel will also be disapproved consistent with Order 74-4-2 (April 1, 1974) which disapproved these fares on the basis that they represented unjust discrimination by offering opportunities for vacation travel to a small segment of the flying public. All fares between American Samoa and other TC3 points will be disapproved consistent with our action disapproving South Pacific fares in Order 75-3-96. The balance of the TC3 agreement will be approved or, as appropriate, the Board will disclaim jurisdiction.

[4] The proposed fares for the same points would have produced yields of 14.15 cents and 9.89 cents per revenue passenger-mile, respectively, a difference of 4.27 cents.

Secretary.

[FR Doc.75-8431 Filed 4-1-75;8:45 am]

[Docket 27671; Order 75-3-102]

NATIONAL AIRLINES, INC.

"No Frill" Fares; Order

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 27th day of March, 1975.

By tariff revisions[1] marked to become effective March 29, 1975, National Airlines, Inc. (National), proposes to establish new fares, called "no frill" fares, in 32 markets where it operates wide-body aircraft.[2] The fares would apply for transportation in the rear compartments of those aircraft, are discounted 35 percent from normal coach fares,[3] and would apply from April 14, 1975 through December 16, 1975 except for a summer blackout (July 1 through September 2) and a blackout around Thanksgiving (November 25 through December 1).

The "no frill" tariff would only be valid for departures scheduled on Monday through Thursday of each week. No meals or snacks would be provided, although coffee, tea, milk and soft drinks would be available at a charge of $0.25. No alcoholic beverages would be sold. The tariff carries a seven-day advance-purchase requirement with reservations accepted only at the time of ticket purchase. A cancellation charge of $10 or 10 percent of the ticket price, whichever is higher, would be assessed for "no shows," cancellation, or reservation change. No length-of-stay requirements apply since the fares are published on a one-way basis.

American Airlines, Inc. (American), Continental Air Lines, Inc. (Continental), Delta Air Lines, Inc. (Delta), and Eastern Air Lines, Inc. (Eastern), have filed to match National's "no frill" fares in markets where they are competitive, although with some modifications. These filings will be disposed of by subsequent order.

In support of its proposal and in answer to the complaints, National points to the continuing decline in traffic, which allegedly reached 1.5 percent in the fourth quarter of 1974 and a further 1.9 percent in January 1975, and argues that "the development of a sound and profitable fare aimed at bringing back scheduled air transportation within the reach of that large portion of the price-conscious American public which has been progressively excluded from the market place" is needed to deal with this situation. At the same time, National is seeking to improve the utilization of its wide-body aircraft, which are experiencing low load factors and are thus not realizing their potential operating efficiency. National contends that the industry's wide-body load factors (domestic operations) dropped from 57.4 percent in the third quarter of 1974 to 45.2 percent in the last quarter.

National defends its use of Phase 5 methodology in its justification, and submits evidence that it is reducing its system seat-miles while its New York-Florida competitors are increasing capacity. National submits that, despite this voluntary capacity cut-back, it is still faced with excessive capacity, and that its "no frill" fare program is thereby entirely consistent with the Board's discount fare policy enunciated in the *DPFI*. National attempts to justify its profit-impact test based on a survey taken of sales already made for its "no frill" service for the three-day period March 11 through 13, and argues that the mid-week Florida excursion fare does not represent a duplication of its traffic-generation estimate.

American and Eastern have filed complaints against the fares, requesting suspension and investigation. Both complainants allege that National has failed to demonstrate any cost savings which would justify a 35 percent discount, that the cost saving for wide-body versus conventional aircraft is far less than that claimed by National, and that the proposal is discriminatory because it is limited to wide-body aircraft. American further alleges, inter alia, that National would gain a tremendous competitive advantage, that the proposal is intended more to divert traffic from its competitors than to generate new traffic; and that the fares would, in effect, be as much a basic class of service as night coach or economy fares.

Eastern alleges, inter alia, that National's proposed program is not necessary at this time since other promotional fares have recently been introduced; that it carries the threat of spreading throughout the industry and to other aircraft types. Eastern alleges that, if considered a lower priced economy fare, it should be suspended because it does not reflect any cost savings over and above the $4 differential determination in Phase 9. If the fares are considered as discounted promotional fares, Eastern contends that National has failed to show that they meet the profit-impact test. Finally, Eastern contends that National has ignored the impact if its 7–21 day midweek excursion fare and has, in effect, double counted generation of excursion-fare passengers in obtaining its generation estimate.

In addition, United Air Lines, Inc., (United) has answered in support of the complaints. The Council on Wage and Price Stability and the Southern Florida Hotel and Motel Association (Association) have answered in support of National's proposal.[4] The Civil Aeronautics Board's Office of the Consumer Advocate has submitted a letter also supporting the "no frill" fare proposal.

Upon consideration, the Board has decided to permit National's "no frill" fares to become effective. It is generally recognized that air traffic is soft, and that appropriately devised fare incentives are needed to stimulate traffic The traffic decline experienced in recent months has led the domestic industry to establish a number of new discount fares. Whether or not the "no frill" fares will stimulate additional traffic without causing undue

[1] Revisions to Airline Tariff Publishers Company, Inc., Agent, Tariff C.A.B. Nos. 142, 202, and 220.

[2] New York-Miami/Fort Lauderdale and markets on its southern tier route. Five additional Ft. Lauderdale-southern tier markets have been common-fared with Miami although National does not operate single-plane wide-bodied schedules in these markets.

[3] National has designated the rear-most compartment of the DC–10–10 and DC–10–30, comprising 121 and 129 seats, respectively, as available for "no frill" passengers. The discount is applied to the pending "Phase 9" full coach fare (to be effective April 29, 1975). Accompanied children (ages 2–12) would be carried at 66⅔ percent of the adult "no frill" fare.

[4] Late filed answers in support of the fares were also filed by the Department of Transportation and the Department of Justice. Those answers were accompanied by motions to submit late filed documents which will be granted.

diversion is, of course, unknown. However, a survey taken by National of "no frill" sales, albeit limited to a three-day period, suggests that the fares have appealed primarily to pleasure/personal travelers, many of whom have discretionary incomes at lower ranges than those of persons typically using scheduled air transportation, and many of whom have apparently diverted from surface travel. In light of this initial experience and the widespread publicity the "no frill" fares have received, it may well be that the fares will have a generative impact in the magnitude estimated by National and prove to be profitable. For this reason, we believe the proposal merits a test in the marketplace.

However, the complaints raise a number of substantial questions as to the economics and lawfulness of the proposed fares which cannot be adequately answered at this time. These questions are clearly serious enough to require that the proposal be investigated.[5] We mention the question of generative impact above. With respect to the alleged greater efficiency of wide-body aircraft, which is National's primary basis for the discount, our evaluation of the latest operational and cost data indicates that the cost advantage in these particular markets, based on National's own experience, is far short of the 35.7 percent claimed by National. National's estimated advantage results almost completely from the fact that its wide-body jets operated at an average flight stage of 911 miles during fiscal 1974, while its narrow-body aircraft operated at a 401-mile average hop. In any event, however, the Board does not regard National's proposal as a long-term cost-based class of service but rather as a fare to be tested against the short-term Phase 5 criteria.

To insure that the overall fare level is not burdened by traffic moving on these fares, the Board has decided to include the traffic in its Phase 5 (DPFI) discount-fare adjustment in future evaluation of the industry's revenue need. Accordingly, we will require that the carriers specifically isolate the traffic, adult and children, in their discount-fare traffic submissions pursuant to Phase 5.

Accordingly, pursuant to the Federal Aviation Act of 1958, particularly sections 204(a), 403, 404 and 1002 thereof,

It is ordered, That:

1. An investigation be instituted to determine whether the fares and provisions described in Appendix A[6] attached hereto, and rules, regulations and practices affecting such fares and provisions, are or will be, unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions;

2. The motion by the United States Department of Justice for leave to file a late document is hereby granted;

3. The motion by the United States Department of Transportation for leave to file a late document is hereby granted;

4. Except to the extent granted herein, Dockets 27607 and 27610 are hereby dismissed;

5. The investigation ordered herein be assigned before an Administrative Law Judge at a time and place hereafter to be designated; and

6. A copy of this order be served upon American Airlines, Inc., Eastern Air Lines, Inc., National Airlines, Inc., United Air Lines, Inc., the United States Department of Justice, the United States Department of Transportation, the Council on Wage and Price Stability and the Southern Florida Hotel and Motel Association.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[7]

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 746]

COMMON CARRIER SERVICES INFORMATION[1]

Domestic Public Radio Services Applications Accepted for Filing[2]

MARCH 24, 1975.

Pursuant to §§ 1.227(b)(3) and 21.30(b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business one business day preceding the day on which the the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cut-off dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed confliction applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to §§ 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] VINCENT J. MULLINS,
Secretary.

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

21285-CD-P-75, Telanswer Radiophone Service (KUC853), C.P. to add Loc. No. 3 to operate on 158.70 MHz to be located at 507 South Arthur Drive, Pocatello, Idaho.

21286-CD-P-75, The Pacific Telephone and Telegraph Company (KUD229 Air-Ground), C.P. to change antenna height operating on 454.675 MHz located 5.6 miles North of Julian, California.

21287-CD-P-75, General Communications Company (KUC849), C.P. to replace transmitter operating on 35.22 MHz located at Westover Reservoir Park, Morgantown, West Virginia.

21288-CD-P-75, Nolen H. Cope (New), C.P. for a new station to operate on 454.075 MHz to be located at Intersection Hwy. 385 and Hwy. 137, Brownfield, Texas.

21289-CD-P-75, DPRS, Inc. t/a Zipcall (KCB880), C.P. to change antenna system and relocate facilities operating on 43.58 MHz located at Nobscott Hill, 5 miles North of Farmington, Massachusetts.

21290-CD-P-75, Meriden Telephone Company (New), C.P. for a new 1-way station to operate on 158.10 MHz to be located 1.7 miles NE of Meriden.

[5] The Board intends to expedite the investigation of the "no frill" fares, and will promptly issue an order establishing guidelines for processing the case.

[6] Appendix A filed as part of the original document.

[7] TIMM, Member, filed the Concurrence and Dissent as part of the original document.

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations and other requirements.

[2] The above alternative cut-off rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Transmission Services (Part 21 of the rules).

V 40-64
APR 2 75

21291–CD–P–75, Radio Broadcasting of Nevada, Inc. (KUC996 Air-Ground), C.P. to change facilities operating on 454.675 MHz located at 320 East Carson Avenue, Las Vegas, Nevada.

21292–CD–P–75, Hawaiian Telephone Company (KUA231), C.P. to relocate facilities operating on 152.57 MHz at Loc. No. 1, located 53 South Church Street, Walluku, Hawaii.

21293–CD–P–75, Mobilfone of Kansas (New), C.P. for a new 1-way station to operate on 152.24 MHz to be located at U.S. Highway 183, 2.9 miles North of Hays, Kansas.

21294–CD–P–75, Inter State Telephone Company (KQZ727), C.P. to change antenna system operating on 152.84 MHz located at 100 North Cherry Street, Galesburg, Illinois.

Major Amendment

21186–C2–P–(3)–74, Stockton Mobilphone, Inc., El Dorado California (KRM984), amend to change the control frequency at location No. 3 (2771 Ralph Avenue, Stockton, California) and location No. 4 (3502 Kroy Way, Sacramento, California) to 72.50 MHz. All other particulars to remain the same as reported in PN No. 696, dated April 15, 1974.

20618–CD–75, Island Telepage Systems, Oak Harbor, Washington, (New) amend to change base frequency 152.24 MHz. to read 454.300 MHz. and to add second transmitting antenna site at Lummi Island, Washington to operate on same frequency; change the antenna system at the proposed Blyn Mountain, Washington site. All other particulars are to remain the same as reported on PN No. 726, dated November 4, 1974.

6383–C2–P–68, The Bell Telephone Company of Pennsylvania, Philadelphia, Pennsylvania, (New) amend to change antenna system of location No. 1; 12 South Street; Loc. No. 2 4900 N. Broad Street; Loc. No. 3 2210 Lott Street, Philadelphia, Pennsylvania. Also change power at Loc. No. 1 and antenna location No. 2 to 4900 North Broad Street, Philadelphia, Pennsylvania. All other particulars are to remain the same as reported on PN No. 402–1, dated August 28, 1968.
